If You are Within Striking Distance of the Campus This Football Schedule Will Interest You.

October 2—Harvard at Cambridge, Mass.
October 9—Brown at Providence, R. I.
October 16—Rhode Island State at Orono
2:30 P. M. (Daylight Saving Time)
October 23—Bates at Orono
2:30 P. M. (Daylight Saving Time)
October 30—Colby at Orono
2:30 P. M. (Daylight Saving Time)
November 6—Bowdoin at Brunswick
2:30 P. M. (Standard Time)
November 13—New Hampshire State at Orono
2:00 P. M. (Standard Time)

Use The Alumni Office in Making Reservations

Reserved seats for the Bates, Colby and New Hampshire State games will be on sale at the College Store and at Dillingham's, Bangor, but the Alumni Secretary's office will be prepared to take care of any mail or telephone orders received. Reserved seats including admission will be $1.25. Buy your tickets early.

Eighteenth Annual Maine Night

October 29th, the night before the Colby game, has been set aside for the celebration of a rejuvenated Maine custom. Inasmuch as the chapel and gymnasium cannot seat the student body alone, the celebration will be held on the Athletic Field. The speakers will include Governor Carl Milliken, Governor-elect Frederick Parkhurst and several others prominent in Maine life. A huge bonfire and red fire will be used to light the field. Reserved seats will be saved for the returning alumni in the concrete Grand Stand.

This advertisement is one of a series of four contributed in aid of Maine activities by the University Store Co., situated in Fernald Hall and selling Maine student supplies, souvenirs, etc. When you return to the campus, visit the soda fountain or cigar counter.
Green Football Team Rounds Into Varsity Form

Fort McKinley Game an Easy Victory—Boston University a Stumbling Block

Scholarship credits made severe inroads upon the championship varsity football team of a year ago—so much so that but four of last year’s letter men faced Coach Baldwin at the first practice September 8th. The caliber of the squad was bettered by the return of three previous letter men coached by Percy Wendall, the old Harvard star, it played a typical brand of Harvard football.

A broiling summer sun made fast football impossible and the advantage went from side to side. Maine outplaying B. U. in the first and fourth periods and the visitors gaining the upper hand in the second and third. Both teams narrowly missed scoring by the drop kick route, Wood of Maine narrowly missing by inches in the first period and Boston University in the second period losing an equal chance from Maine’s 30 yard line. B. U. outpunited Maine.

B. U. kicked off in the first period and Maine steadily advanced the ball 35 yards to the visitors’ 40 yard line where the ball was lost on Maine’s failure to score on a drop kick. Several unsuccessful forward passes were tried by both teams. In the last minute of play, with a fresh team on the field, Maine uncorked a series of end runs that brought the ball well into B. U.’s territory. The work of Hussey in the line and the play of the freshmen O’Brien and Finnegan were the features.
Hill and Dale Men at Work
Coach Preti Running With Team

Early in September 50 candidates for the varsity cross country team reported to Coach Frank Preti and daily these thin-clad youths have been lightly striding across the campus and up Ferry Hill to the hilly environs of the Standpipe. Three members of last year's state championship team are on the squad including Capt. John Barnard, a junior, from Gardner.

The schedule includes a dual run on October 30th with some strong college. The state run at Brunswick either Friday the 5th or Saturday the 6th of November, when the annual football game is played, the New Englands at Franklin Park the morning of Saturday the 13th and the Nationals at New Haven, Conn., November 20th.

Another 1882 Get Together
Clam Bake and Picnic at Belfast

That noted class 1882, University of Maine, so famous for doing things and winners of the Alumni cup for 1919 and 1920, held its annual clam bake and basket picnic on Saturday, August 28th, at the cottage of Will R. Howard, The Battery, Belfast, Maine. Mr. and Mrs. Will R. Howard and Mr. and Mrs. Charles E. Chapin of Roxbury, Massachusetts, were hosts of the occasion.

At the six o'clock dinner hot steamed clams were served cooked by the master chef, "Billie," with the many good things brought by each family. In the evening a big bon-fire was lighted on the beach, where all gathered about and entertained one another by singing, telling stories, reciting and reminiscing. Every one voted it the "best time yet," and the hosts most royal entertainers.

Those present were: Mr. and Mrs. Charles S. Bickford, Belfast; Mr. and Mrs. Stephen J. Buzzel, son, Rex, and daughters Marion and Dorothy, Old Town; Mr. and Mrs. Charles E. Chapin, Roxbury, Massachusetts; Mr. and Mrs. Will R. Howard, Belfast; Mr. and Mrs. Charles C. Garland, Old Town; Mr. and Mrs. Joseph F. Gould and daughter, Marion, Bangor; Mr. and Mrs. Alfred J. Keith and son William, Old Town; Mr. and Mrs. Avery P Starrett and granddaughter, Warren, Maine.

Michigan Agricultural College is completing plans for the $500,000 Memorial Union Building.

