Agriculture - Forestry - Home Economics

Training is also given on subjects of agricultural chemistry, agricultural economics, bacteriology, farm engineering, farm management and veterinary science.

Extension Work—Lecture and Correspondence Service.
Special Courses

The alumni of the University will be interested to know that more than three fourths of the agricultural graduates are farmers, farm managers, teachers of agriculture, research or extension agents or are manufacturers or salesmen of farm products, supplies or equipment.

Rogers Hall
The First of the New Agricultural College Buildings

by

Professor L. M. Dorsey, ’16

This building named after one of the University of Maine’s sons, Lore Alford Rogers, most distinguished in the field of dairying is designed to meet the needs of modern instruction in dairy manufactures, one of the most important phases of the agricultural industry of the United States. For many years dairy manufactures instructional work has been conducted in unsuitable quarters with inadequate machinery. Because equipment has not yet been provided for most of the laboratories in the new building it will be necessary to conduct certain classes in the old dairy building.

Rogers Hall, when finally equipped, will present suitable laboratory and equipment facilities for properly carrying on training in all of the major branches of the Dairy Industry, such as market milk processing, butter making, cheese making, and ice cream, condensed milk, and milk powder manufacture. Furthermore, facilities will be at hand for conducting investigational work along the lines of milk chemistry, physics, and bacteriology.

The building is located a little over 100 yards north of the old dairy building and is almost directly in back (east) of Winslow Hall. It is 45 x 100 feet, two stories in height with an unfinished basement. The first floor comprises separate laboratory rooms for milk testing, butter making, market milk processing, cheese making and ice cream making. Milk condensing and milk powder machinery, when eventually obtained will be installed in one of the above named laboratories.

A group of cold storage rooms adjacent to a refrigeration machinery room is located on this floor. The storage rooms consist of two low temperature rooms (0°F. or under) and one 35° room, all entered through a corridor anteroom in which a temperature of 35° will be maintained. These rooms while not necessarily large are, however, sufficient in capacity to meet the needs of the laboratories the products of which will be stored in them.

The milk testing laboratory has accommodations for 24 students. It is supplied with all the necessary equipment to carry on Babcock test work. The other laboratories at present are unequipped and work in dairy manufactures must be conducted in the old dairy building.

The second floor rooms are office and class rooms. There are three class rooms, two of 30 students and one of 60 students capacity. The offices comprise a suite of four rooms, which house the present members of the Animal Industry Department.

One room on this floor will be equipped with apparatus for investigational and control work in dairy chemistry, physics and bacteriology. Part of the equipment for this laboratory is already owned by the department but considerable apparatus is still needed before it can be utilized in advanced work to any extent.

(Continued on Page 28)
Dr. Lore Alford Rogers, 1896

Dr. L. A. Rogers Is Known As An International Authority on Dairy Bacteriology

For the second time in three years, the University has conferred an honor upon Dr. Lore Alford Rogers, class of 1896 of Washington, D. C. In 1925 his Alma Mater expressed her pleasure at his achievement by giving degree of doctor of science to this distinguished alumnus. Last Commencement the additional honor and a very unusual and highly complimentary one was paid Dr. Rogers when the new dairy manufactures building was named after him.

The committee from the College of Agriculture charged with the duty of recommending a name for the building suggested after a careful study that it should bear the name of "Rogers Hall" because Dr. Rogers was Maine's outstanding alumnus in the field of dairy research being known internationally because of his accomplishments.

For more than 25 years has Dr. Rogers been in the continuous service of the United States Department of Agriculture and now is in charge of the Research Laboratories of the Bureau of Dairy Industry. During his long tenure of office the research laboratory has grown from a one man organization to a force of 30 scientific and technical men engaged in research of all kinds of dairy problems. Dr. Rogers is best known for the results of his dairy bacteriological research. Among the most important of his studies is the deterioration of butter which resulted in the development of the sweet-cream method now very extensively adopted not only in the United States but also in other butter making countries.

Dr. Rogers is a member of many national societies and organizations. Several times he has been a United States delegate to the World's Dairy Congress being chairman of the program committee for that event held in Stockholm in 1911.

Third Annual Alumnae Day To Be Held November 3

For two years past the Women's Athletic Association of the University together with the women of the faculty have held an Alumnae Day for the purpose of bringing alumnae back to the University, a home-coming for the women. These were held each year in March.

This year November 3 has been designated as Alumnae Day. The change in date has been made because it is felt that many can return by auto whereas in March travel facilities are limited and prevent some from returning who would like to do so.

The program for this event is as follows:

- Friday, Nov. 2—Maine Night
- Sat., Nov. 3—10 A.M.—Varsity Hockey game.
- Posse—Nissen and Maine
  - 12 M.—Lunch at the Penobscot Country Club ($1.00)
  - 2 P.M.—Colby-Maine football game.

Those in charge of this event are making every effort to make this the best Alumnae Day yet held and are hoping that a large number of the women students will "come home."

(Continued from Page 27)

Rogers Hall

The Milk House

In conjunction with the construction of Rogers Hall there has been built a milk house connected with the dairy barns. This building 25 x 50 feet, will be used to handle the daily milk production of the University herd. The equipment consists of an automatically refrigerated storage room, milk cooler supplied with waste and refrigerated brine, flash pasteurizer, cream separator, and oil fired boiler. A milk pump is to be used in conducting the milk from a pouring tank, located in the corridor connecting the milk house with barn, to the milk cooler in the milk room.

A separate wash room is provided for can and bottle washing, while opening from this room is built in sterilizer. A small testing room is provided for herd and advanced registry testing purposes. A separate laundry and toilet room, boiler room, and an office make up the remainder of the rooms in this building.

When these two additions to the College of Agriculture's physical equipment are finally complete and in use they will be of material aid in carrying on instructional and demonstrational work and will fill a keenly felt need.
Faculty Changes

Seven professors, twelve instructors and four graduate fellows have been appointed for this year for the teaching faculty. Three advancements in rank were made and two were granted leaves of absence.

Following are the professorial appointments:

- Louis T. Ibbotson, B.A., Hamilton College, 1922; B.L.S., University of the State of New York, 1925. Librarian.
- Chester A. Jenkins, B.S., Dartmouth College, 1911. Professor of Physical Education.
- Major Edward J. Oliver, B.A., University of Wisconsin, 1908. Professor of Military Science and Tactics.
- Clifford S. Parker, A.B., Harvard College, 1912; A.M., 1914; Ph.D., Columbia University, 1925. Associate Professor of French.
- Werner T. Snyder, B.Sc. in Agriculture, Purdue University, 1915; M.Sc. in Agriculture, 1928. Assistant Professor of Agronomy.
- Capt. Loren P. Stewart, B.S., University of Maine, 1915. Professor of Military Science and Tactics.
- Prof. Maurice D. Jones '12 who has for the past two years been associate professor of agricultural economics and farm management has been advanced to full professorship.
- Prof. Kenneth S. Rice is now associate professor of biology. He was formerly assistant professor.
- Raymond E. Vermette has been appointed captain Infantry U. S. Army. He was last year a lieutenant. This does not change his faculty rank as professor of Military Science and Tactics.
- Leave of absence was granted to Miss Rena Campbell of the home economics department for the fall semester to study and write a thesis for a master's degree at Iowa State College.
- Also leave of absence was granted to B. C. Helmick of the Agronomy department to complete his work for a doctor's degree at Iowa State College.

