Citizen of the Year

Freeport Community Services “Founding Mothers”

The Award for Freeport Citizen of the Year is given annually to a Freeport individual or community group that has substantively contributed to the quality of the Town, the well-being of the citizens, the reputation of Freeport, and has caused a measurable improvement in the circumstances of a significant number of townspeople.

Forty years ago, a group of young mothers gathered to share resources, from a listening ear to children’s clothing. This core group thought there must be others in the community who would benefit by being connected with people who could help them and who they could help. This idea of “neighbors helping neighbors” grew and now there is an entire organization, Freeport Community Services (FCS), dedicated to carrying forth the idea of these “Founding Mothers”.

The women who started the activities that have been incorporated into FCS are major players in the life of Freeport. They individually and collectively have looked out for each other and the community. They have organized events and meetings to provide aid to those who may be experiencing hardships. Through their own circumstances, they understood the delicate balance between providing care and prying. They were sensitive to people’s feelings and recognized the difficulty of asking for assistance. Using their network, they were able to identify people in need, provide assistance, and direct others to resources.

These ladies are not “shrinking violets”; they are full of vim and vigor. They work behind the scenes, but come to the forefront when conditions demand. All of these Founding Mothers recognize the value of volunteerism and model it in their lives. They encourage people of all ages to give back to the community that supports them.

There is no way to quantify all the contributions of these women. Each person in Freeport could tell a story about how their lives were impacted, directly or indirectly, by these women or FCS. It is important to remember these women for who they are as individuals, but also how they came together to form an organization whose primary concern is the care and comfort of the citizens of Freeport. The townspeople in Freeport, and now Pownal, are fortunate to have FCS as its lifeblood, with people constantly flowing in and out of the stream as donors, recipients, or volunteers.

Vaughndella, Janice, Suzie, Betsy, Sherry, and Carol may not have realized what their idea would become as the

*Freeport Community Services “Founding Mothers”
(l-r): Linda Harding (on behalf of Suzie Harding), Carol Southall,
Elizabeth “Betsy” Ruff, Cheryl “Sherry” Smith, Vaughndella Curtis,
and Janice Fogg*

years passed. They were all certainly involved in FCS’s evolution though, either formally on committees, informally in discussions, or through their numerous selfless acts. Many times people who have done so much for others are embarrassed to be recognized. Despite that, now is the time to extend our utmost admiration to these women. They have given Freeport a legacy that will stand the test of time, because it comes from the people and is given to the people, connecting us all, neighbor to neighbor, within this community.

Town Council

Melanie Sachs / Town Council Chairperson

The Freeport Town Council members adopted four goals at the beginning of the Council year to guide their work together. I am pleased to offer this summary of progress on these goals. This progress is indicative of the collaborative working relationship between the Town staff, Freeport residents, and the Council.

Goal #1 - Prioritize, evaluate and control expenditures in operating and capital budgets to mitigate the impact on the taxpayers and maintain a stable tax rate, while providing the highest quality services possible within the resources available.

The Council worked diligently to maintain a stable tax rate this past year. This required the Councilors to go through the capital, TIF (Tax Increment Financing) and operating budgets line by line in public forums. Workshop sessions were held with boards and committees, department heads and community groups. The Council's Municipal Facilities Committee (MFC) also completed a major cost analysis of five outsourced service contracts. MFC recommended these services be brought under the Town departments, at a significant cost savings to residents. Additionally, the MFC conducted a thorough cost-benefit analysis of the Non-Emergency Transportation (NET) Program operated by Freeport Fire/Rescue.

The results of the Council's efforts were significant cost management and savings to the taxpayers. The overall capital budget was decreased for the coming fiscal year, and the rate increase for operating budget was trimmed to a 1.15% tax impact on the mil rate. This translates to an increase of approximately 3 cents per \$100,000 valuation for the average homeowner.

In an effort to bring greater transparency to Freeport residents about the budget process and the other factors which impact their tax bill, Council Chair Sachs invited Cumberland County Manager Peter Crichton, Cumberland County Finance Director Alex Kimball, and District 3 Commissioner Stephen Gordon, to a Freeport Town Council meeting to discuss the impact of the 7.14% Cumberland County tax increase on Freeport residents. Additionally, several meetings were held (as described below) with RSU 5 officials to discuss the impact that the RSU budget (with its significant increase of 9.76%, or an additional 94 cents per \$100,000) would have on the taxpayers.

Finally, Council Chair Sachs and Town Manager Peter Joseph both testified before the Maine State Legislature's Joint Committee on Appropriation and Taxation to discuss Freeport's concerns over the proposed changes to the tax structure. We were successful, along with many of our municipal partners, in raising significant concerns about the proposed changes, most of which were ultimately defeated.

Goal #2 - Continue to promote efforts to engage Freeport residents in decision-making.

Connection with the residents of Freeport is a high priority for the Freeport Town Council. Councilors held meetings in all four Freeport voting districts this fiscal year. In District One, resident concerns about the deforestation along Interstate 295 were numerous, and a meeting was arranged by the Council with Maine Department of Transportation officials. Councilors continue to work on this issue, and facilitate resident meetings with Town and State officials to voice their concerns and find solutions. In District Two, concerns around the proliferation of the brown tail moth led residents to request a meeting with a state biologist. The Council was successful in bringing a representative to Freeport within a month to discuss the issue at a Council meeting.

2015 by the numbers

Cost to the median taxpayer / \$12

Employees / There are 7 elected Councilors

Fact / The Town Council considered 219 agenda items this year.

Concerns about speeding were voiced by Freeport residents in all four voting districts. These concerns were addressed immediately in the form of increased monitoring and data collection by the Freeport Police Department. Ongoing discussions, such as traffic calming measures, continue to be held in the Traffic and Parking Committee, and regular updates are given to residents at Council meetings.

The Council also voted to establish the Active Living Advisory Committee this past year. This Committee will continue to engage residents in conversations about the implementation of the Active Living Plan. Residents were also invited to be part of specific planning sessions for

(l-r): D. Scott Gleeson, James Hendricks, Sarah Tracy, Andy Wellen, Melanie Sachs (Chairperson) and Bill Rixon. Missing: Kristina Egan

areas such as Leon Gorman Park. A section of the Town website was established called “Freeport Outdoors”, to inform residents of recreational opportunities.

Outreach to residents continues in several forms. Several Councilors use Facebook and email to stay in touch with residents. Resident surveys were also conducted by the Council on the plastic bag ban initiative, which was proposed to the Council by two Freeport high school students. Residents were also very engaged in bringing the METRO bus service to Freeport, which the Council approved for a three-year pilot project.

Goal #3 - Increase communication and strengthen the working relationship between the Town Council and the RSU5 Board.

Council Chair Sachs and Vice Chair Gleeson, with support from the rest of the Council, committed many hours to strengthening the lines of communication and enhancing the understanding between the members of the Freeport Town Council, the RSU 5 leadership and other municipal partners.

The Council, at the request of the RSU 5 Board of Directors, expeditiously moved to appoint a resident to a vacancy on the RSU 5 Board in early December. Council Chair Sachs met soon after with the RSU 5 Board Chair to discuss the challenges and opportunities ahead for the two entities.

A leadership breakfast was attended by Council Chair Sachs and Vice Chair Gleeson with the elected and administrative leaders and officials from Pownal, Durham, and RSU 5. Several Councilors also attended the RSU 5 budget

meetings, and gave updates at Council meetings. Council budget materials were shared with RSU 5 as well.

Council Chair Sachs also arranged a meeting at the Freeport Community Center for all elected officials and administrative leaders from Freeport, Pownal, Durham, and RSU 5, in May. The purpose was to provide information to the other entities about budget concerns, process questions, and community updates.

Council Chair Sachs also invited the new superintendent of RSU 5 to attend a Council meeting during his first few weeks of employment. The Council looks forward to continuing to forge a strong relationship with all of its community partners.

Goal #4 - Operate cohesively as a group and promote intercommunication, information exchange and collaboration on direction and process between Councilors, while conducting town business in an efficient manner and promoting transparency of Town government.

The Freeport Town Council has a wide array of methods to engage residents and disseminate information, which includes holding district meetings, televising Council meetings, personal outreach, and surveys. The Council also adopted a process for an Annual Orientation for Board and Committee Chairs, to support Town residents who volunteer for these important positions. Term limit processes for Board and Committee appointments were reviewed, and a recognition procedure and ceremony for outgoing volunteers was established.

Several amendments to the Administrative Code were approved this year. One of the most significant was the change in job title and description of the Shellfish Warden, who is now the Marine Resource Conservation Officer. Council, Town Staff and Committee members (where appropriate) served on the hiring panels for this position, as well as for the Town Clerk and Finance Director positions. The membership of the Traffic and Parking Committee was also expanded.

