SUMMER SESSION
June 28—August 6

Write for Bulletin. Send names of your friends who may be interested.

JAMES S. STEVENS, Director

COLLEGE OF ARTS AND SCIENCES—Major subjects in Ancient History and Art, Biology, Chemistry, Economics and Sociology, Education, English, German, History, Latin, Mathematics, and Astronomy, Philosophy, Physics, and Romance Languages. Special provisions for graduates of normal schools.

COLLEGE OF TECHNOLOGY—Curricula in Chemical Engineering, Chemistry, Civil Engineering, Electrical Engineering, and Mechanical Engineering.

COLLEGE OF LAW—Three years' course preparing for admission to the bar.

MAINE AGRICULTURAL EXPERIMENT STATION—Offices and principal laboratories in Orono; Experiment Farms in Monmouth and Presque Isle.

GRADUATE COURSES leading to the Master's degree are offered by the various colleges.

For catalog and circulars, address

ROBERT J. ALEY, President

CAMPUS
The Commencement plans detailed in this issue surely promise a gala time for those who can return to Orono. Alumni Day, June 5th is a day crowded with interesting events. Will you not change your mind at the last minute and take the train back to the old campus? You’ll long remember a real reunion by a loyal group of Maine men. After a few days at Orono you’ll return to your business a bigger and more enthusiastic man. Try it out.

Frederick W. Hill and Marianne Hill Fund
The "Frederick W. Hill and Marianne Hill Fund" created by the late Frederick W. Hill of Bangor, a devoted friend of the University is appreciated by all who have preached adequate private and public support for our University. This fund ranging from $300,000 to $500,000 will make Mr. Hill the largest single donor to the institution since it opened its doors. He will rank with the late Hon. Abner Coburn of Skowhegan, Levi M. Stewart of Minneapolis, David D. Stewart of St. Albans, Me. and others who have remembered the University in their last wills and testaments. What better use is there in the investment of our surplus funds than in making greater the opportunities of our young men and women for securing a higher education? We value our college training which was made possible thru the generosity of such big hearted men who added their bit to the national and state funds for the support of the university.

HELPING BOOST U. OF M.

by A. L. T. Cummings

Your question is what Old Maine needs?
Her greatest need, just now, is deeds!
Wishing, alone
Can’t turn a stone,
Nor yet a single statesman show
The helpful way his vote should go.

Spirit, you have—your number strong—
How can you help? Why, pass along
To men of State,
Who legislate
The story of what MAINE must do
To keep her pace—She counts on YOU!

The Law School
Deanship
The merits of the discussion concerning the desirability of reappointing a former dean of the Law School desires to heartily endorse the mental, moral and professional calibre of William T. Atwood of Melrose, Mass. selected by the trustees as dean-elect of the Law School. Furthermore, it feels that regardless of the justice or injustice of what has transpired in the past that the future of the College of Law depends upon the alumni support of the man selected by the trustees to head the department. Loyalty to a personality is commendable; loyalty to an institution is true allegiance; but loyalty to a personality at the sacrifice of an institution which is affecting for the good scores of other lives and careers is neither commendable nor an example of true allegiance. Evidence in some quarters seems to point to the assurance that the alumni of the law school will rally to the support of the new dean if he accepts. There can be no question as to the fitness of Mr. Atwood to assume the deanship. The trustees have offered him the appointment—let us now guarantee our support—and his acceptance of a position of respect in our University will be forthcoming. We agree that the best interests of the University are further served by the decision of the trustees to reopen Stewart Hall, thus removing the school to Bangor for the opening of the fall semester.

Old College Publications to be Found in Library

Some time when you return to the campus for a few days visit you will stroll into the University Library. Curiosity will guide your steps and you will find yourself opposite the shelf of books in Librarian Walkley’s office. It was here that our beloved Ralph K. Jones spent his hours—in close touch with the written history of the University life.

The bound volumes to catch your eye will be:

The Pendulum 1881-1885
The Transit 1884-1885
The Cadet 1885-1899
The Maine Campus 1899—date
The Prism, classes of 1895 to 1920
The "Omega Mu" for 1901
The Blue Book 1906-1908
The Maine Law Review 1908 to date
The Maine Alumnus 1919-1920
Every Detail Arranged

For 1920 Commencement

Several Innovations Planned for Alumni Day

The first question occurring to the alumnus is “How much time will it take from my business to attend the 1920 Commencement and yet be sure of not missing the fun planned for the returning alumni and alumnae?” If you can arrive on the campus by 10 A. M. Saturday, June 5th and leave some time Sunday you will have satisfactorily answered this question. This day is Alumni Day and the events scheduled in the program below were purposely planned for 12 hours of reunion festivities arranged for your benefit. If you can come earlier and remain longer so much the better. The program is of equal interest to the alumni who can expect a definite attempt to make them feel a part of that great body of former students.

A careful reading of the details for these activities will give absolute assurance that a good time is guaranteed for all at the 1920 Commencement and in particular the 1920 Alumni Day.

Friday, June 4th
This day has been set aside for any preliminary class reunions which may be scheduled by the classes working separately from the general Alumni Day programs. 1882 and 1915 are making plans to reach the campus on this day to commence their old time reunions. The Alumni Advisory Council will hold a very important meeting commencing at 9.30 A. M. It is urgently requested that every member be present to listen to the reports of the year’s work and plan for the alumni work for next year.

Members of Phi Kappa Phi are invited to attend the initiation and banquet scheduled for the late afternoon. The president’s reception is one of the formal affairs for the Commencement Week. Alumni, alumnae and friends of all will be glad to attend to meet Dr. and Mrs. Aley.

Alumni Day

Saturday, June 5th

General Alumni Meeting

The annual business meeting of the General Alumni Association at 10 A. M. should be attended by every former student. Without any question it will be the most interesting gathering of Maine men and women ever held. The Alumni Advisory Council, which by vote of the Association last year was instructed to represent the entire alumni body between annual meetings will report its accomplishments. Committees will also report and general officers for next year will be elected. Make every effort to attend.

Class Luncheons

Arrangements have been made for each class to sit together at the luncheon period commencing at 1 P. M. The Commons dining room in Hannibal Hamlin Hall will be thrown open for the men and Balentine Hall for the women.

Alumni Day Parade

This formation will be in front of Alumni Hall at 3 P. M. The full Bangor band of 25 pieces will lead the parade followed by the two chief marshals, the president of the General Alumni Association, the president of the University, deans and trustees and the classes in order. The Seniors in cap and gown will fall in the rear. All of the reunion classes will be in costume and several of the other classes.

