Campus Senators Guests At U. of M. Alumni Dinner

Senators Leave For Orono Wednesday To Discuss Plans For Union Memorial Building Campaign

The executive committee of the Student Union Memorial Building Campaign, including Charles Battle, Kenneth Allen, Richard H. Shaffer, and Mark Sheldy were guests at a dinner given for the University of Maine Alumni Association in this area. After the dinner, Senator Crocker, who has been working for the University Alumni Association in this area, announced that there will be an official dinner party held at the Harriet Beecher Stone House in Brunswick on Friday, June 28, for the public. Senator Crocker and Mark Sheldy were guests at a dinner given for the University of Maine Alumni Association in this area.

During the Spring vacation, Mr. Charles A. Johnson, Mechanical Engineering instructor at the Brunswick Annex, when visiting his home in New York, discovered a letter from Peckskill, New York, dated between January 27 and March 21, the premises had been vacated by thieves. Mr. Johnson's house is about a quarter of a mile away from the railroad station and it is likely that the burglars moved up and down the street and entered their house in a truck. Many valuable antiques and etchings, among them three Nineteenth Century clock faces, some of which were in rosewood, were stolen.

Also missing were an antique cider mill, a family heirloom since the Civil War, a valuable collection of Horticultural Books, a large air mattress with box springs, and other articles of high sentimental value. Windows had been broken and doors broken shut in a manner that suggested a forcible entry.

The police were notified but were unable to find any trace of the thieves. It was thought by Mr. Johnson's housemates that the burglars were in the area several times within the last few years.

ATTENTION NAVAL AIR RESERVISTS

Many students on the campus have indicated a desire to participate in the Naval Reserve group at the Saginaw Naval Air Station. If the matter is clarified, we find that it will be impossible, at least for the present, for Mr. Navy to furnish you with air transport, an agreement from Brunswick to Saginaw. The following is a list of appointments received from the Public Information Officers at NAS Saginaw:

- The main problem confronting the Naval Reserves in the Brunswick area will be transportation. At the present time, the Navy has not made any commitments to the Brunswick area.
- The Navy has not yet made any commitments to the Brunswick area. However, the Navy has agreed to send personnel to the Brunswick area who will be available only for those students who wish to participate in the Naval Reserve program, and who live within the designated area.

BOWDON PROFESSOR HERE APRIL 16

Professor Albert Abrahamson of the Department of Physics at Bowdon will speak on The Laser Science Building at Wednesday, April 16.

From 1945 to 1946, Professor Abrahamson served as an administrator of the U.S. Army, and then returned to Bowdon as a professor of physics. During the same time, he served as a member of the Bowdon Science Board, and was also a member of the Bowdon Academy. He has received several awards, including the Bowdon Academy Award in 1950.

Professor Abrahamson has been active in the field of applied physics, and has contributed to the field of chemistry as well. He has been a member of the American Physical Society and the American Chemical Society.

\textbf{Tips for Vets}

By L. Littlehalte

VA is sending thousands of letters to World War II veterans who have been receiving their help in straightening out their affairs. The letters are being sent to veterans who have been receiving aid from the VA.

Student veterans and other former GIs who brought souvenir firearms and other guns must register them with the government according to the U.S. Treasury Department.

As to whether veteran's own personal weapons are to be registered with the government is a matter of much dispute. Sometimes it can put something resembling a good band on a thing. The thing to wait for now is a band which attracts attention. Let's give Bill Duggan time on this and let the public do this. Stan Kenton plus the Dave Barbour-Perry Lee combination. This means a two-sided affair which features wonderful solos by Vido Musso, Ralph Freeman and Eddie Safranski on his bass. bamboo Goodman is not a hard man. The government registration section, which enrolls students and pays registration allowance to those who pass in two units, was formerly in entirely different service.

The VA has taken steps to implement the education by combining in one new course two old subjects. We would like to take this opportunity to thank Charles B. Johnson, Chairman of the Drafting-Drafting Committee, for his aid and guidance.

Mr. Johnson was born in Providence, R.I., 1883, where he attended grade school. He graduated from the English High School in Boston and took a special course at the Massachusetts Institute of Technology, and studied architectural design at the Beaux Arts Societie in Paris.

In 1910 he went to New York and later accepted a position with Mr. Cas G. Gilbert, architect, the Westminster Building and the United States Supreme Court Building at Washington, D. C. He is perhaps the best known of America's living architects. Mr. Johnson, who has been a registered Arch. Society. He worked with Mr. Gilbert for five years and was in charge of preparing the drawings for the first five buildings, among which the United States War Department was one.

We, as a World War I veteran, Mr. Johnson was in charge of the layout of the new Navy Yard, now the Army Supply Base, Brooklyn, New York. This was the largest in the world and was also in charge of the construction work on the George Washington Bridge at New York City and the Bayonne Bridge in New Jersey, including the approaches. An interesting sidelight on these bridges is that the George Washington Bridge was the longest suspension, and the Bayonne Bridge the longest single arch at that time.

