ALUMNI SONS and DAUGHTERS

In the Class of 1950

First row, left to right: Barbara Poor (Charles M. '19); Betty Jane Ladd (Harland A. '25, Doris Dow '25); Marian Keith (Ballard F. '08); June Gammon (Harold L.); Helen Friend (Francis H. '20, Elizabeth Lineken '25); Pauline M. Clement (Philip P. '17); Dotty Butler (Henry B. '20); Polly Curtis (L. Everett '23, Marie Hodgdon '23); Judy Cole (Marion Emery '17); Priscilla Goggin (Francis J. '21); Grace Murray (Joseph M. '25, Frances Kent '28); JoAnne Libby (Seth E. '17, Helen Greeley '18).

Second row: Carleton M. Plummer (Bernie E. '24); Elton M. Crossland (Charles E. '17); Margaret Waterman (Burleigh R. '20, Mabel Thompson '22); Nancy T. Wooster (Kenneth T. '19); Dorothy Lord (George E. '24, S. Louise Quincy '25); Joan Harvey (Wills L. '09); Beverly L. Pearson (Bernice Clement '26); Margaret Jones (Merle S. '35); Martha Fogler (Raymond H. '15); Edna Jones (Merle S. '35); Marie Meserve (Claude P. '08).

Third row: Norman P. Shaw (Norman '18); Raymond E. Tittlemb (Clarence J. '23); Newell W. Emery, Jr. (Newell W. '20); Marilyn Jones (Frederick S. '14); Elaine Lockhart (Hubert W. '21); Elizabeth Dole (Francis S. '25); Gloria S. Fisher (Lynwood W. '23); Ruth Small (George H. '21); Virginia Stichney (Charles E. '16); Betty Tittlemb (Byron E. '31); Barbara Stearns (George H. '26); Edward E. Chase, Jr. (Edward E. '13).

Fourth row: John Smiley (Samuel R. '19); Elliott Plummer (Bernie E. '24); David Smiley (Leon W. '12); Raymond K. Finley (Raymond S. '25); Francis Warren (Ralph E. '18); Leon F. Brown (Clifford '18); Kenneth Marden (Allen H. '20, Doris Littlefield '20); Paul M. Payson (Harold T. '29); James Davee (Lawrence W. '22, Muriel Goodrich '22); Philip White, Jr. (Philip R. '22, Martha Sanborn '23); John G. Fisher (Herbert L. '12); Luther N. Amos, Jr. (Luther N. '17); Leonard Bowles (Elliott '24).

Fifth row: Henry W. Saunders (H. Warren '28); Richard Leveille (V. Roland '26); John Treat, Jr. (Doris Currier '16); Richard H. Green (Herbert H. '67); Russell Walters (Philip H. '15); Robert Gatcombe (Ella MacFarland '20); Albert L. Andrews (Langdon F. '16); J. Palmer Libby (Lawrence '20, Beatrice Palmer '20); James C. Adams, Jr. (James C. '21); George C. Hamilton (George C. '24); Austin Treuworth (Harold E. '21); Howard L. Jenkins, Jr. (Howard L. '17); Eugene F. Hart (Clarence E. '26); Harry E. Bickford, Jr. (Harry E. '17).

Sixth row: Richard T. Thaxter (Robert P. '28, Edith O'Connor '27); Francis Bean (Frank Bean '17); Stanley W. Judkins (Perry W. '24).

Those unable to appear for the picture are: Sally Badger (Ralph L. '18); Lois M. Coffin (Harold W. '16, Grace Bristol '17); Donald H. Davis (Manley W. '19); Joseph W. Emerson (Raymond L. '18); David F. Griffin (Stephen A. '22); Edward T. Hacker (Edward P. '21); Mary Jane Judkins (Eshburn O. '23); Ralph T. Leighton (Ralph M. '18); Virginia C. Littlefield (Theodore '22); Adelbert T. Norwood (Howard L. '23); Diana E. Rush (Ian M. '22); Everett A. Strout (A. Everett '22, Gertrude M. Farnham '22); Thomas D. Trailey (Carl F. '24); Wilbur C. Weeks (Donald R. '21, Natalie Vaughan '18); Charles F. West (Frederic R. '20); Walter T. White (Walter C. '20); Alan F. Wing (Gerald E. '26, Katherine Atkins '25); Donald York (George O. '23).
The Department of AGRONOMY

Research in agronomy is also a delegated responsibility of the department; the ten department staff members engage in both teaching and research with the latter activity carried on under the general program of the Agricultural Experiment Station.

Several of the courses given by the department are required of nearly all students in agriculture. Such are the courses in soils, field crops, soil management, and farm machinery. The department also offers several service courses for special groups such as the course in forest soils for Forestry majors and household equipment under Agricultural Engineering for Home Economics majors.

As might be expected in Maine where over 40% of the total agricultural income is derived from potatoes, courses in this field appear in the departmental listing. Potato production and seed potato production are important to those students who look toward the broad, rolling potato fields of Aroostook for future livelihood. Other sections of the state and other types of crops are also covered by the department with a course in sweet corn, peas, and beans for potential growers of these crops so important in food processing; the course in forage crops is of increasing importance as more attention is focused on proper selection, maintenance, and management of pasture, hay, and grain crops for livestock feeding. And in the engineering phases basic courses in farm power, structures, shop, and soil water control add to the technical equipment of the future farmer or agricultural adviser.

Thus in its teaching program the Department of Agronomy ranges far and wide through many phases of modern agriculture with its fundamental, important areas of knowledge. This year the department has forty-five major students of its own in addition to the service courses it conducts for other departments. These graduates in agronomy or agricultural engineering are in increasing demand; not only does farming itself offer scope for their specialized preparation, but in addition many of the advisory services are seeking their trained abilities, for fertilizer manufacturers, extension services, machinery manufacturers, and government conservation agencies, to name only a few, have learned the value of the trained agronomist in their work.

Research in Three Areas

The main activities in the research work of the Agronomy Department members lie in three general fields, fruit crops, forage crops, and, of course, potatoes. The work in fruit crops, much of it of rather recent development, is chiefly concerned at present with a study of the best soil management practices for maximum production of usable crops of apples and blueberries. The ultimate aim is to develop a system... (Continued on Next Page)
Union Committee Named

Twenty-four Alumni have been appointed to serve as members of the Union Building Fund Committee by Robert F. Thurrell, President of the General Alumni Association. This committee, which is widely representative of areas throughout the East and of many classes, will be responsible for formulating policies and plans for the fund raising campaign and creating the necessary organization to carry out those plans.

Raymond H. Fogler ’15 of New York City is General Chairman of the committee. George D. Bearce ’11 of Buckport is chairman of the Building Requirements Committees. Hazen H. Ayer ’24 of Boston is chairman of the Publicity Committee. James M. Sims ’32 of Boston is chairman of the Special Gifts Committee. Professor Harry D. Watson ’18 of Orono is chairman of the Alumni-Faculty Advisory Committee on student campaign. Mrs. Merrill Bowles ’21 of Bangor is chairman for alumnae, and Dean Joseph M. Murray ’25 of Orono is Treasurer of the Fund.

Other members of the committee are as follows: Avery Hammond ’11, Bangor; Clifton E. Chandler ’13, Portland; Harold J. Shaw ’14, Sanford; Lewis O. Barrows ’16, Boston; Frank O. Stephens ’17, Auburn; Alfred B. Lingley ’20, Warren; Alton T. Littlefield ’21, Augusta; Bryant M. Patten ’23, Springfield; Henry T. Carey ’24, Jersey City; James T. Blair ’25, Manchester, Conn.; Ralph Avery ’27, Concord, N. H.; John H. Mahoney ’27, Worcester; Harry Mayers ’30, Scotia, N. Y.; Harold E. Bryant ’32, Presque Isle; Mrs. Marjorie Murphy ’33, South Portland; Mrs. Lauress T. Parkman ’40, Greenwood, Mass

Organization Progress

In reporting to the Alumni Council at their regular fall meeting during Homecoming, Chairman Fogler stated that substantial progress has been made in creating the necessary organization. The personnel of the Special Gifts Committee has been nearly completed, and plans have been made for a meeting of this group in mid-November.

Alumni for the general campaign will be divided into sixty areas throughout the United States, with a chairman and executive committee for each area. Nearly one-half of the area chairmen have already been appointed.

Building Committee Faces Problem

The Alumni Committee on Union Building Requirements has been diligently at work seeking to have floor plans prepared for the new building which will include all or most of the facilities which the committee had adopted at earlier meetings. Chairman George D. Bearce has announced the appointment of Cram and Ferguson of Boston as architects for the Union Building. This firm is widely known, especially throughout the East, for many notable buildings which they have designed. Already the architects have submitted three sets of preliminary plans.

It became apparent with the first set of plans that the Student-Faculty and Alumni Committees on Union Building Requirements had adopted a list of facilities which called for a building of very large size. The committee therefore is now faced with the serious problem of what can be done to keep the plans and therefore the building cost somewhat in line with the amounts which have been considered in earlier discussions. Further consideration is being given to facilities which the building shall contain. It appears that it may be necessary to omit the big hall or auditorium in order to keep costs in line with the campaign plans.

Agronomy

(Continued from Previous Page)

A State-Wide Service

Besides the indirect benefits of its research program the Agronomy Department is able to offer a direct, state-wide service to farmers though its soil analysis program. In this work a rapid chemical analysis of farm soil samples is carried on to determine the actual content of the soil from which proper steps can be taken to bring it into proper balance and fertility for best production. In this way the modern farmer is able to apply sound scientific practices in the management of his soil resources. Soil samples are sent in by farmers, fertilizer companies, agricultural teachers, and county agents.

Over a period of years an average of more than 3,000 samples per year has been tested in this way; for the present year it is expected that the number of samples will exceed 5,000. The moderate charge of 50 cents per sample is made for this service.

The situation of the Department today with 45 major students and a faculty of ten is a probable foretaste of the future. As the large freshman and sophomore classes of this year move ahead to the point of selecting major fields the interest in this great basic study will undoubtedly increase. New agricultural developments and new horizons of knowledge, as for example, the present interest in chemical weed controls, usually have a direct effect on the department, constantly broadening its field of service. Like many other departments in the College of Agriculture the work of the department is somewhat handicapped today by insufficient space for classrooms, laboratories, and offices; all are looking forward to the day when a new Plant Science Building will open new opportunities for increased service to students and to citizens of the State.
Actor: Fred Libby ‘41, remembered by many younger alumni for his work in the Maine Masque, has made news as a member of the cast of the motion picture “My Darling Clementine” directed by John Ford (Hon. ’38). Libby is cast as Phin Clanton in the picture, a member of the Clanton gang involved in the battle of the OK Corrall. While the part is not an extensive one, he has several speaking lines and plays a convincing part as one of the gang, coming to an appropriate end at the hands of Doc Holliday. Libby is currently under contract with Twentieth Century Fox Films and makes his home in Hollywood.

Rotarian: Ralph H. Alton ’05 is one of 158 District Governors of Rotary International elected for the current year; he will coordinate the activities of 27 Rotary Clubs in Massachusetts. Mr. Alton, who is manager and vice president of the Worcester Suburban Electric Company in Uxbridge, is a charter member of the Rotary Club of Uxbridge organized in 1926. He has also served as president of that club. A graduate in engineering from Maine, Mr. Alton also holds the degree of Eng.D. He was formerly associated with the General Electric Company as a commercial engineer in New Haven, Conn.