Alumni Day Class Frolics

The friends and guests of the University are invited to witness the class frolics from the grandstand on Alumni Field. The paraders will march on to the field where the reunion classes will go thru

The Program

Friday, June 4

9.00 A.M. Annual Meeting Board of Trustees
9.30 A.M. Meeting of the Alumni Advisory Council—Library
5.00 P.M. Phi Kappa Phi Initiation—Hannibal Hamlin Hall
6.00 P.M. Phi Kappa Phi Banquet—Club Room, Hannibal Hamlin Hall
8.00 P.M. President’s Reception—Library

Saturday, June 5—Alumni Day

9.30 A.M. Class Day Exercises—Oval in front of Alumni
10.00 A.M. Annual Business Meeting General Alumni Association—Library
1.00 P.M. Class Luncheons—The Commons

9.00 P.M. Informal Alumni Hop—Chapel

Sunday, June 6

10.30 A.M. Baccalaureate Address by Dr. Robert J. Aley, President of the University
3.30 P.M. Tea for Alumnae given by Round Table and Senior Girls at North Hall
5.30 P.M. University Sing—Oval Front of Alumni Hall

Monday, June 7—Commencement Day

9.30 A.M. Commencement Exercises—Address by Dr. Calvin Noyes Kendall, Commissioner of Education for New Jersey
Conferring of Degrees
7.30 P.M. Commencement Symphony Concert—Chapel
9.00 P.M. Commencement Ball—Gymnasium

If you were in college with the classes of 1882, 1905, 1910 and 1915 return with them for Alumni Day
their class stunts. 1905, 1910 and 1915 will in turn occupy the center of the field for their surprise acts. Elaborate plans have been made and an amusing afternoon is promised.

University of Maine Movies
These comprise two reels, one of the 1919 Commencement activities and the other of the undergraduate events which took place in the fall of 1919. The former shows the Commencement exercises, the 1909 circus, the baseball game between '08 and '09, and the triangular track meet between reunion classes. The latter reel depicts the exciting part of the annual bag scrap between the sophomores and freshmen, the Maine runners winning in cross country from Brown, and the stirring plays in the Bowdoin game when Maine overwhelmed her old rivals.

The Alumni Banquet
It is anticipated that fully 500 people will sit down at the alumni banquet to which all alumni, alumnae, and friends are invited. A charge of $1.50 a plate will be made to all with the exception of the members of the graduating class and the trustees who are to be the invited guests of the University. This follows the custom so successfully carried out last year. An exceptional list of alumni speakers will be heard and the Bangor band will furnish the music.

The Band Concert
A short concert by the Bangor band will be welcomed immediately following the banquet. This will be held in front of Alumni Hall.

Informal Alumni Hop
Following the outdoor band concert an informal dance for all—without admission charge—will be held in the chapel. The day's proceedings should terminate shortly before midnight.

Sunday, June 6th
Baccalaureate Services
The address this year will be delivered by Dr. Robert J. Aley, president of the University.

University Sing
At sunset the oval in front of Alumni will be the scene of an University custom indulged in at various times in the history of the college. Adelbert W. Sprague '05, director of music at the University will lead the singing. At this time the old Maine songs will be rendered with the old time enthusiasm, and the new ones submitted for the new song book will be tried out.

THE MAINE ALUMNUS

Commencement Day
Monday, June 7th
The Commencement exercises will be held outdoors in the oval in front of Alumni Hall. If the weather is stormy they will be transferred to the chapel. The address will be delivered by Dr. Calvin Noyes Kendall, commission of education for New Jersey who is well known as a forceful and charming speaker. Following the address the degrees will be awarded.

Commencement Symphony Concert
The old symphony concert, once a customary feature of Commencement week has been revived by the graduating class. The Bangor Symphony Orchestra, well known to the music lovers of the state will render an exceptional program. As an added feature Raymond Simonds, the noted tenor of the New Old South Church of Boston will be headlined. Tickets will be sold for one dollar.

Commencement Ball
This will follow the concert and as usual will be the formal event to bring the events of the Commencement to a close. A picked team from the Bangor Symphony Orchestra will play.

Accommodations
It is to be hoped that all returning alumni and alumnae will make plans to stay on the campus during the week. Provision has been made for the use of Oak and Hannibal Hamlin Halls for the single men returning, Balentine Hall and Mt. Vernon House for the returning alumnae, and Balentine Hall for the married men and their families. Rooming accommodations in Orono will be available in case the University dormitories are filled. A Commencement bulletin from the University will be sent out enclosing a post card for use in making advance reservations. Write a letter now to the alumni secretary or use the post card in making your reservations.

Train and Boat Schedules
Those desiring to return from Boston can leave Rowe's Wharf at 6 P. M. on Friday, June 4th arriving in Bangor at 11 A. M. Saturday. It is to be expected that a daily boat will be in operation at that time—if so the trip down Thursday night will be possible thus assuring an early arrival.

Information Bureau
A new service is planned for the convenience of returning alumni and alumnae, namely an Information Bureau. This will be kept open during the entire Commencement period in #1 Alumni Hall. All registration will be made here, reservations arranged for rooming accommodations, tickets sold and full information gladly given.

Alumni Registration
Upon registration each person will be provided with a class badge. These were adopted last year and proved of distinctive merit. An overhead charge at registration of one dollar will be asked for. This includes cost of the class badge and will cover some of the free entertainment features planned by the General Alumni Association for Alumni Day. This payment is not compulsory but it is expected that every one will gladly contribute.

Governor Milliken Appoints T. E. Houghton '11 as Trustee to Succeed T. V. Doherty

Thomas Edward Houghton '11 of Fort Fairfield was recently appointed by Governor Carl Milliken as a trustee of the University to succeed Thomas V. Doherty of Houlton whose term expired on May 7th and who it is understood did not care for reappointment. Mr. Houghton is a farmer and for two years was a student in the agricultural course at the college. He is one of the Republican candidates for state representative in the coming elections, a Shriner and a member of the Sigma Nu fraternity. His term of office is for seven years.

A real surprise awaits the alumnus or alumna attending Alumni Day, June 5th.
1915 FALL IN
On Saturday, June 5
It's going to be some parade. Everybody is coming. More than 50 have already signed their names. Can't you feel that old spirit? You can't stay away. Sign up. 1915 will lead that Reunion parade with the same old pep they had while in college. Here's the bunch that's coming. Is your name there? If not, send in that post card right away for a costume.

