1926 MAINE NIGHT PLANS

Maine Night, the home-coming of Maine Alumni, is scheduled for the night before the Colby game, October 29, and preparations for this big occasion are being made by a committee headed by Clifford Patch, '11, of Bangor, and appointed by President Harold S. Boardman, '95. Besides Dr. Boardman, who has volunteered to serve on the committee, the other members are Alumni Secretary, Clark, who is acting as secretary, Professor L. S. Corbett, Professor Benjamin C. Kent, faculty manager of athletics, Edward Kelley of Orono, Physical Director Stanley Wallace and President Clare H. Brown, '27, of the Athletic Association.

The Maine Night exercises are to be held in the new Indoor Field unit of the Memorial Gymnasium-Armory for the first time, and it is planned to make use of the 2800 bleachers which will be in readiness for the game the following day. This will allow all who attend to obtain seats, a thing which was impossible in the restricted space of the old gymnasium.

President Boardman has been selected to preside at the exercises, and other speakers will include Coach Fred N. Brice and Captain Paul Lamoreau of the football team; President Brown of the A. A.; representatives of the memorial fund and the alumni, and Coach Frank Kanaly and Captain Forrest Taylor of the cross-country team, in case they are able to return in time from the state meet to be held at Lewiston that afternoon. A special invitation has been extended to Joseph McCusker, who was awarded a cheer-leader's M at the exercises a year ago, to return and take charge of the cheering. McCusker has the distinction of being the only man ever awarded a letter after graduating from the university.

The Maine band will be on hand bigger and better even than last year.

The alumni speaker will be designated in good time and the program elaborated on. It is promised however, that it will be short, snappy and to the point.

THE BONFIRE

Representatives of all student organizations met with the Alumni Secretary and agreed unanimously that the student body wanted a bonfire.

Strong student committees were appointed on both the construction of the fire and the program which will be held there. These committees assure a real program at a real fire.

7:30 P. M.

The Night Before

THE

COLBY

GAME

Come Home

for

MAINE NIGHT!

VETERANS OF 1901

A novel angle promises to be added to the evening's program as a result of a letter received from W. C. Elliott, '02, of Montreal, Canada. Mr. Elliott writes as follows:

"This fall will make the 25th anniversary of the first football defeat handed out to Bowdoin, the score being 22-5. (It should have been about 60-0 if we had had a dry field instead of a foot of snow and slush on top of a clay surface).

"It has just occurred to me that it would be a mighty good booster for Maine Night to have that team of 1901 back in uniform, and so far as I am concerned, if you think the plan feasible, I am willing to do everything in my power to get the fellows back."

Permission has been given to Mr. Elliott to go ahead with his plans, and if it succeeds he will have collected alumni

from every corner of the country. Of the 20 members of the squad of 1901, four are residents of Maine, four of Massachusetts, two of Montana, one of Rhode Island, one of Pennsylvania and one each of Michigan, Ohio, Canada, Illinois, North Carolina, Texas, and California while the local alumni office has no trace of one man, Arthur R. Towne, '03.

FRATERNITY REUNIONS

Following the bonfire all returning Alumni are invited to visit their Chapter House where an informal get-together with the undergraduates will be held. Smoker, reception or whatnot the young boys want their old boys to drop in for a social hour.

UNIVERSITY OF MAINE TEACHERS

ASSOCIATION BANQUET

The University of Maine Teachers' Association Banquet will be held at the Royal Arcanum at 5:30 Thursday, October 28, Bangor, Maine. Prof. Ellis of the Head of the Department of English will be toastmaster and the following speakers have promised something worth while. President Boardman, Prof. Lutes, the new Head of the Department of Education and Prof. Doran of the Department of History and Government.

Every loyal graduate and former student in the teaching profession in Maine should be present at this banquet. It is hoped also that many who are not in the teaching profession will arrive early enough for the other festivities of the week to be present at this gathering. Friday afternoon following the banquet the Freshman Football team will meet Bridgton Academy. Friday evening will be Maine Night preceding the Colby game which is to be played at Maine, Saturday, the thirtieth.

(Please fill out and send to L. J. Pollard, Director of University Extension).

Reserve plate (s) at the University of Maine Teachers' Association Banquet.

