April, 1924

DR. C. C. LITTLE has recently been elected president of the Reserve Officers Association in Bangor. President Little is a major in the reserve corps.

A NEW GREEN HOUSE has been completed on the campus. It is of steel construction and modern in every way. The main house is 108 by 32 feet with a connecting house 17 by 20 feet. Two more houses of this type are to be built later.

PRIZES FOR NEW SONGS AND CHEERS are being offered by the Junior Masks in their campaign to improve the quality and quantity of Maine's offering along these lines. This contest is open to alumni as well as to undergraduates.

THE MAINE RIFLE TEAM has closed its season and records show that it won eleven out of nineteen matches. Minor sport letters were recently awarded to five members of the team.

MAINE DEBATORS defeated Vermont in the final debate of the season March 19th in Bangor. Maine had the affirmative and argued for the World Court.

A NEW MATRON, Mrs. Lura Nutter, of Dixfield, has taken up her duties at the Phi Kappa Sigma House recently. It is reported that she is already very popular with the boys.

THE CHAPEL PERIOD has been changed from just before noon to come between the second and third recitation periods. Some 200 students who were excused under the old plan will now have to attend chapel.

The Intermural basketball championship was won this year by Sigma Alpha Epsilon when the team from that fraternity defeated Phi Epsilon Pi, 18 to 17, in a hard fought game in the gymnasium.

THE HEATING PLANT caused considerable alarm last month when several bad leaks developed. It was feared that the entire system might break down. The last legislature was asked for sufficient funds to replace the present antiquated and worn out system. They failed to make an appropriation.

## Three Generations Maine's First

NELSON H. MARTIN, '76

GEORGE NELSON MARTIN, '27

THE SPRING MILITARY CAMP will be held at Newport, Maine, June 1 to 6. This camp is compulsory for R. O. T. C. men. Complete equipment will be issued all and they will spend a few days of real military life, sleeping at night in regulation shelter tents. Examinations for men in the military department have been set ahead one week.

THE SOPHOMORE HOP is informal this year. The Carnival Ball was given one hour from the time of the sophomore dance by class vote. Hence the annual hop will end at midnight this year. Following closely the Easter vacation, this dance is on April 12th.

CONSTRUCTION of the new Arts and Science building is progressing rapidly. The foundation was put in last fall. The brick work is now steadily going up. Frames for the first story windows are placed. The building will be ready for use at the opening of college next fall.

Gov. W. R. FARRINGTON, '91, of Hawaii has returned to that delightful territory. His mission to the mainland was very successful. The Honolulu *Advertiser* comments editorially on his work as follows:

"Although *The Advertiser* has already referred to the great value to the territory resulting from the recent visit to Washington of Governor Wallace R. Farrington, it cannot too strongly stress the fact that Hawaii is much beholden to its chief executive for this latest achievement.

"The governor faced a difficult task at the capital when he sought to pass the Bill of Rights through congress and the fact that the lower house has unanimously placed its seal of approval on the legislation sought and that the senate is practically certain to do so at an early date is proof positive that Governor Farrington handled the situation with great tact, industry and intelligence.

"Governor Farrington has done the finest piece of work of his administration in connection with the Bill of Rights. He has rendered Hawaii good service heretofore but nothing of such far-reaching constructive value as in this matter."

# Alumni Activities Fund

## Report of the Endowment Fund Committee of the General Alumni Association

(As amended and accepted by the  
Executive Committee of the Alumni  
Council—November 11, 1923.)

### OBJECTS:

1. To establish a plan for securing a permanent annual income, constantly increasing, with which to assist defraying the expenses of the general association, and alumni activities and interests at the University of Maine, where and when the General Alumni Association may determine.

2. To establish an organization the duty of which will be to build up the Endowment Fund from which will come this annual income.

3. To provide for a trusteeship which will receive and invest the principal and pay to the General Association the interest from the Fund.

