I have examined the accounts of the Selectmen, Collector and Treasurer and find all expenditures supported by proper vouchers. Cash was reconciled with bank statement and found to be correct. Reports were prepared from these books and to the best of my knowledge and belief, reflect the true condition of the town.

JOHN N. GLIDDEN.  
Auditor.

# NEWCASTLE CEMETERY TRUSTEES' REPORT

During the year 1938 the work of caring for the cemeteries and individual lots, for which Trust Funds have been established, was carried on as in the past.

Four unmarked graves in the Sheepscot Cemetery were provided with markers and some grading was done in addition to the usual work. In the Glidden Street Cemetery some of the stones were cleaned. With the decrease in the income from the Trust Funds it is becoming somewhat difficult to continue to give the cemeteries, as a whole, the care that it was possible to give in former years. However, every effort is being made to carry on the work in so far as funds will permit.

Two additional Trust Funds have been established this year, the Austin Hall and the Elijah Hall Funds.

A list of the Trust Funds, their principal, the 1938 interest, expenditures and accumulated surplus is attached to and made a part of this report.

# REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

The annual report of the school department for the fiscal year ending February, 1939, is hereby submitted in accordance with the requirements:

## ELEMENTARY ENROLLMENT

The following tabulation indicates the assignment of teachers and registration of pupils for the beginning of the fall term, 1938:

Teacher	School	Grade	Enrollment
Leo Bridges,	Village—Grammar	5-8	38
Christine Greenleaf,	Village—Primary	1-4	32
Elinor Mahan,	Village—Assistant		
Letha Hickson,	Pond Road	1-8	12
Helen Leadbeater,	Sheepscot	1-8	16
Beryl Dorr,	North Newcastle	1-8	31
Lurie Ludwig,	Edison	1-8	25

During January arrangements were made to have the State Rural Agent visit each of our schools. These visits were followed by a teachers' meeting where special problems relating to the schedule of classes and teaching methods were discussed by this specialist in education. Methods of control of communicable diseases and cooperative duties of teachers with the health officers were outlined by Dr. J. W. Loughlin. Several of our teachers have undertaken, voluntarily, special school projects, such as, coping-saw carpentry, paper handicraft, improving the conditions in the classrooms, and utilizing the special school traveling libraries of the Maine State Library to supplement the study of reading and literature.

The educational standards are being increased from time to time, both by new laws and special rulings of the Department of Education. Minimum require-

ments for the first teaching certificate have been increased from attendance at a single summer session in our normal schools required in 1925 to two full years of normal school attendance now demanded. In consideration of the needs for teaching materials we should have several new sets of maps. According to the recommendation of the State Commissioner of Education expenditures for text books and reference sets should annually equal about \$2.50 for each pupil enrolled. Pursuant to the school laws the usual recommendation of \$15 is suggested for maintenance of flags and flagstaffs for the schools. The enrollment at the Pond Road School has now been reduced to eight pupils. Newcastle provides elementary school privileges for over 150 pupils; employs seven teachers; furnishes conveyance service to four school buildings; supplies fuel, text books and supplies. In spite of the large area of the town and the distribution of the school communities, these services are provided by your school committee at approximately the average tax rate for school purposes of all the towns of Maine.

### TEACHERS' SALARIES

Because of the date of the closing of the town books the expenditures for the fiscal year cover a period of only thirty-four weeks. Following is a tabulation of the amount paid to each teacher for this period:

Teacher.	School	Salary
Leo Bridges,	Newcastle—Grammar	\$752 40
Marion Smithwick,	Village—Assistant	51 20
Mary Jane,	Village—Assistant	160 00
Christine Greenleaf,	Village—Primary	649 80
Elinor Mahan,	Village—Assistant	332 80
Letha Hickson,	Pond Road	574 20
Beryl Dorr,	North Newcastle	649 80
Helen Leadbeater,	Sheepscot	211 20

Elinor Mahan, Sheepscoot	211 20
Lurie Ludwig, Edison	615 60

### REPAIRS ACCOUNT

Under our school laws the custody and care, including repairs and insurance of school buildings, of all school property "shall devolve upon the Superintending School Committee". The Repairs Account must be charged with all expenditures for apparatus and equipment used in connection with the schools, such as permanent maps, chairs, desks, stoves and furnaces, janitor equipment, in addition to the ordinary expenses for general repairs and construction on school buildings and grounds. Your Superintending School Committee has carefully checked each item in the recommendation for repairs; also items in the recommendations for the general school accounts, including secondary school tuition, property and transportation insurance coverage, conveyance of pupils, teaching materials, janitor service, water, lights, teachers' salaries, flags, and fuel.

It is a pleasure to take this opportunity to urge parents and citizens to visit their schools. It has been said that parents and teachers are 50-50 partners in the school life of the child. Grateful acknowledgment is made for the many valuable suggestions and assistance of your Superintending School Committee. The co-operation of the Municipal Officers, Teachers, and Citizens is greatly appreciated.

Respectfully submitted,

BLYNNE ALLEN, Supt. of Schools.