Oldest: Prof. George Herbert Hamlin ’73, oldest living graduate of the University, celebrates his 96th birthday this month. Prof. Hamlin, living in Orono, where he has made his home ever since his retirement in 1898, recently posed with other members of his family for a four-generation Hamlin picture. The three adult members of the group are all alumni; Prof. Hamlin, graduated in 1873, served the University for 25 years as a member of the civil engineering faculty and was also the first president of the General Alumni Association, serving three terms in that office. With him are pictured his son, George Harold Hamlin, member of the class of 1913, and George Harold Hamlin, Jr., his grandson, member of the class of 1941, recently returned from service with the Naval Reserve. The other member of the group is George Harold Hamlin, 3rd, who at three years old has as yet no direct relationship with the University but is expected to be an active member of the class of about 1965. Professor Hamlin was honored by the University in 1921 by the award of the Honorary Degree of Doctor of Laws and by the Alumni Association in 1937 by presentation of the Alumni Service Emblem for that year.

ALUMNI: Four generations of the Hamlin family were photographed recently: left to right, George Harold Hamlin, Jr. ’41, George Harold Hamlin ’13, and George Herbert Hamlin ’73; in front row is George Harold, 3rd, 3 years old.

Attorney: The appointment of Sumner S. Clark ’40 of Cape Elizabeth, to the position as attorney for the Maine Central Railroad was announced this month. Clark, a native of Saco and graduate of Thornton Academy, received his degree from Maine in the class of 1940 and three years later received his law degree from Harvard Law School. He subsequently served in the Navy as a lieutenant. He was stationed in the Caribbean for a while and later on an aircraft carrier in the Pacific.

Honored: Managing Editor of the Bangor Daily News, John M. O’Connell, Jr. ’18, is one of some five hundred war correspondents to be awarded theatre campaign ribbons and certificates of merit by the War Department. Presentation of these awards is scheduled for November 23 in Washington with Secretary of War Patterson and General Eisenhower as speakers. The recipients of the special awards are those correspondents who were recommended by the various theatre commanders and only five hundred out of the 2300 writers serving abroad were included in the list. Mr. O’Connell, sent into the European Theatre by the Bangor Daily News, made an outstanding record there.

Retired: Professor Arthur J. Staples ’27 has retired from his position as professor of Mechanical Engineering at Worcester Polytechnic Institute to return to Presque Isle where he will be associated with his father’s manufacturing company, C. W. Staples, Inc. Prof. Staples joined the faculty of W.P.I. following his graduation from Maine in 1927. In 1937 he was made assistant professor and attained his full professorial rank in 1945, all in the field of mechanical engineering. He also served several years as acting superintendent of heat and power for the Institute.

Chemist: Walter L. Sturtevant ’08 of the Manhattan Rubber Company, Passaic, N. J., has been awarded a Naval Ordnance Emblem for distinguished service on Technical Committee A of the Society of Automotive Engineers and the American Society for Testing Materials. Announcement of the award was made in the publication of the Manhattan Rubber Company and the general press. Mr. Sturtevant also received letters during the war from the Navy Department expressing appreciation for service in connection with surveys and analysis of the Navy’s rubber requirements and uses.
On October 23 official ceremonies marked the formal transfer of The Brunswick Campus to the State of Maine for use by the University. Participating were representatives from the Navy, the State, and the University. The colorful ceremony marked not only the official confirmation of the use of the Brunswick Naval Air Station as an annex to the University but also a historic incident in the life of the University, the first time that a complete educational unit has been established and operated apart from the Orono campus.

Ceremony

Prominent at the transfer ceremony were Rear Admiral Morton L. Deyo, Commandant of the First Naval District, Governor Horace A. Hildreth (H '45), Edward E. Chase '13 of Portland, President of the Board of Trustees, Dr. Arthur A. Hauck, and Philip S. Wilder, Assistant to the President of Bowdoin College. Representing The Brunswick Campus was Director Jasper F. Crouse.

In the formal presentation of the colors of the Naval Air Station by Admiral Deyo to Governor Hildreth, the Navy formally relinquished control of the base. Then the Governor in behalf of the state presented the colors to Trustee President Chase marking the creation of the annex campus official. Among the spectators were the more than 800 freshman students, veterans of World War II, for whom The Brunswick Campus offers an opportunity for a college education which would otherwise be denied them. Special guests included members of the Board of Trustees, administrators from the Orono campus, members of the Governor's Council, several Naval officials, and officials from Bowdoin College and Bates College.

Previous to the presentation ceremony, the official party went on an inspection of the facilities of the new campus. Included in the 35 buildings to be used by the University are dormitories, classrooms, laboratories, recreation facilities.

The Campus

Although born of the utmost necessity, the finished product at Brunswick is a campus of which any Maine alumnus can be proud. It utilizes 35 buildings of the former Naval Base. The educational program is based entirely on the standard, accepted freshman program at Orono with no lowering of educational or other standards. Included in the registration there are students in all the colleges of the University, Agriculture, Arts and Sciences, and Technology. Departmental work is carefully supervised by Department Heads at Orono who make weekly visits to the annex or by departmental chairmen located there who are directly responsible for the proper administrative heads at Orono. Sub-offices of the Business Manager, the Treasurer, the Registrar, and the Librarian have been set up there to provide local service in each function.

The completed registration last month showed attendance of 805 students at the annex. Plans had been made for 800 admissions, so the final figure is a great tribute to the careful planning and attention given to admissions by Percy Crane, Director of Admissions, who handled both the Orono and Brunswick entrances.

With the opening of The Brunswick Campus a new chapter in University history was started. How long the unusual conditions now prevailing might make it necessary to retain use of the annex, and at one present knows. Plans are being made now to accommodate the present Brunswick group on the Orono campus as sophomores next year, but that it might be necessary to place a new group of freshmen there next year seems a likely possibility from the apparent continuation of heavy demand for educational opportunities.

Scouter George D. Bearce '11 of Bucksport was one of five New Englanders to be honored recently by the Boy Scouts for outstanding adult leadership by the award of the coveted Silver Antelope Award. The 25th annual meeting of Region One, B.S.A., at Swampscott, Mass., was the occasion of the award. Mr. Bearce, general manager of the Maine Seaboard Division of Time, Inc., has been for many years an ardent worker in the Katahdin Area Council of the Scouts serving northeastern Maine. Among the many positions he has held are those of troop committee chairman, district committee member, Hancock County district committee chairman, president of Katahdin Area Council for three years, member of the regional committee, and member of the national council.

Teacher Stacy L. Bragdon '19 of Bradford Senior High School, Wellesley, Mass., was elected president of the Norfolk County Teachers Association at the annual meeting of that group recently. Mr. Bragdon, who has been on the faculty of the school for many years, has been acting principal during the absence of the principal for war service.
APPPOINTMENTS and PROMOTIONS

Appointments of 112 new faculty members, administrators, and graduate assistants and fellows to the Orono campus and of 39 to The Brunswick Campus was the direct result of the overwhelming demand in all departments of the University this year. Highlighting the list of new appointments were two of special importance. In the College of Arts and Sciences Professor Wayne Jordan was named professor of Journalism, a field of teaching which was not offered during the war years and which is sure to be in wide demand. Professor Jordan comes to his new duties with a rich background of practical journalistic experience. He is a graduate of Marietta College where he received the A.B. in 1924 and of Columbia University where he was awarded the A.M. in 1939. He has taught at Columbia and at University of Cincinnati. From 1929 to 1942 and again from 1945 to 1946 he served as news editor for Business Week. During the intervening years he was in service as a Captain of Marines.

In the Agricultural Experiment Station Dr. Chester W. Hitz has been named Associate Horticulturist and will head a new department of horticulture for the Station. He will also devote part of his time to Extension work in horticulture. Of Missouri farm background, Dr. Hitz graduated from University of Missouri in 1936. In 1941 he received his doctor's degree at University of Maryland in pomology. He has engaged in teaching and research at University of Maryland and has been an orchard manager. During the war he served in Europe.

Orono Faculty Appointments

Thirteen other appointments to the Orono faculty have been made above the rank of instructor. A brief description of their educational qualifications and recent experience is all that space limitation allows. Many of them are World War II veterans.

Jonathan Biscoe, assistant professor of Physics, B.S., M.I.T., 1930, M.S., M.I.T., 1932; before coming to Maine taught at Amherst College.

Franz E. Hohn, assistant professor of mathematics, B.S., McKendree Coll., 1936; M.S., U. of Illinois, 1937; Ph.D., U. of Illinois, 1940. Last year taught at Guilford College.

Louis E. Knollmeyer, assistant professor of economics, B.A., Yale, 1939; M.A., U. of Wisconsin, 1939; has taught at University of Wisconsin.

Vincent E. Shainin, assistant professor of Geology, B.A., Columbia; has taught at Columbia; has been employed in various geologic field work, including studies for the federal government of deposits in Maine.

Charles F. Virtue, associate professor of philosophy, B.A., U. of Cincinnati, 1925; Ph.D., Yale, 1933; comes to Maine from University of Louisville.

Other Appointments

In addition to new members of the regular teaching faculty, several new staff members should be introduced. Dr. Robert C. Cornwell, M.D., graduate of Colby College and Tufts Medical School, was named this summer as University physician to head the campus Health Service. He replaces Dr. Walter C. Hall, retired. Two appointments have been announced in the Technology Experiment Station.

(Continued on Next Page)
Bangor Alumnus Leaves Bequest For Scholarship

The University is the recipient of a bequest of $4,000 from the late Mott F. Wilson '89 of Bangor who in his will left the sum to establish the Mott F. Wilson Scholarship. The income from the bequest is to be used as a scholarship award annually to a deserving male student from Maine.

Mr. Wilson, who died at the age of 78 on August 13, was a familiar figure at alumni activities on the campus.

Following are the provisions of the will by which the bequest has been made:

"I give and bequeath to the University of Maine in Orono, Maine, in trust, the sum of Four Thousand Dollars ($4,000.00), to establish the Mott F. Wilson Scholarship, the principal of which shall be held intact, and carefully invested by the Trustees of said University as a permanent endowment Fund, the net annual income to be awarded to a deserving male student of the University whose home is located in Maine, and whose character, industry and promise make him worthy of receiving said scholarship. The Trustees to be the sole Judge.

"At the death of my said wife, whatever remains of my estate I give and bequeath to the University of Maine in trust, to be added to the Mott F. Wilson Scholarship as mentioned in paragraph numbered two—and to be administered as therein directed."

Appointments and Promotions

(Continued from Previous Page)

Alpheus C. Lyon, Jr., '34 is assistant engineer and Herbert Freedman '44 is assistant chemist. Joseph P. Zabilski has been named assistant football coach.

The Brunswick Campus

Meanwhile at The Brunswick Campus an almost entirely new faculty has been appointed under the direction of Jasper F. Crouse, Brunswick Director. Three of the new appointments hold the rank of assistant professor. They are: Martin Knopf, assistant professor of chemistry, a graduate of the University of Munich and holder of the Ph.D. from University of Berlin; Willard J. Martin, assistant professor and chairman of chemistry, B.S., U. of Minnesota, 1937; Ph.D., Cornell, 1941; and Samuel L. Thordikle, assistant professor of mathematics, A.B., Harvard, 1927, Ph.D., U. of California, 1932.

