The General Alumni Association
of the University of Maine

James A. Gannett '08 Treasurer
Alumni Hall, Orono, Maine

Alumni Dues are $3 and $10 Annually

The $3 dues are for the younger graduated classes
Less than One Cent a Day.

The $10 dues are for the older graduated classes
Less than Three Cents a Day.

Pay the amount which suits your convenience—your loyalty is measured not by the amount you pay but by the fact that you pay.

THE MONEY IS SPENT

To employ an Executive Alumni Secretary who devotes his full time to the interests of the graduates and former students
To publish THE MAINE ALUMNUS, the graduate publication issued bi-monthly—now in the second year of its existence
To compile the Alumni Directory (to be published this year in February)
To plan and execute Alumni Day at Commencement
To promote and assist class reunions
To plan and execute the annual Maine Night Celebrations
To provide Moving Pictures with views of the various alumni and undergraduate activities
To assist class secretaries
To form local associations (8 were formed last year)
To maintain an accurate address list of the 5000 former Maine students
To compile War Records
To aid all former students to find satisfactory employment
To educate the undergraduates in the true fundamentals of loyalty to Maine ideals and customs
To counsel the undergraduates in their various student activities
To prepare and maintain statistics on University affairs
To assist in educating the people of Maine in the achievements of the State University
To be ready at all times to swing the power of the alumni body as a whole, or as local units, for the good of the University

The Alumni budget for these purposes totals $5200 for the year 1920—1921. Only with your cooperation can this expense be met. Will you do your share?
The 1920 football season is a matter of history. Maine won the state series but not in the decisive manner so characteristic of the team a year ago. The team was overwhelmed by Harvard, Brown and New Hampshire State. Criticism has been directed to the Athletic Board particularly for approving the Harvard game. In their defense it must be stated that the 1920 season appeared to be the time of all times for a good showing against a big college team. But three men of the 18 awarded letters a year ago were lost by graduation. Indications pointed to the appearance of a serv of stars in the entering class. The board, however, failed to consider that scholarship standings would make severe inroads upon the team. Four varsity line men and two half backs ingloriously failed in their studies, one varsity lineman transferred, and one star half back was forced by illness to remain out of the game.

Even with the freshman material which did appear on the campus as was predicted, Coach Baldwin lacked the linemen to fill the places occupied by these men. The defeats by Harvard and Brown reduced the confidence and morale of the team to the zero point. Dissatisfaction set in and even the winning of the Maine game could not make a good showing will the team have arrived for a place on the big college schedules. It appears to your editor that a state of Maine and a New England state college championship should be the objectives for the Maine teams of the immediate future.

The University of Maine Faces a Crisis

The University of Maine must receive every dollar of the appropriation requested of the 80th Legislature, shortly to convene at Augusta. To one making a study of the budget of estimated expenditures for the 30 month period for which the appropriation is demanded, it must be clear beyond doubt that not a padded item is included in the requests.

The money is needed for three definite purposes, first, to wipe out a deficit of $235,000 which was accumulated by the necessity of keeping open the doors of the institution during the critical war period and era of high prices; second, to provide for a normal maintenance; and third, to provide for the erection of new buildings. The last biennial appropriation granted the University for maintenance the sum of $170,000 yearly. In 1913 the state appropriated $110,000 for this purpose. Today the student body has nearly doubled and the buying power of the dollar has been reduced one half. The $300,000 requested means that the institution at best will barely maintain its pre-war standard of excellence.

If the state does not meet in full the request of the University, but one course of action remains. Some departments of the University must be abolished. If this becomes a necessity the action of the state in 1897 in making the college a University, shall have been wrong. The college then becomes a second rate institution and a pitiful example of the true worth of the great pioneer state of Maine. Truly the University faces a crisis.

Your Help in the Legislative Campaign

Each former student in the state has been asked to support the University in the present legislative campaign. This support necessitates the study of the needs of the institution presented elsewhere in this paper. It further demands that individually and collectively all former students wherever they may be, but particularly those residing within the borders of the state, shall with enthusiasm place the needs of our state university before the people.

Your Alumni office is assuming the responsibility of placing these needs fairly and accurately before the legislators-elect. The help of the 100 or more picked representatives for this purpose will be expected. Your share is to unqualifiedly support the budget appropriation requested. It may not agree with your viewpoint in all details but remember that it represents the earnest thought of the administrative officers of your University. Your loyalty must be expressed in concrete action. Show it at the first opportunity.

Bowdoin Sportsmanship

It is to be lamented that the Bowdoin athletic authorities did not searchingly investigate the previous college affiliation of their star full back. Perly S. Turner, who last year was registered at the Colorado School of Mines. By playing him in the Maine game Bowdoin violated the one year residence rule agreed upon between the four Maine colleges. "Fair play and let the best man win" can never be a Bowdoin motto until unusual safeguards are taken to prevent the occurrence of such flagrant violations of inter-collegiate agreements.

Department of Athletics

Much misunderstanding exists among the alumni concerning the new arrangement for athletic control at the University. Following the expressed desire of the undergraduate body the University has taken over the financing of athletics. The so-called "blanket tax" is devolved to the student body devoted to the financing of athletics and subscribed to by approximately 75% of the students has been abolished. The University now devotes 4.50 of each student's tuition to the Athletic Department for the partial support of athletics. Using the college year 1919-1920 as a basis, when the University assumed 63% of the salary burden of athletics, the undergraduate Athletic Association emitting 37%, the University now appropriates from its general funds the same percentage for salary expense. This year, for instance, the athletic salary budget is $9350, the University contributing $6400 from general funds and $2950 from student tuition. To these funds can be added the gate receipt and guarantees.

The Athletic Board, made up of four students, three faculty and three alumni representatives functions in practice as formerly, altho only in an advisory capacity. The president of the University, by virtue of his office as the executive head of all departments possesses the so-called veto power and can annul if he deems fit the power of the board. To date perfect harmony of thought has prevailed. This system of management, it is believed, will result in less waste due to inefficient management of finances. It has already made possible the financing of a varsity basketball team and a track schedule arranging more varsity competition.
Maine Clinches State Football Title by Narrow Margin

Three Victories, Three Ties and Three Defeats for the Season. Lack of Veteran Line and Arrangement of Schedule Partly Responsible for Poor Showing

Harvard 41—Maine 0

Cambridge, Mass. Oct. 2.—Harvard had no trouble in easily defeating our team by five touchdowns and resultant goals with two field goals thrown in. Newspaper accounts and spectators reports convince us that Maine fought every inch of the way, for at all times the game was interesting. Several Harvard half backs, including the versatile Capt. Horween, got away for long runs. Maine's contribution to the brilliance of the contest came at the close of the second period when Capt. Smith caught a kick off at Maine's goal line and ran it back 40 yards to midfield.

Maine lacked the services of a good punter and after the diminutive Ginsberg was injured, relied upon the toe of Wood who was playing his third game of football. Hussey at guard was the one Maine lineman who was able to smash the Harvard plays. Working like a demon to prevent the crimson onslaught, he was several times injured. That his work was recognized by the 10,000 people in the stadium was demonstrated by the applause which greeted each recovery of strength after his injuries.

The Maine team was outweighed 15 pounds to the man from end to end and was forced to face 30 crimson players.