The Council has worked hard to keep solid fiscal management, active communication with residents, and transparency in operations as our primary goals. I would like to thank my fellow councilors – Scott Gleeson, Sarah Tracy, Kristina Egan, Jimmy Hendricks, Bill Rixon and Andrew Wellen - for all of their hard work this past year. I am grateful for their engagement and service to our town.

Town Manager

Peter E. Joseph / Town Manager

It is my continued honor to serve the Town of Freeport in the role of Town Manager. At the most basic level, the Town Manager's office is responsible for the overall operation and management of all municipal departments and employees, as well as for the implementation of all policy decisions

made by the Town Council. Fiscal Year 2015 saw a great deal of work accomplished by the Town thanks to our dedicated and experienced staff and clear direction from the Council. The Town remains in excellent shape financially, however in 2015 residents were impacted by a significant tax rate increase, driven primarily by an increase in the Regional School Unit # 5 (RSU#5) component.

Each year, the Town Manager and Finance Director work closely with the various department directors and the Town Council to develop an annual operating budget for the upcoming fiscal year. The annual operating budget is considered during May and June each year, and is approved by the Town Council, usually with amendments, before July 1st, which is the start of the Town's fiscal year. I'm happy to report that in FY 2015, the approved operating budget for FY 2016 shows only a slight increase of about \$58,000 from the current year. Credit for maintaining a responsible budget lies not only with the Finance Director and Town Manager, but also with the Town's department directors, who work hard each year on their budgets to minimize impact to the local taxpayers, and ensure that residents are getting a good value for the Town services they fund.

Along with the operating budget, the Town Manager is also responsible for the development of a five year capital program for the repair and replacement of major items such as buildings, vehicles, equipment, roads, sidewalks, and various other types of infrastructure. The purpose of the capital program is to establish a savings plan to fund major purchases, and to schedule these purchases in a manner that minimizes drastic impacts to the tax rate such as "peaks" and "valleys" that could occur if capital purchases vary widely from year to year. It's very encouraging to note that the Town's capital program continues to successfully insulate the "Town" portion of the local tax rate from wide swings from year to year, through the use of reserve accounts to save for major capital purchases.

As previously mentioned, with the adopted budget for the coming year, Freeport will experience a significant tax rate increase in FY 2016, of \$1.00 (from \$15.80 to \$16.80) to the local property tax rate. This will be assessed beginning in the Fall of 2015. The local property tax rate is determined by combining three components. First, the "Town" component is driven primarily by the municipal budget, proposed by the Town Manager and approved by the Freeport Town Council. In FY 2015, this portion of the tax rate increased by \$0.03, or 3 cents. Second, the "School" component is primarily driven by the RSU#5 budget, which is proposed by the Superintendent of Schools and approved by the RSU#5 Board of Directors. In FY 2015, this portion of the tax rate increased by \$0.94, or 94 cents. Finally, the "County" component is primarily driven by Freeport's share of Cumberland County operating expenses, which are divided, or "apportioned", to all Towns within the County. In FY 2015, this portion of the tax increased \$0.03, or 3 cents. The Town Council, Town Manager, and Town Department Directors share the concerns of many of our residents about these increases to the local tax rate, and we will continue to work diligently throughout the year to minimize impacts to the Town portion of the local tax rate wherever possible.

In addition to the ongoing annual duties such as budgeting and capital planning, the Town Manager's office is responsible for overseeing the day to day operation of the Town departments and agencies. There were several notable happenings and trends during FY 2015:

Throughout Fiscal Year 2014, the Town of Freeport explored the possibility of withdrawing from Regional School Unit 5. The final negotiated agreement between the Freeport Withdrawal Committee and the RSU 5 Board of Directors was put before the voters of the Town of Freeport at the annual election on November 4, 2014. There was a high voter turnout with 73% of registered voters casting ballots during the election. The voters ultimately

2015 by the numbers

Cost to the median taxpayer / \$52

Employees / 3.75

Fact / Responsible for overall supervision and personnel administration of 66 full time and 75+ part time and seasonal employees

decided against withdrawal from RSU #5, in a very close vote of 2,152 in favor and 2,228 opposed.

There were several significant staffing changes to report in FY 2015. Finance Director Abbe Yacoben left the Town of Freeport after five years of service to take a position in Arizona. A wide recruitment led to the hiring of new Finance Director Jessica Maloy, previously the Finance Director for the Town of Lisbon, in January.

Shortly after Abbe's departure, Town Clerk Tracey Stevens also left us after three years of service to take a comparable position in Florida. Her replacement, Christine Wolfe, was hired in June, and can be found on weekdays helping customers with a smile behind the Town Clerk's counter when they stop by Town Hall.

I would like to thank both Abbe and Tracey for the excellent service they provided to the Town while they were employed here. We wish both of them the best in their new endeavors, even though the past two brutal winters in Maine may have left some of us a little bit envious of their new homes!

Additionally, longtime Shellfish Warden Tom Kay retired in the early winter of 2015, leading to a slight realignment of job duties and the renaming of the position of Shellfish Warden to that of Marine Resource Conservation Officer. Officer Andrew Durgin was hired by the Freeport Police Department as Freeport's first Marine Resource Conservation Officer and started working with us this past spring.

As always, I'd like to thank the employees and volunteers of the Town. The countless hours of hard work put in by our volunteers, board members, and employees is an asset to the Town, and truly makes a difference. Freeport is lucky to have some of the best employees and volunteers in Maine, and we are thankful for all they do. A special thanks also goes to the Freeport Town Council for all of their support of the municipal departments and employees throughout the year.

Special thanks to the dedicated employees of my department – Assistant to the Town Manager Judy Hawley and our building maintenance staff consisting of Brent Moon and Helen Fournier. They make my job easier every day, and they certainly deserve more recognition than they usually receive.

If I can be of any assistance to you, please don't hesitate to contact me. I wish you all the best in the coming year.

Freeport By the Numbers

On most pages of the annual report you will notice a section labeled **"By the Numbers"**. In this section, you will find information about what each department costs the median taxpayer, staffing levels and other interesting factual information about the department. The hope is that this will give the reader a quick overview of the scope of the department. Please keep in mind that the numbers are based on the median assessed value of all residential properties which is \$235,400. If your property is assessed higher or lower, then your contribution to each department would be different. The number does not take into account revenues generated by the department. Staffing levels indicated are shown in a full-time equivalent (FTE) unless otherwise noted, which does not take in to account the actual number of employees, but rather the total employee hours budgeted for that department and how many full time employees that would equal. There are expenses in the Town's budget that are non-departmental, and therefore they are not broken down on a page, and would total \$231 dollars on the median tax bill. This includes expenses such as utilities, insurance, promotions, miscellaneous and contingency, employee benefits, overlay and debt service.

Senate of Maine

Stan Gerzofsky, State Senator / 127th Legislature / Senate District 24

3 State House Station / Augusta, Maine 04333-0003 / (207) 287-1515 / TTY: (207) 287-1583

Dear Friends,

It is an honor to represent the people, businesses, and communities of Senate District 24 at the State House. I am grateful for the support and pledge to continue to work hard for you and our region.

For the first time in twenty years, control of the Legislature is divided amongst political parties. The House of Representatives has a Democratic majority and the Senate has a Republican majority. So, in order for the Legislature to achieve anything, it requires the collaboration of both parties. This is the way our elected officials should work – together. And for the most part, we did.

As your State Senator, I will continue to do as I have always done in the past, and that is work with all sides to do what is best for you, our region, and our state. Please know I will continue to focus on creating good-paying jobs, fostering economic development, providing tax relief and reform, investing in education, lowering energy costs, protecting our environment, and building a better infrastructure.

As the Legislature continues its work, please know that I am always available to hear from you. I hold open office hours each month on the first Saturday in Brunswick at the Little Dog Café and on the last Saturday in Freeport at the Bow Street Market. Both office hours are from 10 a.m. to noon. Please stop by. I would also encourage you to sign up for my legislative email updates. Just contact me if you would like to join. You may unsubscribe at any time.

Again, it is an honor to serve as your State Senator and I appreciate the continued support. I look forward to seeing you around the district.

Sincerely,

A handwritten signature in black ink, appearing to read "Stan Gerzofsky", with a long horizontal flourish extending to the right.

Stan Gerzofsky

House of Representatives

Sara Gideon, State Representative

2 State House Station / Augusta, Maine 04333-0002 / (207) 287-1430

Dear Freeport Neighbors,

Thank you for again giving me the opportunity to represent you in the Maine House of Representatives during the 127th Maine Legislature.

