## What's the issue?

COVID-19 is the infectious disease caused by the most recently discovered coronavirus. This new virus and disease were unknown before the outbreak began in Wuhan, China, in December 2019. - [World Health Organization](#)

While "coronavirus" refers to a broad group of viruses, you might hear the term being loosely applied to refer to the newest strain, COVID-19, or Coronavirus Disease 2019.

The information about COVID-19 is rapidly evolving. Please check back here as this guide will continue to be updated as often as possible.

Find Maine-specific information here.
