## DEDICATION

In this book are the records of those sons of Maine who gave their lives in World War II. The stories of their lives are brief, for all of them were young. And yet, behind the dates and the names of places there shines the record of courage and sacrifice, of love, and of a devotion to duty that transcends all thought of safety or of gain or of selfish ambition. These are the names of those we love. these are the stories of those who once walked with us and sang our songs and shared our common hope. These are the faces of our loved ones and good comrades, of sons and husbands. There is no tribute equal to their sacrifice; there is no word of praise worthy of their deeds. In gratitude and love these pages are assembled, that here, in one place, their names may be forever enshrined by the University of Maine.

*They shall not grow old, as we that are left grow old:  
Age shall not weary them, nor the years condemn.  
At the going down of the sun and in the morning  
We will remember them.*

—Laurence Binyon

*This is a facsimile of the Dedicatory Page of the University's Book of Memory to be enshrined in the Memorial Room of the Union Building, pictured on the next page. A copy of this page and the individual record of each man are being sent to the immediate families of our Gold Star men.*

# The UNION BUILDING CAMPAIGN

April 1 Set for General Campaign; Students Begin February 24

**A**PRIL 1 is the official opening date of the Union Building Fund general campaign. With "Kick-off" meetings scheduled consecutively in all areas, nearly 2000 workers will swing into action throughout the United States for a short intensive campaign to raise the \$750,000 alumni goal before the 1947 commencement.

Already the Special Gifts Committee under Chairman Jim Sims '32 is at work. Fifty alumni are on the job in fourteen areas. Although no formal announcement is forthcoming at this time, it is known that substantial progress has been made, exceeding at this early date the final total of special gifts subscriptions in the Library Fund.

Following are the special gifts area chairmen—  
Androscoggin Valley, Thomas Mangan '16, Livermore Falls  
Aroostook, Clifford G. McIntire '30, Perham  
Central Maine, William P. Viles '28, Augusta

Eastern Maine, Harold M. Pierce '19, Bangor

Southern Maine, Charles E. Stickney, '10, Portland

Massachusetts, Harry E. Sutton '09, Boston

New Hampshire and Vermont, Robert F. Thurrell '15, East Wolfboro, N. H.  
Connecticut and Rhode Island, Fred D. Knight '09, Hartford, Conn.

New York, Ralph R. Day '11, New York, N. Y.

Northern N. Y., Conan A. Priest '22, Syracuse, N. Y.

Penn., Del, Md, and D. C., James E. Totman '16, Baltimore, Md

Central West—Ill. Division, Oswald B. Higgins '14, Chicago; Ohio Division, Paul F. Corbin '21, Toledo, Ohio

West Coast, Edward Loftus '14, Los Angeles, Cal.

## General Campaign

The sixty area committee organizations necessary for the general campaign have been nearly completed. The sixty

areas are to be operated in two divisions; the New England division under the supervision of Charles E. Crossland, Executive Director of the campaign, assisted by Alumni Secretary, John Sealey, Jr., who is responsible for the Southern-Western division

The area chairmen for the New England division are listed below—

Androscoggin County, Frank O. Stephens '17, Auburn

Aroostook—North, Harold L. Bryant '32, Presque Isle

Aroostook—South, Leonard E. MacNair '23, Houlton

Cumberland—Men, Clifton E. Chandler '13, Portland

Cumberland—Women, Mrs. Marjorie M. Murphy '33, So. Portland

## Student Campaign

On February 24 the student campaign for \$100,000 will open with a special Assembly at which Union Building Fund Committee Chairman Raymond Fogler is to be the speaker. Prior to the opening, a meeting of all the workers will be held to get set for the five day action.

The decision of the student campaign committee to raise \$100,000 received the unanimous approval of the Student Campaign Advisory Council composed of presidents of fifty-seven undergraduate organizations. The students chose the Main Lounge as the room in the building to be the specific objective of their campaign.

Each student will be asked to subscribe voluntarily the amount which he feels he can give to the Fund. It is hoped that every student will subscribe \$30 or more, payable over a period of six semesters or in equivalent quarterly payments after graduation directly to the Union Building Fund.

It is hoped that the students at the Brunswick campus will share in this Memorial Fund, but no definite plans have been made to date.

# MATHEMATICIAN

UNTIL her retirement from active teaching duties, Miss Lennie P. Copeland, of the Class of 1904, occupied an important official position in the life of Wellesley College as head of the Department of Mathematics; perhaps even more important, however, has been the unique place she has occupied and still continues to occupy, in the esteem and affection of her faculty colleagues and the many classes of undergraduate and graduate students who have come in contact with her enthusiasm, humor, and friendliness. The *Wellesley Magazine* in reporting on her retirement last summer has this to say: "Teaching and research are fun to her. She wants undergraduates to enjoy mathematics, because she herself enjoys it so much. She balances herself easily and happily on the line at infinity, or wanders among her beloved invariants with glad enthusiasm. You never know what will happen in her classes. They are an interesting adventure and great fun, for she does not park her sense of humor outside the classroom."

## The Past

Many are the recollections which her colleagues and former students enjoy, about "Copey." Perhaps more than anything else they recall with undiminished enjoyment the many and varied stories she has told of her travel adventures at home and abroad. For Miss Copeland, although a teacher of mathematics and an excellent one at that, has managed also to live adventurously. She can amuse listeners with the tale of riding for hundreds of miles on an African railroad that was not yet built or the story of her wild ride on a run-away camel. Outside of teaching, travel has been her life's work; on foot, by car, by camel back, by ship, and by plane, she has seen Labrador and Egypt, Palestine, Persia, and Canada, and many other places besides; she has also found opportunity in her long and busy life to know and love many parts of this country. Her life membership in the Appalachian Club, her visits to New Orleans and Baton Rouge, and her winter vacations in Florida have all contributed to the infinitely varied pattern of her life.

Of other interests, too, her life has been full. Many of these have been connected with Wellesley, her second *alma mater*—she received the M.A. degree there in 1911 after graduating from Maine—and have contributed to the secure place she holds in the affections of those who have known her. Collecting of rare books, especially those on mathematics and mathematical recreations for the College Library, has been a special joy. She has worked on the college's educational com-

Dr. Lennie P. Copeland '04

mittee helping prepare recommendations for curriculum changes. She has served, and continues to serve, in the raising of funds for Wellesley's 75th anniversary in 1950.

In another aspect of her well rounded personality she displays a typical Yankee interest in collecting things. Following her run-away camel ride, mentioned previously, she began accumulating miniature bronze camels. She is also the proud possessor of beautiful pitchers, plates, and teapots from her childhood home in Bangor.

## The Present

Following her retirement from the Wellesley faculty last June as Professor Emeritus, Miss Copeland has made her home in St. Petersburg, Florida. However, as those who know her would suspect, the word retirement is largely an academic one with Copey. Already she writes from her newly adopted home of the activities she has planned and begun. She is a member of the Board of Directors of the Y.W.C.A. and the American Association of University Women, serving also as chairman of committees in each. She belongs to the Garden Club and the League of Women Voters, continues active in Wellesley Club and the local church. And when the head of mathematics in the Junior College became ill she substituted for him until Christmas. With her usual humorous outlook she writes: "Everyone should retire while they still have stamina—the pace is terrific!"