Brown 32—Maine 7

Providence, R. I. Oct. 9.—Maine scored her touchdown within the first two minutes of play. O'Brien of Maine received the kickoff and ran the ball back 33 yards. Maine punted and upon Brooks' fumble of the ball, Maine recovered on Brown's 10 yard line. Capt. Smith then shot through the Brown line for nine yards and in two more plays he had the ball across. Brown came back like tigers and keeping Maine on the defensive, closed the game with a 32 to 7 victory. Poor punting on the part of Maine, a blocked kick, fumbling and the ability of the Brown team to follow the ball, cost Maine the game.

Maine 7—Rhode Island State 7

Orono, Oct. 16.—The little scrappy Rhode Island team surprised football followers when it scored on Maine in the first few minutes of play. A series of costly fumbles gave the visitors the chance to score. At intermission between the halves Rhode Island was the leader by 7 to 0.

The return of the diminutive field general of the Maine team, George Ginsberg, marked the turning point in the game. Following a series of line plays and end runs, he executed a perfect forward pass to McKechnie who ran 25 yards for Maine's only score.

The playing of the Maine team was ragged and seemingly lacked the punch to win until Ginsberg started at quarter back. A slippery wet field slowed down the open play.

Maine 14—Bates 8

Orono, Oct. 23.—A shifty running backfield penetrating the Maine defense made it possible for Bates to score in the opening period of the game. A trick play for a wide end run gave Wiggin of Bates the chance to score. Bates failed to kick the goal. Bates increased her lead in this...
period when Lord, the Maine center standing on the 35-yard line passed a high one over Small's head. The latter recovered but was tackled behind the goal line thereby giving Bates a safety.

In the second period, Small of Maine, with wide end runs, worked the ball into the visitor's territory and on a forward pass, Ginsberg to Capt. Smith, the ball was placed on the 4-yard line. Capt. Smith scored on the next play, Hussey kicking the goal. The half ended with the score 8 to 7 in favor of Bates.

The third period found Bates unable to penetrate Maine's strengthened line and after several exchanges of punts the Maine backfield brought the ball to the shadow of the Bates goal posts where Capt. Smith scored on the 10-yard line. Hussey kicked the score 14 to 8.

The final period with second string men in the backfield, demonstrated the superiority of the Maine eleven. The blowing of the whistle only prevented another score.

Maine 22—Colby 0

Orono, Nov. 30.—With the spirit of the Maine Night celebration in their veins, the team went into the Colby game and showed the best combined team work and individual brilliance of the year. Maine rushed the ball down the field from the opening kick off, Small finally crossing the line after the Colby line had held for three downs. Colby had an opportunity to score in this period but lost the ball on downs. The feature of this period was the run by Small from his 10-yard line to the Colby 40-yard line.

In the second period a series of forward passes netted Maine another score, Hussey kicking the goal. Foster, another freshman half back, broke loose in a brilliant 72-yard line run and scored the third touchdown.

Maine failed to score in the third period although a forward pass brought the ball to the Colby goal line when a Maine half back fumbled on being tackled. In the fourth period Maine scored a safety bringing the score up to 22 to 0. The game ended with the ball in Maine's possession on the Colby 10-yard line.

Maine 7—Bowdoin 7

Brunswick, Nov. 6.—The biggest crowd ever to assemble on Whittier Field saw Maine score her only touchdown as the result of the brilliant 77-yard run by Small, and in the closing period witnessed the fighting Bowdoin team penetrate the Maine defense for a score on a perfectly executed forward pass. Maine ruled a heavy favorite and in flashes of play, gained consistently on the Bowdoin team. In the first period it looked as if Maine would score by the use of her line plunges. Changing her method of attack as she approached the Bowdoin goal, she was forced to lose on downs.

For three periods Maine consistently penetrated the Bowdoin line only to find the resistance of the home team too great when the goal was threatened. It looked like a 0 to 0 game until the fourth period. Ginsberg signalled for a right end run and gave Small the ball. Ably backed by his interference he skirted the end and changing pace, using the straight arm, he dodged through the Bowdoin secondary defense and outdistancing his pursuers, he raced 77 yards for the only Maine score. Hussey kicked the goal.

Bowdoin got her opportunity a few minutes later when a Bowdoin back intercepted and held a Maine forward pass. It was at this point that Coach Greene sent in Woodbury, a substitute quarterback, who, using the speedy Bowdoin full back, Turn-
er, commenced a march from the center of the field. Two out of three rushes saw Turner carrying the ball. He penetrated the tired Maine line for ten-yard gains until under the shadow of the Maine goal posts, a forward pass over the line gave Parent, the Bowdoin end, standing alone, the chance to score.

Mason kicked the goal and the score was tied.

The summary:
Bowdoin                   University of Maine
Perry le..................le Barron
Mason lt..................lt Murray
Haines lg..................lg Mulvaney
McCurdy c..................c Lord
Eames rg..................rg Hussey
Dudgeon rt................rt Roemer
Miller re..................re Finnegans
J. Smith qb..............qb Ginsberg
A. Morrell lh.............lh Foster
M. Morrell rh.............rh Small
Turner fb..................fb R. Smith

Score—Bowdoin 7, University of Maine 7.

Touchdowns—Small, Parent. Goals from touchdown—Hussey, A Morrell.

Bowdoin substitutions—Parent for Perry, McCurdy for Guptill, Woodbury, for J. Smith, Bisson for M. Morrell, Kirkpatrick for Bisson, M. Morrell for Kirkpatrick, Dahlgren for M. Morrell.

Maine substitutions—McLeod for Lord, Jordan for Roemer, Tinker for Young, Young for Foster.

New Hampshire State 47—Maine 7
Orono, Nov. 13—Discouraged by their failure to decisively defeat Bowdoin the week previous, and handicapped by a week of heavy rains, the Maine team presented its weakest front to the powerful New Hampshire aggregation. The visitors offered a veteran line-up, the same team with one exception which Maine defeated a year ago at Durham.

With their team was the elusive “Dutch” Connors, one of the most powerful halfbacks ever to be seen on a football field. He ran wild for four periods scoring three touchdowns and placing New Hampshire in position to score four more. He was ably assisted by the other two half backs. The visitor’s line was in keeping with the power of their backfield.

The redeeming features of the game were the offensive plays which enabled Maine to score. Small heaved a mighty 40-yard pass to the diminutive Ginsberg who ran to the 8-yard line before being tackled. Small repeated his forward pass on the next play and Barron, the Maine end shooting to the center of the line, gathered the ball in and carried it over the line. The game was poorly attended due to the raw cold weather.

THE MAINE ALUMNUS

Capt.-elect Newman S. Young, end and half back

The Scores for the Season
Maine 58—Fort McKinley 0
Maine 0—Boston University 0
Maine 0—Harvard 41
Maine 7—Brown 32
Maine 7—Rhode Island State 7
Maine 14—Bates 8
Maine 22—Colby 0
Maine 7—Bowdoin 7
Maine 7—New Hampshire 47

122 142

The summary gives Maine three victories, three ties and three defeats. The championship comes to Maine again by virtue of two wins and a tie in the State series, Bowdoin being second with a win over Colby and ties with Bates and Maine.