During the Legislature's first session, we passed a balanced, bipartisan budget that includes smart, targeted investments necessary to grow our economy. These include middle-class tax cuts and property tax relief, investments in our students and workforce and a more secure retirement for aging Mainers.

We took important steps to make sure our state is a place where hard work pays off, our kids have access to a first-class education and seniors can age in dignity.

As we begin the second session, we have a great deal more work to do. I remain committed to collaborating with my colleagues – Democrats, Republicans and Independents – to improve the lives of all Maine people.

My priority continues to be the people of Maine and building both a present and future where we each have the opportunity to prosper. This means we will create opportunity today while paving the way for the jobs of tomorrow, we will ensure our students are prepared for a global economy and we will protect Maine's incredible natural resources.

Despite the challenges we face, Maine has a bright future, which we can reach together through hard work, planning and compromise.

Please do not hesitate to contact me with any questions or concerns or if you need assistance with any aspect of state government. You can also sign up to receive periodic email updates from the State House or contact me by emailing sara.gideon@legislature.maine.gov. It is truly an honor to serve as your state representative.

With kind regards,

A handwritten signature in dark ink, appearing to read 'Sara Gideon', followed by a horizontal line.

Rep. Sara Gideon

Town Clerk

Christine Wolfe / Town Clerk and Registrar of Voters // Mary Howe / Deputy Town Clerk

(l-r): Mary Howe & Christine Wolfe

ELECTIONS: The Town Clerk and Voter Registrar is responsible for voter registration, maintenance of the voting list, absentee voting as well as for the coordination and supervision of all elections in the Town of Freeport. Two elections were held during fiscal year 2014-2015, including one recount. Election results were as follows:

NOVEMBER 4, 2014 STATE AND MUNICIPAL ELECTION: Initial results showed 4,710 ballots were cast for this election with 6,435 registered voters at the time of election. That was a phenomenal 73% voter turnout. 1,131 of the ballots cast were absentee ballots; 9 of which were issued to uniformed or overseas voters. Voters elected the following individuals to municipal offices for 3 year terms: Councilor At-Large, William Rixon; Councilor District 2, Sarah Tracy; Councilor District 3, Kristina Egan; RSU #5, Lindsay Sterling and Beth Parker; Sewer District Trustees, Sally Leland and Gerald Kennedy; Water District Trustee, Thomas Hudak. The voters also voted to not withdraw from RSU #5 with a very close vote of 2,152 in favor and 2,228 opposed. Richard DeGrandpre requested a recount of the Councilor At-Large race which was conducted on November 17, 2014. The tally numbers from election night showed Richard DeGrandpre with 2,070 votes and William Rixon with 2,076. The recount gained Mr. DeGrandpre one vote with the final results reflecting 2,071 votes cast for Richard DeGrandpre and 2,076 for William Rixon, making Mr. Rixon the winner of the seat for Councilor At-Large.

JUNE 9, 2015-RSU#5 BUDGET VALIDATION: 1,296 voters cast ballots for the RSU#5 fiscal budget. There were 6,466 registered voters at the time of the election, resulting in a 20% voter turnout. 102 voters chose to cast their ballots using an absentee ballot. There were 29 people who registered to vote or changed their names and/or addresses. The budget passed in Freeport with 917 yes votes, 378 no votes and 1 blank. The budget passed district-wide and a \$29,407,203 budget was adopted.

REGISTERED VOTERS (AS OF JUNE 30, 2015): 6,469
2,519 Democrat / 2,212 Un-enrolled / 1,508 Republican / 228 Green Independent / 2 Other

Finance Department

Jessica Maloy / Finance Director

Welcome to the Finance Department! The Department is responsible for all property and excise tax collection for 4,500 real property and 500 personal property accounts, processing vehicle registrations, weekly payroll for the Town's 66 full-time and 75+ part-time employees, paying all of the Town's invoices and billing for any receivables. In addition, the Department is in charge of the Town's information technology needs.

The Department is also responsible for all cash reconciliation and investing the Town's funds to ensure proper cash flow and maximum security and liquidity. The Finance Director works closely with the Town Manager on the budget process, and is responsible for the annual estimate of revenue and preparing a balanced budget, in addition to preparing the financial statements and all subsequent notes and schedules. This was the Town's second year with auditing firm Runyon, Kersteen, Ouellette from South Portland. Several important financial statements are located at the end of this annual report. Please visit the Town's website or Town Hall for full financial statements.

Many of the services we offer, including re-registrations for automobiles, trailers, ATVs, snowmobiles and boats can be done online; please visit our website at www.freeportmaine.com. For questions regarding the Finance Department, please call Finance Director Jessica Maloy at 865-4743 ext 115.

Town Engineer

Albert Presgraves / Town Engineer

The Town Engineer also serves as the Director of Public Works and the Director of Recycling and Solid Waste. During the budget process for FY 2016, a new Buildings and Grounds division of the Public Works Department was established to more cost effectively maintain Town properties that

had been previously maintained by private contractors. Organizing, hiring, and training the new employees will be coordinated with the Town Manager's office in order to start performing this work on July 1, 2015.

The Town Engineer oversees many of the Town's capital projects and provides engineering support to other town projects. He provides staff support to the Traffic & Parking Committee and other Town committees as needed. He manages the Town's Stormwater Permit compliance requirements with the Maine Department of Environmental Protection (DEP), and provides technical review and inspections of commercial projects for the Town Planner. Other engineering and administrative services are performed by the Town Engineer as requested by the Town Manager.

A capital project that started in FY 2014 was the reconstruction of Torrey Hill Range Road. The Department of Public Works re-aligned some of the curves, removed bedrock located near the new road location, and improved

Winter clean-up on Torrey Hill Range Road.

the drainage ditches and pipes, before installing the base pavement layer with a consistent pavement width of 21 feet. In 2015, additional drainage repairs were required. The surface paving will be installed in FY 2016.

Another capital project funded last year was the drainage improvements at the Pownal Road Recreation Facility and Hedgehog Mountain Road. The project included the relocation of the entrance to the parking lot and the construction of additional parking spaces. The drainage improvements were required by the DEP Site Location of Development Permit associated with the Hunter Road Recreation Facility. This construction project was

2015 by the numbers

Cost to the median taxpayer / \$12

Employees / 1

Fact / 9 commercial construction projects were reviewed and/or inspected

implemented through a competitive bidding process in the early spring of 2015, and was to be substantially complete by July 31, 2015. Some clean-up work and the work on Hedgehog Mountain Road will extend into FY 2016.

The major reconstruction project for this year was most of Wardtown Road, beginning at the end of Griffin Road and running for 2.55 miles to the intersection with Grant Road and Lunt Road. The Town was fortunate to obtain funding through the Municipal Partnership Initiative program at the Maine Department of Transportation (MDOT) for \$500,000 of the \$1,300,000 total project cost. The project was started in 2014 by the Public Works Department, stopped for the winter, and resumed in the spring of 2015 with reclamation (grinding) of the existing pavement, grading, stabilization of the base gravel, and paving the base layer of pavement including 3 foot wide paved shoulders. The Town plans to install the surface paving layer after the winter in FY 2016.

A small project of note; the completion of the sidewalk on West Street at the railroad crossing. The majority of the sidewalk and reconstruction of West Street had been completed in FY 2014. When improvements were constructed at the intersection of School and Main Streets in October, 2013, a utility pole remained in the road until it was removed by the utility company in the spring, 2015.

Since 2002, the Town has been regulated by the Maine DEP under a Municipal Stormwater Permit. The permit requires a variety of activities including system monitoring, public education, and an annual report, among many other things. The current Municipal Stormwater Permit was issued in July, 2013, and the Town's Stormwater Program Management Plan was submitted to the DEP on December 5, 2013. More information is available on the Town and Maine DEP websites.

There are two streams in Town classified by the State as Urban Impaired Streams. These streams receive most of the runoff from the Town's stormwater collection systems. The two Urban Impaired Streams are Frost Gully Brook and Concord Gully Brook, with the latter being the highest priority by the Maine DEP. For these reasons, the Town has obtained grants to perform a Watershed

Survey and a Watershed Management Plan in Concord Gully Brook. The Watershed Survey was completed in December, 2013, and the Watershed Management Plan study was completed in April, 2015.

The Traffic and Parking Committee addressed a number of traffic and safety issues over the course of the year. At a well-attended public meeting in September, residents told the Committee that a sidewalk on Main Street, South Freeport, was not supported. A sidewalk was being considered because the road is scheduled to be reconstructed in 2016, and it should be done at that time, if desired. The Committee recommended that Main Street be rebuilt in its current design with minor improvements and no significant changes.

The Town Engineer enjoys working with the many volunteers, Committees, and other Town employees that help to make Freeport such a special place. All of these efforts help to maintain and improve the quality of life in Freeport.