New instructors at Brunswick are: George W. Allen, physics; Albert A. Bar- den, Jr., chairman of zoology; Raymond W. H. '41, botany; Paul R. Doe, chemistry; Richard G. Eaton, physics; Jonathan W. French, Jr., chairman of languages and assistant to the Director; Samuel M. Given, mathematics; Elizabeth B. Gordon, Romance Languages; Alton S. Hamm '38, engineering drafting; Phillip L. Hamm '43, mathematics; Beatrice Austin Hannon '41, English; Frank B. Hanson '42, speech; Constance L. Hedin, M.A., Maine '45, English; Charles A. Johnson, engineering drafting; Carroll L. Knapp, Jr., '43, chemistry; Roy C. Lacy, English; Nancy D. Libby, English; Harold W. Louder, chemistry. David H. Macomber, zoology; Bruce Mazlish, history; Constance Shaw Mazlish, Spanish; Donald E. McGraves '38, English; Herbert A. Melilhons, mathematics; Everett Nason '40, engineering drafting; Robert E. Raymond, supervisor of athletics and recreation; Donald B. Sands, English; Bernard Sass, zoology; James D. Smith, history and chairman of social sciences; Barbara Stanhope, English; Mark C. Wendt, engineering drafting; Therese I. Dumais '46, speech; Francis C. Girgas, chemistry; Neil W. Hall- yard, mathematics; Morton C. Patten '45, physics; William B. Stallworthy, zoology; and Thomas R. Woolley, Jr., '41, speech.

Dr. Chester W. Hiltz has been appointed Associate Horticulturist in the Agricultural Experiment Station.

Two regular faculty members from Orono have also been assigned to the Brunswick Campus: Frederick B. Oleson, M.S., Maine, '40, as assistant professor and chairman of physics; and Milford E. Wence, as associate professor and chairman of English.

Among the administrators of the Brunswick Campus are: Francis S. McGuire '31, assistant to the Business Manager in charge at Brunswick; Marcia A. Allen, assistant to the Registrar, in charge at Brunswick; Katherine W. Trickey '32, assistant to the Librarian, in charge at Brunswick; and Harri W. Gordon, assistant to the Treasurer, in charge at Brunswick, and Dr. Charles L. Tuttle, physician.

Faculty Promotions

The President's Office has listed the following faculty promotions for the current year.

College of Agriculture: Dr. Eugene C. Ogden from Instructor in Botany to Assistant Professor of Botany; Fay Hyland, Assistant Professor to Associate Professor of Botany.

College of Arts and Sciences: Dr. Edward N. Brush from Associate Professor to Professor of Psychology (Has been appointed Acting Dean of Graduate Study); Dr. E. Kenneth Wills from Assistant Professor to Associate Professor of German; Dr. Frederick B. Oleson from Instructor in Physics to Assistant Professor of Physics (Assigned to The Brunswick Campus); Dr. Wilmarth H. Starr from Assistant Professor to Associate Professor of Romance Languages (Has been appointed Acting Head of Department of Modern Languages and Classics); Dr. Milford E. Wence from Assistant Professor to Associate Professor of English (Assigned to The Brunswick Campus).

College of Technology: Dr. Irwin B. Douglass from Associate Professor to Professor of Chemistry; Lyle C. Jenness from Associate Professor to Professor of Chemical Engineering; Matthew McNeary from Assistant Professor to Associate Professor of Engineering Drafting; Kenneth L. Parsons '34 from Instructor in Electrical Engineering to Assistant Professor of Electrical Engineering.

Physical Education for Women: Margaret Eileen Cassidy from Instructor in Physical Education to Assistant Professor of Physical Education for Women; Marion E. Rogers '30 from Assistant Professor to Associate Professor of Physical Education for Women.

Agricultural Experiment Station: Dr. Reiner Bonde from Instructor in Plant Pathology to Plant Pathologist; Merle T. Hildborn '32 from Assistant Plant Pathologist to Associate Plant Pathologist; J. Robert Smyth from Assistant Poultry Husbandman to Poultry Husbandman.
Lecturer—
The noted author and economist Stuart Chase was the speaker at the second assembly of the University October 24, speaking on the subject of "Full Employment." Declaring that "mankind is in one of the most profound transitions of history," Mr. Chase emphasized that in the thinking of the nation during recent years the question of maintaining a high level of employment has been one of the most important factors. Recommending straightforward thinking, planning, and action on the part of citizens and statesmen alike, the speaker pointed out a sound middle road to this desired goal between the authoritarian state on the one hand and a planless economy with recurrent depressions on the other.

Masque—
Announcing the dates and subjects of the first two Masque plays for this year, Professor Herschel Bricker made public plans for an ambitious season for the student actors and actresses. First play will be "State of the Union," scheduled for November 20 to 23. The current Broadway hit has been acclaimed as one of the outstanding dramatic works of recent years. It is listed as a comedy with political and international implications. The second production to be given will be "Elizabeth the Queen" and is scheduled for December 11 to 14. Other plays will be given in March and May.

Research—
The Physics Department of the University has been selected to conduct research on the index of refraction of various gases at high pressures. The work will be carried on by Victor Coffin '31, member of the Department. Work will be done in part by a special displacement interferometer designed by Prof. Clarence Bennett, head of Physics. The work is part of a Navy policy to assign special research problems to accredited colleges and universities.

Radio—
At its first meeting of the year the Maine Radio Guild made plans to continue its regular weekly broadcasts over Station WLDZ, Bangor, on time given by that station as a public service feature. It is expected that the time of the University broadcasts will continue to be Wednesday evenings at 7:30. The Guild will shortly hold auditions for all interested students. The work of the Guild is under the direction of the Department of Speech with Mrs. Marjorie Williamson as the new adviser. President is Ralph Higgins.

International—
Seven students from four foreign countries gave an international aspect to the University's registration last month. Two students from China, both under the sponsorship of the Chinese government, are Hun Lee, Psychology major, and Ling Hou, Pulp and Paper major. Greece has two representatives in Stephanos Kazakos and Antonios Papadopoulos, both in the College of Technology. Kristian Fouger who began his study in Pulp and Paper last spring has been joined by his fellow Norwegian Jan Willoch, also in Technology. The sole representative from India is L. V. Subba Rao in Technology.

Speaker—
President of the Norwegian Parliament, Dr. Carl J. Hambro, was the guest speaker at the first University Assembly of the year, October 11. Dr. Hambro, statesman, journalist, and member of the United Nations Organization, addressed the assembled students and faculty on the subject of the Paris Peace Conference. He praised the work of Secretary Byrnes in maintaining open diplomacy and said that the new type of conference procedure was to the advantage of small nations. "Out of these free talks," he stated, "a new democracy will emerge."

M. C. A.—
Opening the year with an Open House on October 4 the Maine Christian Association inaugurated an active program for both students and faculty. Regular weekly meetings of the joint men's and women's cabinet have been started. The Freshman Club, social group for the first-year students, has been activated. Refurbishing and improvement of the M.C.A. building is under consideration. Other sponsored activities include Sunday morning worship services, a campus-wide membership drive, and special vespers services.

Scholarship—
The award of the Agricultural Club Scholarship to Paul Dow, a junior in the College of Agriculture, was announced last month. The award was announced by Dean Arthur Deering '12 at a regular evening meeting of the club. The scholarship of $50 is given annually to a junior or senior who has done the most to further the interests of the College of Agriculture. Dow has been an active leader in numerous campus undertakings.

Week-End—
"Victory Week-end" was the name chosen by the campus for the final wind-up of the football season in its Bowlboin game and attendant social activities. With a special train planned for the Brunswick trip and no classes scheduled for Saturday, November 9, students looked forward to a big program. Opening the events was the first semi-formal dance of the year in the Memorial Gym sponsored by the Off-Campus Men's organization. The Saturday trip to Brunswick justified the selection of the name as the students returned triumphant to regular campus activities again following victory over their Bowlboin rivals.

Prism—
The plans for producing the 1948 Prism have already been launched under the leadership of Editor Bryce V. Lambert and Business Manager Willis E. Anderson. Several staff appointments have been made already, including Constance Howe and Ripon Haskell as assistant editors. Robert Brown will be assistant business manager. Joe Wedge is advertising manager. Arrangements are underway for the usual junior class pictures and, for the first time since early war years, fraternity photos will be a feature of the volume. The new book, because of sharply increased costs in production, will sell for $6.50 instead of the pre-war $5.00.

Singer—
Baritone Earle Spicer brought his inimitable interpretation of English and American ballad singing to the campus on November 7 in an assembly program which was received with greatest interest by his audience. His singing is done against a background of sympathetic understanding of the old songs which makes them more human and real than is often the case. Mr. Spicer has a dramatic sense and a delightful humor to which he gives free rein in explaining and interpreting his songs. The introductory explanations given before each selection are educational in the extreme.

Hockey—
Alumnae during Homecoming were treated to two close decision hockey games at the Women's Athletic Field Saturday morning. In the first game the freshmen, battling for alleviation of freshman insignia rules, put up stiff opposition to win from the sophomore team 2-0. The second game featured an alumnae team and a selected student team. It was a hard fought contest but the "old grads" emerged on the short end of the score 2-1.
The Fifteenth Homecoming

Some 300 alumni, faculty, and guests enjoyed the Alumni-Faculty Luncheon, climax of the University's Fifteenth Homecoming Program on Saturday, Nov. 2, just before the Colby-Maine football game. Feature of the Luncheon program was the presentation of Alumni Service Emblems to the winners of that award since 1942, since this is the first year that materials have been available for the manufacture of the actual emblems themselves. Speakers at the Luncheon included Dean of Men Elton “Tad” Wiedman, Colby President Julius Bixler, and President Arthur A. Hauck.

The emblem winners who were honored at the Luncheon included: Prof. Charles P Weston '96, the 1946 winner; George S Williams '05 of Augusta, the 1945 winner; George D. Beards '11 of Bucksport, the 1944 winner; Charles E. Crossland '17, the 1943 winner; and the late Norman H. “Spike” Mayo '09, winner in 1942. The death of Mr. Mayo in 1943 made it necessary to present his emblem by proxy; it was received by his son Donald of the Class of 1938. Presentations were made by the Toastmaster, Robert H. Thurrell '15, President of the General Alumni Association.

A special guest of honor at the Luncheon was Dean Arthur L. Deering '12 who was chairman of the first Homecoming Program Committee in 1931.

Other noteworthy events of the week end were many. On Friday the program began with a football rally followed by the annual meeting of the M Club and a stag dance. During the M Club meeting the group reelected Stephen R. Buzzell '20 of Old Town president.

Saturday morning featured a Jayvee football game with MCI and, for the alumnae, two field hockey games. During the afternoon, following the varsity football game, alumni and students joined in...the M Club and a stag dance. During the M Club meeting the group reelected Stephen R. Buzzell '20 of Old Town president.

Saturday night completed the program.

Outstanding memory of the alumni returning for the Fifteenth Anniversary Homecoming was the success of the football team in defeating Colby on a wet, snowy field. In spite of the adverse weather conditions the largest crowd of the year cheered the teams as they fought through an exciting game for a Maine victory, 14 to 6. This alone would mark the program a successful one to alumni; other events of the week end added to their enjoyment and provided a pleasant background for the opportunity to visit the campus once more, to see the many changes which have taken place, and to meet again their old classmates and friends.

The 1946 Homecoming was under the direction of a committee of which Professor Winthrop C. Libby '32 served as chairman. Others on the committee were Mrs. Joseph M. Murray, Miss Marion Rogers, Mrs. William Alexander, Mrs. Gordon Raymond, Ted Curtis, Kenneth Parsons, and Fred Lamoreau.