In a review of the football season the work of several players must be mentioned. Capt. Raymond Smith of Brewer, a senior, has played as consistent a game as any full back ever to play on a Maine team. Seldom did he fail to gain at least five yards through the line. He made an efficient inspiring leader. W. B. “Pat” Hussey who also completes his college work this year has been a star ever since entering college. He weighs 240 pounds, and is a powerful player who knows the game thoroughly. He was a member of the famous 1915 team which started Maine athletics toward a “clean-up” year. His work excelled that of any lineman who faced Maine. Even in the Harvard game he was head and shoulders above the men who opposed him. His loss will be impossible to fill. The diminutive George Ginsberg also has played his last game. Weighing but 127 pounds, he has nevertheless shown his gameness in every game. It was only after the ligaments had been torn from his shoulder in the New Hampshire State game, thereby making an injury which the doctors say will never heal, did his courage or strength fail him. Henry D. Small, the freshman halfback from Higgin Classical Institute, is one other star of the team whose work has been versatile. Improving in every game, he has proved that at punting, forward passing or running with the ball he is equally adept. His career as an athlete will be watched with interest.

Manager W. B. Cobb and thirteen players were awarded their letters as follows:

The captain-elect for 1921 is Newman H. Young of Lewiston, a Senior who however expects to return next fall to complete his course. He was incapacitated for the greater part of the season through injuries, but when he did play at halfback and end he demonstrated his aggressiveness and ability. In addition to the five seniors to be lost to the team next year is Wayne B. “Pat” Hussey who has completed four years of varsity competition and who completes his special course this year.

December, 1920

A 12-year-old prodigy, who is master of twelve languages, keenly interested in batting averages and devoted to marbles when played for keeps, is the youngest freshman ever to enter Columbia University.
Maine Night Rivals Best Celebrations of Past

Governor and Governor-elect, Two Senators, President Aley, and Alumni Speakers Make Decided Hit. Warm Expression of Support Promised by Speakers. 1600 in Attendance.

"I know why men want to be governor of Maine—to have the privilege of addressing this body of men and women. I really came for my own pleasure, not yours. We must work together to make the future achievement of the State of Maine as glorious as the past. I've always been for the University of Maine, past, present and future. You stand by me and we'll stand together."

Governor-elect Parkhurst of Bangor.

"This institution deserves well of the state. The hearts of the Bangor people are with you."

State Senator Patrick H. Gillin of Bangor.

"I voted in the Legislature for every appropriation, I voted for the largest appropriation and I would have voted for a larger one still. You don't want patting on the back—what you want is the stuff. You're going to have a governor who will stand behind you or we'll never support him again."

Former Senator A. R. Day of Bangor.

The pre-war standard of success was reached when the last speaker, the last cheer, and the last strain of the Stein Song proclaimed the Eighteenth Universal Maine Night celebration at an end. The affair was held Friday evening, October 29th, in the gymnasium and as in the old days, the undergraduate enthusiasm was let loose and the rafters fairly rang with cheer and song.

Some two hundred alumni and alumnae returned for the evening and for over the week end and familiar faces were to be seen 'by the graduate of almost any class. Each graduate and former student was ushered to a seat in a reserved section. The co-eds in a body on the right front and the freshmen on the overhead running track, demonstrated to all the proportions to which these groups have grown.

Paul W. (Prexy) Monohan '14 in his masterful yet buoyant good natured manner acted as chairman. The ability of the guests of honor when he called attention to the speakers whom he was to introduce, was summed up in the expression "a word to the wise is sufficient and a word from the wise is sufficient."

Capt. Raymond J. Smith of the varsity football team was the first speaker. He reviewed the scores of the season and predicted a victory over Colby.

Governor Carl Milliken, in prefacing his remarks, truthfully referred to the student cheer leader as an "animated torch"—and immediately gained the good will of his audience. His plea for americanization was strong and forcible.

Joseph McCusker '17, the Boston Alumni representative, received the customary ovation which greets his appearance on the campus. His remarks were confined to the showing which the varsity, although doomed to defeat, made against Harvard. He recounted the spirit which the people of Boston have for Maine and the University.

Governor-elect Parkhurst, in a few well chosen words, put himself on record as a staunch friend of the University.

Telegrams were read from the Androscoggin Valley Association, the New York Alumni, the Golden Gate chapter at San Francisco, the Dominion Association of Canada, Allan W. Stephens, Pres. of the general Alumni, "Jack" Jackson '20, an alumna, and a letter from A. D. T. Libby who recalled the old days when Colby ell a game with Maine. Donald Coady '21, a member of last year's varsity baseball and football teams presented the student body and outlined life of the undergraduates of today.

A. R. Day of Bangor, a former member of the Legislature, stated that he came up to thank the boys for their aid in helping Bangor to celebrate the election of a Bangor citizen to the governorship. His remarks were pithy and well received.

Hon. Patrick H. Gillin of Bangor, Senator from Penobscot County in a flood of eloquence praised the institution on the banks of the Stillwater.

President Robert J. Aley was introduced as the "father of the line" and responded in one of the best speeches he has ever made. He stated that he was proud of the freshman class and of co-ed delegation present. "Ten years ago," he stated there were only 13 co-eds rattling around in Mt. Vernon House, while now we have 250 on the campus." He told of sitting next to an executive of the DuPont Powder Co. at a banquet who informed him that the DuPont Co. looked to only two institutions for trained men, Maine and the University of Virginia. With reference to the large appropriation recently asked for from the Legislature, he remarked "the state must make the decision whether this institution shall continue and whether it shall be worthy of the best in the state." Mr. Day here interjected the remark "if you need the money, the Legislature will vote it to you and the governor will sign the bill."

Girl Athletes at University Eligible to Wear Varsity Letter

Hereafter a woman student at the University meeting certain requirements in tennis and basketball shall be awarded an "M". This provision was made possible at the November meeting of the Athletic Board. The requirements in tennis are that a girl shall compete "in the finals in either singles or doubles in a women's intercollegiate tennis match." In basketball a girl must play "in two-thirds of the number of full periods, or parts thereof, in varsity women's intercollegiate or normal school basketball contests." The varsity M is to be of the same color and material as that awarded to the men but of a different size and shape.

Class numerals are to be awarded to girl contestants in basketball, tennis, and track, on the basis of a point system.
President Sills of Bowdoin Boosts University of Maine

His Speech Before Women’s Clubs Puts Him on Record

“State University Must be Supported Says President Sills of Bowdoin.”

This was the heading the Lewiston Journal placed on its report of the address President Kenneth C. M. Sills of Bowdoin College made at a recent session of the Maine Federation of Women’s Clubs. The subject of his address was “Education in Maine.” The paragraph on which the Journal heading was based reads as follows:

“Finally, may I make a special plea for our colleges? We have in this state in addition to the University of Maine, Bates, Bowdoin and Colby. The University must be more adequately supported by the state, and every citizen ought to be interested in securing larger appropriations. The three independent colleges also need the support, sympathetic and financial, of all the people of Maine. While it is true that the population of Maine has increased but little, the college population has increased much, and there is room to spare for all these institutions.”

