OCTOBER, 1948

The MAINE ALUMNUS

This is our Magna Carta . . .

THE FEDERAL LAND-GRANT ACT

".....the endowment, support and maintenance of at least one college where the leading object shall be, without excluding other scientific and classical studies, and including military tactics, to teach such branches of learning as are related to agriculture and the mechanic arts, in such manner as the Legislatures of the States may respectively prescribe, in order to promote the liberal and practical education of the industrial classes in the several pursuits and professions in life....."

The University of Maine, like the other great "land-grant" colleges and universities in this country, was established under the provisions of the Federal Land Grant Act or Morrill Act, approved in 1862 by President Lincoln.

This Act stands as the Magna Carta of American higher education. It sets forth these inalienable principles:

- Educational opportunities shall not be limited to a few, but shall be extended to the *industrial classes*.
- *Scientific and classical studies* shall be offered as well as courses in agriculture and engineering. Opportunities shall be provided for those desiring a *liberal education* and those desiring a *practical education*.
- Courses shall be offered to prepare students for *the several pursuits and professions in life*.
- *Military tactics* shall be included in the courses of study.

During the four-score years that have passed since the University of Maine opened in 1868, this institution has steadfastly endeavored to adhere to the principles set forth in the Federal Land Grant Act.

(This is the first in a series of statements giving background information on your State University.)

FRONT COVER

Registration found long lines of students quickly processed as they enrolled for the fall semester. The main floor of the gym was used for the completing of class schedules and then the route led to the south balcony where the term bills were paid to the Treasury Department. After clearing this financial hurdle, the student wound his way to the north mezzanine to file his class cards. In the meantime, John Student had filled out numerous forms, signed his name several times and had been relieved of a few hundred dollars. G. I. Joe had some additional government forms to complete with the V. A. before he was ready to start classes on September 20.

THE 81st YEAR

FRESHMAN Week, a program originated at Maine and now adopted by practically all colleges, celebrated its twenty-fifth anniversary this year when more than a thousand young men and women arrived at Orono and Brunswick to register. Their number was swelled a few days later by upperclassmen, graduate students, and others to bring the total registration to over the 4700 mark. This was slightly less than the record enrollment a year ago.

The biggest enrollment is in the Junior class with 1470 students and 1,113 listed in the Sophomore class. Next commencement will witness the largest graduating class in the history of the University. An undetermined number of the 861 seniors will graduate in February but it is anticipated that almost eight hundred diplomas will be awarded next June.

The Graduate school continues to reflect a growing reputation with 121 students enrolled. The college of Arts and Sciences has an enrollment of slightly over 2,000, leading the college of Technology with 1,435 and the college of Agriculture with 1,004 students. The school of Education has 205 students registered.

This third post war year brought a somewhat smaller number of veterans with about forty-five per cent of the freshman class entering registered under the GI Bill. The freshman class showed a

decrease over a year ago which was made necessary by the anticipated closing of the Brunswick Campus next June. The entire student body will be at the Orono Campus next September and therefore, classroom and dormitory facilities available limited the number in the entering class.

The campus may appear crowded to the visiting alumnus but faculty have become accustomed to somewhat heavier classroom schedules and upperclassmen to a few inconveniences in a spirit of co-operation and a realization of the opportunities the University is affording to so many, a feeling of 'normalcy' is apparent. That feeling is heightened by the reappearance of freshman caps and rules, the Maine "Hello" and in many other ways.

The Wingate Bell continues its tolling to mark the class periods which begin earlier and close later than in yesteryear. As Indian Summer, never more beautiful than this year, creeps upon the campus with its thousand paint pots, one forgets the "good old days" for these are the good days. The same pleasant, friendly and democratic spirit of Maine has not changed.

True, the campus and student body have grown, but as the University starts its eighty-first year, who is to deny that growth and stature should not be recorded. Since that day in 1868 when

twelve courageous young men entered the Maine State College of Agriculture and Mechanic Arts to be greeted by the faculty of two, Acting President and Professor of Mathematics and Physics Merritt C. Fernald and Samuel Johnson, Farm Superintendent and Instructor in Agriculture—both graduates of Bowdoin—more than 13,000 alumni have nurtured an educational tradition.

Today, with a faculty of more than three hundred the University, a rich history of service to the state and nation behind, looks confidently to the years ahead and the opportunity to carry on its responsibility of "education in a free society."

If this be the beginning of the atomic age then never has there been a greater need of higher education where man can search the broad horizons of culture and learning for solution to Peace. It was the American heritage of education that brought this great force upon the world; it must be that same for education that will develop a means to control it for man's eternal benefit rather than for man's inhumanity to man.

Every Alumnus must rally to the support of our educational system. In these days of increasing costs and decreasing income it is easy to compromise the goals of education, but there must not be compromise.

President and Mrs. Hauck and "Wiki"

DR. and Mrs. Hauck have begun their fifteenth year at the University, a tenure equalled only by Dr. Fernald. Alumni will be in hearty accord with the simple but sincere tribute which accompanied the photo of the Haucks at the left in *The 1949 Prism*.

"For fourteen years Maine has recorded with pride the development of a distinguished personality. President Hauck instills confidence in his co-workers and most casual acquaintances alike. In his administration he has constantly favored progress at the University.

"With each *Prism* we see a tradition becoming more firmly rooted here at Maine—Justifiable pride in a man we respect and admire."

FACULTY CHANGES

THE annual list of new appointments to the faculty and promotions of former members includes the naming of four new heads of departments and one new acting head. Dr. Louise A. Stedman takes Professor Pearl Greene's place as Head of the Department of Home Economics; Professor Lewis Niven assumes Professor Adelbert W. Sprague's duties as Head of the Department of Music; Dr. A. Douglas Glanville becomes Head of the Department of Psychology; and Professor Lyle C. Jenness advances to Head of the Department of Chemical Engineering. Both Dr. Glanville and Professor Jenness have been Acting Heads of their respective departments for the past year. Wofford A. Gardner has been named Acting Head of the Department of Speech replacing Dr. Howard Runion, who has gone to the College of the Pacific in California.

Miss Stedman received a B.A. degree with honors from the University of Iowa in 1930; an M.A. from the same University in 1937; and a Ph.D. from Purdue in 1947. She joined the University of Maine faculty in 1944 following some years of teaching home economics in high schools and at the University of Idaho (1937-1942). She has also served as Assistant State Supervisor of Home Economics for the state of Maine from 1944-47. Miss Stedman is a member of several national honorary societies. Together with her appointment as Head of the Department of Home Economics, Dr. Stedman has been advanced to the status of full professor.

Professor Lewis Hamilton Niven comes to Maine from Geneva, N. Y. Born in Parker Station, Oregon, Mr. Niven was graduated from Whitman College in 1926 with a bachelor of music degree. He received his M.A. from Teachers College, Columbia University in 1938. He has studied at the Bush Conservatory and Columbia School of Music in Chicago; in Paris with Raymond Gilles of L'Ecole Normale; and at the Berkshire Music Center, Eastman School of Music, and the National University of Mexico. He served as instructor in voice at Mercersburg Academy from 1930-1934, and since that time has been at Hobart and William Smith Colleges where he has been professor and chairman of the Department of Music. Mr. Niven has written several musical compositions; has conducted choirs and also the Geneva Symphony Orchestra; and has served as chairman of the committee on music for the laymen of the college section of the Music Educators National Conference in Cleveland. He is also a member of several national music organizations.

Professor Lyle C. Jenness was graduated from the University of New Hampshire in 1922, and received his M.S. degree from the University of Maine in 1925; he has also done graduate work at the Massachusetts Institute of Technology. He joined the faculty of the University of Maine in 1923, serving first in the mathematics department and later in the chemistry and chemical engineering departments. In addition to his work as acting head of the chemical engineering department, he has also been Acting Director of the Department of Industrial Cooperation for the past year. He was honored during the recent Commencement activities as one of the University faculty members who has served for 25 years.

Dr. A. Douglas Glanville was graduated from Cornell University in 1927 with an A.B. degree. He received an A.M. degree from the University of Illinois in 1928, and his Ph.D. degree from Cornell in 1932. He joined the University of Maine faculty in 1937. Dr. Glanville has been a Merriam Research Fellow at Cornell University, Senior Research Fellow at the Training School, Vineland, N. J., and psychologist at the Delaware State Hospital and Mental Hygiene Clinic. Dr. Glanville has been advanced from Associate Professor to Professor.

Wofford A. Gardner has been advanced from the rank of Instructor to Assistant Professor as well as being named Acting Head of the Speech Department. Mr. Gardner received his B.A. degree at Southwestern in 1935 and his M.A. degree at Northwestern in 1941. He joined the University of Maine faculty in 1946.

Other new members of the teaching faculty announced from the President's office are as follows:

COLLEGE OF AGRICULTURE: Dr. Richard W. Gerry, '38, assistant professor of Poultry Husbandry and associate Husbandman in the Agricultural Experiment Station, B.S. University of Maine, M.S. and Ph.D. Purdue University; has been instructor of vocational agriculture at Waldoboro High and Corinna Union Academy, and from 1943-1948 has been an assistant in Poultry Husbandry Research at Purdue.

COLLEGE OF ARTS AND SCIENCES: Dr. W. Harry Everhart, assistant professor of Zoology, B.S. degree Westminster College, M.S. University of Pittsburgh, Ph.D. Cornell University; has been a graduate assistant at U. of Pittsburgh and at Cornell; served in the Army Air Corps.

Stuart Gross, associate professor of Spanish, A.B. Stanford University, M.A. Stanford 1936; has also done graduate work at Columbia; has been an instructor

at Wesleyan and an assistant professor at Florida Southern College; was head of the Spanish Department in the department of Education of Guatemala, and has held various teaching assignments at San Carlos University; during 1947-48 he was official translator for the president of Guatemala.

Edward Kelly, assistant professor of Physics, B.S. and M.S. degrees from Pennsylvania State College; has served as an instructor at Penn State and also at Brown University.

Dr. Frederic Peachy, assistant professor of Classics and French, graduated from the University of Paris in 1935 and also received an advanced degree from that institution; A.M. and Ph.D. degrees from Harvard; teaching fellow in French at Harvard; instructor in French, Brown University; served in the U. S. Marine Corps during the war.

Richard K. Stuart, assistant professor of Economics and Business Administration, B.S. and M.S. degrees from Rhode Island State College; has taught at Rhode Island State, Wharton School of Accounts and Finance, American Institute of Banking; was an instructor of Economics at the University of Maine 1940-46; has done graduate work at the University of Pennsylvania.

SCHOOL OF EDUCATION: Thomas C. King, assistant professor of Education, B.A. and M.S. degrees from Fort Hays Kansas State College; has had seven years' experience teaching in rural schools of Kansas; has served as an elementary school principal and superintendent of schools in Kansas; has been an instructor in Education at Bethany College; served in the Navy during the war.

Robert W. Supple, assistant professor of Education, B.Ed. State Teachers' College, New Paltz, N. Y., M.A. New York University 1945.

DEPARTMENT OF PHYSICAL EDUCATION: Catherine Shaw, assistant professor of Physical Education in the Women's division, B.S. Sargent College of Boston University, M.S. in Physical Education from Smith; has served as an instructor at the University of Texas.

COLLEGE OF TECHNOLOGY: Donald H. Feener, assistant professor of Mechanical Engineering, B.S. Northeastern University, M.S. Harvard; was director of Feener Technical Schools, Inc.; has been a Laboratory Assistant at Massachusetts Institute of Technology; has worked for Pratt and Whitney Aircraft Corp.; is an Engineering Officer in the U. S. Naval Reserve.

John F. Lee, assistant professor of

SUMMER SPEECH CLINIC

By Larry Jenness '49

THE ability to speak as quickly as you think is a great talent which all of you take for granted in your daily life." That's what 13-year-old Reginald Collins recently told the members of the Madison Kiwanis Club, who, in cooperation with the Madison-Anson Parent-Teacher Association, made possible his study at the University of Maine's 1948 Summer Speech Clinic.

Although no learned lecturer, Reggie knows where-of he speaks. He has stuttered severely as long as he can remember. Speaking about himself before the Orono-Old Town Kiwanis Club at the close of the summer's work, Reggie said, "I have stuttered all my life. It has been worse when I am among strangers." Yet in both of these speeches, Reggie's delivery was fluent, clearly understandable, and almost totally free of stammering or stuttering.

In the ten years since Dr. Howard L. Runion founded the University's first clinic, the factors which led Reggie along the road to better speech have pushed many other vocally handicapped Maine people in that direction. A man of boundless energy himself, Dr. Runion combines his knowledge of speech pathology with small but ever increasing financial assistance plus the enthusiastic aid of students and fellow-workers. The 1948 clinic, his biggest and best, stands as an example of his achievements. It was jointly sponsored and financed by the Division of Handicapped Children of the State Department of Education, and the University's School of Education and Department of Speech. Speech major resident in charge of the clinic, while June Swanton, '48, Old Town, and the author, also major students of

Of the 18 children who received help this summer, 11 were stutterers, four had repaired cleft palates, and three had articulatory difficulties. In his speech-

making, Reggie says, "We were a scared bunch of kids when we arrived at the clinic, making the funniest sounds you ever heard. And we called that speech." Scared though they might have been, they learned a valuable lesson that first day. Each child realized that he was not alone in his difficulty.

Reggie describes the average clinic day this way: "At Orono our day started at seven fifteen in the morning. We were washed and ready for breakfast at seven forty-five. All of our meals were eaten at the men's cafeteria. Individual classes started at nine. Some of the pupils had two hours of instruction, some had one hour, depending on their cases. Between classes there was an opportunity for us to play all sorts of games. Lunch came at eleven forty-five and was followed by a rest hour until two o'clock. In the afternoon we played games and had a chance to visit the store for cokes. After supper we went to the movies, played games, or had sessions of choral reading.

The individual lessons, under the supervision of Dr. Runion, gave each child a chance to concentrate on his own problem. The periods were conducted by summer school students who had had the course in speech pathology and were studying clinical speech procedures. Children with repaired cleft palates (who, says Reggie, "talk through their noses") practiced daily on making correct sounds and speaking without letting air escape through the nose. The articulatory cases (lisps, baby talk, or delayed speech) were drilled on tongue and lip movement in making correct sounds.

"Stutterers like myself," Reggie told his sponsoring Kiwanians, "were taught to talk slowly, relax, close our mouths, and to let the first letter of the word come out easily. The first time they recorded my voice I stuttered very badly, and when I heard my voice I made up my mind

that I was going to improve. My second recording was not so bad, and in my third and last record I did not stutter at all."

Disc recordings of each child's voice were made, as Reggie has already pointed out, to show improvement. A portable tape recorder gave the children an everyday chance to hear themselves.

The clinic had as its motto, "Every Hour a Speech Hour." That meant that whether swimming, dancing, playing softball, or putting together a puzzle, better speech was always the rule. All activities were closely supervised, and in many instances as much progress was made on the playing field as in the classroom.

