What You'll Learn

The University of Maine System is actively planning to welcome our new and returning students, faculty, and staff back to our campuses for the academic year starting Fall 2020. We are dedicated to working together with public health experts and our state to maintain a quality UMS educational experience while keeping our community healthy.

You Matter! Together we play a collective role in creating as safe a Return to Campus as we can - for each other and those we serve. With that fact in mind, this training is expected of all employees returning to a UMS