Loyalty is shown in deeds rather than in words.

Introducing New Alumni Officers

Doubtless it was the fine record of activity and achievement which recommended the election of Lynwood B. Thompson '12 of Belfast as a member of the Alumni Council last June.

Following his graduation Thompson first devoted some time to forestry work in the South after which he returned to Belfast to become associated with his father in the manufacture of men's working clothes.

For a time he travelled in the interest of the company but for the past nine years has taken an active part in the management of the business.

He is recognized as one of the leaders in civic and fraternal affairs in his home city. He has been president of the Chamber of Commerce and the Rotary Club. He is a past officer of all the Masonic orders in Belfast and is now district deputy master of his section.

Not only has Thompson paid alumni dues every year and paid in full his generous subscription to the Memorial Fund but he was one of the leading solicitors in his section of the state. He is vice president of the Waldo County Alumni Association.

Maine Night

Friday Night, November 2 has been designated as Maine Night. At 7:30 hundreds of alumni, faculty, students and friends will assemble in the Indoor Field for the annual event which was started over a score of years ago.

President H. S. Boardman appointed nearly a veteran committee with the exception of students. Prof. Lamert S. Corbett, head of the department of Animal Industry and chairman of the Athletic Board is chairman of the committee. Alumni, faculty and students are equally represented. Sub-committees on speakers, seating arrangements, music and bonfire have been appointed and are busy in their effort to make the program highly successful.

Since the Student Memorial Fund Campaign will "wind up" Maine Night the committee has decided to have the completion of the Memorial Gymnasium Armory as one of the main subjects emphasized. Football and cross country will each come in for its share.

Special consideration is being given to the seating arrangements with the hope that a more satisfactory plan may be found. Consideration was given to holding it in Alumni Hall but this did not seem feasible because it would not accommodate the crowd.

Judging from the early applications for football tickets it is likely that there will be a considerable number of alumni back.

Rule Appointed Extension Service Editor

Glenn K. Rule, a graduate of Ohio State University, 1917 has been appointed Extension Editor, to fill the vacancy caused by the resignation of C. E. Crossland.

By experience and training Rule is unusually well qualified for the position. For nine years he was a county agent in Ohio and last year was granted six months leave to study news writing and agricultural journalism at Cornell University.
Students After $25,000 For The
Memorial Gymnasium Armory

Campaign Starts Oct. 29—
Ends Maine Night Nov. 2

On Monday morning October 29, the opening gun of what is hoped will be another history making event, is to be fired. Beginning with a special forty minute mass meeting, a campaign to raise a minimum of $25,000 for the Memorial Gymnasium Armory starts and will continue until Maine Night, Friday, November 2.

In the first issue of the Campus for this college year was a rather sharp, pointed editorial which read in part as follows: "Bolstering bulletins have been issued from time to time concerning the construction of the gymnasium but results have been nil. Interested students are wondering what the trouble is. How much longer must we read notices which try to explain the situation but do not? How many more winters will pass in which our track men must stumble thru deep snow from the dressing room in Alumni Hall to the Indoor Field for their daily work-out? We would like to know what can be done. Somebody must know!"

Resulting from this editorial and student replies the next week, a representative group of students met to discuss whether or not a campaign should be put on, and if so when and what the goal should be. The decision was unanimous that a campaign should be put on this fall so a student committee of three women and seven men was organized. The personnel of this important group is Misses Robinson, Ross and Waggett; Messrs. Parks, Berenson, Hall, Mahoney, Buzzell, Coltart and O'Connor. Bob Parks was elected chairman and George Mahoney, editor of the Campus, was chosen as publicity manager.

Forty or more "teams" have been organized and are ready to go after the special mass meeting at which Ray Fellows' 08 is to be the chief speaker.

This campaign differs from the first student campaign in that the amount subscribed is to be paid before the close of the college year, half the amount of the subscription is to be placed on each the fall and spring semester term bills. The student committee set its own goal. This is a challenge to alumni. The students led the way before. Now they are pointing the way again with the hope that construction on the Gymnasium section of the Memorial may be started within a year.

"Time" Tells About Stevens, '07
38,000 Foot Experience

Most alumni might have to take some time to recover from such an experience as is recorded in the following paragraph about Captain A. W. Stevens '07 but to him such episodes must now be all in a day's work. The quotation was taken from "Time," the issue dated October 8.

"Thirty-eight thousand feet above Dayton, Ohio, Capt. A. W. Stevens and Lieut. J. H. Doolittle were taking photographs. When their instruments indicated that they were flying toward the city at the rate of a mile a minute, they were in reality being carried away by a head wind of 115 miles an hour. Soon the thermometer registered 57 degrees below zero and instruments ceased to work at all. Finally the oxygen line to Capt. Stevens' breathing cap froze and his head nodded forward. When Lieut. Doolittle struck him a stinging blow in the face he recovered just long enough to see his assailant fall forward exhausted by the exertion this effort had cost him at such an altitude. Out of control, the plane dived thousands of feet into the oxygen-laden air below, where both made a timely recovery, landed the plane, delivered the photographs."

E. Everett Gibbs District Representative of Continental Can Company

E. Everett Gibbs, a native of Bridgton and graduate of Maine in 1896 was the subject of an interesting sketch with portrait in the July 28, 1928 issue of the Canner of Chicago, the national publication devoted to the packing of foods in tin and glass.

The Canner says: "The many friends of Mr E. Everett Gibbs, formerly president of the Southern Can Company of Baltimore which business is now owned and operated by the Continental Company Inc., will be glad to know that Mr Gibbs will continue his activities in the can business in Baltimore as district representative of the Continental Can Co Inc.

"Mr. Gibbs has been in the can business for so many years that he needs no introduction to the industry; he is a man of great ability, and one of the best liked. "The Continental Can Company, Inc in the last few months has purchased a considerable amount of property in the Baltimore territory, and Mr Gibbs will have supervision over the Continental properties in that district."

"Why not print the names of those who have been paying the sustaining membership dues of $10 each year and the number of years to their credit," writes one loyal alumnus.
Olympic Night Celebration On
The Campus

A new page was written in the history of the University when a banquet and reception was given in honor of Carl
Ring '25 and "Rip" Black '29, Maine's first Olympic Contestants, Tuesday even­
ing, October 16 in Alumni Hall.

It was not alone the holding of the event that is significant but also the fact that the coaches of all four Maine colleges
attended as guests. The event was put on by the Track Club, the attendance be­ing something over 200 faculty, alumni,
students and friends.