Lennie Copeland has had many loyalties in her life including three colleges, in-

cluding the University of Pennsylvania, where she received her Ph.D. in 1913, her sorority, A.O.Pi, her Wellesley home, and now her adopted St. Petersburg. It is characteristic of her that she manages to be interested in them all. Her loyalty is as large as her interests are varied. Therefore it is appropriate that the University of Maine should join with her many friends at Wellesley to say: "Our love and best wishes go with you to St. Petersburg, Copey, as you start off on fresh and joyous adventures."

## Assemblies on Atomic Power

A series of assemblies and meetings on the subject of atomic power sponsored by the assembly committee on January 16 and 17 drew a large attendance of University faculty and students.

At the opening assembly Dean Glenn Kendall of the School of Education presided, and introduced Dr. Bennett of the Physics Department, who in turn presented the initial speaker, Professor Edward Purcell, associate professor of physics at Harvard University. Mr. Purcell presented the scientific views of atomic power, sketching the historical development, and then explaining something of the structure of the atomic bomb, with its chain-type reaction. He stated three major implications of atomic power at present: namely, that there is no secrecy about atomic power nor monopoly of it, that there is no defense against power which is so easily disguised and readily handled, and that no one can win permanently by making use of it. He advocated international control of atomic energy in its use for whatever constructive purposes may prove feasible, believing that such use would give atomic research and activity a wholesome prestige, together with strict control of all research in order to remove the element of fear produced by such activity.

At the second assembly President Hauck presided, and Dr. Oliver Garceau of the Department of History and Government presented as the speaker Professor William Eliot, also of Harvard University, who spoke from the social science point of view. Professor Eliot also offered international control of atomic research at all points of development as the solution to the problem. He spoke of the weaknesses of such an inspection system as would be necessary in international control, and pointed out the need for agreement with Russia on the policy of effective policing of all activity in atomic research. Professor Eliot outlined briefly points of interest concerning the Russian government, indicating some of the difficulties encountered when agreement with Russia is attempted, and explained a little of the Russian policy. He expressed earnestly the need for a firm stand in the face of evil of such proportions as those contained in atomic power used for war.

## NAMES in the NEWS

**Appointed:** Col. Francis G. Fitzpatrick '28 has been appointed liaison officer to act as Federal Housing Administration representative with various veterans' organizations in the state according to a recent news dispatch. His work will be to furnish full cooperation of the FHA with those organizations furthering veterans' housing throughout Maine. With wide experience in construction, Col Fitzpatrick will bring his knowledge to the relief of the housing problem in Maine. A graduate in mathematics, he was employed before the war in the insurance field. During the war he served in the Quartermaster's Corps and later in ordnance. Prior to his new assignment he was placed on inactive duty with the rank of lieutenant colonel.

**Yokohama,** Japan, will be the new field of activity for Major William S. Gould, Jr. '11, who has been serving as commanding officer at the Delaware Ordnance Depot, Fredericktown, Del. A veteran of World War I as well as the recent conflict, Major Gould has served

overseas in France and Italy as well as in this country. For 14 years he held a government post in Bangor until his assignment in 1939 to the Springfield Armory. He later became commander of the Springfield Ordnance Depot. In 1944 he was assigned to service in Italy where he spent 15 months. On returning to this country he was assigned to the Delaware post.

**Selected** to attend the first class of the Air Tactical School at Tyndall Field, Florida, is First Lieutenant William K. Brooks '40 of Portland. Lieut. Brooks, a former football 'M' man, entered the employ of the Maine Central Railroad following graduation. During the war he received flight training and qualified as a B-29 Airplane Commander. He was assigned to the 20th Air Force in the South Pacific where he completed 27 missions before returning to this country in October, 1945. He wears the Distinguished Flying Cross and Air Medal as well as the Asiatic Pacific Ribbon. At the new Air Tactical School he will undergo a thorough course of academic instruction, field problems, and flight work utilizing the latest type of military air craft. Following the 16 week course he expects to return to his station at MacDill Field, Tampa, Fla.

## University is Named in Dr. Kellogg's Will

Dr. Thelma L. Kellogg '18, late of Vanceboro and for many years a professor at Southern Illinois Normal University, bequeathed one-third of her estate estimated to be \$90,000, to the University of Maine Foundation according to her will which has been filed for probate in Washington County. In addition to this fine bequest, the will also directed that her library in Maine shall be given to the University. Dr. Kellogg died recently in St. Stephen, N. B., after a long illness.

As an undergraduate Dr. Kellogg was active in musical and literary societies. She was elected to Phi Kappa Phi. During her senior year she was a teacher of English, a career which she followed until illness forced her to relinquish her profession. After graduating in 1918, she studied at Radcliffe College from which she received a doctor's degree. Most of Dr. Kellogg's teaching years were spent at Southern Illinois Normal University at Carbondale, where she became a full professor of English.

Dr. Kellogg's will provides for the creation of a trust fund the income to be paid to a relative during her life. At the termination of the trust the fund is to be distributed equally to Radcliffe College, Southern Illinois Normal University and to the University of Maine. The fund is to be known as the "Thelma Louise Kellogg Fund" the income to be used as the directors of the Foundation may determine.

## Nominations

The deadline for nominations for the Alumni Service Emblem is March 31.

Any alumnus may make nominations for this award of outstanding service to the Alumni Association and the University. The scope, the quality and length of services are the chief points considered in making the award.

As a result of action taken by the Alumni Council last fall, the Emblem may be awarded to an alumna.

Listed below are previous Service Emblem recipients.

Year	Recipient
1930	Harry E. Sutton '09
1931	Hosea B. Buck '93
1932	C. Parker Crowell '98
1933	Edward E. Chase '13
1934	Allen W. Stephens '09
1935	William McC. Sawyer '01
1936	Raymond H. Fogler '15
1937	George H. Hamlin '73
1938	Arthur L. Deering '12
1939	Ralph Whittier '02
1940	Frederick D. Knight '09
1942	Norman H. Mayo '09
1943	Charles E. Crossland '17
1944	George D. Bearce '11
1945	George S. Williams '05
1946	Professor Charles P. Weston '96

## Department Activities: Art

An art gallery exhibit of cubism by the French artist, Jacques Villon, has attracted much attention during its recent showing, according to Vincent A. Hartgen of the Art Department. Mr. Hartgen explained that cubism is a higher form of art, an attempt to portray objects without physical or traditional imprisonments. He expressed amazement and pleasure at the widespread

interest, general understanding and favorable comment expressed by students and faculty of all the colleges. "I was somewhat hesitant about bringing this exhibit," says Mr. Hartgen, "but the value of cubism is known in relation to all schools of painting."

The idea of the Art Department is, in addition to teaching art, to exhibit examples of many artistic schools, including architectural drawings, industrial design, glass, fabrics, textiles, copper, china, linoleum, etc. These always will be for purposes of art, but of interest to some special field besides. Future plans also include photography shows, and exhibits of surrealism and abstractionism.

The function of the art gallery is to make available to students current activities in art; particularly important are original works, which are of the greatest value, says Mr. Hartgen. The present permanent collection, which is of value for historic study, has been rehung more nearly on an eye level, for purposes of study of chronological art.

**DISPLAY:** Students listen to the explanation of an example in the recent exhibit of Cubism in the University Art Gallery. Instructor Vincent Hartgen explains to Barbara Mills, left, and Jane Libby, the intricacies of "Portrait" by Jacques Villon.