President Sills has ever shown a kindly and broad-minded spirit toward the University of Maine, which he recognizes as a state institution and must, naturally, receive its financial backing directly by legislative enactment. Speaking, generally, of the subject, President Sills said:

“I should like to suggest that we people of Maine have a special responsibility toward our own institutions. A college is, to use a legal term, a quasi public corporation. It exists to help boys and girls to become better citizens. And it cannot do the work, it should unless it has back of it the hearty support of the public. All of us can do something; people of means can do much. In these days when there are so many institutions that admirably serve the public a wealthy man or woman who makes in wills or otherwise no contributions to colleges, or hospitals, or libraries, or churches, is not only a false steward of wealth but increases the social restlessness of the times. A rich man dying and leaving nothing to the public whence his wealth came increases the number of radicals and socialists. All of us to be sure cannot give of our substance to education; but we all can give of our interest and of our time.”

Collegiate student enrollment for present year is expected to reach a quarter million.

THE MAINE ALUMNUS

Basis for Budget Figures and University Appropriation Here Presented

Appropriation Requested Calls for Deficit, Maintenance and New Building Needs. Covers 30 Month Period. Not a Padded Figure in the Estimate. Represents Needs of University to Continue as at Present

On October 15th the University authorities submitted to the State Auditor at Augusta as required by law, a budget for expenditures for the coming 30 months, and the appropriations requested of the State to cover the present deficit of $235,000, to provide maintenance and for the erection of new buildings.

The figures printed below are itemized according to the accounting form demanded by the State. Where they are confusing, an explanatory paragraph has been added.

<td>321,699.00</td>
</tr>
</tbody>
</table>

The six months period included under Estimated Expenses becomes necessary due to the fact that the fiscal year of the state has been changed from the calendar year commencing January 1 to the period from July 1 to June 30. The last state appropriation based on the former fiscal year covers the period ending December 31, 1920—consequently a six months appropriation to July 1, 1921 remains unprovided and therefore requested.

That the figures opposite the heading “Personal Services” show a decided advance for the yearly periods commencing July 1, 1919, July 1, 1920 and July 1, 1921 and July 1, 1922 over the previous years may be accounted for by the increase in number of employees and by the salary increases which of necessity were granted last June to retain the present teaching staff, administrative officers, clerical staff, and laborers.

The increase of Estimated Receipts from students is accounted for by the tuition increase placed in effect at the opening of the present college year.

On June 30th the indebtedness of the University of Maine was as follows:

- Notes in bank | $145,000.00
- Unpaid Bills | 90,000.00

The University has no source of income to pay the indebtedness and make up the difference between the expenses and receipts except the State of Maine.

**SPECIAL APPROPRIATIONS**

For Deficit

It has been the policy of the University of Maine to present to the Legislature as accurately as possible the exact condition of the institution and to make requests for appropriations to cover actual needs so far as they can be determined. The requests made in 1915, 1917, and 1919 turned out to be too small because of the enormous increase in costs. The Legislature, in its wisdom, did not make appropriations as large as requested. The unusual demands made upon the institution, the increased costs and the insufficiency of the appropriations presented to the authorities of the institution a very serious problem. It was necessary to decide whether the institution should be maintained at its usual high standard or greatly curtailed. The increasing number of students and the growing demands of the citizens of the State made it seem wise to continue the institution and trust the people of the State to take care of the unavoidable deficit. Every economy consistent with good management has been inaugurated. Whenever possible the teaching force has been decreased. Tuition has been increased and made uniform to all students. The old and confusing terms, registration, inciden- tals, and tuition, have been united in the single term, tuition. All students from the State of Maine now pay an annual tuition of $90, those from without the State, $160.

For New Buildings

No appropriation for buildings made by the Legislature has been used by the University since 1915. There is urgent and immediate need for a number of additional buildings. Unless some relief is given it will be impossible to take care of further increases in the student body, or to give adequate instruction in a number of departments. The building needs of the institution should be carefully studied and a program covering a number of years made out. The most pressing immediate needs are as follows:

a. **Addition to Mt. Vernon House.**—The number of girls attending the institution are far in excess of the housing facilities. At the present time the institution is using two dwelling houses as annexes to the dormitories. These are at considerable distance from the dormitories where the meals are taken. Accommodations are furnished for about 190 girls out of a total attendance of over 250 girls. The appropriation requested is to construct a forty room addition with dining room and kitchen facilities to Mt. Vernon House.

b. **Horticultural Building.**—Horticulture is one of the important industries in the State. Many students desire to prepare themselves for work in this field. The University ought to be in a position to lead in the development of the Horticultural interests of the State. The present greenhouses are old, dilapidated, out of date, and unfit for use. They have already served many years longer than the allotted life of commercial greenhouses. The appropriation requested will build a head house and several units of greenhouses.

c. **Accommodation Hall.**—A large number of men at the University room and board in the various Fraternity Houses. The distribution of Freshmen into these houses is usually made within the first six weeks of the college year. During this period the housing facilities for men are entirely inadequate. The building proposed under the name of Accommodation Hall would furnish in large dormitory rooms housing for freshmen until permanent distribution was made. During the remainder of the year it would be used to great advantage for the following purposes:

1. To house the short winter course students.
2. To take care of those in attendance at Farmers’ Week.
3. To accommodate the delegates to the Boys’ and Girls’ Club Convention.
4. To house delegates to various organizations that might be invited to hold their annual meetings at the University.

The University for a number of years has been greatly handicapped because of its inability to take care of short winter course students, Farmers’ meetings, club meetings, and so on. Such a building as indicated above would solve this difficulty as well as make it possible to relieve en-
Tehachapi, the State of Nevada, and Southern Oregon would enroll in our Chapter for membership and attend our Semi-Annual meetings.

Golden Gate Alumni Chapter
Formed at San Francisco
Second on Pacific Coast to be Organized

On the evening of October 16th, 1920 at 7 o'clock P. M. 14 alumni of the University of Maine assembled at Marquads Cafe, Geary and Mason Streets, San Francisco for dinner.

During the dinner the various men in attendance found time to inquire for old friends and acquaintances and to gather some information as to the present condition of the University.

After the dinner a temporary chairman was elected and the assembly discussed the matter of forming a permanent organization.

It was unanimously voted to take the name of Golden Gate Chapter, University of Maine Alumni Association. Officers elected were:

W. C. Hammatt '93, President; H. H. Hoxie, '06, Sect. and Treas.

It was voted to hold two regular meetings each year; one to be determined by the Annual "Maine Night" meeting held on the same night as all other section meetings and the date of the other meeting to be determined at the next gathering.

In discussing the matter of finances for Golden Gate Chapter it was decided that no dues would be charged. At each meeting an assessment would be levied to take care of expenses up to and including that date. In lieu of there being no dues in the Chapter it is expected that each one enrolled in the Chapter will pay the annual membership to the General Alumni Association which will constitute also full membership in Golden Gate Chapter.

The President was instructed to send telegram to the University on Maine Night, to assure them of our interest and support.

It was the hope of the meeting that all Alumni living in California north of the Tehachapi, the State of Nevada, and Southern Oregon would enroll in our Chapter for membership and attend our Semi-Annual meetings.

The Secretary was instructed to send a copy of the minutes of the meeting to the General Secretary at Orono.

It was voted to hold next meeting on January 21st, 1921.

Meeting adjourned and all present went to a moving picture theatre where they saw the two reels of University pictures that were left with us by W. D. Towner, General Secretary.

It was the consensus of opinion that a very pleasant evening had been enjoyed and it was deeply regretted that all Maine men in this locality were not in attendance.

