Talk – Citizen Science: A Means to Promote Equity and Inclusion in STEM

March 1 @ 3:00 pm - 4:00 pm | Free

This talk is available via Zoom. Registration is required due to security concerns. Please complete the [registration form](#) to receive the Zoom connection information.

Speaker: Amara Ifeji, freshman, Northeastern University; Grassroots Development Coordinator, Maine Environmental Education Association

In this talk, Amara Ifeji will speak to her lived experiences as a BIPOC (black, Indigenous and people of color) individual, the marginalization she faced in fostering a connection to place with the environment, and how her self-sought passion for water justice led her to not only foster this connection herself, but to also serve as a conduit for other BIPOC and female-identifying students like herself.

Amara Ifeji