A NEW IDEA IN ALUMNI AFFAIRS

The Intercollegiate Alumni Hotel Idea—
A New Means of Furthering Alumni
Interest in Local and District
Alumni Centers

Eighty college and university alumni associations of America have cooperated to establish intercollegiate alumni hotels in some forty outstanding centers of America. At these hotels will be found everything planned for the convenience and comfort of the college man. Here the alumnus of each of these colleges will find on file his own alumni magazine and a list of his own college alumni living in the immediate locality served by the hotel. He will find the alumni atmosphere carried throughout. This service will be unusually pleasing, and undoubtedly local alumni spirit will be greatly forwarded by this movement.

In California, where the plan has been in operation for three years, it has been found to be eminently successful. The intercollegiate alumni hotel idea came into being from a very definite need. The growth of travel by automobile combined with the gigantic growth in numbers of university and college men has brought to light the necessity for some place to which the visiting alumnus may go when in a strange city to find the names and addresses of his fellow alumni living in the community. It was formerly the policy of the University of California Alumni Association, for instance, to have the president or secretary of the local alumni club keep on file these names and addresses. Often, however, when the list was most desired the local president or secretary could not be found, so by keeping an accurate list on file at a prominent hotel this list became available at all hours of the day and night, and consequently it has resulted that a new means has been found whereby alumni spirit can be engendered and encouraged in centers distant from the immediate influence of the University.

In no way does the establishment of an alumni hotel headquarters in the local centers interfere with the local university club. The university club is exclusive in its membership; the Intercollegiate Alumni Hotel is non-exclusive. It forms headquarters for the transient, the man who is in and out of town, and for the man who is in town for only a few hours.

Full and complete data will be given concerning this nation-wide movement in a four-page announcement that will appear in each of the participating alumni magazines next month.

A list of Intercollegiate Alumni Hotels that have been designated follows. Many more are giving this matter earnest consideration. The full details will be given

next month. Meanwhile, if they really want to make this new movement successful in their district alumni centers, all alumni in these local and distant centers who read this notice should purpose to unite with other alumni in the formation of a representative committee for their city. With the backing and prestige of local enterprise a new instrument for awakening alumni spirit will be found and will result in the forwarding of a finer, healthier, and a more abundant interest among college men.

Many eminent university leaders have followed the growth of the hotel headquarters movement in the Far West. President Ray Lyman Wilbur of Stanford University says: "We have found by experience that by having an outstanding hotel in a local community act as a depository for names and addresses of local alumni and as general headquarters for our association activities, the morale of our alumni association has been greatly strengthened." Again Robert G. Sproul, Vice President in charge of Public Relations at the University of California speaks for his University as follows. "Our alumni association in California has grown from four thousand to about fifteen thousand members in three years. We feel that the address lists of local alumni maintained at local hotel centers have aided much in strengthening acquaintanceship and forwarding a high type of university spirit among our alumni." And as for the hotels, Halsey E. Manwaring, manager of the famous Palace Hotel of San Francisco says: "For three years we have acted as official headquarters for University of California and Stanford University Alumni Associations. From our experience we believe that a nation-wide establishment of Intercollegiate Alumni Hotels will prove an excellent move and one in which the hotel industry may well be proud of playing a part."

For over a year a large committee representing eighty college and university alumni associations has been working to make this national movement possible. The American continent has been travelled back and forth by its representatives many times in order to have coordinated action in the establishment of intercollegiate alumni headquarters. Practically every prominent center of America has been visited by one or more of these representatives.

Here now is established a nation-wide service available to the alumni of these eighty universities and colleges and others that may join them. It now awaits only the full and complete coordinated effort of the local alumni to make this service one of the finest and most helpful instruments for good in the upbuilding and maintenance of alumni interest in local and distant centers of America.

Schenley	Pittsburgh

*To be built in 1926-27

THE NEW FRESHMAN COACH

William C. Kenyon, a graduate of Georgetown University, assumed his duties as Coach of Maine Freshman teams this Fall. His work with the football squad of this year's entering class has promises of very good results.

Kenyon played for three years under Coach Bruce at Manchester and played with Coach Quinn at Georgetown University. Three years ago he was one of the most talked of athletes in the East. Entering Georgetown University, he immediately won a regular position at end on the 'varsity eleven. After holding down this position for two years, he was shifted to full back, where he was given honorable mention by Walter Camp in selecting his famous mythical All-American team. He also was picked for the All-Southern eleven for three years.