Reggie was not alone in finding better speech, as, at the close of the summer, results of the six weeks' work could be seen in every one of the children. In some cases it was simply the ability to accept the speech handicap, get along, make friends, and succeed in spite of it. With that kind of an attitude attained, a normal, happy life could be expected.

Two of the 11 stutterers went home with hardly a trace of the difficulty remaining. Six others, including Reggie, still stuttered occasionally but were in complete control of the situation.

These cases illustrate the goals of the clinic, and the attitude that there is no *complete* cure for a speech defective child. For the cleft palate or articulatory case the goal was understandable speech, not perfect speech. The success of the stuttering child was measured, not by the absence of the last bit of difficulty, but by his ability to control the blockings and stammerings. In Reggie's words, "If you know how to control the block, you've got it licked."

Was the summer worth the time and money spent by the University and the State? Here's the last part of Reggie's speech to the Madison Kiwanians: "I have to speak slowly now because of my stuttering, but I have been given so much confidence by my attendance at the clinic that I am sure that I shall be able to overcome my speech defect in time. In fact, I am so sure of it that after seeing the work that the teachers do for boys and girls like myself, I now plan to be a speech specialist when I grow up."

What more could you want?

Lawrence "Larry" Jenness '49, a speech major, is the son of Prof. Lyle C. Jenness. Last year he was editor-in-chief of *The Campus* and has been one of the varsity debaters for two years. During the summer he assisted Dr. Runion in the Speech Clinic.

Larry Jenness and Reggie Give a Demonstration

MISSION TO POLAND

By A. B. Lewis '28 and P. J. Findlen '31

THERE is the city, spread out on the plain ahead—it looks like a big place, all right—big buildings, too—but did you see that building we flew over—it had no roof—more buildings without roofs—acres of high standing walls—but open to the sky—do you suppose they are all empty—there is the airport, down there—and ruined hangars—those grey spots probably show where bombs fell on the field."

Such were the comments of ten scientists approaching Warsaw, Poland, from the North by plane on the Fourth of July a year ago. Recruited by the Food and Agriculture Organization from five different countries, we were to spend the summer in Poland, studying problems of food supply, agriculture, and forestry. We were there at the request of the Polish Government and were welcomed, as soon as all had passed customs, by a committee of officials and scientists with whom we were to work.

The impression of ruin and destruction on every hand, first received on the plane, was very sharp and depressing. Although we found that practically every city and town had experienced war devastation in some degree, our hearts were cheered by the aggressive effort and courageous optimism of the people taking their part in the drama of a nation again coming to life. We began to see more of what was there and less of the evidence of things destroyed. Only by acquiring such an attitude of mind, would it be possible to live in Poland today. Even so, the tremendous future cost in labor, time, and materials of rebuilding Poland continued to impress us throughout our stay. It would be impossible to exaggerate this task facing the Polish people.

Progress in reconstruction is, however, being made in spite of shortages of materials, machinery, and skilled labor. Seeing long caravans of horse-drawn carts bringing rubble from the ruins of Warsaw to the huge land fills being made on the banks of the nearby Vistula River gives an impression of the magnitude of the task for the means at hand. Seeing workmen breaking stones with a hammer for use in rebuilding roads provided the same impression. Against this background, the lone bulldozer we once saw moving rubble to make room for a new building to house a Government bureau seemed almost out of place.

During the first week of our visit, before leaving Warsaw on our first field trip, we were given a series of lectures on the organization, accomplishments, and plans of the present Government, and were shown several elaborate exhibitions by

way of illustration, usually under the personal charge of officials of the Polish Cabinet.

During this week it was explained, for example, that all businesses employing more than 50 people had been nationalized and were now run by the Government; that banks were also nationalized; and that the new Government had expropriated all landed estates of 50 hectares (125 acres) or more in most of old Poland and of 100 hectares (250 acres) or more in the new territories taken over from Germany in East Prussia and along the western border. Besides the nationalized industries, banks, and state farms, there were the cooperatives, both farm and consumer, and individual peasant farms and small private businesses. Members of the cooperative and private sectors of the economy purchased food and other supplies on the free market, while employees of the Government and of Government-operated industries who were paid very low wages, had the privilege of buying food and supplies at special low fixed prices.

After the first week of preparation, the Mission members left Warsaw on a ten-day field trip through central and northern Poland. Each member was accompanied by one or more Polish scientists or Government officials interested in the same line of work, and by an experienced interpreter. We travelled in Canadian-made Chevrolet military staff cars originally supplied the Government by UNRRA. These were not luxurious but served the practical purpose of permitting us to travel anywhere we wished to go, regardless of road conditions. Polish drivers operated and serviced these vehicles.

After attempting for the first day or two to travel in a body, making a small army of 10 military vehicles and about 50 persons, we soon concluded that we could learn more and be more effective if each Mission member and party travelled separately, choosing a route and making unscheduled stops in line with his interest and specialty on the Mission.

We followed a similar procedure of travel on three subsequent field trips, and altogether each Mission member travelled more than 4500 miles throughout Poland. We were free to travel wherever we wished and to talk to anybody we chose. The Mission members arranged to be together for discussion while visiting major teaching and research institutions in the course of these trips, and spent alternate 10-day periods in Warsaw conferring with Government officials.

This rather strenuous schedule was

pleasantly interrupted by a week end on the Baltic beach at Sopot, where we stayed at the Grand Hotel, Hitler's former headquarters in Poland, and by another week end at Zakopane (pronounced Zakhkopah'ny), a famous European ski resort in the Tatra Mountains on the Polish-Czechoslovak border. We were entertained at Zakopane by local mountain people who performed folk dances and sang their native songs. They were brightly dressed in their traditional local costumes, beautifully embroidered, those of the men as elaborate as those of the women.

About two-thirds of all Poles live off the land. On our journeys, members of the Mission interviewed literally hundreds of farm people in all parts of the country. We found them intelligent and friendly, and willing to discuss their farms and their problems. Many mentioned friends and relatives in the United States and Canada, and it was brought home to us in this way that there are about one-fourth as many Poles on this side of the Atlantic as there are in Poland. They often told us of packages of food, shoes, and clothing sent to them from America and many said they did not know what they would have done without this help.

In rural areas that had been devastated in battle, we found farm families existing miserably in underground dugouts or living in other makeshift buildings, often in barns with the livestock they had been able to save. In the new territories, many settlers who had come from the former eastern territories of Poland, now part of the Soviet Union, also lacked proper housing, and were often nearly destitute of clothing, fuel, seeds, fertilizer, and other necessary supplies for living and farming.

(Continued on Page 16)

Ardron B. Lewis '28 taught at the University of Nanking from 1933 to 1936. From then until 1942 he did research work for the Farm Credit Administration. During the war he was stationed in India doing intelligence work on the Japanese food supply and later served as a specialist on China and other countries of the Far East. Since June 1947, Dr. Lewis has served as specialist in land use for the Agricultural Division of the Food and Agriculture Organization of UN.

Dr. Paul J. Findlen '31 did graduate work at Cornell University and then did research work for the Cornell Experiment Station. Since 1942 he has been associated with the Cooperative Extension Service of the Department of Agriculture in Washington in the capacity of Extension Economist in Vegetable Marketing. He and Dr. Lewis were members of the FAO Agricultural Mission to Poland and have jointly prepared a brief report on their work.

* Denotes Lettermen.

THE QUARTERBACK

Coach George "Eck" Allen opened pre-season practice with 41 men, fourteen of whom were lettermen; six of them in the backfield including Phil Coulombe '50 and fleet-footed "Rabbit" Dombkowski '49.

However, the problem facing Coach Allen and Line Coach "Whoops" Snively was to find replacements for quarterback Hal Parady and linemen George Marsanskis, Norm Benson, Flash Gordon, Phil Murdock, and Bob Emerson all lost by graduation. These were difficult holes to fill for these stalwarts were all sixty-minute men with plenty of experience.

At the time of going to press, the team seems to be a smooth working team, and with experience gained in the pre-state series games, it is expected that Maine will make a creditable showing. Sports writers are picking Bowdoin and Maine as top contenders for the state crown now held by the Black Bears. Scouts report that Adam Walsh's Bowdoin team has plenty of power and deception. The Polar Bears were able to get in plenty of pre-season practice because of a summer term of college which closed in early September just before the opening of the regular college year.

While some may be putting "Ducky" Pond and his Bates Bobcats and Walt Holmer's Colby Mules in the also-rans, it is not to be forgotten that Bates has at least two formidable players in Blanchard and Parent who would go far in making any team good. Colby has many sophomores from their last year's undefeated freshman team that showed so much promise.

As always with the state series and its anything-can-happen and usually-does reputation, we will not go out on the limb except to say that Maine is confident of keeping the Barrows Trophy, emblematic of the state championship.

Notes on the "Black Bears"

Alan "Al" Wing... Earned his letter both as a freshman and sophomore... plays end... pass catching his specialty... played all four sports at Madison High... now lives in Bangor... Junior, majoring in Civil Engineering.

John "Jack" Zollo... Outstanding guard for past two seasons... selected for Little All-American honors in 1946... played football, baseball, and hockey at Danvers (Mass.) High... brilliant war record as T-Sgt. in the 82nd Airborne Division... Senior, majoring in Mechanical Engineering.

Henry "Rabbit" Dombkowski... Halfback who earned his letter as a freshman, sophomore and last year as a junior... named to several "All" teams last season, including All-Maine and Little All-American... only 20 years old... graduated from Central High, Paterson, N. J., where he played no sports... now lives in Brooklyn, N. Y.... Senior, majoring in Forestry.

Philip "Phil" Coulombe... Halfback who has earned his letter for the past two seasons... 20 years old... former Cony High, Augusta, star... hardest hitting back on the squad... Junior, majoring in Business Administration.

Donald "Don" Barron... Guard who has earned his letter for the past two seasons... Junior... graduated from Deering High in Portland, where he played a lot of football... served in the Navy during the war... now studying Pre-Law.

Edward "Ed" McDermott... Reserve center for the past two seasons... earned his letter both times... graduated from Fairhaven (Mass.) High where he played football, baseball, and basketball... saw 45 months service in the Navy... Junior, majoring in Physical Education.

Arthur "Art" Clark... Has earned his letter as a reserve back for the past two seasons... excels on defense... very hard tackler... graduated from Cony High in Augusta... played all sports there... former Naval Air Corps instructor... Junior, majoring in Physical Education... married.

Reginald "Reggie" Lord... Earned his letter last season as a reserve halfback... good ball carrier and hard worker... played four sports at Brunswick High... served with the Engineers in the Pacific... Junior, majoring in Physical Education.

Richard "Dick" Reilly... Saw service both as a tackle and guard last season... letterman... now playing tackle... went to Hebron Academy where he played baseball and hockey in addition to football... served in the Navy during the war... Junior, majoring in Mechanical Engineering.

Randolph "Randy" Adams... Earned his letter last season as an end... graduated from Mattanawcook Academy in Lincoln where he was a three-letter man... served over two years with the Infantry during the war... Junior, majoring in Physical Education.

Charles "Charlie" Loranger... Earned his letter last season as a reserve back... excels on defense... graduated from Old Orchard Beach High where he was a four-letter man... served in the Army Engineers for three years... Junior, majoring in Mathematics.

James "Jim" McBrady... Earned letter as reserve center last fall... played football at Cheverus High in Portland... served in the Navy for three years... Junior, majoring in Business Administration.

Alton "Bus" Sproul... Earned letter last season as the first-string fullback... switched to quarter this year... played three sports at Hallowell High... served in the Army for 32 months... Senior, majoring in Electrical Engineering... married just recently.

Stanford "Punk" Trask... Reserve fullback last season who is doing a fine job at tackle this year... four-letter man at Wilton Academy... served 32 months in the Air Corps, 25 of which he spent with the 11th Airborne Div. in the Pacific... Junior, majoring in Civil Engineering.

Russell "Butch" Noyes... Punting specialist whose expert kicking has kept the Bears in the thick of it throughout the season... played football, baseball, and basketball at Traip Academy... with the Brunswick Annex team last season... served with the Coast Artillery for over a year... Sophomore, majoring in Physical Education.

Leslie "Red" Leggett... Outstanding end who played halfback at the Brunswick Annex last year... played three sports at Traip... served in the U. S. Navy... Sophomore, majoring in Physical Education.

Charles "Charlie" Salisbury... Largest man on the squad at 6 ft. 4 in., 235 lbs.... plays tackle... took part in football, track, and skiing at Bar Harbor high... served in the 15th Air Corps for three years, two of which he spent overseas... married and has one child... Junior, majoring in Horticulture.

Seymour "Moose" Card... Tackle who came up to the varsity from the Brunswick Annex team... played three sports at South Paris high... Sophomore, majoring in Animal Industry.

Edgar "Blackie" Turmelle... Guard who is seeing quite a bit of action this season... played football and baseball at Sanford high and the Brunswick Annex... hammer man at the Annex in 1946... served a six-year hitch in the U. S. Navy... oldest man on the squad at 28... married and has a 13-months-old son... Junior, majoring in Physical Education.

Robert "Bob" Duddy... Guard who moved up to the varsity from last season's Orono Frosh eleven where he played an end position... played tackle for John Bapst high... served in the Navy for three years as an Electricians Mate in the Submarine service... a Sophomore Owl... majoring in Physical Education.

Alumni NAMES in the NEWS

Service Pin—

Forty-five years of service with the Central Maine Power Company was recognized this summer when George S. Williams '07, executive vice president of that Company, was honored at a luncheon in Augusta. He was awarded a 45 year service pin by President W. F. Wyman.

Mr. Williams was recently elected president of the University Board of Trustees. He is now serving his second term as a member of the Board. A past president of the General Alumni Association, he has for many years been actively associated with alumni and University affairs. His son, G. Seth, Jr., graduated in the class of 1937.

Starting his career with Maine's largest utility as a summer vacation employee while in high school, Mr. Williams continued in a like manner as an undergraduate at Maine. He then joined the power company and has since then steadily advanced to his present position.

Familiarly known as "G. S." to hundreds of CMPCo. employees, the awarding of his service pin was the occasion for them to honor him at a luncheon.

Vice President—

John N. Kane '10 has recently been elected a vice president of the Kellogg Sales Company. Since 1937 he has been eastern division sales manager for the Kellogg Company. He started as a salesman in 1911 in the Boston office, later serving as sales manager in Detroit, Cleveland, and New York. In his new

John N. Kane '10

position he will continue in charge of sales in the Company's eastern division.

Now living in Bronxville, Mr. Kane is a native of Frankfort and after graduating from Bangor High, he entered the University. As an undergraduate, he served as manager of freshman baseball and was a sergeant in the Cadet Corps.

New Chief—

Colonel Francis J. "Pat" McCabe '32 has recently been confirmed as chief of the Maine State Police. He had been serving as warden of the State Prison on leave of absence from the State Police Force of which he has been a member for fourteen years. At the time his leave of absence was granted he held the rank of lieutenant in the force.

McCabe was selected over other candidates for the post because of his all-round experience and ability, and particularly because of his administrative background. He has attended the Traffic Institute of Northwestern University and was formerly Director of the Safety and Traffic Division of the State Police.