The Agricultural Extension Service has planned 21 displays throughout the state of Farm and Home Labor-Saving Devices during February and March. The Labor-Saving Caravan, under the general direction of Smith C. McIntire '32, will visit different towns and cities for one day each, displaying, without charge exhibits of equipment and devices for making the work of the farm and home easier. Each exhibit will consist of both models and full-size machinery, some in actual operation. Farmers and homemakers in each area will also bring in their own labor-saving devices. Extension agents will travel with the show to give explanations of the material.

A newly organized student affiliate of the American Chemical Society is functioning on the campus for students of that science. The faculty sponsor is Dr. Robert Tebbe of the Chemistry Department. Chairman is Mortimer Williams '48 of Marlboro, Mass. The new group has 27 members meeting for the purpose of discussions and latest news in the field of chemistry.

Hero of the French Underground, Gabriel Nahas, addressed the students at the regular Sunday morning campus service on December 15. Dr. Nahas, holder of six decorations from four allied governments, served as an underground special agent in France. He organized an underground railroad to deliver hundreds of British pilots and air crew members from France into Spain. He also served as a doctor in the Maquis and although arrested three times managed to escape on each occasion. Following liberation of southwestern France he became senior medical officer of a regiment that fought into Germany until the surrender.

The University Physics Club has been reactivated after nearly three years of war-time inactivity. Dr. Clarence Bennett, Head of the Department of Physics, planned with interested students for the reorganization. At the first meeting Nicholas Johns of Portland was named president, Donald Danforth of Brewer, vice-president, William Gibson of Greenwich, Conn., secretary, and Richard Henderson of Orono, treasurer. Faculty adviser for the Club will be Robert Kingsbury of the Physics Department. Purposes of the club are to promote interest in physics and closer understanding between students and faculty.

# Campus

The Panhellenic Society has announced the pledging of 71 women students to the campus sororities following rushing activities and the pledging program. Results of the pledging were announced as follows: Alpha Omicron Pi, 15; Chi Omega, 13; Delta Delta Delta, 14; Phi Mu, 16; Pi Beta Phi, 13. Rushing was under the direction of Panhellenic, the campus sorority organization.

Election of the Carnival queen on February 20 by an all-campus vote will open the annual Winter Carnival program. Intramural games on Friday, Feb. 21, and the carnival dance that evening will be followed by a program of winter sports on Saturday, Feb. 22, weather permitting. About 30 teams are expected to participate in the ski meet that afternoon. Snowshoe events and the usual snow sculpturing will also be features of the program.

Students at The Brunswick Campus have organized a discussion group known as "The Maine Forum." They will investigate and discuss subjects of general interest to the students and public. Discussions will be held periodically at the campus. Plans are under consideration for group discussions also with student organizations from other schools. A radio committee is preparing plans for broadcasting important discussions. All meetings will be open to the public and many will be published in pamphlet form according to present plans.

What is believed to be the largest student orchestra in Maine colleges, consisting of 64 men and women, is rehearsing at the campus under the direction of A. Stanley Cayting of the Department of Music. Although hard hit during the war years the orchestra is now back to a normal, well-balanced group of instrumentalists. It will participate in regular assemblies of the University and has plans for several special musical events.

Fourteen students at the Brunswick Campus annex have been named proctors for the fall semester, serving as representatives of the administration in various buildings on the campus. They are: Henry E Mathieu of Winslow, Donald Knowlton of Monmouth, James O'Toole of Portland, Donald Barron of Portland, Charles Chaskes of Gardiner, Adrian Daigle of Fort Kent, Frederick Murland of Charlton, Mass., Robert Saltzman of Bangor, Richard Robinson of Swan's Island, David Simpson of Mechanic Falls, Harry Jones of Auburn, Walter Arseneau of Jonesport, Ernest Brown of Augusta, and Gerald Alden of Turner Center.

Three scholarship awards for the spring semester were announced to University women recently. Two Anne E. Stodder Scholarships were awarded to Mrs. Grace Luscombe Dodge of Boothbay and to Miss Barbara Mansfield of Orrington. One of the Maine Normal School Scholarships has been awarded to Miss Ruth Joanne Berglund of Bar Harbor.

## A black and white cartoon illustration showing a group of eight men walking from left to right through a snowy, hilly landscape. The men are dressed in various winter outfits, including coats, hats, and boots. One man in the middle-left has a dark jacket with 'USN' written on the back. The air is filled with many small circles representing falling snow. Below the illustration, the text 'POST WAR SNOW STORM' is written in a simple, hand-drawn font. In the bottom right corner, the signature 'DAHL' is visible.

# June Class Reunions

Fourteen classes and the Senior Alumni are scheduled to hold Commencement Reunions this year at the "big doin's" in June. The important date for all Maine men and women for that month is JUNE 14, ALUMNI DAY.

Star performers at the Commencement activities will undoubtedly be, as always, the youngsters of the Fifty-year class, 1897 this year, and the old-timers of the Twenty-five-year class, 1922. The Senior Alumni—members of all classes which have already celebrated their Fiftieth—will have their regular annual invitation to attend the festivities. Next oldest group, according to the Dix Reunion Schedule, will be the classes of 1898, 1899, and 1900, who, with the 50-year men of 1897, will really be out after some of the attendance cups this year.

The middle group of classes will be 1916, 1917, 1918, and 1919, holding their reunions all in one year. Any one of these classes would be enough to make a bright spot in any Commencement so really big things are expected from them all. Then 1935, 1936, 1937, and 1938 are scheduled and have already begun to make plans how to show up some of the earlier classes who have said, in other years, that they knew how to put on a real reunion. And the "youngsters" of this year's program will be the members of 1945, attending their two-year reunion.

All in all, it looks like quite a time at Orono on June 14!

The following is the complete list of classes and their officers scheduled for this year:

## Senior Alumni

President—H M Smith '93, 239 Cedar St., Bangor; Vice President—A H. White '89, 11 Hudson St., Bangor; Secretary—J. N Hart '85, Bennoch St., Orono.

## 1897

Secretary—William L. Holyoke, 1429 Linville St., Kingsport, Tenn

## 1899

Secretary—Archer L. Grover, 27 Pleasant St., Hallowell; Treasurer—Mrs. Mildred McGinley, R.F.D. #1, Sterling Station, N. Y.

## 1900

Secretary—Edwin J. Mann, West Paris.

## 1916

President—Lewis O. Barrows, 54 Valentine Park, W. Newton, Mass.; Vice President—Fred P. Loring, 79 Bennoch St., Orono; Sec-Treas—Walter W. Webber, 55 Hillcrest St., Auburn.

## 1917

President—Joseph A. McCusker, 258 W. 12th St., New York, N. Y.; Secretary—Frank O. Stephens, 21 Academy St., Auburn; Treasurer—Langdon J. Freese, 69 West Broadway, Bangor.

## 1918

## 1898 Plans for Fiftieth

The officers of the Class of 1898 have announced that no plans will be made for a class reunion this year, as would be regularly scheduled by the Dix Reunion Plan, but that the class will concentrate its efforts on the 50th Anniversary of the group in June, 1948. While not intending to discourage any members of '98 from attending Commencement this year, the officers feel that it is more important to prepare for their celebration next year.

## Western Pennsylvania Alumni

Meeting at the Fort Pitt Hotel in Pittsburgh on January 27, about twenty Western Pennsylvania alumni heard John Sealey, Jr., Alumni Secretary, discuss latest campus developments. Lawrence A. Farrer '36, president of the Association presided. R. Warren Graffam '22, Western Pennsylvania Union Building Fund chairman, spoke briefly on the coming campaign.