The Maine Club of Auburn-Leviston enjoyed a get-together at the camp of Harold Cooper '15 at Thompson Pond on October 31. Twenty-one members and guests attended the meeting. Plans were announced for the next meeting of the group on November 26 at Howard John­son Restaurant, Auburn, featuring a chicken pie supper and the Alumni Secretary as a speaker.

President of the General Alumni Association Robert F. Thurrell '15 was toastmaster of the Homecom­ing Luncheon.

BOOKS by ALUMNI

The career of Elmer Drew Merrill '98, eminent botanist and recently retired Director of the Arnold Arboretum, Harvard, was honored by publication of Merrilliana, A Selection from the General Writings of Elmer Drew Merrill by the Chronica Botanica Co., Waltham, Mass. The occasion of the publication was the 70th birthday of Maine's outstanding contributor to the science of biology; the method has been to combine in one volume for the first time selected, significant writings of Dr. Merrill from various scientific publications over the long span of years of his active professional career. The result is a dignified, interesting, and representative volume which does credit to its editors as well as to the man it honors. Within its 266 pages is a truly surprising variety of material attesting, as no other publication could do, the infinite variety and keen insight of scientist Merrill. The selections begin with several articles from the Philippines and adjacent Asiatic areas where Dr. Merrill did much of his early work and on which he is regarded as a world authority. From there the selections range through articles on leprosy, the technique of inserting published data in the herbarium, relation of domesticated plants to culture diffusion, tobacco in New Guinea, and critiques of various lesser-known botanists, to name, at random, a few of the 23 articles. The date of the first one was 1907, the last, 1946. The publication also lists a complete bibliography of Dr. Mer­rill's writings, no small task in itself, and a useful biographical tabulation of the important dates in his life.

Questions about the state of Maine are answered by a new volume by Stanley B. Atwood '11, city editor of the Lewiston Sun, who in a carefully compiled volume has attempted to bring together as much detailed, permanent information about Maine as possible. Dealing with the relatively unchanging, the book intentionally omits such changing items as population statistics and concentrates on matters of geography, history, and natural features. The result is a book which well justifies its name, The Length and Breadth of Maine. Maps, bibliographies, and careful indexing all add to the usefulness of the book for reference. Included in the volume are such items as sources of place names, chronology of towns, descriptions of wild life, and drainage districts, to name a few, and many interesting side­lights and comments by the way add to the general interest. The volume includes 26 pages of maps covering every Maine county and a lengthy bibliography to which the reader is referred by key words.

THE MAINE ALUMNUS

10

NOVEMBER, 1946
Cross Country Team
Has Fine Season

Maine 15—Bates 50

At Lewiston on October 19, in the first meet of the season, Maine's cross country runners brought home all seven men in a tie for first place to score a decisive 15-50 win over Bates. The Maine runners, Johnson, Libby, Danforth, Everett, Hanson, Wilson, and Blethen, finished the course in 25 minutes, 35 seconds.

Maine 23—New Hampshire 32

Undefeated in two tries the Maine cross country runners set a new mark for the Orono course in defeating New Hampshire on October 26, 23 to 32. First place went to Lloyd Blethen of Dover-Foxcroft who cut the course mark 25 seconds in finishing in 18 minutes, 19 3/4 seconds. A New Hampshire man came in second, then Folsom and Johnston came in together for Maine. Other positions were close but Maine managed to hold a clear lead over the strong visiting teams.

State Series Winners

The Maine Cross Country team, undefeated so far this season, swept to an almost complete victory at Augusta on Nov. 4 winning by a team score of 20 out of a possible 15. Individual honors went to Lloyd Blethen who easily led the pack home on a difficult, muddy course, in the time of 19 minutes, 32 3/4 seconds. Maine in amassing the win placed men in first, third, fourth, seventh, ninth, tenth and eleventh positions. Second place winner was Bowdoin for team scores with 55 points. Colby, although not fielding a full team of five to compete in the team scoring, placed in second position, behind Blethen, their ace runner Dana Robinson.

Scorers for Maine behind Blethen were: Thorton E. Johnson, third; Elmer L. Folsom, fourth; Frank W. Danforth, Jr., seventh; Ronald W. Everett, ninth. Tied for tenth and eleventh places were Samuel S. Silsby, Jr., and Robert H. Hanson.

Blethen who was schoolboy champion in 1942 ran to a comparatively easy victory over his opponents. The poor running conditions of the wet Country Club course prevented a faster time and any attempt to challenge the course record of 19 minutes 5 seconds.

New England Meet

Maine's harriers finished in a tie for fourth position in the New England Intercolligate at Boston November 9. Tied with them was New Hampshire with 108 points each. The run brought out a heavy concentration of good runners and strong teams. Winner was Rhode Island with a score of 73, followed by Springfield College and M.I.T. in team scoring. For Maine first man in was Lloyd Blethen in fifth place in the race in the good time of 22 09. Other finishers for Maine were Folsom, 11th, Everett, 23rd, Hanson, 34th, and Danforth, 35th.

FOOTBALL

New Hampshire 27—Maine 0

A powerful and well-balanced New Hampshire eleven capitalized on several Maine fumbles and its own strong offensive tackle four times in four periods at Orono on October 12 for a score of 27 to 0. At no time was Maine able to sustain a really threatening drive. The visitors turned loose a perfect scoring play on their first running play of the game after recovering a Maine fumble in the early minutes of the first quarter. From midfield fullback Arnie Card marched from their own 45-yard line to score the only touchdown of the game and to kick the goal. In the second half Maine fought all the way to get back the lead. Things looked bright when a called interference on a long pass from King gave Maine the ball on Bates' one-yard line, but a Maine fumble there was recovered by Bates and in another play the Maine linemen accounted for the safety and the final scoring. Among the Maine players in the backfield Emilie King was outstanding for his kicking, passing, and running. Dombkowski and Hagopian ran strongly but could not break away from a determined Bates defense. In the

Connecticut 21—Maine 20

The second one-point loss of the season came to Eck Allen's boys at Storrs on October 19 as a highly favored Connecticut team was able to eke out a slim victory from a fighting Maine squad 21 to 20. Maine led the scoring at 13 to 7 at the end of the first half and completely surprised the football pre-game guessers by their scoring power and general ability. The surprising Orono team started the game in the first period with a 67-yard march climaxing by a 14-yard run by Dombkowski around end to score. They scored again in the second period after a 52-yard sustained drive when Hagopian went over from the 10. Aided by a strong wind, Connecticut scored three times to lead 21 to 13 in the third period. In the final quarter, Maine, striving hard for its first win of the season, recovered a Connecticut fumble on the 24-yard line. King then passed to Burrill in the end zone. According to Coach Allen the Maine team "showed improvement in every department."

Bates 7—Maine 4

A magnificent Maine line was responsible for a near-upset of the State Series forecasts at Orono on October 26 as its unflattering defense held a highly favored Bobcat offense to an average of less than a yard per play. The powerful forward wall, too, was directly responsible for the unusual scoring of two safeties in the game for Maine's four points. Early in the game King kicked out beautifully on the Bates three-yard line; two tries by Bates netted a yard loss; then the Maine line broke through and blocked the kick. The ball was recovered immediately by the Bates kicker for the first score. Then in the second quarter, finding it impossible to gain consistently through running plays, Bates took to the air and in a swift series of short, accurate passes by halfback Arnie Card marched from their own 45-yard line to score the only touchdown of the game and to kick the goal. In the second half Maine fought all the way to get back the lead. Things looked bright when a called interference on a long pass from King gave Maine the ball on Bates' one-yard line, but a Maine fumble there was recovered by Bates and in another play the Maine linemen accounted for the safety and the final scoring. Among the Maine players in the backfield Emilie King was outstanding for his kicking, passing, and running. Dombkowski and Hagopian ran strongly but could not break away from a determined Bates defense. In the

(Continued on Next Page)
FOOTBALL

(Continued from Previous Page)

second half, Bates, lacking the services of Card who suffered a fractured leg, was barely able to hang onto their slim margin of victory.

Maine 14—Colby 6

The largest crowd of the year at Orono on November 2 saw Maine win its Homecoming game with Colby College, 14 to 6 and thus take the first victory of the season. The breaks of the game, played on a soggy, snowy field, were about evenly divided and the Maine team which has several times this year been denied victory by a narrow margin, was able to make its ability count. Running star of the game was freshman Phil Coulombe of Augusta who scored the first touchdown and turned in several other brilliant ground-gaining rushes from his halfback position. Early in the first quarter, through a hole in right tackle opened by the superb Maine line, Coulombe broke into the clear at Colby's 45 yard line and threw off the attempted tackles of the backs to score. Dombkowski kicked the placement. Thereafter the teams battled back and forth constantly threatening, but with good kicking on both sides keeping the goal lines uncrossed until the fourth period. Then, an attempt to punt resulted in a fumble of the slippery ball which was recovered by Colby on Maine's 4-yard line. Coulombe broke into the clear at Colby's 45 yard line and threw off the attempted tackles of the backs to score. Dombkowski kicked the placement. Thereafter the teams battled back and forth constantly threatening, but with good kicking on both sides keeping the goal lines uncrossed until the fourth period. Then, an attempt to punt resulted in a fumble of the slippery ball which was recovered by Colby on Maine's 4-yard line. Dombkowski plunged for three, Anderson gained ten, Dombkowski lost three, then on the next play Dombkowski plowed through his right and cut quickly to the left for the score. He immediately place kicked the point after. As in every game of the season the Maine line was terrific. On running plays the Colby team was held to a total gain of 55 yards and lost, mostly through a couple of bad center passes, 72 yards. Colby's passing attack, which might well have resulted in a different score, was much handicapped by the condition of the ball as the game was played throughout in a wet, heavy snowstorm. The pass defense of the Maine backs, however, showed real improvement. King especially knocking down several at crucial moments. King's leadership of the team at quarterback was outstanding until his removal in the third period with a bruised rib. He was ably replaced by Hal Parady.

Maine 23—Bowdoin 7

In a fine victory burst the Maine football squad fought the Bowdoin Polar Bear to a standstill to win 23 to 7 at Brunswick on November 9. Scoring included 3 touchdowns and goals and a safety. Starting right at the opening kickoff, Maine invaded Bowdoin territory and finally kicked to the Bowdoin 20-yard line. There Bowdoin fumbled on the first try and Presnell recovered for Maine. Taking advantage of this break, as they did of nearly every one during the game, the Maine team scored on the third play as Nute, playing a fine game at quarter in place of the injured King, tossed a pass to Presnell for the score. Dombkowski kicked the point. Bowdoin roared back in the second period to cover 50 yards in four plays and by way of a tricky short pass followed by lateral scored from the 16-yard line. The second break of the game followed soon after as a Maine punt, rolling loose, hit a Bowdoin player and was recovered by Maine. Again on the third play the forward pass paid off as Parady threw to Burrill for the second touchdown. During the third period Bowdoin, trying desperately to get back into the game, had a pass intercepted by Maine fullback McPherson on the Bowdoin 16-yard line. After a holding penalty Nute took the ball on the 31-yard line, faked a pass, drove through his own left tackle, and with good blocking went into the end zone standing up. For the third time Dombkowski kicked the goal. In the final period, unable to advance beyond the Bowdoin 5-yard line, Maine gave up the ball on downs. An attempted end run by Bowdoin, however, was met by the left side of the great Maine line and thrown in the end zone for a safety, the final score of the game.

Burrill and Nute made an outstanding combination for the game. The Maine line played a consistently tight game, breaking up many plays designed to shake loose Bowdoin runners. A better pass defense than in earlier games was also a factor in the win.