McCabe is a member of the Alumni Athletic Advisory Committee. He will be remembered as an outstanding baseball and football player.

Bob Thurrell '15 was host to a large group of Southern New Hampshire alumni at a picnic at his Cotton Mountain Farm in East Wolfeboro, N. H. Charles E. Crossland '17, center foreground, is shown informally addressing the group. Hazen H. Ayer '24, president of the General Alumni Association, also spoke to the alumni. A beautiful location looking over three states and many lakes, Mr. and Mrs. Thurrell had bountifully prepared for what everyone agreed was "a grand time." Everett E. Libby '18 was the photographer.

Henry P. Turner '22

Promotion—

Joining the Westinghouse Corporation immediately after graduation in 1922, Henry P. Turner has been with that Company since in various capacities in New England. Announcement was made last month of his promotion to Central Station Manager in New England.

His new position brings him from Providence to Boston where he will direct the Company's business with the public utilities of New England.

He is a past president of the Rhode Island Alumni Association

The World Series...

games were closely followed by the student body. Sigma Nu set up a scoreboard just outside the Bookstore, complete with radio. The R.O.T.C. had a radio on the Library terrace while several students who had classes during the games carried portable radios along with them for up to the minute scores between classes.

With the FACULTY

Dr. Hauck was awarded the honorary Doctor of Laws degree at the Boston University commencement exercises in June. Among others honored were Trygve Lie, secretary of the United Nations; Dr. John W. Studebaker, U. S. Commissioner of Education; and Erwin D. Canham, editor of the *Christian Science Monitor*.

The citation accompanying Dr. Hauck's degree read: "President of the University of Maine, a man with broadly based experience in education extending geographically from Hawaii to Maine, and academically from elementary school teaching to University presidency; upon this broad foundation you are rearing a commensurable superstructure of service that wins our favorable regard."

This latest recognition of Dr. Hauck's services to education makes the seventh honorary degree conferred upon him.

Faculty members of the College of Technology were busy during the summer doing research work, teaching or working in various industries.

Professor Hamilton Gray spent the summer on the Island of Cyprus on a private assignment for a New York engineering firm. He went overseas to initiate a program for securing engineering data required for the design of a large ore loading dock, part of the modernized plant of the Cyprus Mines

Research work at the General Electric Co. in Schenectady occupied the summer of Associate Professor R. C. Hill, and Professor Theron A. Sparrow '24 did development work with Dielectric Products Co. in Jersey City.

Attending the A.S.E.E. meetings in Texas were Professors Weston Evans '18 and C. E. Bennett. The latter was reelected chairman of the Physics Division for the coming year. Professor Bennett also served as director and consultant for a research project being carried on by Victor H. Coffin '31 for the U. S. Navy at the University.

Several members of the College of Agriculture faculty were engaged in research during the summer including Winston E. Pullen '41. Mrs. Fern Witham '46 and Miss Mary Billings '44 of the Home Economics Department studied at Columbia and Cornell Universities. Cecil E. Howes '41 also did graduate work at Cornell.

Professor Jonh R. Crawford of the School of Education was a member of the summer session faculty at the State University of Iowa.

Doctors Albert and Percie Turner of the English Department were traveling in Europe during the summer.

Assistant Professor of English, Walter R. Whitney, was the subject of a recent article published in *The Bowdoin Alumnus*.

The Placement Bureau

THE University Placement Bureau, now established on a full-time basis by the University, is undertaking plans for increased service to both students and alumni, according to Placement Director Phil Brockway '31 who has been in charge of the work of the Bureau since its beginning in 1935. Of particular interest to alumni is a projected program of wider service to graduates who may be desirous of changing their present jobs to better their professional progress or for such personal reasons as a more preferred location.

Jobs Available

Several attractive opportunities have recently been received by the Placement Bureau for experienced alumni, indicating a continuing field of employment in several lines of work for graduates with the requisite experience. Among the current jobs on file at the Bureau are the following:

Electrical Utility in Maine wishes an electrical engineer with two or three years

For the second year, Wayne Jordan, Professor of Journalism, was in Germany as an advisor for the American Military Government. Upon his return to this country he was one of the speakers at the convention at Denver, Colorado, of the American Association of Schools of Journalism.

of experience to do drafting and design work on electrical machinery, circuits, and equipment.

Engineering construction and management firm in New York City has developed a new paper mill department and wishes experienced paper engineers—ten to twelve years of experience—to qualify for supervisory and administrative positions.

Marine research organization in New England is in urgent need for men with majors in physics, one to work as laboratory man on instrumentation problems, one to be an assistant physicist for laboratory and field work, especially with sea duty experience gained in Navy.

Paper mill in New England is seeking an experienced maintenance engineer with experience either in paper mill maintenance or heavy chemical industry maintenance. He must be able to supervise maintenance work in all trades.

Paper mill in Pennsylvania needs a technical man to do mill development work in manufacture of fine writing and printing papers. Two to three years of experience desired. Work will involve studies in the correlation of laboratory findings with mill operation in various departments.

Electric utility in Maine wants a woman to become research assistant to the vice president in charge of public relations. The position will involve setting up an information system based on newspaper and magazine articles and direct mail pieces. She will also assist in preparing speeches and feature articles. She will be trained in the details of the utility business on the job.

If any alumni should be interested in any of the opportunities described or should wish to register with the Bureau for placement service the Director will be pleased to hear from them at any time.

KILROY wasn't here but '98 was," says A. D. T. Libby '98, who sent us this picture of the old University standpipe on which he and his classmates had painted their numerals.

This standpipe stood on a slight elevation near the present cattle barns and supplied the campus with water which was pumped from the Stillwater by steam or an electric pump in the event of a breakdown. The pumps were located in a small brick building opposite the Beta House. The intake house was located on the bank of the Stillwater and was also used as a "bear house" for Bananas, the black bear mascot of the University.

The standpipe will be remembered by many alumni as a freshman-sophomore battleground as each class tried to paint their own numerals and obliterate those of their traditional rivals. The top of the tank was about 90 feet in the air.

The standpipe went into disuse about 1910 when the University was connected with the "city water" of the Orono Water Works. It was the standpipe of this concern that later became emblazoned with the class numerals of entering classes.

During the period of the campus standpipe, drinking water for the campus was supplied from a large well situated north of Hamlin Hall about where the cement grandstand stood on old Alumni Field and now covered by a roadway between Hamlin Hall and Dunn and Corbett Halls. This water was pumped by a windmill to a tank in the top of Fernald Hall, and when Lord Hall was built in 1904, a larger tank was located there.

TRUSTEE APPOINTMENTS

Three new appointments have been made to the Board of Trustees during the summer. S. Wilson Collins '19, Frank P. Preti '17, and John M. O'Connell, Jr. '18 are the new members appointed by Governor Hildreth.

Succeeding Frank W. Hussey '25, whose term expired, Mr. Collins was appointed to the Board in August. Active in Aroostook County business circles, he is president of the S. W. Collins Co. and the Aroostook Trust Co. In the September elections he was elected to the Maine Senate, having been a member of the Maine House of Representatives in the 92nd and 93rd Legislature.

Mr. Collins is now serving his second term on the Alumni Council and is a past president of the Northern Aroostook Alumni Association. Samuel W., Jr., the oldest of four sons, graduated in 1944, with Douglas and Donald members of the senior class, and David A. a freshman.

Frank P. Preti '17, '20L, Portland lawyer, succeeds Edward E. Chase '13 who

Frank P. Preti '17

resigned from the Board after almost twenty years, many of them as president.

Mr. Preti will be remembered by many alumni as a member of the championship cross-country teams of which he was captain in 1916. A director of the Maine General Hospital and the Jackson Memorial Laboratory in Bar Harbor, Mr. Preti is also a director of several Maine business firms.

Member of several bar associations, Mr. Preti also devotes much time to youth work. He is president of Portland Boys' Club, trustee of the Home for Boys and was for many years a director of the Portland Community Chest.

Mr. Preti has been an officer of the Cumberland County Alumni Association. His son, Robert, was a member of the class of 1945.

In September, John M. O'Connell '18 managing editor of the *Bangor Daily News*, was appointed to fill the vacancy caused by the resignation of Mrs. Cecil J. Siddall, Sanford, who resigned because of ill health.

Mr. O'Connell has long been identified with the newspaper business and has for many years been the managing editor of Maine's largest newspaper. During the war he was in the E.T.O. as correspondent for his paper, and his work there earned him official recognition from the War Department. Last January he was one of ninety U. S. newsmen to be awarded the Medal of Freedom "for exceptionally meritorious achievement." He had earlier received the European, African and Middle Eastern Campaign ribbons for "outstanding and conspicuous service with the armed forces under difficult and hazardous conditions."

Familiar Faces . . .

In these days of many changes on the campus, returning alumni find it gratifying to discover at least a few things that remain the same. The accompanying picture reveals the familiar face of Mrs. Florence Dinsmore, perhaps better known to older alumni as Miss Florence Johnson. For twenty-five years she has been a vital part of the life of the University. Her first five years of service were as secretary to the late Dean Leon S. Merrill in the College of Agriculture. It was in 1928 that she began her career as Secretary to the President, serving under Dr. Harold Boardman '95 as well as under Dr. Hauck; and it is in this capacity

that she has become known to so many. For twenty years, Mrs. Dinsmore has held the front line stand at the door of the President's office saying the "Yes, he's free," or the "No, I'm sorry, he's busy," which would tell you whether you could see "Prexy" at that time.

Those who do not have occasion to know Mrs. Dinsmore in the outer office of that inner sanctum, the President's office,* have come to know her as the hurrying lady with the cheery hello who is frequently met in the lower corridors of the Administration building as she goes about taking care of the many details of her office. The myriad of duties which befall her as secretary to the President take her here, there, and everywhere about the campus; and it is perhaps mostly on these tours that she has become a familiar face to the majority.

Although a native of Hampden, Mrs. Dinsmore lived for a good many years in Milford. At the moment she is happily engaged in the process of moving into one of the modern apartments in Dryden Terrace.

We salute Mrs. Dinsmore for her devotion and faithfulness to her job through so many years. The unstinting way in which she has carried out her duties has had untold effects on the growth and development of the University.

S. Wilson Collins '19

Faculty Changes

(Continued from Page 4)

Mechanical Engineering, B.S. degree from the Citadel, M.S. Harvard; has been a mechanical engineer for the Stone and Webster Corp. in Boston.

Francis J. Sullivan, assistant professor of Mechanical Engineering, a graduate of Harvard University, and holds an M.S. degree from Kansas State College; was instructor in Machine Design at Kansas State 1938-41; has had experience with industrial concerns, and with state and federal agencies; was an LST engineer officer during the war; recently served as a training officer for the Veterans' Administration.

The following have been appointed to instructorships in the various colleges at the Orono campus:

COLLEGE OF AGRICULTURE: Rodney H. Allan, U. of M., Agricultural Engineering; Gordon L. Chapman, B.S. Maine and M.S. U. of Vermont, Forestry; Frank H. Dalton, M.S. University of Massachusetts, Bacteriology; Esther Martin, M.Ed. Pennsylvania State College, Home Economics; Philip H. Plaisted, M.S. Maine, Botany; Gerald M. Ward, B.S. Maine and M.S. U. of Wisc., Animal Husbandry and assistant in Animal Husbandry in Agric. Exp. Station; Harold E. Young, B.S. Maine, M.F. and Ph.D. Duke University, Forestry.

COLLEGE OF ARTS AND SCIENCES: Frederick Amling, M.B.A. Miami University, Economics and Sociology; John W. Anderson, M.B.A. Indiana University, Business Administration; William Duncan, M.A. U. of Michigan, Speech; Elizabeth Evans, B.A. Maine, Business Administration; Frank H. McDonald, M.A. Haverford College, Economics; Eugene A. Mawhinney, B.S. in Ed., Maine, Economics; Henry A. Peck, M.A. Fletcher School of Law and Diplomacy, Economics; Paul Rogers, M.A. Boston University, Mathematics; Edward W. Smykay, B.S. Rutgers, Economics and Business Administration; Joanne Springer, M.A. Maine, Mathematics; Carroll F. Terrell, B.A. Bowdoin, English; Marion Webster, B.S. in Ed. Kansas State Teachers' College, Psychology; Lawrence A. Wing, B.S. Maine, Geology; Horace B. Reed, Jr., M.S. University of Tennessee, Zoology; Corinne Comstock Weston, B.A. Maine, History and Government.

COLLEGE OF TECHNOLOGY: Cedric R. Cushman, B.S. Maine, Chemical Engineering; Joseph O. Faneuf, B.S. Worcester Polytechnic Institute, Mechanical Engineering; Arnold E. Galef, B.S. Rensselaer Polytechnic Institute, Mechanical Engineering; William J. Georgitis, Bowdoin, Chemistry; Lynn B. H. Goodrich, B.S. Maine, Mechanical Engineering; John R. Lyman, B.S. Tufts, Mechanical Engineering; Samuel J.

Mayo, B.S. Lehigh, Electrical Engineering; Arthur S. Weaver, B.S. Tufts, Mechanical Engineering.

The following faculty members have received advancements in rank according to announcements from the Office of the President:

COLLEGE OF AGRICULTURE: Frank K. Beyer, from assistant to associate professor of Forestry; Wallace H. Elliott, from assistant professor of Agricultural Education to associate professor of Vocational and Agricultural Education; Cecil E. Howes, from instructor to assistant professor of Poultry Husbandry, and from assistant in Poultry Husbandry to associate Poultry Husbandman in the Agric. Exp. Station; Edmond LeBrun, from instructor to assistant professor of Economics and Farm Management; Katherine Miles, from associate to professor of Home Economics; Robert Olson, from instructor to assistant professor of Entomology; Winston E. Pullen, from instructor to assistant professor of Agricultural Economics and Farm Management; Aruthur G. Randall, from instructor to assistant professor of Forestry; Roland A. Struchtemeyer, from assistant to associate professor of Agronomy; Edward O. Merrill, from assistant in Chemistry to assistant chemist in the Agric. Exp. Station; J. Franklin to Animal Pathologist in the Agric. Exp. Station.

COLLEGE OF ARTS AND SCIENCES: Frances E. Arnold, from assistant to associate professor of Romance Languages; Marion S. Buzzell, from assistant to associate professor of Romance Languages; Charles B. Crofutt, from associate to professor of Physics; Hilda M. Fife, from instructor to assistant professor of English; Carl M. Flynn, from assistant to associate professor of Zoology; William H. Jeffrey, from instructor to assistant professor of History and Government; Marvin C. Meyer, from assistant to associate professor of Zoology; Wesley C. Panunzio, from instructor to assistant professor of Romance Languages; Donald L. Quinsey, from assistant to associate professor of Psychology; Theodore C. Weiler, from assistant to associate professor of Sociology.

DEPARTMENT OF PHYSICAL EDUCATION: Harold M. Woodbury, from instructor to assistant professor of Physical Education in the Men's Section.