## Special Graduation

Held on February 7

Special Commencement Exercises on Friday, February 7, marked the graduation of some 55 students who completed their course requirements through the accelerated programs of war-time or who returned from military service to finish their undergraduate years. A Baccalaureate Service on February 2, a senior banquet by the Alumni Association Friday evening, and formal graduation ceremonies later Friday evening marked the mid-year program.

Commencement Speaker at the exercises was Justice Raymond Fellows '08 of Bangor, named to the state Supreme Court last May. Judge Fellows has long been prominent in Maine legal circles. He served as Attorney General from 1925 to 1929. Besides his 1908 degree from Maine he received the Master's degree in 1926 and in June, 1946, was awarded the honorary Doctor of Laws. He has been active in numerous civic groups, having served as a trustee of the Bangor State Hospital and president of the Maine Historical Society for many years. He has been in wide demand as a speaker on Maine history.

The General Alumni Association were hosts to the graduating group at a dinner in Estabrooke Hall Friday evening at which President Arthur A. Hauck was the main speaker. George E. Lord '24, Assistant Director of the Agricultural Extension Service, as Clerk of the Alumni Council spoke on behalf of the Association. Senior vice-president Alvin S. McNeilly of Brookline, Mass., responded on behalf of the graduating men and women.

The Baccalaureate speaker was the Rev. Cornelius Clark, executive secretary of the Congregational Christian Conference of Maine.

## BASKETBALL

### Maine Takes Final Game in Southern New England Tour

On January 9th, 1947, fourteen men of the University varsity squad, with Coach Eck Allen, began their annual Southern New England trip, meeting two members of the Yankee Conference, Connecticut and Rhode Island, and facing Northeastern University in Boston on the final night of the trip. The games were played on consecutive evenings, and the Maine men had to play their best brand of basketball in the face of travel weariness and unfamiliar territory.

#### Connecticut 51—Maine 38

The opening game of the tour got Maine off to a low-scoring start. In sharp contrast to the games which were to follow, this game was played with a great deal of skillful defense work, and action was slow. The powerful Connecticut squad closed down on Maine in the final quarter with a 13 point lead, which the pale blue team could not overcome. High scorer for this game on the Maine lineup was O'Donnell, guard.

#### Rhode Island 99—Maine 66

Basketball fans observing this game did not lack thrills and excitement as the Maine Varsity faced the squad which now ranks fifth team in the nation, and at the close of last year's season lost the national championship to Kentucky in the final few seconds of the championship game. Noted for fast offensive play and uncanny accuracy in shooting, the Rams pulled the Bears into a high-scoring game which brought Rhode Island close to the hundred mark. Although defeated by a margin of 33 points in the second straight loss of the trip, the Bears played a fine brand of ball and Teddy Boynton, Maine's brilliant forward, carried off top scoring honors with twelve field goals and four fouls.

#### Maine 67—Northeastern 56

On the third consecutive night of play, the Maine Bears pulled out ahead of Northeastern's hard-hitting team to carry the game by an eleven-point lead. As on the preceding evening, a fast brand of basketball thrilled hoop fans who gathered to witness a speedy offensive game. Charles Godard of East Millinocket carried away scoring honors for the final game of the tour, which triumphantly concluded a packed schedule and heightened excitement concerning the games which follow.

#### Colby 52—Maine 45

In a hard-fought game on the 15th of January, Maine bowed to a surging Colby team. With Teddy Boynton scoring high, Maine played good ball in spite of a weak defense and poor shooting, but Colby's scrappy defense was too effective against

## ATHLETIC TEAMS

the off-form play of the pale blue team. This game tied up the State Series race, as both Maine and Bates had won three state games, and lost one.

#### Bates 68—Maine 60

A strong, hard-hitting Bates team romped to victory over the Bears for their second straight loss on January 22. With Ted Boynton scoring three goals, the Bears succeeded in running up a fair score, but it was no match for the Lewiston scorer Jack Joyce, who sank 15 goals and seven foul shots for the winning team. This game placed Maine below Bates in the State series run.

#### Connecticut 88—Maine 39

An outstanding team from the University of Connecticut put on a show of power at Orono on February 1 to outplay the Maine varsity by a score of 88 to 39. Ken Cosseboom showed excellent work during the second half for Maine by scoring 9 points, Maine's highest individual tally. The Maine team as a whole was off form from the lack of practice during final examinations. Leading at the half by a score of 51 to 20, Connecticut left no doubt in the minds of any that they were the dominant team.

#### Colby 59—Maine 48

On February 8 at Waterville Maine proved unable to stage a comeback in the State Series by losing a hard fought game against Colby 59 to 48. Up to the last few minutes of the first half the game was even; then Colby broke away from an 18-18 tie to lead 27 to 20 at the half. The outstanding man for Maine on defense was Al Burgess who kept the Colby squad from turning in a much higher score.

#### Bowdoin 41—Maine 33

Any hopes that Maine may have had for a showing in the State Series basketball race were blighted with Bowdoin's victory on Feb. 10 at Brunswick by a score of 41 to 33. Exceptionally good defense work by the Bowdoin quintet, coupled with the erratic shooting which has characterized Maine games this month, caused the upset score. Frank Danforth was the leading scorer for Maine with a total of 9 points for the evening. The scoring was in general well distributed among the members of the team on the Maine side. After an early lead by Maine Bowdoin forged ahead to a 17 to 11 score at the half and was never in danger after that.

## VARSITY TRACK

### Maine 91½—Colby 25½

In a dual meet with Colby College on February 1 the Maine track team showed particular strength in weights and middle distance runs to take the victory by the heavy margin of 91½ to 25½. Sweeping three places in the 35 lb. weight, the discus, and the 1,000-yd. run gave Maine a decided advantage which was helped out by first and second place wins in the shot put, high hurdles, the 280-yard dash, and the pole vault. Colby succeeded in taking only one first place from the well-balanced Maine team, that in the 2-mile run where Robinson of Colby won in a final spurt against Morton and Davis of Maine.

Sophomore Alton Sproul of Hallowell turned in the only double win of the day by taking firsts in both 35-lb. weight and discus. Martin Hagopian '49, of Madison, fleet-footed backfield man of last fall's football team, showed his ability in a track suit when he ran away with the race and a tie for the indoor meet record in the 50-yard dash—5.6 seconds. Cross country star Elmer Folsom '48 of Cambridge was the winner of the mile run turning in the time of 4 minutes and 33.7 seconds.

### B.A.A. Meet

The Maine track team made a creditable showing in the annual B.A.A. meet held in Boston Feb. 8 with Wallace Brown of Belmont, Mass., running anchor man in the Maine mile relay team, credited with the fastest 440 of the 13 mile relays run. The Maine team placed third in their race, behind Boston University and New Hampshire. Martin Hagopian qualified in one of the trial heats of the 50-yard dash, but was eliminated in a semi-final. In the pole vault Bob Emerson of Bangor scored in a multiple tie for fourth place at a height of 12 feet 6 inches.

### Walsh Returns to Bowdoin

Readers of newspaper sports pages were interested in the word from Bowdoin College last month that Adam Walsh, veteran mentor of Polar Bear sports, will return to that institution as head coach of football. Walsh, officially on leave of absence from Bowdoin, has been coaching the Los Angeles Rams, a professional football group with which he made an excellent record. He returns to Bowdoin from personal choice, it is said, having passed up many offers from larger collegiate institutions since his announced resignation from the Los Angeles job.