COACHES: The coaching staff which directed Maine's first full post-war football schedule: left to right, Stanley "Wally" Wallace, Trainer; Sam Sezak, Freshman Coach; Windy Work '45, Asst. Coach; George "Eck" Allen, Head Coach; Bill Kenyon, Asst. Coach; Joe Zabiski, Asst. Coach; Bill Irvine '42, Asst. Coach.
Necrology

1884
Cephas Raymond Moore. Information has just been received at the Alumni Office of the death in March, 1946, of Cephas R. Moore of Madison, Wis. Mr. Moore was a member of Phi Gamma Delta fraternity. No details of his passing have been received at this time.

1889
Mott Frank Wilson. Following a brief illness, Mott F. Wilson of Bangor died at his home on August 13, 1946, at the age of 78. Mr. Wilson, for many years an active and enthusiastic participant in alumni activities at the campus, graduated from Maine with a degree in chemistry. He entered the dairy business and for many years operated a farm on the outskirts of Bangor with production of milk and cream his chief activity. He was very active in the Grange and other local programs.

1890
Franklin Orris Andrews. The Founder and President of Economy Engineering Company, Franklin O. Andrews, died on October 4, 1946. Notice of his passing was received from Hollywood, Calif. Previously, Mr. Andrews had lived in Willoughby, Ohio. He was a member of Kappa Sigma fraternity. Additional details of his demise have not yet been received.

1893
Harris Perley Gould. At the age of 75, Harris P. Gould, formerly senior pomologist with the U. S. Department of Agriculture, died at Washington, D.C., hospital October 17, 1946. A native of North Bridgton, the 75-year-old scientist attended Bridgton Academy, the University, and Cornell, where he obtained a master degree in science in 1897. He then taught at Maine in the fields of entomology and horticulture. He joined the staff of the Bureau of Plant Industry, U.S.D.A., on the day of its establishment, July 1, 1901, and worked there for 40 years until his retirement as head of the Division of Fruit and Vegetable Crops and Diseases. He made important contributions to the knowledge of fruit production and was known internationally as an authority on nomenclature. He was the author of more than 100 publications from the department. Mr. Gould was a member of Beta Theta Pi fraternity and of numerous scientific societies, including the American Association for the Advancement of Science and American Horticultural Society.

1897
Ernest Henry Macloon. The report of the death of Ernest H. Macloon on April 11, 1946, has just been received by the Alumni Office. No details of his passing are available at this time. Mr. Macloon was a member of Beta Theta Pi fraternity and formerly resided at Groveton, N. H.

1900
Wildier Xerxes Macurda. The news of the passing of Wildier X. Macurda of Maynard, Mass., on November 1, 1945, has been forwarded to the Alumni Office by Mrs. Macurda. Additional information about his demise have not yet been received. He was a graduate of the Massachusetts College of Pharmacy, following his attendance at Maine and operated a pharmacy in Maynard, Mass., for many years.

1901
Edmund Ireland Davis. At his home in Grass Valley, California, Edmund I. Davis died at the age of 69 early in August, 1946. Formerly a native of Bangor, Mr. Davis attended local schools and the University where he was a member of Beta Theta Pi fraternity. He was graduated from Cornell University and engaged in government engineering projects in various western states, in Porto Rico, and South America.

1903
John Henry Hincliffe. On October 29 John H. Hincliffe of Orono succumbed to a brief illness at a local hospital at the age of 67. A retired school teacher, he had returned to Orono to reside only a few weeks before his death. He was a native of Massachusetts. While at the University he became a member of Phi Gamma Delta fraternity. He taught in the teaching profession and taught in Connecticut for many years, finally becoming superintendent of schools in Orange, Conn.

1915
Joseph Edward Doyle. The sudden death on October 13 in Boston of J. Edward “Dinty” Doyle terminated a long and varied career in the field of journalism, radio, and publicity. He was stricken with a heart attack while traveling to Boston on business and failed to recover. A native of Danvers, Mass., Mr. Doyle attended Maine to graduate in 1915. He was a member of Theta Chi fraternity. He then went to work in the Philippines in a government position and later became editor of the China Free Press to begin his busy career in journalism. While working in China and Japan he became a radio columnist in San Francisco. Here he began his famous radio column “Dialog with Doyle” which has been syndicated to many papers by International News. In 1935 he came to New York to work on the Journal-American and continued his syndicated work. In 1942 he joined the Columbia Broadcasting System and later became Director of Publicity for WABC. This position he held at the time of his death. Besides his work in journalism and radio he was head of publicity and promotion for Rose’s Aquacade at the Golden Gate Exposition in San Francisco and handled publicity for St. Mary’s College football team. He was 52 years old at the time of his death.

1917
David Owen Rodick. Well-known Bar Harbor lawyer and banker, David O. Rodick, 52 years old, died on October 15. A life-long resident of Bar Harbor, he attended the public schools there and the University of Maine Law School. He was a member of Sigma Chi fraternity. He graduated from Boston University Law School and opened a law office in his native town. He became a senior partner of the law firm of Deasy, Lyman, Rodick, and Rodick, and president...
of the Bar Harbor Banking and Trust Co. after serving many years as a Director of that firm. He was a veteran of World War I and an active member of the local Veterans of Foreign Wars of which he served for a time as Commander. He was active also in politics, serving as a member of the Republican Town Committee, state committeeman for Hancock county, and delegate to the Republican National Convention. His many local activities included membership in the Masons, Bar Harbor Fire Department, Chamber of Commerce, Newcomen Society, and presidency of Morang Automobile Company.

LOUIS PATRICK DESJARDINS

Report has been received of the death of Louis P. Desjardins of North Attleboro, Mass. No details of his passing are available at this time.

1924

EARL RAYMOND PORTER

The sudden death of Earl R. Porter of North Yarmouth at the age of 49 occurred on September 18 in a Bangor hospital. A native of Cumberland Center, he lived most of his life in North Yarmouth. He attended the University of Maine and also Springfield College during World War I, and served in the Army. Following his discharge, he entered the employ of the Canadian National Railway, working from Portland. He remained with this organization until his death, serving as a special investigator. He was a holder of the Carnegie Medal for life saving, awarded in June, 1914, for rescuing a drowning man near his home. Mr. Porter was a veteran of World War I, serving as a private in the 18th Engineers and as Adjutant. Since the last war he had been active on a committee for reemployment of returning veterans.

1946

DORIS BRIERTON

Word has been received that Doris Brierton, former member of the Class of 1946, died on February 4, 1944. No details of her passing have been learned.

BY CLASSES

1890

Allan C. Hardison of Santa Paula, Calif., was the official delegate from the University of Maine at the inauguration of Dr. Arthur G. Coons as President of Occidental College, Los Angeles, Calif., last fall. Mr. Hardison also reports that during August he enjoyed a ten-weeks trip to South America, visiting locations in Peru where he had been fifty years ago.

1893

Change of residence address has been received from George A. Whitney formerly of Boonton, N. J. Mr. Whitney’s present address is 372 N. Orange Parkway, Orange, N. J.

1899

The retirement of Arthur C. Wescott of Allentown, Pa., has been announced by the Crowley Milk Co., Inc. He served as manager of that company for a number of years after coming to Allentown in 1938 to develop a territory there. On the occasion of his retirement, he was tendered a dinner by fellow employees. He continues to reside at 236 S 15th St. Allentown, Pa.

1901

After more than 27 years of service with the Ohio Electric Mfg. Co., of Cleveland, Ohio, William Whittier retired from active business on August 1. He is now living in Sea-Isport.

1902

Harry E. Duren of Greenfield, Mass., was retired from a position as vice president of Western Massachusetts Electric Co. He will continue as a member of the board of directors of that company. Mr. Duren was first employed by General Electric, serving them for a time in San Francisco. He later worked for various companies, until entering the employ of Greenfield Electric Light and Power Co. in 1921, becoming president of that company in 1939. The consolidation of that company with other utility companies in that section in 1942 brought him into position as vice president which he has discharged since.

1905

Alphonzo Wood of New York City and Mrs. Wood vacationed in the Belgrade Lakes this summer. Mr. Wood is president and treasurer of Thorne-son and Company, Inc., of New York, and lives at 720 Riverside Drive, New York, N. Y.

1906

Oscar H. Dunbar of Machias has completed 15 years as a member of the State Board of Bar Examiners and has always been active in its work with the Board. During his three five-year terms, Mr. Dunbar has rendered outstanding service to the legal profession and the people of the State of Maine.

1907

Word has been received from William B. Alexander, director of sales for the Barrett Company, that he is looking for a retirement from active business at the end of this year and hopes to make his home in the vicinity of Boston. Having disposed of his home in New Jersey he requests that mail be addressed to his business address at 40 Rec­tor St., New York 6.

For the first time in many years, writes Robert E. Clayton, he, with his wife and younger daughter, was able to spend his vacation in Maine this year. They were at Islesford Point, Islesboro. Mr. Clayton is associated with the Servus Rubber Company in Rock Island, Ill., with address at 1626 18th Ave.

1911

Alien H. Blaisdell, Associate Professor of Mechanical Engineering at Carnegie Institute of Technology in Pittsburgh, acted as the official delegate from the University of Maine at the inauguration of H. Case, Jr., as president of Washington and Jefferson College last month.

1912

Representative Frank Fellows of Bangor has been appointed a member of the House committee on cam­paign expenditures by Speaker Rayburn. Mr. Fellows has served the city of Portland as Counsel for 10 years and has also been a member of the State House of Representatives.

1915

The appointment of Joseph H. Bodwell as rural service representative has been announced by the New Hampshire Gas & Electric Co. Mr. Bod­well will serve the company in the dis­tricts covering Portsmouth, Newmarket, Derry, and Jaffrey. He has been associ­ated with agricultural problems for 25 years and is noted as a speaker at farm gatherings. He served as rural rep­resentative for several years for the Public Service Co. of New Hampshire and was later employed by Merrimack Farmers’ Exchange. He expects to make his home in the vicinity of Portsmouth.

Dr. Ava Chadbourne, professor emerit­us of education, has sold her home in Stillwater and taken up residence in Poughkeepsie, N. Y., with her sister, Glen R. Cheney is employed in the Indus­trial Relations Division of the Saco­lowell Shaws and Co. His residence address is 56 Payson St., Portland.

F. Drummond Freeze of Bangor was elected first vice president of the Maine Merchants Association last month.

The official delegate representing the University of Maine at the inauguration of the new President of Lehigh University last month was Edward W. Woodson, M. D. Woodson, who is also an alumnus of Lehigh, attended with Mrs. Woodson. He is associated in business with Buck­ley Brothers of 1420 Walnut St., Phila­delphia 2.

The E. I. Du Pont Company has announced the transfer of Harry S. Toole from the New York Depart­ment of that company to the Machine De­velopment Section. Mr. Toole lives at 620 Strathaven Ave., Swarthmore, Pa.

The latest residence address for Charles E. Mullen is given as 1882 24th Ave., San Francisco, Calif.

Lt. Col. and Mrs. William F. O’Don­ogue are now living on Front Royal Road, Winchester, Va. Col. O’Don­ogue is on the retired list from the army.

1918

Brig. Gen. George M. Carter of Augusta, Adjutant General for the State of Maine, was elected first vice president of the Maine Merchants Association last month. The official delegate representing the University of Maine at the inauguration of the new President of Lehigh University last month was Edward W. Woodson, M. D. Woodson, who is also an alumnus of Lehigh, attended with Mrs. Woodson. He is associated in business with Buck­ley Brothers of 1420 Walnut St., Phila­delphia 2.