Howard W. Flack of Syracuse
To Coach Track Team

The new track coach appointed by President Aley to succeed George L. Rider, is Howard W. Flack, of Grenoble, Pa., a graduate of Syracuse University. Mr. Flack ranks as an associate professor. He was born at Grenoble, Pa. in 1888. His preparatory school training was obtained at the Doylston, (Pa.) High School and at Temple College, Philadelphia, Pa. One year of his college life was spent at the University of Pennsylvania where he won his letter in cross country; one year at Center College where he was a four letter man and where he played on the 1910 football and basketball teams which won the southern college championship; and four years at Syracuse where he graduated in 1914. He was captain of varsity track at Syracuse and was coached by Thomas F. Keene, a former coach at Maine. He was also a member of the cross country, basketball, and baseball teams.

His coaching experience dates from the fall of 1914, when for one year he coached basketball and track at Miami University. In 1916 he coached football at Louisiana Agri. & Mech. College and in the spring of 1917 baseball at Oregon Agri. College. From 1918 until his appointment at Maine, he was physical director and coach at the Sapulpa (Okla.) High School.

During the war Mr. Flack attended the 2nd officers training camp at Fort Niagara where he was commissioned a first lieutenant of Infantry. He retained this rank and served with the 302nd Cavalry and the 55th Field Artillery.

In addition to working on some of his track material, Mr. Flack has been devoting his energies to coaching the second football team. His experience as an all-around coach thus makes him a valuable addition to the Athletic Department.

Student Body Celebrates Election of Bangor Man As Governor

The University student body, 1000 strong, invaded the city of Bangor Thursday evening, September 23rd as the guests of the people of Bangor who were celebrating the election of Frederick H. Parkhurst, the first Bangor citizen to receive that honor in 40 years. Free attractions governed the celebration, half a dozen cars taking the students to Bangor and a huge out-door baked bean supper being served at Bass Park. The outdoor speeches were interspersed by the cheers and songs of the boys. In the torchlight parade which followed the speechmaking the Maine band and the long line of students featured prominently. To show the impression created the following letter is quoted:

To the Students of the University of Maine:

Through its committee, the people of Bangor desire to express to you their appreciation of the very great assistance you rendered in celebrating the election of a Bangor citizen to the Governorship of Maine. The people understand fully that your participation in the celebration had no political significance whatever, and that your voluntary action was wholly to assist in furnishing a general good time for everybody. You have the credit of being the main attraction and your fine appearance and gentlemanly conduct merited and received the commendation and praise of everybody. You made many friends for your college and placed Bangor under an obligation to the University that we will not forget.

(Signed) A. R. Day
Chairman of the Committee on Arrangements

1916 Publishes "Four Years After"

96 members of the class of 1916 have contributed to "Four Years After" published in June as the forerunner of the enthusiasm which 1916 will bring to its 3 year reunion at next Commencement. The book of letters is the first to be published by the class and the fourth of its kind to appear among the class publications. Class Secretary Walter W. Webber is the editor. It is very attractively printed and brim full of Maine spirit.

The Maine movies were shown this summer in the Colonial Theatre, Portland, Oregon. A few western people were privileged to see the undergraduate and alumni activities of a live eastern university.
Dominion Alumni Association
Formed at Sault St. Marie

Members Travel 400 Miles to Meet

At the meeting of the Technical Section of the Canadian Pulp and Paper Association held last June at Sault Ste. Marie there were among the members present several graduates of the University. As the result of informal conversations held at different times it was felt that it was advisable to get together some sort of an association, so that the Maine men in the Dominion of Canada and especially in the Province of Ontario, might become better acquainted with each other and contact the University more closely than the usual isolation permits. Accordingly the group met on the boat, during a trip thru the locks and up St. Mary's River, and tentatively organized the Dominion Alumni Association. Albert Guy Durgin '08 was elected president and Manley W. Davis '18 secretary.

Plans were made to observe Maine night by holding a dinner in North Bay, a place which is comparatively central for the Province of Ontario and Western Quebec. The distance to travel will in general average 400 miles. All those present agreed to attend the Maine Night celebration.

College to Receive $100,000
From Will of Dr. T. U. Coe

Among the public bequests according to the will of the late Dr. T. U. Coe of Bangor, a Bowdoin alumnus, who died on July 31st, the University of Maine will receive $100,000. This bequest is not immediately available but becomes effective two years after the death of his wife, Sadie L. Coe. A further clause of the will directs the payment, upon the termination of a trust created by the will, of $50,000 to the University. The will further specifies that the $100,000 shall become a part of the permanent funds of the University and that only the income thereof shall be permanently used for the legitimate purposes of the college. Dr. Coe also bequeathed $150,000 to Bowdoin College.

This is the second bequest during the past six months to be made to the University, the other one being that of the late Frederick W. Hill, also of Bangor, who left a bequest in excess of $300,000.

Introducing Allen W. Stephens
President General Alumni Association

Holds Important Position as Engineer

It is surely fitting that in publishing a series of brief biographical sketches of some of our prominent alumni that the one man most honored by virtue of his New England Structural Co., Everett, Mass., being engaged in designing and checking mill and office buildings. It is here that he first learned the practical application of I-beam construction to a definite use.

