## ANNUAL REPORT

### REPORT OF SUPERINTENDENT OF SCHOOLS

This year has proved to be a very satisfactory one, particularly from the standpoint of the teaching staff. We have been fortunate in retaining the services of excellent teachers, and in cases where placements were necessary last September, we were able to employ well qualified persons.

The installation of oil burners in all buildings, except the Irving School, has greatly increased the comfort of pupils and teachers. Before another winter, the Durrell and Burnham schools should be equipped with double windows, in order to further improve the efficiency of the oil burners.

New furniture has been installed in the Durrell School, replacing pupils' desks and chairs that were in bad condition.

Parents and citizens in the Durrell, Burnham and Irving districts, through volunteer effort, redecorated the interior of those buildings. These improvements were greatly needed and indicated fine cooperation on the part of interested parents and friends.

Transportation of children has been continued in a very satisfactory manner, under two contracts.

Supplies and textbooks have been adequately furnished. All buildings are used practically to capacity. Any substantial increase in enrollment will require either additional housing or the payment of tuition to a neighboring town.

Again, the great need is a new consolidated school. There is a bill before the present Legislature, which if enacted, will provide an opportunity for Towns which do not have adequate resources to build a school, to finance a building program through a State financing agency. This opportunity should be explored if and when such legislation is passed.

Limited facilities and large enrollments prevent us from having a sub-primary grade. The entrance age for grade one is six years on or before December 31, following the September entrance.

The Town of North Kennebunkport has been an Equalization town for a number of years. Towns who have a local school tax rate which exceeds the average State tax rate for school maintenance receive additional money from the State, as computed by a special formula. This year North Kennebunkport's local school tax rate did not exceed the State average, therefore, there will be no Equalization money in December 1951. This will require more money to be raised in town meeting to offset the reduction in income.

There is a bill in the Legislature which provides for a new

## ANNUAL REPORT

formula for subsidy payments to Towns. This bill does away with all previous subsidy laws including Equalization. If this legislation passes subsidy payments to North Kennebunkport will increase by about \$4,000. over total subsidies of recent years.

I recommend that a school survey Committee be appointed whose function will be to study ways and means by which the Town may build a consolidated school, with particular attention to opportunities of financing that may be provided by pending legislation.

I wish to thank the School Committee, teachers and citizens for their continued cooperation.

Respectfully submitted,

February 15, 1951

PAUL LARRABEE,

Superintendent.

ANNUAL REPORT  
**ANNUAL REPORT OF THE  
 PUBLIC HEALTH NURSE—1950**

Health is our most prized possession. Very few of us appreciate it until illness strikes. The aim of Public Health Nursing is to promote health, prevent disease and give nursing care to the sick.

A good start in life' is very important and Child Health Conferences for health supervision from birth to school age are held on the third Tuesday of each month from 3:00 p. m. to 5:00 p. m. Sixty-one infants and preschools attended these conferences during 1950. Because of the difficulty in heating the Town Hall, the conferences have been discontinued for the winter and will be resumed in the spring. I will include a few comparative statistics to show the number of inoculations' that have been given since the program started. Because of these inoculations, there should be a low incidence of these diseases in town.

	1947	1948	1949	1950
Smallpox vaccinations	17	61	33	23
Diphtheria	9	53	28	22
Whooping Cough	2	40	14	17
Tetanus	4	3	20	19

In an attempt to find unknown cases of tuberculosis, patch testing was done in the schools. One hundred and twenty-seven were tested and of this group, four were positive reactors. Nineteen refused to have the test done. A positive reaction does not indicate that active tuberculosis is present, but points the need for further investigation and X-ray studies.

Physical examinations were offered to all first grade pupils. Parents are notified of any defects and referred to their family physician for treatment. Follow-up visits are made by the nurse to check on corrections made.

The Dental Health Program has been continued and sodium fluoride treatments were given to all second grade children with the parent's consent. This program has stimulated much interest in mouth health with the results of more visits to the dentist and better mouth care.

## ANNUAL REPORT

The number! of bedside nursing visits was about the same as during 1949. A total of one hundred and twenty-eight such visits were made in comparison to one hundred and thirty-one in 1949. I will now include a few statistics for different types of visits.

	1947	1948	1949	1950
Prenatal visits	29	17	3	37
Prenatal visits	4	12	22	21
Infants	35	65	76	102
Preschool	80	119	206	194

I would like to take this opportunity to thank all those who have helped make the program a success. I am especially grateful to the selectmen, Health Officer, Superintendent of Schools, the teaching staff, and last but not least, to the members of the Health Council who have lent their active support in so many ways. With your continued cooperation I hope the services will expand in 1951.

Respectfully submitted,

FLORENCE G. POIRIER, Field Nurse

State Bureau of Health

ANNUAL REPORT

**AUDITOR'S REPORT**

L. EVERETT OUTHOUSE

Public Accountant and Auditor

Portland, Maine

March 8, 1950

Board of Selectmen  
Town of North Kennebunkport  
North Kennebunkport, Maine

In accordance with your request, we have audited the records of the town of North Kennebunkport, for the municipal year ended February 6, 1950.

This examination was made in accordance with generally accepted auditing standards, and included all procedures which were considered necessary. Insofar as could be determined, within the scope of the examination, the financial affairs of the town appear to have been administered in a proper manner.

The results of the audit are disclosed in the exhibits and schedules embodied in this report, and fairly present the financial position of the town of North Kennebunkport, and the result of its operations for the municipal year ended February 6, 1950.

Respectfully submitted,

L. EVERETT OUTHOUSE