4. To provide for an agency (the Trusteeship) which can upon request receive and care for any special fund or contribution from any source for any approved purpose.

### NAME:

Alumni Activities Fund, University of Maine.

Class contributions.

### TIME:

At each five year reunion.

### AMOUNT:

The class quota shall be based on a per capita quota from the graduates and non-graduates (excepting donors and benefactors.)

### THE PER CAPITA QUOTA:

\$ 5.00 at the five year reunion.

\$10.00 at the ten year reunion.

\$15.00 at the fifteen year reunion.

\$20.00 at the twenty year reunion.

\$20.00 at the twenty-five year reunion.

\$15.00 at the thirty year reunion.

\$10.00 at the thirty-five reunion.

\$5.00 at the forty year reunion.

(The individual total quota of \$100 is distributed in accordance with the curve of earning power of the average college graduate.)

### A DONOR:

The contributor of more than \$100 and less than \$1,000 shall be known as a Donor.

### A BENEFACTOR:

The contributor of more than \$1,000 shall be known as a Benefactor.

A Donor or a Benefactor shall be exempt from the assessment of his per capita quota.

### ORGANIZATION:

1. The Executive Committee of the Alumni Council (through a Finance Committee which its chairman will appoint) shall have in charge the collection of contributions.

2. The Finance Committee shall be composed of three individuals and shall be assisted in its work of collecting class quotas by a sub-committee on Class Quotas.

3. The Class Quotas Committee shall be appointed in June by the chairman of the Executive Committee in consultation with the Chairman of the Finance Committee and shall be composed of one representative from each of the first eight classes which on the following June will celebrate five year reunions.

### ANNOUNCEMENT OF CONTRIBUTION:

The quota and contributions of each class returning for five year reunions shall be announced at the Commencement Alumni Dinner.

### INVESTMENT OF FUND:

Board of Trustees. A board of five trustees who shall be elected by the Alumni Council shall have in charge the investment and care of the Alumni Activities Fund.

The term of the members of this board of trustees at the first election shall vary from one year to five years—after which one member shall be elected each year to serve a five year term.

### CLASS OF SECURITIES:

The securities in which the trustees shall invest shall be only those approved of and used by Savings Banks of the State of Maine.

### INCOME FROM ALUMNI FUND:

All income from the Fund shall be paid by the Board of Trustees to the treasurer of the University of Maine Alumni Association, who will use it as directed by the General Alumni Association.

### SPECIAL DONATIONS:

The Board of Trustees shall be empowered to accept and hold in trust any contribution for a specified purpose which purpose has been approved by the Executive Committee of the Alumni Council.

## The Finance Committee

The following alumni were appointed on the Finance Committee by Harry E. Sutton, '09, Chairman of the Executive Committee of the Alumni Council:

C. Parker Crowell, '98, Chairman

Henry F. Drummond, '00

John P. Ramsay, '18

The first meeting of the Finance Committee was held March 31, 1924. Preliminary plans for putting the Endowment Fund into practice were made. Deciding that the 1924 Commencement was too near to give the fund a fair trial the desirability of introducing the plan to the reunion classes this year was agreed upon.

Members of the reunion classes, returning for Commencement will be solicited. Each reunion class is requested to co-operate with its class quota committeeman to see that members not back are solicited after Commencement. In future years solicitation will be made before and during Commencement.

## As Some See Us

The Birmingham News of March 13, printed the following statement. Mr. Bramwood's sarcasm must have had a humorous appeal to many journalists for the same remarks have been quoted by many other papers.

The effects of a Leap Year party which intentionally reversed the regular order of things were certainly far-reaching:

"What kind of young men are the male students at the University of Maine?" asked J. W. Bramwood. "I have read an account of a Leap Year sorority party. The girls called for their male friends at fraternity houses, bundled them into street cars and forced them to take seats while they stood in the aisles, bought tickets at a motion picture theatre party, assisted them in removing and putting on their coats, and after the show bought them ice cream and cigarettes. A good many people were alarmed when the girls first began to wear knickers. A good many of us thought this alarm was not justified by the facts. But the Maine girls seem to be not only wearing the pants but they are putting the boys in a position where they will shortly don skirts and frizz their hair. Something ought to be done about it."

