James Knox Polk was President
when this firm began business. In the intervening
years the population of the United States has in­
creased from twenty-three million to over one hun­
dred million. The country's industries have required
capital to meet the demands made upon them by this
great growth. This firm has materially helped to sup­
ply this capital by selling high-grade securities. We
are doing so yet.

May we send you a list of the securities we are offering for investment?