Those present were: W. C. Hammatt '93, Lindsay Duncan '97, E. S. Bryant '98, Capt. J. W. Merrill '05, R. F. Rogers '05, H. H. Hoxie '06, R. B. Bird '06, Carl Estabrooke '09, P. W. Ham '09, R. A. Jellison '10, F. W. Conlogue '10, R. E. Davis '11, William Redman '15, P. E. Philbrook '15.

Dr. Aley Presents Budget at Alumni Faculty Get Together

67 alumni and alumnae of the University gathered at Coburn Hall, Friday evening, October 22nd, for the second Alumni-Faculty Get Together. 40 members of the faculty not graduates of the University were present. The purpose of the meeting was not only for the acquaintance and consequent exchange of opinion between former students and faculty, but for the presentation of the University budget and the reasons pertaining thereto.

President Aley was introduced by Harold W. Wright '10, secretary of the Penobscot Valley Alumni Association. He outlined the complete program. He was followed by Alumni Secretary Towner who asked for the alumni cooperation in the campaign to be waged by the alumni to educate the legislators as to the true needs of the college.

Six colleges, Harvard, Cornell, Wesleyan, Smith, Bryn Mawr and Mt. Holyoke have formed an organization, May 1920, which they have named Associated Endowments. New York University, Worcester Polytechnic Institute and Wellesley later joined. The object is to ascertain through an experimental campaign whether an intercollegiate organization can obtain national publicity for the needs of higher education.

At the University of North Carolina the new dean of men is a graduate of the class of 1916. Surely a young dean!

Maine Night Celebration Among Local Associations

Philadelphia

The following Maine graduates of the University met at the Engineers Club, 1317 Spruce St., to observe the celebration:

H. C. Pritham '01, A. F. Wheeler '02, Mowry Ross '02, W. B. Hussey '02, A. D. Case '04, F. E. Learned '05, W. A. Fogler '09, J. F. Locke '17, Foster Nowell '17.

Plans were made to hold an informal dinner at the Club for Friday, December 10, for the purpose of organizing a local association.

Boston

The Boston Association met at the City Club for an informal meeting, President George E. Seabury '88 presiding. The University budget, the athletic situation and the work of the General Alumni Association were the topics of discussion. Among the speakers were Harry Sutton '09, N. H. Mayo '09, E. Lamb '09, R. E. McKowin '17, T. W. Haskell '14 and E. J. Wilson '07.

New York

The celebration was held at the Madison Square Hotel, Madison Ave., and 26th St. for dinner. President J. A. Hayes '01 presided. An exhaustive discussion of the athletic situation at the University, featuring the after dinner program.

University Teacher's Ass'n. Holds Annual Banque

70 teacher graduates of the University gathered at the Chamber of Commerce Building, Bangor, Thursday evening, October 28th, during the Maine Teachers' Convention, to hold the annual banquet of the University of Maine Teachers' Association.

Ralph T. Coffey '14 presided at the business meeting. The following officers were elected:

President, Paul W. Monohon '14; secretary, W. H. Stanley '10; and treasurer Miss Thelma Kellogg '18.

Dean James S. Stevens acted as toastmaster and introduced as speakers Dr. R. J. Aley, Prof. Pollard of the Department of Education at the University, W. E. Fuller, Supt. of Portland Public Schools; Miss Thelma Kellogg '18 of the English Department of the University, Principal O. S. Smith '13 of Greenville, H. E. Rollins '16 and Fred P. Loring '16 of Presque Isle.
Maine Central Train Hits Auto
Killing Earl L. Emery ’17
and Young Companion

Tragic Event Occurs in Blinding Storm

Earl L. Emery, county agent of Cumberland County for the University Extension Department and a graduate of the class of 1917, was fatally injured, together with Harland Leland, a high school boy, as the result of an accident at North Yarmouth at 4 P.M., September 30th, when a Ford automobile in which they were riding was struck by a freight train outward bound from Portland. Leland died a few minutes after the accident and Emery died at the Maine General Hospital at Portland at 7:45 P.M.

She warned them against the condition of the roads, as a result of the storm. It is the belief of the railroad officials that the occupants of the car were literally blinded by the storm as they approached the scene of the accident.

There were no witnesses to the accident. The train crew felt the impact of the collision and threw on the emergency brakes. At the crossing they found the demolished car. The victims had been tossed to one side. They were placed on the train and rushed to the Yarmouth station. Leland died before they reached there. Drs. George W. Chase and D. L. Woodman of Yarmouth gave first aid here, and later Emery was sent to the Maine General Hospital. Dr. Royce B. Josselyn, medical examiner, performed an autopsy upon the body of Leland and found he had received a compound fracture of the skull, a fractured thigh and internal injuries.

Young Leland, whose home was at Salisbury Cove, Bar Harbor, was staying with Mr. and Mrs. Emery while attending school. Mr. Emery was the son of Roscoe Emery of Bar Harbor, a truck gardener.

Emery joined the Extension Service of the University in June 1920 after completing his duties as submaster and agricultural instructor at the Mechanic Falls High School. For one year and seven months, he saw active service with the 76th Division, being overseas for eight months of the time. He was married a year ago to Miss Mildred Leland of Eden.

During his undergraduate days, Emery was a member of his sophomore class track team. In his sophomore year, he was also awarded the New York Alumni Association scholarship awarded that year for the student excelling in debate. He was a member of the Sigma Nu Fraternity and is survived by his parents, three brothers and two sisters.

Knox County Alumni Meeting
First Since the War

The Rockland Country Club was the scene Tuesday evening, October 5th when 28 members of the Knox County Alumni Association and their friends gathered together for their annual meeting. An excellent banquet was served. Following the dinner there was a brief period of speech-making in which President Robert J. Aley and Alumni Secretary Towner brought messages from the University life.

Dr. B. E. Flanders ’08 was elected president; Ralph Buzzell ’13, vice president, Ruth C. Hunter ’20, secretary and treasurer; and R. S. Sherman ’06, Albert Hastings ’90 and R. C. Gowell ’16 members of the executive committee.

Oscar H. Emery ’10 presided at the meeting which is the first gathering since the war.

WHEREAS: by the death of T. Frank Shatney, 1909 the University of Maine Alumni Association of New York suffers the loss of one of its most esteemed and highly respected members and one who always gave a large place in his interests to the welfare of his Alma Mater.

WHEREAS: the Association wishes to express its appreciation of its great loss and wishing to extend its heartfelt sympathy to his immediate family, be it

RESOLVED: that the University of Maine Alumni Association of New York does hereby extend its sincere and heartfelt sympathy to his Mother and immediate family in their time of sorrow, and be it further

RESOLVED: that a copy of these resolutions be sent to his Mother, published in The Maine Alumnus, and recorded in the minutes of the Association.

