To the Superintending School Committee and Citizens of Alexander.

I hereby submit my twelfth annual report of your schools.

I am well pleased with the work done in your schools and compliment the teachers for the results obtained.

I have observed a marked improvement in reading which is the basis of all other studies. Without being able to read well the pupil is handicapped in all branches of learning. He must be able to read well in order to get the thought from the printed page.

Your school accounts are in good condition.
is only one overdraft and that is taken care of by the school account. I would recommend an appropriation in the repairs account as there should be some repairs made on the doors of each school house. Or better, new doors. I would recommend also that one school building each year should be painted until all three are painted. By this arrangement no great burden would be placed on the town. I would recommend that $100 be raised for this purpose.

I wish to thank the Committee for their advice and cooperation, the teachers for their loyalty and the citizens for their interest in their schools.

Respectfully submitted,

Frank A Day, Supt.