Hunter Road Fields

The Hunter Road Recreational Facility is now established as a high quality youth sports site. The fields themselves were completed in 2012 and the building opened for use at the end of the fiscal year 2013. The fields are maintained under a contract with Regional School Unit 5 (RSU 5), and oversight of the facility is provided by the Hunter Road Fields Advisory Committee which is appointed by the Freeport Town Council.

In the summer and fall of 2014, the fields were well used by Freeport United Soccer Club, RSU 5 Community Program Soccer, RSU 5 Soccer, and Maine Coast Waldorf School Soccer, as well as New England Revolution Soccer Camp. The end of season brought events for Soccer Maine State Cup and Fall Classic League Soccer Championships. In the following spring, the fields were used by Freeport Pownal Little League, Freeport United Soccer Club, RSU 5 Community Program Lacrosse, and the Little League All-Stars. During the full fiscal year, the facility hosted over 60 teams, 750 kids, and 250 games.

The Hunter Road Fields Advisory Committee met as needed during the year. A decision was made to maintain the remaining blueberry fields at the north end of the site with a program of controlled burning to manage weeds, scheduled to start in 2016. An earlier decision to perform deep tine aer-

Employees / Services are contracted

Fact / Over 60 teams used the fields

ation and adjust some of the organic management practices on the playing fields resulted in continued improvements in the health and condition of the fields. The concession area in the field house was built-out in early 2014 by the Freeport United Soccer Club; that feature has benefitted many of the sports clubs and users.

Overall, the Hunter Road Recreation Facility is a big improvement for the active youth in our community. It has resulted in less pressure on the fields that are owned by RSU 5, so the condition of all the playing fields in Freeport has improved. The Hunter Road Advisory Committee is pleased with this success, and we enjoy our work helping the facility meet the community's needs.

If you or your organization is interested in reserving these facilities for use, please contact the Hunter Road Fields Committee at hunterfields@freeportmaine.com. Additional information about facility use, policies, rules and fees are available on the Town's website at www.freeportmaine.com

Tax Assessor

Robert Konczal / Assessor // Louise Thibeault / Assistant Assessor

The Town Assessor is an agent of the State, and is charged by law with valuing property for the purpose of taxation. To raise the funds for the budget approved by the Town Council, the Assessor prepares a list of all properties annually, and commits the assessments to the Town Tax Collector for collection. The Assessing Office then reports its activities for the year to the State Department of Revenue Services.

Valuation History: This Office conducted a Market Update of valuations in 2006 to bring assessments more in line with the market and to help restore equity. Since then, the national real estate markets have softened. As a consequence, this Office cut back valuations by applying a factor of .85 for assessments as of April 1, 2010. Owing to the market's recovery, another market update was implemented, effective April 1, 2014. Thus the town certifies a 100% assessment ratio with Maine Revenue Services for this year.

Valuations as of April 1, 2014:

Land	\$ 662,339,300
Improvements	\$ 801,920,500
Real Estate Exemptions.....	\$ -96,459,100
Personal Property.....	\$ 120,336,035
Personal Prop. Exemptions.....	\$ -48,461,153
Net taxable valuation	\$ 1,439,675,582

2015 by the numbers

Cost to the median taxpayer / \$18

Employees / 2

Fact / There were 139 real estate sales transfers

Homestead Exemption: If you have owned a home in Maine for 12 months prior to April first, you may apply for this program. Forms are available at the Tax Assessor's office and on the Town's web site. If you have already applied, there is no need to reapply. The exemption is now \$10,000.

Veteran's Exemption: A property owner may obtain a reduction in the valuation of their property if they are a veteran who was not dishonorably discharged and is over 62, or is an un-remarried widow/widower of a qualifying veteran. If the veteran is under 62 but is 100% disabled due to a service-connected disability, he/she might likewise qualify. Applications for these exemptions are available in the Assessor's Office, and on our web site.

Important Notice: The Maine Residents Property Tax and Rent Refund "Circuitbreaker" Program has been repealed as part of the enacted state budget for claims beginning on or after August 1, 2013.

The Circuitbreaker Program has been replaced by a refundable Property Tax Fairness Credit that can be claimed on the Maine Individual Income Tax Form. The new credit became available beginning in January, 2014 on the Maine Individual Income Tax Form 1040ME. A worksheet will be included with Form 1040ME to help you figure out the amount of the credit.

Forms can be downloaded from the Maine Revenue Services web site at: www.maine.gov/revenue/forms. You may also call 207-624-7894 to request that a form be mailed to you.

Tax Rate: The tax rate has stayed fairly steady over the past several years. It did take a jump in FY 11, but this was because valuations had been reduced town wide.

Planning Department

Donna Larson AICP / Town Planner // Caroline Pelletier / Assistant to the Town Planner

Donna Larson

Caroline Pelletier

The Planning Department is always looking for ways to make Freeport a great place to live, work, and play.

The Planning Department serves a variety of functions for the Town of Freeport. The Department provides assistance to the Project Review Board, the Staff Review Board, and the Planning Board. In addition to those traditional tasks, the Planning Department also writes and administers grants, oversees energy consumption for town-owned buildings, and completes a variety of special projects on an as-needed basis. The Department staff is always available to help residents and business owners understand local codes and ordinances and how they relate to their property.

During fiscal year 2014, the Project Review Board reviewed the following commercial and residential development applications; 13 Design Review certificates, 14 site plan amendments, three site plans, one temporary activity permit, one residential subdivision, and one residential subdivision amendment. The largest project approved was a 7,200 square foot building for LL Bean at the Outdoor Discovery Center on Marietta Lane. The

Board approved a 6,300 square foot building for Moser Properties on Main Street and a new 2,800 square foot building which will be used by Hughes Inc (arborist) on Route One South. In regards to residential projects, the Board approved plans for a 14-lot open space subdivision on Baker Road which resulted in the creation of about 27 acres of open space. The land was ultimately donated to the Town of Freeport and incorporated into the Town of Freeport's Florida Lake Property. There are two other residential development proposals that are currently under review by the Board.

The Staff Review Board reviews small development proposals. This Board was created to help expedite the review and approval of smaller commercial expansions and new business proposals. In the past year, the Board reviewed a total of two projects; one for a change of use for a new dance studio and the other for a small addition at an existing business.

The Planning Board continued their work of implementing the Comprehensive Plan which was adopted by the Town Council in 2011. The Board reviewed the rules and regulations for the Route One North area and recommended changes with significant input from people living and owning businesses in the area. Sustain Southern Maine, a regional planning project, completed a pilot project on the Porter's Landing Area. The Board reviewed and supported the 2014 Active Living Plan. Keith McBride, FEDC Executive Director, made a presentation on that organization's VISION 2025.

A number of special projects were started and/or completed. For example, the first unit of the Habitat for Humanity 8-unit housing development on West Street became occupied. The Department worked with Portland METRO to establish bus service between Portland and Freeport. A planning process was started to engage the public on how the skating area at Leon Gorman Park should be reused. That discussion will continue into the next year. The town was awarded a grant from the Community Development Block Grant program to complete energy assessment and

2015 by the numbers

Cost to the median taxpayer / \$14

Employees / 2

Fact / 553 acres of open space were preserved through subdivision projects since 2002

air sealing on 75 low income homes. The work will begin in upcoming fiscal year. The Town Planner served as the Vice-Chair of the Portland Area Comprehensive Transportation System (PACTS) and, as such, is active in planning for regional transportation projects. A study that monitored Freeport clam flats was completed in the summer of 2013.

In the next fiscal year the Department will be engaging with residents and business owners in anticipation of the Portland METRO expansion to Freeport. The Department will continue to look for ways to decrease energy consumption and increase the use of renewable energy resources. The Department will also start evaluating town-owned open spaces, how they are used, what types of maintenance they need and what improvements are needed. As always, grants will be prepared as they become available.

Leon Gorman Park

FREEPORT FY 2015 County Tax / \$879,073
Percent Tax Change / 2.42 %
Percent of Total Municipality Budget / 8.93%

The County tax accounts for 8.93% of the total municipality budget for the Town of Freeport. For this amount, Cumberland County provides the Town of Freeport services such as Cumberland County Jail, Sheriff, District Attorney, Probate Office, Registry of Deeds, Regional Communications Center, and Emergency Management Agency. In 2015, Commissioner Stephen Gorden represented District 3, which includes the Town of Freeport, as a chief elected official of the County.

Special Notices

Town of Freeport Volunteers Needed: Interested in becoming involved in your community? The Town of Freeport is in need of residents interested in serving on the Town's many important Boards or Committees. If you are interested in serving on a committee, applications are available at the Town Hall (30 Main Street, Freeport) and on the Town's Website www.freeport-maine.com.

