COMMENT ON PERSONALS AND THE DIX PLAN

My dear Clark:

Just a line to express appreciation for the very interesting Alumnus regularly received.

In reply to your page 50 Dec. issue question with reference to "Personals", I feel safe in assuring you that only to the extent that you emphasize this feature will you hold the interest of the general alumni in the Magazine.

Hope to learn soon of progress on the new idea regarding classes in college at the same time, having their reunions at the same commencement. I believe this will furnish a very powerful incentive to increase the attendance. I personally would make an especial effort with such an inducement.

With kindest regards,

I am

Very truly yours,

J. W. M. '95

**Shall the Names of Subscribers to
the Memorial Fund Who Don't
Pay Be Published in The Alumnus?**

January 16th, 1928

Mr. Robert Clark
Secretary, Alumni Association
University of Maine
Orono, Maine

Dear Bob:

It is my understanding that because all of the pledges have not been paid, our Alumni Association has only finished one-half of the job it started in building a war memorial to the soldiers who gave their lives in France.

It seems to me time to take drastic action to secure the money thus pledged in order to finish what was started. The organization's reputation must not be injured. The men, in memory of whom this building was started, did not stop half way through their job. Certainly the association should not stop working until the job we have started is finished.

Therefore, I recommend for your consideration the business of publishing in the Alumnus the names of people who have not kept their faith with the other members of the Association who pledged and paid and also with the men who gave

up their lives. Before publishing these names I would recommend that the various persons concerned be notified and given ample time to correct their error of omission. If it was fair to publish the names and amounts of people who pledged, then it is only fair to those who have paid that some acknowledgment of their having fulfilled their pledge be shown and this could be accomplished by publishing the names of those who have not paid.

I am sending a copy of this letter to the president of the Alumni Association and hope you hear from him on the question. Procrastination is a thief of time. Let's finish the other half.

Very truly yours,

G. H. ("Dutch") Bernheisel

THE COLLECTION COMMITTEE GETS BOTH MONEY AND APPROVAL

Jan. 4, 1928

General Alumni Association
University of Maine
Orono, Maine
Gentlemen:

You are the most persistent cusses I ever knew.

Please find enclosed my check in the amount of ten dollars, payment of dues for the coming year. I have intended to send this check but have overlooked it and am glad that you are as persistent as you are. If I ever start a collection agency, you boys are sure of a job.

Wishing you a Happy New Year, and hoping that you are impartial in your demands and that you get ten dollars out of every mother's son of an alumnus for the coming year, I am

Yours very truly,

H. F. L.

SOMETHING NEW IN TURKISH

DID YOU KNOW THAT:

Turkey sports 'buses as large as those running between Portland and Boston?

Latticed windows are still in vogue in Constantinople, allowing women to see out, but not be seen?

"Lucky Day" and "Blue Skies" have just arrived with jazzing force into Turkey's dancing centers?

Jazz singing North Carolina darkies

can be found in Turkey?

Smyrna has an inter-scholastic athletic committee which can discuss as long as any in America on one point and not reach a decision?

The play "Twelfth Night" can be given with a real professional touch even in Turkey?

We give a boy and girl school party with a great possibility of arousing conservative criticism?

Even as in America, you can't get away from that same old problem—what are we going to do about these short-skirted, cinema crazy, giggling, dancing, Turkish girls?

Even in Turkey mothers are lamenting their children's lack of reverence and religious training?

In this same Turkey can be found a young girl with only one girl friend whom she calls on with her mother and that she will not be allowed to meet anyone except her teachers until after she is married?

Stranger yet, this same girl is apparently very happy?

Ruth Hitchings, '27
A.C.I., Smyrna

ANNUAL BANQUET BOSTON ALUMNI

The Annual Banquet of the Boston Alumni Association will be held on Thursday evening, March 1st, at 6.30 P.M. Hotel Westminster, Copley Square, Boston.

All Maine men and women are invited with their wives, husbands, sweethearts or "boy friends."