# University Problems and Policies

By DR. C. C. LITTLE

As time goes on, colleges and universities are more and more looked to for leadership in educational affairs. It is a real challenge to them—a chance to show whether they, as institutions, really have produced something *higher* in education. Let us for a few moment frankly face the facts of the situation.

I. In selecting candidates for admission, the methods ordinarily followed are pitifully weak and disappointing. They usually involve, on the academic side, a certificate of the number of "hours" or "units" of work done, by subjects. There are given *grades* which of course vary greatly in different schools. If written examinations are given they are marked by some one with no knowledge of the candidate, by a system shown to be so inaccurate that for a single examination paper in geometry different examiners have given grades of from 30% to 75%. One or both of these methods usually suffice to form the basis for selection. In rare cases a general ability test may be given.

II. In college as in school the minimum requirements for all students are the same. There is absolutely no organized effort to develop a system by which the scholar is trained to use as nearly as possible 100% of his mental ability. A man of high A-B ability can obtain his degree by doing C-D work and while doing so is treated with quite as much charity—or lack of it—as is a man of D-E ability doing C-D work. Yet of these two men the former is essentially soft and a slacker, while the latter is cour-

ageous and industrious.

III. The success or failure of a college is being measured more by the efficiency and earning power of its students, than by its value as a training ground for the eternal qualities of simplicity, courage and liberality. Highly organized, impersonal, business-like curricula have been evolved to handle mass production—the old-time appeal of the personality of the teacher to that of the pupil has gone by default. Of course, exceptions to this rule may be found, but ordinarily we find that the reason for going to college is, in the vast majority of cases, selfish and commercial, or shallow and social. Small wonder then that the joy and inspiration in the teaching profession has dwindled so that it is hard to find men and women of the highest grade who are willing to undertake the personality-numbing pursuit of participation in the grand machine-made process.

One might multiply instances of the failure of the present system, but perhaps a brief outline of one possible method of approach to an attack on the problem would be better at this time.

I. In selecting candidates for college we must learn more about those who are available. In order to learn more we must begin when the individual is simpler and more easily observed—namely in the elementary and secondary schools. The whole record should be considered and a method of collecting the desired data during elementary and secondary school days should be devised. Per-

sonal conferences should be held.

II. In order to insure the development of a habit for maximum effort, the data above referred to should include information as to qualities such as unexcused tardiness, carelessness, idleness, slovenliness in work, insubordination, and a host of other glaring weaknesses in the fundamental fabric of character. With the focussing of attention on such things will come an effort of the teacher and the pupil toward improvement. These fundamental qualities are not now used as constructive elements or assets in education but merely as liabilities and a waste product. The time seems ripe to include improvement in these matters as a prime requisite for advancement along the scale of educational opportunity.

III. Finally, the mushroom growth of our colleges and universities must be checked until after organization of these institutions into sub-divisions of a size consistent with the development of personal influence as the greatest value of a college course. Personalities—characters—must be "led out"—educated—by others of the highest type. If systems of admission, curricula, and methods of grading and teaching have been rubber-stamped and punched out as so many standard products for the present day idol of *efficiency*, we must begin a pilgrimage to the open country where values have remained constant during shifting winds of doubt and where we can find again the qualities of simplicity, courage, and tolerance.

The place to begin is at Maine.

## Phi Gamma Delta House Burns During Vacation

Fire originating in the partition of the matron's room totally destroyed Phi Gamma Delta House early April 1st.

Five students sleeping in the "ram pasture" on the third floor were awakened by smoke at about 2 o'clock and hastily got out of the house with what clothes and furnishings they could take. The interior of the building burned all night and the walls caved in shortly after 7 in the morning.