The Commencement Week at the University of Missouri was held from April 18 to 22d.

Achievements of Miss Joanna Colcord '06 Receive Recognition

Portland Paper Runs Feature Article Concerning Her Work

When the Book of Achievement of the graduates of the University of Maine is written, one of the most brilliant and entertaining chapters will be about a woman graduate back in 1906, when the "co-eds" were few and far between and not about 250 of them as at present. Joanna Carver Colcord of Searsport was one of the "first five" in college—that is, she was one of the five which stood highest in their studies for the senior year, which gave her the coveted Phi Kappa Phi honors. She was offered and accepted a place in the administration department of the University, and remained for three years. But Miss Colcord had higher ambitions, and social settlement work had a strong appeal for her. She attended the New York School of Philanthropy, now the New York College of Social Work, for a year and then took up the work of studying conditions in the lowest strata of society. After much practical experience and close study she wrote the book, "Broken Homes," published by the Russell Sage foundation, already in several editions, and regarded by sociologists everywhere as a valuable textbook, dealing more with actual conditions as found by Miss Colcord and other workers, than theory.

For the past four years Miss Colcord has been superintendent of the Charity Organization Society of New York City, directing its work and constantly evolving new ideas in social betterment and working out new phases. She is also prominent in Red Cross work, has gone into emergency service at short notice and figured in relief work in a number of big disasters. She is also a Chautauqua lecturer on home service for the Red Cross.

Miss Colcord comes from an old Searsport family, from a town famous for its master mariners, and at one time it is said that one in every ten full-rigged merchant ships was commanded by a Searsport man. Her father and grand-father were masters of clipper ships, and she was born at sea, off the Australian coast. She is a sister of Lincoln Ross Colcord, journalist, poet and writer of sea stories. Miss Colcord is more interested in her work than ever, and is ambitious for further achievements in her chosen field.

Class of 1905
Is your name in this list among those who are going to be present at the Reunion June 5th?
If not, why not?

"Bennie" Cowan
Herman R. Mansur
"Pete" Williams
"Harvey" McClure
"Hod" Hilton
"Bert" Sprague
"Bob" Drummond

"Fat" Learned
"Free" Sampson

The new Michigan Union building at Ann Arbor has just been completed at a reported cost of one million dollars. To foster the union movement so graphically illustrated by the erection of this wonderful building a Conference on College Unions was held at the University of Michigan on May 6, 7, and 8.

"Maine men this way"—is the slogan for Alumni Day, June 5th
County Field Workers in Maine Extension Service

Top row (left to right)—Paul W. Monohan ’14, recent State leader; Norman S. Donahue ’15, Waldo county; Clayton A. Storer ’16, Somerset, Richard B. Dodge ’17, Penobscot; George N. Worden ’13, recent county agent, Hancock; Dr. Leon S. Merrill, dean of College of Agriculture and director of county agents.

Middle row—H. Styles Bridges ’17, new county agent, Hancock; Clarence A. Day, Kennebec; Albert K. Gardner ’10, Franklin; Harold J. Shaw ’14, recently of Androscoggin and Sagadahoc.

Lower row—John H. Philbrick ’15, assistant county agent, Aroostook; George A. Yeaton, Oxford; William M. Gray ’12, York, Charles C. Larrabee ’12, Piscataquis; Edward W. Morton ’09, Cumberland; Arthur L. Deering ’12, State leader; John L. Scribner ’17, Aroostook.

Through its extension department the College of Agriculture, University of Maine, is doing a great deal to help promote profitable farming. Fifteen county agents, all but two of whom are alumni of this institution, are rendering service in the farming communities that cannot fail to be productive of lasting good to the state.

With Dean Leon S. Merrill as director, and such energetic, enthusiastic, practical men as his county field staff, the extension service in Maine will compare favorably with that of any other agricultural institution in the United States.

The Maine Legislature in 1919 passed an act providing for county aid to Farm Bureaus, operating under the supervision of the College of Agriculture. Every county except one now has a Farm Bureau, and that one, Oxford, is making plans to get into line in the early fall. The county agent, though not a member of the bureau, is its field executive, acting under the leadership of the bureau officers. This plan is working admirably. Community spirit is everywhere quickening and rural community conditions improving.

The accompanying picture was taken on the steps of the College of Agriculture when a conference of agricultural extension workers was in progress on the campus, in January. Since then there have been several changes in the personnel. Paul W. Monohan, then state leader of county agents, is now director of vocational education in the Maine State department. Arthur L. Deering, then county agent in Kennebec, is now state leader, and the Kennebec field is being covered by Clarence A. Day, formerly of Washington county. George N. Worden has been succeeded by H. Styles Bridges as county agent in Hancock, Bertram Tomlinson ’17, is in Washington county; Raymond N. Atherton ’20, succeeds Harold A. Shaw in Androscoggin and Sagadahoc. Roger L. Gowell, also a U. of M. alumnus, is county agent in Knox and Lincoln, but he is not in the picture.

The American University Union in Europe has established new offices in London, at 50 Russell Square and in Paris, at 1 Rue de Fleurus, opposite the Luxembourg Garden.

Send in your reservation for accommodations now to the Alumni Secretary
Class of 1882 Attends Commencement Regularly

Three fourths of Living Members Expected Back This Year

Among the active reunion groups of the older classes at the 1919 Commencement was that of 1882. This activity has crystallized into a definite form if present appearances are indicative. A rousing reunion is planned for this year with three-fourths of the living members back on the campus. With them will come members of other classes who were in college with them.

Excerpts from the following letter sent out in March by Class Secretary Will R. Howard reveal the spirit which yet animates old 1882.

"Dear Classmate:

Do you realize that in less than three months another Commencement will have come and gone? THEREFORE it is time for us to be putting the finishing touches on our plans for being among those present on Saturday, June 5—don't forget day and date. One of our number has asked the privilege of setting up the class dinner either at the Bangor House, or wherever we plan to have it. He is modest and does not want his name mentioned. He is also sensitive and will feel much hurt if his generous offer is not accepted. I move we make it unanimous. We can commandeer cars enough from Bartlett, Buzzell, Gould and other unfortunates who will have them there, to take us wherever we want to go, without expense to anyone but the owners, just as we used to secure kerosene for our lamps. We will also be unselish enough, we will not, to leave it to the men who live near Orono, to make all the arrangements—take notice Garland.