Percy's singing orchestra will play during one of the Hotel Westminsters famous dinners. "Pep" Towner will act as toastmaster. President Boardman of the university will be a guest and the committee has secured for a speaker, James C. Higgins, Vice-president, Wall Keller-McKee Co.

Dancing in the Winter Garden of the Westminster will follow the dinner.

Price \$2.75 a plate, including dancing. Write or phone for a reservation to the Chairman of the committee, Horace C. Crandall, 517 Fellsway East, Malden, Mass. Malden 1679W.

PRESIDENT BOARDMAN TO MAKE STATE SURVEY

President Boardman has been authorized by the trustees of this University to carry out an economic educational survey of the state, in co-operation with the Maine Development Commission, to try to determine the exact status of the University of Maine in relation to higher education. He is to be allowed the use of the income of the Coe fund for this purpose. The survey will take two years. President Boardman gave the following information for publication:

"Since becoming president, I have advocated an economic educational survey of the state to determine, if possible, the exact status of the University. This survey would answer two questions, What is the probable call for higher education in this state for the next decade? and, How can such a call be met?

"The Maine Development Commission was brought into being by an act of the legislature at the last session and has on it some prominent business men of the state. They are undertaking an industrial survey of the state, and at a recent meeting they passed the following resolution, which they sent to me.

"Resolved, at the meeting of the Maine Development Commission, at the Fal-mouth Hotel, Portland, Dec. 8, 1927, that the University of Maine be invited to undertake in co-operation with the Commission an economic educational survey as to the probable call for higher education in the state of Maine in the next ten years and how that call could best be met."

"I presented the matter to the trustees at their meeting of Jan. 5th, who authorized me to go ahead with the survey and employ such outside expert assistance as needed and to use for that purpose the income of the Coe fund. Other Maine colleges will be asked to be members of an advisory board, the personnel of which has not been determined. The survey will take two years.

"It is hoped that when completed, we will have a much more definite knowledge of where Maine stands in relation to higher education. It is also felt that this survey will have a large influence in creating a demand from the people of the state to give it adequate support."

NEW COURSE FOR TECHNOLOGY SENIORS

An elective course entitled Applied Engineering, open only to seniors in the College of Technology is being given the spring semester 1928. The course is given Thursday afternoons, and carries one hour credit. It consists of a course of address-

es and lectures by outside experts in various lines of engineering and industry. The list of speakers and dates follows:

- Feb. 9 Harry U. Fuller, Portland Water District, Portland, Me.
- Feb. 16 Doctor G. Esselen, Skinner, Sherman & Esselen, Boston, Mass.
- Feb. 23 Edward M. Graham, Bangor Hydro-Electric Company, Bangor, Me.
- Mar. 1 Llewellyn N. Edwards, Maine State Highway Commission, Augusta, Me.
- Mar. 8 H. F. Brann, Westinghouse Electric and Manufacturing Co., Boston, Mass.
- Mar. 15 F. L. Keene, General Electric Company, West Lynn, Mass.
- Apr. 5 Walter S. Wyman, Central Maine Power Company, Augusta, Me.
- Apr. 12 A. F. Dixon, Bell Telephone Laboratories, New York City
- Apr. 19 Doctor S. A. Moss, General Electric Company, West Lynn, Mass.
- Apr. 26 Paul Hanneman, Hartford Steam Boiler Inspection and Insurance Company, Bangor, Maine
- May 3 A. B. Larchar, Penobscot Chemical Fibre Company, Great Works, Maine
- May 10 C. G. McDavitt, New England Telephone and Telegraph Company, Boston, Mass.
- May 17 F. E. Frothingham, Boston, Mass.

WOMEN'S ALUMNAE DAY

The Women's Alumnae Day, which was inaugurated so successfully last year, is to be repeated this year on the 25th of February.

Sponsored by the Women's Athletic Council, for the purpose of establishing closer contact between the co-eds and the graduated co-eds, the idea is one which promises to increase in interest and value year by year.