The Phi Gamma Delta House

was built in 1898 and for years has been one of the finest fraternity houses on the University of Maine campus. It was owned by the property building association of the fraternity which rented it to the active chapter. The building was valued at about \$15,000 and furniture and personal effects of the boys, including clothes and books, will bring the total loss up to \$25,000, partially covered by insurance.

## The Maine Alumnus

Office of Publication, Furbush Printing Co.,  
108 Exchange St., Bangor, Me.

**Commencement** A few short weeks and another commencement is with us! One more year out of college for all Maine alumni! For many, Alumni Day, June 7th, also means a class reunion. We hear the call of Alma Mater, classmates and friends. Let us heed it if we can and return to Maine for Commencement.

Every effort is being made to make your return most pleasant. Profiting by the experiences of other years, unpopular features will be eliminated and the popular ones improved and enlarged upon. Happy days are assured.

Reunion classes will be back strong. All classes will be represented. Meet old friends and give them a chance to see you. Lay care aside and play a while.

Maine is a mother to you. She hopes to welcome you home and is making real plans to make your holiday happy.

### The Alumni Activities Fund

It is hoped that the plan to establish an alumni activities fund will meet with the approval of Maine alumni generally. The Endowment Fund Committee, after a complete study of the financial needs of the alumni association, recommended the plan as printed in this issue of the ALUMNUS, as the best method of solving the problem. The Alumni Council has approved

## Employment Department

### New Positions Open

**Insurance Inspector:** A graduate of the University about 25 years of age who would be adapted to and qualified for the work of an insurance inspector and who would be interested in making application for such a position.

**Salesman:** Here is an opportunity to sell shoes, full or part time, on a liberal commission basis. Energy and salesmanship essential to the job.

**Civil Engineer:** Opening for a Junior Civil Engineering student for the summer vacation. Address, Herbert A. Hall, Civil Engineer, Kennebunk, Me.

**Geological Survey:** We will be glad to forward information about this branch of Government work.

**Insurance Agents:** Opportunity to open an insurance agency for a large life insurance company in towns and cities in Maine. This should be of interest to alumni who now have a general insurance business.

### Positions Previously

#### Mentioned—Still Open

**Young man** to learn the electrical jobbing business.

**Resident salesman** for the Middle West.

**The U. S. Patent Office** as a field for life work.

**Man** to handle boiler scaler treatment.

the plan and it is expected that the General Alumni Association will also approve it at the annual meeting, June 7th.

This fund will eventually finance the alumni office from interest and the present system of collecting alumni dues will automatically be done away with. This will take some years of course but there is no time like the present to start the fund.

Colleges and universities everywhere are adopting similar endowment policies.

The Alumni Office will be glad to receive comments on the plan and will answer any questions about it.

**Head for electrical department,** vocational training school, training general electricians. Salary \$2400.

### Positions Wanted

**Forester:** About 30 years old, considers changing his profession. Best of recommendations. Information leading to steady employment will be appreciated. Refer to "Forester."

**Scientific graduate** would associate with a concern who needs a man trained along scientific lines which might be applied to a study of scientific methods of manufacture. Refer to "1909."

**Work in the woods** as fire warden or in a lumber or sporting camp wanted on account of health. Refer to "C. A. L."

**Civil or construction engineer** available at once. 10 years' experience.

**Electrical engineer,** 21 years' experience, now superintendent of an electrical contracting firm, would move east for family reasons. Refer to "'02 Engineer."

**Civil engineer** wants work with an opportunity for advancement.

**Contractor's engineer, estimator, or superintendent of construction,** 25 years' experience, would like to make new connections. Experience in placing machinery and in the construction of new buildings. Refer to "Contractor '97."

### Visiting Local Associations

The Alumni Secretary is very sorry that it is impossible for him to visit this year many of the local associations which in the past have generally received visits from one or more representatives from the campus.

A trip this month to the convention of Alumni Secretaries gives an opportunity to visit some eight more local associations. Lack of time and money make it absolutely impossible for further travel this spring.

