SUPPLEMENTARY ASSESSMENTS.

In the Controversy over the proposed bridge from Bar Harbor to Bar Porcupine Island, lately known as Rodick's Island, and in the search of title connected with the sale of the western portion of the island, we learned there were contentions that this Island, as well as the other Porcupine Islands, which have been taxed in this town, for many years, was also located in this town; and upon having the matter investigated, it did appear quite conclusively, that the Island was located within the limits of this town. Suit was about to be brought by the town of Eden, against the principal owners, to recover the taxes assessed for 1909, in which the question of location would be settled by the Courts. In the event of the decision of the Courts locating the Island in this town, the unpaid tax assessed by Eden would be void and, unless a supplementary assessment was made by us, during our term of office, the taxation of the Island for the year 1909 would be lost.

We therefore, deemed it expedient to make a supplementary assessment tax on this property, which we accordingly did on the 24th. day of December and certified same to the collector, which may, later, prove to be an additional asset of \$642 to this town.

Following is a summary of said assessment:

Valuation, real estate, non-resident,	\$30,000 00.
Tax on same,	642 00.

Respectfully submitted,

J. W. BUNKER,
STEPHEN C. COLE,
CHARLES L. TRACY,
Assessors.

REPORT OF SUPERINTENDENT OF SCHOOLS.

For the year ending February 15, 1910.

*Gentlemen of the School Committee and Citizens
of the town of Gouldsboro.*

I have the honor of submitting my first annual report of the conditions of the schools and expenditures of the town of Gouldsboro for the past year.

SCHOOLS.

The schools during the past year, have been very satisfactory. Your Superintending School Committee with the amount of money at hand, have procured the best teachers possible, and the result has been in a great measure successful. A number of our scholars are taking an advance course of study in other schools.

As a result of the late school law we have had twenty-six weeks school in each district, instead of twenty and twenty-four as heretofore. This with the Sullivan settlement for tuition, has caused an overdraw in our common school fund.

TEXT BOOKS.

We made arrangements with the firm of Silver, Burdett & Co. for the exchange of readers, which have met the approval of teachers and scholars. Our geographies are much worn and a great many of them are out of date. We think it advisable to exchange them for a new series, as the books now published are preferable to those we are using. We advise,—that the town raise one hundred and seventy-five dollars for text books.

REPAIRS.

The school property has been the care of the Superintending School committee. They have been ready at all times to make such improvements as they deemed necessary.

So at the present time the school buildings are in good repair.