President H. S. Boardman presided first calling upon each of the visiting coaches with John J Magee of Bowdoin,
Michael J. Ryan of Colby and Ray
Thompson of Bates.

The formal speaking program consisted of talks by Dr. Donald B. Young, of the Biology Department, a former Olympic
contestant; Chester A. Jenkins, new
track coach, William McC. Sawyer of Bangor, alumni speaker, a trustee and member of the Athletic Board, Carl Ring
and Rip Black. Hon. Donald Snow of Bangor, Congress­man-elect, tho not on the program was called upon as the con­clud­ing speaker.

The event was a very pleasant and suc­cessful one except for the rather small attendance. Frank Kanaly, former Maine Track Coach could not attend.

Burke and Alexander Active
At Railway Convention

Clippings sent to the Alumni Office show that Jeff L. Alexander and W. H. “Hoddy” Burke both '06 took a prominent
part in the deliberations of the Forty Seventh Annual convention of the Ameri­can Electric Railway Association held in Cleveland the latter part of September.

Mr. Alexander is general manager of the Houston (Texas) Electric Company and Mr. Burke is southwestern district mana­ger for Stone and Webster.

Extracts from the “Daily” follow: “Jeff Alexander took charge of the “New Cars” luncheon at the Hollenden yester­day and without preliminary ceremony double-dared those present to get up on their feet and say their say on the subject.

Response was prompt and one after an­other prominent figures in the industry detailed their experience with new equip­ment or old equipment that had been brought up to date.

"Walter Burke spoke up as champion for the manufacturers, giving it as his opinion that they would do their part in providing new and modernized rolling stock if the

Fielder Succeeds “Bill” Wilson
As M. C. A. Secretary

With the opening of the new college
year Cecil G. Fielder assumed the duties of general secretary of the Maine Chris­tian Association succeeding Lucien C. Wilson, who resigned to become associated with the International Y.M.C.A.

Fielder is a graduate of Princeton, class of 1914 and has wide experiences both in this country and abroad. He has been
connected with student christian work
both as the secretary at Massachusetts Agricultural College and also as a trav­elling secretary for the national depart­ment.

As a foreign missionary or engaged in other work in foreign countries he trav­elled or worked in India, Burma and Assam achieving outstanding results.

Associated with Mr. Fielder is Cliff­ford "Cliff" Simpson, a Harvard gradu­ate, who returned this year and is in charge of freshman christian work.

operators would only have the courage to step out and buy, but that the initiative must and should come from the operators
rather than the car builders.

"W. H. Burke took the membership to task for failing to take action upon the very excellent recommendations which
had been made by the committees of the association in the past, and urged that an effort be made to carry back onto the properties some of the suggestions put forward in the latest report of the com­mittee on service betterment and actually put them into effect so as to be able to report results before another year had rolled around.”

1910-1913 Alumni Wrote Most
of Old Songs

With the completion of the personnel of the song book committee and the discussion of plans, there is every reason
to believe that under the guidance of A. W. Sprague '05, director of music, Maine will soon have a new song book. Two
new songs have already been submitted. Dean Achsa Bean, and Carlsta Mutty and George Rose, both seniors, have been
added to the committee as announced last month.

"It is noticeable that most of the con­tributors to the old song book were stu­dents then in college,” said Director Sprague in commenting upon student and alumni contributions. "We ought to get a good reaction from our present student body. However I believe that we can get some fine material from our alumni and should make an effort to reach our literary people for contributions. The old books are steadily passing into oblivion. There is some material in the book that we should retain if possible, if the publisher did not capture it all through copyright.”

Following is a list of those who con­tributed to the old song book.

1876—Horace M. Estabrooke.
1879—George O. Warren
1906—Lincoln Colcord
1907—S. M. Bird
1908—Dan Chase
1909—W. A. Kimball
1910—Leroy W. Ames, Jos. L. Burns, J.
M. Eaton, R. A. Jellison, E. Lamb,
F. W. Petsey, O. F. Sevrens, G. E.
Springer
1911—Geo. D. Bearce, R. W. Davis, An­nie Gilbert, Russell Smith, F. E.
Southard, Sumner Waite, B. O. War­ren, Mary Warren, Prof. Garrett
Thompson
1912—J. E. Ash, A. W. Benson, Clifton
Chandler, Philip Garland, M. June
Kelley, A. W. Patterson, R. A. Sea­bury, N. B. Whitcomb, Helen Wor­cester
1913—May Crossman, Raymond Floyd, Alice Harvey, Warren McDonald, Nathan Small

Debaters After National Chapter

The local debating fraternity Delta Sigma Nu is working to secure a local of the national honorary debating society,
Delta Sigma Rho. The last year or two
there has been a marked increase in de­bating on the campus and an ambitious schedule of debates is mapped out for this year, including one with Harvard.
The Maine Alumnus

Published monthly by the General Alumni Association of the University of Maine during October, November, December, February, March, April, May and June.

Entered as second-class matter at the post office at Bangor, Maine, under act of March 3, 1879.

Subscription, $1 per year. Single copies, 20 cents.

Editorials

More Cooperation

Alumnus readers doubtless have noticed that again this month there is a full page of information about the University. The administration has committed itself to a new policy, or an old one in a new form—namely—to inform alumni of the University of today by means of a series of educational talks. So rapid have been the changes in recent years that only those who return to the campus occasionally, to look it over, and to talk with the professors or officers, know what is what.

This action is just one more indication of the very evident desire of the University to foster the affections of her one time students. It is in the nature of an experiment. We are pleased to commend this policy and are hopeful that as a result of these pages alumni will be better sons and daughters of Maine.

Maine Night

Maine Night—To many those words suggest a huge football rally, to recount the victories of by gone days and to spur our athletes on to greater glory. To others, Maine Night suggests college associations and activities broader in scope than the achievements in sports. Both are right. One lends itself more readily to celebration than the other.

Each year the Maine Night committee is faced with the problem what shall the program feature, can we find anything new? As yet few if any radical departures have been made from the programs of earlier years. It is unlikely that there will be this year.

After all what is a home-coming for? Is it primarily to hear fine speeches made under trying circumstances, or is it to once again come back to the campus to see it again, to meet old friends and give vent to your Maine spirit by means of cheering the teams to victory?

On November 2, some 2000 or more alumni and students will assemble for Maine Night on the campus. How about Maine Night elsewhere?

Yale-Maine Game

Regardless of what we may think of the policy of the Maine football team playing Yale or any of the other big college teams, one thing is sure, namely, our boys, through the excellence of their play, bode forth more favorable comment than has been heard or printed about a Maine team in recent years. Connecticut, New York and Portland papers were high in their praise of Maine. A score or more of alumni who saw the game wrote to the secretary expressing their delight at the performance.

Not the least point of interest and significance perhaps was the attendance of Maine alumni and friends. Many estimated that there were nearly 1000 in the Maine section. This is real spirit. The kind that will put a new life and meaning into alumni generally and react favorably upon students at Maine. May we have more of this evidence of loyalty.

