Suffering from this
A. M. MERRILL.
WORCESTER SALT.

WORCESTER SALT is made from Brine of great Native Purity by thoroughly experienced and practical Salt Makers, who exercise the greatest possible care in every department of its manufacture.

It is made by an entirely different process from other kinds of Salt, which ensures a fine, even grain of perfect uniformity, without the necessity of grinding, crushing, or any manipulation whatever, and at the same time so protects the Salt during the entire manufacturing process, that it cannot become soiled or contaminated by dirt, dust or any kind of impurity; is less liable to become hard and lumpy than any other kind; also dampness and changes of weather affect it much less.

Notwithstanding its fine quality it is sold at a price so reasonable that any family using it exclusively, and for all purposes of the household, will find the difference in cost between it and the most common kind amounts to so small a sum in a year as to be absolutely insignificant, even if its great strength does not make it actually cheaper than any other.

For household use it is put up in bags of attractive style and best quality muslin, in 2½, 5, 10 and 14 lbs. each.

For use in the dairy and similar purposes, it is sold in bags of 56 pounds and barrels of 320 pounds each.

WARRANT FOR ANNUAL TOWN MEETING.

MARCH 2d, 1891.

To John G. Locke, Constable of Buxton, in the County of York,

GREETING:

In the name of the State of Maine, you are required to notify and warn the inhabitants of the town of Buxton, qualified by law to vote in town affairs, to assemble at the Town House in said town on Monday the second day of March next, at ten o'clock in the forenoon to act on the following articles to wit:

ARTICLES.

First.—To choose a Moderator to preside at said meeting.

Second.—To choose all necessary Town Officers for the ensuing year.

Third.—To see how much money said inhabitants will grant and raise for the support of common schools and for the Free High School the ensuing year.

Fourth.—To see how much money said inhabitants will grant and raise for the support of the poor the ensuing year.

Fifth.—To see how much money said inhabitants will grant and raise for contingent expenses the ensuing year.

Sixth.—To see how much money said inhabitants will grant and raise for the support of Bridges the ensuing year.

Seventh.—To see how much money said inhabitants will grant and raise for the repair of Highways the ensuing year, and how the same shall be expended.

Eighth.—To see how much money said inhabitants will grant and raise for breaking down snow the ensuing municipal year.
Ninth.—To see what action said inhabitants will take with regard to the use of road machine, to buying another road machine and for the use of same.

Tenth.—To see what action said inhabitants will adopt for employing school teachers the ensuing year.

Eleventh.—To see if said inhabitants will vote to accept the reports of the several Town Officers.

Twelfth.—To see what per cent. said inhabitants will vote to pay for collecting the taxes the ensuing year.

Thirteenth.—To see how much money said inhabitants will grant and raise for John H. Came Post, G. A. R., for Memorial Day.

Fourteenth.—To see how much money said inhabitants will grant and raise for the purchase of school Text Books.

Fifteenth.—To see how much money said inhabitants will grant and raise to pay for labor on highways over and above highway taxes, previous to the year 1890.

Sixteenth.—To see what action the town will take in relation to notes held by the town for taxes.

Seventeenth.—To see if said inhabitants will vote to repair or rebuild the part of bridge over Saco River at Bar Mills from Iron Bridge to Buxton shore.

Eighteenth.—To see if said inhabitants will vote to exempt from taxation for a period of ten years, a saw and shingle mill for general mill work—on a building 24x70 feet. to be erected on the dam at Bar Mills. Buxton, on the land and privilege of the Maine Furniture Co.

Nineteenth.—To see if said inhabitants will vote to tax dogs.

The Selectmen give notice that they will be in session for the purpose of revising and correcting the list of voters at the selectmen's office at 2 o'clock on Saturday the 28th day of February, A. D. 1891. Also on the morning of said meeting at nine o'clock.

Given under our hands this twentieth day of February, 1891.

JOSEPH F. WARREN, Selectmen
HORATIO J. EMERY, of
JOHN W. ÉLDEN, Buxton.

The undersigned has this day examined the books of the Assessors and Treasurer of the town of Buxton, and find the accounts correctly cast, the required vouchers are on file, all monies received and paid out are properly classified and balanced in a business-like manner.

CHARLES BUTLER, Auditor.