Next year by earlier planning and better financial support to the General Alumni Association it is hoped that more local organizations can be visited.

## Preliminary Commencement Plans

The first meeting of the 1924 Commencement Committee of the General Alumni Association of the University of Maine was held at the Chamber of Commerce rooms, Bangor, Tuesday evening, March 24.

Members present: H. A. Hilton, '05, Dr. W. H. Jordan, '75, J. S. Brooks, '14, and R. P. Clark, '15. Clark was appointed secretary to the committee.

The meeting was opened with a general discussion of Commencements from the alumni viewpoint and a working policy of continuing those features of past years which had given satisfaction and attempting to improve or change weak and unpopular parts of the alumni program.

Voted: That blanks should be printed for registration and that these should permit an indication of the tickets desired. Badges are to be supplied at the time of registering if possible.

Voted: It is essential to the welfare of alumni returning with their wives, and to their enjoyment of Commencement that they be provided with comfortable rooming quarters with convenient facilities for meals and opportunities for social intercourse.

Voted: It is the opinion of this committee that the custom of alumni luncheons as held in the past be continued and that the quality of the meal be improved if possible.

This committee strongly urges that as many undergraduates as possible remain for Commencement.

The banquet was discussed thoroughly. Definite action was postponed to a later meeting.

Voted: It is the desire of this committee that the education side of the University be developed in a speech by Dr. Little.

Voted: That future meetings be held at the call of the chairman.

Adjourned at 9:45 p. m.

ROBERT P. CLARK,  
Secretary.

### Commencement Committees

#### For the Alumni:

H. A. Hilton, '05, Chairman  
Dr. W. H. Jordan, '75  
George T. Carlisle, '09  
Benjamin Kent, '12  
James S. Brooks, '14  
Robert P. Clark, '15

#### For the Faculty:

Dean H. S. Boardman, '95, Chairman  
Edward H. Kelley, '90  
Frederick S. Youngs, '14

### 1909 Class Reunion

The following letter shows that the class of 1909 is going to enjoy its fifteenth reunion. It goes without saying that the Commencement committee co-operates fully with class plans like these.

Boston, March 31, 1924.

"Dear Mr. Clark:—

At our meeting of the 1909 class reunion committee Friday night, we made a tentative program. This, of course, is based on the supposition that the program on commencement will be similar to that of last year. On Friday evening at nine o'clock, after the president's reception, we will hold the 1909 informal dance. This will be held in the dormitory where we are quartered, if it is possible, or some suitable place. Saturday morning we will attend the General Alumni Association meeting. At one o'clock we will have our own class dinner served in Coburn Hall by a caterer. We presume there will be a baseball game in the afternoon and the class frolics will be before the game. We are going to put on a parade from our headquarters to the Alumni Field with perhaps one feature when we arrive on the field. It will only take a few minutes for us to do our stunt and then we will retire to the grandstand. We will be in costume. In the evening we will attend the alumni banquet and will join with the other classes in helping make this a success. We will not put on any features or any stunts of any kind at the banquet. Sunday will be our class reunion day, which will be held at the neighboring Country Club. We will return to the campus at five o'clock when the ground is broken for the Gymnasium Memorial building, and Sunday evening we are to have a sing, together with a light supper, and Monday our festivities are over and we will join the other graduates in Commencement day.

Now we have given you a rough draft of what we propose to do. This, of course, is subject to revision when we find out what the General Committee plans. We have taken last

year's program and thought that the breaking ground for the Gymnasium Memorial building would be at five o'clock, the same as it was last year. We want to bring our entire class back on the campus to this event.

I might say that we have a lot of enthusiasm shown in our reunion and we certainly are sure now of thirty-five men with their wives coming back, and probably ought to have there nearly fifty. The marshal for our parade will be Fred D. Knight and the assistant marshal will be N. H. Mayo.

