## UMaine Today

## Cobo-Lewis talks COVID-19 data, psychology with WVMO

April 22, 2020

WVMO radio interviewed Alan Cobo-Lewis, associate professor of psychology at the University of Maine, about the coronavirus pandemic for an episode of "GHRT Rewind." Cobo-Lewis discussed COVID-19 case data, trends, the need for widespread testing to obtain accurate figures and the psychology of people during the outbreak. "The endgame is to eradicate (COVID-19), or to get it down to a low enough level where you can deal with it," he said. "Either with effective treatment or preferably, eventually a vaccine."
