Aquaculture in a Changing Climate: Priorities Identified So Far

Anne Langston Noll

Follow this and additional works at: https://digitalcommons.library.umaine.edu/ari_rd-ed

This Presentation is brought to you for free and open access by DigitalCommons@UMaine. It has been accepted for inclusion in Annual Maine Aquaculture R&D and Education Summits by an authorized administrator of DigitalCommons@UMaine. For more information, please contact um.library.technical.services@maine.edu.

AQUACULTURE IN A CHANGING CLIMATE

PRIORITIES IDENTIFIED SO FAR

- Accessibility to water quality data
- Climate change predictive models with a focus on aquaculture production
- Management of impacts of environmental change

**CAN YOU IDENTIFY
1 OR 2 RESEARCH QUESTIONS
TO TAKE FORWARD?
(WHETHER THESE OR DIFFERENT!)**