The day is to be featured this year by a tea on Saturday afternoon, given by the Pan Hellenic Council, and a basketball game in the evening, between the girls' varsity team and an alumnae team. Former stars have been specially invited to come back and play for the alumnae: it is hoped that "K" Hunt, "Daph" Winslow, and Alma Perkins will be the nucleus of a strong alumnae aggregation.

Almost every girl wants to get back to the campus at least once a year, and this is the time to come, for on Alumnae Day, February 25, everybody else will be coming back, too.

LARGE AGRICULTURE ENDOWMENT IN CALIFORNIA

The University of California has just received a gift of \$1,500,000. for the establishment of a foundation to foster and develop to the highest degree the agricultural interests of that state. The donor is A. P. Giannini, a banker who was once a farmer-immigrant from Italy. It represents the first large endowment agriculture has ever received in the United States. E. D. Merrill, a Maine graduate in the class of 1898 is dean of agriculture at the U. of C.

THREE NEW INTERCOLLEGIATE ALUMNI HOTELS

Three new Intercollegiate Alumni Hotels have been added to the chain which is now rapidly including most of the important cities in the country. The new hotels are the Nicollet in Minneapolis, the Allerton in Chicago and the Allerton in Cleveland.

These hotels are located in cities in which there is always a considerable amount of alumni activity. Alumni who travel will be cordially received by these alumni hotels and will find that the special features provided by them and by all other Intercollegiate Alumni Hotels, can be used to great advantage.

MAINE ALUMNI AT METERMEN'S SCHOOL

In attendance at the course for Metermen recently held at the University of Maine, there were present the following alumni of the University:

- H. W. Coffin, '16, Bangor Hydro Electric Co., Bangor, Maine.
- R. T. Pierce, '15, Westinghouse Electric & Manufacturing Co., Newark, N. J.
- J. R. Ham, '24, Livermore Falls Light & Power Co., Livermore Falls, Me.
- W. C. Harper, ex-'16, Bangor Hydro-Electric Co., Bangor, Maine.
- A. W. Junkins, ex-'22, Bangor Hydro Electric Co., Bangor, Maine.
- A. H. Whitmore, ex-'24, Bangor Hydro Electric Co., Ellsworth, Maine.

STUDY BEING MADE OF ACOUSTIC PROPERTIES OF INDOOR FIELD

Two Maine Nights have been held in the Indoor Field. Acoustic properties there proved to be very poor but until the new gymnasium can be built there is no other building on the campus large enough to hold the crowd. The College of Technology is making a study of conditions with the view of improvement if possible.

OPINIONS—YOURS AND THE OTHER FELLOWS

The columns of the *Alumnus* are always open to alumni who wish to air their opinions and beliefs. There are some letters in this issue which will probably raise a hornets' nest of discussion both pro and con. We welcome it. Send in your opinions whether or not they are for publication. The officers of the association are always seeking the majority opinion.

Bernheisel's letter on delinquent subscribers to the Memorial Fund appeals to us very strongly. It shows not only the natural reaction of the man who pledged and paid to those who pledged and have not. Maine alumni collectively and individually made a promise. Team work could fulfill it but too many have not pulled their share of the load.

What is to be done about it?

EMPLOYMENT

Theatre Managers Training School

The Publix Theatres Corporation conducts a training school for theatres managers. Information concerning qualifications may be had by writing the alumni secretary.

Chain Store Executives

The alumni office has had an inquiry for college graduates 25 to 30 years old who might be interested in learning to be executives in the chain store field. Single men are preferred. Further information may be had by all interested.

ENGINEER WANTS WORK IN EAST

Experienced civil now in Pittsburg, Pa. wishes position as construction engineer, office engineer, superintendent of construction or field engineer. Previous experience and best of references. Complete information will be sent by the alumni office to any one who may be interested in hiring this man, who is 38 years old.

WHO WILL ANSWER THIS ONE?

So. Portland, Maine
Jan. 5, 1928

Finance Committee,
General Alumni Association
University of Maine
Gentlemen:

I have received and given due attention to each of your appeals, but regret that I am financially unable to respond.

At the same time I wonder why I should respond. What has the University done for me, except that which I have paid and worked for. A student of four years may leave the University, and they care not what becomes of him.