Municipal Bulletin: The Town publishes a Municipal Bulletin which contains information on town activities, events, as well as the Town Manager's report. The Bulletin is produced once or twice a month, generally in conjunction with the Town Council Meeting schedule. This Bulletin is posted on the Town's website under "Quick Links". There is also the option to subscribe to receive the Bulletin via email.

We Now Accept Credit Cards at Town Hall: Cards accepted include Visa, Master Card, American Express, and Discover. There is a \$1.00 fee for credit card usage under \$40 and a 2.5% fee on charges equal to or over \$40.00. (The municipality is required to assess these fees to the user as set by the credit processing agency.)

Codes Enforcement

Fred Reeder / Codes Enforcement Officer

New residential construction in Freeport was above average this year with a total of 62 new residential units permitted; this was above the average of 54 units per year. Forty-six permits were issued for single family houses; up from 44 permits the previous year. This was a significant increase over two

years ago and one of the department's top permitting years since 2000. Details can be observed in the table below.

The number of permits issued for new commercial construction remained the same with only four permits being issued. This was another slow year for new commercial growth, which could in part be due to the low vacancy rates in the retail area of Freeport Village. There was still, however, a large construction project underway, Freeport Medical Center, which is now up and running.

The Town has standards for accessory apartments and a permit is required for the construction of these units. One

permit for an accessory apartment was issued this year. If you are interested in putting in an accessory apartment, a copy of the regulations can be obtained at the Codes Office at Town Hall or on the Town's website. The Town may see more permits for various types of apartment units over the next few years, as some standards have changed which makes it easier to construct units in existing buildings.

The Board of Appeals had a busy and diversified year. There were 16 setback reduction/variance requests, the same as the previous year, two mis-located building appeals, one appeal of a decision of the Codes Enforcement Officer and a request for a waiver to the Freeport Sign Ordinance.

The 2009 Shoreland Zoning changes are still in effect and the way the shore setback is measured varies by property. If you live in the Shoreland Zone, including in any stream protection areas, or are not sure, please stop by the Town Office or visit the Town's website to obtain a copy of the regulations to see if these changes affected your property. In addition, the Federal Emergency Management Agency (FEMA) preliminary flood insurance rate maps have been published and a copy has been delivered to the Town Office for review by the public. We encourage all property owners near a water body to stop by and see if changes are proposed on their property.

As a reminder, since December 2010 we have been enforcing the 2009 building codes as mandated and amended by the State of Maine. Forms and information on the current codes are available on the Codes Enforcement page of the Town's web site at www.freeportmaine.com. As always, we encourage you to contact our office prior to starting a construction project of any size.

Fire/Rescue Department

Darrel G. Fournier / Chief

The Freeport Fire Rescue Department is a combination department. We are made up of career, per-diem, and call force personnel serving the Town of Freeport and their visitors 24 hours a day, 7 days a week.

We responded to 2,703 calls for service this past fiscal year. This total gave us an average of 7.4 calls for service per day. Our community experienced a property loss of \$1,377,250 this year from emergency incidents, which included structure fires, car or vehicle fires, and major water damage.

We received a new ambulance this year. With our fleet of ambulances being upgraded over the last few years to newer units, we were able to go from 5 to 4 ambulances and plan on spending less on maintenance throughout the budget year. Overall, this should be a significant savings, and the Capital Improvement 20-year Plan has been adjusted to make sure we continue with this savings. We want to thank our finance department, Town Council and Town Manager for helping to put this plan together.

We continue to hold our annual OPEN HOUSE event during Fire Prevention Week each October. The building is open to the public for the open house, and we invite residents to bring their families and come view our apparatus, try to put out a kitchen fire, and meet the wonderful staff we have here protecting the Town of Freeport. Our staff spends a lot of time visiting the local schools and day cares.

Our Fire Rescue staff can provide EMS support at events such as road races and football games, teach CPR Classes, conduct chimney or fireplace inspections, and provide fire extinguisher training to local employees. Most of these are done for a charge; please contact the office for a list of costs for these services.

The Public Safety building office hours are 8am to 4pm, seven days a week. Burning permits may be obtained, and other related business may be conducted, during these hours. We continue to receive excellent dispatch services from the Brunswick Communications Center.

Police Department

Gerald B. Schofield / Chief of Police

In fiscal year 2013 the Police Department instituted its first K-9 program. In November 2014, the K-9 team became certified to conduct criminal apprehension, conduct building searches and search for missing persons. Since November the K-9 team has responded to 64 calls for service. In one instance the K-9 was successful in locating a teenager who was in mental distress and had run away from home. The K-9 has also successfully tracked and apprehended 9 different individuals who had committed various crimes and fled from the police. The K-9 team has completed their drug training program and is awaiting their final certification from the United States Canine Association. The team will be certified to search for heroin, crack, cocaine, methamphetamine and ecstasy. The K-9 team has also put on a number of demonstrations throughout the community.

Police Department Statistics	2015	2014	2013
Arrests	277	252	241
Accidents	268	316	278
Traffic Summons & Warnings	1790	2493	2715

NOTE: Developed using the fiscal calendar: July - June

During this fiscal period, the Police Department received various grants from the Maine Bureau of Highway Safety

to conduct programs to promote occupant and highway safety. The Department used these funds to conduct a series of seat belt and speed enforcement details.

On February 4, 2015 Marine Warden Tom Kay officially retired from the department. Marine Warden Kay had served as Marine Warden for the Town of Freeport for approximately 9 years. Officer Kay did an outstanding job during his tenure and he will be missed. In June of 2015, Officer Andrew Durgin was hired to replace Officer Kay. Officer Durgin has several years of police experience with the Old Orchard Beach Police Department and the Cumberland County Sheriff's Department. Officer Durgin also has a Bachelor's Degree in Conservation Law Enforcement and a Master's Degree in Criminal Justice Administration.

FCTV

Rick Simard / Cable Director

Recording and archiving Town Council, Project Review Board, Planning Board, and other special municipal meetings continues to be the core mission for Freeport Cable TV 3. Using the Video-On-Demand (VOD) service is quick and easy, and, after finding the meeting you're looking for, you can go

to the agenda item in the video and not have to search or watch an entire meeting. Just go to fctv3.viebit.com to view meetings online.

We are also streaming live, FCTV channel 3. So if there is a meeting you cannot attend, or if you want to catch up on the latest town announcements, just navigate to fctv3.viebit.com and enjoy.

Please remember, there is space on our channel for locally produced TV programs using our equipment or your own. Whatever your idea is for a TV show, regular series, one-time production, or you just want to learn how to do it, we are ready and eager to help. As always, there is never a charge for the use of the equipment and facilities for the residents of Freeport, and we even offer no cost training sessions for those not familiar with using our equipment.

Officers Norris, Ledger, and Moorehouse at Officer Ledger's graduation from the Maine Criminal Justice Academy.

In September of 2014 the Police Department hired Officer Rick Ray. Officer Ray comes to Freeport with many years of varied police & military experience. Officer Ray will be a valuable asset to the department.

In conclusion, I would like to thank the citizens of the Town of Freeport, the business community, the town administrators and the elected officials for their continued support. We offer a wide variety of safety programs. Please contact us if you would like a member of the Department to speak with your organization. Also, if you have any comments on how we can better serve the community, please contact us.

Freeport Train & Information Center

Ed Bonney / Train & Information Center Manager

The Freeport Train & Information Center is located at 23 Depot Street in the Hose Tower building (adjacent to the Downeaster Platform). The Center serves as the Freeport Downeaster train station and as a visitor information center. The Center is open 7 days a week and its hours are: Monday through Satur-

day, 7 a.m. until 6:45 p.m. and on Sunday from 11:30 a.m. until 1 p.m. and from 5 p.m. until 6:45 p.m. The staff's mission at the Freeport Train & Information Center is to provide information and assistance to all visitors to Freeport. Our goal is to give people whatever assistance we can to make their visit to Freeport an enjoyable experience.

Freeport has had Downeaster service since November 1, 2012. Presently there are two round trip trains to Boston each day. It is anticipated that when the Downeaster layover facility in Brunswick is completed, Freeport will have more daily trips. Since the start of service through June of 2015, Freeport has served 37,511 Downeaster passengers. During this same period, the staff at the Center assisted 14,348 non- train passengers visitors. For the first 6 months of calendar year 2015, the Center served 4,057 train passengers and 2,391 non-train visitors. Downeaster ridership system wide in 2015 is less than in previous years due to the harsh winter of 2014 – 2015 and the substantial track maintenance that was done during the spring and early summer months of 2015. This combination of events caused many delays and cancellations resulting in decreased ridership.