## New York Alumnae

Plans for a luncheon meeting of New York Alumnae have been announced for Saturday, March 15, at 12 noon by the officers of the association. The luncheon will be held in the Wanamaker Club Room of Wanamaker's Store, Broadway and 8th. All University of Maine alumnae residing or visiting in the New York area are cordially invited.

## Cleveland Alumni

Alumni Secretary John Sealey was guest of honor at a meeting of the Maine alumni of the Cleveland, Ohio, area on January 29 at Hotel Carter. Twenty members and guests were present for the occasion, including former faculty member "Paddy" Huddilston who spoke on his experiences at Maine and his present work at Baldwin-Wallace College. Discussion on the annual scholarship of the association was followed by re-election of the same officers: Stanley McCart '29, president, Herbert Knowlton '07, vice-president, Philip Dorticis '04, secretary, and Paul Murray '14, treasurer.

## Boston Alumnae

Boston Alumnae held a meeting on January 21st at the Women's Building, Boston University, with about 36 members present. The guest speaker was Miss Eleanor Elliott, Director of Art in the Department of Instruction, Newton, Mass., and her topic was "You—the Decorator." Plans for a meeting to be held March 18th were discussed, and a hand-writing expert was suggested as entertainment for the meeting. Refreshments and a social hour followed the business session.

## Portland Alumni

During a recent meeting in Portland the local alumni announced plans for having a regular weekly get-together at the Graymore Hotel from 12 to 2 each Monday noon. The meetings will be informal with each member picking up his own lunch

At the annual meeting held January 22 Sylvester Pratt '30 was elected president, Maynard Hincks '32, vice president, and Robert Fuller '38, secretary-treasurer. Guest speaker Coach George Allen showed motion pictures of athletic events and spoke on the University teams. Alumni Secretary John Sealey described present day campus life at the University.

### University of Maine Luncheon

The annual "Paper Week" luncheon of the University of Maine Alumni and friends will be held in the Empire Room of the Hotel Lexington, Wednesday, February 26, 1947, at 12:30 p.m.

This is a strictly informal get-together. All Maine men are welcome and urged to attend.

Reservations may be made by writing to: Enright A. Ellis, Downingtown Manufacturing Company, Downingtown, Pennsylvania.

### Penobscot Alumnae

The Eastern Association of U. of M. Women met at the Bangor House on January 30 with Prof. Herschel L. Bricker, assistant professor of speech, as guest speaker. Prof. Bricker described his experiences overseas with the U. S. Army. He was head of theatre at the American University in Shrivensham and later travelled through Germany on a survey for the Army. Also guest at the meeting was Charles Crossland, assistant to the president, who is conducting the Union Building Fund Campaign.

### Maine Club of Auburn-Lewiston

The 10th annual meeting of the Maine Club was held Thursday evening, January 23, in Auburn, with Coach Eck Allen as guest speaker, who showed moving pictures and discussed the football and basketball seasons generally. Ross Varney spoke on the history of the Maine Club, and Frank Linnell, second president of the club, presented Secretary John McCobb with a pigskin traveling bag in behalf of the group. President Owen Stephens presided, and plans were discussed during the meeting for a future meeting in February.

The Goal of \$1,000 for the Androscoggin Valley Alumni Loan Fund was realized this month with subscription gifts of \$283.00.

This Fund, established in January 1942, has, through diligent and persistent work of the Maine Club, been raised to its present thousand dollar mark. The Fund is available to students of Androscoggin County, with the award made by the Committee on Honors.

## Prof. Mark Bailey Succumbs to Long Illness

Dr. Mark Bailey, professor of speech at the University, died Saturday morning, January 11, at a Bangor hospital, after a long illness.

Born in New Haven, Conn., Dr. Bailey attended Yale University, receiving his B.A. in 1915 and his M.A. and Ph.D. from the University of Michigan. He studied theatre extensively in this country, Broadway and Little Theatre, and in England. He began his teaching career at Escanaba high school in Michigan, later teaching in Superior high school, Wisconsin. He then went to Whitman College in Walla Walla, Wash., as assistant professor.

Dr. Bailey came to the University in 1920 as associate professor and head of the department of speech, becoming a full professor in 1925. Under his leadership the department expanded, offering courses in public speaking, interpretive reading, play production, history of the theatre, acting, and speech correction. He introduced radio courses, sponsored debating activities, and took over the Maine Masque as director in its infancy. He established a sister organization, the Dominoes, which soon became a part of the Masque.

Dr. Bailey spoke frequently in various parts of the state on drama and the theatre, and often judged debates, speaking contests, and one-act plays. He was of great assistance in the expansion of the secondary school contest in interpretive reading and speaking, held annually at the University.

A biography of Lawrence Barrett, the actor, written by Dr. Bailey, is ready for publication.

He is survived by his widow, Marcia Edgerton Bailey, a sister, Mrs. J. H. Ware, New York City, two nieces and two nephews. Funeral services were held Monday, January 13, at his home, 22 University Place, Orono, and interment was in the family lot, New Haven, Conn.

Miss Estelle Nason, 34 Merrill Hall, Campus

R. Warren Graffam, former resident of Phillips and a 1922 graduate of the University of Maine, has been named chairman of the Western Pennsylvania area committee of the Union Building Fund.

After serving nearly 24 years with the Water Resources Branch of the United States Geological Survey, Henry F. Hill, Jr., the elder son of the civil engineer, Henry F. Hill, has resigned his position with the Survey and on December 1 returned to his home at 101 Western Avenue, Augusta. While with the Geological Survey, Mr. Hill served in the offices at Boston, Mass., Albany, N. Y.,

and Washington, D. C., the last 16 years being at the latter city as assistant to the Chief Hydraulic Engineer.

Mr. Hill will work for a while with his father, with the intent of eventually opening an office of his own in Augusta, to practice civil engineering. He is a licensed professional engineer in Maine, a member of the American Society of Civil Engineers, the Society of American Military Engineers, the Masons, and the American Legion. He obtained his education at the grade schools and Cony High School in Augusta, and graduated from the University of Maine, receiving the B.S. degree in 1922 and the C.E. Degree in 1927. While in Washington, D. C., he served for one year as president of the U. of M. alumni association. For many years prior to his graduation he assisted his father, who was then City Engineer. During the summers of 1918 through 1922, he was employed by the Maine State Highway Department in various engineering capacities.

**1931** Doris L. Gross, 15 Keene St., Stoneham 80, Mass.

Although I didn't exactly pull them out of my Christmas stocking, Santa Claus is more or less responsible for some of the news items this time. I was so pleased to find notes on so many of my Christmas cards, from '31 friends and others.

First prize goes to Charlotte Bowman Flynn, who managed to get practically a whole letter on a card! There are three children in the Flynn family now—Martha, 13; Carl, 12; and Judith Munro, who will be a year old April 9th. Charlie finished her work at Maine last year and received her B.S. in Home Economics in June. Horace left the service as a Lt. Col. in the Reserves and has been working since then for Prentiss and Carlisle in Bangor. Charlie and Hod live at 55 Bennoch Street, Orono.

I was delighted also to get a note from Evelyn Fox, who is now Mrs. L. C. Thibodeau of Greenville Junction, Maine. Ev's husband is employed by the Maine State Fisheries and they have a baby daughter, Faith, who is now seven months old.

