<p>According to the CDC older adults and people with certain other risk factors like heart disease, diabetes and lung disease are at a higher risk of serious illness from coronavirus infection. Faculty who face higher risks associated with COVID-19 will be able to transition to online and distance instruction as soon as possible and staff employees with similar risks who communicate a desire to work remotely will be given preference for "telecommuting" work-from-home arrangements to the extent possible. Students facing higher risks may seek accommodations from their university accessibility services office.</p> <p>(Last reviewed/updated: 03/13/2020)</p>
