# REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the Superintending School Committee and citizens of the Town of Bethel:

I herewith submit my fourth annual report of the schools and school property of this town.

Schools opened for the fall term with the following changes in the teaching staff: Miss Maxine Clough, Grade II; Miss Edna Page, Grade V; Miss Hermoine Hutchins, Grade VI; Miss Iva Bartlett, West Bethel Primary; Miss Beulah Burris, Northwest Bethel; Miss Eva Ladd, Middle Intervale; and Miss Frances Bean transferred to the South Bethel school. Miss Electa Chapin was granted a leave of absence of one year to attend Normal School.

All of the teachers have had experience and are well qualified for the positions which they occupy in the school system. They have shown a fine spirit of co-operation in doing their part to maintain a high standard of work in our school. Four attended summer school during the past summer. The reports from our students in the various secondary schools show that they are doing a good grade of work, which indicates that our boys and girls are being well prepared for High School.

Grade registration for the fall term was as follows:

	Boys	Girls	Total
Grade I	36	33	69
Grade II	21	25	46
Grade III	23	21	44
Grade IV	20	17	37
Grade V	22	17	39
Grade VI	25	22	47
Grade VII	19	21	40
Grade VIII	26	10	36

The attendance during the fall term was very good, but since the opening of the winter term there has been more illness among both teachers and pupils than for several years. Except in a few cases, parents have co-operated very

finely this year in doing their part to see that their children attend school regularly.

The town did not make any appropriation for a school nurse at the March meeting, therefore the school physician has had to do his own work and the work of the nurse as far forth as possible. With more than 350 pupils in school a nurse is needed to check up the physical condition of the children at least once a year and to do follow-up work.

The textbooks are in fairly good condition, but new Arithmetics, Histories and reading material are needed. Only with the greatest economy is it possible to keep the schools supplied with textbooks on the appropriation which we have from year to year.

The schoolhouse at East Bethel has been placed in good condition by being painted both inside and outside. Only a few minor repairs have been made on the other schoolhouses. The roof of the Grammar School building will have to be repaired the coming summer as it has commenced to leak; also it will be necessary to provide a new toilet system for the South Bethel schoolhouse.

Through the generosity of the Auxiliary of George A. Mundt Post 81, a flag has been presented to the Primary School by Mrs. Grace Coburn, President. On account of present conditions it was decided not to maintain a public playground for the children at the Primary building the past summer.

The salaries of teachers were reduced 10% during the past year. With further reductions planned for another year, the decrease will average around 20% for each teacher. The town of Bethel will then be paying its teachers a lower average salary than most of the towns in the county. The salaries of our teachers are already low, as the women teachers receive only an average of \$18.14 per week for the school year of 36 weeks, or an average of \$12.56 for the 52 weeks. This makes the average salary per week lower than that of the girl who works in an office or factory. A great many people do not take into consideration the cost of special education required of the teacher, attendance at summer schools, and a working year of only 36 weeks with living expenses for 52 weeks.

It was necessary on account of the appropriation to reduce the amount paid for conveyance 12½%. When the fall

term opened we found that two other routes had to be added, so that the most of the amount which would have been saved had to be used to pay for the increased transportation. With the appropriation asked for by the Superintending School Committee it will be necessary to further reduce the cost of transportation by paying each driver a less amount, also eliminating one or more routes.

The decrease in the State School fund for another year will be around 20% or about \$900. This means less money to spend for common school purposes. With the spending of the balance in the Common School account of \$585.07, the overdraft this year of \$140.22, and the recommendation of the Superintending School Committee for an appropriation of \$500 less than a year ago, we will have approximately \$2125.29 less with which to maintain schools for the coming year. To keep from a deficit in this department it will be necessary to spend 10% less for common schools than we are paying at the present time, making a reduction of 20% in our educational department in the last two years.

It will be necessary to increase the appropriation for High School tuition \$1000 to meet the increased enrollment another year, as we shall have at least 120 students registered in secondary schools.