What do they do in the way of any Vocational Guidance? Nothing. So I'm just another of the Unemployed Army.

Respectfully,

F. R. L.

P.S. I hope this gets beyond the office assistant.

ALUMNI MEMBERSHIP GOAL SURPASSED

The membership drive conducted by the finance committee of the General Alumni Association has ended and it has been decidedly successful. As a result of the intense drive launched after careful preparation in September the alumni association has at this time more active, paid up members than it ever had before even at the end of the fiscal year, June 30th.

A goal of 1400 regular (\$3.00) members and 175 sustaining (\$10.00) members was set at the outset. On January 31st, 1578 regular and 174 sustaining membership dues had been received. The officers of the association and the committee feel

that this total of 1752 is quite creditable and an indication of real loyalty and interest in the University of Maine by its alumni.

Statistics on membership are interesting. This year not a day passed when some alumnus did not pay dues until February first. The biggest day was September 26th when 75 dues checks were received. This was six days after the mailing of the first appeals for dues.

A series of circular letters was used in the drive. Alumni were divided into groups as follows:

Group I—Those who paid \$10.00 dues last year.

Group II—Those who had paid \$10.00 some years but not last.

Group III—Those who paid \$3.00 last year.

Group IV—Those who had paid \$3.00 some years but not last.

Group V—The classes of 1926 and 1927 in a class loyalty contest.

Group VI—Alumni who had never paid alumni dues.

From Group VI 141 new members were secured. Four of these paid \$10.00 dues. Some of these alumni had been out of college for years.

The class loyalty contest was a real success. It is described in another article. 1927 won handily with 141 of its members joining up. This speaks well for the alumni office as these young graduates have been in touch with its work for four years.

Many more dues will be paid before commencement.

The finance committee, composed of A. L. Deering, '12, chairman, A. K. Gardner, '10, and C. E. Crossland, '17 planned an intense drive for dues, they set a high goal based on the budget of the association for the year. They carried their plans through to a most successful conclusion.

1928 BASEBALL SCHEDULE

Apr. 19	Colby	Waterville
Apr. 21	Bates	Orono
Apr. 24	Mass. Aggie	Amherst
Apr. 25	Brown	Providence
Apr. 26	Harvard	Cambridge
Apr. 28	Bowdoin	Brunswick
May 2	Colby	Waterville
May 5	Bates	Lewiston
May 11	Bowdoin	Brunswick
May 16	Bowdoin	Orono
May 17	Conn. Aggie	Orono
May 19	New Hampshire	Orono
May 23	Bowdoin	Orono
May 26	Colby	Orono
May 29	Bates	Orono
June 2	Bowdoin	Orono

VARSITY BASKETBALL

The basketball season opened with only one letter-man, Captain Branscom, available. Most of the promising candidates were men from last year's Freshman team with the exception of Fitzhugh, a senior who became eligible for this season.

Mass. Aggies

The first game, on a trip, was played on Jan. 20, against Mass. Aggies in Amherst. The team took the floor with Stone and Branscom forwards, Sylvester center, and Fitzhugh and Abbott guards. Maine started in a burst, obtaining quite a lead, but could not hold it, the score at half time being 15-11. The second half was close all the way with Maine pulling up near the end to lose by only a 24-20 score. For the first game on a difficult foreign floor the team played well.

Newport Naval Training Station

On January 21, Maine visited the Naval Station at Newport, R. I. to play their strong team. Maine started slowly while the very fast attack of the sailors gave them a 28-13 lead at the half. In the second half Maine came to life and, although outplaying Newport near the end, lost by a 45-28 score. McKimm scored twenty-two points for the sailors while Branscom with fifteen points, was Maine high scorer.

New Hampshire

Our old rival New Hampshire came to Orono on Jan. 28th for the annual basketball game. Since neither team had an impressive record a good game was expected and the expected happened.