Now here are a few things we would like to learn from you. First, where are our quarters going to be. Our crowd will begin to arrive Thursday night; we will have a good crowd on hand Friday night and the total maximum crowd will be there Saturday morning and will stay over Saturday night at the dormitory.

We are anxious to know where we are going to be housed and what arrangements will be made. This seems to us most important. Now as to meals we will expect on the campus: Breakfast Friday morning, lunch at noon, dinner at night; breakfast Sunday morning, supper Sunday night, with breakfast Monday morning.

We would like very much indeed to arrange to stay at Balentine Hall, the same as we did five years ago. This was an ideal situation and we took the downstairs first floor of this dormitory. Probably there are many more girls there now than when we were there before, perhaps this cannot be arranged. The only thing we want to be careful about is to see that we do have good quarters, that they are properly assigned, and that when our crowd begins to come on Thursday that they will have bedding and everything in their room to make them comfortable.

Also, we would like to have seventy-five seats reserved for us in the grand stand so that after our stunt is put on we can file right up into the grand stand and into our places. We would also like to establish our headquarters at Coburn Hall and as soon as possible we would like to know the cost of the alumni banquet, the cost of the ball game and the cost of housing and meals in the dormitory.

Yours very truly,

HARRY E. SUTTON, '09."

### 1914 Class Reunion

At its ten year reunion, 1914 is planning a big come-back. Its committee started work at the Bowdoin game last fall. During the winter a class news letter has been frequently issued.

At Commencement they have taken as their duty the cheering up of any dull moments at the alumni banquet.

As 1909 and 1914 each expect to be the life of this Commencement, glooms will have no place in Orono June 7th.

### The Memorial Fund

Slowly but surely the alumni goal of \$500,000.00 is being reached. On April 4th \$72,000.00 was needed. 85% of the total has been raised.

With the building assured and the balance so badly needed to make possible all features needed, a last rally will be necessary.

A grand total of \$539,373.73 has been pledged to the fund. You can be proud of Maine!

### New Bricklayers

## Basketball Team Won Nine of Fifteen Games

The basketball team has completed a season which is one of the best in the history of the sport at the University. Under the able coaching of Joseph "Cuddy" Murphy and the leadership of "Ollie" Berg, star guard, the team developed until of the

last six games, they won five and four of these were played on foreign floors. Of fifteen contests with the strongest teams in New England, Maine annexed nine, piling up a total of 411 points to her opponents' 375.

## Farmers Week

The Eighteenth Annual Farmers' Week was held here March 31 to April 4, inclusive, this year. At this time several hundred men and women gathered here to discuss and receive instruction in the various phases of agriculture, home economics, forestry and marketing.

A four days program of the meetings, lectures, demonstrations, discussions and instruction was arranged. Subjects were chosen which would be of interest to general and special farmers and to men and women alike. All of the agricultural associations of the state arranged for meetings some time during the four days. A poultry school was conducted throughout the week, while a series of lectures and discussions dealing with marketing of various products was given. A conference was held on forage crops.

One of the features of this year's program was the list of eighty speakers which included representatives of all the agricultural organizations in

the state, members of the college faculty and extension service, prominent agriculturists and specialists from Maine and other states, and widely known women workers in the eastern states. These speakers took up practically every phase of farming and homemaking, so that practically every man and woman in the state could find something of special interest in the program.

As March 31 to April 4 is during the spring vacation, all college buildings were available for the use of the visitors. The women attending farmers' week stayed in Balentine Hall, while one section was reserved for husbands and wives. Other men were accommodated at Oak Hall. All meals were served at Balentine.

"The boss offered me an interest in the firm today."

"He did!"

"Yes, he said that if I didn't take an interest in it pretty soon he'd fire me."—Judge.

## What Has Your Class Done?

Over half of our alumni belong to the last ten classes. Only three of this group have above the average number of paid members. It will be interesting to see how the classes stand on June 30th, the end of our fiscal year. Today 1882 is the leader of all classes.