In the baseball line, Kenyon was equally as prominent. He was an out-fielder and catcher for four years, captain his last two years, and in 1924 led his team through a season in which it won 24 straight games. He was one of the hardest sluggers in college baseball. In basket-ball, he was a guard.

Memorial Fund Collections

When subscriptions to the University of Maine Memorial Fund "went over the top" the first step towards a gymnasium-armory on the Campus at Orono was successfully taken. When the indoor field was finished the second great step was also accomplished and Maine had much to be proud of. So much for history but what of the future?

\$543,595.73 was subscribed by 4160 alumni of the University. Payments on this sum were extended over a period of years ending June 1, 1928. More history.

\$255,074.02 has already been collected. This is fine and as it should be and the splendid loyalty of those who have paid in this sum is most commendable. What they have done, for one thing, is to make possible the indoor field.

There is another side to the picture and it is not so bright. Several hundred alumni have let their payments become overdue. These payments represent thousands of dollars, and unless something is done about it, the gymnasium section of Maine's Memorial will not be seen for a long time.

Speaking generally, this group now in arrears intend to pay their pledges. These alumni made a promise willingly and they will fulfill that promise cheerfully—eventually.

The immediate future is most vital, however, and steps are now being taken to speed up collections. Those in arrears will be asked to make sacrifices. Maine alumni have promised Maine a Memorial Gymnasium-Armory. They must keep faith.

"MAINE RAILROADS"

By E. E. Chase, '13

Edward E. Chase, '13, has just written a history of the development of the Maine railroad system. It is a real contribution to the information of the public, a book both interesting and instructive. It took careful research and patience to compile "Maine Railroads."

An editorial in the Portland Press Herald comments most favorably on the book and states that it is distinctly worth while. We hope other Maine men will contribute to the research necessary for an understanding and solution of the many economic problems of our state.

We quote from the editorial:

"There is no more interesting or fascinating subject than the one with which the author has dealt. How all of the railroads of this State were built, financed and operated; the vicissitudes through which some of them have passed; the strategy pursued in effecting consolidations and changes; why some of them have been failures and others successes; these things are of vital interest to all who desire to be well informed as to the history of the railroads of this State.

"Mr. Chase has attempted no criticisms of anything that has been done in the building of the railroads of Maine. He has not sought to tell a story but to rehearse the facts. He leaves it to the reader to make deductions. His job was to get into order the things which were done and to provide a background so that a comprehensive knowledge might be had of the State's relations to railroad development.

"The publication of this work of Mr. Chase's comes at an opportune time. The public's relation to the railroads is close. It is well that all the people should understand the whole subject so that, if it becomes necessary for their representatives to act, they may do so with some degree of appreciation of the exact situation.

"Such a survey as is presented in Mr. Chase's book is just what should be done with relation to the entire State. Maine people ought to have at hand accurate information concerning all of the things which vitally interest them. How can they hope, otherwise, to take any steps to afford relief, to offer encouragement or to do any thing constructive? "Going it blind" is not the best way to make progress. Get the foundation well laid and then arrive at an opinion after the facts have been properly digested, is the safest procedure. Mr. Chase has helped to lay a foundation for considering the railroad problems. Before any discussion of this question can be indulged in this foundation must be given careful consideration."

A NEW DEAN FOR TECHNOLOGY

Paul Cloke, formerly head of the Department of Electrical Engineering at the University of Arizona, has been appointed dean of the college of Technology of the University of Maine by President Harold S. Boardman, Tuesday. He succeeds President Boardman, who vacated his position a year ago to become acting president of the university.

Prof. Walter J. Creamer, head of the department of Electrical Engineering, has been serving as acting dean since last September last year.

Dean-elect Cloke has been at the University of Arizona since 1918 and during that time has increased the enrollment of the Electrical Engineering Department from practically nothing to a place where it now equals that of all the other engineering courses combined. Before going to Arizona, he was a member of the faculty of Penn State College, Rhode Island State College and the Clarkson College of Technology.

He is a graduate of Lehigh University in the class of 1905, and received a master of science degree from the same institution in 1913. Besides his work as an educator Prof. Cloke has served as chairman of the Public Service Corporation of New Jersey, and has done valuable research work for the Westinghouse and General Electric Companies, as well for the United States Signal Corps, at the radio research laboratories of which he has been located as associate radio engineer the last year on leave of absence from Arizona.

Prof. Cloke is a member of several engineering societies and has been active in civic work at Tucson, Ariz., where he is chairman of the City Zoning commission. He is married.