The lineup for this game was Stone and Daley forwards, Branscom center, Abbott and Fitzhugh guards. The game started in fast and close to continue that way until the end. The score at half time was Maine 12, New Hampshire 16. In the second half, due to many fouls being called, both teams were forced to use substitutes. At the end of regular playing time the score was tied 23-23. In the five minute overtime period, Gaunt of New Hampshire, shot two pretty field goals giving New Hampshire the game at 27-24. This game was close and exciting all the way with Maine showing much improvement.

Connecticut

Following three defeats in as many starts Maine was given little chance to win from the strong Connecticut Aggie team which had a splendid record. Much to the surprise and delight of Maine sup-

porters the varsity uncovered a new offense that had real scoring power and using speed, passing and team work of a very good brand won the game 31 to 24.

ALUMNI PLAY BASKETBALL WITH VARSITY

An interesting event on the Winter Carnival Program was a basketball game between alumni and varsity teams. Prof. Kent assembled the alumni from all over the state and they gave the varsity a good game.

The "Campus" reported the game as follows:

"Saturday afternoon witnessed the return to basketball circles at the University of Maine, of several stars of past Pale Blue teams when the varsity basketball team conquered a team representing the Alumni 37-28. The game itself was interesting to watch and was replete with surprises. The Alumni started off strong but condition soon told and the varsity seizing the advantage forged ahead never to be headed. Team work was prevalent among the older team that is rarely seen among teams got together with so little preparation. The Alumni presented a strong team that was a shade of past great teams at the University."

The summary:

VARSITY (37)	(28) ALUMNI
Sylvester, rf 1 (1).....lb, Hanscom	
Stone, rf 2.....3, lb, Everett	
Bailey, rf	
Kent, lf.....1, rb, Berg	
Daly, lf, 1

Branscom, c 4.....2 (5), c, Lake	
Gray, c 1	
Gillespie, rb.....1 (1), lf, Kamenkovitz	
Abbott, lb 2 (4).....4, rf, Epstein	
	rf, Carter

THE CLASS LOYALTY CONTEST WON BY 1927

The class of 1927, the youngsters of the alumni association have already proved themselves real Maine alumni both as a class and as individuals. 1927 has won the class loyalty contest from 1926. The numerals of this class will be engraved on the silver shield and stand as a goal for future graduating classes to strive to surpass.

142 members of the class of 1927 paid dues up to January 1st when the contest closed. 76 members of 1926 did their best to support "Ginger" Frazier's challenge but their rivals of college days were never headed.

FRESHMAN BASKETBALL

The cycle of good basketball has returned to the University of Maine with the class of 1931. This class contains a wealth of material with such men as Capt. "Al" Emerson, a shifty floor man, and Paul Hickson, equally as shifty, and holder of the high scoring honors to date. Jarrett at left forward, Howe at center, and Bretton at left back go to make up a classy and powerful combination.

This team has played six games now against the hardest opposition available in this vicinity, and have lost but two. These two were lost to Maine Central Institute by a score of 32-31, and to New Hampshire Freshmen by 28-26. They have beaten Millinocket High, Hebron Academy, Eastern Maine Central Institute, and Bar Harbor High, last year's tournament champions.

The material on the squad gives a bright outlook for the future, because it will go far towards strengthening next year's varsity, and thus bringing basketball back into its own at the University of Maine.

RELAY TEAM WINS AND LOSES

During the recent holidays the varsity relay team won a race and dropped one. At the K. of C. games held in Boston the 28th of January Maine beat Northeastern by a sizable margin in one of the best races of the evening although Maine was never headed by the runners of Northeastern.

Berenson was lead-off man for Maine. Niles ran in second position and was followed by Porter running third. Captain Thompson ran anchor and turned in a strong performance.

The next week end the team again journeyed to Boston, this time to run in the B.A.A. meet against New Hampshire State. Berenson grabbed the pole at the beginning and held it until the last lap when the New Hampshire man tried to pass him and succeeded. In passing the baton to Niles a twisted mass found the baton on the ground. By the time it was recovered and Niles had finished his running New Hampshire was leading by about thirty yards. Porter running third and Lee Wescott running fourth could not make up the loss of yardage and consequently Maine lost by about sixty-five yards. The Boston papers speak of it as being one of the best races of the evening. New Hampshire's time was equal to that of Harvard, and faster than that of either Bates, Bowdoin, or Colby, all of whom lost their races except Bates who won both a quarter and a half mile relay.