From March, 1901 to December, 1903 he was in the employ of the American Bridge Company of New York City, East Berlin, Conn. and Wissahickon, Pa. as checker and squad boss in the drafting room on the design of buildings and bridges.

From December, 1903 to September, 1905 he was squad boss in the drafting room, designing buildings for the Phoenix Iron Co., Phoenixville, Pa.

From September, 1905 to date he has been in the employ of the Turner Construction Co., New York City. The Turner Construction Co. is one of the largest firms in the country in construction work and specialize particularly in the matter of reinforced concrete buildings. Since he has been engaged with them, he has served:

One and one-half years as structural draftsman, two and three-quarters years as designing engineer, seven and one-half years as engineer and since May, 1919 as chief engineer, so that it is seen he has advanced through all the stages to the highest engineering position with this firm.

During his time with the Turner Construction Co., they have been engaged in the design and construction of reinforced concrete buildings of all kinds, varying in value from $50,000.00 into the millions. One gigantic piece of engineering and construction on which Mr. Stephens was engineer-in-charge was the Army Supply Base at South Brooklyn, N. Y., consisting of warehouses, railroad tracks, steamship piers, etc., begun in May 1918 and completed about the middle of 1919. The cost of this undertaking was approximately $26,000,000, one of the largest projects constructed for the U. S. Government during the war and therefore will convey some idea of the hugeness of the construction work undertaken.

When Stephens is at home, he is to be found at 15 Whitlesey Ave., East Orange, N. J.

As a permanent memorial to the more than 3000 American officers who died in the world war, the Army and Navy Club of America, of 18 Gramercy Park, will establish in New York City, a $3,000,000 service clubhouse and Officers Memorial Hall, where, among other memorial features, the military record of every officer will be preserved for future generations.
13 Graduates of University Return as Faculty Members

41 new names appear on the faculty roll for the new year and of this number 13 are graduates of the University. A recent bulletin edited by President Aley states:

"The University has been very fortunate in filling vacancies and making additions. The men and women selected are well trained and give promise of being well fitted for the work they undertake. The cosmopolitan character of the group is indicated by these facts: they hold degrees granted by thirty-one different colleges and universities; they have done graduate study in sixteen other institutions; they have had teaching experience in twenty-five high schools and twenty-one colleges."

The qualifications of the graduates returning to become members of the faculty are outlined in the bulletin as follows:

**ALFRED S. ADAMS**, Instructor in Mathematics—Mr. Adams was a member of the University of Maine Class of 1911. He has done graduate work at Teacher's College, Columbia University. He has taught in the High Schools at Winter Harbor, Ellsworth, Auburn, Bar Harbor, and Woodland, being Principal at the latter place.

**JAMES S. BROOKS**, Instructor in Engineering Drawing—Mr. Brooks has had a great deal of practical experience with municipal, state and business concerns. His college work has been done at the University of Maine. He has served several months overseas in the U.S. Army.

**FLORENCE L. CHANDLER**, Instructor in Bacteriology and Veterinary Science—Miss Chandler was educated in the Brunswick High School and the University of Maine. She received the degree of B.S. with Animal Industry as her major subject.

**WESTON S. EVANS**, Instructor in Civil Engineering—Mr. Evans was a member of the University of Maine Class of 1918. Since graduation he has been engaged in practical work either in the army or in the engineering department of the Great Northern Paper Company.

**LEIGH P. GARDNER**, Instructor in Animal Industry—Mr. Gardner received his education at Hebron Academy and the University of Maine, graduating from the latter with the degree of B.S. last June.

**THELMA KELLOGG**, Assistant in English—Miss Kellogg graduated from the University of Maine in 1918. Since graduating she has been one year Principal of the Vanceboro High School and one year Teacher of English in the Bar Harbor High School. Her high grade work in college won her membership in Phi Kappa Phi.

**WABEREN S. LUCAS**, Instructor in Mathematics—Mr. Lucas graduated at Maine in 1914. He has done graduate work at Maine and Bates. He has been Principal of the High Schools at Grand Lake Stream, Thomaston, and Exeter.

**GERTRUDE PEABODY**, Instructor in Home Economics—Miss Peabody was an honor member of the University of Maine Class of 1920. She was elected to membership in the honor society, Phi Kappa Phi.

**FRANK P. PRETI**, Instructor in Physical Education—Mr. Preti needs no introduction. He is one of our own men who has already won many honors for his Alma Mater. He will be a General Assistant but will have special charge of the training of the cross country team.

**ELMO L. SHERMAN**, Instructor in English—Mr. Sherman is a B.A. University of Maine 1920. He was a high rank man and won membership in Phi Kappa Phi. He has had experience as a teacher in the Brownfield and Millinocket High Schools and as Student Instructor in the University of Maine.

**HARRY D. WATSON**, Instructor in Mechanical Engineering—Mr. Watson is a graduate of the University of Maine, Class of 1920. He entered with the Class of 1918, but was delayed in completing his course because of nearly two years of service in the army.

**HAROLD C. WHITE**, Instructor in Chemistry—Mr. White graduated from Maine in 1915. Since leaving college he has held important positions with large chemical companies. During the war he served as a 2nd Lieutenant in the Chemical Warfare Service.