I think I am justified in saying that the following expect to be there: Bartlett, Bickford, Buzzell, Chapin, Dunton, Flint, Fuller, Garland, Gould, Howard, Keith, Patten, Reed, Starrett, Tilley, Woodward—sixteen. I think I am also safe in saying that all members of '82 would like to be there and I know there are two beside those mentioned above, who hope to be. Probably there are others. I shall not be surprised to see eighteen present, though detentions "of a valid nature" are likely to spoil plans at the last minute.

The cost? Well, your traveling expenses, soda water, chewing gum, cigars and meals while in Orono. You can sleep in Oak (Brick) Hall for nothing and meals at the Commons will be so low in price that it will be cheaper to get them there than at home. If you crave anything on the side in addition to the above named luxuries, that is up to you. There will be a small tax to cover class expenses incurred by the President and Secretary during the year. I should suppose a dollar and a half would more than do it.

One man writes: "I don't know where the money is coming from, but I'm going to get it and I'm going." You will recognize that as the genuine '82 spirit. Another says: "I hope it will be so that I can be at Orono next June. I feel that if I don't make a start now, I shall never get there, as time is making me look old even though I don't feel so." He has the right idea. It may be now or never with some of us. This thought is emphasized by the fact that since last Commencement one of our number has joined the "Silent Majority." I was deeply grieved to learn only a few days ago, that Hurd died on the ninth of last November. He had been suffering with pernicious anemia for two or three years. Mrs. Hurd writes: "Doctor tried so hard to get well enough to go to Orono last June, but could not do it." You will regret to learn of the death of Mrs. D. C. Woodward on the second of last January. I am sure that every one who reads these words will extend heartiest sympathy to our classmate in his bereavement.

It is possible that I may send you another circular letter before June. Whether I do or not, you will get further information concerning Commencement, directly from Orono.

Get there Friday, June 4, if you can, and plan to stay over Monday if possible.

Yours for '82,

W. R. Howard.

March, 1920.

James Baldwin, football coach at the University for this season has been retained in the service of the college as assistant athletic director. To properly present the importance of physical training additional assistance was needed in Athletic Director Rider's department. Mr Baldwin will have entire charge of gymnasium work during the time occupied by Mr. Rider as track coach. Spring football practice in fundamentals of the game now becomes a certainty with Baldwin remaining in the employ of the University as a faculty member.

Two hundred Princeton students acted as volunteers to keep open the channels of transportation in the recent railroad strike on the Penna. R. R.

All your desires have been anticipated for your visit to the campus with your classmates June 5th.
Green Track Team Will Uphold Maine's High Reputation

Scholastic Requirements Bar Several Strong Athletes

Coach Rider is having his difficulties in preparing the varsity track team for its first appearance in the state meet at Lewiston, May 15th. A squad of fifty men is daily to be seen on Alumni Field. The majority of these men are without previous varsity experience. This condition is caused by the scholarship eligibility standards which have barred several stars who were conceded to be sure point winners in the meets. Outstanding among these is Cant Pratt, a junior, who was the high point winner in last year's state meet and for two seasons a veteran on the varsity relay team. It will be recalled that his wonderful sprint from behind in the last relay of the Tufts Maine race at the BAA games this winter snatched victory from defeat. He is working in the quarter, hurdles and broad jump.

Maine lacks a good dash man, and should be strengthened in the hurdles, pole vault and weights. As usual the middle and long distance events are well cared for. If Frank Preti, the greatest of Maine's noted long distance runners is allowed to compete the half mile record is sure to be broken. Preti is faster than ever this season. Due to the four year ruling it has been undecided whether the other colleges will permit him to compete in the State meet. In 1917, his fourth year in college, varsity track athletics were suspended on account of the war. Preti, therefore, who enlisted in the navy before the college year closed, was deprived of his fourth year of varsity track competition. He returned this year to complete his law course, coached the cross country team, and became a candidate for the 1920 varsity track team.

The usual special train will be run to the meet and the famous Maine band will lead the march onto Garcelon Field. Bowdoin, with her strong paper strength, should be the winner of the meet, altho Maine with her green material may be able to nose out ahead of her old rivals.

Lack of Early Season Practice Handicaps Baseball Team

Better Results Expected in Later Games

The varsity baseball team has suffered from the usual handicap of a late spring and the resulting lack of early season practice. The Massachusetts trip totaled one victory and two defeats. Maine humbled Boston University but succumbed to Boston College and the versatile Holy Cross team. The first state series game with Bates also resulted in a defeat. Coach Monte Cross is not discouraged and expects the varsity to hit a winning stride in the warm days to come.

In the first game of the season at Waterville, April 8th, Maine came from behind and in a ninth inning rally changed a 6 to 4 score against her to a winning tally of 10 to 6. This game scheduled as an exhibition game and not counting in the state series is an annual contest between the two colleges. Late in the game Colby worked in a string of 20 players and materially weakened her defensive strength thus making easier Maine's aggressive rally.

The team left Orono April 26th for the annual Massachusetts trip. Boston University on the 27th at Russell Field, North Cambridge was Maine's first opponent. An extremely cold day, which resulted in the cancellation in the vicinity of several college games, handicapped the players. Maine had easy sailing scoring three runs each in the second and fifth innings and one in the 8th. In spite of a ninth inning rally Maine nosed out ahead 7 to 6.

On the 28th of April Boston College at Alumni Field, Newton, Mass., won 6 to 2. Bunching their hits the home team ran up a safe lead in the opening innings and pitchers Watson and Jowett for Maine found it difficult to hold them down. Maine knocked out six hits, one less than Boston College, but failed to bunch them for a winning score.

The Holy Cross game at Worcester, Mass on the 29th resulted in a slugging contest for the winners by the score of 24 to 0. Mainc was hopelessly outclassed and unable to connect safely with the ball lost her the game. Two hits were credited to Maine and six to Bates. Jowett pitched a good game and the defensive strength of Maine was excellent. Doebert of Bates got three hits knocking in both runs, one with a three bagger and the other with a two bagger.

Kennebec County Alumni Organize at Augusta

William R. Pattangall '84 Elected President

The Kennebec County Alumni Association officially announced its existence on Saturday evening April 17th at Augusta when 25 Maine men sat down in the banquet room of the Augusta House. Dr. and Mrs. Aley were the guests of honor. William R. Pattangall '84 was elected the first president of the association and presided as toast-master. Dr. Aley and Alumni Secretary Towner were the speakers. Other officers elected were vice-president, Roy H. Flynn '04, secretary-treasurer, Arthur W. Abbott '14, and an executive committee made up of these officers and Melvin H. Simmons '04 and Everett H. Maxcy '11.