UNIVERSITY OF MAINE SUMMER SESSION

Plans for the 1928 summer session of the University are virtually completed, according to Director H. M. Ellis, and copies of the new Summer Session Bulletin will be available for distribution about the first of March. Inquiries regarding the session and the courses offered are coming in daily, and it seems probable that last year's banner registration of 335 will be exceeded.

Lists of the courses available have been posted for some time on the University bulletin boards, indicating a total of 102 courses offered in sixteen departments: Art History, Biology, Chemistry, and Pulp and Paper Making, Economics, Education, English, French, History, Home Economics, Latin, Mathematics, Physical Education, Physics, Psychology, Public Speaking, and Spanish and Italian. Graduate courses leading to the M.A. degree may be elected in thirteen of these departments, including several each in Economics, Education, English, and History. The increase in the number of graduate students has been one of the features of recent sessions.

Visiting teachers listed in the summer session faculty include Professor A. H. Wilgus of the University of South Carolina, who will give courses in History and Government; Mr. A. H. Imlah, formerly of the Maine history department, in the same subjects; Professor M. W. Avery of Williams College, in Latin; H. W. Flack, Physical Director of Sapula, Oklahoma, public schools, in Physical Education and Athletic Coaching; Principal C. W. Holmes of the Morgan Junior High School, Holyoke, Massachusetts, in Junior High School Administration; Mr. Kenneth A. Agee of Harvard, in Education; Miss Edith E. Stoker, Supervisor of Instruction and School Psychologist at Paducah, Kentucky, in Elementary Education; Miss Lillian H. Gates of the Farmington Normal School, and Miss Grace L. Pennock of the Iowa State College, and Miss Florence L. Jenkins, Maine State Supervisor of Home Economics, in Home Economics; Miss Lucille Foster, a graduate of Colby, now a student at the Sorbonne, Paris, in French.

As in the 1927 session, members of the State Department of Education will co-operate with the University department in conducting the Comprehensive Unit Course in School Administration. Messrs. Josiah Taylor and Bertram E. Packard will conduct the unit courses in the High School and Administrative Problems, respectively, in conjunction with Professor Lutes. Mr. William B. Jack, Superintendent of Schools in Portland, will

conduct the unit in Elementary Education. The teachers' courses in History and English will be given respectively by Miss Miretta L. Bickford, head of the Department of History in the Weaver High School, Hartford, Connecticut, and Miss Carrie B. Sterrett, State Supervisor of High-school English for the State of Texas.

The usual week-end trips to Bar Harbor, Moosehead Lake, Castine, and other points of interest will be taken, with the addition of a steamboat excursion down Penobscot Bay on July 4. With the week-end dances, lectures, and other entertainments, the social interests of the students will be adequately cared for from the progressive dinner at the beginning to the mock commencement at the close.

Among outstanding courses of general interest are Mr. Agee's *Teaching of the Backward Child and Psychology of Childhood*, Professor Huddilston's *Masterpieces of Art*; *Theories of Evolution*, by Professor K. S. Rice, the *Economics of Political Parties in the United States*, by Professor Ashworth; *School Hygiene*, by Miss Alma Johnson, the *New England Renaissance and Recent American Poetry*, by Mrs. Percie Turner; *Speech Defects*, by Mr. Rahe; and *Dante and His Times*, by Professor Peterson. Especially strong and varied course combinations are available this year in History, Education, Home Economics, Physical Education, and Pulp and Paper Technology.

The session itself, beginning on July 2 and ending on August 10, will be in charge of Assistant Director Irving T. Richards, in the absence of Director Ellis, who will be on leave, teaching in the summer quarter of the University of Chicago.