**Work of Teachers’ Registration Bureau**

**Will Be of Service to Graduates**

This year the Teachers' Registration Bureau is planning to give better service than ever before to the graduates and former students of the University. To accomplish the best results the Bureau must have the hearty cooperation of every alumnus and former student.

A map of the State of Maine, on which the location of our teachers is indicated by blue pins, will be used in connection with the filing system now in operation. In case a teacher wishes to make a change, that teacher should notify the Bureau at once, in order, first, that the Bureau may be of assistance in securing the coveted position; second, that it may be able to keep track of the change and to note it on the map; third, that it may fill the vacancy with another University of Maine graduate. If a teacher neglects to inform the Bureau of an anticipated change and leaves a vacancy that could be filled by the Bureau, but is not filled by the Bureau, due to the fact that the teacher failed to do his or her part, the Bureau will be forced to mark that location with a black headed pin.

The Bureau also expects to keep in close touch with school officials with whom our teachers are working and thus keep an up to date record of the work of these teachers. With the proper cooperation of, first, the alumni and former students and, second, the superintendents of the State, the Teachers' Registration Bureau can become a powerful influence for bettering the conditions of secondary education throughout the State.

Sagadahoc County Alumni Hold Summer Meeting

New Meadows Inn was the scene August 7th of a summer gathering for dinner of the active members of the Sagadahoc County Alumni Association. The meeting was intensely interesting. The Law school situation was thoroughly discussed and certain recommendations were passed to assist in clearing up the difficulties.

A discussion of general conditions at the University followed. There was a unanimous desire that the board of trustees should make liberal request to the State Legislature for funds for the proper maintenance and expansion of the institution; to provide for reinstatement of depleted and suspended courses and addition of new courses if the demand appears; to provide sufficient salaries for instructors and professors to insure a competent teaching force; to provide for a building program; that if a liberal request of the legislature is made, the trustees be backed by the alumni, and take active part in securing these funds from the legislature. The opinion was expressed that a general meeting of alumni should be held to give formal expression to the board of trustees of the cooperation of alumni organizations to secure the much needed funds.

Many recent graduates of the University will be interested to learn that the engagement of H. Victor Cranston, and Miss Florence M. Eliets of Hartford has been announced. Mr. Cranston was well known as the first secretary of the Maine Christian Association. He is at present connected with the Roxbury School, at Cheshire, Conn.
Law School Closed for Year
Law Alumni Make Demand

Just before the June Commencement the Trustees of the University asked the General Alumni Association to appoint a committee to discuss the future of the Law School. At that time the necessity of suspending the school was openly advocated and the Trustees made this request believing that some arrangement might be agreed upon to continue the school in spite of the unusual conditions affecting its continuance. A series of hearings were held, the first two of which were reported in the June ALUMNUS.

Following these two hearings and the subsequent ones held later and following a meeting of the Law School alumni at which some 150 graduates of the school were present the following stand by the law alumni was taken:

1. That the alumni venture no criticism of the action of the trustees in asking for the resignation of the former dean
2. That the alumni approve the action of the trustees in deferring the opening of the law school until the fall of 1921
3. That the alumni unanimously ask that the former dean be given a chair on the faculty commensurate with his ability.

The trustees replied that following the usual procedure the president of the University must make all recommendations for faculty appointments.

President Aley on Sept. 15th wrote the law alumni committee that all faculty vacancies were filled at the June meeting of the board and that he, as the executive head of the University, had no power to create a new chair to provide for the dean's appointment.

This covers the situation to the present. The members of the Law Alumni working in behalf of the school are:

James Gillin '13
Mark A. Barwise '13
Donald F. Snow '03
Benjamin W. Blanchard '04

1900 Class Already Preparing for 25 Year Reunion

The nine members of the class of 1900 who returned for the last Commencement, vowed that their next reunion, a quarter centenary celebration would exceed previous attempts of all classes. In numbers, spirit and determination to do something for their Alma Mater they have resolved to break all records. Here's the nucleus around which they propose to build:

Class of 1900 at 20th Anniversary, Commencement 1920

Aroostook County Alumni Organize Association

The Aroostook County Alumni Association was organized at a meeting at Crescent Park, Houlton, Tuesday evening, Aug 17 with the following officers: O. L. Goodridge '03, H. L. Chadwick '10, Joseph S. Robinson '21, F. W. Whiteside '20, Fred Dorothy '08, Charles H. Folsom '08, R. N. Astle '19, Houlton; Lawrence G. Goodhue '22, Thomas E. Houghton '11, Lewis H. Kriger '17, Fort Fairfield; E. M. Fulton '11, E. P. Colbath '23, Mars Hill; A. S. Her- som '20, Blaine; S. B. Hall, '21, Camden.