COLLEGE OF TECHNOLOGY: William R. Harvey, from assistant to associate professor of Mechanical Engineering; Richard C. Hill, from assistant to associate professor of Mechanical Engineering; Wentworth H. Schofield, Jr., from instructor to assistant professor of Mechanical Engineering; Theron A. Sparrow, from associate to professor of Mechanical Engineering; Alpheus C. Lyon, Jr., from assistant to associate en-

Local Associations

ALUMNI MEETINGS

Maine Alumni Teachers—October 28, Portland High School Cafeteria, 6 p.m.
Merrymeeting Alumni Association—October 29, Brunswick Campus
Portland Alumni—October 29, Falmouth Hotel, Annual Football Smoker
Boston Alumnae—The third Tuesday of November, January, March, and May. YWCA, 140 Clarendon St.
The Maine Club of Lewiston—Monthly—Contact John L. McCobb, 15 Davis Ave., Auburn
Boston Alumni—Every Friday 12 noon, Thompson's Spa, 239 Washington St.
Portland Alumni—Every Monday noon—Graymore Hotel

Boston alumni held a meeting on the eve of the Northeastern game and elected the following officers: Omar K. Edes '16, president; Bentley S. Hutchins '25, 1st vice president; Duncan Cotting '38, 2nd vice president; L. T. Parkman '39, secretary and Warren H. Preble '21 treasurer. The Executive Committee is Maurice C. Bird '31, chairman; Carroll C. Swift '21; Albert Hutchinson '44; Alvin T. McNeilly '44 and Clarke Wertheim '44.

Lewis O. Barrows '16 introduced General Alumni Association President Hazen H. Ayer '24 and Coach George "Eck" Allen.

About thirty Providence alumni held a get-together on October 2. Francis Burger '42 arranged for the meeting. Plans were made for a large group to attend the Maine-Connecticut game at Storrs.

gineer in the Technology Experiment Station.

Promotions and appointments to the faculty of the Brunswick Campus have also been announced as follows:

Albert A. Barden has been advanced in rank from instructor to assistant professor of Zoology.

The following have been appointed to instructorships: Allen Neal, M.A., Harvard, History; Kenneth W. Davidson, B.S., Texas Technological College, Physics; Ernest L. Davis, Jr., B.S., Springfield College, Physical Education; Benjamin F. Graham, Jr., M.S., Maine, Botany; Emily Pendleton, M.A., Maine, English; Edward A. Race, M.Ed., Maine, Mathematics; Mario A. Tonon, B.S., Bowdoin, English; Norman K. Tronerud, A.B., Bowdoin, Spanish; Ruth White, M.A., Boston University, English.

Union Building Report

ON September 30, \$435,000 had been paid on pledges, totalling more than \$655,000, to the Union Building Fund. Such a large sum of money already on hand represents far more than just payments on pledges for it is indicative of the determination of alumni, faculty, students, and friends to give the University a memorial student centre.

With almost a half million dollars already in cash the success of the Union Building Campaign is no longer in doubt, although the goal will be reached only with the help of each and every Alumnus making a sacrificial pledge. Between now and June, that opportunity will be afforded to alumni.

A renewed and intensive reactivation of the Campaign was launched this month when William C. Darroch '39, associate director, started meetings that will be held between now and Thanksgiving with 15 area chairmen from Cleveland to the west coast and in the south west. Some of these areas have seen little activity to date in the Campaign and it is hoped that in the next few months several of these areas will reach their quotas.

Mark Pendleton '14, Sioux City, Iowa, has accepted chairmanship of Iowa, while Wellington Hews '06, Yakima, Washington, business man, is now chairman of the Northwest succeeding Dexter Avery '30, who has returned to Maine.

Both of these men have indicated a desire to bring their respective areas to the 100% mark. The loyal effort of the chairmen and workers in these and all areas with the generous cooperation of all alumni will make it possible to start construction at an early date.

In Maine, Thomas L. Barker '39, has assumed the direction of the Lincoln County campaign. Formerly Secretary and Treasurer of the National Farm Loan Association in Bangor he is now connected with the Federal Land Bank of Springfield. One of the more recent graduates in the area chairman's group, Mr. Barker well appreciates how much a Student Union will mean to the student body.

Day Memorial

Mrs. Ralph Day has given a fireplace in memory of her husband, Ralph R. Day '11, who died in November, 1947. This fine memorial will perpetuate the name of one of Maine's outstanding engineers. The Navy Department cited Mr. Day for his services as a consulting engineer in World War II. During the years 1922-25 he was in charge of important engineering projects at Pearl Harbor, a large part of which were destroyed on that fatal December 7.

At the time of his death Mr. Day had

been associated for many years with Sanders and Porter, Engineers and Constructors of New York City. It was for this firm that he had directed important engineering projects in Canada, Hawaii, Central America, Haiti, Brazil, and in this country.

While Mr. Day had little opportunity to take an active part in alumni affairs because his business kept him abroad much of the time he had always been an interested and devoted alumnus. He was special gifts chairman of greater New York for the Union Building Fund. His quiet, tactful leadership resulted in a constructive and efficient piece of work for the Union Building. It is fitting that the Memorial Union which he did so much to make possible will contain a memorial to him.

Plans Studied

Several meetings of the Building Requirements committee, of which George D. Bearce '11 is chairman, have been held during the summer. In one instance the Directors of the Brown University and Bowdoin Student Unions conferred with the committee in studying the plans as now drawn to perfect the building's facilities. Every attempt possible is being made to utilize all space to the greatest advantage and to eliminate any services not required.

As soon as the alumni-faculty-student committee have completed their discussion of the arrangement of the facilities required, working drawings will be made by the architects in anticipation of the start of construction.

One of the most frequent questions heard on campus is "when is the Union going to be started?" The student body already has subscribed the generous amount of \$150,000.

The answer to these questions, of course, is vague. The answer rests with those alumni who have not yet contributed and with those whose subscriptions did not fully represent their part in this fine Memorial Union.

Mission To Poland

(Continued from Page 9)

In parts of the country less damaged by the war, the farmers were better off, but in Poland as a whole, the farmers lost two-thirds of their cattle and more than half of their horses as a result of the war. This crippling blow to the agriculture of Poland has greatly reduced the supply of milk for the children and draft power for farm work. A major consequence is the resulting lack of stable manure, formerly the major source of fertility elements returned to the sandy soils of Poland.

War damage affecting Polish research institutions and colleges went deeper than the mere destruction of books, apparatus, and buildings. Many scientists and teachers were shot by the enemy or were killed in concentration camps or died in various prisons. Some were sent into other countries for forced labor and have not yet returned. Many who survived these horrors are broken in health and unable to work effectively.

Because college teaching was stopped for several years during the war, there is now a severe scarcity of younger instructors and research men to fill the places of those who died and of those who must soon retire.

As in the United States, young Polish men and women are anxious to resume their academic training and the increased numbers of students greatly tax the reduced facilities of the institutions. At the six-hundred-year-old University of Krakow, enrollment in the College of Agriculture is now 2,196 compared to 512 before the war.

Much of the small supply of apparatus now available at the Polish research institutions and college laboratories is merely that saved in various ingenious ways from being looted by the invaders in wartime. At one chemical laboratory we visited, we were told how the Germans, during the occupation, once crated up all the apparatus and had the Poles deliver it to the railroad station for shipment to Germany. During the night, all the boxes were opened, the apparatus was removed, and scrap iron was put in its place. The next morning the shipment went off on schedule, and so there is now at least one laboratory in Poland where scientists have the use of their prewar equipment. Most of the others were not so fortunate. At another institution we were shown one set of chemical balances which had to be shared by 500 students.

We were convinced that food production in Poland could be increased as much as 50 per cent above prewar in a few years if the farmers were encouraged and assisted to adopt new and better methods. We believe that this improvement of agriculture in Poland will be possible only through greatly improved use of science and modern technology in all phases of production and distribution, as the Mission report states. This would require better general elementary education of the people, more adequate support for research, and the strengthening and expanding of the agricultural, forestry, and home economics extension services on the farms and in the homes. To facilitate progress the Mission recommended that Polish scientists re-establish and maintain contact with scientific workers in other countries so as to become better informed of recent and current scientific developments and new practices.

NECROLOGY

1881

ARCHIE STUART GEE. The death of Archie Stuart Gee has been made known to the Alumni Office. The actual date of decease is not known. He was owner of the Seattle Marmalade Company, and made his home in Seattle, Wash.

1897

TYLER HANSON BIRD. The death of Tyler Hanson Bird occurred May 19, 1947, in Melrose, Mass., where he made his home. He had retired from active work in recent years after working for the New England Telephone and Telegraph Company for some time. He was a member of Alpha Tau Omega fraternity.

1900

ELMER JOHN NOYES. On July 18, 1948, Elmer John Noyes passed away while a patient at the Bay Pines Hospital for veterans in St. Petersburg, Florida. He had served in the Spanish American War and was buried with military service at Bay Pines cemetery. He was a member of Kappa Sigma fraternity.

JAMES ARTHUR HAYES, an outstanding alumnus, died at his summer home in Boothbay Harbor on October 1. Mr. Hayes, a native of Gardiner, was largely responsible for the development of the rayon industry in the United States. He had been plant manager of the American Viscose Company at Marcus Hook, Pa., until his retirement a few years ago.

Long identified with alumni activities, Mr. Hayes had, just a few days before his death, been working on the Union Building Fund campaign. He was instrumental in the organization of the Philadelphia Alumni Association when living in New York, and after moving to Philadelphia had taken an active part in that organization.

Mr. Hayes had long been interested in the reestablishment of the Maine Law School. He was closely identified with the recent move in the Maine Legislature to have the Law School revived. A frequent visitor to the campus, he had an almost unbroken attendance record at alumni reunions and enjoyed a host of friends in the alumni body.

He is survived by his widow, a son, Dr. Merrill Hayes of Chester, Pa., and a daughter, Mrs. William Mays of Philadelphia.

1901

HERBERT LUTHER ADAMS. Word of the death of Herbert Luther Adams has been received in the Alumni Office. His death occurred on July 30, 1948, at his home in Bethesda, Maryland. From 1928 to 1935 he was under contract to a Buffalo, N. Y., aviation firm doing inventive work in that field. In recent years he has been a civilian inspector for the Navy department. He was a member of the Sons of the American Revolution, the Society of the War of 1812, the Harvard Club of Washington, and the Washingtonians, a civic organization. He attended the University of Maine in 1897-1898 with the class of 1901 and was a member of Phi Kappa Sigma fraternity.

1904

OWEN LOVEJOY FLYE. From Brooklin, Maine, comes word of the death of Owen Lovejoy Flye, one time school teacher, superintendent of Brooklin schools, and principal of Sedgwick High School. He retired from active teaching in 1930. Faced with blindness in late years, he has been, nevertheless, an active and inspirational member of so-

Personals from the CLASSES

ciety. He was a direct descendant of James Flye who settled Flye's Point in Brooklin in 1768. He attended the University of Maine for one year with the class of 1904.

1907

ROBERT EDMUND CLAYTON. Death came suddenly to Robert Edmund Clayton of Rock Island, Ill., formerly of Bangor, on August 23, 1948. Graduated from the University of Maine with an M.S. in Chemistry, he taught there for two years following his graduation. After that time all his connections were with the rubber industry, as chemist with the E. H. Clapp Rubber Company until 1917, chemist with the Apsley Rubber Company until 1925, Assistant Superintendent of the sole and heel plant of International Shoe Company until 1927, and chief chemist and Superintendent of the Servus Rubber Company until his death. He was a member of Kappa Sigma fraternity.

1909

JAMES DONALD CLEMENT. M.D. Dr. James Donald Clement died suddenly on July 27, 1948, in a Bar Harbor hospital. He was a member of the class of 1909 at the University of Maine and was graduated from the Maine Medical Schools in 1911. He specialized in the study of eye, ear, nose, and throat at the Manhattan Eye and Ear Infirmary in New York City. For 30 years he practised medicine in Bangor and Seal Harbor. He was a member of the Penobscot County Medical Association, and of Mechanics Lodge, AF and AM, Orono. While at the University of Maine he became a member of Phi Eta Kappa fraternity.

ALLEN EDRICK ELLIOTT. Word has been received of the death of Allen Edrick Elliott in Cleveland, Ohio, on May 24, 1948. He attended the University of Maine for two years with the class of 1909 and was a member of Kappa Sigma fraternity. He was in the real estate business in Cleveland.

MERLE ELI MERRIMAN. The death of Merle Eli Merriman occurred at the Augustana Hospital in Chicago on July 6, 1948. Receiving a degree in Mechanical Engineering from the University of Maine in 1909, he has spent much of his life doing work in connection with the automobile industry. In late years he has been a consulting management engineer. He was a member of Phi Kappa Sigma fraternity.

PERCY PATRICK MOONEY. Death came to Percy Patrick Mooney on August 17, 1948, after five years of illness. A native of Bangor, he had made his home in Jackson, Michigan, for some time where he was connected with the Consumers Power Co. Graduating from the University of Maine in 1909 with a degree in Electrical Engineering, he joined the Consumers Power Co. in 1910 serving successively as chief of the statistical department, assistant division superintendent at the Grand Rapids branch, chief load dispatcher, and finally electrical supervisor.

1910

ISAAC MAXWELL STOVER. Word has been received of the death of Isaac Maxwell Stover on February 7, 1948. He graduated from the University of

Maine in 1910 with a degree in Electrical Engineering. In recent years he has been living in Rutherford, N. J., and has been connected with the Stone and Webster Co. in the New York offices in charge of Statistics and Real Estate Records.

1911

MONROE AMES. Word has been received of the death of Dr. Monroe Ames who attended the University of Maine for one year with the class of 1911. The exact date of his passing is not known. He was an Osteopathic Physician and Surgeon in Los Angeles preceding his death.

JOHN OLIVER CARR. John Oliver Carr of Park Ridge, Ill., vice president of the Teletype Corporation of Chicago, a subsidiary of the American Telephone and Telegraph Company, died on August 24, 1948, in St. Francis Hospital in Evanston, Ill. He was recovering from a leg fracture, sustained in an accident on his farm in Aurora, Ill., where he was stricken with pneumonia. Born in Bangor, he had been with the Teletype Corp. for 35 years. He was also a director of the Park Ridge Federal Savings and Loan Association, vice president of the Red Polled Cattle Association, and active in the Knights of Columbus and in Boy Scout work.

1912

FRED COOK JOHNSON. A belated report of the death of Fred Cook Johnson has just reached the Alumni Office. He died on August 26, 1941. He was a graduate of the University of Maine in the class of 1912 with a Ph.C. degree in Pharmacy. We regret that there are no further details regarding his death.

RALPH BENJAMIN POND. The death of Ralph Benjamin Pond occurred on September 8, 1947, in Cleveland, Ohio. A graduate of the University of Maine in 1912, he was a member of Phi Gamma Delta fraternity. He was president of the firm Pond and Calvin, Inc., in Cleveland at the time of his death. The cause of death was coronary thrombosis.