Passengers departing Freeport on the Downeaster continue to be a mix of folks taking the train to Boston and other Downeaster destinations for pleasure and/or medical appointments. Many riders boarding in Freeport are planning to continue their travel to other parts of the United States. There are many riders that once they arrive in Boston will go to Logan Airport to get flights to other parts of the U.S. and foreign countries. Freeport also has riders that work in Boston during the week and commute leaving on Sunday night or Monday morning and returning Friday night. Arriving trains carry a mix of day shoppers, extended stay visitors and area travelers returning from vacation or business travel. School, civic and family groups also travel from Freeport to Boston on the Downeaster for day trips and sporting events. During the summer months, a large number of visitors from all over the world use the Downeaster to come to Freeport.

2015 by the numbers

Cost to the median taxpayer / \$10

Fact / FY totals of 12,757 train passengers and 8,570 visitor center inquiries

Train Center staff assists Downeaster passengers with ticket purchases, information on train schedules, arrival and departure status, ticket pricing, Downeaster travel packages and trip planning for the entire Amtrak System. Staff at the Center welcome train and non-train visitors to Freeport by providing them with FreeportUSA maps and guides, coupons, brochures on Freeport stores, restaurants, hotels, Bed and Breakfast accommodations and attractions in the area. Staff also provides visitors with driving directions to other destinations in Maine along with State of Maine maps.

If you have not visited the Train & Information Center, please do.

Freeport Community Library

Beth Edmonds / Director

This year we successfully made the transition to the state-wide interlibrary loan system called Minerva. Now all of our patrons can borrow books from the sixty Maine libraries in the system. This has extended our collection by thousands of items. High interest books will be received more quickly. Obscure titles will be easily available from larger libraries. We have van deliveries four days a week. With Minerva, our circulation of interlibrary loans items has increased tenfold.

Our library continues to be a busy place. The summer reading program, sponsored by L.L. Bean, had over 450 children participating and reading over 6,000 books. Every week, new and accomplished readers came in to tally their reading charts. Julie Yeo assisted us with the crafts again this year. African drummer Jordan Bennison brought his special talent to a large audience. For the first time, we had a family concert with local group, Pan Fried Steel, performing outside on a lovely summer evening. Special thanks go to the Freeport Elders who sewed over 500 small bags for the reading program. The Elders have been very loyal volunteers for many summers. The summer program helps children keep up their reading skills while school is not in session and expands their love of reading.

Our afternoon movie series remains a great success, showing classic and new releases twice a month. We have developed a loyal following for this program. In addition, with the help of the Friends of the Freeport Community Library, we were able to have author talks with Julia

“ I have always imagined that paradise will be some kind of library. ”

~Jorge Luis Borges

Spencer-Fleming and Lea Wait. In March our Armchair Travel Series enabled patrons to see the world from the comfort of our meeting room. Our Edible Book Festival (held each April) has fast become the hit of the season - You Can Have Your Book and Eat It Too!!

We no longer have only one way to enjoy literature or gather information. Downloading content from our website, www.freeportlibrary.com to your e-reader, or computer is ever more popular and accessible. In some cases, people like to both listen and read. Our public computers and Wi-Fi have been upgraded giving everyone even better access to the internet while at the library.

2015 by the numbers

Cost to the median taxpayer / \$43

Employees / 9.3

Fact / 103,856 items were borrowed

All of these new features haven't replaced our focus on being a center for adult students, young people after school, families, homeschoolers, people working online, genealogy researchers, visitors using the public computers and Wi-Fi, newspaper readers, people sending faxes, getting state and federal tax forms or copying documents, as well as patrons circulating adult books, children's books, magazines, DVDs and audiobooks.

Our priority remains having our library be a welcoming place for everyone who walks through our doors, both real and virtual, seeking information of all kinds.

General Assistance

Johanna Hanselman / General Assistance Administrator

The General Assistance Program is a State mandated, municipally administered financial assistance program. It was designed to be the program of “last resort” for residents of the community who are unable to provide for their basic needs (e.g. food, shelter, fuel, electricity). The Town

of Freeport serves as the Regional General Assistance Office for residents from the towns of Freeport and Yarmouth. Appointments to apply for general assistance can be made by contacting the General Assistance Office (**865-4743 x120**).

This office continues to see many Freeport residents requesting assistance for help with their basic necessities. Overall maximum levels of assistance, which are set by the State, are extremely low and many in need are over the income guidelines for the General Assistance Program. In an effort to assist households not qualifying for general assistance, yet unable to cover the cost of their basic necessities, the Town of Freeport has established a number of programs to address meeting some of their needs. The Freeport Heating Assistance Fund is funded through both public and private sources and administered through the General Assistance Office. Through the generosity of our local citizens and businesses, emergency heating fuel was provided to 54 households during this fiscal year. Donations continue to be accepted and will be used to assist people in need during the 2015-2016 and future heating seasons.

Freeport Heating Assistance Fund

Donations can be made to:

Freeport Heating Assistance Fund
30 Main Street
Freeport, Maine 04032

In addition to providing emergency financial assistance with heating fuel, the town has developed programs to help reduce the overall costs of heating homes from year to year. The Town received a grant for an Energy Conservation Project which the Town Planner and General Assistance Director implemented during fiscal year 2015. The project's goal was to improve the efficiency of low/moderate single family homes by providing an

energy audit with air sealing. Over forty households benefited from this program.

The Town is also fortunate to have the ability to provide financial assistance to Freeport residents with hospital expenses, prescription drugs, physician visits and dental emergencies through money generated from the Gould and Davis Trust funds. Over \$3,300 was awarded to 37 Freeport individuals for financial help with medical expenses during the past fiscal year. Applications for these funds are available through this office and Freeport residents are eligible based on financial need.

The Emergency Rental Assistance Fund, a recent collaboration between the Freeport Housing Trust and the Town of Freeport, was established to help prevent lower income renters from becoming homeless. Households may be eligible when a documented, non-preventable emergency has caused the applicant's housing situation to be in jeopardy and all other assistance programs have been exhausted. During FY2015, this program assisted three households which were on the verge of becoming homeless.

I would like to take this opportunity to express how fortunate Freeport is to have so many dedicated individuals, businesses and organizations which work together to offer services to Freeport residents, including Town employees, Freeport Community Services, Freeport Housing Trust, local clergy, school personnel, senior citizen representatives, and police personnel.

Solid Waste & Recycling

Suzanne Duplissis / Recycling Site Manager

Recycling saves money for the Town by avoiding disposal costs at ecomaine (the waste-to-energy facility in Portland where the Town's waste goes) and reducing costs for taxpayers. To help make recycling easier for residents, there are five "Silver Bullet" containers placed around town (West Street, Wardtown Road, Hunter Road, South Freeport Road and the Recycling Center on Hedgehog Mountain Road). In addition to utilizing the drop-off locations, residents are encouraged to take their recyclables to the Recycling Center where corrugated cardboard, mixed paper, and #2 clear plastic are processed and sold to earn revenue for the Town.

In an effort to further reduce disposal costs, the Solid Waste and Recycling Committee continued to focus its efforts on encouraging residents to engage in home composting. Organic waste is heavy due to its high moisture content, resulting in high disposal costs (fees are assessed by weight). This wet waste is also not a desirable fuel at ecomaine. Ideally, this type of waste is best kept out of the waste stream whenever possible, and home composting is the easiest way to achieve this. To help residents who are new to composting get started, eight Earth Machine composters were given away to first time composters on a first come first served basis. New this year, residents who are unable to compost at home but still want to reduce their waste can now bring their food scraps, including meat and bones, to the Recycling Center for collection. A container is provided for residents to drop off their food scraps free of charge. Once a week the food scraps are collected by a private company, **We Compost It**, and taken to their facility in Auburn to be turned into compost.

The annual Spring Cleanup was once again held for the entire month of June. The total number of Spring Cleanup coupons redeemed decreased slightly from 733 last year to 711 this year.

(l-r) Josh Harriman, Suzanne Duplissis, Brian Rumery

Throughout the year residents recycled 909.57 tons of material; saving the Town \$64,124 in disposal fees and earning \$7,190 in revenue from the sale of the material brought to the Recycling Center. The recycling rate improved to 37.5%, up from 33.8% the previous year. It's worth noting that the Town's total annual residential waste disposal amount decreased from 1,582 tons to 1,510. These figures indicate that residents are recycling and composting more material and disposing of less waste.

The Recycling Center staff and the Recycling and Solid Waste Committee appreciate resident's efforts to reduce waste, recycle, and compost. Every little bit helps. For more information on recycling, composting, and what the Recycling Center accepts (as well as a fee schedule), check out the Town's webpage www.freeportmaine.com or call 865-3740.

