### ACCOUNTANT'S CERTIFICATE

To the Inhabitants of the Allagash Plantation:

In accordance with Chapter 80, Section 116, Revised Statutes of 1944, and at your request, this office represented by George W. W. Shean and Emerson H. Higgins has made an examination of the accounts and records of the Town Officials for the year ended February 13, 1950, and of the revenue received and disbursements made for the fiscal year then ended.

Our examination was made in accordance with generally accepted auditing standards applicable in the circumstances and included all procedures we deemed necessary. In our opinion, the accompanying Balance Sheet and related statements of Disbursements and Receipts fairly present the position of the Plantation of Allagash as at February 13, 1950.

This is to certify that this report is a true copy of the certified copy that is being mailed to the State Department of Audit, as required under Section 119, Public Law of 1945, and we hereby declare that this original and a copy are rendered to the Allagash Plantation.

Respectfully submitted,

Shean Accounting Service, Inc.  
By George W. W. Shean,  
Municipal Auditor.

Houlton, Maine, March 6, 1950.

## REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and the citizens of Allagash Plantation:

I herewith submit my second annual report on your schools for your consideration:

I wish to repeat my statement of last year that your school system must be modernized and centralized if it is to efficiently and economically meet the needs of the children of Allagash. The consolidated school to be erected should be large enough to take care of all the school population, except for those in the Aaron Jackson School District. You have made a very good beginning towards raising the funds necessary to build your school. It is hoped that you will continue to add to that fund. Once that school is built and paid for, and money has to be raised only for school maintenance the burden will be considerably less.

The amount recommended to be raised for your School Building Fund this year is quite high. Last year you had to meet a heavy deficit, so we cut your total school appropriations from \$26,020, made in 1948, to \$21,000. This year the deficit is considerably less, so we are asking for \$15,000 for the School Building, making a total school appropriation of \$26,000, approximately the same total amount as was raised two years ago. If you appropriate that amount, then we shall be in a position to look seriously into the possibility

of building this year. Various articles have been included in the warrant to take care of this possibility.

A small school was built at Aaron Jackson's this year. Due to the distance and the condition of the road at certain seasons every year, the only logical thing to do is to maintain an Elementary School there. Hauling the children is both expensive and impractical.

Respectfully submitted,

Albert A. Cyr, Superintendent.