1914

CHARLES WILLARD FENDERSON. Charles Willard Fenderson died very suddenly at his home in Calais on August 8, 1948, at the age of 57. He attended the University of Maine for two years with the class of 1914, then went on to the Massachusetts School of Pharmacy from which he was graduated. He served in the First World War in the Medical Corps. On his return from service in 1922, he bought out the Joseph Lee Insurance Agency in Calais renaming it the Fenderson Agency and expanded to deal in real estate and investments. He was an ardent worker among University of Maine Alumni. He was a member of Delta Tau Delta fraternity.

JOHN TIMOTHY FERRY. On February 9, 1948, John Timothy Ferry died at his home in Bangor. He attended the University of Maine with the Class of 1914. He has been a lawyer in Bangor for some years.

1915

DAVID SETH BAKER. David Seth Baker passed away at the veterans' hospital at Togus in October of 1947. A civil

engineering major at the University, he was very active as an undergraduate. He was one of two men at that time who had won varsity letters in two major sports, football and baseball. He was a member of Alpha Tau Omega fraternity. He served in World War I with the rank of 2nd Lieutenant. After his discharge he joined the firm of Lewis Shank and Pegwood Company of Ship Harbor, Nova Scotia, for which firm he traveled extensively in Europe. After the death of his wife in 1930 he returned to the United States and was subsequently employed as a supervisor of a CCC camp and later as a supervisor of labor in Princeton in the German Prisoner of War camp. It was there that he was stricken with a heart ailment which was the cause of his passing.

1919

HESTER MILES ROSE. Hester Miles Rose died at her home in Brooks on July 12, 1948. She was for some years a teacher of history at Morse High School in Bath.

1927

ROBERT DUNBAR EASTMAN. Word has been received of the death of Robert Dunbar Eastman in June of this year in Fryeburg. A native of Fryeburg, he has spent all his life there. Ever since his graduation from the University of Maine in 1927, he has been in the hardware business. He was an active member of his community being a member of the Congregational Church, a past president of the Fryeburg-Lovell Kiwanis Club; past master of Pythagorean Lodge No. 11, AF and AM; a member of the Oriental Royal Arch Chapter of Bridgton; Pythagorean Chapter, No. 169, OES; the Portland Consistory; and the Frank W. Shaw Post, American Legion. During World War II he served for two years with a U.S. Naval Construction Battalion spending more than a year in the Aleutians. He was a member of Phi Kappa Sigma fraternity.

1935

MARCUS GEORGE HALLENBECK. Word has been received of the death of Marcus George Hallenbeck at his home in Highland Park, N. J., at the age of 35. A heart attack was the cause of his death. He was employed as a chemist at the J. T. Baker Chemical Co. in Phillipsburg, N. J. He was a member of Kappa Sigma fraternity.

BY CLASSES

1873 Maine's oldest alumnus, Dr. George H. Hamlin—he'll be 98 in November—was at the polls on September 13 in Orono to cast his ballot. As well as being Maine's oldest living graduate, Dr. Hamlin is Orono's Senior citizen.

1890 George P. Gould, Clerk of Courts for Penobscot, was named to the Executive Committee of the Association of Clerks of Courts at the July meeting of that association.

1891 Charles E. Cobb, a former Superintendent of Schools, is retired and living in Oakfield, Maine.

1897 Arthur J. Dalot is living at 1191 Boylston St., Boston. He is employed by the Revere Sugar Refinery at Charlestown, Mass.

1899 Frank L. Batchelder is now retired and living at 108 W. Houghton Ave., Houghton, Mich.

Walter J. Morrill represented the University of Maine at the inauguration of

William R. Ross as President of the Colorado State College of Education.

1901 George H. Davis is an electrical engineer in the U. S. Civil Service employed by the Federal Power Commission in the Division of Electric Rates, from which position he is scheduled to retire July 31, 1949. His home address is 800 N. Wayne St., Arlington, Va.

1902 Ralph E. Clark is a retired druggist. His home address is 11 Lutts Ave., Kittery.

1903 Rodney C. Davis is a bridge designer employed in the Bridge Department of the Chicago and Northwestern Railroad. His home address is 2646 Burr Oak Ave., Blue Island, Ill.

1904 Frank A. Derby is a retired drug clerk. His home address is 42 Knapp St., Livermore Falls, Maine.

1905 Harry G. Blaisdell is retired from business life and is living in Bangor at 277 Forest Ave. He formerly lived in Kenduskeag.

Irving W. Chaney is the owner of a retail drug store in Manchester, Mass., his former home. At present his home address is 3 Goodell St., Salem, Mass.

1906 Albert J. Butterworth is retired from active business. His home address is 905 S. Main St., Mansfield, Mass.

Dana L. Clark is a poultry farmer and Maintenance Superintendent for a transportation company in Nashua, N. H., where his home address is R.F.D. #2.

1907 Arnold W. Totman entertained Coach Chester Jenkins and George Marsanskis '48 while they were in Chicago for the Olympic tryouts. A hurried call from the Alumni Office to Mr. Totman to secure hotel reservations resulted in his opening his home to the men from Maine. Such hospitality is greatly appreciated by the University.

Charles E. Davis is a Designing Engineer employed by the Metropolitan Transit Authority in Boston. His home address is 181 Waverly St., Arlington, Mass.

Jerome B. Clark has recently resigned from the post of County Attorney of Piscataquis County, a position which he filled ably for 16 years. Governor Hildreth accepted the resignation "with reluctance for you have served your county with distinction." Mr. Clark has made his home in Milo in recent years, but has moved to California where he lives at 1400 Woods Place, Los Angeles 22.

William B. Alexander has changed his address from 132 West Wyoming Ave., Melrose, Mass., to 51 Lovell Rd., Melrose 76, Mass.

1908 Elon L. Brown is employed by the L. M. Longley & Son Hardware store in Norway, Maine. His home address is 10 Crescent St.

Alfred S. Cook is in charge of Sales and Advertising, as well as a Director, of the Walker-Gordon Lab Co. of Plainsboro, N. J. His home address is 1341 Princeton Ave., Princeton, N. J.

The Newport News Shipbuilding and Dry Dock Co. has recently employed Leon S. Dixon to enhance its output of pulp and paper mill equipment. This appointment came for Dixon because of outstanding work which he has done over a period of years as an engineer for the Stone and Webster Engineering Corp.

1909 Dr. Mary Ellen Chase was guest speaker May 26 at the annual dinner of the Massachusetts Medical Society at the Hotel Statler in Bos-

ton. Her subject was "The Country Doctor on the Maine Coast."

1910 Frank L. Bass is an attorney-at-law. His home address is 82 Third St., Bangor.

William E. Congdon is Superintendent of the Underground Dept. of the Central Maine Power Co. with headquarters in Portland. His home address is 62 Jackson St., Portland.

1911 Eben R. Barton is living at 62 Pleasant St., Palmer, Mass. He is employed as a manufacturing clerk for the Colorado Fuel and Iron Corp., Wickwire Spencer Steel Division in that town.

Olaf W. Dwinall is in the Real Estate and Insurance business as well as being a Construction Engineer for Saco-Lowell Shoes in Biddeford. His home address is Kennebunkport.

Ernest T. Walker, President of Walker-Turner Co., Inc., of Plainfield, N. J., has recently sold his business to the Kearny & Trecker Corp. of Milwaukee. The company's name has been changed to the Walker-Turner Division of the Kearny & Trecker Corp. All facilities will remain in Plainfield and the present Management will continue in charge of operations.

Major William S. Gould, Jr., is stationed in Japan. His address is 1st Ord. Bn., A.P.O. 503, c/o Postmaster, San Francisco, Calif.

1912 Elmore Ayer is engaged in the manufacture of Fibre Fabrication in Clyde, N. Y. He also farms and raises thoroughbred Hereford cattle on his farm at R.F.D. #1, Savannah, N. Y.

William R. Ballou is a member of the firm of the Morse Co. in Bangor. His home address is 52 Montgomery St., Bangor.

John Ash has been named chairman of the new Hotel Executive Committee in Bar Harbor. This committee has been formed to organize a corporation for the purpose of building a new hotel. The need for such a building is great since all the large hotels were burned in the forest fires of '47. Mr. Ash will serve as the initial president of the new corporation.

1913 Henry L. Brown is a druggist in Ayer, Mass. His home address is 34 E. Main St., Ayer.

Guy V. Dyer is Assistant Secretary of the Fidelity and Surety Department of the Aetna Casualty and Surety Co. of Hartford. His residence address is 1616 Boulevard, West Hartford 7, Conn.

Frederick M. Dodd is President of the newly formed corporation, Brewer Associates, Inc., the purpose of which is buying and selling of real estate, manufacturing, and other enterprises in the Bangor area.

1914 Charles R. Atwood is Superintendent of the Wood Dept. of the Oxford Paper Co. in Rumford. His home address is 44 Erchles St., Rumford.

Woodbury G. Barrett is Purchasing Agent for the George C. Frye Co. in Portland, Maine. Mail reaches him at P.O. Box 1465, Portland 2. He resides in Cumberland Foreside.

Wilson Morse was elected president of the New York-New England Apple Institute at the annual meeting held in Concord, N. H., this summer. Mr. Morse lives in Waterford, Maine, where he owns and operates a large orchard. He recently completed a four-year term on the Maine Agricultural Advisory Council.

1915 Ivan W. Arno is Postmaster in Errol, N. H.

Winthrop B. Brown is Secretary and Director of the following companies:

Pittsburgh Steel and Foundry Corp., Pittsburgh Spring and Steel Co., Pittsburgh Engineering and Steel Co., 535 Fifth Ave. Corp. (Director only), and the Thompson & Taylor Co. His residence address is 800 8th St., Irwin, Pa.

1916 Robert W. Bartlett is an Analytical and Consulting Chemist and Engineer for the Barrow-Agee Laboratories, Inc., Memphis, Tenn. His home address is 347 Patterson, Memphis (11).

Robert G. Blanchard is a Topographic Engineer for the New Jersey Dept. of Conservation. His residence address is 82 Hillcrest Ave., Trenton 8, N. J.

George S. Doore is a Plant Pathological Inspector in Massachusetts. His home address is 16 Dickinson St., Greenfield, Mass. He formerly lived in Shelburne Falls, Mass.

Albert W. Emmons of Kennebunk, clerk of York County's Courts, was elected President of the Maine Association of Clerks of Courts at a meeting of that association in July.

1917 Charles W. Bayley is High School Principal in Whitman, Mass. His home address is 251 Main St., Hanson, Mass.

Frank E. Berridge is a pharmacist in Lynn, Mass., where his home address is 50 Great Woods Rd.

Frank O. Stephens of Auburn, Chairman of the Maine Division of the New England Council, visited Premier MacDonald of Canada in Nova Scotia in June along with several other New England business leaders.

1918 Raymon N. Atherton has resigned from the Maine Extension Service, which he has served for nearly 20 years as a marketing specialist. Mr. Atherton is to be General Manager of Maine Blueberry Growers, Inc., which was recently organized as a merger of four grower-owned cooperatives that market blueberries and other products for their members. They are the Chandler River Blueberry Cooperative, Jonesboro; Hancock County Canning Co., South Penobscot; Riverside Canning Co., Harrington; and the State of Maine Blueberry Growers, West Rockport.

Abraham D. G. Cohn is an attorney-at-law and has been Grand Chancellor of Nu Beta Epsilon National Law Fraternity. He resides in Atlanta, Ga., at 873 Parkway Dr., N. E.

C. Byron Crosby is Division Plant Personnel Supervisor of Department of Buildings and Supplies and of Motor Vehicles for the Pacific Tel. and Tel. Co. His residence address is 842 No. Alexandria Ave., Hollywood 27, Calif.

Adjutant General George M. Carter has been nominated by Governor Hildreth as Maine Director of Selective Service in accordance with President Truman's proclamation regarding draft registration.

1919 Stanwood L. Bailey has been named as Executive Secretary of the Maine Merchants' Association, Inc. Mr. Bailey has been active for 22 years with the James Bailey Co. in Portland, sporting goods dealers. He will continue to be in Portland.

George H. Avery is a salesman for the Pine State Tobacco Co. with offices in Augusta. His home address is 20 Gurdy St., Rockland.

Earl A. Bradley is employed by Bird & Son, Inc., Walpole, Mass. His home address is 119 Union St., East Walpole, Mass.

Laurence A. Cooper is owner of the J. B. Pulsifer Co. of Auburn, dealing in coal, coke, wood, and fuel oils. His home address is 219 Winter St., Auburn.

1920 Gilbert H. Atwood is Chief Engineer of the Crane and Bridge Dept. of the Dravo Corporation of Pittsburgh. His residence address is R.D. #2, Maple St. Ext., Coraopolis, Pa.

Leroy N. McKenney is an educator and hospital administrator. He resides in Duxbury, Mass., on Sunset Rd.

Alonzo B. Tuck was recently elected governor of District 41B, Lions Clubs, at a convention held in Kennebunkport. Districts 41A and 41B comprise the State of Maine.

Dr. Flavia L. Richardson is now associated with the Jackson Memorial Laboratory in Bar Harbor.

1921 Mrs. Emilie K. Josselyn 15 Caryl Ave., Yonkers 5, N. Y.

Philip R. Bailey is manager of Order Service for the Sturtevant Division of the Westinghouse Electric Corp. of Boston. His residence address is 213 Dedham Ave., Needham, Mass.

C. Hall Baker is a realtor and builder. His residence is Lawson Rd., Cape Elizabeth, Maine.

Temple A. Bradley is Treasurer of the Cape Ann Savings Bank in Gloucester, Mass. Mail reaches him at 6 Beauport Ave., Gloucester.

1923 Mrs. Norman E. Torrey 9 Poplar St., Bangor

Olin M. Berry, 116 S. Main St., Presque Isle, is President and General Manager of the Ford Agency in Presque Isle.

Richard D. Cushman, 115 Codman St., Portland, is President and Manager of the Sebasco Lodge and Cottages, Sebasco Estates, Maine; Treasurer of Cushman Baking Co. of Portland and Lynn, Mass., and of Oakhurst Dairy, Portland.

Percy W. Dow, 274 Page St., Avon, Mass., is the owner of Lone Pine Poultry Ranch wholesaling and retailing eggs.

Howard S. Emery, 20 Somerset St., Bangor, is a teacher of history at Garland Street Junior High School in Bangor.

Mr. and Mrs. H. Stewart Frost (Marjorie Willey) and daughter Donna Rae of Glendale, Calif., have been visiting Mrs. J. H. Huddleston of Orono. Stewart is employed by the Pacific Tel. and Tel. Co.

Mr. and Mrs. Fred W. Wren, Halifax, Nova Scotia, made a short visit in Orono recently. Mr. Wren is the U. S. Consul at Halifax.

Elizabeth Ring, 191 Clark St., Portland, has been elected President of the New England Historical Society.

1924 Mrs. C. C. Little Box 558, Bar Harbor

As usual the summer seems to have gone like a whirlwind here with the confusion of rebuilding the laboratory and the myriads of visitors to be entertained.

Please write me telling of your activities and changes. Let's have an interesting column in every *Alumnus* this coming season.

Here are some items from the Alumni Office:

"Ollie" Berg is retiring from basketball coaching at South Portland High School after eighteen years of coaching activity. He will continue teaching in the same place. Best wishes for your continued success in the academic world, Ollie.