CLIPPINGS

"Few appear to know that the University of Maine has the largest indoor athletic field in the world.

The new Maine gymnasium is 366 feet in length, 164 feet in width and 73 feet in height.

That means a hundred-yard straight-away, room for a football field and plenty of room for baseball batting and fielding practice.

This Maine gymnasium is even larger than the Yost Field House at Michigan."

Philadelphia Ledger, 4-1-26

Biddeford Pool, July 24.—R. Hampton Bryant, Ex.'15, former graduate manager of athletics at the University of Maine, now proprietor of the Montreal House at Old Orchard and the Sea View Inn at Biddeford Pool, entered the golfing hall of fame at the Abenekee golf club here by making a hole in one on the eighth hole of the course. The hole is one of 165 yards. *Press Herald.*

THE FOOT BALL SEASON TO DATE

BAR HARBOR CAMP

Twenty-seven men attended the pre-season training camp at Bar Harbor this year. They lived in tents and went through a period of intensive training from Sept. 9th to 18th. 'Varsity coaches Brice and Quinn, Freshman Coach Kenyon and trainer Wallace made up the staff while Ernest Spruce furnished the meals.

FORT WILLIAMS 6—MAINE 7

The opening game with Fort Williams proved a big surprise. For some years past this game has always been considered a mere scrimmage for preparation for the football season. From the results, Saturday's game was a much needed scrimmage.

The team which the Army showed was a heavy one well-versed in the art of forward passing as well as following the ball which got lost on several occasions. The Maine line was especially vulnerable throughout. The secondary defense was fairly good except on the forward passes although a few were intercepted.

Buzzell seemed good at plunging thru the line, but slow on the end runs. Peakes was about the most alarming bet among the backs, Sylvester doing well on line bucking. Cassista played the better game at quarter, altho Hobbs and Osgood were in good form.

The Maine men were in the best of condition in contrast to the soldiers who were continually being stretched out.

Both teams scored in the second quarter. The visitors threatened in the first when a 35-yard pass was completed by Marston and Sable. They were then within Maine's own ten-yard line. A 15-yard penalty pushed them back out of danger. Maine retrieved the ball and started a march down the field. A forward pass from Sylvester to Nannigan helped matters along and as the first period ended Maine was on the 8-yard line.

Buzzell soon got the ball across for the only touchdown for Maine. Peakes easily kicked the goal.

Peakes intercepted a pass soon after play was resumed and Maine started again. After a couple of plays Burgoin intercepted a pass and ran 80 yards for the soldiers only tally. Tommy Dickson blocked the kick for an extra point, thus preventing a tie.

Then ensued some more see-sawing football for the next period and a half. But in the last quarter Maine came back with all the old time form and pep. Mixing in passes among the many line plays, they marched down the field. A forward pass on the last down was intercepted by a soldier who was thrown over his goal line for a touchback.

RHODE ISLAND 0—MAINE 7

As might have been expected, Brice gave his squad a severe shaking up following the poor showing made against the soldier team. Several men who had been playing regularly on the 'varsity went back to the scrubs. Monday there was scrimmage. Tuesday there was scrimmage and it was a slam bang contest too. Men were fighting for lost positions or to hold newly acquired honors. Everything looked fine and then Peakes got hurt.

It now became necessary to reorganize the team. Sophomores were conspicuous then. Hobbs, Buzzell, Folsom from last year's Freshman team, with Sylvester, the full back discovered in the Colby game last year made up Maine's back field.

Captain Lamoreau who had been out of the first game with a broken hand led the team against Rhode Island and by defeating them surprised the football world for Rhode Island had held the strong Brown team to two touchdowns the week before.

In this game Brice's men displayed a brand of football which was far above that of the previous week and hopes for a championship team took a decided jump.

The two teams were well matched and neither one seriously threatened the other during the entire first half.

The third period started with Rhode Island kicking to Maine. Conroy recovered a Maine fumble but Rhode Island soon lost the ball again on an intercepted pass. Failing to gain Maine kicked to R. I.'s 30-yd. line and when they attempted to kick back, Minnutt tore through to block it and Black recovered the ball on the 25-yd. line. With renewed courage the wearers of the pale blue tore at the Rhode Island line, and with Buzzell leading the attack, they carried the ball over for the only touchdown of the game. Sylvester kicked the goal.

During the fourth period the ball remained in the center of the field.