1919

Samuel Collins of Caribou has been named president of the Uni­versalist Church of Maine during recent sessions of that group. President of the Maine Pharmaceutical Association is Ralph W. Emerson of Island Falls. Mr. Emerson was elected at the annual meeting of the group in September.

1920

Charles E. Mullen is given as 1882 24th Ave., San Francisco, Calif.

1921

Secretary Emilie K. Josselyn, 15 Caryle Ave., is the Ohio Electric Mfg. Co., of Cleveland, Ohio, and is now living at the University of Maine at the inauguration of the new President of Lehigh University last month was Edward W. Woodson, M. D. Woodson, who is also an alumnus of Lehigh, attended with Mrs. Woodson. He is associated in business with Buck­ley Brothers of 1420 Walnut St., Phila­delphia 2.

1924

E. I. Du Pont Company has announced the transfer of Harry S. Toole from the New York Depart­ment of that company to the Machine De­velopment Section. Mr. Toole lives at 620 Strathaven Ave., Swarthmore, Pa.

The latest residence address for Charles E. Mullen is given as 1882 24th Ave., San Francisco, Calif.

Lt. Col. and Mrs. William F. O’Don­ogue are now living on Front Royal Road, Winchester, Va. Col. O’Don­ogue is on the retired list from the army.

1918

Brig. Gen. George M. Carter of Augusta, Adjutant General for the State of Maine, was elected first vice president of the Maine Merchants Association last month. The official delegate representing the University of Maine at the inauguration of the new President of Lehigh University last month was Edward W. Woodson, M. D. Woodson, who is also an alumnus of Lehigh, attended with Mrs. Woodson. He is associated in business with Buck­ley Brothers of 1420 Walnut St., Phila­delphia 2.

1919

Samuel Collins of Caribou has been named president of the Uni­versalist Church of Maine during recent sessions of that group. President of the Maine Pharmaceutical Association is Ralph W. Emerson of Island Falls. Mr. Emerson was elected at the annual meeting of the group in September.

1920

Harry C. Brown has been ap­pointed principal of Stephens High School in Rumford. Mr. Brown has been a teacher in the Rumford school system several years.

Two members of the class associated in the automotive field are Arthur N. Couri and Dewey W. Wood, Portland, and president respectively of the Couri Motor Company of Portland. Expansion of their GMC truck sales and service business was announced recently with opening of new sales and service station exclusively for trucks in Portland.

1921

Secretary Emilie K. Josselyn, 15 Caryle Ave., is the Ohio Electric Mfg. Co., of Cleveland, Ohio, and is now living at the University of Maine at the inauguration of the new President of Lehigh University last month was Edward W. Woodson, M. D. Woodson, who is also an alumnus of Lehigh, attended with Mrs. Woodson. He is associated in business with Buck­ley Brothers of 1420 Walnut St., Phila­delphia 2.

1919

Samuel Collins of Caribou has been named president of the Uni­versalist Church of Maine during recent sessions of that group. President of the Maine Pharmaceutical Association is Ralph W. Emerson of Island Falls. Mr. Emerson was elected at the annual meeting of the group in September.

1920

Harry C. Brown has been ap­pointed principal of Stephens High School in Rumford. Mr. Brown has been a teacher in the Rumford school system several years.

Two members of the class associated in the automotive field are Arthur N. Couri and Dewey W. Wood, Portland, and president respectively of the Couri Motor Company of Portland. Expansion of their GMC truck sales and service business was announced recently with opening of new sales and service station exclusively for trucks in Portland.
and is engaged in the practice of general surgery. His office: 29 Bay State Road, Boston. His home: 68 Colbert Road, West Newton.

Perceval B. Crocker writes that of first importance in his biography is his contribution of two members, Marian Crocker and Bristol Crocker, to the U. of Maine. His other daughter is a graduate of the University of Vermont. Percy is Treasurer and General Manager of The Sentry Company, Industrial Furnaces. His address is 27 Baker Street, Foxboro, Mass.

Joseph S. Robinson is Secretary and Treasurer of The Constellation Lumber Co. In his earlier career he was a writer, a graduate last June 29 of Principia Junior College, at Elsah, Ill. He plans to continue for two more years at Elsah. Another son, Foster, who served at several naval air stations for two years, is studying Business Administration at Maine.

Rena Campbell Bowles of Bangor was recently elected President of Maine Alpha Chapter (Almae of Pi Beta Phi. Eugene Gannon's new address is P.O. Box 104, Chester, New Hampshire.

Vernon F. Hobbs is Bridge Engineer with North Carolina District of Public Roads Administration, Raleigh Bldg., Raleigh, N. C. His home address is 2307 Anderson Drive, Raleigh.

Alden Berry ("Stuffy"), at home in "The Berry Patch," Plainfield Road, Metuchen, N. J., is Head of the Container Control Dept., of the New Brunswick plant of Squibb & Sons.

Harold E. Trevergo is President and Treasurer of the Brunswick Hardware Company. His son, Austin, a June 46 graduate of Principia Prep in St. Louis, plans to take engineering at Maine; his daughter Helen, studying to be a writer, a graduate last June 29 of Principia Junior College, at Elsah, Ill. She plans to continue for two more years at Elsah. Another son, Foster, who served at several naval air stations for two years, is studying Business Administration at Maine.

Vernon F. Hobbs is Bridge Engineer with North Carolina District of Public Roads Administration, Raleigh Bldg., Raleigh, N. C. His home address is 2307 Anderson Drive, Raleigh.

Arthur Chapman, who was vice president for 18 years and president for 2 years of Gilbert Sprague Co., manufacturers of paints and varnishes, is now in business for himself. His company is Synthole Lacquer and Varnish Co. of Philadelphia. To quote Arthur, "I have one son, 17 years of age, who will attend Maine, if I can do a good job of selling." The company is already producing in the Rawlins plant, which seems like quite a chore in these times.

Richard D. Cushman, 115 Codman St, Portland, Me., is among six New Englanders in the Executive Committee of the Association of New England Community Chests and Councils. He has been active in the Portland Community Chest activities for several years, serving as Vice President of the group in 1944 and 1945, and is at present a member of the Community Chest Board.

Elizabeth A. Harkness is teaching mathematics in the High School, Northampton, Mass. For the past two years she has served as President of the Connecticut Valley Section of the Association of Leaders of Mathematics in New England.

Leonard Lord has returned to his former position as Head of the Mathematics Dept., West Haven High School, West Haven, Conn. He lives on Morgan St., Middletown, Conn.

George D. Newhall is employed in the Freight Division of the Boston and Maine Railroad, Broad Street Station, Philadelphia, Pa.

Vance Wells is President of the Franklin County University of Maine Club for 1946-1947.

Roland Wilkins, who was sub-master in Groveton, N. H., High School, is now principal of Winn High School, Winn, Me.

Mrs. Clarence C. Little, Box 558, Bar Harbor, Me.

C. Weston Steward was chosen to represent the University of Maine at the Centennial Celebration of the University of Buffalo on October 3rd and 4th.

Guy E. Griffin is now employed as Associate Chief and Party Chief Engineer for the Office of Inter-American Affairs in Honduras. Central America. His mail goes in care of American Embassy, Tegucigalpa, Honduras, Central America.

Ruth (Bessey) Conti reports that she saw Betty Hunt Lamb at the Maine Parent-Teachers Association in Bangor recently. Betty is Secretary of the State Organization.

More any news, friends? How about a little generosity in the way of sharing it with all of us?

YOUNG MEN AND WOMEN WILL ALWAYS FIND THIS BANKING INSTITUTION INTERESTED AND HELPFUL IN THEIR BUSINESS PROGRESS. RESPONSIBILITY IS REFLECTED BY A CHECKING ACCOUNT, WHICH IS ALSO A FACTOR IN ESTABLISHING CREDIT AND STANDING.
Dr. and Mrs. Donald F. Marshall (Helena Johnson, who have been residing on Bay Street, the Cape Shore (Portland), recently purchased a residence on Surf Road, Cape Shore Park.

Elizabeth Mason is working for the Maine Publicity Bureau as Field Manager. Her address is J St. John Street, Portland.

Henry A. Plummer has been appointed instructor in the forestry department at the U of M. Brunswick Campus.

1932

Mrs. Albert Gerry, P.O. Box 114, Brewer, Me.

Congratulations, Win and Louise Robbins, on the birth of a new daughter, Nancy Sandra, August 3 at the Maine General Hospital in Portland.

Blondie Hincks is employed as a U.S. Probation Officer at 150 Federal Street, Portland, Maine.

Ralph Brooks has a position as engineer with the Westinghouse Air Brake Co., P.O. Box 67, Wilmerding, Pa.

Charles L. Puffer is Superintendent of Schools in Paris, Woodstock and Hebron.

1933

Mrs. Robert Russ, Young, Me.

I forgot to mention last month that at a meeting of the advisory board of the Alumnum, who should appear but Jack Frost looking very fit and well. He introduced us to the very charming Mrs. Frost—a bride of about one week. Jack was thinking seriously of going to Canada where he would take a position with a newspaper—not as an artist but in a business capacity and hoped to be able to draw and write as he pleased. It was a treat to talk with Jack again. He grows more interesting with the years and his abilities seem unlimited.

Al Lyon is employed as assistant engineer in the Technology Experiment Station at the U of M. Stoneham 80, Mass.

Al Lyon is employed as assistant engineer in the Technology Experiment Station at the U of M. Stoneham 80, Mass.

1934

Mrs. Edwin P. Webster, Jr., Box 215, Hampden Highlands.

Sorry to have missed the notes last month, but Tom and I were in the throes of occupying an apartment at 209 W. 107th Street, New York City. Finally we are housed. I hope others of you who were enjoying wide open spaces because of the housing shortage are all enclosed too.

Congressional congratulations are in order for Hazel and Warren Flagg on the arrival of a daughter, Nancy Patricia.

The news items are on the short side this month, but perhaps now that I have an address in the city, I can hope to hear from several of you '33ers who have been so quiet for so long.

During the summer, Dr. Raymond B. Larnoc, Kittery veterinarian, was host to the Dean Baileys. The second child for the Dean Baileys is the second child for the Dean Baileys. Mrs. Robert Russ, Young, Me.

1935

Bill Gilbert has recently been elected an officer of a Life Underwriters Association in New Jersey. Now that must bring the class of '34 fairly well up to date in the insurance world. Kay Hector made the banquet Saturday night, but missed the best part of the Sunday outing. However, we were all glad she could be in on the last end of it, anyway. Kay has resigned her position as supervisor of elementary education for the city of Concord, N.H., and plans to work toward a doctorate degree at Columbia University this fall.

Louise Steeves spent Saturday night with us and it did seem so good to have her here, in fact, one of the things that we had such a small house and couldn't have more people stay with us. Steevie is still working in a drugstore in Lincoln. Joe McCaughen and his twin, Virginia Palmer Parsons also came from Old Town. They have one son, 8 years old.

Harold and Henrietta Woodbury managed to be around part of the time, although Hal was pretty busy with the activities of the week end, as he is in the Physical Ed. Dept. of the University.
Clyde Higgins has a farm in Aroostook County and has left early Sunday to make the long trip back.

Joe Mullen is working for the Maine Tire Co. in Bangor.

Cary Lumsden with the Veterans' Administration at Togus.