Other news was forwarded by the Alumni Office and includes a clipping to the effect that State Insurance Commissioner Alfred W. Perkins has been named chairman of the new National Arson Control Bureau Information Committee created by the National Insurance Committee.

Charles Cogswell is a draftsman for the Durkee Marine Hardware Co., Staten Island, New York. His residence is 103 Howard Ave., St. George, S.I., N. Y.

Parker Cushman is back at Maine as maintenance engineer for the University. He and Bee (Bertha Carter '30) are living at 16-D, South Apts., Univ. of Maine, Orono.

**1932** Mrs. Albert Gerry, P.O. Box 114, Brewer

C. Richard Luce of Farmington was recently elected president of the Maine Independent Oil Marketers Association.

**1934** Mrs. Robert C. Russ, York Beach

Bob has just been reading to me from an insurance magazine about Ken Foster—he still reminds me of the original Horatio Alger. A lot has happened since we used to pool our resources for a bean supper on a holiday meal at Bruce and Jean Meyers' apartment in Greenwich Village. Ken was working for his Master's at Columbia; then he worked for and obtained his law degree at Newark Law School. He went to work for Prudential in 1938 as agency assistant in the Newark ordinary office. He was promoted to assistant manager in 1940, joined the army in 1942, and since his return in 1945 has been on the ordinary agencies staff. He became manager of Field Services in June, 1946, and has very recently been advanced to assistant director of Field Services in the ordinary agencies department.

Wilmot Dow operates the Maine Farm Hatchery at Waldoboro and recently was photographed with his prize-winning New Hampshire Reds.

Paul Croxford is employed at the Pepperell Mfg. Company. The work consists of statistical quality control in the analysis of cotton as it emerges from the drawing machine. Mrs. Croxford (Erma Devcreux '31) teaches at the Moody School in Saco. The Croxfords live at 344 Main St., Biddeford.

Roy Gavin is sales engineer for the Minnesota Mining Mfg. Co. 51 Sleeper St., Boston, Mass. His residence is 1137 N. Main St., Randolph, Mass.

Allegra Black has resigned as 4-H Club Agent for Cumberland County to become a full-time homemaker.

We are still looking for our dream house in Portland—so far views seem nothing but nightmares.

Judkins and Gilman Company of Newport recently filed certificate of incorpo-

rating stating that purpose of the company is to engage in the wholesale and retail hardware business. John Gilman is president and treasurer of the corporation.

Mrs. Thomas McGuire, 209 W. 107th St., New York 25, N. Y.

The University of Maine Alumnae met a few weeks ago at the Hotel Pennsylvania to reorganize. Marion Eaton was elected president. So from now on, the meeting will be the third Saturday of the month—so if you're in town you'll be able to drop in.

There weren't many '35ers there—Edna Mathews Roberts and I, but there were several whom you all know. Edna is living in Union, New Jersey, now. Carolyn Brown Stagg '37 was there, and Carolyn and Howie and their children are living in West Orange, N. J. Carolyn told me that Janet (Brown Hobbie) and her husband and children are living on Gowanda State Road, Eden, N. Y. Rose Whitmore Germick '38 is living in New York at 37-46-80th St., Apt. 3-A, Jackson Heights.

John Sealey happened to be in New York that Saturday, so John sat in on the meeting. He was slightly out numbered about 60 to one!

Miss Chadbourne was at the meeting, and I was sorry not to be able to see her, but perhaps she'll be at the next one.

Velma Colsen was in New York a few weeks ago too, so Velma and Alice, a friend of Velma's, came to dinner. They both are at Lasell Junior College in Auburndale, Mass.

And now news from thither and yon—Arthur Stubbs is a member of the executive committee of the New York Rubber Group, a branch of the American Chemical Society. He is a chemist in the plant of the Manhattan Rubber Mfg. Division, Passaic, N. J., and resides at 30 Day Street, Clifton, N. J.

Willis G. Pratt is a civil engineer for the Oxford Paper Company. His mail goes to R.F.D.#1, Rumford, Maine.

Betty Wilhelm Bassett is now a full-fledged German-English teacher in New Haven, and Newt, Betty's husband, is in a New Haven bank.

Ken Chute is with the U. S. Coast and Geodetic Survey and is located in West Columbia, S. C. (Box 393 is the address). He and "Ginn" have three boys.

Ken asked for news of "Bus" Heald, Joe McEachern and Johnny Miller and others of whom I have no news. In case you read the *Alumnus* before you get a letter, Ken, here's the information I have: "Bus" is now in Newfoundland as I reported in a previous column. "Sully" and the two boys, Tommy and Donny, sailed from New York Jan. 15 to join him there. The Bangor "gang" is interested to learn about the trip, "Sully."

Joe McEachern is in the contracting business in Greenville and lives in Old Town.

Alice and Harold Lord are back in Maine again, so maybe now we'll be able to see something of them. Their address is 46 Cannon Rd., Portland.

Claire Saunders Ashworth broke down and wrote a note to me, bringing me up to date on her family. It was wonderful to hear from you, Claire, and to see the pictures of your children. Nancy is 8, Bill 3½, and John 6 months. The Ashworths live at 104 Gladstone Rd., Lansdowne, Pa.

Granville Wilcox is state sugar rationing director for the State of Maine. His residence is 39 Chapel St., Augusta.

Eleanor Merriman Goggins is an instructor in English at Montana State College, Bozeman, Montana.

Donald Rollins is New England supervisor of compensations for the London Phoenix Assurance Company, Boston, Mass. His residence is 9 Walnut St., Wakefield, Mass.

Lt. Col. Roland Gleszer, who is stationed at Headquarters, U.S.A.F.E.T., Frankfort, Germany, is in the States on a special mission. He spent Christmas with his wife and two children at Cold Spring-on-the-Hudson, N. Y., and visited his parents in Bangor.

## 1937 Class Reunion, June, 1947

Mrs. Robert DeWick,  
Box 36, Woolwich

A note from Ruby Black Elliott brought the sad news of Maddy Frazier Lovell's death last September in Norwood Mass., after a three weeks struggle with infantile. Besides her husband Maddy left a four-year-old daughter and a three-year-old son. I know everyone in the class joins me in sincerest sympathy.

Ruby and Rod Elliott are living in Lexington. Ruby also passed along word of Win and Libby Story Hoyt, who now are the proud parents of two little girls and a year-and-a-half-old son. They live in Easton, Maine.

Alice Stewart, an instructor in the history department at Wellesley College, was recently awarded the degree of doctor of philosophy in European history at Radcliffe College, where she had also previously received her A. M. degree in 1938. She taught four years in Maine high schools at Andover, Dover-Foxcroft and Bangor and then returned to Radcliffe as a teaching fellow in European history. In 1944-45 she held the Kathryn McHale Fellowship of the American Association of University Women, which she used to do research work in Canada. Her doctoral thesis was a study of the imperial policy of Sir John A. MacDonald, the first Canadian prime minister. Alice's address is Horton House, Wellesley College, Wellesley, Mass.

Howard and Carolyn Staggs and two sons are living at 97 Forest Hill Road, West Orange, New Jersey. "Howie" is working in Newark with the Connecticut Federal Life Insurance Company.

Dick and Kaye Berry are at 30 Hancock St., Malden, Mass. Dick is a contractor—doing filling station installations work on the side and is the new Malden Fire Commissioner.

