Supt. of Schools Report

To the Superintending School Committee and Citizens
of Owls Head:—

The work of the schools of Owl's Head during the past year has been successful. The methods of instruction and the government of the schools are satisfactory.

The entire teaching force has been changed since the last town meeting. The teachers who served the town for the two previous years were persons of ability and did efficient work.

At the present time the teachers at Ingraham's Hill and Timber Hill are Normal School graduates and the Ash Point teacher has done considerable work at Farmington Normal School and has a life certificate. All have had previous experience. Few small towns in this part of Maine have a so highly trained teaching force.

Some of our tuition pupils in the Rockland High School have not been doing satisfactory work. In some cases this has been due to lack of effort. This cannot be permitted as the town is responsible only where the work and deportment are satisfactory. A pupil who in spite of honest effort finds the work difficult may expect leniency, and it is doubtless true that the long walk is a tax on ones energy, may not

permit the very best work, but the pupil should make a reasonable effort if the tuition is to be paid for by the town.

The textbooks and supplies accounts show balances and slightly smaller appropriations will be sufficient, while in the common schools and tuition accounts larger sums must be raised or the accounts will have to be overdrawn.

At the Ingraham's Hill school the toilet should be joined to the school house as the law requires and some painting should be done, therefore a larger sum is asked for repairs.

During the past summer the toilet at Ash Point was connected with the school building and a woodshed was built on with it. This was erected partly on land acquired this year from Mrs. Snowdeal.

The annex as it is when this is written, is not at all satisfactory to the committee or superintendent. It is clearly not up to the specifications of the state. In some parts the workmanship is not satisfactory. The contractor has acknowledged that the work is not complete but has made no move to complete it. Unless he finds time to make this right, other persons must be employed to finish the job before it will be acceptable to the state.

The committee and selectmen were told that the superintendent of schools had seen and approved the finished job, and they paid for it on this understanding. As a matter of fact the superintendent had not seen the work after it was supposed to have been finished. The plans as agreed upon were for a building that would have satisfied the state's re-

quirements in every particular and we can be satisfied with nothing less.

It is my duty to remind the people of the town that a situation still exists where the children of an entire village have to attend a school quite outside the village and at an inconvenient distance from the homes of most of the pupils. I do not know that there is anyone who claims that the situation at Owl's Head Village is satisfactory in this particular. To me there seems but one solution worthy of consideration and I believe the people will eventually agree with me in this. The parents at Owl's Head whose small children must walk a long way to school will continue to be dissatisfied until something is done. I hope the time will come soon when the citizens of the town will feel able to erect a school house of moderate cost at some suitable location in the village.

The school accounts this year have presented few difficulties except in the case of certain tuition bills still outstanding, that involve differences of opinion as to the extent of the town's obligation.

Some of our citizens have assisted the teachers in the work of the noon lunches. The Parent-Teachers Association at Owl's Head assisted the School League at Timber Hill in the purchase of a Victrola.

A Parent-Teachers Association has been formed at Ingraham's Hill, where there are also boys' and girls' clubs to teach certain kinds of manual work. The efforts of the unselfish persons who give their time to the children should be appreciated.

In conclusion I wish to thank the town officials and all citizens who have cooperated with the schools

(32)

in the great work of training the children for future usefulness and happiness.

Respectfully submitted,
F. L. S. MORSE.