Dave White attended, but I’m ashamed to say I have no data on what he is doing now.

Dave Brown and his wife drove up from Washington, D.C. They have one son, David. Dave is with the Civil Aeronautics Administration, and is also writing a column for the Bangor Daily News, entitled "Maine Line from Washington."

Harold and Alice Lord expected to be present, but had to give the trip up at the last minute. We were so disappointed not to see you kids. Harold is in training for a new position as detail man for Squibbs, and will be located in Portland. Mr. Alice and Harold have three children.

Francis McAlary is with the American Waterworks Electric Co., N.Y.C. His address is the Grosvenor Hotel.

If I have omitted anyone, it certainly is not intentional and I hope I will be forgiven.

Dr. Alton Prince is on the faculty at U. of M. Half of his time is devoted to teaching as Asst. Prof. of Botany, and half to research as assistant plant physiologist in the Agricultural Experiment Station.

James Wakefield is asst. town engineer, Winchester, Mass. He and Alice (Campbell) live at 18 Fells Road, that city.

Charlie MacLean is employed as Management Adviser and Administration Officer, Bureau of Naval Personnel, Navy Dept., Washington, D.C. His address is Apt. 234, 1401 So. Barton St., Arlington, Va.

Leslie Seekins and Miss Lucille Bailey of Lynn, Mass., were married August 31 in Portland. Mrs. Seekins is a graduate of Richmond High School and attended Bliss Business College in Lewiston, Me. Leslie is with the Standard Oil Co. and is to be located in Aruba, Dutch West Indies.

Conmir John F. Adams, USNR, was recently awarded the Bronze Star Medal for meritorious service while engaged in anti-submarine activities against the enemy in the Atlantic. John, who served as commanding officer of Composite Squadron 95, was awarded the medal by Adm. Jonas Ingram, Commander-in-Chief of the U.S. Atlantic Fleet.

James Wakefield is asst. town engineer, Winchester, Mass. He and Alice (Campbell) live at 18 Fells Road, that city.

Charlie MacLean is employed as Management Adviser and Administration Officer, Bureau of Naval Personnel, Navy Dept., Washington, D.C. His address is Apt. 234, 1401 So. Barton St., Arlington, Va.

Bob Burns is a copy writer for the A. W. Lewin Advertising Agency, 40 East 49th St., New York, N. Y. His residence is 40-71 Elbertson St., Elmhurst, L. I., N. Y.

1937

Mrs. Robert DeWick, Box 36, Woolwich, Me.

Alice R. Stewart, instructor in History at Wellesley, was recently awarded her Ph.D. degree. Her address is Horton House, Wellesley, Mass.

Bob Corbett recently called on Bob and me. He and Don are running a trucking business in Waterville. Bob was recently discharged from the Army as a Lieutenant—a cargo security officer in the Pacific.

Dr. John J. Murray and his wife, Betty, spent the evening with us not long ago. Johnny goes to Northwestern University this fall as assistant professor of English History. He had been at Ohio State— and during the war was editor of all Douglas Aircraft publications. He did graduate work at U.C.L.A.

Ken Leathers, member of the personnel department at Goodall-Sanford, Inc., recently spoke at the Sanford Kiwanis, telling of his experiences in an army hospital for psychiatric cases.

Clarence E. "Bob" Waterman, Jr., has been appointed manager of the Armour and Company Rockland branch. He is the husband of Lucinda H. Waterman and their small daughter live at 10 School Street, Rockland.

Flora Lutz is a member of the teaching staff at Milton Academy at Milton, Mass.

Judson J. Young, Newport lawyer, has been appointed adjudicator in the adjudication division of the Veterans Administration Center at Togus. Judson obtained his law degree from Peabody Law School in Portland. He entered the service in January 1943 and served overseas with the AAF. Since his return he has been an engineer-draftsman with the National Advisory Committee for Aeronautics, at the research laboratory at Langley Field. Since his discharge in October 1945, he has been associated with his father, Judge William F. Jude, in law practice at Newport.

Shirley R. Parsons is a chemist for the Consolidated Water Power and Paper Co., Wisconsin Rapids, Wisconsin. He resides at 1101 Third Street, South Wisconsin Rapids.

Melvin W. Chamberlain is an entomologist with General Ice Cream Corp., Schenectady, N. Y.

Ralph W. Hawkes is Claims Examiner for the Hartford Accident and Indemnity Co., 650 Asylum Avenue, Hartford 15, Conn.

Floyd N. Elwell is employed by the Wilton Woolen Co. as a spinner.

Thomas B. Evans is a partner in the U. S. Dept. of Agriculture—with Soil Conservation, Cedar City, Utah.

Roderick R. Elliott is now pilot for Pacific Mills. He and Ruby (Black) Elliott live at Spring Road, Bedford, Mass.

George W. McClellan is now employed by the Corning Glass Works as glass technologist. His mail goes to 159 Cedar St., Corning, N. Y.

Ralph E. Wentworth is now employed as bookkeeper for Swift and Company, Oakland, California. His address is 1600 Hampel Street, Oakland 2, Cal.

Newell J. Wilson has returned from the
Lincoln Electric Co., 330 W. 42nd St., New York City, as welding engineer. His address is 37 Everdel Ave., Hillsdale, N. Y.

Robert Oiler is resident physician at the U. S. Veterans Hospital, West Roxbury, Mass. His residence address is 32-D Bay State Road, No. Quincy 71, Mass.

Ernest L. Dismore is a salesman for Crosse & Blackwell Co., 22-22 Jackson Blvd., Yonkers, N. Y. His address is 109-28 217th Street, Queens Village 9, N. Y.

Norma Lovejoy is at Salisbury, New Hampshire, and writes that she is fine. Her brother George is out of the army and in business for himself in Boston. He and his wife live in Cambridge, Mass.

Larry and Jo Snare Dwyer are announcing the birth of Terence Austin on July 13.

Mr. and Mrs. George Hitchings of Hempstead, L. I., announce the birth of daughter Nancy Jane on July 21.

William E. Hickey and Miss Mary Agnes Harvey of Portland were married July 1 in the cathedral of the Immaculate Conception. Mr. and Mrs. Harold Curtis, who have a daughter, Marjorie Linda, born April 1. Their address is 911 Broad Street, Durham, N. C., while Harold is working on a Ph.D. in Forestry at Duke University.

Jack Frost, well-known New England artist, is engaged to Priscilla Young of Newtonville, Mass., and New Orleans, La. The wedding is planned for early fall.

Mr. and Mrs. Herbert I. Philbrick, of Kenduskeag, announce the engagement of their daughter, Edna Irene, to Dr. Edmund T. Laing of Portland. Mrs. Joseph H. Laing and the late Joseph H. Laing of 69 Thurston Avenue, Bangor Miss Philbrick attended the Bangor schools and now operates Edna's Beauty Shop. Dr. Laing is a graduate of the U. of M. in 1938, and the University of Buffalo School of Dentistry.

Mr. and Mrs. Joseph Harringtons have their second son. Ronald Danforth is with the Allis-Chalmers Co. in Milwaukee, Wis.

Mr. and Mrs. George Hitchings held a wedding reception for their daughter Nancy Jane on July 21.

Mr. and Mrs. Herbert I. Philbrick, of Kenduskeag, announce the engagement of their daughter, Edna Irene, to Dr. Edmund T. Laing of Portland. Mrs. Joseph H. Laing and the late Joseph H. Laing of 69 Thurston Avenue, Bangor Miss Philbrick attended the Bangor schools and now operates Edna's Beauty Shop. Dr. Laing is a graduate of the U. of M. in 1938, and the University of Buffalo School of Dentistry.

Mr. and Mrs. Joseph Harringtons have their second son. Ronald Danforth is with the Allis-Chalmers Co. in Milwaukee, Wis.

November, 1946
contact representative in charge of a new Veterans' Administration Contact Office in Bath.

Cliff Blake has been named assistant physical director of the Portland YMCA to be under Mr. Krum Jordan. This past summer, Cliff has been player-manager of the Portland Cornish & Greek New England League. He played center field and finished the season with a .330 batting average.

John Thorne is employed as a radio operator with the Pan American Airways, Prague, Czechoslovakia.

Durant Bowden is an apprentice architectural draftsman for Edward S. Parsons, Architect, 210 W 2nd St., Reno, Nevada. His residence is 7-D Beech St., Reno.

Henry Murdock is Assistant Electrical Engineer A. C. Design Dept. of the Allis-Chalmers Mfg. Co., Forest Ave., Norwood, Ohio. His residence address is 7063 Grace St., Cincinnati 72, Ohio.

Donald Dorr is assistant project leader in Wildlife Research with the Dept. of Inland Fisheries and Game Association, Augusta, Maine.

Dick Cranch is now attending Yale School of Forestry. His mail goes to 205 Prospect St., New Haven 11, Conn.

Eugene Gill is employed as an industrial engineer with the Amoskeag Co. His mail goes to 153 Villa St., Manchester, N. H.

Jordan Dobrow is employed as supervisor for Wilson-Collier Co., 655 Atlantic Ave., Boston, Mass.

Edward Wood is employed in the engineering department in the Metropolitan District Water Bureau of Hartford, Conn.

Edgar Pitts is principal of Stonington High School and is living at No. Deer Isle.

Richard Ramsdell is employed as foreman for the Red River Lumber Co. of Westwood, Calif. His mail goes to Box #1468, Westwood, Lassen County, Calif.

George A. Riese has accepted a position with Stone and Webster Engr. Corp., Boston, as Draftsman in the Design Division. His residence is 7 Woodland St., Arlington, Mass.

Gwendolyn Haskell is employed as clerical and editorial worker—Division of Research of the World Book Company, Yonkers, N. Y. Her mail goes to YWCA, 87 South Broadway, Yonkers, N. Y.

David McKenney is employed as a Physicist for the du Pont Co., Buffalo, N. Y.

Bob Browne is now employed at the Eastern States Warehouse Division, Skowhegan, Maine.

It was great to sit in the stands watching the Northeastern-Maine game in Boston this month, with so many loyal Boston alumni fans. Among them we saw Dan Roberts who is now studying at Babson's Institute in Wellesley, George Smith and his partner, the Hank Foglers, Bob Jenkins at MIT for graduate work in chemical engineering, and Dot Hodgkins stopped in Indianapolis on her way west and is now in Clarksburg, Wash. (P.O. Box 252). Her card stated that Moscow, Idaho, was a much more exciting town than the postcard would have it appear. (We counted five frontier saloons on the front). Lovely town, Moscow.

Two new Ministers swell our ranks this month. John Peters Webster was ordained a Congregational minister at a service in the Williamsburg (Mass.) Church last Sunday. Ernest A. Gooding is minister of the Prospect Congregational Church, Cambridge, and is now living in Cambridge at 220 Florence Ave.

Listen, all ye, and admire their diligence, for these following have once more taken up the pursuit of the will-o'-the-wisp of knowledge and slave once more over the dusty tomes amid recesses in the libraries. Frances Donovan at Katherine Gibbs in Boston, Bob Jenkins at MIT for graduate work in chem engineering, and...
Frank Holden at Harvard for graduate work in some unspecified branch of engineering.

Add those who labor, but not with books—Dick Sinkinson at the Narraganset Electric Co., Tuckerton, N. J.; Roy Lader at the Decatur branch of the Merrill Trust Co.; John Ranks with GE in Syracuse; Phil Talbott among the flowers and bees in Possum Hollow (we presume that the bees, at least, are attracted to his flowers)—to end this confusion, Phil is a florist—address your orders to 21 Congress St., Portland—and dispenses rare orchids with a lavish hand. Ernest Hine, another GE man, is a test engineer in Lynn, Mass.