That Memorial Gymnasium

When, ask the students, will that Memorial Building be finished. When the cash is on hand, answered the Memorial Committee. We want the building, we'll do all we can, came the rejoinder from the students and now—this week they are at it—endeavoring to secure subscriptions amounting to $25,000 payable in cold cash, before the close of the college year.

We commend the students for their action. They have undertaken a very real job with determination to attain the goal. Pledges had no place. Cash is what will build the gymnasium. It will be a test of the metal—the loyalty, the willingness, to sacrifice for their University.

Alumni—how long must we wait before we finish our part of this job? It's about time we "came thru."

Sing A Song

Copies of the old song book are almost as scarce on the campus as the "proverbial hen's teeth." Many of the students do not even know that there ever was one.

Isn't it high time, then that Maine had a song book which can be called her own? We have enough talent among our alumni and students to make possible a book of song that would add new life and spirit to our college.

Some of the rich traditions and history of our University furnish excellent material for those who have the musical instinct. Urge your friends who you know can write verse or compose music to make a contribution.

While the committee is taking hold of their work in a commendable manner, yet alumni cooperation is positively necessary.
New York Alumni to Meet
November 10

While several thousand football enthusiasts gather at Whittier Field to witness Maine and Bowdoin settle their annual football classic, a very considerable group of both Maine and Bowdoin men will be on the sidelines some four hundred miles distant to cheer their teams to victory.

The annual football meeting of the New York Alumni Association will be held at 2 o’clock Saturday afternoon, November 10 in Exhibition Room number three, Mezzanine floor, Hotel Pennsylvania in New York City.

A play by play report is to be sent over a direct wire from the sidelines in Brunswick to the hotel. The progress of the ball will be followed by using a score board. A. D. T. Libby ’98 has been selected as official announcer and will incidentally tell how they put the ball over the Bowdoin line in ’97.

It is expected that Bowdoin alumni will be out in full force to root for their team. Cider and doughnuts, typical of Maine dainties for such occasions, will be served.

Teachers Holding Meeting in Bangor October 25

Just after the Alumnus goes to Press the annual banquet and meeting of the Maine Teachers’ Alumni Association will be held in Bangor, October 25 in connection with the Teachers Convention.

Plans have been made for a real roast chicken banquet to be served in the dining parlors of the Bangor Y.M.C.A. Dr. O. S. Lutes, head of the department of education at the University, is the speaker of the evening. “Herb” Torsleff ’20 who is president of the Association will preside. Officers for the next year will be elected.

Boston Alumni Association News

Boston Alumni Association will hold its annual fall get-together meeting on Monday, November 19, 1928.

At 2 P. M. at Franklin Field the New England Cross Country Run will be held, and many alumni will be there to cheer and encourage our team, the present holders of the cross country championship, to another championship.

At 7 P. M. at the University Club an informal dinner will be held, at which the varsity and freshman cross country teams, managers and Coach Jenkins will be present.

As guests of particular honor, Carl Ring, ’25, and “Rip” Black, ’29, U. of M.’s representatives at the 1928 Olympics in Amsterdam, will be present. Efforts are being made to have Clarence DeMar, world-famous Marathoner, present and give one of his entertaining and instructive talks on athletics in general.

A cordial invitation is extended to all alumni to attend these events and to meet members of the Boston Association and to become members of this association.

President Boardman to Address Washington Alumni, Nov. 20

Washington alumni are going to take advantage of President H. S. Boardman’s business trip to Washington by holding a meeting November 20 at the Cosmos Club. They will also invite the other University officials who are to attend the meetings of the Land Grant College Association.

In addition to the president it is expected that Prof. Pearl S. Green, head of the home economics department, Dr. Leon S. Merrill, Dean of the College of Agriculture, Dean Paul Cloke, of the College of Technology, Director W. J. Morse, of the Experiment Station and Arthur L. Deering, assistant extension director, will attend.

This will probably be the only opportunity Washington alumni will have during the present college year to hear a speaker from the University and meet faculty members. Details concerning the hour of meeting will be announced by President Boardman to Address Washington Alumni, Nov. 20

The plans for the Class of 1909 Twentieth Anniversary Celebration are rapidly taking form. A meeting of the committee of the whole has been called at the Eastland Hotel, Portland, Maine following the Bowdoin game. ‘Spike’ Mayo who has been arranging this party, reports enthusiastic response. He has already had to increase the reservations at the Hotel Eastland to 15 rooms, and it is expected that approximately 50 members of the class with their families, will sit together at the game.

The Reunion Committee will present a progress report at the Eastland Hotel, Saturday evening, November 10. A notice which will be mailed to all members of the class shortly, will include a complete up-to-date address.

Acceptances for the Eastland part include: Messrs. Harold Bowman, George Carlisle, Joe Garrity, Harry Higgins, Fred Knight, Dan McLean, Norman Mayo, George Norman, Harry Sutton, Guy Torrey, Harry White, Tom Austin, Wallace Brown, “Duff” Lockyer, Dexter S. J. Smith

Only About Half of the Budget Raised About 1928

Altho the early response to the calls of the Finance Committee for payment of alumni dues has been very encouraging, the budget for 1928-29 is scarcely more than half raised at the present time.

In order to obtain the sufficient funds to “come out whole” at the close of the year it will be necessary for more alumni to pay dues than ever before. Since it is rather expensive to send out so many letters the finance committee urges alumni to send in their check without further delay.

As for 1928 and the Loyalty Contest, they are sliding a little. This class started off big exceeding their one-time goal. In fact 1927 set the pace which 1928 is trying to match, the members of the class have not kept up the pace which 1927 set. Perhaps the story next month will be different.

Do you talk Maine to those outstanding boys and girls who would be an asset to the University?

"UNITED'S SERVICE" is Nation wide
Maine 20, Rhode Island 6

Maine opened the football season at home on September 29 by defeating Rhode Island 20-6 before one of the largest crowds that ever turned out for a first season game. The teamwork of the Maine gridders was poor because of a lack of practice scrimmages but the individual playing was impressive with Captain Buzzell crashing through the line for spectacular runs, Lyman Abbott proving to be an excellent triple threat, and Mike Coltart stopping the Rhode Island backs at the line of scrimmage.

The first quarter was fairly even but Maine drove down the field with a long pass to Palmer, placing the ball within scoring distance as the period ended. Coltart plunged the ball over in the beginning of the next quarter and he kicked the point. The Maine line seemed to lose its fight after this and Kearns and Howes charged through for long gains that ended in a touchdown but they failed to get the extra point.

In the second half the new line held like a stonewall and the backfield worked perfectly. Coltart again scored 7 points when he carried the ball across the line from the 12 yard line and kicked the point after Maine had carried the ball 70 consecutive yards on passes and hard line plunges. Buzzell later made a 25 yard run to the 12 yard line. Short plunges put the ball on the one foot line but Abbott fumbled and Rhode Island recovered for a touchdown. Coltart fumbled the ball as he carried it over the line in the last quarter, but Zakarian recovered for a touchdown. Airoldi failed to add the extra point.