In 1934, he left Mr. Gil- bert, Mr. Johnson retired from architectural work.

\textbf{Riffs and Midriffs}

\textbf{By "The Light"}

The last three weeks have given me an opportunity to little looking around for the last time in the last three years. Boys are on the march once more and England has released a mile-a-minute. After a few days of "base" for the first time in its history, I have come to the conclusion that the outside hands need much polishing and time in order to do their part, which will be able to withstand the tastes and batteries of years to come. I have been on my way once again, as least as I wrote. A few months of training out should put these hands right on the ball. My band does a wonderful job on Heart-songs. I have bought a pair of these and put something resembling a good band on it. The thing to wait for now is a band which attracts attention. Let's give Bill Duggan time on this.

\textbf{Four Million Saved by VA}

The Library of Congress has virtually completed the distribution to veterans of all libraries and universities of a million surplus textbooks. Almost 1,000,000 veterans have obtained books through the VA's "Veterans' Reading Program," and an additional 30,000 have been given books by the Armament Research and Development Board. 100,000 books have been given to libraries by the War Department through the "VA's War-Department Book Program."

\textbf{Delinquency Takes Over}

In all the talk true about attendance at college at the present time? The cost of repairing buildings is too much for the main gate damaged by college students from this campus this year. The cost of repairing buildings is too much for the main gate damaged by college students from this campus the last year. The cost of repairing buildings is too much for the main gate damaged by college students from this campus the year before last. The cost of repairing buildings is too much for the main gate damaged by college students from this campus the year before last year. The cost of repairing buildings is too much for the main gate damaged by college students from this campus the year before last year.

From The Suggestion Box

Dear Editor:

Three outside Aside (the one on the Maine Campus (continued on page four), two, and one-third columns on the Mayor's Page, one-third on the Dean's list, and two on the Earl's list. Let us now turn to the second page.

Here is our first encounter with advertisements. Under close scrutiny we find that there are a number of interesting articles, many rarious sizes, all rectangular in shape. The first column of the first page is empty. Quarter of an inch column with one level. But the first is yet to come. So, we move on to the next page.

You may stop screaming now, because it is not a mirage. It is all there in black and white. The lower third of this page is empty, with the white space filled with un-significantly, a total of one hundred sixty-seven inches of space. This column contains an advertisement. The number of un-significantly, a total of one hundred seventy inches of space. This column contains an advertisement.

L.F.C.

Dear Editor:

I was interested in your letter of April 30th. I am a student at the University of the Maine Campus and have been following the activities of the literary magazine, "The Maine Annexe," for some time. I have been impressed with the quality of your work and feel that it deserves further encouragement. I am a member of the editorial board of a similar publication at another university, and I would be pleased to help in any way I can. I would welcome the opportunity to contribute articles or reviews to your magazine.

Sincerely,

[Signature]

POETRY CORNER
By Bob Rupp

Hear Ye, all you potential Bryants and Poe’s, we invite your contributions to the Poetry Corner. Write that poem that has been nagging around in your brain and disturb it in the suggestion box in the Cafeteria. We hope to be able to print some new poems each week.

IF
If you can keep your head when all about you
Are losing theirs and blaming it on you,
If you can trust yourself when all men doubt you,
But make allowance for their doubting too,
If you can wait and not be tired by waiting,
Or being lied about, not deal in lies,
Or being hated don't give way to hating,
And yet don't look too good, nor talk too wise:
If you can dream and not make dreams your master;
If you can think and not make thoughts your aim,
If you can meet with Triumph and Disaster
And treat those two imposters just the same;
If you can bear to hear the truth you've spoken
Twisted by knaves to make a trap for fools,
Or watch the things you gave your life to, broken,
And stoop and build 'em up with worn-out tools;
If you can make one heap of all your winnings;
And risk it on the chance of being heard in the news;
And lose, and start again at your beginnings
And never breathe a word about your loss;
If you can force your heart and nerve and sinew
To serve your turn long after they are gone
And so hold on when there is nothing in you
Except the Will which says to the soul: 'Hold on!'
If you can walk with crowds and keep your virtue,
Or walk with Kings—and lose the common touch;
If neither foes nor loving friends can hurt you,
If all men count with you—but none too much;
If you can fill the unforgiving minute
With sixty seconds' worth of distance run,
Yours is the Earth and everything in it,
And—which is more—you'll be a Man, my son!