Signed: Chas. H. Kilbourne 1891
Allen W. Stephens 1899
Chas. P. Gray, M.D. 1900
Executive Committee

C. M. Weston 1908, Secretary

University of Maine Faculty Well Qualified To Teach

Recent Analysis Shows Scholarly and Practical Preparation

The most important single factor in the making of a University is the teaching faculty. The University of Maine has always been fortunate in having scholarly teachers devoted to the work of their profession. It has been the policy to gather the members of the faculty from many institutions in order that all points of view may be represented. At the present time the members of the faculty have received their Baccalaureate degrees from forty-eight different colleges and universities, their Master's degrees from thirty different institutions, and their Doctor's degrees from nine graduate schools of high standing. Forty-nine members of the faculty hold Master's degrees and nineteen members hold the degree of Doctor of Philosophy. Experience in teaching is a great asset to the college instructor. The members of the University of Maine faculty before coming to the institution had had experience as teachers or principals in ninety-five different high schools, and had been instructors or professors in eighty-nine different colleges and universities. The high scholastic standing of the members is indicated by these facts: thirty-five are members of the honorary society, Phi Kappa Phi; eleven of the society, Phi Beta Kappa; and eleven of the Society, Sigma Xi. Many of the teachers in the Colleges of Technology and Agriculture, in addition to their academic training have had wide and varied practical experience. Thirty-six of them have held important positions with business, manufacturing, engineering, mechanical, electrical, chemical, and agricultural concerns. Seven have been employed in technical work by different bureaus of the United States Government.

Washington Alumni Hold Picnic

A belated report was received at the Alumni office of the spring meeting of the Washington Alumni Association, held June 16th, on the lawn of the home of Mr. H. W. Beach '06 and Mrs. Beach in Chevy Chase. Beans baked in a real State of Maine “bean hole” were served. About forty alumni and their friends were present.

The following officers were elected:
Maine Cross Country Team Loses First State Run

Easily Defeats Boston College, Finishes Second in State Run and Third in New England

Frank Preti's midget cross country team looked like one of the old-time aggregations in the dual run with Boston College, but in the state race the two Buker boys of Bates College were a pair of stars too powerful to defeat. Three members of last year's aggregation ran on the team but injuries and cramps prevented their experience from counting in the races of the year.

The Boston College Dual Race

The Boston College team visited the campus for the dual run Saturday afternoon, October 30th. At the end of the first quarter of the Colby game, "Archie" Grover '99, still a track enthusiast, fired the gun and six Maine men jumped into the lead never to be headed for the duration of the race. Across the back road of the campus they sped, through the fields, over the Webster Bridge up Ferry Hill, on toward and around the old standpipe and back again through the fields retracing their steps until the farm area of the campus was reached. The finish was on the athletic field. Pease, a sophomore, led the pack home, followed by Wilson, Berg, Laughlin and acting captain Herrick. Any one of the first three could have won the race. The score was a perfect one, Maine 14, Boston College 46. The time, 37 minutes, 11 3-5 seconds for the 51/2 mile distance was slow.

State Cross Country Run

The time had to come when a Maine cross country team must lose a state cross country run. It was little expected this year, however. The race was run at Brunswick, Friday, November 5th, over the Bowdoin course, a speedway of five miles of level road and field. The Maine team had been trained on the hills and was hardly fit for a speedy race on the level. The Buker brothers of Bates freshman who gave such a good account of himself last year, was troubled with tight shoes and finished 16th, too far back to count in the scoring.

New England Run

Having trained over an Orono course which almost duplicated the Franklin Park course at Boston, the Maine team was able to give a good account of itself finishing third to M. I. T. and Bates. The race was run Saturday, November 13th with 80 starters. "Midget" Raymond of Maine led the pack at the three mile and four mile marks but wandering from the course lost the lead to Raymond Buker of Bates and MacMahon of M. I. T. who finished in the order named. Raymond finished sixth, 30 seconds behind the winner. W. K. Herrick was the second Maine man to finish, 30 seconds behind Raymond, in ninth place Berg, a Maine freshman, finished 17th, Laughlin in 26th, Pease 38th, Capt Barnard with his injured leg, in 43rd, and Wilson in 47th. The winner's time was 29 minutes 24 3-5 seconds, a good time for the 51/2 mile distance. The team score gives M. I. T. 59 points, Bates 81, Maine 96 and Wesleyan, the next competitor to Maine, 108. Colby finished in the ruck and Bowdoin did not start a team.

All members of this year's squad will be available next year. W. K. "Bub" Herrick has been elected captain for 1921. He is now a junior. H. W. Raymond and Capt.-elect Herrick are the only two men to win their letters, according to the athletic rules which awards letters to cross country men who finish among the first seven in the state run or among the first 15 in the New England race.

Hugo Clark, Class of 1890 Succumbs to Heart Failure at Hampden Cottage

The friends of Hugo Clark, a member of the class of 1890, will be shocked to learn of his sudden death sometime between Wednesday night, September 29th and Friday morning, October first, at the cottage of C. H. Rice in Hampden where he had gone presumably to spend the night. The body was discovered by a Hampden man who has eel pots in the river and who was making a visit to the river bank when he saw a man lying on his face on the porch. Upon investigation he found that life was extinct and he notified the selectmen of the town, who in turn notified Mark A. Barwise, who occupies the office in the Columbia Building long tenanted by Mr. Clark.

The county medical examiners decided that death was due to natural causes, acute indigestion being probable. The condition of the body indicated that life had been extinct for 36 hours, that Mr. Clark had expired on Wednesday night soon after his arrival at the camp.

The death of Mr. Clark came as a distinct shock to a large circle of warm friends here, not being confined to the Bar by any means. He was beloved by many for his sterling honesty, his warm friendship and upright character. He was an able lawyer, an exceedingly conscientious worker and a public spirited citizen. Several years ago he removed to Boston, entering a large law firm there as partner, leaving them last summer to enter into practice for himself at 50 State Street. Mr. Clark was a native of Lincoln, the son of the late Judge W. C. Clark. He graduated from the civil engineering course at the University, practiced his engineering profession for some time, located on the Pacific Coast and later returned to Maine in the late nineties to practice law. He read law with the late Gen. Charles Hamlin of Bangor, long Recorder of Decisions of the Maine Courts and was admitted to the bar practicing in Bangor for many years. He was city solicitor of Bangor at the time of the big fire of 1911 and in the process of readjustment rendered valuable services, the work he accomplished having become somewhat historic.

He never married and was survived by a brother, William C. Clark, of Lincoln and a nephew. He was a member of the Kappa Sigma Fraternity.
University Deficit Increased

Annual Report for 1919-1920 Shows Liabilities $57,000 Greater Than Year Previous

The annual report of Treasurer Dunn for the college year July 1, 1919 to June 30, 1920 has recently been published. It is here reprinted for purposes of comparison, in the form submitted in the October 1919 issue (Vol. 1, No. 1) of THE MAINE ALUMNUS. The increase in student income was caused by a large increase in the number paying tuition over the previous year. The excess of liquid liabilities over assets has increased by approximately $57,000. $35,000 additional in notes was borrowed to keep the institution on a running basis.