In the second half the new line held like a stonewall and the backfield worked perfectly. Coltart again scored 7 points when he carried the ball across the line from the 12 yard line and kicked the point after Maine had carried the ball 70 consecutive yards on passes and hard line plunges. Buzzell later made a 25 yard run to the 12 yard line. Short plunges put the ball on the one foot line but Abbott fumbled and Rhode Island recovered for a touchdown. Coltart fumbled the ball as he carried it over the line in the last quarter, but Zakarian recovered for a touchdown. Airoldi failed to add the extra point.

Yale 27, Maine 0

The Maine Bear bravely tackled the Bulldog in the Yale Bowl on October 6 and as was expected took a beating but gave Yale the best first season game they have played in many years. Although Yale scored four touchdowns for a total of 27 points Maine caused them some worry in the second period when they advanced the ball from the Maine 30 yard line to the Yale 10 yard line by just four spectacular forward passes but they lost the ball here when a lateral pass failed on the fourth down.

Maine 0, Connecticut Aggies 0

Severely crippled by the loss of Lyman Abbott and Ken Young, star offensive backs, University of Maine entered the game with Connecticut Aggies decidedly the underdog but outplayed them by far in a scoreless game on October 13 at Orono. Six times Maine carried the ball within the Aggie 25 yard line but lacked the scoring punch to put it over the goal line. The Maine line stubbornly held the Aggies to two first downs by rushing and they added only three more by passes while the ripping Maine offense made 14 first downs.

In the first period Maine threatened to score after Moran had carried the ball 18 yards to the 25 yard line. Buzzell threw a long pass but it was intercepted. Although the Aggies punted out from the goal Maine marched the ball back to the 17 yard line where the ball was lost on downs when a pass from Gowell to Buzzell failed on the fourth down. Maine started another drive when Airoldi intercepted a pass on Maine's 47 yard line, but this rush was stopped on the 32 yard line when Ryan intercepted Buzzell's pass. The biggest drive of all came in the second half when Maine drove the ball from her four yard line to the Aggie 30 yard line, only to lose the ball on downs. A pass from Buzzell to Palmer of 25 yards and another of 15 yards, allowed because of interference with the receiver placed the ball on the Aggie 17 yard line in the last period. The Aggies again displayed their excellent defense when they took the ball from Maine on downs.

Maine 7, New Hampshire 0

Maine again surprised the fans by completely outplaying the favored New Hampshire Wildcats in a well earned 7 to 0 victory at Durham on October 20. The Bear's offense was again broken up when Captain Buzzell received an injured shoulder in the Connecticut game that kept him from playing this game. Maine rushed the home crew off their feet by making 13 first downs to the Wildcats three, but as in the Connecticut Aggie game the crippled Maine offense did not have the scoring punch until the last two minutes of play.

The snappy line plunges of Noddin, Moran and Airoldi and the baffling left handed passes from Moran to Black accounted for most of the Maine yardage.

In the second period Coltart intercepted a pass on his own 37 yard line and Maine marched to the one foot line only to lose the ball on downs. A pass from Noddin to Airoldi of 30 yards and substantial line plunges by Airoldi and Noddin were the big factors in this march. New Hampshire punted out from the goal line and Airoldi fumbled on the next play and a New Hampshire man recovered. The stands howled for a score but a 15 yard penalty stopped the Wildcats bid for a score after they had gone far into Maine territory.

The long delayed Maine score came in the last two minutes of play after Blocklinger and Moran had carried the ball to the 15 yard line. Two incomplete passes cost Maine five yards and on the next play Black went around right end on a short pass from Blocklinger and shaking off four tacklers Rip finished the spectacular run to the goal line with perfect interference although he was nailed from behind just as he crossed the line.

18 EAST 41ST STREET, NEW YORK, N. Y.
Maine Defeats New Hampshire Cross Country Team 23-32

The Maine Cross Country team opened its season on October 13 by defeating New Hampshire 23 to 32 at Durham. Lindsay and Richardson of Maine tied for first place by setting a new course record of 28 minutes and 31 seconds. These two men finished about 22 yards ahead of Benedict and Hazen of New Hampshire.

But Brooks of Maine, running his first race for the varsity, came through with flying colors when he, Stinson of Maine and Howard of N. H. came thru the gate onto the track at the same time. Howard sprinted, opening a big gap between him and the Maine men but Brooks struck out after him with a steady pace. Twenty yards from the finish Brooks was still two yards behind but a strong finish allowed him to nose out the New Hampshire man for fifth place, clinching the race for Maine. There was less than a minute’s difference between the time of the winners and Brooks’ time showing that the team is very well balanced.

Although Horace Caler of Maine was suffering from cramps he gamely plugged on and beat out the New Hampshire Captain for eighth position.

The Freshman Cross Country team has had a good season so far this year, easily winning all three of the dual meets. Gunning led the pack home with the time of 13:09. Austin and Dekin finished a few yards in the rear of the winner, coming in at 13:34.

Maine Jinxed

Maine’s offensive has suffered considerably this fall from injuries. Coach Brice had an entire veteran backfield when he started in September and it looked as though the line would be the weak point. When Maine entered the New Hampshire game the backfield had one letterman in it and he was playing out of position.

Early in the season Fred Hall tore the tendons in his leg in a practice scrimmage. This injury incapacitated him for the rest of the season. This was a severe blow as Hall is a powerful, fast runner and Coach Brice depended on him to do the kicking. He was captain of the 1931 crew last fall and was the big gun in Kenyon’s athletic line-up.

The big injuries came in the Yale game when Lyman Abbott tore leg tendons and Ken Young received injuries to his back and leg. These three men had piled up a substantial gain on the New Hampshire men and would undoubtedly have finished in a triple tie if MacNaughton had not been forced to drop out.

Although Horace Caler of Maine was suffering from cramps he gamely plugged on and beat out the New Hampshire Captain for eighth position.

Summary:
(1) tie, Lindsay and Richardson, Maine; (3) tie, Benedict and Hazen, N. H.; (5) Brooks, Maine; (6) Howard, N. H.; (7) Stinson, Maine; (8) Caler, Maine; (9) Captain Cahalan, N. H.; (10) Lowe, N. H.; (12) Richardson, N. H.; (13) Lazare, N. H.

Freshman Cross Country Wins Three Duals

The Freshman Cross Country team has had a good season so far this year, easily winning all three of the dual meets. Gunning and Austin are exceptionally strong runners having finished in the first two places of every race while MacNaughton is right behind them having taken third place twice and fourth once.

The Freshman ran over Deering 20 to 35 in the first run at Orono on October 6. Gunning led the pack home with the time of 13:44 over the new Freshman Piney Knoll course. Austin and Dekin finished a few yards in the rear of the winner, copping the first three places for Maine.