OCTOBER 8

The Maine football squad of 21 men left for Middlebury Thursday night, October 7th. During the week Cassista was

moved back to quarter and Beeaker took his old guard position. Hobbs was worked at right half back during the week. Peakes recovering rapidly from injuries, will soon be in his old form.

As the season develops, indications are that Maine's hopes for the State series lie in the following men:

Nannigan, Black, Lavorgna and Bennett, ends; Capt. Lamoreau, Minnutt, Lynch and Bishop, tackles; Dickson, Beeaker, guards; Simon and Dickey, centers; Cassista, Osgood and Hobbs, quarterbacks; Peakes, Buzzell, Folsom, LePlant and Youngs halfbacks; Sylvester, full back.

CAPT. PAUL LAMOREAU

Several of these can play positions other than as named and there are men not mentioned who are still in the running, among these being Gray and Kinney.

Maine has a light, fast team this year. It is full of fight and is sure to give a good account of itself.

MIDDLEBURY 0 MAINE 34

A University of Maine eleven which journeyed to Middlebury, Vt., last week with the extent of its power still a question in the minds of its supporters is back home again. The Brice crew ran roughshod over Middlebury Saturday by a 34-0 tally and is now preparing for its first home game of the season against a college team, scheduled for Saturday afternoon.

Brice used 20 men during the afternoon, Lamoreau, Nannigan and Beeaker being the only three regulars to stay the limit. This was not caused by a great number of injuries, however. In fact, the Maine eleven went the whole stretch without taking a single time out, a remarkable record and testifying to the fine physical condition of the Pine Tree staters. The water bucket and sponge had a complete vacation as far as the visitors were concerned.

The work of the two Maine backs, Buzzell and Peakes, at times approached the spectacular, the former getting away

for the longest of the day, and Peakes' kicking being a feature. Osgood, who directed the team in the second half, proved an able general, intercepted a Middlebury pass and ran it back almost 30 yards before being downed, and grabbed two heaves out of the air for substantial gains.

Middlebury failed to furnish much opposition, and only threatened to score once. In the first few minutes of play, a Middlebury punt struck Cassista in the head and bounced away from him, being recovered by a Middlebury man within striking distance of the Maine goal. The Bears held, however, and recovered the ball in a few plays. While Maine made 18 first downs during the day, the locals being able to gain only three, on a forward pass, a penalty and on rushes. Maine attempted five forward passes and completed three of them for substantial gains. The summary:

CROSS COUNTRY PROSPECTS

Saturday, Oct. 9th, Coach Kanaly put his 'Varsity and Freshmen cross country candidates through their first test over Maine's strenuous course.

The 'varsity team showed the qualities which have characterized the state champions in the past years. The famous "stand-pipe hill," which has been a Waterloo for many runners, has been cut out of course, so that the time made by the team could not be evenly compared with the previous times. Capt. Taylor and Cushing crossed the finish line neck to neck with the next five men crossing in a bunch.

Maine opens the season at Durham, N. H., Oct. 15, in a dual meet. The following is the schedule:

Oct. 15—New Hampshire, Durham.

Oct. 29—State Meet, Lewiston.

Nov. 15—N. E. I. C. C. A., Boston.

Nov. 22—N. C. A. A. A., New York.

The most startling feature of the afternoon was the excellent exhibition of the Freshmen. Forty men started the three-mile course. The first eight men to cross the finish line made faster time than the best Freshman last year.

Richardson, formerly of Lee Academy smashed the record of the course by four seconds. The record was held by Artie Hillman captain of Maine's last year's squad. Richardson's time was 15.41 4-5, (15 minutes, 41 4-5 seconds). Stover, next to finish, trailed Richardson by 220 yards and the next five men finished in the following order: Sullivan, Monk, Ramsdell, Lindsey and Caler.

The Freshmen have their first meet with Edward Little High at Orono on Oct. 23. The following is the schedule:

Oct. 23—Edward Little at Orono.

Oct. 29—Lee Academy at Lee.

Nov. 5—Brewer High at Orono.

Nov. 15—N. E. I. C. C. A. at Boston.

Coach Kanaly is very well pleased with the showing of his men and when interviewed stated: "I know my team will be in keeping with the teams of the past."

