We find instead of having \$3,092.90 as reported in 1927 report, we actually had \$1,888.94 from which we had to make several large abatements.

AUDITOR'S REPORT

I certify that I have examined the accounts of the Treasurer and Selectmen for the Town of Owls Head for the year ending Feb. 15, 1928, and find them correct and proper vouchers on file.

Report of Supt. of Schools

To the Superintending School Committee and to the Citizens of Owl's Head:

Please accept my sixth annual report as your superintendent of schools.

At the present time our three rural schools are doing excellent work. The teachers are trained and experienced persons of good character and ability. Our pupils are, for the greater part, diligent and are well governed. The methods employed have proven efficient.

Each year as our pupils enter the high school in Rockland they do satisfactory work, and in some cases win the highest honors. Last spring the valedictory in Rockland was awarded to Donald Merriam who formely attended the Timber Hill school, and Janet Nevin who received her elementary training at Ingrahams Hill won similar honors in a city of Virginia. This reflects credit upon our schools, as well as upon the fine intellectual quality of our boys and girls.

This year there is a small overdraft in the common schools account. The reason for this is that the amount of money received from the state was slightly smaller than had been expected. It is impossible to estimate accurately in February the amount of the state money which is awarded only after the results of the census are received and the yearly report of the school attendance is completed. Balances exist in the Tuition Textbooks, supplies and repairs accounts. It is sometimes embarrassing to the town officials to have these balances representing as they do, financial obligations at the end of the year, when as matter of fact, other accounts have been overdrawn and there is no bank balance. Where this condition exists it would seem wise for the town to vote to raise a sum of money sufficient to pay the amount of these balances.

There are more Owls Head pupils in the Rockland High School this year than attended in 1926, 1927, so there should be more money appropriated for tuition. If the numbers continue to be as at present or opproximately so an appropriation of \$525.00 will be needed.

Our textbooks account has a substantial balance, and although there should be some changes in the texts, a smaller appropriation will be sufficient.

There is a substantial balance in the repairs account. In this account, although it is not compulsory by law to carry along our balances as it is with other school accounts, it has been the custom to do so.

According to the law, toilets must be joined to the schoolhouses before September 1927. The toilet at Timber Hill has been so joined and a concrete vault built as the law provides. This was the only large item of expense this year.

In the coming year the school building at Ingraham's Hill must receive attention. The floor of the large coat room where wood has been stored settled under the weight last summer. This should be repaired and there should be some sort of a wood shed built for this school.

Wood must be housed and it is not convenient or sightly to have practically the entire space of the only room where the pupils can keep their wraps, occupied by fuel.

All of our schoolrooms are poorly lighted, the building at Ash Point especially so. Large windows on one side should replace the present inadequate system. As the left side of the pupils' desks is on the northern side, it might be wise to have the seats reversed so that the lighting could be on the sunny side. This would require care in curtaining the windows, but the building would be warmer. The stove could then be placed, as it should be, on the northern side of the schoolroom and jacketed.

I believe this would make the building more comfortable. This is now a cold, poorly lighted room depressing, alike to the teacher and the pupils.

All the school buildings should be properly lighted and heated in time. It can be done gradually and these are matters of vital importance to the children.

The fact that the Timber Hill schoolhouse is situated so far from the homes of the majority of the pupils continues to be a subject of complaint on the part of parents.

These citizens are entitled to consideration and as soon as the finances of the town can be so ordered as to make this possible, the present building should be moved to the village or a new building erected. A new building would be much more satisfactory and less expensive in the long run. This should not be forgotten. The citizens must be the judges as to when this will be possible, but the need remains.

If my consideration of the buildings seems to oc-

cupy undue space in this report it is because of the greater need in this branch of school affairs. We have good teachers and good books. Our greatest needs are buildings that will be comfortable and conducive to the welfare of the boys and girls.

In closing I wish to express thanks to the members of the committee, to the selectmen and treasurer for their courtesies and cooperation in school affairs.

Respectfully submitted