Public Works Department

Earl Gibson / Superintendent of Public Works

The Public Works Department would like to recognize the retirement of Peter Milliken this year. Peter served as mechanic for a total of 14 years for the Town of Freeport. He was extremely dedicated to his job, keeping the fleet and equipment up and running smoothly. He will certainly be missed by the crew and the Town. We wish Peter all the best!

Public Works would also like to welcome Jeremy Arsenault as the new mechanic. Jeremy comes to us from RSU#5 with significant mechanic experience. His skills will greatly enhance our department and we are happy to have him as part of our team.

Public Works held its first annual Open House in May this year; we are looking forward to making this a tradition. The open house gives the public the opportunity to view our facility and equipment and ask questions about our day-to-day operations.

Capital Improvement Projects: This year Public Works completed drainage rehabilitation work on Litchfield Road. On Wardtown Road (from Griffin Road to the Grant & Lunt Roads intersection) Public Works installed additional drainage systems in various locations. We also replaced numerous culverts in preparation for base soil stabilization and new pavement, including a 3' paved shoulder on each side of the road. In Memorial Park (corner of Bow and Park Streets), a wrought iron fence was installed to enhance safety near the railroad tracks.

Front: Earl Gibson (Superintendent of Public Works), Middle Row (l to r): William Gorham, Jeremiah Rumery, Robert Bradley, Tammy Morrissey & Connie Swartz. Back Row (l to r): Jeremy Arsenault, David Wormwood, Daniel Libby, Jeffrey Goldrup, David Osgood, Albert Presgraves (Town Engineer) & Howard Dyer.

Cost to the median taxpayer / \$154

Employees / 11.68

Fact / Total snow accumulation of approximately 117 inches

Capital Equipment Purchased: 2014 1-ton dump truck with plow.

Road Paving Projects: The following is a list of roads paved this fiscal year: Beech Hill Road, Concord Road, Depot Street (from West to Grove) and Independence Drive. These were pavement overlay projects (shim and overlay) and were in addition to the Capital Projects, which are complete road reconstructions.

Road and Street Cross Culvert Replacements: The replacement and upgrade of driveway/drainage culverts is always an ongoing project for our department.

Road and Street Maintenance: Roadside mowing, seasonal striping, street sweeping, shoulder maintenance (removal of winter build-up) and drainage maintenance of our town roads are tasks we complete on an annual basis.

Winter Season: The Town had 41 snow storms this year. We used 1,579.5 yards of road salt, 1,227.3 yards of winter sand and 11,633 gallons of road surface treatment.

I would like to compliment our staff for doing an outstanding job on our construction projects, maintenance projects and winter snow removal operations. We began the year with a major rain storm in August which caused several roadside washouts. This winter we were hit with many back-to-back weekend and nighttime snow storms lasting 2-3 days and a 24" snow storm in January. Our staff certainly takes these challenges in stride! Many thanks to the crew, the other Town departments, the Town Council, and the citizens of Freeport for their continued support of the Public Works Department.

Harbormaster

Jay Pinkham / Harbormaster

The Harbormaster's office deals with a wide range of waterfront issues.

The Harbormaster and Assistant Harbormaster assisted boats that were adrift, aground, had engine failure, had accidents, were overdue, lost in the fog, were stolen, sinking or sunk on the mooring, capsized, or boat voyage terminated for lack of safety equipment. We also separated boats hitting each other while on their moorings due to weather and tide conditions. We dealt with mooring inspections, jet skis, kayakers, canoeists, water skiers, waterfowl, marine mammals, rescued people and animals out of the water, provided medical aide, ice breaking, commercial marine salvage assistance, flare sightings, and launching and hauling boats at the Dunning Boat Yard and Winslow Park boat ramps. We enforce speed and no wake zones, give warnings for unsafe boating practices, and enforce the 30 minute tie up limits on the town floats. We investigate oil spills, vandalism, and lost and found boats. Our office assists in patrolling events like the Lobsterman Triathlon, Freeport Yacht Club sailing regattas and the Town of Yarmouth's Clam Festival Canoe Race. Our office has talked about safety issues with kayakers, paddle boarders and canoeists that launch off of the town float.

We assist the Freeport Marine Warden, U.S. Coast Guard, Department of Environmental Protection, Department of Marine Resources, Food and Drug Administration, Maine Forest Service, Marine Mammal Lifeline, Maine Marine Patrol, U.S. Army Corps Engineers, aquaculture ventures, Freeport Shellfish Commission, Freeport's islands and the towns in and around Casco Bay.

2015 by the numbers

Cost to the median taxpayer / \$7

Employees / 1.24

Fact / Coastal Waters Commission reviewed 5 wharfing out applications and 3 charter boat applications

This office assists with water sampling of Freeport's coastal waters and helps with monitoring shellfish protection areas. We provide boaters with informational packets, explain to them that the Harraseeket River is a Shellfish Protection Zone, and inform them about what they need to do to comply with regulations. Casco Bay is a "no discharge area" as set forth by the Maine Department of Environmental Protection.

The Harbormaster and his assistant annually attend the State of Maine Harbormasters Association training session held at the Maine Maritime Academy in Castine, search and rescue forums and maritime security training put on by the U.S. Coast Guard.

The Coastal Waters Commission has been very busy dealing with waterfront issues in Freeport's coastal waters, ordinance updates and changes, and many other issues. The Commission is always looking for new members. Anyone interested in serving is encouraged to apply. Application forms are available in the Town Clerk's Office at the Freeport Town Hall and on the Town's website.

Marine Resource Conservation

Andrew Durgin / Marine Resource Conservation Officer

2015 has been a transition year as the former Shellfish Warden retired. The position has now been designated the Marine Resource Conservation Officer, starting in mid June.

The shellfish industry continues to be a vital yet fragile industry.

During the past year the Shellfish Commission and harvesters worked diligently to maintain open and productive flats. The market price of clams remained high this year as a direct result of low landings of clams state wide. The Shellfish Commission has started to draft a proposal to investigate the interest and viability of leasing portions of the mudflats to the commercial clam license holders. This project is still in draft form and is an ongoing process to try to bring other opportunities to license holders.

There are many variables that influence the ability to maintain open harvesting and a healthy environment for the shellfish. To ensure protection of the quality of the water, Casco Bay has been designated a “no discharge zone” for all boats. The Shellfish Commission, along with the harbormaster and personnel at the local boat yards, continues to educate boaters about the effects of overboard discharge and direct them to pump-out sites located at the two boat yards. Local boaters are surveyed on an annual basis about boat usage and discharge systems as well as random inspections completed by the Harbormaster, with assistance from the Marine Resource

Conservation Officer. Several signs have been placed at boat yards and docks indicating the no discharge area. The no discharge sign located in the river channel is due to be replaced/refurbished once the Food and Drug Administration (FDA)/ Maine Department of Marine Resources (DMR) advises on the proper format and needs from the town.

In a joint effort the Marine Resource Conservation Officer, Harbormaster, Food and Drug Administration, and the Maine Department of Marine Resources maintain a year round water quality monitoring schedule of all tidal areas in the Town of Freeport. In addition, Freeport has begun to work with the Brunswick Marine Division to jointly conduct water sampling in both towns so both agencies can better assist one another. The water quality continues to test very well; maintaining the ability to keep our flats open. The status of clam flats are monitored and continually revised by the State. Current conditions may be found on DMR’s web site <http://www.maine.gov/dmr/index.htm> or by calling the State Hotline, 1-800-232-4733.

Access to the flats is limited; without the cooperation of businesses and private land owners, access would be even more difficult. On behalf of the Commercial and Recreational harvesters, thanks are extended to all who have made access possible. In addition to the efforts of the Shellfish Commission and the local harvesters, we would like to recognize and thank all of the other groups and individuals that help support and protect this important resource. Among those are the local boat yards, the Harraseeket Yacht Club, the Harbormaster, Wolfe’s Neck Farm, and all of the responsible dog owners.

Freeport Harbor froze over in 2015 for the first time in a few years.

Winslow Park

Neil Lyman / Park Manager

July at Winslow Park once again saw the return of large crowds and the park's staff working hard on infrastructure upgrades. The concert series, featuring local bands, drew large crowds of campers, tourists and local day users. July also saw the return of Camp Seaside; a day camp for

children ages 7-10. The program is organized and run by Freeport Recreation and Community Education.

The summer of 2014 once again was a busy one at the park with many campers, tourists and local day users. Day usage at the park stayed high with 484 seasons passes sold (the same as 2013). Free passes were given to anyone over the age of 62. It is estimated that over 50,000 day users visited Winslow Park. Total campsite occupancy throughout the season rose slightly from 2013 at 66%. July and August weekends were consistently fully booked in the campground. Harb Cottage, as usual, was reserved for all 18 weeks of the summer season. Over 150 families submitted lottery applications for a chance to rent the cottage. Winslow Park once again donated a one week stay in October to Freeport Community Services to auction off at their annual fund raiser. The cottage was rented during the winter from November 1st through May 31st on a monthly basis.