BROADCASTING PROGRAM

1926-1927

The University of Maine hopes to broadcast lecture programs twice a week during the coming year. It is hoped that the first program will be on the air October 6. Last year W G B X broadcasted lectures in Agriculture, Home Economics, Economics, Literature, Travel and other miscellaneous lectures. The station will attempt this year to follow the same plan. The following is in general the program for Wednesday evenings for this year:

7:30—A fifteen-minute address on some phase of Agriculture or Home Economics.

7:45—Music furnished by some student organization or individuals.

7:50—A fifteen-minute address on Finance, Business, or other economic subjects.

8:10—Music.

8:15—A fifteen-minute address on History, Literature, Travel or some other general topic.

8:30—Music.

8:35—A fifteen-minute address by some member of the College of Technology covering this special phase of work.

More detail programs will be published in the daily papers each week. Several of the papers in the State have asked that W G B X cooperate with them in getting programs to them ahead of time and some of the papers have asked that certain of the lectures be allowed to be published in their column.

BOWDOIN TICKETS

Alumni wishing to secure reserved seat tickets for the Bowdoin-Maine game, November 6th, in the Maine section, will be given every possible attention if they order early through the Alumni Office.

Maine alumni must appreciate however, that the game this year is at Brunswick. We can only distribute tickets allotted to us.

Tickets are \$2.00. Enclose 17 cents with your order to cover registry. Mail your order early to Robert P. Clark, Alumni Secretary, Orono, Maine.

UNIVERSITY OF MAINE MEMORIAL FUND

The Memorial Fund and the construction of the Memorial Gymnasium-Armory continue to be the big things in Alumni activities at Maine. They will remain so until the fund is collected and construction finished.

A collection committee is attempting to speed up collections. Two letters have just gone out to subscribers:

1. To those behind on payments urging cooperation.
2. To those whose payments are up to date offering a discount on advance payments.

After these letters have been allowed due time to function, a personal follow-up campaign is scheduled. Plans for this are now being perfected. It will be launched in Maine in November and elsewhere after New Years.

Maine men have indeed started something. They must finish the job. We cannot leave a memorial one half constructed as our monument to posterity. Nor is there undue danger of it. However the workers must work a little longer and those who, so far, have looked on, must lend a hand.

See that Your Pledge is "Paid in Full."

FALL ATHLETIC SCHEDULE

'Varsity Football Schedule

1926-27

Sept. 25	Fort Williams, Orono
Oct. 2	Rhode Island, Kingston
Oct. 9	Middlebury, Middlebury
Oct. 16	Connecticut Aggies, Orono
Oct. 23	Bates, Orono
Oct. 30	Colby, Orono

SERENITY

*What is it
worth?*

IF you have known serenity of the mind, even once for a short time only, you will know that it is priceless.

But there are those who can sell you for a small part of your income one of the most direct steps to this serenity—they can sell you security, material security for the future.

They are life insurance agents.

They sell a priceless commodity at low cost. When a John Hancock Agent calls on you, remember this. It is worth while seeing him. Better still, it is worth your while to send for him and set your mind at rest on this score at once.

John Hancock
LIFE INSURANCE COMPANY
OF BOSTON, MASSACHUSETTS

A STRONG COMPANY, Over Sixty Years
in Business. Liberal as to Contract,
Safe and Secure in Every Way.

'26—Frances Willetts is teaching at Mattanawcook Academy, Lincoln.

Ex-'26—Arthur D. Patterson is teaching at Manchester, Mass.

“HELD ON THE 2-YARD LINE”

HERE'S no more heart-breaking experience than to see the team battle its way down the field—around end for a yard or two, off tackle for a few more—only to be stopped dead and held for downs with a touch-down and victory only two yards away.

Just one ounce of extra power would have won the game. But the team lacked just that—that little ounce of *extra* power.

Every business office has dozens of men competent to do their routine work well, who can become sub-executives or assistant managers.

But there are only one or two men who—either thru years of experience, or else by carefully directed, intelligent study—know the ins and outs of their business, know it in *all* its departments. These are the men with the vital *extra* power that carries them over the line into the higher positions, and into the firm when the openings come.

• • • • •

For years the Alexander Hamilton Institute has specialized in the single task of training men for the higher executive positions in business, of giving them that “ounce of extra power” that makes all the difference between mediocre success and the really big things of life. Into the Course have been built the experience and methods which have made many of today's business leaders pre-eminent.

Not for one moment do we claim that we have any magic formula for success. But we do make it possible for you to gain in a few months' study what it would take you years to gain thru experience.