The logical results of marriage—Chrysalis Collins, b. to Mr. and Mrs. Edward Talbot (Helen Deering) at 1256 Beach St., Yarmouth, Maine, on 6 May, 1945. Constance L. Carter, b. to Mr. and Mrs. E. Talbot (Edith) at 1348 Congress St., Portland, Maine, on 5 June, 1945.-awesome effect on the church windows—and one year as a chemist in an analytical laboratory connected with the Oak Ridge, Tennessee Eastman Corporation plant of the Manhattan project.

Mr. and Mrs. John Teriault of Old Town announced the marriage of Miss Constance L. Carter, b. to Mr. and Mrs. E. Talbot (Edith), at the Bethlehem Chapel of St. John's Episcopal Church in Bangor, Maine, on 31 August, 1945. Mr. Teriault is now employed in the Diesel department of the American Locomotive Company in the same city.

The engagement of Vinetta MacDonald to James A. Glunt of Smithfield, Pa., was announced in September by her parents. Vinetta recently returned to inactive duty from the U. S. Naval Reserve. Mr. Glunt, a graduate of Penn. State, served as an officer for two years in the Navy Reserve and has now returned to the metallurgical department of Jones & Laughlin Steel Co. in Aliquippa, Pa.

Lyndall Knapp has been appointed as instructor in chemistry for the Brunswick Campus of the University of Maine. Prior to this appointment, Miss Knapp has had two years of production supervision experience and one year as a chemist in an analytical laboratory connected with the Oak Ridge, Tennessee Eastman Corporation plant of the Manhattan project.

The engagement of Vinetta MacDonald to James A. Glunt of Smithfield, Pa., was announced in September by her parents. Vinetta recently returned to inactive duty from the U. S. Naval Reserve. Mr. Glunt, a graduate of Penn. State, served as an officer for two years in the Navy Reserve and has now returned to the metallurgical department of Jones & Laughlin Steel Co. in Aliquippa, Pa.

"Swish" and Franklin Brooks are now living at 35 Main St., naval officer until her discharge in February 1946. Mr. Davis served with the Navy for two years and will attend the University of Wisconsin this fall.

On August 21st Barbara Scribner of Bangor became the bride of William J. Davis of Dodgeville, Wisconsin. In 1944 "Swish" went on active duty with Waves and served as a gunnery officer until her discharge in February 1946. Mr. Davis served with the Navy for two years and will attend the University of Wisconsin this fall.

On October 4th Margery McCubrey became the bride of Roman Evdo at the Bethlehem Chapel of St. John's Episcopal Church in Bangor, Maine, on 31 August, 1945. Mr. Evdo, a graduate of the University of Maine, served with the Navy for two years and will attend the University of Wisconsin this fall.

On August 21st Barbara Scribner of Bangor became the bride of William J. Davis of Dodgeville, Wisconsin. In 1944 "Swish" went on active duty with Waves and served as a gunnery officer until her discharge in February 1946. Mr. Davis served with the Navy for two years and will attend the University of Wisconsin this fall.

On October 20th Betty Piper and Edward Harvey Pierce were married in Damariscotta. Congratulations one and all!

Helen Alexander was one of the ten nurses to receive honorable mention in a nation-wide search for the typical American Nurse of 1946 conducted by the American Nurses' Association. Helen received her training in the five-year nursing course at U. of M., and at present is the nursing arts instructor at the Central Maine General Hospital.

Betty Rowe is teaching English at Foxcroft Academy this fall. Mail goes to 22 Pine Street, Dover-Foxcroft, Maine.

Corporation. Mr. Goodell is now in poultry business. The wedding will take place in the fall.

Mr. and Mrs. George B. Orchard of Belfast, at a recent ceremony performed in the Second Baptist Church of Calais. The reception was held at the home of Mr. and Mrs. Hay in Westport, and the bride and groom went to Boston and New York for a wedding trip. On their return they will be at home at 85 Center Street in Bangor.

Mr. and Mrs. H. William Bradley (Carolyn Chaplin) are now living at 872 Worcester Street, Wellesley 81, Mass.

Miss Mary Elizabeth O'Leary, daughter of Mr. and Mrs. Charles J. O'Leary, recently became the bride of Robert H. Beede, son of Mr. and Mrs. Harry L. Beede of Brewer. A reception and wedding breakfast at the Penobscot Hotel followed the ceremony. Mr. and Mrs. Beede are now in New York for a wedding trip. On their return they will be at home at 85 Center Street in Bangor.

Miss Margaret Elaine Carlisle, daughter of Mr. and Mrs. George Thomas Carlisle, became the bride of Garrett DeForest Spiers, Jr., son of Mr. and Mrs. George T. Spiers of Framingham, in a recent ceremony performed in the Second Baptist Church of Calais. The reception was held at the home of the bride's parents and the bridal couple left by plane for a wedding trip to Boston and New York. Mr. and Mrs. Spiers are employed in the plant department of the New England Telephone Company at Bangor.

Mr. and Mrs. Vernard J. Irving of Framingham announce the engagement of their daughter, Carol, to Mr. William J. Adams, son of Mr. and Mrs. William G. Adams of Framingham. Mr. Adams is attending the Arkansas A. & M. College.

Two Maine veterans, Webber Mason of Dexter and Roger Tilley of Ashland, are among the 98 now taking the review course for the United States Foreign Service, being offered by the George Washington University Foreign Service School at Washington, D. C.

Mr. and Mrs. Lowrie Campbell, daughter of Mr. and Mrs. Lewis J. Campbell of Calais, became the bride of G. Lindsey Dyer, son of Mr. and Mrs. George B. Orchard of Belfast, at a recent ceremony performed in the Second Baptist Church of Calais. The reception was held at the home of the bride's parents and the bridal couple left by plane for a wedding trip to Boston and New York. Mr. and Mrs. Orchard are employed in the Foreign Service, being offered by the George Washington University Foreign Service School at Washington, D. C.

Miss Margaret Elaine Carlisle, daughter of Mr. and Mrs. George Thomas Carlisle, became the bride of Garrett DeForest Spiers, Jr., son of Mr. and Mrs. George T. Spiers of Framingham, in a recent ceremony performed in the rectory of St. John's Catholic Church. The bride is a graduate of Trinity College. Mr. Spier is now continuing his study at the University of Maine. The couple will live in Bangor.

Now that all of you are situated in various places throughout the country perhaps as teachers, war workers, and engineers, I imagine you look back on your alma mater fondly. Maybe you have been fortunate enough to come here in Hartford. Yes, this fair city has a Maine Alumni organization with plenty of verve. The first event of the season was a banquet at which Otto Jewell, Ely Allen, and Ted Curtis were guest speakers. We heard about all the many changes on campus and also were shown movies of two of this season's Maine football games.

The next day our team played U. of Conn. here at Storrs and it was a game well worth watching. We didn't see Terry Dumas there for she had left a couple of days earlier to join the faculty on the Maine campus as an instructor in the speech department. A new addition to the Maine-Hartfordites Inc., by the way, is Sally Ann McNeals, who is training for the position of supervisor of Central Files here at Aetna.

Grace Godley, who left us after her Freshman year, let us in on some news about herself. She graduated from Middlebury College last June and has secured a position as a research assistant in the Chemistry, English, and Home Economics wing out in Mountain Home, Idaho. Grace's address is Box 711, Mountain Home, Idaho. Jeanne Delano is continuing her studies at Wellesley College where she is working for her M.A.

Raymond True and Marilyn Jackson were married at the South Parish Congregational Church at Augusta this summer. Ray has entered Mass. College of Pharmacy.

In the field of education we have three new members including Peggy Jameson at Fort Fairfield High School teaching History, Rosie Hammond at the Crosby High School teaching Home Economics, and Eloe Law at Washburn High School, also teaching Home Economics.

Barbie Allen, who was doing graduate work, while we were still undergrads, is now teaching Home Economics at the Covington High School. She has a position with the research laboratories of Pulp and Paper Co. Marge in tend to teach Home Economics at the Covington High School.

From Bangor comes word of Mary "Idi" Marble's engagement to Alan Burge. "Idi" is employed by the telephone company as younger girls' program director. Also situated in Bangor are Hazel "Bonbon" Nuss, Gimmy Tufts Chapman with the Child Welfare Department, and the Telephone Company as service representative.

Althea Libby and George Kelley, III, were married recently in Bangor. Mrs. Kelley was graduated from Higgins Classical Institute and has been employed in a department store in Bangor. Mr. Kelley will complete his final year at the University.

Margaret Elf MacBurnie and Lt. Ray D. Raley, Jr., were married in August at the Winthrop Street Universalist Church. For the past year Mr. Raley has been employed as a welfare worker in the Division of Public Assistance, State Department of Health and Welfare. Lt. Raley, recently discharged from the army, has resumed his studies at the University.

Members of 1946 who have returned to the University this fall as students include the following: Milton S. Adelman, Louis A. Albert, William R. Albert, Kenneth V. Anderson, Ralph A. Badger, David M. Bartlett, Arthur R. Burgess, Richard T. Cleaver, Donald T. Clinks, Robert E. Eddy, Sidney Goldstein, Leon E. Gray, Theodore G. Grimsley.

Several other members of the class are serving as graduate assistants at the University this fall: Russell S. Bodwell is in Civil Engineering, Helen F. Herrick in Psychology, Joseph R. LeClair in English, and Thomas E. Parmenter in Chemistry.
If this were your family, you’d know what you want to see in future photographs. But will you?

Have the children’s education and mother’s needs been provided for—just in case you step out of the picture? Or, even if you live long past your span—will you be free from financial worry?

Perhaps you’re all set—no matter what happens. But remember, all things human change. The perfect insurance program of a year ago may not fit your needs now. Wouldn’t it be a good idea to check up on your policies with your New England Mutual Career Underwriter today?

New England Mutual
Life Insurance Company of Boston
George Willard Smith, President
Agencies in Principal Cities Coast to Coast
The First Mutual Life Insurance Company Chartered in America—1835

These University of Maine—and hundreds of other college men, represent New England Mutual:

*Jos. Jacobs, ’08, Columbus, Ga.
Howard L. Norwood, ’23, Monmouth, Me.

*Ernest L. Dinsmore, ’37, Boston
*With U. S. Armed Forces

We have opportunities for more University of Maine men. Why not write Dept. V-11 in Boston?
Believe me, fitting all the new dial and manual switchboard equipment and long distance facilities into Bell System central offices all around the country is keeping me mighty busy!

"In a single big dial exchange there may be 4,000 miles of wire. I may have to solder 2,500,000 connections before everything's ready for you to dial a number."

"Besides installing this complex apparatus, I build it. That's part of my job as manufacturer for the Bell System."

"I also purchase all manner of things for the Bell Telephone Companies...and distribute these supplies to them along with the equipment I make."

"Ever since 1882, I've been helping to make our nation's telephone service the best in the world. Today...with the Bell System's construction program of more than $2,000,000,000 in full swing...I'm busier than ever."

"Remember my name...it's Western Electric."

MANUFACTURER... of 43,000 varieties of telephone apparatus.
PURCHASER... of supplies of all kinds for telephone companies.
DISTRIBUTOR... of telephone apparatus and supplies.
INSTALLER... of telephone central office equipment.

Western Electric
A UNIT OF THE BELL SYSTEM SINCE 1882