The Park hosted a variety of events throughout July, August and September including weddings, family and class reunions, company picnics and fundraisers. The Park hosted the Lobsterman Triathlon in September with over 600 competitors participating. The park also hosted a week long Boy Scout camp in August for about 40 kids.

October 6th saw the end of the camping season at Winslow Park and the return of our many fall and winter day users.

Winslow Park Gatehouse

Patrons utilized the park's playground and walking trails as well as taking advantage of the heavy snow falls for cross-country skiing and snowshoeing.

2014 saw the addition of a new merry-go-round on the playground and extensive cleanup work on the nature trails. Upgrades and improvements on Harb Cottage and the farmhouse continues with electrical upgrades, foundation repairs and extensive reframing in the farmhouse barn.

Winslow Park was home to a number of early season events including campouts for the Cub Scouts and Boy Scouts as well as a number of local school outing clubs. May 5th saw the early morning opening of the gatehouse to start taking reservations. This year over 40 campers once again lined up to reserve their favorite sites for the summer.

The fifteenth annual Family Fun Day and Close to the Coast Race was put on by Winslow Park and the Freeport Rotary Club on June 22nd. The day featured 5K and 10K races as well as a fun run. Free chips, drinks, hot dogs, ice cream, burgers and pulled pork sandwiches for visitors were once again donated by Bow Street Market, Ben and Jerry's, Bucks Naked BBQ, Linda Bean's, and Gritty McDuff's. Live music by The Jerks of Grass and Golden Oak topped off the day. Park admission was, as always, free on this day.

2015 by the numbers

Cost to the median taxpayer / n/a

Employees / 4.5

Fact / Supported entirely by user fees

June at Winslow Park was home to events hosted by all of the Freeport schools. Kids, parents and teachers came for graduation celebrations, field days and picnics to celebrate the end of another school year. The last week in June also saw the first of the three free weeks of camping for Freeport residents (the other two are in September). Over 200 nights of camping were used free of charge during these weeks.

Overall Winslow Park usage for the past year was on par with our recent surge in use over the past decade. The Winslow Park staff and Commission thank the residents of Freeport and the surrounding communities for supporting and utilizing this wonderful asset. We hope all of your experiences at Winslow Park continue to be memorable and enjoyable on each of your future visits.

Bustins Island

Same Old, Same Old on Bustins

“Nothing’s changed.” We hear that a lot whenever someone returns to Bustins after a long absence. And we like that. It means all the effort has been worth it. Having nothing change takes a lot of work by a lot of people. Because the island is actually changing all the time. Our infrastructure ages, our personnel changes, our rules become outdated and our equipment stops working. This year’s efforts to keep things from changing include reroofing, residing and replacing the windows on the municipal building that houses the Historical Society Museum, BIVC office and Safety Room. The electronics on the Lilly B are being updated while she receives her regular maintenance and repairs. We have nearly completed the state-mandated updating of the Comprehensive Plan. A pilot composting program to reduce trash has been initiated. We have implemented a program to study the quality and supply of our groundwater. There are lots of changes. Wireless communication and solar energy are more embraced every year. On the people side, our long time suppliers of propane, Ron and Linda Sweatt of Bustins Builders, are retiring from the distribution portion of their business. Propane is a critical commodity on Bustins - powering lights, stoves and refrigeration. It has provided refrigeration on Bustins since replacing ice in the early fifties. Fortunately, we believe we have found a new distributor in Maine Island Energy. We don’t want to start harvesting ice again. Of course, if that happens, we still have the two barns that stored the ice.

Having nothing change requires the dedicated service of many islanders, the welcome assistance from Maine and Freeport officials, and the prudent expenditure of our financial resources. Careful spending is a constant as we must always set some aside for the expected and unexpected future capital expenses. That means our first response whenever new infrastructure is proposed is “we got along without it so we don’t need it.” That’s actually our second response - sticker shock is the first. Keeping Bustins unchanged over many decades has required significant contributions from an ever-changing cast of characters. Yet the sum effort, after all those years, is thankfully, nothing.

(l-r): Bill Cooper, Vice-Chair, Board of Overseers / Sue Spalding, Clerk / Ken Barrows, Overseer / Linda Sweatt, Secretary / Candy Taisey, Straight Edge Construction, Superintendent / Rob Boone, Chair, Board of Overseers / Tony DeBruyn, Treasurer / Crawford Taisey, Straight Edge Construction, Superintendent.

Photo taken by Tanya Sweatt, Chair, Boat Advisory Committee

In reality, when the returning visitor says nothing has changed, they are referring to those truly important aspects of the island that have lasted through the decades: the genuine friendliness, the rustic charm, the community participation and the natural beauty. Feeling safe and secure is also ever-present and for that, we once again express our gratitude to Freeport’s Police and Fire/Rescue Departments who have been very supportive in providing safety training as well as emergency response. Many people, mostly volunteers but a few professionals, contribute so much to Bustins. And after all that time and effort, when we hear “nothing’s changed,” we say “good.”

RSU #5 Superintendent of Schools

Edward R. McDonough / RSU#5 Superintendent of Schools

To the Citizens of Durham, Freeport, and Pownal,

I am honored and privileged to join RSU5 as the new Superintendent of Schools. In a few short months, I am proud of everyone's efforts to help students in the communities of Durham, Freeport and Pownal, learn, achieve and grow. I am pleased to provide an update on the progress of our schools as there is much to celebrate.

Our Board of Director members representing Durham are Candace deCsipkes, Brian Pike and Michelle Ritcheson; members representing Freeport are Nelson Larkins, John Morang, Beth Parker, Lindsay Sterling, Valeria Steverlynck and Karin VanNostrand; members representing Pownal are Kathryn Brown and Naomi Ledbetter. The Board has set four key focus areas, namely, student achievement, teacher and administrator effectiveness, stewardship of resources and accountability. Additionally, the Board has set strategic goals for the 2015-16 school year (rsu5.org). The board is committed to ensuring that all children have a school experience characterized by personalized learning, and to support every student to graduate career, college and citizenship ready.

2015 by the numbers

Cost to the median taxpayer / \$2,649

We have an extremely dedicated and highly qualified staff. Administrators, teachers, support staff and volunteers work together on behalf of our students. We value collaboration and share responsibility for student learning. Teachers and administrators work in teams known as professional learning communities to carefully monitor student progress and ensure every child makes growth as a learner. Students are our greatest resource; we welcomed 1,852 pupils in September 2015, twenty-six more than the prior April 1st enrollment. Last June, Freeport High School graduated one hundred and thirty-two (132) students.

The RSU also provides programs to serve the community through the Adult, Recreation and Community Education department. These initiatives are centered around both youth and adults. Programs include the Laugh and Learn

Childcare Program, The PORT Teen Center, adult enrichment classes, and youth recreation programs.

The Freeport High School Building Advisory Committee has worked over the past year with PDT Architects to complete bid drawings for the addition and renovation. Last month, Sheridan Construction was named general contractor for the project. The bid award was within the budget approved by the voters of the RSU and Sheridan will begin work in October 2015. The RSU5 Board successfully completed negotiations with the Coastal Education Association representing teachers and educational support staff, contracts were extended through 2018.

Our schools are ready to embark on another successful year of learning. We are grateful for the support of our families and the larger RSU5 community. We are grateful to our parent groups, athletic boosters, volunteers and all other organizations whose efforts enrich the experience of our students. We are fortunate that each of the towns in RSU5 value education and support our children. We invite you to participate through volunteer efforts, attendance at school events, or by joining us for lunch at one of our schools. We would be happy to have you join us.

See accompanying notes to financial statements.

TOWN OF FREEPORT, MAINE
Reconciliation of the Statement of Revenues, Expenditures,
and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the year ended June 30, 2015

Net change in fund balances - total governmental funds (from Statement 4)	\$	198,258
Amounts reported for governmental activities in the statement of activities (Statement 2) are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation and the loss from disposal of capital assets in the current period.		
		53,356
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
		115,707
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		
		224,927
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the amount of repayments.		
		715,000
The Town has bonds that were originally issued for School purposes. These amounts will be funded by Regional School Unit #5 when the debt service payments are due. The Town has recorded a long-term receivable for the amount that will be paid by the School Unit for these bonds. The amount of the receivable at year end was \$2,875,113 with principal amounts paid off during the year totaling \$435,455.		
		(435,455)
Change in net position of governmental activities (see Statement 2)	\$	871,793

See accompanying notes to financial statements.