ANNUAL FARMERS' WEEK WILL BE HELD IN MARCH

The twenty-second annual Farmers' Week is to be held at the college of agriculture March 27-30 according to the announcement of Dr. Leon S. Merrill, dean of the college. The event this year and in the future is to be known also as Home-Makers' Week because of the increasing attendance at the home economics meetings.

Professor Lamert S. Corbett, head of the department of animal husbandry has been appointed in charge of arrangements for the week while Professor Pearl S. Green, head of the home economics department, is to be responsible for the women's program. The heads of the various departments of the college are co-operating by arranging the program of lectures pertaining to subjects taught by the department.

Until about ten years ago farmers'

week was held while college was in session but of late years it has been necessary to schedule it during the college spring vacation in order to have sufficient dormitory and class rooms available to accommodate the increased attendance.

Lectures, demonstrations, discussions, business meetings, and social features will be included to make the program interesting and attractive. Many speakers of prominence both within and outside of the state are being invited to give lectures.

CARNIVAL BALL

The seventh annual Winter Carnival Ball was held Friday evening, February 4, and proved to be about the most successful that has ever been held. This ball is the biggest social event here during the winter season and a large attendance was a proof of its popularity.

The gymnasium was very well decorated so that the bare appearance of the place was covered up. Colored lights were strung along under the balcony and a sort of ceiling was arranged from which festoons of white crepe paper moss hung down giving a very pretty effect. The customary booths for the different fraternities were arranged around the hall and each booth had the fraternity's shield or banner for a decorative effect.

A ten piece orchestra made up of the U. of M. Troubadours and Tom Kane's Band played. Professor and Mrs. Polard and Dean and Mrs. Clark were the patrons and patronesses.

The Winter Carnival and the Carnival Ball are sponsored by the Intra-Mural Association.

DUAL MEET WITH BATES MARCH 3rd

The University of Maine track team will meet Bates College in a dual indoor meet at Lewiston March 3. After a considerable delay the date was finally accepted by Bates. This is the second meet of its kind, Bates meeting Maine here last year and losing 65 1-3 to 51 1-3.

Coach Kanaly has at present little more than a tentative lineup that will hinge on the results of the Intra-Murals to be held in the Indoor Field the afternoon of February 25th.

PHILADELPHIA ALUMNI

Maine alumni in Philadelphia are meeting at the Engineers Club on Saturday evening, March 3rd. President Boardman will be a guest. For reservations get in touch with W. A. Fogler, secretary. His address is 2301 Market St.

Ex-'23—Lyman G. Bryant is a clothier with Besse System Company of Worcester, Mass.

The FACULTY Problem

THE most important angle of this problem is pay. If the college teacher must make less money than his equal in business, how is he to provide adequately for his years of retirement? And for his family in case of death or disability?

The Massachusetts Institute of Technology has recently taken an interesting step in regard to these questions.

In addition to the retirement features, the Tech plan provides for a death and disability benefit. It is a special application of Group Insurance as written by the John Hancock.

Alumni, Faculties, Secretaries, Deans, Trustees—all those who have felt the pressure of the faculty problem—will be interested to know more about this.

We shall be glad to furnish any information desired without any obligation. Write to Inquiry Bureau,

John Hancock

Save Your Eyes

Dr. C. W. Trail says:—"When I am not using the Farrington, my wife is using it; when my wife is not using it, our 8-year old daughter is using it. Every home should have at least one."

Insures
Correct
Posture

At last—a Long Felt Human Want is Filled by this great necessity—Dr. Farrington's portable

Reading Table for the Lap

Conserves the Life of Your Eyes
Here is the helper you have always needed. It saves your eyes—conserves your energy—insures correct posture—prevents eyestrain—permits concentration with real relaxation and absolute comfort. The FARRINGTON supports books, magazines, reading matter, typewriter, writing materials, etc., at just the right angle to insure correct vision, regardless of position. It will help everyone who reads, writes, draws, etc.

IDEAL FOR CHILDREN

Don't let your child hump! It's dangerous! Eyestrain, distorted organs, curved spine and retardation of normal development results. The Farrington compels correct posture.