Rudyard Kipling

SOURCE OF NEWS

Absolute knowledge we have none, but
My niece's washerwoman's son
Heard a policeman on the beat
Say to a laborer on the street
That he had a letter last week
Written in the finest Greek.
From a Chinese coolie in Timbuctoo,
Who said that the niggers in Cuba knew
Of a colored man in a Texas town,
Who got it straight from a circus clown.
The man in the Klondike heard the news
From a gang of South American Jews,
Who heard of a society female rake,
Whose mother-in-law will undertake
To prove that her husband's sister knows,
As stated in a printed piece,
That she has a son who has a friend
Who knows when the war is going to end!

Latrine detail for week of April 14—George Bragdon & C. Richmond

POETRY CORNER

Most money can be earned at summer hotels. A good season at one of these hotels should pay approximately two hundred and fifty to two hundred seventy-five dollars, aside from room and board. The season usually opens around June 15 and closes shortly after Labor Day. The work in summer camps consists mainly of counseling positions and jobs in the dining hall and maintenance around the camp. This offers less pay but a pleasant summer for employees. It is an eight week job which pays seventy-five to one hundred dollars for inexperienced persons and higher wages for experienced workers. All expenses for the summer are also paid.

Construction work consists of such a variety of jobs that it is impossible to estimate the income which can be earned. For unskilled laborers, Mr. Brockway estimated that it would be around seventy-five cents an hour. In these jobs you have to pay your own room and board. The Placement Bureau has received no information on the types of construction to be carried on this summer as yet. He recommended that students make all possible effort to locate a job themselves and not depend entirely upon the Bureau.

Mr. Brockway went on to look ahead three years to the graduation of the Class of '50. He marked upon the impossibility of predicting the employment situation at that time. However, he said that he believed that there would be much more competition for jobs as colleges will have unusually large graduating classes this year. The student with the highest scholastic standing will stand a better chance of getting the job of his choice. But it is necessary to be a well-rounded student as well as scholastically successful. No experience is required by companies seeking employees at the Bureau. The companies can only offer a student by his activities during his four years of college.

No definite plan has been drawn up as yet for informing students at this campus of available jobs. Tentative plans are that the Placement Bureau will send all information to this campus and students will be notified if a job of their liking is open. It will be up to the student himself to contact the prospective employer.

By Mike O’Toole

A TRIBUTE

The last whistle has blown as uniforms have been mothballed, and to the Maine Annex of understandings. A tribute to their collective acts. A perfect season for a FINE tribute.

At the first meeting of the tennis team was held Monday, April 7, ten men reported to Coach Cliff Little. Most of these men have been playing tennis in high school competition, and although there are no past records or returning lettermen to cite, there is reason to believe that the Annexmen will not win any matches and percentage of their matches.

Due to his insistent knowledge and individual abilities, Coach Little selected the present team players to make an elimination or ladder system of selecting his final eight or nine team members. Aspirants will compete against one another for the last eight.

Eight matches have been scheduled and one is pending. These matches will consist of three doubles and six singles matches. Road trips to Hebron, Orono, and Portland have been arranged.

The tennis courts here at the Annex will hereafter be reserved for team practice from Monday to Friday afternoon from Monday through Thursday. No members will be allowed on the courts at any other time.

More men are needed for the team, so how about a few of you who have been practicing lately reporting to Coach Little or coming over to the courts at the regular practice hours.

The Schedule

Aor. 21 Bowdoin here

Sport Sidelights

While looking around the gym the other day, I noticed a few new additions to that edifice. On the stage there has been set up a golf-rack for anyone who wants to use it. By the way, if anyone deserves a prize that will be necessary for him to bring his own trophy. The athletic office has announced that a golf team is being organized if anyone wishes to join, he may do so by reporting to the athletic office. Mr. Carl Kallough, a former Rockland, Maine, “Peer”, is to be the golf varsity team coach. Good luck to you and your team, Carl.

The following is the schedule for the golf team.

April 25 — Bowdoin JV’s
May 2 — P.J.C.
May 8 — Bowdoin’s
May 14 — P.J.C. Bath Country Club
May 19 — U. of M.
May 25 — U. of M.

You have probably noticed by now that the home course for the Annex golf team is at the Bath Country Club. Some of the boys who have already answered the golf call are Eugene McNab, Andrew Bunker, Hanks Peasley, and the late Bob Childs.

The men on this campus have shown much interest in the track fields. Many potential champions have been working out daily around the campus. A track area was set up in the lower grade yard between the gym and the football field.

All the scheduled track meets are to be held away this year.

May 3 — M.C.I.
May 13 — South Portland High
May 18 — Triangular Meet with Portland and Deering High Schools
May 22-23 — New England Intercollegiate
May 31 — Hebron

Spring football will be under way very soon now. Plans call for three weeks of practice starting May 19, and ending June 6. The reason that the practice session is being set for June 6, is that the athletic office thought that this would give the men who are going for baseball and don’t make the grade a chance to get in some track practice. Practice ends on June 6, so that the fellows who go out for football will have an opportunity to get at their books before the finals roll around.