The Frosh ran over Deering 20 to 35 in the first run at Orono on October 6. Gunning led the pack home with the time of 13:44 over the new Freshman Piney Knoll course. Austin and Dekin finished a few yards in the rear of the winner, copping the first three places for Maine.

The Freshmen scored their second victory on October 17 by easily defeating Brewer High School 16 to 40, missing a perfect score when Ivers of Brewer beat out Joy of Maine for fifth place. Gunning again finished well in the lead making the fast time of 13:09. Austin, Dekin and Fuller clinched the next three places for Maine.

Gunning, Austin, Dekin and Fuller displayed their running ability again in the meet against Lee Academy on October 20 at Orono. These four men finished first, second, fourth and fifth to clinch the run for Maine with a score of 21 to 35. Gunning turned in the good time of 13:34.

Elgin Lowell who is out of the lineup because of ineligibility started about a minute after the run and finished with the time of 13:40, just six seconds slower than the winner. Lowell should strengthen the team considerably when he becomes eligible.

Colby Drops Cross Country for This Year

On October 3, the announcement appeared in Maine dailies that the Colby Athletic Council had voted to discontinue cross country for the year. The reason given for this action was lack of material for in order to maintain a cross country team men would have to be taken from short distance events.

Two years ago Bowdoin dropped cross country as a varsity sport. Resulting from the action of these two colleges the state cross country meet this year becomes only a dual between Bates and Maine. The event is to be held at Orono Friday afternoon, November 2.

Freshman 6, Notre Dame 0

The Maine Freshmen outplayed the Coburn Classical eleven at Orono on October 20 but they lacked the final scoring punch in the pinches and the game resulted in a scoreless deadlock. In the opening quarter Coburn worked the ball to the Maine 10 yard line but the Frosh held them for downs. Maine started the second half with a rush that carried them 80 yards up the field but lost the ball on downs on the Coburn 20 yard line. Jasonis, Riley and Rumaza all looked good in the backfield while Libby and Wadsworth were the strong factors in the line.

Freshmen 0, Coburn 0

The Maine Freshmen outplayed the Coburn Classical eleven at Orono on October 20 but they lacked the final scoring punch in the pinches and the game resulted in a scoreless deadlock. In the opening quarter Coburn worked the ball to the Maine 10 yard line but the Frosh held them for downs. Maine started the second half with a rush that carried them 80 yards up the field but lost the ball on downs on the Coburn 20 yard line. Jasonis, Riley and Rumaza all looked good in the backfield while Libby and Wadsworth were the strong factors in the line.

Noddin filled in at left half in Buzzell’s place and he did a wonderful job, kicking and passing and running the ball. This outfit made an excellent showing and found the scoring punch. All these men except Young and Hall will be back in togs for the Bates game if nothing goes wrong and the State Series should find Maine with even a stronger offense than if these injuries had not happened.
Alumni Personalities

Weddings

'94—Leon O. Norwood and Mrs. Luella York were married January 4, 1926 and are residing at Canton.

'07—Robert W. DeWolfe and Mrs. Alice E. Bearce were married October 16, 1928 at the Little Church Around The Corner in New York. Mr. DeWolfe is a lawyer and realtor with offices at 102 Exchange St., Portland. He is head of the Robert W. DeWolfe Company, real estate dealers.

'09—Harold M. Bowman and Miss Amelia R. Scherer were married December 31, 1927 at New York, N. Y. Mr. Bowman met Miss Scherer in Switzerland while touring Europe after attending the American Legion Convention in Paris last year. Mr. Bowman is vice president and general manager of the Somersworth Foundry Company at Salmon Falls, New Hampshire.

'13—A recent wedding of interest is that of Cecil A. Rowe and Miss Katherine B. Small which took place October 3, 1928 at East Machias. Mr. and Mrs. Rowe are residing at 199 Vaughan St., Portland.

'23—Benjamin Hoos and Mildred Wagner were married September 10, 1928 at Berlin, New Hampshire. Mr. and Mrs. Hoos are residing in Berlin, where Mr. Hoos is with the Brown Company.

'24—A wedding of much interest was that of Alden W. Wilkins and Miss Maudie K. Creamer which took place September 21, 1928 at Calais. Mr. and Mrs. Wilkins are residing at Laconia, New Hampshire.

'25—Miss Edrie P. Mahaney and Vinton T. Rathburn were married October 6, 1928 at Bangor. Mr. and Mrs. Rathburn are residing at 25 Brimmer St., Brewer.

'26—The wedding of Floyd J. Carr and Miss Margaret Lynch took place October 17, 1928 at Bangor. Mr. and Mrs. Carr are residing at 805 Swede St., Norristown, Pa. where Mr. Carr is employed by the S. S. Kresge Company.

'26—Clarence M. Dowd and Miss Alice M. Bunker '25 were married August 30, 1928 at Bangor

'27—The wedding of Theodore W. Monroe and Miss Helen E. Schweikhart took place September 19, 1928 at Salt Lake City, Utah. Mr. and Mrs. Monroe are residing at 55 Fairview Ave., Watertown, Mass. Mr. Monroe is a junior member of the law firm of Ropes, Gray, Boyden & Perkins at 50 Federal St., Boston.

'28—Barbara E. Pierce and Eugene O. Skolfield took place October 11, 1928 at Brewer. Mr. and Mrs. Skolfield are residing at Burlington, New Jersey.

'28—In 1926 Marguerite Marston was married to Ford R. Churchill. Mr. and Mrs. Churchill have a son, Charles, and the family are residing at Kezar Falls.

Births

'13—A daughter, Phyllis, born June 5, 1928 to Mr. and Mrs. Philip Bolton.
(Miss Lillian Hunt). Weight 6 pounds, 7 ounces.

'17—A son, Warren Crowell, born October 2, 1928 to Mr. and Mrs. Frank L. Harmon (Ella Wheeler). Weight 8 pounds.

'21—a daughter, Barbara McKenzie, born July 6, 1928 to Mr. and Mrs. Leslie Bennett.

'21—a son, Richard Hart, born August 17, 1928 to Mr. and Mrs. Clement E. Cook (Dorothy Hart) at Hanover, New Hampshire.

'25—ROY L. FERNALD was recently elected president of the Harvard Club of independent supporters of Herbert C. Hoover for President. Fernald attended both the Kansas city and Houston conventions, visiting 30 states en route. He was a reporter for the Malcolm Evening News of Malden, Mass.

'23—a daughter, Pauline Small, born June 22, 1928 to Mr. and Mrs. Louis E. Sartin (Marie Hodgdon).

'23—a son, John Peabody, born October 28, 1928 to Rev. and Mrs. George A. Wilson (Mabel Peabody). Weight 7 pounds, 3 ounces.

'24—a son, Robert Norwood, born July 3, 1928 to Mr. and Mrs. Frank C. Bannister (Hope Norwood). Weight 9 pounds.

'24—a daughter, Mary Ellen, born October 11, 1928 to Mr. and Mrs. Dearborn B. Stevens (Ellen Myers) at 375 W. 72nd Street, New York. Weight 7 pounds, 3 ounces.