The following figures were compiled April 1, 1924:

Class	Members	Paid	%
1882	24	15	.63
1885	17	8	.47
1875	15	7	.46
1894	16	7	.44
1879	22	8	.36
1899	68	22	.32
1893	27	8	.30
1890	34	10	.29
1889	18	5	.28
1888	26	6	.23
1908	129	29	.22
1909	174	38	.22

Some classes give the alumni association very creditable support and their loyalty is conspicuous in the preceding table. Too many individuals in most of the classes have not yet heeded the call.

Phi Eta Kappa fraternity won the intermural track meet and have been awarded the interfraternity cup and the Charles Rice cup for the fourth successive time. Sigma Alpha Epsilon was runner-up.

## Alumni Personals

### Marriages

'20—Lawrence J. Hodgkins and Miss Bertha A. Man, September 7, 1923.

'23—Edward W. Holden and Miss Estelle C. Bennett, December 18, 1923, at Rochester, N. H.

'98—Llewellyn N. Edwards, bridge engineer for the Maine State Highway Commission, has been recently appointed Research Specialist for the United States Bureau of Public Roads.

Ex'00—George R. Monohon is plant engineer for the New York Telephone Co. of New York City. He resides at 147 Jackson Ave., Ruthersford, N. J.

'04—A card has been received from Alvah R. Small, vice-president of the Underwriters' Laboratories, who will hereafter have his headquarters in New York City at 109 Leonard Street. Mr. Small was formerly located in Chicago. He is now residing at 55 Park Ave., New York City.

'05—The many friends of George W. Carle are congratulating him upon his recent election as vice-president and director of the Standard Engineering Co. of Toledo, Ohio, a large and flourishing corporation. Mr. Carle engaged, for a time after graduation, in engineering in West Virginia, before associating with the Toledo concern, where he has steadily mounted the ladder of success. Mr. Carle is married and has one son aged 10 years.

'08—Roberto M. Foster has been removed from our "lost alumni" list. We have located him at Box 661, Oakland, Cal.

L'08—Ernest L. Seavey is practicing law in Los Angeles, Cal., where he is located at Suite 1015, Spring Arcade Bldg. Mr. Seavey received an LL. M. degree from the University in 1914.

'10—Robert B. Cruickshank, formerly professor of horticulture at Ohio State University, is now representing Charles E. Merrill Company, School and College Textbooks, of New York City. He is located at 492 West Seventh Ave., Columbus, Ohio.

'11—Prof. George Haley is now head of the pre-medical department of St. Ignatius University, San Francisco, Cal. Prof. Haley has been granted an M. S. degree by St. Ignatius University, is a member of the California Academy of Science, and has traveled extensively in Japan, Kamchatka, India, Arabia, Egypt, Italy, Alaska and Iceland. Prof. Haley is also an author and lecturer of note.

'11—A new address has just been received for Ernest R. Kingsley which is 41 West Church Street, Bethlehem, Pa. Mr. Kingsley was formerly in the drafting department of the Bethlehem Shipbuilding Corp. at the Fore River Plant, Quincy, Mass.

'11—Claude H. Gilpatrick is agent for the International Paper Co. at Milton, Vt.

'14—Frederick S. Jones has moved from Lynn, Mass. to 63 Buena Vista Street, Swampscott.

'14—George J. York has recently transferred from the office of the Orono Pulp and Paper Co. at Orono to the sales office in Bangor.

Ex'14—George H. Roberts is agent for the Metropolitan Life Insurance Co. in the Middletown, Conn., district, with headquarters at Middlefield, Conn.

'15—James C. Walker is located at 232 Grove Ave., Highland Park, Mich.

Ex'15—Nehemiah W. Kneeland is now with the Fuller Brush Co. of Bangor.

'16—Mrs. Gladys Thompson Bain is residing at 601 West 137th Street, New York City.

'16—Elwood St. Fraser is principal of the high school at Rochester, N. H.

