Townships and Tracts with no mark except their distinguishing number are lands assigned to the State of Maine since the separation.

The upper figures in each township are their respective distinguishing numbers. The lower figures are the number of acres sold in each, excepting the Lottery townships in which the figures show only the number of acres sold by Lottery. The figures in the tracts marked with Roman numerals show the number of acres in each tract respectively, as far as can be ascertained from the inventories of lands returned to the Legislature in 1820.

Townships and large tracts sold & granted since the year 1783 are distinguished by the names of the principal original Grantees, under the number or designation of the township, or name of the town or plantation.