Among those present at the banquet were the following Leonard McNair '23, W. L. Blake '21, O. L. Goodridge '03, H. L. Chadwick '10, Joseph S. Robinson '21, F. W. Whiteside '20, Fred Dorothy '08, Charles H. Folsom '08, R. N. Astle '19, Houlton; Lawrence G. Goodhue '22, Thomas E. Houghton '11, Lewis H. Kriger '17, Fort Fairfield; E. M. Fulton '11, E. P. Colbath '23, Mars Hill; A. S. Her- som '20, Blaine; S. B. Hall, '21, Camden.

The banquet, which was a very fine one, was thoroughly enjoyed. L. H. Kriger '16 of Fort Fairfield was made toastmaster and did honor to the position. Remarks were made by many present, it being the sense of all present that more should be done for the university and its interests by its alumni.

The next meeting will probably be held in October somewhere in Aroostook valley.

At Boston University the price tag on a college education complete is marked $4500.
1227 students have registered for the opening of the 52nd year of the University, 979 men and 248 women. This is 40 in excess of the number enrolling as students a year ago. 17 of this increase is represented by new women students.

The College of Technology leads as formerly, with the College of Arts and Sciences showing but 8 less students. The College of Agriculture maintains its average of a year ago.

If the summer school registration is included the total will reach 1317.

Summer School Session

Enthusiastically Attended

After being closed for two years the University summer school was reopened last June 28th for its 17th annual session. 78 men and 51 women students were in attendance, the total of 129 being well above the average attendance of recent years. 17 members of the faculty were retained on the teaching staff and in addition the services of William D. Fuller, Supt. of Schools of Portland, were permanently secured. He will serve as a lecturer for all education courses.

12 colleges outside of our own University were represented. 11 Bowdoin undergraduates made up their scholarship conditions by attending this term.

This summer school is one of two established among the Maine colleges, Bates having opened one in the summer of 1919.

Registration figures at Boston University have reached 8000. 500 of these students are located in a branch of the Business Administration department at Havana, Cuba.

Reports state that Dartmouth College has turned away 2000 applicants for membership in the freshman class which numbers but 600 students.

The University of Vermont has begun its 130th year with more than 900 students, most of them, of course, from the Green Mountain State. Yankee common sense tells the farmer boys that it is still worth while to get a college education, even tho they might go to work at once as plumbers or bricklayers at high wages.

Registry Shows Slight Increase Over 1919

Registrar Gannett Presents Compilation of Statistics

Marriages

Clarence McLellan Weston '08 and Miss Nestlin A. H. Hutton, at Lynbrook, L. I., on July 29th. Residing at 23 Alexander Ave., Lynbrook, L. I.

Miss Alma E. Clapp '12 and Percy E. White, Sept. 18th at Sanford. Residing at Corinna.

Walter H. Lilly '12 and Miss Marie Scard June 12th at Galesburg, Kansas. They are residing at Kansas City, Kansas.

Arthur L. Sturtevant '12 and Miss Alice C. Boynton at Newcastle Aug 19th. They are residing at South China, Maine.

Ernest A. Rand ex '14 and Miss Carolyn Sawyer Huston at Cumberland Center, Me. June 22nd.

Earl C. Goodwin '15 and Miss Mollie C. Hutchins, June 23rd at Fryeburg, Me.

Howard C. Moody '15 and Miss Margaret Swayne, Aug. 17th, at Rockland.

Oscar Wilbur '15 and Miss Mary C. Wentworth, at Orono, Aug. 1st. They are residing on Oak St., Orono.

Miss Marie P. Foster '16 and Dr. Eustace S. D. Merchant at Shanghai, China June 11th.

Earl C. Goodwin '15 and Miss Mollie C. Hutchins, June 23rd at Fryeburg, Me.

Howard C. Moody '15 and Miss Margaret Swayne, Aug. 17th, at Rockland.

Oscar Wilbur '15 and Miss Mary C. Wentworth, at Orono, Aug. 1st. They are residing on Oak St., Orono.

Miss Marie P. Foster '16 and Dr. Eustace S. D. Merchant at Shanghai, China June 11th.

By Classes

'82—Dr. Oscar H. Dunton made a trip during the summer with his wife and daughter from Circleville, Ohio to his old home in Hampden.

'85—Ora Oak has left Corona, California and is now living at 1064 West 4th St., Riverside, Calif.

'96—The ashes of the late Howard Pierce, who died in California last winter, were brought home and burial services were held Saturday, Aug. 7th at the Winthrop Cemetery. Several of his classmates attended the services.

'96—Frank E Weymouth has recently appointed chief engineer of the U. S. Reclamation Service. His last address locates him at 412 Tramway Bldg., Denver, Colo. He has done considerable engineering construction work in Ecuador and other South American States. He is given credit for making the model of the highest dam in the world located in the State of Idaho.

'88—R. H. Rockwood has left the valuation dept. of the S. A. L. Ry. at Portsmouth, Va., and accepted a position as resident engineer of the State Highway Commission at Asheville, N. C.

Deaths

Henry H. Goodwin ex '80, at New York City on Aug. 13th as the result of a shock.

Augustus D. Hayes '94 at Monrovia, Calif., on Aug. 7th.