James Nichols, Jr., taught Bible this summer at the Advent Christian Church Camp at Messalonskee Lake.

George K. Cobb has a new post as principal of Potter Academy at Sebago Lake. George has held positions as teacher-coach at Brewer High and Schenck High in Millinocket. He was a three sports player at the U. of M.

Ray C. Ames, who formerly lived in Abbott Village, now is living in Guilford

where he is employed by the Guilford Woolen Mills Co.

James G. Annett is Head of the Science Department at the Hackensack High School in New Jersey as well as being Principal of the Hackensack Summer School. His home address is 160 Pine St., Hackensack.

Frank C. Bannister is Traffic Superintendent of the New York Tel. Co. His home address is 85 Capitolian Blvd., Rockville Centre, N. Y. His daughter, Janet, is a member of the Sophomore class.

Edith L. Beckett divides her time between being a clerk in a law office and being Assistant Librarian of the Calais Free Library. Her address is 109 Union St., Calais.

Dr. Norman K. Blanchard received his D.D.S. from Maryland Dental some years ago and is practicing dentistry in Portland. His home address is 3 Rocky Knoll Rd., Cape Elizabeth.

Herbert S. Brasseur is Power Engineer for the Haverhill Electric Co. and the Amesbury Electric Co. in Massachusetts. His home address is 42 Groveland St., Haverhill.

Charles B. Donovan is employed by the Ayer Mill in Lawrence, Mass. His home address is 5 Shawsheen Rd., Lawrence.

John M. F. Donovan, Jr., is special attorney for the Chief Counsel's Office, Bureau of Internal Revenue in Washing-

ton. His home address is 3151 Upland Terrace, N. W., Barnaby Woods, Washington 15, D. C.

John Conti's telephone staff received a national award recently for the fine work he and they did during the Bar Harbor fire last fall. Congratulations, John!

Please, everybody write!

1925 Mrs. George Lord
38 Forest Ave., Orono

Back again. Another year. The summer passed so quickly. The Alumni Office has sent along some personals, and I have gathered a few.

Stanley P. Allen is an Inspector of Customs at Calais. His home address is 253 Main St., Calais.

Frederic J. Bouchard has moved from Parlin, N. J., to 1723 Brandon Ave., Petersburg, Va. He is employed by Hercules Power Co. in Hopewell, Va., as Assistant Manager.

Ralph L. Brown is Vice President and Treasurer of Savage Lumber Co. in Bangor. His home address is 62 Fifth St., Bangor.

Aura E. Coburn is Secretary and Treasurer of Heating Publishers, Inc., editors of *Fueloil and Heat* (a business magazine), as well as being a director of the Oil Heat Institute of America. He is living at 51 Suffolk Lane, Yonkers, N. Y.

Richard Dawson is President and Treasurer of the Wm. Miller Son & Co., makers of calendars and jobbers of advertising specialties. His business is in Charlestown, N. H., but he lives in Claremont, N. H.

Norris Clement had charge of guest arrangements for Maine's first Broiler Day chicken barbecue held during the summer at Belfast. Norris is one of the largest poultry men in the state.

Raymond S. Finley of Skowhegan, retired superintendent of Skowhegan and Madison schools, was elected County Treasurer of Somerset County in September. He has a son in the junior class.

Robert N. Haskell was reelected a State Senator in the recent state election. He has also been elected to the American Red Cross Board of Governors. Robert is President and General Manager of the Bangor Hydro-Electric Co. in Bangor.

Harry J. Frazier has assumed his new duties as manager and treasurer of the Earlehampton Finance Company.

Arline Besse (Mrs. Hilton Buley) is moving to Concord, N. H., in October. Her husband has been appointed Commissioner of Education of New Hampshire.

Lindsay Chalmers is manager of his own restaurant the "Nine W Diner" at Catskill, N. Y. It is on the main highway between New York City and Albany.

1926 Mrs. Albert D. Nutting
9 College Hgts., Orono

Kenneth W. Barker is living in North Whitefield, Maine, where he is Superintendent of Mains's unique Jefferson Camp—a home for homeless men. The April 26, 1946 *Saturday Evening Post* and the August or September issue of *Readers Digest* carry stories on this work.

Edgar D. Coffin is Chief of Police in Verona, N. J. His home address is 75 Cumberland Ave., Verona.

Gerald F. Baker is Manager of the South Florida Wildlife Refuges for the U. S. Fish and Wildlife Service. His address is Box 38, Dania, Fla.

Jasper S. Brown is a chemist for the Development Lab. of the Fisher Scientific Co. of Pittsburgh. His home address is Box 201 Rochester Rd., R.F.D. #3, Pittsburgh 2, Pa.

From The Plymouth, N. H., Union comes the following:

"History has a way of repeating itself, Myles Standish came to Plymouth this week end.

"Yes, sir, it was Myles Standish ('26)—a direct descendant of the first Myles Standish who came to Plymouth, Mass., in 1620. Like the first Myles Standish, who built his new home in the forests of New England, the present-day Myles Standish has an interest in woodlands, but with a modern slant. He is head of the woods department for the Brown Company in Berlin, and he attended the week end N. H. forestry conference held here. Some years ago he served as ranger for the Plymouth district, White Mountain National Forest."

William B. Getchell, Jr. is Executive Director of the Maine Turnpike Authority.

Marion Eaton of Ridgewood, N. J., has been at Northport during the summer season where she has been Commodore of the Northport Yacht Club at Bayside.

John Marshall is a Lt. Colonel of the First Service Command, Boston, Mass. He was a member of the military inspection party at the University last spring.

E. Leith "Zeke" Chase responded to a personals plea with the very brief: District Construction Supt., Pacific Tel. and Tel. Co. with offices at 1932 Grand Ave., Los Angeles, Calif.

1927 Mrs. Edith O. Thaxter
106 Fountain St., Bangor

Another fall has rolled around again and let's try to keep the news items coming in each month. The Alumni office has given me quite a few and I've located several more.

First—a wedding in our class—the marriage of Mrs. Herbert Lynn Halbert and Cyril Gray Cogswell on August ninth at Grymes Hill, Staten Island, New York has been announced.

Met one of our classmates this summer who I have not seen for twenty years (does that make me feel old!). Lewis ("Jack") Carpenter and wife were shopping in Bangor's new W. T. Grant Store when I spied them. He has been in Diablo Heights, Canal Zone, Panama, for the past eight years but was in Maine for a long vacation. He and his wife and four children, Carol, Jacqueline, Lewis, and Paul, were spending the summer at Shin Pond, Patten.

And just a couple of weeks ago I met Summer Fifield which surprised me as I thought he was in Korea. He said he had come home for a vacation and to take his family with him when he went to Tangiers, North Africa, his next place for R.C.A.

Charles Evans of Washington, D. C., former director of Information for the U. S. Dept. of Labor, spoke at meetings of the Rotary Club Community Center Forum in Bangor Labor Day week-end. His subject being "Labor Management Relations in Maine." He has been on the staff of the *Portland Evening Express* and was manager of Radio Station WFEA in Manchester, N. H., before going to Washington, D. C.

As has been previously mentioned Paul

Lamoreau has returned to Presque Isle where he is with the Maine Farm Supply Company.

John Snell, who has been supervisor of Institutional On-the-Job Training in Maine, has been appointed State Director of Agricultural Education, succeeding Herbert S. Hill who has retired.

Ada Peters (Mrs. Jerome Peters) of Tuskegee, Alabama, was in Bangor this summer, but did not see her.

James W. Chapman is manager of the Personal Finance Company in Newburyport, Mass. His home address is 2 Tenney's Court, Newburyport, Mass.

John R. Durrell is Resident Manager and Ass't Treasurer of Hoosac Valley Lime Company, Inc., as well as Vice-President of Allied Minerals, Inc. He lives at 21 "B" St., Adams, Mass.

Earle T. Blodgett works in the Soil Conservation Service with offices at 834 Main St., Westbrook. His home is R.F.D. #1, Alfred.

Joseph H. Burns (Joseph Bernstein) is president of the Collegiate Pennant Co. Inc., New York City. His home address is 222-07—141st St., Laurelton 13, N. Y.

Mrs. Gifford Davis (Helen Peabody) lives at 2248 Cranford Rd., Durham, N. C. Dr. Davis is a professor of Romance Languages at Duke University. They have two daughters aged 11 and 14.

1929 Miss Barbara Johnson
32 Orland St., Portland

Percy P. Archibald has moved from Portland to 432 Central Ave., Orange, N. J. He is employed by Waitt & Bond, Inc., in Newark.

Harold E. Bessey is with the Engineering Department of the State Highway Commission. His home address is Oakland, Maine.

Theodore J. Blaisdell is a teacher of Agriculture for Institutional On-Farm Training of Veterans. His address is York Village, Maine.

Paul S. Bunker is a Project Engineer for the State Road Department of Florida. His address is State Road Dept., Lake City, Florida.

Kenneth W. Downing of 96 Otis St., Bangor, is Heating Engineer for the Maine Heating and Plumbing Co. in Bangor.

Loranus P. Hatch, formerly Assistant Director at the Army Industrial Hygiene Laboratory, Edgewood Arsenal, Md., is a Research Engineer at the Brookhaven National Laboratory, Upton, Long Island, N. Y.

Mr. and Mrs. Worth Noyes (Sarah Stinchfield) of Long Beach, Calif., are receiving congratulations on the birth of a daughter, Jane, in July.

This is the first item that I have had about a child of a 29'er. Roger Welch, son of Mr. and Mrs. Andrew Welch of Wilton, won the State of Maine Scholarship for the Northern District at Bowdoin College last spring. He was a four year honor student at Wilton Academy, played in the band and orchestra and was a letter-man.

Mr. and Mrs. George Coltart of Milwaukee, Wis., spent their vacation this summer at Northfield.

Rudolph F. Lewsen is vice-president and buyer of the Kendall and Whitney Co. in Portland. He is associated with his father, Rudolph M. Lewsen, and his brother, Jerome.

Capt. Virgil M. Lancaster of Pittsfield, Executive Officer of the 67th Survey Battalion, served as liaison officer for the army working closely with the National Geographic Society researchers Eclipse Expedition which studied the eclipse of the sun last May in Korea.

1930 Mrs. Pauline H. Leech
Homer Folks Hospital,
Oneonta, N. Y.

Mrs. Louise Bates Ames received her Ph.D. from Yale in 1936. She is at present Curator Yale Films Child Development, and Assistant Professor Clinic Child Development at Yale University. Her home address is 255 Whitney Ave., New Haven, Conn., while her mailing address is 14 Davenport Ave., New Haven.

Jennie Waterman Amidon (Mrs. Rod-eric E.) is a homemaker living in Peters-ham, Mass., and is the mother of three children.

George H. Barnes is employed by the Eastern States Farmers Exchange—Seed Potato Production, and does some farm-ing on the side. He lives at 6 Barton St., Presque Isle.

Dr. William A. Cassidy is manager of the VA Hospital in Livermore, Calif. He has been with the Veteran's Administra-tion since 1938. He received his M.D. from the University of Maryland in 1935.

Kenton R. Condon is a Supervisor in the production of powder metals for the North American Philips Co., Inc., in Lewiston, Maine. His home address is 45 Wood St., Lewiston.

Alton M. Dixon is Chief Engineer of the Power Plant at the Eastern Manu-facturing Co. in South Brewer, Maine. His home address is R.F.D. #3, South Brewer.

Pauline M. Dunn, librarian at Bangor High School, attended the summer session of Columbia University School of Library Service in New York City. Her home address is 135 Forest Ave., Bangor.

Hazel Sawyer Everett (Mrs. Victor E.) whose address is 883 Broadway, So. Port-land, is the mother of twins, Gail Louise and Glenn Sawyer, born October 11, 1947.

Norwood W. Mansur, World War II veteran, is the Commander this year of Fitzgerald-Cummings Post American leg-ion, Augusta, Maine.

1931 Mrs. Sam Sezak
4 Gilbert St., Orono

Mary Galaher Buchan is now living in Portland where she and Mac, of the class of '32, are building a new home. Mac is working for the Samuel Asceto Co. in Portland.

Parker Spear is still with the Travel-ers Insurance Co. and is located in Phila-delphia.

Ken Woodard has a hardware store in Bingham, Maine.

John Sturgis is practicing law in Port-land. His home address is 88 Mackworth St., Portland.

Florence Ward Elliott and Linwood ('32) are parents of a new baby. Con-gratulations, folks!

Double congratulations also should go to Hazel Sawyer Everett and Victor. They are parents of twins, a boy and a girl, born last October.

Don Henderson is with the American Tel. and Tel. Co. and is living at R.F.D. 540 Windsor St., Windsor, Conn. Don has two sons.

Also living in Windsor at 51 Giddings Ave. is Malcolm Devine who is with Westinghouse Electric. Malcolm has four sons.

Paul Jarrett is a dentist practicing in Stamford, Conn. His home address is Spelke Rd., Stamford.

Another dentist in '31 is Dick Wasgatt, who is practicing in Portland. His office address is 704 Congress St., Portland.

Madeliene Riley Thompson and Joe have moved from Kenmore, N. Y., to 1311 Riverwood Dr., Nashville, Tenn., where Joe is still with DuPont. The Thompsons have six children, including twins born in

June of 1946. That must be a record for 1931! How about it?

Harry Matluck is one of the owners of the Lancaster Furniture Store in Port-land.

Helena Conant Black is living in Mc-Kinley, Maine. She has four children.

Lawrence Baston is employed by the Maine Turnpike Authority and is living in Sanford at 37½ Elm St.

William Bates is an R.F.D. mail carrier in Guilford.

Lawrence Howard is owner of a poultry farm in North Berwick.

Jennie Davidson Jackson lives at 75 Medwood Rd., Teaneck, N. J. She has one son, Robert, Jr.

Lyndell Smith Arsenault has moved from Brewer to 90 Freeman Ave., Strat-ford, Conn.

Paul E. Bennett is Road Tar Engineer in the State of Maine for Koppers Co., Inc., Tar Products Division with Had-quarters in Portland. His residence ad-dress is Freeport, Maine.

Richard C. Blanchard is with the Baker Ice Machine Co. of So. Windham, Maine. His home address is R.F.D. #2, Cumber-land Center, Maine.

Charles A. Brown is Chief of the Stores Section of the Bureau of Federal Supply, U. S. Treasury Department, located in offices in Boston, Mass. His home ad-dress is 45 Grove St., Winchester, Mass.

William H. Jensen, Jr., is District Spec-ialties Sales Manager for the Westing-house Electric Supply Co. of Philadelphia. His home address is 924 Foss Ave., Drex-el Hill, Pa.

1933 Mrs. John R. Carnochan
36 Goudy St., South Portland

To those of you who weren't able to return to campus for reunion in June, I can only say, "You missed a swell time!" Seeing all the familiar faces again was fun, and incidentally, girls, the men have

changed in appearance most—the gals look the same as in 1933—perhaps even more attractive!!