Buxton, Feb. 1891.
Fellow Citizens:

In accordance with the requirements of law, I respectfully submit the following report of the condition, progress and needs of the Schools of Buxton:

Amount of Appropriation for Support of District Schools, 1890,

$2,100 00

Amount received from State School Fund, 1890,

967 81

Amount of Appropriation for Support of High School, 1890,

800 00

Total School Fund for 1890–91,

$3,867 81

Number of Scholars in town April 1, 1890,

577

Number of Teachers employed in District Schools during the year,

22

Number of Male Teachers,

3

Number of Female Teachers,

19

Number of weeks of school during the year,

414

I propose to give a general report of the schools in town as they appeared, and to do it faithfully and impartially, and in as concise a manner as possible.

In nearly every case we found the schools in the hands of competent and energetic teachers. The pupils showed a thoroughness in their studies and a general good feeling seemed to prevail between teacher and scholars.

We are glad to report that nine districts out of the sixteen in town have retained the same teacher during the entire school year.
This is quite an improvement over last year as but five teachers were
employed in the same school throughout the year.

On the other hand we must report, that in a few cases the schools
were not wholly satisfactory to your Supervisor. These schools were in
the hands of young and inexperienced teachers.

The causes of these partial failures on the part of some teachers may
be due to circumstances beyond their control.

Upon the whole we are glad to report the schools in a prosperous
condition, and we believe there is some improvement over the past, as
they are better supplied with necessary helps for school instruction, in
the shape of globes, charts, maps, and above all a full supply of text
books.

We are glad that agents are awakening to the idea of securing the best
teachers possible. The best are none too good for our schools.

A school eight weeks long in the hands of a competent, experienced
and energetic teacher is worth more than fifteen weeks of school run in
a loose and lifeless manner.

Scholars are apt to be imitators of their teacher. Therefore employ
only the best.

It gives us pleasure to again chronicle our report of the High School,
especially since we can announce that the year just finished is at last
fully up to the standard of prosperity attained the preceding year.

Mr. Larrabee has been with us again as Principal, and the same suc-
cess has attended his efforts as formerly. Miss Carrie L. Piper has again
rendered him able assistance.

During the year several new methods have been adopted with good
results, also a large class is looking forward to the time when their rela-
tionship to the school shall be changed from scholars to alumni.

The success and value of the school must surely be apparent to all.

After visiting the summer schools, and carefully inquiring into the
condition and number of the various text books in use, and considering
the small appropriation on the one hand, and the new free text book law,
(which went into effect Aug. 1, 1890), on the other, we submitted to the
necessary wants of the school and requirements of the law.

After a critical examination of the various school books from
different authors, we decided upon the following: *Greenleaf's Complete
Edition," *Normal Course in Spelling, Greenleaf's Algebra, Barnes'

*Complete set of new books.
All books bought under the new law become the property of the town.
They have been duly labelled, numbered, and distributed among the
various schools according to law.

We found that the appropriation for free text books was inadequate.
We were therefore obliged to exceed the appropriation, an account of
which is found in the selectmen's report.

It is absolutely necessary that the town at our next annual meeting
shall raise enough money to meet the deficiency, and also to buy more
books.

It is very important that the agents of the various school districts
provide a closet, large enough to hold all of the town books that they
may have at any time, together with maps, charts, globes, etc. The
closet should be made strong, with a good lock and key, for the safe keep-
ing of books and school apparatus.

Agents should look more carefully after the school houses and out-
buildings, see that the doors are properly hung, that the windows, stove
and funnel are in proper order and that the teacher is furnished with a
broom, dust-pan and black-board erasers, all of which are necessary for
the comfort and convenience of teacher and pupil.

In closing, I wish to thank the citizens of Buxton for the kind and
courteous manner in which they have always received me, and I hope
that the work which I have done in carrying out the duties devolving
upon me will meet with your approval.

T. V. SMITH, Supervisor of Schools.

* North Grammar.

* South Grammar.

† Union District—20 in Buxton, and 31 in Scarborough.
This Harrow is made almost entirely of steel, refined and gray iron, the very best quality of iron and steel being selected, thus making the lightest, strongest and most serviceable Harrow ever put into the market. The connecting joint of the inner end of the gang is a new mechanical movement, and so constructed that one gang helps to drive the other, thereby lessening and making it a very light draft Harrow.

**SEND FOR DESCRIPTIVE CIRCULAR.**