Mrs. Wallace F. Gleason,  
9 Oak Terrace,  
Neptune City, N. J.

Hope you all had a very Merry Christmas and that the New Year will be the best yet. I didn't start it off very well by missing out on the column for the January issue of THE ALUMNUS. I was just too busy with Christmas guests at the time the column came due. However, as it happened there were very few items last time, anyway.

## ***A world of knowledge is at your fingertip***

**E**VERY TIME you flick a switch and flood a room with light or put into operation a time and labor saving appliance, you are making use of the knowledge and experience which has given us electricity.

As early as 600 B.C. a Greek philosopher made the earliest known electrical experiments. Since that time a host of scientists and engineers throughout the world have contributed to the creation and controlled use of electricity.

Today, in the factory, in the home and in almost every phase of every day life, electricity is recognized as man's most useful servant.

Dr. and Mrs. L. Simpson Libby announce the birth of a daughter, Mary Louise, on December 21 in Baltimore, Maryland. Simpson recently opened his dental office in Baltimore. Prior to that he served as a captain in the dental corps on Saipan. He and Mrs. Libby are living at 2613 N. Charles St., Baltimore, Maryland.

**1942** Mrs. Jose Cuetara,  
1127 Commonwealth Ave.,  
Boston, Mass.

The Distinguished Flying Cross and the Air Medal with Oak Leaf Cluster were awarded to Major David A. Adams of Brewer on January 8, by Lt. Col. Lewis W. Chick, Commandant of Dow Field, in an informal ceremony held at the A.A.F. Base. Major Adams received all three citations for "extraordinary achievement while participating in aerial flight in the Southwest Pacific, for meritorious achievement while participating in the aerial flight over New Britain, and for more than 100 hours of operational flight missions in the Southwest Pacific area." This account from the *Bangor Daily News*, acknowledges the war record of David Adams. Dave and Rita Cassity Adams now have two children.

Arlene Webster received the appointment this fall as the first full-time executive director of the Lexington Girl Scouts in Lexington, Mass.

Francis Schmidt is Wildlife Manager for the state of New Jersey. His mail goes to 571 E. 22nd St., Paterson, N. J.

The engagement of Jinny May to William Arnoldy, Jr., of Grosse Point, Michigan, was announced on Thanksgiving Day by Jinny's parents. Jinny is now employed at the Hathaway Book Shop in Wellesley Farms and has mentioned to "Scoop," yours truly, that June is the probable month for the wedding. Bill is a graduate of Yale and served with the Navy during the war.

Mr. Donald MacKay of Wellesley Hills has announced the engagement of his daughter, Nancy Rose, to Richard Coffin. No date has been set for the wedding. Nancy is a graduate of the Mary E. Burnham School and is now attending the University. Dick has resumed his studies at the University.

The engagement of Avis Aurelia ODonal to Richard Mitchell was announced at Christmas time by Mr. and Mrs. Charles ODonal of Smithfield. Miss ODonal was graduated from Skowhegan High School in 1943 and is at present employed by the New England Tel. and Tel. in Portland. Dick is employed by Joshua Libby of Riverside Farm, Scarborough.

Miss Dorothy Scott and Levi Dow were married during the Christmas holidays at the Green Street Methodist Church in Augusta. Mrs. Dow was graduated from Wilton Academy and Gates Business College and is employed by the Industrial Accident Commission in Augusta. Levi served in the Army Medical Corps and we hasten to state our collective congratulations to our classmates, newly engaged and newly wedded!

The latest news from Marge Franz is that she expected to sail for Japan very soon, as she had received her orders from the army, and so Marge, and two children we wish a Bon Voyage!

Virginia Rourke Emerson's long silence is quite definitely self-explained herewith: "We were evicted from our apartment as the house was sold. Our new baby was just two weeks old, such a time! I'm in Winthrop now..." and so we congratulate Ginny and Gene in the birth of Rebecca, their second daughter and third child.

A good letter from "Ike" Downes gives a summary of a very busy time. Carol Jane was born on July 17 and we hasten to insert our belated congratulations to Jane and "Ike." "Ike" has been associated with the Tully Bakery in Tully, N. Y., and likes it very much. The Downes have moved three times this fall and are nicely settled now. "Ike" and I had pledged ourselves to getting out a news letter for the

class before the end of last summer and between us couldn't manage to make it as scheduled—and so I extend "Ike's" apologies and add mine.

Robin Charles Carter is a recent addition to our class babies and was born on January 14, weighing 7 lbs. and 6 ozs., according to the very prompt and attractive announcement of Leland and Helen Carter.

Gather round me children and listen to your hard laboring secretary spiel the latest and the best events of '43. With coffee to sustain me and the pale moon glimmering in the window the words flow free and fast—transcripts from all the correspondents who so lovingly set down their full knowledge and add to the postman's burden. (Keep writing, people, the man on our route has little to do).

Word from the University has it that a huge campaign is planned for this spring for the Building Fund for the new Union Building—see Marcie McCarthy for all publicity handouts—she being a sterling member of the publicity committee. What could be better than to have the Union erected soon and the Fund oversubscribed. Get hold of the plans if you haven't seen them already.

We feel that a trip through Indianapolis is a sure introduction to the wily ways of Dan Cupid. Proof thereof rests with Dot MacLeod and Dot Hodgkins. Dottie M. came through our fair town last Sunday on her way to Louisiana and that handsome dentist, Lt. Henry Bedard of Whitefield, N. H., a graduate of Tufts Dental School now stationed at Barksdale Field, Louisiana. The wedding to vary with the date of arrival in New Orleans. In answer to the curious—her father achieved the car they required and no other obstacles remained. We can't guarantee the wedding but feel that it is a certain thing—what! all that trip to no purpose? Dottie H. had a longer waiting

period from the time of her visit, but love prevailed. "Mr. and Mrs. Rudolph Hodgkins announce"—it was official on November 29 at Merrill, Oregon. The gentleman is Morris Anderson studying forestry at the University of Idaho. Their address is 406 S Hayes St., Moscow, Idaho.

Walt Sullivan hesitated to journey so far afield, but still managed to marry—Miss Margaret A Scholfield, December 30.

Engaged, but no nuptials as yet, Bob Jenkins to Alice Robertson of Orono, and Eleanor Swanson to Seth Thornton. Bob is studying at MIT, and Eleanor is working at the Eastern Maine General as medical technician.

To the list of those who not only submit to punishment but even ask for it we must add Bill Ellis, College Alaska, student U of A.—lovely sking, they say, also a small amount of Arctic air. Rumor has it that Sam Smiley is in the same town, but we cannot substantiate the rumor. More students (southern division) Harold Whitney, Spartan School of Aeronautics, Tulsa, and Herman Wing (Hyman Schneider) Southwestern Medical College, Dallas. Herman is still mourning for Betty Pice, whose recent marriage seems to have upset the males considerably.

Companion to Eleanor Swanson at the Eastern Maine General is Mary Sargent, assistant dietitian. These hospitals keep occurring—Charlotte Peirce is dietitian at Boston Lying-In and Ruth Eastman is nursing instructor at the New England Deaconess Hospital, Boston. All addresses furnished on request (we know of more than one way to dig up more news).