Here is the latest on nearly everyone: Mrs. Frederick Anderson (Merrita Dunn) lives in Stockholm, Maine, and has two daughters, aged six and two.

Ed Giddings is working for the Penob-scot Chemical Fibre Co. of Old Town. He lives at 28 College Hgts., Orono, and has one daughter, two years old.

"Slugger" Jackson is Assistant Track Supervisor for the Maine Central Rail-road in Auburn.

Peg Davis MacLaren is living in Wis-casset, and has a little daughter aged two.

Eddie Hackett lives in Spring Lake Heights, New Jersey. He has a son nine years old and a daughter two. Eddie is a Patent Attorney.

"Bunny" Callaghan DeCoteau lives at 57½ Western Ave., Augusta. "Bunny" has a son and a daughter.

Ben Brown is Chief Cartographer with the Weber Costello Co., Chicago Heights, Ill.

Vi Peterson Webber and Norm were at

reunion—staying at the Abe Goldsmiths' lovely new home near the Penobscot Country Club. We all had a happy reunion down there. What trials and tribulations the Goldsmiths must have had some eighteen or nineteen years ago when we were all living at their home! I told them this time that I never would have put up with it all!!! Vi and Norm look fine—same as ever—. They have three sons and a daughter—one of the boys enters college next fall!!

Gil Robertshaw lives in Woonsocket, R. I., where he is running a woolen factory.

Herbie Lewis is living at 20 Homestead Ave., Weymouth 88, Mass. "Ted" Richards Staples is located in Ogunquit.

Hazel Scully Henkle lives at 154 Williams St., New London, Conn. The Henkles have three sons, ages five, four, and two.

R. S. Ives lives on Pond St. in Topsfield, Mass.

Eleanor West Yerxa lives at 161 Highland Ave., So. Portland. She has three children—two girls, ages seven and three—one boy, aged ten. Much of this lengthy column this month is due to Eleanor's work in compiling lots of these statistics, and to her I am most grateful.

Kay Small Lufkin and Art have moved from Portland to 74 Hillcrest, Belmont, Mass.

Clarence Smith lives in Waterville and has three sons.

Muriel Whitman is doing social work in Ellsworth.

"Sunny" Nason is office manager in the present governor's office in Augusta. "Jo" Mutty is a social worker in Bangor.

Jim McClure is in General Insurance, located in Bangor. The McClures have two sons.

Don Palmer is a store manager in Manchester, Conn. He has two daughters. Emmons Kingsbury is an interviewer. He lives in Bangor.

F.L.O. Hussey is a dentist located in Dexter. He has a son.

Ralph Sawyer is a highway engineer, living in Augusta. He has three good looking sons. (I saw their pictures.)

Forest K. Moors and Vivian live in Old Town. Forest is a chemist and the Moors have two children, a son and a daughter.

Blanche Henry teaches at Miss Hall's School in Pittsfield, Mass.

Beatrice Titcomb has been Educational Director at the State School for Girls in Hallowell, Maine. She is now located at 44 Elm St., Newport.

"Hoby" Chase was recently in my father's office in Portland and left the following "gleanings."

Tommy Desmond and his wife live in Westchester, Pa., at 601 W. Miner St. Tommy is sales manager for heavy chemicals-section of the Grasselli Chemical Department of the E. I. du Pont Co. in Wilmington, Del.

Ted Prescott lives in Swarthmore, Pa. He is married and has two sons. Ted is Asst. Manager Advertising Dept. of the Scott Paper Co., Chester, Pa.

Julius Pike is teaching school in Boston.

And as for "Hoby" himself, he and his wife live at 114 Commonwealth Ave., Claymont, Del. He is connected with the Safety and Fire Protection Division of the du Pont Co. in Wilmington, Del.

K. Alec Laughlin, M.D., is practicing gynecology and obstetrics in Portland. He is married to the former Barbara Files of Portland, and they have two children.

Everybody please note that the Carno-

chans have moved from Portland to South Portland.

1934 Mrs. Robert C. Russ
39 Farm Hill Rd.,
Cape Elizabeth

I hope I have made the October column! Bob was going to pinch-hit for me once again while I was in the hospital with our number three boy, but I could not remember where I had hidden my news items. Stephen Wood Russ was born August 28th and, needless to say, things are a little busy around our house 'til we get in the swing—but what fun!

You folks are probably wondering what did happen at reunion and who was there. I really didn't get a complete report until too late for the June column, so here it is:

Forty 34's and their husbands and wives enjoyed reunion. The same class officers were re-elected to serve until next reunion. I have a list of those present at the reunion banquet, their addresses and business. Here it is:

Roscoe F. Cuzzo lives at 72 Main St., Orono, and is Supervisor of the Pullorum Disease Laboratory at the University.

Jim and Betty Jackson live at 239 Woodford St., Portland, and Jim is an Adjustor for the General Adjustment Bureau in Portland.

Claire Sanders is Secretary to Prof. Harry Watson at the University.

Tony and Pauline Tompkins live in Island Falls. Tony is farming.

Gil and Anne Cox are at home at 65 Athelstane Rd., Newton Center 59, Mass. Gil is an engineer for the Powers Regulator Co.

Howard and Rachel H. Knight are living in Richmond, Maine. Howard is with the First Nat'l Bank in Lewiston.

Tom and Alice Hersey are in Bangor, at 18 Plaisted St., and Tom is General Manager of the Acme Mfg. Co.

Al Lyon is an engineer for the Technology Station at the University. He lives at 735 Main St., Bangor.

Bob and Jo Kiah are at 320 N. Main St., Brewer.

Donald and Maxine Goode live at 238 Parkview Ave., Bangor.

Benson E. Caswell is Executive Vice President of the Peavey Mfg. Co. and lives at 83 Main St., Oakland, Maine.

Andy and Mabel Watson, 201 Stillwater Ave., Old Town. Andy is Asst. Agricultural Economist, with offices in Winslow Hall, U. of M.

Ierdell and Alice Ward live at 241 S. Main St., Old Town. Ierdell is working for the state, but I am not sure in what capacity.

Norm Gray is a Consulting Engineer. He and Edith live in Fryeburg.

Irv and Marcia Grodin live at 26 Byrne Place, Bergenfield, N. J. Irv is a paper-board engineer for the Continental Paper Co. in Ridgefield Park, N. J.

Isadore and Rose Alpert live in Bangor, at 266 French St., and Isadore is connected with the firm of Morin Bros. of Old Town, a wholesale confectionary and tobacco distributing company.

Hayden Rogers is an engineer for the power company in Rumford. His address—5 Clachen Place.

George "Red" Osgood is raising certified seed potatoes in Dryden, N. Y.

Don Favor has his own photography studio in Brunswick. Home address—6 River Rd.

Phil Parsons is with the Agricultural Extension Service. He and Dot live in Hampden Highlands.

Bob and Doris Rosen McCready live at 2 Tucker St., Norway.

Earl Brown is President of the North Waterford Spool Co. He and Cornelia live in North Waterford.

Jack Leddy is a lawyer practicing in Portland. They live in Falmouth.

First hand reports by Merle Leddy and Betty Jackson were that it was a grand luncheon.

The rest of the news items for this column may go back as far as last May, but to many of you it will still be news.

Mr. and Mrs. Norman Gray of Fryeburg have a son, John Frank, born April 30th at Memorial Hospital, North Conway, N. H.

Win Cushing is one Sister Nightingale who is still carrying the lamp. She is public health nurse and supervisor of tuberculosis with the King County Health Department and Visiting Nurse Service, Seattle, Wash. Mail goes to 303 Public Safety Bldg., Seattle 4, Wash.

Mr. and Mrs. Merton Cleveland (Gertrude Dorr '33) live at 546 Ohio St., Bangor. Mert is employed by the Hincks Coal Co., 11 Central St., Bangor.

Dana McNally flies his own plane for the benefit of his guests at the McNally Sporting Camps on Fish Lake and the Musquacooks.

An item in the sports column of a Portland paper reads—"Ken Aldrich of Norway, who, besides owning several good racers, manufactures sulkies and initiated the first starting gate in Maine, is recovering from a recent illness and has been advised to sell his racing stock. Ken has put out a very fine trade card with the entire 1948 racing schedule on it."

Donald G. Allen is state agent for the Norfolk Iron Co. and Pallet Sales Corp. of North Quincy, Mass., and New York City. His address is 24 May St., Portland.

Robert Berg is a manufacturer of ladies' aprons in New York City. His home address is 1510 Unionport Rd., New York 62, N. Y.

T/Sgt. Stanley R. Doane is an Instructor of Photography at the Airforce Technology School at Lowry Field, Colo. His address is 1221 Washington St., Denver 3, Colo.

John Doyle is Asst. Personnel Mgr. of the Eastern Division of the Sears Roebuck Co. in New York City. His address is 2 Gouverneur St., New York, N. Y.

Robert Cram is Register of Deeds for Cumberland County for the term 1947-1950 as well as being a practicing attorney-at-law. His residence is Foreside Rd., Cumberland Foreside, Portland.

A note from Mrs. John Stenchfield catches us up on their residence and family. John is still a Lieutenant Commander in the Navy and attached to A.S.O. in Philadelphia. As he is their field service representative on the West Coast, they are living in Alameda, Calif., in naval housing. John covers the west coast from Seattle to San Diego and then reports back to Philadelphia almost every two months. They have two children, a girl and a boy, three and one respectively. Their address is 2101 Kane St., Alameda, Calif.—and thanks so much, Mrs. Stinchfield.

We had some grand reunions of our own this summer with Jack and Merle Leddy and Arden Mercier and his wife, Billy and their children. Ardon and Billy have a boy seven and a girl (and what a girl!) three. I'll have to check with Bob before I dare to say what Arden is doing. I'm always hazy on the particulars.

1935 Mrs. Thomas McGuire
209 W. 107th St., Apt. 3-W
New York, N. Y.

Hello, everyone! Did you have a nice summer? Hope you were in a cool spot during August—anywhere in Maine!

George Stinchfield is engaged in Public Relations work at Bonwit Teller here in

New York. George is Design Director of Photography and Television. Recently he was visiting his sister, Mrs. Raymond Vermette, of University Place, Orono.

Dr. Donald L. Anderson is, as the *Alumnus* told you a while ago, practicing in Auburn, Maine, and is a member of the Medical Staff of the Central Maine General Hospital. Dr. Anderson was formerly a member of the medical staff of the Massachusetts Memorial Hospital. Mrs. Anderson was a member of the medical staff of the Newton-Memorial Hospital. Dr. and Mrs. Anderson have a ten-months-old son, Eric.

This summer Betty Wilhelm Bassett attended a summer session at Middlebury where she participated in a German class speaking German exclusively. Betty is teaching this winter in New Haven High School in Connecticut.

Velma Colson has been enjoying the training of Abraham Strauss sales people. And, in addition to her department store activities, Velma found time last year to complete her Master's Degree at New York University, and teach at City College. And of course she vacationed at Moosehead.

Vi Colson Clark and Frank are living in Sanford where Frank is working for the Goodall Sanford Mills. They have one son, Frank.

Milton J. Breslaw is the owner of an Insurance Agency in Greenwich, Conn. Mail reaches him at his business address, 410 Greenwich Ave., Greenwich.

Wilfred O. Cooney is an Industrial Ventilation Engineer and Distributor for the American Blower Corp. with headquarters in Boston. His home address is 62 Cedar St., Cohasset, Mass.

Oursa Dagavarian is a Construction Engineer-Neuro-Physiological Research in the Department of Neurology, Columbia Medical School in New York. His home address is 45 Wadsworth Terrace, New York 33, N. Y.

Had a note this summer from Beryl Warner Williams. Beryl says her husband, who has a Ph.D. from Pennsylvania State College, has been with the Veterans' Administration Guidance Center, and is a Professor of Psychology. Beryl has been an Assistant Professor of Mathematics—teaching algebra, trigonometry, and calculus to engineers; business mathematics and statistics to business managers. Wouldn't Professor Willard be pleased to know! The Williamses are at A. & T. (Agriculture and Technology), Box 356, Greensboro, N. C. They have have one son, Scott William Williams, who is five years old.

Beryl reminded me how many falls ago it was that the '35ers were the champion hockey players. I'm afraid I'd need a suite at Presbyterian and a staff of osteopaths, as well as medics, if I picked up a hockey stick now!

This summer while at the races at Old Orchard Beach, I met Merle Shubert Leddy and Jack. They have four boys—you know, twins and two singles! Merle sees many of her class ('34), but not many '35rs. Jack is practicing law in Portland.

A short time ago I saw a young man escape being run down by a cab driver who was rounding a corner on two wheels. The very agile pedestrian looked like John Willey, but before I could reach him—John—or his double—disappeared into the crowd. Were you in New York, John? And does this answer one of your attempts to cross the street?

Before long I do wish that some of you would have a "Maine Session" and sit down and write to yours truly all about yourselves and those whom "grapevine" has told you about.

News has been so sparse for the past several years it would be nice to hear about all the '35ers this fall.

1936 Mrs. Edwin Webster

Box 215, Hampden Highlands
I'm writing this column on Sept. 10th which is the deadline—hope it will appear in the *Alumnus*. We didn't get home from the Isle of Springs, where we spent the summer, until Sept. 8th and since then have been in the process of settling in a new apartment. We are still in Hampden Highlands and Eddie is still an engineer for Eaton Tarbell & Associates, Architects, in Bangor, but we are in a different house. The address remains the same—a gentle hint for all of you to send some news along.

All that I have this month was sent to me from the Alumni Office.

Ronald Billings is an instructor of math at Longmeadow Junior High School. He received a Master of Education degree from Springfield College in 1948. His home address is 118 Hopkins Place, Longmeadow, Mass.

Helen Davis Sublett (Mrs. Carl C.) is a housewife and lives at 225 Carson's Lane, Bristol, Tenn.

Mildred Sawyer Connors (Mrs. John J.) writes that she is a housewife and the mother of one child, John J., Jr., born Jan. 31, 1947. Mildred's home address is 262 Strandview Rd., Columbia Village, Dorchester 25, Mass.

Louise Adams Tripp is also a housewife and lives at 196 N. Main St., Rockland.

Mr. and Mrs. James Boardman are the proud parents of a son, James Alexander, born June 12th in Fairfield, Maine.

Karl Hendrickson has been promoted from assistant professor to associate professor of civil engineering at the University of Massachusetts.

Raymond Gailey, president of the Maine Progressive Party, was chosen National Committee Member from Maine.

I think I did have some more items which I received too late to publish in June, but at the moment am unable to find them. Bear with me and perhaps when I unpack a few more cartons I will locate them in time for the next issue.

1938 Mrs. Mary D. Wirths

47 Falmouth St., Portland
Time again to sort out correspondence and see what goes with the Class of 1938.

In an earlier report on the round robin of which I am a member, I inadvertently omitted the name of Jean Kent Belding. She is also a subscriber. Barbara Roundy, another member, writes that George is an engineer with Fay, Spofford, and Thorndike in Boston. He has been in Keene, N. H., this summer working on an airport. The Roundys' home address is 168 Diamond St., Walpole, Mass. The news of other round robin members dates back to the war, due no doubt to the paper shortage and transportation difficulties.