'25—a daughter, Nancy Jeanne, born September 10, 1928 to Mr. and Mrs. Donald F. Hastings (Bessie Muzzy).

'25—a daughter, Cynthia, born August 11, 1928 to Mr. and Mrs. Charles E. Johnson (Alice Libby).

'25—a son, Donald Dwight, born October 5, 1928 to Mr. and Mrs. George O. York.

Deaths

'02—Harry Lord died December 29, 1927 at Bangor.

'05—Mrs. A. P. Wyman (Florence M. Sleper) died July 8, 1928 at her home in Waterville after a surgical operation.

'11—Wilfred G. Conary died September 17, 1928 to Mr. and Mrs. Frank C. Bannister (Hope Norwood). Weight 8 pounds.

'14—Max Wilder succeeded Llewellyn Edwards as assistant engineer in charge of the Bridge Division of the Maine State Highway Commission located at Augusta.

By Classes

'74—GEORGE J. TRICKEY is residing at 4 Oakland Ave, Mt. Vernon, New York.

'84—Our sincere sympathy goes out to Mrs. Margaret Weiser, nephew of Miss Lillian Hunt. We received this information recently from the office of Dean J. N. Hart.

'86—we have recently received an address for ELMER E. MERRITT whom we have had on our "lost list" for some time. Mr. Merritt is located at 200 South 1st Street, Alhambra, California.

'88—EDWIN B. LORD is vice president and manager of the Jersey City Chamber of Commerce, the largest organization of its kind in New Jersey. Under his direction the Chamber has recently erected its home at a cost in excess of three quarters of a million dollars.

'90—FRANK A. SAWYER is assistant medical director of The Pacific Mutual Life Insurance Company of California. Mr. Sawyer resides at 613 Crescent Drive, Beverly Hills, California.

'90—WINFIELD S. WEBB may be addressed Caribou.

'93—ALVA M. RUSSELL is residing at 97 Easton Ave, New Brunswick, N. J.

'98—ELMER D. MERRILL, dean of the College of Agriculture, University of California, has been elected president of the California chapter of Sigma Xi.

'00—LEWIS H. CHWARTZ is an attorney and is located at 405 Bay State Building, Lawrence, Mass.

'00—HENRY J. GLENDENNING is being addressed 273 Randolph St., Portland.

'01—Mrs. H. M. DANIELS (ELSIE FITZGERALD) is located at Barre, Vermont.

'03—ARTHUR W. GAGE is Secretary of the Robert Berner Structural Steel Company located at 401 South Hardin St, Indianapolis, Indiana.

'03—ARTHUR T. TOURGISE is with the highway commission of the State of Missouri located at Macon, Missouri.

'04—ROY S. AVRELL is a recent visitor in the Alumni Office. Mr. Avrell is with the Fort Pitt Bridge Works at Canonsburg, Pa.

'04—The Boston Post of September 23 spoke very highly of the work and progress of the Huntingdon School for Boys of which Charles G. Sampson '04, has been headmaster for several years. The school this year enters upon a five year plan a special one year course being offered in preparation for college.

'05—HARLEY W. BRAWN is having his mail forwarded to 323 Warren Ave., Cumberland Mills.

'05—FRANK O. WHITE is chief engineer of the Fraser Companies, Ltd.

'05—HARLIE W. BRAWN is having his mail received at 323 Warren Ave., Cumberland Mills.

'06—ROBERT F. OLDS has moved to 11 Belvidere Street, New Brunswick, New Jersey. Mr. Olds recently completed his work as resident engineer on the Bellows Falls Development and moved to St. Johnsbury to be resident engineer on the 15 Miles Fall, Power Development.

'07—WALTER L. BLACK was recently elected president of the Central States Edison Company and will make his headquarters at 105 West Adams Street, Chicago, Illinois.

'08—WARREN D. TRASK has his business headquarters at 80 Federal St., Boston, Mass.

'09—ARTHUR W. GAGE is residing at 1203 East 80th Street, Los Angeles, California.

'10—JOHN L. COLLINS is division engineer of the Central Maine Power Company at Lewiston.

'11—Harry W. Howes is president and manager of the Woods Pond Cranberry Company at Middleboro, Mass. Mr. Howes says to reside, a wife, two girls and one boy. The boy is 10 years old and he hopes later to attend this University.

'11—GEORGE C. LEAVITT is located at 141 Duphine St. Olney, Philadelphia, Pa.

'11—WILLIAM E. PARSONS is general manager of the Keyes Fibre Company at Waterville.

'12—WILLIAM OSBORNE, Jr. is postmaster at 6309 2nd Street, Minneap-

'12—MONTIELLE C. SMITH was a recent visitor on the campus. Mr. Smith is located at present at Batson Court, Louisburgh.

'13—Mrs. G. W. STEPHENS (VADA SPRINGER) is residing at 2018 North 42nd Street, Seattle, Washington.

'14—CHARLES D. BARTLETT is connected with the law firm of Chapman and Brewster in Portland where he is residing.

'14—EDITH FLINT is now MRS. DONALD COE and she is residing at 701 Saint Clare Street, Flint, Michigan.

'14—MAX WILDER succeeded Llewellyn Edwards as assistant engineer in charge of the Bridge Division of the Maine State Highway Commission located at Augusta.

'15—WILLIAM W. REDMAN has recently located at Candia, New Hampshire.

'15—LEON G. SAWYER is designing electrical engineer with E. L. Phillips & Company at 50 Church St., New York, N. Y. His home address is 2 Schuyler Ave, Rockville Centre, New York.

'15—LOREN P. STEWART is physician of military science at the University of Maine.

'16—M. MURIEL DEBECK is located at 1232 East 80th Street, Los Angeles, California.

'16—JOHN H. MELINCOFF is at 501 Broadway, Lawrence, Mass.

'17—ROY J. BIRD is located at 501 Broadway, Lawrence, Mass.

'17—LEONARD S. LEIGHTON is located at 501 Broadway, Lawrence, Mass.

'17—EDWARD C. REMICK writes from Shepardsville, Marblehead, Mass. that he is teacher of chemistry in Mar-

THE MAINE ALUMNUS November, 1928
Kansas saves Twenty Years

An Advertisement of the
American Telephone and Telegraph Company

More than three hundred studies are being carried on constantly by the research, engineering and business staffs of the American Telephone and Telegraph Company and the associated companies of the Bell System to accomplish definite improvements in telephone service.

In 1927 the number of local calls not completed on the first attempt was reduced by 5 per cent. This means the better handling of 200,000,000 calls a year.

In 1926 the average time of handling toll and long distance calls was 2 minutes. In 1927 this average was reduced to 1½ minutes, with further improvements in voice transmission.

On 6,820,000 long distance and toll calls made in Kansas in 1927 an average reduction of a minute and a half was made on each call—a total of twenty years saved.

These more than three hundred special studies have as their goal definite improvements in local, toll and long distance service. It is the policy of the Bell System to furnish the best possible service at the least cost to the user.