T. Frank Shatney '09, Sept. 5th at Rahway, N. J., as the result of an automobile accident.

'00—W. H. Waterhouse, running on the Democratic ticket for state senator, although finishing at the head of his party candidates, was defeated by a Maine man, Mark A. Barwise '13, of the College of Law, a Republican.

'05—Curtis E. Abbott is now located as Supt. of the John MacGregor Corp. at South Lincoln, Mass. He was formerly associated with J. W. Sewall, forester of Old Town.

'ex '05—A. L. Huot is now located in the Bangor office of E. E. Wentworth Corp., dealers in the Overland and Willys-Knight automobiles. He returned from Portland to reorganize the Bangor selling organization.

'06—E. R. Richards has recently gone with the Great Paper Co. at Millinocket. His post office address is Box 12, Millinocket, Me.

'08—Raymond Fellows has been mentioned as a candidate for attorney general of the State of Maine.

'08—Raydon L. Hammond has left the Experiment Station at the University and accepted a position as state seed analyst at the Experiment Station at Dover, Delaware.

'09—It is not too late to mention an exceptional article written by Norman H. Mayo of the Aberthaw Construction Co., which appeared in a recent number of "Current Affairs," the organ of the Boston Chamber of Commerce. Mr. Mayo averred that building is not lagging in New England, that there is a satisfactory upward trend of construction and that the future is exceedingly promising.

'hll—Horace J. Cook, formerly street commissioner of Auburn, has been elected City Manager of that city.

'hll—Harold M. Royal has resigned from the faculty of the Clarkson College of Tech. at Potsdam, N. Y. and has accepted the position of associate professor of mathematics and physics at the Mich. College of Mines, located at Houghton, Mich.

'hll—William H. Wentworth is engaged to Miss Lera G. Houghton, a sister of Mr. Wentworth.

'hll—Roydon L. Hammond has left the Experiment Station at the University and accepted a position as state seed analyst at the Experiment Station at Dover, Delaware.

't0—It is not too late to mention an exceptional article written by Norman H. Mayo of the Aberthaw Construction Co., which appeared in a recent number of "Current Affairs," the organ of the Boston Chamber of Commerce. Mr. Mayo averred that building is not lagging in New England, that there is a satisfactory upward trend of construction and that the future is exceedingly promising.

't0—Horace J. Cook, formerly street commissioner of Auburn, has been elected City Manager of that city.

't0—Harold M. Royal has resigned from the faculty of the Clarkson College of Tech. at Potsdam, N. Y. and has accepted the position of associate professor of mathematics and physics at the Mich. College of Mines, located at Houghton, Mich.

't0—William H. Wentworth is engaged to Miss Lera G. Houghton, a sister of Lloyd Houghton '12. Mr. Wentworth is associated with J. W. Sewall, forester of Old Town.

't1—Ashton H. Hart is chief engineer on the construction of a hydro-electric plant and a little fifty mile electric railroad for electric Co. at Port anapolis, Brazil, where he expects to be located for two or three years. His address is 6 Hoepcke Irmaos & Cia., Florianopolis, Brazil.

't1—Charles D. Rea of Eulie, Hawaii was on the campus this summer. This is his first visit to the U. S. since 1911.

't1—Joseph C. Morin, who is General Superintendent of Schools at San Juan, Porto Rico, returned to the States for the summer and until Aug. 10th was located at Fort Kent, Me.

't2—L. P. Ranis has been added to the Bangor selling force of Beyer & Small, investment security brokers.

't3—The engagement of Dr. Forrest B. Ames and Miss Mildred M. Wilder of Dorchester, Mass., has been announced. Dr. Ames compiled the last Alumni Directory during the 'year following his graduation, when he acted as President Aley's secretary. He then graduated Harvard Medical School graduating in 1919. He has taken up special work in tuberculosis treatment and has graduated from Trudean school at Saranac Lake. He also served as assistant medical officer at the Boston Consumptives hospital and is now house physician on fourth medical service at the Boston City hospital. He is the son of Mr. and Mrs. Charles H. Ames of this city.

Miss Wilder is a graduate of Wheaton College and during the past year has been in charge of the department of domestic arts in the Simmons Free High School, Warner, N. H.

't3—Mark A. Barwise, on Sept. 13th, was elected on the Republican ticket as one of the state senators for Penobscot County.

't3—The supervision of the Auburn Street Department has been given to Allan McAlary of Augusta, a native of Waterville, who is well known in engineering circles throughout the state. Mr. McAlary went from Augusta with his wife and two children to make their home at Auburn. He has been employed in the engineering department for the Public Utilities Commission. He was formerly in charge of the construction of a considerable portion of the State road from Fairfield to Bangor and also in charge of the construction of a water system for Madison and Anson.

't3—Herman R. Clark returned to the campus during the summer. He is now president and manager of the Duke Electrical Co. at Worcester, Mass.

't4—A recent number of "The Pennsylvania-Ohio Electric News" printed an article entitled "Something About One of the Boys Who Has Been Going Up, Up, Up, Ever Since He First Landed Amongst Us" in which Mark Pendleton featured very strongly. The article follows:

"Around about the first of August there was something of a celebration over at the Sharon Office. A "wandering boy" had returned to the Sharon fold. Furthermore he had returned with a flower in his lapel, a smile on his face and plenty of "pep" in his disposition. He was back on the "Fore the war" scene of his activities and everybody was out to greet him.