An increase in undergraduate tuition from $150 to $200 has been decided upon by Johns Hopkins University.

Remember that Alumni Day is June 5th
1910 Plans Rousing Decennial Reunion

Large Attendance Expected on Campus June 5th,

What is the true spirit of preparation for Commencement at Orono June 5th, 6th and 7th?—“It’s going to be too good to miss.” There have been many weeks of thoughtful planning and the program contains several new features and many surprises, especially to those of 1910.

Harry M. Woods, Chairman, Freedom Academy, Freedom, Me.

For those going by auto, the following schedule is arranged; on Thursday, June the 3rd:

Portland—Lafayette Hotel—leave 8 A.M.
Brunswick—Eagle Hotel—leave 9.30 A.M.

Damariscotta—Fiske House—for luncheon
Rockland—Hotel Rockland—leave 3 P.M.
Bangor—Bangor House—arrive 7 P.M.

As for those who do not go by auto, the Bangor boat leaving Friday at 6 P.M. will afford a good time and plenty of company. The Eastern Steamship Company will probably announce a sailing for Thursday evening—if so, the 1910 fellows will be found aboard.

Detailed announcement will be sent to each class member May 20th, but make your plans now for Commencement.

(Signed)

Chester J. Johnson, President
Nubian Paint & Varnish Co.,
Chicago, Ill.

Grover T. Corning, Sec'y-Treas.
58 Hamilton Ave., Lynn, Mass.

But few of us have visited Orono since graduation, about thirty in 1915 and our tenth year out should be a real celebration. The one hundred and twenty-five class letters received by your secretary reveal some wonderful changes for many of our class and express great anticipation for our reunion. This is the year for our "best yet."

To make our visit more interesting the following 1910 Committees are busy:

Accommodation Committee
Herman P. Sweetser, Chairman, Dept. of Agriculture, U. of M., Orono, Me.

Costume Committee
Harold W. Wright, Chairman, 188 Elm St., Bangor, Me.

Luncheon Committee
Arthur S. Moore, Chairman, 202 Spring St., Brockton, Mass.

Stunt Committee
Kent R. Fox, Chairman, 34 Noyes St., Portland, Me.

Editorial Committee
Harry M. Woods, Chairman, Freedom Academy, Freedom, Me.

Charles Rice Memorial Cup Presented to the University by Fraternity Mates

Fitting Memorial to Great Athlete

Lieut. Charles A. Rice of the class of 1917, the greatest track man ever to represent Maine on the cinder path was honored at the University Chapel exercises April 8th when a memorial cup in his honor was presented by his Kappa Sigma fraternity brothers and friends to the University. The cup is to be the Inter-fraternity trophy awarded yearly to the winner of the series of Intra-mural track meets.

The services were presided over by Dr. Aley who offered prayer and then introduced John H. Magee '17, a room-mate and class-mate of Rice in college who delivered a stirring address in honor of Maine's best known hero of the World war.

Upon the cup is inscribed the track record of Rice as follows: “Holder of school boy record for the 220 yard dash in 1914, with mark of 21 3-5 sec. Qualified as a member of team to represent the United States at Stockholm Olympics in 1912. Holder of Maine Intercollegiate record for 100 yard dash in 9 4-5 sec. Holder of Maine Intercollegiate record for 220 yard dash in 21 3-5 sec. New England Intercollegiate champion in 1914 in 100 and 220 yard dashes.”

His military record is engraved as follows: “Enlisted as a private immediately after graduation and by unremitting service was advanced thru the grades of Corporal and Sergeant to that of 1st Sergt. of Co. C, 9th Brigade Machine Gun Corps of the 5th Division. He won his commission as Lieutenant for conspicuous bravery on the field of honor. He was severely wounded in the Argonne Forest and died of his wounds on December 22nd, 1918.”

Lieut. Rice in college was elected captain of the 1917 varsity team which however on account of the war never competed. He held class offices and was a member of the “M” Club and all class societies. He was one of the most popular athletes ever to attend the college.

It will not be uncommon for this year’s college graduate to accept a position paying a larger salary at the start than that paid to the teachers who educated him.

If you were in college with the classes of 1882, 1905, 1910 and 1915 return with them for Alumni Day.
Dr. Allan Rogers '97 Occupies Important Place in Chemical Profession

Allen Rogers graduated from the Chemistry Course of the University of Maine in 1897 and for three years was retained as instructor in chemistry at his Alma Mater.

In the fall of 1900 he entered the University of Pennsylvania to take graduate work in chemistry. During the year of 1901-1902 he was awarded the Harrison fellowship of that institution where he received his degree of Ph. D. in 1902. Upon graduation he was awarded the Senior Fellowship which carried with it two hours a week of lectures to graduate students, the remainder of the time being spent on research work. This fellowship was held for one year, when he was then appointed as instructor in Organic Chemistry. This position he held for one year.

In the spring of 1904, Dr. Rogers left the University of Pennsylvania to accept a position as research chemist in the Oakes Manufacturing Company, Long Island City. The work conducted at the Oakes Manufacturing Company consisted in developing processes employed in the manufacture of leather and tanning materials. While connected with this concern he obtained a broad insight into manufacturing operations which proved to be of great assistance to him in his later work.

In the fall of 1905 Dr. Rogers was called to Pratt Institute to take charge of the Industrial Chemistry which was to be part of the course in Applied Chemistry established at that time. The teaching of industrial chemistry by practical factory installations was a new idea in the teaching of this subject. The problems therefore, to be solved offered many difficulties. Fortunately the industrial chemistry was not to be taught until the second year, thus giving one year for the development of the course.

Pratt Institute stands out as being the first school to build miniature factories and to operate them on a semi-commercial basis. In planning this work equipment has been devised and installed for the purpose of demonstrating practically every operation employed in the various branches of chemical industry. In order to secure this training miniature factories have been built from time to time which at present include a soap factory, paint factory, dry color and lithographic ink works, varnish works, a tannery, dye stuff and intermediaries and a chemical works, while plans are being consummated for the installation of a miniature bakery.

In developing a line of this nature, it became evident that the books on industrial chemistry did not quite meet the requirements. He, therefore, has become interested in the production of treatises upon this subject, and at the present time the author of three books on industrial chemistry. One is known as “The Laboratory Guide of Industrial Chemistry”; one as “Elements of Industrial Chemistry”; and the third, which has been in cooperation with forty-seven eminent specialists, is known as the “Manual of Industrial Chemistry.” This third volume has gone through three editions and is being used as a textbook in many of the leading universities and technical schools, as well as a reference in nearly every quarter of the globe.

