In the interest of community safety and well-being, University of Maine COVID-19 phase 6 weekly asymptomatic testing of all members of the UMaine community who are on campus will begin Feb. 1 and continue throughout the semester.

The noninvasive, saliva-based **Shield T3** PCR diagnostic test will be administered at the Collins Center for the Arts, and is at no cost to you.

Please click on this [link](#) to schedule your testing day and time. The day and time you select for the first week will remain the same throughout the semester. If for some reason you need to change the scheduled time at some point during the semester, please email um.covidtesting@maine.edu to reschedule. You will be emailed a ticket for your appointment each week, with the date, time and location displayed on the ticket.

Additional information will be sent out regarding the testing process, including instructions on how to register prior to arriving at your first appointment.

With gratitude for your efforts and hopes for a productive and safe spring semester

Sincerely,

Chris Lindstrom

Vice President of Human Resources