Working men (future executives division) include Keith Young, Western Maine Lumber Co., Springvale; Ralph Johnson, Oxford Paper Co., Rumford; John Selmer-Larsen, United Shoe Machinery Corp., Beverly, Mass.; John Ranks, General Electric, Syracuse, N. Y.; Hobart Chandler, York Corp., York, Pa.; and Donald B. Wheeler, United Cork Co., Boston, Mass.

A late flash—AP wirephoto shows Marcia McCarthy as State Senate page—the info has it that Marcia is also covering the races for the local papers. She confirmed the story about the races in a recent missive of some length, but said nothing about the political angle.

**1944** Esther Randall,  
98 State St., Portland

How's 1947 treating you? Should be a good year for all of us! Leave us move along from prophesy to actuality.

The Preston Rands are the proud parents of a daughter, Linda Lee, who was born on December 14th in Bangor. Deb wrote that she and Pres came home from Chicago in November following "Pop's" graduation from Gregg College. Congratulations go to 26 East Summer St., Brewer.

On December 17th at the British Embassy in Washington, D. C. Josiah Colcord was one of 60 American war heroes to be awarded the Military Cross of Great Britain. Lord Inverchapel, British Ambassador to the United States, made the presentation in behalf of King George VI as recognition for "acts of outstanding gallantry." By the way, just in case you didn't know, Joe is back on campus finishing up his college career.

The engagement of Jacqueline Dean of Wellesley, Mass., to Melvin Butler was announced recently. Miss Dean attended Mary Brooks Junior College and Mel is back at the University after serving overseas for 18 months.

On Christmas Day, the engagement of Harriet Goldsmith of Old Town to Har-

vey Hillson of Orono was announced. Miss Goldsmith will receive her B.A. from Syracuse University in January. Harvey is attending Lowell Textile School.

Mary Esther Treat and Donald Clark were married on December 9th at the Winterport Methodist Church.

Ida May Waterman was married to John E. Hunt of Woonsocket, R. I., on December 25th in Old Town. Prior to her marriage Ida was an accountant for General Electric in Schenectady, N. Y. Mr. Hunt is employed in the diesel department of the American Locomotive Company in Schenectady.

On December 28th Miss Pauline Jordan of Portland became the bride of Wendell Johnson. Mrs. Johnson is a graduate of Northeastern Business College and served with the Canadian Women's Army Corps during the war. Wendy, as you probably knew, graduated from Rensselaer Polytechnic Institute, and is at present working for General Electric in Lynn. The Johnsons will make their home in Swampscott, Mass.

In December the announcement was made of the recent marriage of Miss Josephine Ann Soldati of Somersworth, N. H., and Arthur Checchi of Calais. Mrs. Checchi was graduated from McIntosh Business College and has been employed at the Spaulding Fibre Company, Dover, N. H. "Tillie" is employed as Federal Food and Drug Inspector, Boston, and the Checchis will live in Somerville, Mass.

The Boston Herald gave us the news of the engagement of Priscilla Eaton of Melrose, Mass., to Leonard G. Wallace, also of Melrose.

Bob Beverage is employed by the U. S. Rubber Company and hangs his hat at 164 Fairview Ave., Naugatuck, Conn.

Tom Rafferty is a mechanical engineer in the H. N. department of Carbide and Carbon Chemical Corp., So. Charleston, West Virginia. Mail goes to 1216 E. Virginia St., Charleston, West Virginia. New Year's Eve brought forth a visit from "Cuz" and Max Carter and Ginney and Mac McIntire. The Carters and son are living in Westbrook, and the McIntires will be moving to Portland after Mac's graduation from Tufts Dental School the latter part of January.

That just about does things up for another month. Keep smiling and stuff!

Cal Hinkley, who is now attending Bentley School of Accounting in Boston, was married early in December to Jean Atwood of Augusta. From Honolulu, Hawaii, word is received that Warren Clement ('44) and Cecil Pavey were married there on January 5. And at Dexter Nancy Moses became the bride of Floyd Beecher recently. Nancy has been teaching at Hampden Academy since graduation and Floyd is at Maine so they will reside at Hampden. Another lovely bride is Mary Pinkham who was married to Glendon Crosswell on December 29.

A post-nuptial shower party for Kay Ward was given recently by Helen Boulter and Hazel Nutt, which makes the news of her marriage to Jack Woodworth no longer a secret. They were married in Bangor early in January and have an apartment at 188 Elm Street, Bangor.

The very best of wishes to all of you and that also includes our engaged couples: Polly Spear and Deep Bardsley; Virginia Libbey and Robert Purdy; Dottie Millet and Donald Handy.

Joan Kimball writes that she likes teaching very much at Brighton Academy. It was a pleasant surprise to learn that Lucia Packard is a close neighbor of ours. She is a night supervisor of a large private floor at the Holyoke Hospital at Holyoke, Mass., and is living at 122 Greent Street, Northampton, Mass.

# GOOD NEWS *from General Electric*

## FOR CAR OWNERS

... a new lifetime finish

A finish that will retain its original brightness and gloss as long as your car lasts—that is the goal which General Electric chemists hope to reach with silicone resins, the new materials derived from sand.

They predict that the finish will be perfected within five years.

The paint is already under test. It has proved highly resistant to severe weather conditions, chemicals and heat. Immersed in acid and alkali solutions that would cause today's finishes to deteriorate, silicone-treated panels have remained unmarred.

## FOR SMOKERS

... leakproof cigaret paper

A new G-E fault detector makes possible the production of a cigaret paper that is virtually leakproof—free of those pesky little holes that sometimes cause a cigaret to draw improperly.

Not only holes but minute imperfections in the paper are detected electronically by the instrument.

In addition to adding to smokers' pleasure, the new device will be used industrially for inspecting paper, sheet rubber, sheet mica, plastics and other materials.

## FOR TRAVELERS

... peacetime radar

Radar is being used both on ships and planes to cut down the hazards of traveling in the dark, in fog, or in storms.

For planes, the General Electric Electronics Department will soon produce a radar unit weighing only about 100 pounds, designed to increase the efficiency of "all-weather" airline operations.

For ships there is the G-E "electronic navigator," which uses radar to detect the position of above-water obstacles.

## FOR G-E EMPLOYEES

... life incomes after retirement

A steady life income after retirement is offered all G-E employees under provisions of a hundred-million-dollar pension plan recently announced by General Electric.

For the average employee this will mean a retirement income several times as large as the annuity he could ordinarily buy. Income at retirement, when added to Social Security payments, will amount to about 50% of average pay for the employee who has spent his working years with the Company.

Other G-E "job dividends," those extras that employees get in addition to wages, include insurance, vacations with pay, and achievement awards.

## FOR FARMERS

... a stock drinking cup

One of the latest direct applications of electricity to the farm is an electrically heated automatic stock drinking cup. A clean, fresh, year-round, outdoor water supply for livestock is now possible with this drinking cup.

Designed for use in sub-zero weather, it consists of a Calrod-heated drinking cup, enclosed in a durable metal housing, and fed from the farm water supply system by an electrically heated water pipe. Livestock simply nose down a treadle in the base of the cup, causing water to flow automatically.

A thermostat automatically maintains the water in the cup and pipe at a temperature safely above freezing.

## FOR HOMEMAKERS

... the Circline lamp

The Circline lamp is a circular fluorescent lamp. A 32-watt bulb of this type gives as much light as a 100-watt incandescent lamp.

These lamps, which set a new style in lighting, shed a soft, cool light from a diffused area instead of a single lighting point.