The report follows:

ANNUAL REPORT
University of Maine
July 1, 1919 to June 30, 1920

INCOME
Income from students $92,040.63
Income from Investments 5,809.28

St. Approp.—Buildings None
St. Approp.—Coop. Agri. 29,986.58
St. Approp.—Agric. Educ. 5,569.88
Federal Aid 95,901.58
Departments 3,433.75
Other Sources 80,589.96
Total 483,331.66

EXPENDITURES
Salaries 174,313.44
Administration 34,685.10
Maintenance of Property 34,374.24
Power, Heat, Light & Water 78,991.78
House Charges 24,675.16
Departments 141,404.91
Sundries 6,076.92
Total 494,521.58
Deficit 11,189.92

ASSETS
Cash on hand 14,532.90
Accounts Receivable 36,963.92
Bills Receivable 356,380.01
Total Assets 53,239.26

LIABILITIES
Bills Payable—Notes 145,000.00
Accounts Payable 122,275.00
Total Liabilities 267,275.00
Excess of Liabilities 214,035.74

VALUATION
Lands and Buildings 731,771.40
Inventories 356,380.01
Total Valuation of Property & Equipment 1,088,151.41

Actual Surplus $874,115.58

'09 Men of Boston and Vicinity Meet at Nahant

On the afternoon of June twenty-fifth nine 1909 men boarded the "Narrow-Gauge" ferry at Rowe's Wharf in Boston, bound for an informal reunion at Nahant. One of the nine was a Cornell 1909 graduate, Mr. Walter R. Colcord, of New York, who was gladly welcomed as an adopted son of Maine. The other eight were Fred Knight and Wallace Brown, from Hartford, Spin Kimball from New Bedford, and Joe Gerrity, Phony Naumann, Harold Rich, Harry Sutton and Gus Williams from Boston. Unfortunately, Spike Mayo was obliged to leave at the last moment on a business trip, after expressing his disappointment at missing the party.

At Lynn the nine were reinforced by Putt Bruce, George Deering and Deke White, making twelve in all, a number which brought back to memory the exploits of the "Dirty Dozen" with their hand-car, back in the fall of 1905.

After a cool trolley ride to Nahant, there was a shore dinner at the Relay House, enlivened by reminiscences of the past and plans for the future. Of course, nothing can quite compare with a commencement reunion, but the twelve at Nahant spent an evening which they will remember for a long time, and they intend to repeat the experiment in the near future, with the expectation of increased numbers.

New Waldo County Association Registered on Alumni Map

Charles S. Bickford '82 Elected President

Despite the fact that the school teachers of Waldo County were on their way to the Teachers' Convention held in Bangor, 13 alumni of the vicinity met in the late afternoon of Wednesday, October 27th, at Memorial Bldg., Belfast, and organized the Waldo County Alumni Association. Charles S. Bickford '82, and Will R. Howard '82, always active in alumni affairs, were elected president and secretary-treasurer respectively. Lynwood B. Thompson '12 was elected vice president. Alumni Secretary Towner '14, and Edward H. Kelley '90, assistant treasurer of the University were present and explained the needs of the college and the working details of the legislative campaign.

After the organization was perfected, the members adjourned to O'Connell's restaurant where a fine dinner was enjoyed. Following the banquet the Colonial Theatre was attended where the Alumni Day reel taken last Commencement was flashed on the screen for the first time.

Those present were: F. R. Patten '80; W. R. Howard and C. S. Bickford '82; E. H. Kelley '90; E. L. Toner '07; William Vaughan, Jr. '11; G. E. Holmes and L. B. Thompson '12; N. S. Donahue '15; C. S. Taylor '16; N. H. Small '13; W. D. Towner '14; W. C. Sturtevant '20.

Three Alumni Hurt In Automobile Crash

Graduates of 1920 in Collision Near Orono

Irving R. Donovan, John Glynn Furey, and Raymond J. Cook, all graduates of last year's class are lucky to be alive today, following an automobile crash Thursday evening, October 28th, when all three men were injured.

Donovan and Furey who are both school teachers and who had been attending the teachers' convention, left Bangor for Orono with Cook in Donovan's Dort touring car to spend the night at their fraternity houses.

When on the hill just below Orono village, the car collided with a wagon, said to be driven by Barney Gass who lives not far from the hill, and who it is claimed was driving without a light. The car turned turtle pinning Donovan, who was driving under the steering wheel. Furey was also underneath the car. The car was completely demolished. The injured men were rushed to the Eastern Maine hospital, after Orono physicians had been called.

Examination at the hospital showed that Donovan's neck was displaced and his skull fractured at the base. The dislocation was reduced but his condition was reported as very critical. Furey was suffering from concussion of the brain and in a semi-conscious state, with convulsions, when he reached the hospital but later his condition seemed improved. No bones were broken. Both were somewhat burned around the neck.

The latest reports give assurance that the men are on the road to recovery.

The masonic Scottish Rite bodies of Texas have established three dormitories at the University of Texas, at Austin, for the use of daughters of Maston Masons and to young ladies of Masonic affiliation.

Determination in the A. M. is satisfaction in the P. M.
Deaths

Hugo Clark '90, Oct. 1, at Hampden as the result of heart failure.
Howard A. Lancaster '06, Nov. 18 at Old Town following an operation for appendicitis.
Ernest C. Leach '09, October 13, at East Eddington as the result of accidental shooting.
Earl Emery '17, Sept. 30, at Yarmouth as the result of an automobile accident.
Welford P. Billings '17, April 30, 1920, at East Eddington as the result of spinal meningitis.

By Classes

ex-'72—The death of William Brewster Cushman, March 19, 1915, while en route to U. S. on furlough, has just been reported to the Alumni Office. Mr. Olsen had for many years been a prominent resident of Hawaii, principal of Hylo Boys Boarding School, and later of the Kamehameha School. From 1894 to 1900 he was pastor of churches in Worcester, Ware, and Holyoke, Mass. In 1908 he was elected Secretary of the Hawaiian Board of Missions.
73—John M. Oak and Mrs. Oak of Bangor are to follow their usual custom in spending the winter in Florida.
73—Louis C. Southard represented the University of Maine, October 27th, at the installation of the Reverend James A. Beebe D. D. as dean of the School of Theology at Boston University.
75—The many alumni friends of Dr. W. A. Bumps of Dexter will be sorry to learn that he is in a serious condition as the result of a recent shock.
75—The many alumni friends of Dr. W. A. Bumps of Dexter will be sorry to learn that he is in a serious condition as the result of a recent shock.
73—Lous C. Southard represented the University of Maine, October 27th, at the installation of the Reverend James A. Beebe D. D. as dean of the School of Theology at Boston University.
75—The many alumni friends of Dr. W. A. Bumps of Dexter will be sorry to learn that he is in a serious condition as the result of a recent shock.

Of Interest to High Grade Men Who Find Themselves In Blind Alley Jobs

The W. T. Grant Company, specialists in 25¢, 50¢ and $1.00 merchandise, is opening new stores throughout the country and is continually employing men to train for managers. For every man who makes good there is a responsible executive position, and the average man with better than average grit and determination can make good.

Men must be willing to work at small wages through a two to five year training period. It's hard work, sometimes tedious and monotonous, and often the hours are long and irregular.

The company has fourteen years of success and healthy growth behind it, is reliable, is soundly financed and is growing rapidly. Sales this year will be in excess of $10,000,000.

Necessary qualifications: Completed college course, age 22-27, unquestioned character and strong personality. Must be free to go anywhere in the United States. It's not a married man's job during the training period. Beginning wage $25.00 per week. Present managers receive $3,500—$12,000 per year. Average about $7,000.

State your age, major work in college, experience, and whether married or not. Replies kept confidential.

Everything for Winter Sports

The crew of the ship was recruited from the state of Tennessee and it is the first time such a thing has been attempted, the Tennessee is a super-dreadnought 624 feet long, 97 feet wide and draws 30 feet of water. It weighs 32,600 tons and is propelled by four screws, each of which is 21 knots at which speed the propellers rotate three times per second. The propellers are 13 feet, 6 inches in diameter.