Dr. Rogers’ chemical activities along other lines have won for him Chairmanship of the New York Section of the American Chemical Society and at present he is Secretary of the American Section of the Society of Chemical Industry. He has also been active in the American Leather Chemists’ Association and the American Society for Testing Materials. During the recent war Dr. Rogers served as Chief of the Industrial Relations Branch of the Chemical Warfare Service with the rank of Major. On de-mobilization he returned to his position at Pratt Institute and took up his former line of teaching and consulting work.

In order to keep abreast of the times Dr. Rogers has always made it a point to keep in touch with manufacturing operations, which has been accomplished thru his consulting work.

As a consulting chemist he is retained by several concerns and has been quite active in developing manufacturing processes. He has been granted several patents for new ideas and improvements on well established chemical products.

University Receives Bequest Exceeding $300,000

Frederick W. Hill of Bangor the Donor of Sum in Trust

When the will of the late Frederick W. Hill of Bangor, a warm friend of the University, was filed on April 15th it was found that above his original bequests of some $900,000 that ten-fortieths of the remainder or a sum ranging between $330,000 and $500,000 of his $2,000,000 estate was bequeathed to the University of Maine. The income from this trust fund will be available for purposes other than the erection or repair of any building or the purchase of real estate.

The full text of the portion of his will relating to the University follows:

a. Ten-fortieths of said residuary estate, residue and remainder I give, bequeath and devise to the University of Maine, situated at Orono, Maine, to be known as the “Frederick W. Hill and Marianne Hill Fund.” The principal of said trust fund shall always be kept intact, and shall be safely invested, and the income only thereof shall be applied for the purpose of said University, except that none of it shall ever be used to pay for the erection or repair of any building, or ever be used to purchase real estate. It is my will that said trustee shall not be required to give any bond.

b. The old wooden power house on the campus is a thing of the past. Outgrown, with a period of usefulness dating back many years it has succumbed to the march of present day progress. Its demolition clears space for a new site for the next building to come.

THE MAINE ALUMNUS

A real surprise awaits the alumnus or alumna attending Alumni Day, June 5th
William T. 'Atwood, Dartmouth '99 Offered Deanship of Law School

Acceptance Under Consideration. School to be Returned to Bangor

William T. Atwood of Melrose, Mass., a prominent Boston attorney was tendered on April 10th by the unanimous vote of the trustees the position of dean of the University Law School. Mr. Atwood is no stranger to the state for he was born in Hampden in 1876 and has a cousin residing in Bangor. He graduated from Bucksport Seminary in 1895 and from Dartmouth in 1899. His first three years out of college he was principal of the Newmarket (N. H.) High School, returning in 1902 to the Boston University Law School when he was graduated in 1904. He was the winner of the prize thesis his last year in law school. Upon receiving his law degree he entered the office of Daniel B. Ruggles, a well known Boston attorney. In 1905 he opened offices at 60 State Street where he has ever since maintained his practice.

When the war broke out Mr. Atwood gave up his practice and left his wife and daughter to attend Plattsburg. Failing to get a commission because of an age limit he went overseas as an athletic director with the Y. M. C. A. He is a trustee of the Melrose Public Library and is now serving his fourth year as a member of the school committee. He has lectured at Dartmouth on law subjects, and although not a voluntary seeker for the deanship is unusually well recommended. At present he is holding the acceptance of the position under consideration.

The Fourteenth Annual report of the President of the Carnegie Foundation for the Advancement of Teaching advocates that all American universities make an analysis of their business management in the past before asking for increased private benefactions.

Open Letter to 1905 Urges Attendance at 15 yr. Reunion.

TO THE CLASS OF 1905

Orono, Maine, May 1, 1920

In February I sent out over 150 letters to members of the Class of 1905 relative to affairs at the University, and suggesting that money for a scholarship be raised. In this letter, too, it was stated that the fiftieth reunion of the class would be held in June, and I asked for the active cooperation of each and every member of the class to insure a large attendance at Commencement. So far I have heard from fifteen people. This does not look as if the class were very much interested in their alma mater, and furthermore it does not give much encouragement to your secretary in trying to engineer a successful class reunion.

I do not believe that the spirit of the class of 1905 is dead, but only dormant. Remember how the members of the class stuck together while at the University, and reminisce a little to yourselves. Wouldn't you ALL like to get together again and talk over old times? Don't you ALL feel that you owe something to the University for the training you received and that you ought to pay that debt? If you cannot answer these questions in the affirmative, of course you will not want to come back; if you do have some interest in the old University, even if you cannot come back, give your Secretary a little encouragement by writing to him.

I remember, class dinner will take place Saturday, June the fifth, and I must know how many will be here in order to make arrangements.

Again: the date is JUNE 5—the Place UNIVERSITY OF MAINE—the CLASS 1905.

Sincerely yours,

Robert R. Drummond, Secretary of the Class of 1905

Several Hundred Copies of Dr. Fernald's History Now Ready for Sale at Reduced Price

The History of the Maine State College and the University of Maine by Dr. Merritt C. Fernald has been reduced in price and hereafter will be sold at the University Store on the campus for $1.50. This book represents the last work of Dr. Fernald whose whole life was spent on the campus. No one person living had a closer understanding of the early struggles of the institution nor had aided in the building up of the college more than he. The manuscript completed in the last year of his life was published in book form in 1916. It contains 450 pages and 40 illustrations. The book is dedicated to the graduates and former students of the Maine State College and the University of Maine, the institution which thru the association of years has claimed and received our common love and loyalty. The introduction is by Dr. Robert J. Aley.

Marriages

Ensign Francis E. Simmons '09, U. S. N. R., and Miss Margaret Lillian Stillings April 10 at Lynn, Mass. They will reside at 20 Harwood St., Lynn, Mass.

Mildred Morrison '16 and Lieut. Commander Roy Jones at Bar Harbor, Me. on May 5th.

Stanley G. Phillips '17 and Miss Florence Pauline Knowlton at Westbrook, Me. May 1st.

Births

A son, Thomas Fogg Moore to Mr. and Mrs. Robert M. Moore '16 April 3rd at Biddeford, Me.

A son, Parker N. Jr. to Mr. and Mrs. Parker N. Moulton '17, April 9th at Bath, Maine.

Deaths

John Thaxter Bates '07, April 8, of spinal meningitis at Chevy Chase, Md.