The Course is not a substitute for hard work or common sense.

We don't take credit for the fine work done by our graduates any more than Yale and Princeton and Harvard take credit for the success of theirs. We simply give men the facts they need to gain the *extra* power. If they are big enough to use these facts, they succeed. If they aren't—they would have failed anyway.

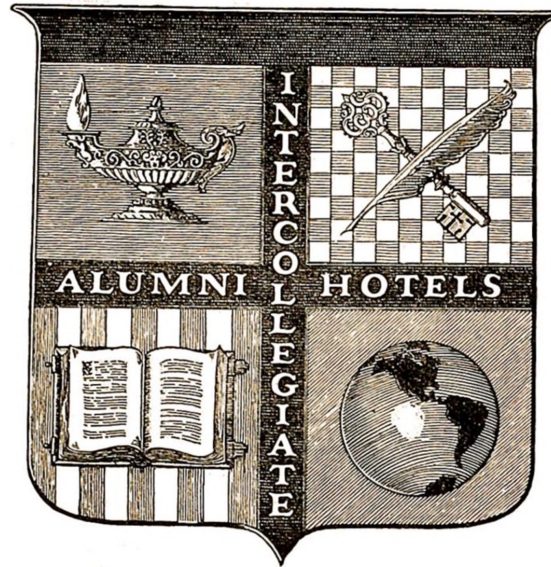

The Course and Service is arranged and conducted in accordance with University practice and ideals. Like the University, the Institute urges no man to accept its help; but, seeking the widest possible field of service, it offers information freely.

A booklet has been prepared that gives all the facts about the Institute. More than 100,000 college graduates, now in business and the professions, have read it. It answers questions that have doubtless been in your mind. It indicates definitely how this training can be useful to you in the work you are doing, or would like to do. If you would care to have a copy, write us.

MAIN FEATURES OF THE INTERCOLLEGIATE ALUMNI HOTEL MOVEMENT

Interested alumni can secure from a clerk at the desk of each Intercollegiate Alumni Hotel an information leaflet which describes in detail the Intercollegiate Alumni Hotel movement.

At each Intercollegiate Alumni Hotel there will be maintained a card index of the names of all the resident alumni of all the participating institutions. This will be of especial benefit to traveling alumni in locating classmates and friends.

The current issues of the alumni publications of all the participating institutions will be on file at each Intercollegiate Alumni Hotel.

Reservation cards will be available at the clerk's desk in each designated hotel and at the alumni office in each college or university. These reservation cards will serve as a great convenience to travelers in securing advance accommodations.

The managers of all Intercollegiate Alumni Hotels are prepared to cooperate with individual alumni to the fullest extent and are also prepared to assist in the creation of new local alumni associations and in the development and extension of the activities of those already formed.

The Intercollegiate Alumni Hotel movement is the result of a year's effort on the part of a Committee, the members of which have long been identified with alumni work.

The funds necessary to insure the success of the Intercollegiate Alumni Hotel movement are being advanced by the designated hotels, all of which have been selected after a careful study of their fitness for participation.

The committee on organization, the activities of which are controlled by a special group of the members of the Alumni Magazines Associated, has incorporated a non-profit corporation known as the Intercollegiate Alumni Extension Service, Inc., which will direct the policies of the Intercollegiate Alumni Hotel movement and serve as a coordinating unit between the alumni organizations and the designated hotels.

DAD

THESE are wonderful days for Dads. They have bought homes; they have bought cars; they have money saved; they have time to spend with their sons.

Who has given them this success? They themselves. Here are the figures:

In 1849 the average American factory workman produced each year \$1,000 of new products; today the average American workman produces \$7,000.

The workman of 1869 had only about one primary horsepower at his command; the workman of today has more than three horse-power working for him.

In other words, the average American workman now commands, through electricity, many times his own power. He supplies the skill; motors supply the muscle.

Every advance in electrical development, every decrease in the cost of electricity, means less burden on his shoulders, more pay, and more production from his effort.

The tired worker, worn out by his labors, is ceasing to be. In his place is a new man, commanding power, providing more easily for the needs of his family, and having time for the duty and joy of being a pal to his son.

To make available tremendous power at the touch of a switch, to help lighten thousands of human tasks, and to increase production — these are the services of electricity. General Electric Company makes apparatus by which electricity performs its useful work and stamps it with the monogram shown above.

GENERAL ELECTRIC
