Hello everyone-

I hope this email finds you well. Today is Earth Day, so I hope you get to spend some time outside to celebrate!

LAC would like to share some professional development opportunities that might be of interest to Fogler staff. Additionally, we would like to start a seminar series of our own and are looking for some volunteers to present. You can find more information at the bottom of the email.

[Learning Express Library](#)- Online Classes, self-paced

Want to learn photoshop or excel skills? LearningExpress provides a comprehensive selection of educational resources for basic skills mastery, academic success, job preparation, and career advancement. Also included in this great resource are popular software tutorials, Internet instruction, and basic computer instruction.

[Free Webinars and Trainings for Academic Library Workers](#)

This Google Doc has a list of free webinars and webinar sources for academic library workers. There are tons of different topics, so everyone can find something they are interested in!

[Center for Innovation in Teaching and Learning \(CITL\) Events Calendar](#)

These events have mostly to do with instruction, but there are also introductions to technological tools (Brightspace, UMaine's learning management system starting in the fall, and Kaltura, our video-hosting service) that could be useful more generally. All events currently take place via Zoom.

--

LAC is looking for volunteers who can teach a skill to Fogler employees- it can be work-related, a hobby, or something fun! Please let us know if you'd like to give an hour-long (ish) workshop/seminar for your colleagues. We are hoping for something that can be either pre-recorded and shared or presented over Zoom (and recorded for those who weren't able to attend).

If you'd like to volunteer, fill out this form: [Fogler Skills Seminar Volunteer Form](#).

The graphic features four icons at the top: an open book, a green die with white dots, a guitar, and a document with a folded corner. Below the icons, the text reads "FOGLER SKILLS SEMINARS" in a small, dark green font. The main headline is "WE WANT YOU (& YOUR SKILLS)" in a large, bold, dark green font. Below the headline, a question is posed: "Do you have a skill you can teach your colleagues?" followed by examples: "Genealogy research? Game design? Playing an instrument? The secret to creating the perfect Excel spreadsheet?". At the bottom, contact information is provided: "Contact LAC or fill out this form to volunteer: <https://bit.ly/38AGC4X>".

- LAC
