Managing during COVID 19

March 23, 2020 | [News](#)

Due to public health concerns associated with COVID-19, the Maine Autism Institute for Education and Research (MAIER) is suspending all activities and events associated with bringing our community together for in-person professional development or family events and activities until further notice. We will keep you updated from time to time as we make adjustments and develop new ways to provide professional development and family support.

We invite you to visit our [COVID-19 webpage](#) for resources to help you and your families through this challenging time. Professionals are reminded that previously recorded MAIER PD workshops are available for online viewing and to earn education contact hours. Visit our [PD Archives page](#) for more information.

Thank you for your continued support. Stay safe and healthy. We are hopeful we will see you in person soon.
 ~MAIER faculty and Staff~