The American Telephone and Telegraph Company accepts its responsibility for a nation-wide telephone service as a public trust. It is fundamental in the policy of the company that all earnings after regular dividends and a surplus for financial security be used to give more and better service to the public.
bled High School. Mr. Remick is married and has three boys, Bruce, 8; Robert, 6 and Wilson, 4. Mr. Remick would be glad to hear from any of his friends.

17—LEWIS W. STOCKPole is located at 1518 Main St., Portland.

17—On September 1, 1928 RALPH E. SAYWELL became traffic engineer in the office of the American Telephone & Telegraph Corp., with offices at 67 Broad Street, New York, N. Y.

17—JAMES S. STEVENSON is in the political campaign in the state of Maine in the American Munich & Western campaign. Mr. Stevenson is the vice president of the E. I. Dupont de Nemours & Company at Wilming­ton, Delaware. Mr. Stevenson is the present address 134 Smith Street, Binghamton, New York.

17—ERNEST G. DEMERRITT is located in the Guilford, Connecticut, office of the American Munich & Western campaign.

17—MRS. LAFAYETTE DOW (Elea­nor Prosser) is residing at R.R. #14, Dexter Road, Ann Arbor, Michigan.

17—STUART J. BROWN is president of the Maine Steel Products Company in the engineering department. Mr. Brown resides at 129 Highland Ave., South Portland, Maine.

17—AUBREY A. MERRILL is being addressed 80 Mt. Hope St., Bangor.

17—JOHN W. PARENT is located at Van Buren. He is a registered physi­cian but does not practice much. He devotes more of his time to farming.

17—LESLIE W. HUTCHINS is covering the State of Maine for the Beacon Oil Company with headquarters in Portland.

17—ELWOOD K. WILKINS is with the Phoenix Utility Company located at Box 447, Panama, Republic of Panama.

17—PAUL W. ANDERSON is located at Lincoln, New Jersey.

17—RALPH C. BROWN is with the Maine Steel Products Company in the engineering department. Mr. Brown resides at 160 Highland Ave., South Portland, Maine.

17—MRS. LAFAYETTE DOW (Elea­nor Prosser) is residing at R.R. #14, Dexter Road, Ann Arbor, Michigan.

17—ALFRED G. HEMPSTEAD who has been superintendent of the social service division of the Great Northern Paper Company at Bangor, Maine, has moved to Brownville Jct where he will be pas­tor of the Methodist Episcopal Church.

17—HERMAN E. WILDE is chief chemist at Hockanum Mill, Rockville, Conn. The Great Northern Paper Company has discontinued its welfare program.

17—On September 1, 1928 RALPH E. SAYWELL became traffic engineer in the office of the American Telephone & Telegraph Corp., with offices at 67 Broad Street, New York, N. Y.

17—PHILIP T. VERRILL is being ad­dressed 40 Berkley St., Westbrook.

17—ON September 1, 1928 RALPH E. SAYWELL became traffic engineer in the office of the American Telephone & Telegraph Corp., with offices at 67 Broad Street, New York, N. Y.

17—LEONARD J. BRAGDON is at R.F.D. #6, Saco Road, South Portland.

17—The engagement has been announced of JAMES A. CHALMERS and Miss Elizabeth Katcher. The wedding is to take place during November.

17—PAUL M. CROXFORD is in the United States Navy and is being ad­dressed U.S.S. Charles Ausburn, c/o Postmaster, New York, N. Y.

17—EDWARD C. CUTTING is located at 139 Spring St., Portland. Mr. Cutting is with the Mutual Mutual Life Insurance Company.

17—ARTHUR B. EASTMAN is being addressed 54 West 174 St., New York, N, Y.

17—EUGENE A. GAMBELL is assistant engineer in the engineering depart­ment of the New York Tel. Company at 140 West St., New York, N. Y. Mr. Gammell resides at 45 Iris Ave., Floral Park, L. I., New York.

17—WILLIAM R. MCDONALD, Jr. is sales manager and plant engineer with the E. W. Brown Company at South Portland. Mr. Mcdonald resides at 199 High Street, South Portland.

17—WALTER HILTON is assistant production engineer with the Maine Steel Products Company at South Portland. Mr. Hilton resides at 159 High Street, South Portland.

18—MR. and MRS. CHARLES E. JOHNSON (Alice Libby) are resid­ing at 250 Chestnut Hill Ave., Brook­ridge, New York.

18—WILLIAM R. MCDONALD, Jr. is sales manager and plant engineer with the E. W. Brown Company at South Portland. Mr. Mcdonald resides at 199 High Street, South Portland.

18—J. REGINALD BUZZELL attended the International Convention of Ro­tarians in Minneapolis in June, as a dele­gate of the Rotary Club of Old Town, of which he is president. He went to the Convention city by way of Boston and Chicago, and returned via Duluth, the Great Lakes and Buffalo. Shortly after returning from Minneapolis, he went to Camp Devens, Mass. with his company, the 152nd Field Artillery of the National Guard, of which he is 2nd Lieutenant. Mr. Buzzell is in the lumber­business with his father, STEPHEN J. BUZZELL ’82 under the firm name of S. J. Buzzell & Son, at Old Town.

18—ELEANOR L. CLARKE is for the present located at Pemaquid.

18—MRS. VICTOR McCARTHY is at 567 Tompkins Street, Binghamton, New York.

18—The engagement has been announced of JAMES A. CHALMERS and Miss Elizabeth Katcher. The wedding is to take place during November.

18—PAUL M. CROXFORD is in the United States Navy and is being ad­dressed U.S.S. Charles Ausburn, c/o Postmaster, New York, N. Y.

18—EDWARD C. CUTTING is located at 139 Spring St., Portland. Mr. Cutting is with the Mutual Mutual Life Insurance Company.

18—ARTHUR F. EASTMAN is being addressed 54 West 174 St., New York, N, Y.

18—EUGENE A. GAMBELL is assistant engineer in the engineering depart­ment of the New York Tel. Company at 140 West St., New York, N. Y. Mr. Gammell resides at 45 Iris Ave., Floral Park, L. I., New York.

18—WILLIAM R. MCDONALD, Jr. is sales manager and plant engineer with the E. W. Brown Company at South Portland. Mr. Mcdonald resides at 199 High Street, South Portland.

* Please Mention the ALUMNUS
The top of the pass! To-day, just as in the remote Biblical age when herdsmen tended the flocks of Abraham, these nomad tribes drive their flocks each season up from the parched desert to the high tablelands of the Caucasus, green with life-giving grass.

We moderns of the West make no such forced marches in search of food. In our lands of little rain, electricity pumps water to make the desert bloom. Electricity lights the herdsman’s home and milks the cows in his stable. Electricity powers the great network of transportation and communication which binds city and country into one complex system of civilized living.

Yet, as Thomas A. Edison has written, “The electrical development of America has only well begun. So long as there remains a single task being done by men and women which electricity could do as well, so long will that development be incomplete.”