By Classes

'82—Charles S. Bickford was recently reelected city clerk and treasurer of Belfast, Me.

'85—Mr. and Mrs. Leonard G. Paine have recently announced the marriage of their daughter, Elizabeth, to Edgar M. Luttgen at Philadelphia, Pa.

'88—Edwin B. Lord is secretary of the Chamber of Commerce at Massillon, Ohio.

'94—Jesse A. Gray who has for several years been the manager of the Bickmore Company of Old Town, Me. has resigned to take the managership of the Portland office of Hayden, Stone & Co. of Boston, investment securities. Mr. Gray was formerly employed by this company as a bond salesman in the Boston office.
Twenty-fifth Anniversary, June 5th

'95—Charles D. Thomas, according to a recent notice of application for transfer of the American Society of Civil Engineers has had the following career since graduation from the University:

'97—Stephen S. Bunker since his discharge from the army has returned to the Main Toll Highway Commission as a resident engineer on highway construction at Augusta, Me. During the war from May 1917 to August 1919 he served as a captain of engineers, U. S. Army. He had charge of the building of roads and grading on Montoyer yard in France.

'98—Ralph Hamlin is a structural engineer with Hewitt & Brown, architects and engineers at Minneapolis, Minn. From May 1911 to July 1919 he worked as chief engineer of the Pike & Cook Co., contractors, in charge of structural designs of buildings costing $1,500,000 and also superintending work costing over $1,000,000 additional.

'99—R. H. (Chris) Rockwood is with Seaboard Air Line in Portsmouth, Virginia during the cold weather. Summers he rusticates in East Kingston, N. H.

'99—Guy H. Soule is in business for himself as a member of the firm of Soule & Kilby Real Estate Company at 114 Maine Street, Brunswick, Me. His specialty is shore farms in addition to town property and timberlands.

'99—Marshall B. Downing is making rapid advances in his chosen profession in the telephone field. The Bell Telephone Co. as recently promoted him to the position of traffic superintendent of the state of Pennsylvania, a very desirable and important position. He has about two thousand employees under him.

Twentieth Anniversary, June 5th

'00—DeForest H. Perkins on May first became the manager of the Congress Square Hotel at Portland, Me. He has served as secretary of the Portland Chamber of Commerce about two years, taking up the duties of the office following the resignation of Walter B. Moore. Mr. Perkins has been a resident of Portland for a considerable time, serving ably as superintendent of the public schools of Portland. Since coming to Portland he has become interested in a number of business ventures and his association with the large affairs of the Portland Chamber of Commerce will prove of great value to him in the many problems of business that will come with his new duties.

'02—C. N. Rackliffe represented the University at the inauguration of the new president of the University of North Carolina at Raleigh, N. C. on April 28th.

'04—Charles H. Sampson is head of the Technical and Mathematical Dept. of the Huntington School for Boys at Boston, Mass. He is in charge of all drawing courses conducted by the University Extension Dept. of the Massachusetts Board of Education and is author of Drawing for Mechanics, Plan Reading and Estimating, Power Plant Economics, Lowell Institute Preparatory Course, etc. for the University Extension Department.

'04—Miss Lennie P. Copeland has been promoted to be assistant professor of mathematics at Wellesley College, Mass. She did graduate work in Mathematics at Wellesley college and at the University of Pennsylvania, receiving the degree of Doctor of Philosophy from the latter institution. For several years, she has been an instructor in Mathematics at Wellesley college.

Fifteenth Anniversary, June 5th

'05—L. G. C. Brown is a democratic candidate for representative to Congress in opposition to Ira G. Hersey of Houlton who is now seated in Congress as a result of the overwhelming Republican vote at the last election. Mr. Brown is residing at Houlton, Me.

'05—Curtis E. Abbott is superintendent of the Tebbetts Spool Co. at Locke's Mills, Maine.

'05—Miss Lennie P. Copeland has been promoted to be assistant professor of mathematics at Wellesley College, Mass. She did graduate work in Mathematics at Wellesley College and at the University of Pennsylvania, receiving the degree of Doctor of Philosophy from the latter institution. For several years, she has been an instructor in Mathematics at Wellesley College.

'06—Rev. John M. Brockie is now pastor of The Presbyterian Church in Babylon, L. I.

'06—Earle R. Richards is assistant master builder with the Stockton Yard, Inc., shipbuilders at Stockton Springs, C. N. Taylor '91 of Wellesley, Mass., is one of the principal owners of this ship yard.

'06—Rev. John M. Brockie is now pastor of The Presbyterian Church in Babylon, L. I.

'07—C. Henry Lekberg, formerly professor of mechanical engineering at the University, visited the campus Wednesday, April 28th to deliver a lecture on Industrial Relations. He is now a member of the National Industrial Conference Board with headquarters at Boston.

'07—Arthur B. Ford of the Lord Engineering Company has opened up new office quarters in Rooms 1004 and 1005 Powers Bldg., 37 S. Wabash Ave., Chicago, Ill.

'08—Claude P. Meserve is conducting a successful automobile business in North Bridgton, Me.

'08—Mrs. George R. Sweetser (Sarah Brown) is visiting her parents in Old Town. Mrs. Sweetser is now living in Portland, Ore.

'08—In a personal note from Bozeman, Mont., Mrs. Marjorie Pillsbury Schoppe says: "I leave April 4th for a three weeks trip as District Superintendent of Alpha Omicron Pi for the Northwestern Central District on an inspection trip. This will include visits to the Chapters at the University of Nebraska, at Lincoln, Neb., to the Alumnae Chapters of Omaha and Kansas City, to the University of Kansas at Lawrence, Kan., then to the University of Minnesota, at Minneapolis."

'09—George R. Sweetser has been with the Spruce Corporation since it opened its books in October 1918 as legal advisor to the comptroller and cashier. The work has been the production of spruce for airplanes, an undertaking which is nearly completed now. 25 million dollars of U. S. money was expended in this work last year, writes Mr. Sweetser. He is located in the Yeon Bldg. at Portland, Ore. His home address is 1414 Wisteria Avenue.
Mr. Sweetser is also a graduate of the Law School in the class of 1911.

'09—Dwight A. Woodbury is teaching in the Dept. of Physics at the Ohio State University.

'09—Mr. and Mrs. Bernard A. Chandler are receiving congratulations for the birth of a son, Edmore Thayer, born about three months ago.

'09—Miss Florence E. Harvey is now in Smyrna, Turkey at 118 Rue des Roses.