"Certainly we are talking about Mark Pendleton. Who else do you suppose it would be? Mark had been pretty tolerably busy at Lowellville in recent months..."
peared among us in the New Castle district where he became one of Superintendent J. C. Chestnut's right-hand men. He was there about two and a half years and then he was promoted to represent the power sales department in the Sharon district. For the time being he left us and, successfully evading a tendency to anchor him at a desk in Washington, made several trips across in active service. Released from the service some weeks after the signing of the armistice, he returned to the electrical game with us and was made assistant to Mr. Bromley in the Power Supply Department, shortly afterward being promoted to assistant superintendent, from which position he is now promoted to the Sharon superintendent. Mark has no middle name, but if he had, it would undoubtedly be "Energy" for that is the product in which he deals and it also is his method of doing business. We do not know just how many men and women are on the payroll of the Company, but the number that is how many friends he has in the organization. Many of them, naturally, are in the Sharon district and there Mark has the full assurance of everyone of splendid cooperation in the new duties he has taken up.

'15—If anyone meets Victor H. Shields, who is reported to be a doctor in the Navy with the rank of Lt. Commander, they will confer a great favor by forwarding his address. We can't just place our fingers on him and very much desire that he receive The Alumnus.

'15—James A. Adams is teaching mathematics at Wyoming Seminary, Kingston, Pa.

'15—R. B. Eason has been doing some excellent work in California in connection with his duties as an extension specialist on poultry husbandry for the University Farm at Davis, Calif. He has made several trips about the state giving practical demonstrations on culling.

'15—Miss Miretta Bickford is now teaching in the Malden (Mass.) High School and residing at 16 Main St. Park.

'15—Donald Perry, who for the past year has been in the Near East engaged in relief work under the American Near East Relief Commission, has returned to the states. In his relief work, he has been an engineer, superintending the construction of hospitals and the installation of equipment.

Mr. Perry was in Constantinople when his cousin, James Perry of Camden and
A college man analyzed his class
to see how many could afford to subscribe to the Alumni Endowment Fund

A GRADUATE of one of the foremost colleges was asked to conduct the alumni endowment campaign among the members of his class. He made an analysis of the ninety-six members, according to his estimate of their financial resources, dividing them into three groups.

In the first group he included those to whom a gift of $300 would be impossible; forty men made up this group.

The second group included those to whom $300 would represent a maximum gift; there were thirty-seven men in this group. The third group included those who could give more than $300; there were nineteen men in this group.

Why some college men earn so much more than others

The members of that class have been out of college more than twenty years; they are an average lot of hard-working, capable men.

Yet less than a third of the whole number are earning more than a mere living. What is the explanation?

Among these men, of course, are a good many teachers and ministers. Salary in their case, is no criterion of success.

But with the men in business, and in most of the professions, income is one basis of measurement. And if you will analyze this class—or any other—you will find this striking fact:

That the great majority have become settled in departmental places, while only one man here and there has gained the all-round knowledge of all departments of modern business that fits him to discharge high executive responsibility, or to engage in business on his own account.

An institution for rounding out men

The Alexander Hamilton Institute was called into being to meet a definite need. A group of educators and business leaders had been impressed with the fact that modern business develops specialists but does not train executives.

They determined to provide a Course and Service which would enable a man to add to his equipment a working knowledge of the departments of business outside his own. To give the salesman, for example, a working knowledge of accounting and office management; to give the inside man a working knowledge of sales, merchandising, advertising, corporation finance, etc.—in other words, an institution, whose business should be to round out men into full business leadership.

In the succeeding years thousands of men, representing every kind of business and every department in business have enrolled in the Alexander Hamilton Institute, and have proved by their own experience its power to shorten the path to success.

Great universities and great businesses

No similar educational institution has ever received such high endorsement at the hands of educational authorities. In forty-five leading universities and colleges, the books of the Institute are used as texts.

And the endorsement of business is no less emphatic and impressive than the endorsement of the schools. In the U. S. Steel Corporation 545 Alexander Hamilton Institute men are at work; in the General Motors Corporation 335 men are to be found; in the Goodyear Rubber Company 319; in the Standard Oil Company 804. There is no great industry in the country which does not have somewhere among its executives, large or small, men who have profited by the Modern Business Course and Service.

Not money merely, but satisfaction

The Alexander Hamilton Institute does not base its claim for consideration upon its power to increase men's incomes. Increased income and power follow naturally increased knowledge. But the real product of the Institute is self-satisfaction and self-confidence—the sense of content that comes to a man when he knows he is making the most out of his life that he possibly can make.