Ex'16—William S. Jack is practicing law at East Greenwich, R. I.

'17—Roy F. Thomas, who has been appointed county agent in Oxford County, took up his

new duties March 1. After graduation Mr. Thomas became an instructor in soils, farm engineering, bacteriology, farm chemistry and crops at the University. This position he held from September 1, 1917, to June 30, 1919, when he became assistant State Supervisor of Agricultural Education. Here he remained until July 1, 1922, when he accepted a position as state instructor, giving unit courses in dairying, orcharding and poultry in the secondard schools of the state. These courses were given by Mr. Thomas in Monmouth Academy, Winthrop High School, Litchfield Academy, Lee Academy, Eastern Maine Institute, Unity High School and Ellsworth High School. In addition to the above training in agriculture, Mr. Thomas was born and brought up on a small farm where dairying, orcharding and potato raising were emphasized. Mr. Thomas is married and has three children. He succeeds Raymond H. Lovejoy, '21.

Ex'17—Carl A. Anderson is located at 31 Ashfield Street, Roslindale, Mass.

'18—Donald M. Libby is now addressed at 35 Westminster Ave., Woodfords.

'19—Ray M. Astle has recently sold out his interest in the bakery at Lincoln and has returned to Houlton, where he has gone into business with his father.

Ex'20—Frank W. Howard is located in Philadelphia as superintendent for the Bankers Electric Protective Association of Boston, Mfrs. of Electric Bank Vault Protection. He is residing at 444 Lakeview Ave., Pitman, N. J.

'21—Harold W. Eastman has entered upon his duties in Concord, N. H. as leader of the boys' and girls' club work, under the auspice of the Merrimac County Farm Bureau.

'21—Robert R. Owen is salesman and switchboard specialist for the General Electric Company at Pittsburgh, Pa.

Ex'21—Philip R. Bailey is in the mechanics engineering department of the Westinghouse Electric & Manufacturing Co. of South Philadelphia, Pa. He is residing at 25 Eighth Street, Upland, Pa.

Ex'21—Miss Sarah E. Stewart is teaching English at the High School in Stoughton, Mass.

'22—Donald Reed, formerly county agent in Washington County, is now located at Sanford as county agent for York County.

'22—Forrest J. Ross is located at 153 Hemenway Street, Boston, where he is employed with Jordan Marsh Company.

'22—Max Weisman, formerly an assistant examiner in the Industrial Chemistry Division of the U. S. Patent Office for two and one-half years, announces the opening of an office in the Ouray Bldg., Washington, D. C. for the practice of the law of patents, trademarks, copyrights, and designs.

Ex'22—Announcement was recently made of the engagement of Osgood A. Nickerson and Miss Eleanor W. Fogg, both of Bangor.

'23—Miss Catherine Cary is teaching Latin and French in the High School at Hamilton, Mass.

'23—Friends of Mr. and Mrs. Stuart M. Johnson of East Milton, Mass., sympathize with them in the death of their infant son, born March 10.

Ex'23—Miss Alice E. Morse is now with Mrs. Maynard Havey and is residing in North Sullivan, where she is teaching in the primary school.

WE, the undersigned business houses in the vicinity of the University of Maine, wishing to help the General Alumni Association to successfully close its campaign for \$500,000 to erect a Gymnasium-Armory Memorial to the 47 U. of M. men who gave their lives in the World War—hereby record our support and belief in this Campaign by contributing the advertising space below, thus enabling THE MAINE ALUMNUS, the official publication, to continue as a vital force in winding up the Memorial Campaign.

works in Schenectady

## "And I am with the doers"

Time was when war called the ambitious and offered life's great rewards. But the captains and the kings passed. The enduring conquests of our times are being made in industry.

Through the wide doors of General Electric plants and offices an army of 100,000 men and women moves every day. Each of them, looking back over the road, can say:

"Things worth while are being done in my lifetime, and *I* am with the doers."

# GENERAL ELECTRIC