Students Delight In Its Use

Prof. E. L. Eaton, University of Wis., says: "It is a joy to read a book of any size, resting easily in a rocking chair. Thousands will now have a new joy reading while resting."

With the Farrington every one can increase their capacity for mental effort.

Sit right—read right—feel right

Think what this means! Comfort, enjoyment, greater mental and physical energies. Greater facility for the mechanics of reading and writing. **Genuine relaxation.** The Farrington allows you to assume a comfortable position when reading, writing, etc.

Indispensable to Invalids

Used with detachable metal legs for Reading in Bed by sick, invalid or crippled patient in home, hospital or sanitarium. Used on beach or in the camp for eating, cards, etc.

Ideal Gift Usable in so many ways, it will give many years of joyful service. Beautifully finished. Light weight (less than 48 ozs.) sturdily constructed, portable, folds to 1 inch. Size 12x18 inches. A handsome piece of furniture adjustable to any position.

Styles and Prepaid Prices

1. Natural Finish.....\$6.50
2. Walnut Finish.....7.50
3. Mahogany Finish.....7.50
5. Genuine Walnut.....9.50
6. Genuine Mahogany.....9.50

Note:

Special detachable legs for reading, writing or eating in bed as shown above \$1.00 extra.

Order Now on 5 Days' Trial Just tell us the style "Farrington" will be shipped promptly. Your "Farrington" will be shipped promptly. If you're not delighted, we will refund your money. Just enclose your check or instruct us to ship C.O.D. **STATE STYLE DESIRED.**

“Get the message through”

*An Advertisement of the
American Telephone and Telegraph Company*

IN THE Sixties the “pony express” carried the mail over mountains and Indian wildernesses from St. Joseph, Missouri, to San Francisco. The express riders and station keepers won undying fame for getting the message through, regardless of hardship or danger.

Today, in the city of Denver there is rising on the site of one of the old pony express corrals another splendid structure dedicated to the service of modern message-bearing—the new headquarters building of one of the companies of the Bell System. In fact and in spirit, the

Bell System is the lineal descendant of the pony express.

It is this spirit of responsibility that causes operators to risk their lives by remaining at their switchboards in the face of fire, flood or other great danger. The same spirit calls linemen or repairmen to go out, even at the risk of their lives, to repair the lines in time of accident or storm.

There are no instructions requiring Bell System employees to endanger their lives. It is the spirit of communication that bids them, “Get the message through.”

These hotels are your hotels

Special features are provided for our Alumni

Our alumni are urged to use Intercollegiate Alumni Hotels when travelling, and when arranging for luncheons, banquets and get-togethers of various sorts.

You will find at each Intercollegiate Alumni Hotel an index of the resident Alumni of the participating colleges. Think what this means when you are in a strange city and wish to look up a classmate or friend.

You will find at these hotels a current copy of your Alumni publication.

You will also find a spirit of co-operation and a keen desire to see you comfortably housed and adequately provided for. Reservations may be made from one Intercollegiate Alumni Hotel to another as a convenience to you.

Intercollegiate Alumni Hotels are a new and vital force in assisting your Alumni Secretary. He urges you to support them whenever and wherever possible. He will be glad to supply you with an introduction card to the managers of all Intercollegiate Alumni Hotels, if you so request.

“Submarine sighted—*position 45*”

BATTLE PLANES leap into action—springing from a five-acre deck—sure of a landing place on their return, though a thousand miles from shore.

This marvel of national defense was accomplished—and duplicated—when the airplane carrier, U.S.S. Saratoga, and her sister ship, U. S. S. Lexington, were completely electrified.

In each, four General Electric turbine-generators deliver, com-

bined, 180,000 horse power to the propellers—enough to drive the ship at 39 miles an hour—enough to furnish light and power for a city of half a million people.

The General Electric Company has developed powerful marine equipment, as well as electric apparatus for every purpose of public advantage and personal service. Its products are identified by the initials G-E.

And in the familiar occupations of daily life, electricity is working wonders just as great—improving industrial production, lifting the burden of labor, speeding transportation, and multiplying the comforts of home.

GENERAL ELECTRIC