Miss Wood since her graduation from the University of Maine held the position of assistant to the principal and teacher of languages in the Oak Bluffs High School. Her pleasing and attractive manner won her many friends, as it has always been the case with Miss Wood. She is a very popular school teacher.

The verdict in favor of Miss Wood met with favor locally, as the young school teacher is popular among her pupils.

Harold P. Marsh
offered the position of confidential secretary with a salary, but she declined and continued to help him as an act of kindness. She was with him until his death in January. The inventor's estate is estimated to be more than $50,000 with a possibility of being close to $100,000. She was appointed sole executrix.

---

M. S. Campbell returned the last of August from Omaha, Nebraska, where he had been doing telephone work, to his home at Boothbay. He is now on a cruise with his father to southern ports.

---

Richard McKown has left the broker's firm of Richardson, Hill & Co. and located with H. N. Hartwell & Son, wholesale coal dealers at 70 Kilby St., Boston.

---

The death of Alton W. Tracy on Apr. 16th, at his home in St. Albans, Vt., has just been reported to the Alumni Office.

---

The following members returned for Maine Night and the Colby game:

---

T. W. Borjesson can be located at North Haven where he is teaching in the high school.

---

George Carter is teaching Mathematics and Science at the high school in Washburn. He graduated last June taking his degree as of his original class. During the summer he was in the Commercial Engineering Dept. of the Edison Lamp Works of the General Electric Co. at Harrison, N. J.

---

Elton L. Edgerley is with the Edison Lamp Works of the General Electric Co. at Harrison, N. J. Mr. Edgerley is in the Sales Promotion Department.

---

Dorothy Folsom is teaching French in the high school at South Manchester, Conn.

---

Clyde L. Wilkins is employed with the General Motors Export Co. of New York City. He is at present enrolled in the training course offered by the company preparatory to service in foreign countries.

---

---

Miss Anne Curran is director of physical training in Rumford High School.

---

Miss Blanche Haley is teaching in Oregon City, Ore.

---

C. F. Larrabee and Mrs. Larrabee visited the campus on October 18th from Old Town where they were passing their vacation. They had just returned from a week's trip thirty miles north of Moosehead Lake.

---

Miss Faye Smith is at home this year teaching in Machias High School.

---

The following members returned for Maine Night and the Colby game:

'20—Prof. Wm. Barrows of the electrical engineering department, recently announced the location of his 1920 engineering graduates as follows:

'20—Everett H. Brasier is principal of the Castine High School.

'20—Stanley M. Currier is located with the U. S Geological Survey at 704 Journal Bldg., Albany, N. Y. Currier visited the campus for Maine Night and the Colby game.

'20—Miss Priscilla G. Elliott and Miss Florence E. MacLeod are teaching at the Mt. Ida School, Newtonville, Mass.

'20—Francis H. Friend is the forester for the Cushnoc Paper Company at Augusta, Me. He is residing at 13 Grove St.

'20—Miss Leona M. Gilman has a position in Dover, N. H. teaching Home Economics.

'20—Samuel Guptill is principal of the Alfred (Me.) High School.

'20—Class Secretary E. P. Jones, is principal of the High School at Deer Isle.

'20—Miss Ruth Jordan is teaching in the Brownville Junction High School.

'20—A. B. Lingley is employed in the Chemical Department of the Converse Rubber Co. at Malden, Mass. He is living at 76 Bartlett St. He has recently been appointed assistant secretary of the Boston Alumni Association and chairman of the newly organized athletic committee.

'20—Miss Ella J. McFarland is teaching at New Harbor, Me.

'20—Miss Mary A. Pulsifer is in Lancaster, N. H. teaching Home Economics.

'20—Miss Flavia L. Richardson is teaching Mathematics in the high school at Old Town.

American youths entering college have increased in numbers at a record rate during the past six years and if the proportionate growth is continued to 1930, there will be 1,138,000 students in 210 institutions where 294,000 were enrolled last year. These figures, compiled by the Institute for Public Service, have raised the question of where the money needed to educate these larger groups will come from.

1107 young men and women seeking admission to the Penn. State College as members of freshman class were turned away due to lack of proper facilities to properly care for them.

University of Maine

College of Arts and Sciences—Major subjects in Ancient History and Art, Biology, Chemistry, Economics and Sociology, Education, English, German, History, Latin, Mathematics, and Astronomy, Philosophy, Physics, and Romance Languages. Special provisions for graduates of normal schools.

College of Agriculture—Curricula in Agronomy, Animal Husbandry, Biology, Dairy Husbandry, Forestry, Home Economics, Horticulture, Poultry Husbandry, and for Teachers of Agriculture. School Course in Agriculture (two years). Short winter courses. Farmers' Week Correspondence and lecture courses. Demonstration work.

College of Technology—Curricula in Chemical Engineering, Chemistry, Civil Engineering, Electrical Engineering, and Mechanical Engineering.

Maine Agricultural Experiment Station—Offices and principal laboratories in Orono; Experiment Farms in Monmouth and Presque Isle.

Graduate Courses leading to the Master's degree are offered by the various colleges.

Nerve Control of the Organs of Elimination

How Constipation Follows a Derangement of the Mechanism, and How it Can Most Effectually be Relieved

At the rear of the abdomen lies a great "plexus" or nerve center that works in a manner similar to a telephone central switchboard. It receives messages from nerves in various regions of the body and transmits them to minor nerve centers or "ganglia", which directly act on the muscles to be stimulated. Its principal function is to keep in operation various mechanical processes, of which the most important is the proper elimination of food waste.

The presence of food waste in the colon ready for discharge causes a message to pass to this plexus. The plexus immediately forwards this message on to the smaller nerve centers which directly control the muscles of elimination in the walls of the colon.

Constipation results from failure of the colon muscles to respond to orders. These muscles may fail because the waste matter in the colon is hard and dry, or because of reaction from over-stimulation created by salts, pills, castor-oil, mineral waters, etc. They are "tired out" and unable to respond—just as a jaded horse can no longer respond to the whip.

Nujol, unlike cathartics, works only on the waste matter and not on the system. It does not stimulate or harm, and therefore is the safe and rational treatment for constipation. Nujol simply softens the food waste and keeps it at the proper consistency, making it easy for the muscles to pass it from the body in their normal way. In the same process it relieves the nerves of over-exertion and enables them to rest.

Nujol actually prevents constipation because it helps nature maintain easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. It does not cause nausea or griping, nor interfere with the day's work or play.

Nujol is absolutely harmless and pleasant to take. Try it.

Nujol

For Constipation

Sold by all druggists, in sealed bottles, bearing the Nujol trade mark.

*In succeeding issues of this publication will appear other articles on the elimination of food waste, based upon the conclusions of leading medical authorities.
In the Land of Perpetual Light

Night comes but light remains, for electricity knows no darkness.

For electric light is no longer a luxury. In the forty years of its development it has become a necessity. It has made our streets safer and more attractive, blazed a trail for conveyances on land, sea, and in the air, aided surgery and medicine in correct diagnosis and brought comfort and cheer to farm, factory, and home.

The greatest contribution to better light has been the creation of the Mazda Lamp. G-E research and engineering fostered this achievement. In addition the General Electric Company has designed and built all the apparatus essential in the science of illumination—for harnessing Nature's forces to generate current, for safely transmitting this current, and for applying it where perpetual light is desired.