'10—R. H. Miller is an electrical engineer with the Navy Dept. and is located at 1470 Clifton Street, Washington, D. C.

'09—James B. Perkins of Boothbay Harbor, who has been appointed enforcement officer for Maine under the national prohibition law, has had a busy career since graduation. He is a member of the board of selectmen, town auditor and superintendent of schools of Boothbay Harbor, county attorney of Lincoln county three terms and is a member of the present Maine Legislature and secretary of the Democratic State committee.

'09—Merton T. Goodrich is now located at Kennebunk, Me. as superintendent of schools.

Tenth Anniversary, June 5th

'10—Stanley Wheeler has succeeded his father in the insurance business at South Paris, Maine.

'11—R. C. Marshall, well known as a star varsity basketball player while at the University of Maine has been having excellent success as an athletic coach in the south. At present he is at the Randolph-Macon College at Ashland, Va. Last year his team won the Eastern Virginia Intercollegiate championship in football and this winter came out a winner in basketball without losing a game. He has refereed at a score of college and prep school title matches in basketball and is well known in southern athletic circles.

'11—Winthrop Gooch has returned from government service in the west where he was for several years located. His address is 35 West Chestnut Street, Waverley, Mass.

'11—George Howe can be located at 358 Sunnyside Avenue, Toronto, Canada.

'11—E. C. Maxwell has located in New York City with a firm of engineers and may be addressed at Box 53, South River, New Jersey.

'11—Frank H. Derby has been appointed an instructor in civil engineering at Washington University, Washington, D. C. He was recently elected a certified member of the American Association of Engineers.

'11—Ralph H. Greenwood is an electrical engineer for the General Electric Company of Brazil, 109 Caixa do Correio, Rio de Janeiro.

'11—Ralph P. Mitchell has tendered his resignation as State Club leader with the University Agricultural Extension Department and will after June first be located with the Travelers Insurance Company at Portland, Me.

'12—William E. Hebard has removed from Monson, Maine to Chester, Mass. where he has accepted a position as superintendent of the schools.

'12—R. E. Hussey is professor of chemistry at Williams College, Williamstown, Mass.

'12—Lester W. Jacobs has changed his residence from Pittsburg, Pa. to Bedford Ave., Larchmont, Norfolk, Va.

'The Maine Alumnus

Fifth Anniversary, June 5th

'12—F. H. Lancaster has located as assistant to the production manager of the Alignum Fireproof Products Co. at South River, N. J.

'12—Major Leigh I. Harvey and Mrs. Harvey arrived in New York City April 2nd on the transport Pocahontas after a long European service for the United States government.

'13—Ernest J. Webster has been located at 447 Arde Street, New Britain, Conn.

'13—George C. Clark, famous as a debater in his undergraduate days has recently been elected vice-principal of Kent's Hill Seminary. For the last six years he has been head of the commercial dept.

'15—Ernest F. Hanson has definitely located with the Goodyear Tire & Rubber Company of California as special representative in the Car and Truck dealers Dept. His home address is 6773 Selina Avenue, Hollywood, Cal.

'15—"The Rotary Pagoda" published by the Rotary Club of Shanghai recently found its way into the alumni secretary's office. Under the heading "We're off—12,000 miles from Shanghai to Atlantic City—Watch Us," appears the picture of James Edward Doyle and the following article:

"J. E. Doyle is city editor of The China Press, Shanghai, the largest American daily newspaper in the Far East. He came to the Far East five years ago and was formerly sporting editor and city editor of the Manila Daily Bulletin. Alternate to Rotary Convention and delegate from Shanghai to Knights of Columbus Convention in New York. Mr. Doyle is a native of Danvers, Massachusetts, and his home address is 13 River street, Danvers."

Mr. Doyle left Shanghai on May 8th for a six months' vacation and plans to be in Orono for his class reunion.

'16—I. C. MacDonald is in the advertising department of the United Motor Service Company at 19 Jersey Street, Boston, Mass.

'16—Eunice H. Niles is doing social service work in the Visitors' Division of the local Red Cross Chapter at Boston, Mass.

'16—Grace Clapp is teaching home economics at the Normal School at Presque Isle, Me.

'16—Clyde L. Wilkins has changed his occupation and is now located with the General Motors Export Company at New York City. His address is 69 Fifth Avenue, New Rochelle, N. Y.

'16—Eugene T. Hickson, who for two years has been first assistant chemist in the Bureau of Standards at Washington, D. C. has resigned and accepted a position as research chemist in the plant of the American Paper Company at Holyoke, Mass.

'17—Russell Vale Waterhouse for the last six months has been located at Tela, Spanish Honduras, C. A. in the Progreso District with the Tela R. R. C. Penney is also located with him.

'17—Lieut. F. L. Burke squadron commander at the Chatham, Mass, naval air station recently gave Governor Milliken his first flight in an aeroplane. Lieut. Burke was in Bangor during the winter on a recruiting mission.

'17—Marion Emery is training to be a nurse at the Children's Hospital at Boston, Mass.

'17—R. E. (Red) Fraser is in the merchant marine as first assistant engineer of the S. S. Tulsa. A recent letter from him located him at Charleston, S. C. where his ship was discharging a cargo of nitrate brought from the west coast of South America.

'17—Flora Howard is teaching home economics in one of the grammar schools at Dover, Me.

An increase in salaries amounting to nearly 25% per annum and beginning with this present semester has been granted to the faculty of the University of Wisconsin.

This Agency has placed nearly 500 graduates and students of the University of Maine in the Best Paying Schools of New England. Write for Registration Blank and Booklet.
FOR years after the discovery of X-rays it was evident that only intensive research could unfold their real possibilities.

Meanwhile, scientists of the General Electric Company developed the process of making wrought tungsten. This proved ideal as the target in X-ray tubes and its use for this purpose soon became universal.

Then further research resulted in the development of an X-ray tube of a radically new type—the Coolidge Tube—with both electrodes of wrought tungsten and containing the highest attainable vacuum.

But the complication of high-vacuum pumps made the new tube in large quantities impossible. The answer to this problem was the Langmuir Condensation Pump, utilizing mercury vapor in its operation and almost automatic.

To meet the need for simple X-ray apparatus during the war, the G-E Laboratory developed the Self-Rectifying Coolidge Tube, which made possible portable outfits at the front. The latest X-ray outfit of this type is so small it can be taken conveniently to the home or to the bedside in the hospital.

Thus the Research Laboratory of the General Electric Company continues to serve, that progress in things electrical may continue for the good of humanity.