Evidence that the Institute can accomplish this result and has accomplished it for thousands of men is contained in a book entitled

"Forging Ahead in Business"

Just what the Modern Business Course and Service is, just how it fits into your own personal needs; just what it has achieved for other men in positions similar to yours—all this is fully covered in "Forging Ahead in Business." It is a guide to business progress well worth any thoughtful man's attention. And it is sent without obligation. Send for your copy today.

another young man were murdered by the Turkish soldiers stationed near Marash. At that time the young men were on their way to India, where they had been appointed to missionary work. During the World war James Perry and the other young man were engaged in Y. M. C. A. work in France. Mr. Perry states that about that time the Turkish Nationalist troops were fighting the French in an effort to cut off their retreat, and while it was reported that the Turkish soldiers took the two young men for French soldiers, he believes that they were hostile towards engineers.

While in the relief work Mr. Perry was associated with two other Maine men, Joseph E. Beach, son of President David N. Beach of the Bangor Theological Seminary, and Lee Vrooman '18 of Greenville, who was a classmate of Mr. Perry at the University of Maine.

Mr. Perry speaks quite emphatically of the desirability of an American mandatory over Turkey. He pointed out that this is desired by both the Turks and the Armenians, but for two different reasons.

'18—D. B. "Don," Perry is at the Chicago office of the American Tel. & Tel. Co.

'18—E. Raymond Ring is now located at Presque Isle where he has charge of the University Experimental Farm.

'18—Lee Vrooman, who has been overseas with the Near East Relief organization, returned to the States, arriving in New York City, August 23rd on the Fabre Line Steamer, Rome. After a few days visit at his home in Greenville and a day on the campus, he started for the Hartford Theological Seminary at Hartford, Conn. where he has enrolled as a student.

ex '18—Roscoe H. Hysom is a member of the graduating class at M. I. T., Boston.

ex '18—C. E. Lord is now a sophomore at Mass Institute of Tech, and is living at 45 Hillside Ave., Arlington Heights, Mass.

ex '18—M. S. Perkins will graduate at mid years from M. I. T., Boston.

'19—Jeremiah T. Reardon has taken a position with a large manufacturing plant at Milwaukee. During the past year he has been director of athletics at the Old Town High School.

'19—Samuel Weisman, since last November, has been with the U. S. Patent office, Room 332, Washington, D. C.

'20—Ray M. Astle has taken a position in the laboratories of the United States Aluminum Co. at Pittsburgh, Pa.

'20—C. N., "Chet" Adams is at the New York office of the American Tel. & Tel. Co.

'20—Leslie Bannister is in the Construction Dept. of the American Tel. & Tel. Co. and is covering Massachusetts.

'20—Miss Frances Bartlett has accepted a position as a teacher of Home Economics in the Millinocket High School.

'20—To meet the persistent calls from Maine school boards for more teachers of agricultural courses in the high schools and academies, five of the men who were graduated last June have commenced teaching agriculture. They are: Verece Beverly, at Patten Academy, Edward E. Brown, at Norway High; Harold Bruce, at Solon High; W. C. Sturtevant, at Brooks High; Harry C. Brown, at Rumford High.

'20—Miss Minerva French can be addressed at Teacher's Hall, South Manchester, Conn.

'20—Miles F. Ham is head clerk for R. H. Draper Co., and can be addressed at Stacyville, Maine.

'20—Miss Dorothy Y. Holbrook is teaching Home Economics at Ironwood, Mich.

'20—E. B. Kirk is principal of the Eastern Maine Institute at Springfield, Maine.

'20—G. A. Potter has located with the Liberty Mutual Insurance Co. in the Springfield office as a claim investigator. He is covering the northern Mass. and Conn. territory.

'20—Walter S. Tolman and A. V. Rapp are located in the research department of the National Aniline and Chemical Co. at Buffalo, N. Y.

'20—Ralph Whitehouse is now employed by the E. E. Wentworth Corp. at the Bangor office, as a salesman for the Overland & Willys-Knight cars.

ex '20—E. B. "Pete" Iones is expecting to open a bond office in Portland, Me. He is working for Arthur Perry & Co., bond brokers, 19 Milk St., Boston.
University of Maine

College of Arts and Sciences—Major subjects in Ancient History and Art, Biology, Chemistry, Economics and Sociology, Education, English, German, History, Latin, Mathematics, and Astronomy, Philosophy, Physics, and Romance Languages. Special provisions for graduates of normal schools.

College of Technology—Curricula in Chemical Engineering, Chemistry, Civil Engineering, Electrical Engineering, and Mechanical Engineering.

Maine Agricultural Experiment Station—Offices and principal laboratories in Orono; Experiment Farms in Monmouth and Presque Isle.

Graduate Courses leading to the Master's degree are offered by the various colleges.

Modern Motive Might

Mountains, miles and minutes give way before electricity, the magic motive power. Properly applied, it drives giant locomotives across the continental divide, tows ocean liners through the Panama Canal, or propels huge ships.

Through good light, safe signals, and illuminated highways, it is making travel better and safer and also is increasing the usefulness of transportation methods on land, sea or in the air.

In short, electricity is revolutionizing transportation, making it quicker, safer, more economical and reliable in all sorts of weather.

And back of this development in electric transportation, in generating and transmitting apparatus as well as motive mechanisms, are the co-ordinated scientific, engineering and manufacturing resources of the General Electric Company, working to the end that electricity may better serve mankind.