Just a word of caution to the Bank Greenbergs and Dave Rutns. You men should be careful around the buildings with your baseball; windows are broken very easily you know. There are some pretty big fields on and around this campus for baseball and softball games.

We enjoy the multi-colored track players suits seen around this campus, especially the red one that Bull Halley sports in.

Backhands and ace serves seem to be the topic of many conversations heard in the ball sessions this time of year. The tennis boys are out in full swing now, and I do mean full swing.

It’s a wonderful sight to behold the manner in which Ray Humen and David Cates glide over the tennis courts. The year’s course.

MAINE MASQUE TO PRESENT PLAYS

Tuesday night April 15th is the second performance of The Maine Masque presents three one act comedies: “Hunny Your Lip”, an army satire; “No Curtain Calls,” a melodrama commentated, “Refund,” a take off on the hardships of prep school life.

Tuesday night, April 15th, is the date, the time will be posted later. Students and students wives will be admitted free. If you missed “Room Service,” don’t miss this — three act comedies for you — for free!

We haven’t seen or heard of anyone in the polo-department, What’s the matter, haven’t we any polo-pelers in this school?

We are sorry to hear that the Annex men who were supposed to go to the Winter Sports Banquet at Orono were not able to attend because of conflicting school work. Don’t worry, men of the basketball team, you are still going to get that big feed. You men are going to have own banquet here on the Brunswick Campus, April 11.

Three softball diamonds for the intramurals have been set up over near the Student Union. The varsity baseball diamond is now in use. It is located across the street from the laundry.

The varsity baseball schedule, April 30 — U. of M.’s
May 9 — J.C.
May 14 — Orono
May 17 — Maine Maritime
May 24 — Bates J.V.’s
May 31 — Maine Maritime Away

There is also to be a game with the Farmington Teachers, but as yet there is no date set for this event.

Compliments of the

I. G. A. STORES

OF BRUNSWICK
PERSONALITIES
By Larry Pinkham

Photo by Robbins
Richard (Dick) Haney

From time to time outstanding personalities loom out of the par
siveness of the masses. Surely, one who has in the course of twenty-
four years won letters in swimming and track in high school,
served nearly six years with Uncle Sam's Bluejacket's, and organized
and effected Brunswick Coop's most successful dances can be clas
sified as an outstanding personality.

But these prominent accomplishments are only a few of Dick
Haney's successful ventures. Dick combines the attributes of mod
esty, versatility, and better than average intelligence with a quiet,
unassuming attitude and accomplishes admirable tasks.

While attending Portland High, Dick found time to win his men
named letters in cross country and swimming, worked as a mem
ber of the staff of the TOTEM, Portland's yearbook, and still main
tained an honor average in his academic endeavors. Graduation in
June of 1946 found Dick in the recruiting office where he joined the
pre-war pacific Navy. Shortly after completing Boot Camp, young Haney served aboard the U.S.S. Blakely, Hamilton, and Arkansas in the North Atlantic. Even before Dec. 7, 1941, as many will probably remember, hostilities were taking place on the world wide stage where eventually, the complex drama of total war was to be enacted. The North Atlantic was no exception. Dick, after forceful persuasion, can sometimes be enticed to tell some of the in

triguing events that his ship was involved in. After two years at sea, Dick
passed exams entitling him to en
trance to the U.S. Naval Prepa
ratory School of Norfolk, Vir
ginia. While there he passed entrance
exams to Annapolis and received his first appointment in 1945. Had
the normal course of events been permitted, June of 1946 would have
found Dick receiving his commis
sion as Ensign in the capacity of a
Line Officer. But Dick, so it seems,
was not one to pursue a normal
course of events, and in Feb., 1946
—only four months before his sched
uled graduation—he resigned from the Naval Academy and the Naval
Service.

Until his entrance to Maine last September, Dick took life easy
and leisurely watched ole Father
Time tread his eternal path.

Since the christening of the Brunswick Campus, Dick has be
come a well respected senator from Building 17 and has also taken
the time to add his name to the highly honored Dean's List.

The night before Spring Vacati
on the entire student body let
loose the pent-up steam accumu
lated through several weeks of
concentrated studying. Dick watch
ed quietly in the background as
hundreds of vivacious girls, invited
from surrounding hospitals and
schools, provided tea ladies with
long awaited companionship.

Needless to say, Dick instigated
the whole affair.

Much impressed by the tre
mendous response received by the
pre-vacation dance, Dick contem
plated starting Friday night jule
box dances. He hopes to bring stag
girls from Bath and Brunswick to
provide the necessary feminine ac
companiment. Let it suffice to say
that such a venture couldn't hope
to find a better source to arise
from than that of our own Dick
Haney. We've got our eye on you
Dick, because we don't want to
miss the fun when you once again
let loose your potential abilities in
another blaze of social attention.