Cynthia Adams became engaged this summer to Francis E. Rice of Bangor, son of Mr. and Mrs. Charles F. Rice of Catell St.. Cynthia is employed by the New England Tel. and Tel. Co. in Bangor. Her fiancé is an alumnus of Bangor High School and served for several months in the Pacific during the war. He is employed by the American Gear Co. No date has been set for the wedding.

The Rev. John Frost has completed work for his Master's degree in History at the University of New Hampshire. The subject for his thesis was a study of the changes in eight typical Kittery Point buildings during the past 300 years. The Gundalow Club of Kittery published the

82-page study under the title "Colonial Village." I expect John's interest is derived from the fact that his ancestors came from Kittery. He is now assistant Librarian at Drew University in Madison, N. J. Besides degrees from the Universities of Maine and New Hampshire, he holds degrees from Berkeley Divinity School, New Haven, and Columbia University.

Charlie Lowe was married recently in Camden to Wilma Marie Dougherty, daughter of Mr. and Mrs. Edmund Dougherty of Camden. Mrs. Lowe is a graduate of Camden High School, Westbrook Junior College, and the Maine Eye and Ear Infirmary in Portland. She was formerly a medical technician at the Camden Community Hospital. Charlie served four years in the Army and is now in the home furnishing and decorating business in Camden. The Lowes have a home in Lincolnville.

Eddie Doubleday is vice president of the American Maple Products, Inc., at Newport, Vt. His address is 22 Prospect St., Newport.

Major Dick Healey was at Fort Benning, Ga., during the month of June and went on to Fort Meade, Md., for another month's tour of duty before returning to Orono to resume his duties as an Instructor on the ROTC staff the University.

Henry F. Lowe of Brooks took over the duties of State Field Representative of the Farmers' Home Administration on July 26. He is working out of the Bangor office of the administration. Henry was associated with the FHA for eight years, but had been affiliated with the Maine Potato Growers in Presque Isle before his recent appointment.

1939 Mrs. Donald Huff
1 Swan St., Calais

On June 22nd George Leonard, Jr., arrived at the home of Dr. and Mrs. George Temple. The Temples also have a daughter who, I believe, is almost two years old. George is resident surgeon at the Maine General Hospital in Portland. They make their home at 33 MacArthur Circle East, So. Portland.

Another arrival—which I am rather late reporting—is Penny Marie on Nov. 24, 1947, to Bob and Bula Fitch Johnson. Their oldest daughter, Elizabeth Bula, is now three years old. Bob has been appointed by Governor Bradford as Director of the Fish and Game Division of Massachusetts. At the time Bula wrote, they had no definite address, but I expect that by now they are located somewhere around Boston.

Madge Stacy is legal secretary for Crail and Crail, Attorneys, at 315 W. 9th St., Los Angeles, Calif. Her residence address is 321 N. Willowbrook Ave., Compton, Calif.

Bob Feero is Supervisor of the Alleghany Ballistics Lab. at the Hercules Powder Co. His mail goes to Hillcrest Drive, Cumberland, Md.

Sylvia Blankenberg and Albert Friedman were married in April at the Beacon House in Boston, Mass. Sylvia is a graduate of the University of New Hampshire and was employed as Office Manager of the Portsmouth Chamber of Commerce. Albert is Treasurer of the Friedman Furniture Co. in Bangor.

1940 Mrs. Edward R. Ladd
108 Talbot Ave., Rockland

It doesn't seem possible that fall is here again!

In June I received a wonderful letter from Leon Breton. Bret works for Standard Oil Co. (N.J.) out of Manhattan as a technical salesman. He sells chemical by-products all over the country. Bret was married five years ago to the former Betty Steik of Upper Montclair, N. J. She was a 1942 graduate of Colorado University. They have a small son, Teddy, who was born on Dec. 2, 1947. The Bretons have established their own home at 96 Jasper Ave., Teaneck, N. J. Bret also kindly sent along news of some more of our classmates.

John Derry is in chemical sales for Calco and can be addressed as follows: Calco Chem Div., American Cyanamid Co., 30 Rockefeller Plaza, Rm. 6335, New York 20, N. Y.

R. F. Stewart resides at 474 Main St., Lewiston. He is Assistant Superintendent of Bonafide Mills, Inc., Lisbon.

Carleton C. Cressey is in partnership with Clayton Mersereau in the Middlesex Implement Co. in E. Acton, Mass. They are distributors for International Harvester Co. Carleton's home address is 40 Walden St., Concord, Mass.

Bill Treat is running a branch of Perry's Nut House on Route 1 between Portsmouth, N. H., and Newburyport, Mass.

Bret, I am indeed grateful for all this information. Please write again!

Dr. and Mrs. Robert B. Robertson have a small daughter who was born on May 10, 1948. Dr. Robertson will be at the Lahey Clinic for five months. His home address is 1163 Boylston St., Apt. 1, Boston, Mass.

Dick and Dorrice Dow Fuller have their second child and second son, Donald Hugh, who arrived on August 29, 1948. Their home address is Windy Hill, Spurrink Ave., Cape Elizabeth 7, Maine.

Dr. Dyer Higgins commenced a two-year internship at the Maine General Hospital in Portland in July. After graduating from the U. of M., Dyer served as an Army medical technician for three years and has now graduated from the University of Vermont Medical School.

Allyn E. Charpentier is inspection engineer for Storms Drop Forging Co., Springfield, Mass. His residence is 266 Cooley St., Springfield 8, Mass.

Donald T. Choate is living in Windsorville, Maine. He is station operator for C.M.P. Co. as well as Tax Collector and Treasurer of Windsor.

1942 Mrs. Jose Cuetara
1127 Commonwealth Ave.,
Boston 34, Mass.

Greetings, after a long and, I trust, pleasant summer for all. "First news first" ... and way back in June, I received a card from Arlene Boyle telling of the adoption of a baby girl by Louie and Arlene. Her name—Susan Elizabeth and she was born on February 26, 1947. I have since seen the Boyle family and little Susan and must say that she is quite a little charmer, with brown hair and roly-poly little figure. The Boyles have a new Cape Cod style home at 252 Norway Rd., Bangor, and Lou is working for the General Adjustment Bureau in Bangor.

Marmie Moulton McKee and children were at Green Lake for a month this summer, and all are looking very well indeed—Jimmy, Jr., Margaret Ann, Dickey, and Bobby. The McKees also have a new home which is at 20 Norbeck Rd., Manor Park, Rockville, Maryland, R.F.D. #2. From her description it is a perfect spot for a growing family with loads of land around it, and a golf course adjacent for Arnold.

Received a first-hand report of Arlene Webster's marriage to Bob Farley from Midge Merrill. It was held in the Church of the Messiah in Auburndale, Mass., at 4 o'clock on June 26. Lorraine Hopkinson was matron of honor for the ceremony and among the guests were Helen Weymouth, Lois Long, Lois and Jim McMurray, Gloria Miniutti, Marion Hines, Midge Merrill, and Dave Hopkinson. A reception followed the wedding ceremony in the vestry of the church. The Earleys will be in Springfield, Mass. We wish them great happiness.

Lois Long departed soon after that date on a 35-day tour of England and the Continent. Wow!! It must have been a marvelous experience, and we hope to report a few details about it when "Buddy" sends us the story.

Jose and I spent a very pleasant evening with the Francis Andrews and the John Gormans during July. John and Rita are now living in Boston at 286 Chestnut Hill Ave., Brighton.

Dropped in to call on Bette Kilpatrick while in Bangor this summer. Bette is getting underway on her job as Assistant Alumni Secretary with great enthusiasm, and we wish her lots of enjoyment from

her work with the University. Bette, Nancy, and Mrs. Barker are very enviable established in the very modern apartments near the campus. The address is: 7 Fernald Rd., Dryden Terrace, Orono.

From the Alumni Office we have the news that Robert Deering and Miss Alice Dake of Greenfield Center, N. Y., were married at the home of the bride's parents, Mr. and Mrs. Charles Dake, on June 12. Bob and Alice will be at home in Ithaca, N. Y., where Bob is connected with Cornell University. Our best wishes, Bob and Alice!

Also that Miss Jean Olfene, daughter of Ralph Olfene of Auburn, became the bride of Raymond Curtis, Jr., on July 25 at Poland Spring Chapel. Mrs. Curtis is a graduate of Lesley College, and Ray graduated from Boston University after attending the University of Maine. He is now associated with his father in Lynn, Mass. Again, our congratulations!

Miss Eleanor G. Moranz, daughter of Mr. and Mrs. Louis K. Moranz of Worcester, and Harold Kaplan are engaged. Miss Moranz is attending Worcester State Teachers' College, and Harold will be graduated from Harvard Law School in June.

Beverly Spencer was named Chairman of the Security Bond Campaign in Old Town which was held in June. Beverly is an attorney in Old Town, having been graduated from the Boston University School of Law. He was a lieutenant in the U. S. Navy during the war, and commanded a mine sweeper in both the Atlantic and Pacific. It is only fitting, and we do not wish to embarrass Bev, that we quote from a newspaper item that he is considered "one of Old Town's most capable young professional men." Sounds as if he is off to a good start in his career in law.

Will close now with my usual parting shot, "Don't forget to drop me a line every so often, please." Hope that many of you will be able to make plans to return to the University for Homecoming in October.

1943 Mrs. James Grisham
171 Gerry Rd.,
Chestnut Hill 67, Mass.

Greetings and Happy Fall Days to you all! Do hope your summer was a pleasant one, and that the ole' summer sun didn't burn you to a crisp.

There is a galaxy of news—from corners near and far. The Cranes, Dottie, Icky, and Nancy are to the south of us. Yes, they have taken up residence in the DuPont city of Wilmington, Delaware. Expect a letter will be forthcoming—so, shall have their address and bits of interesting sidelines to pass on to you soon. We miss them here in the bean city, but our good wishes go with them. Following Icky's graduation from the Harvard Business School, Dottie and Nancy visited Dot's mother in Madison for a while. Quote Dottie, "Nancy and her grandmother eat together each morning at 7 a.m., and I eat at 11 a.m. What luxury! Grandmothers are wonderful!"

Enjoyed talking with Bud Hatch the first of the summer. He and his wife, Frances, with their four children (Yes, four, Fletcher III, Frances, Roberta, and Linda) were up from the tropics. Bud saw service during the war in China—being based out of India—flying the Hump. He and Fran were married in February 1943. Although Fran hails from St. Louis, she loves the life in Honduras. Judging from Bud's description of their living quarters (sounded palatial) and the dozen or so servants, one can well believe that life can be beauti-

ful! Working for United Fruit, Bud's position is that of Assistant District Superintendent, being in charge of six banana plantations. The Hatches' address is c/o Tela Railroads, La Lima, Honduras.

"We're happy as larks and proud as can be, Of the new little bud on our family tree!" So goes the rhyme announcing the arrival of William Thaxter Gooding III, on May 7, 1948, at Painesville, Ohio, R. #1. Congratulations, Ruth and Bill!

A welcome note from Arlene Boyle brought forth the news that Susan Elizabeth has joined their household. She is nearing the year and a half mark. "Quite the proud parents all of a sudden," so Arlene writes. Louis is now working for the General Adjustment Bureau in Bangor, while Arlene keeps house in their new home at 252 Norway Rd. Thanks so much for the letter, Rody.

On June 22nd Warren Roll and Anne Connors were united in marriage at the St. Thomas Episcopal Church in Camden. Rev. William Berger officiated, performing the double ring ceremony. Following the ceremony, a wedding reception was held at the Mountain View House at Camden. Among the guests attending were Mr. and Mrs. Gordon Erikson and daughter, Nancy, of Worcester, Mass. Their wedding trip included a visit to Cape Cod and Long Island.

Anne was graduated from Bangor High School and Penn Hall junior college, Chambersburg, Pa. She is now employed by the *Bangor Daily Commercial*. Following Warren's schooling at Maine, where he was a member of A.T.O. fraternity, he studied with Clarence H. White, New York photographer, and worked with Wynn Richards, illustrative photographer of New York. He is now staff photographer at the *Bangor Daily Commercial*. Warren's experience in the Navy was a great help, as he served as photographers' mate for four years in the U. S. Navy during the war. Best wishes, Anne and Warren!

Here are the details of the McCarthy-Brown nuptials. The wedding of Marcia McCarthy and Bremner Brown was solemnized at the Congregational Church in Waterville May 24. Marcia was attired in a gown of white silk marquisette over white satin. Margaret McCurdy of Portland and Frances Donovan of Boston were bridesmaids. They wore identical gowns of chiffon.

A reception was held at the Waterville Country Club following the church ceremony. Among the guests attending were Dr. and Mrs. Clarence McIntyre, Mrs. William Gilman, Mrs. James Logan, Mr. and Mrs. James Warren. Preceding the wedding, Marcia was complimented at a party given by Margaret McCurdy and Mrs. Richard Hersey at the latter's home.

Marcia is employed on the editorial staff of the Guy Gannett Publishing Company and has distinguished herself in covering the racing in Maine. She will continue with her work and the couple will live in South Paris. Bremner is a graduate of Haverhill, Mass., High School and Tufts College where he majored in chemical engineering. He is a member of the Delta Tau Delta fraternity and the Tau Beta Pi. He served for two years in the U. S. Navy, serving at Pearl Harbor. He is now employed by the Thomes and King Company at South Paris. Best wishes—Marcia and Bremner!

Frank Haines has done it again! The National Training School for Public Service and Wayne University of Detroit, Michigan, has appointed Frank one of ten graduate Fellows to study public administration under the terms of the William Volker Foundation at Wayne. Dur-

ing the year he will study under outstanding practitioners of public administrations, who come to Detroit from all parts of the United States for this specific purpose. These fellowships are awarded each year to outstanding university graduates selected in a nation-wide competition. Frank's record certainly qualifies him for this honor. Frank returned to the U. of M. in February, 1946, after five years' war service.

Frank's Detroit address is 16132 Harlow St., Detroit 27, Michigan.

And—as if this wasn't a sufficiency of good things for one person to rate, I have word of the Fonseca-Haines nuptials, the details of which I hope to have for you next month.

Still more congratulatory messages, and this time it's best wishes to Corliss and Olin Lutes. Corliss Golding and Olin Lutes, Jr., were united in marriage on Sunday, the twenty-seventh of June at The Lakeside Evangelical Church in Whiting, Ind.

Corliss is well known in Indiana for her work with the Lakeshore Players. She is a graduate of George Rogers Clark, and received her bachelor of arts degree from the University of Chicago. Corliss also took post-graduate courses at Indiana University Calumet Center. A member of Beta Gamma Upsilon sorority, she is employed in the research and development department of the Sinclair Oil Refinery.

Following his studies at the U. of M., Olin attended Carnegie Tech, from which he received his bachelor of science degree in physics. He is now associated with the Sinclair Oil Refinery. Olin served over two years in the army, being discharged with the rank of lieutenant.

And did you know that Dayson DeCourcy directed the Camden Hills Theater presentation, "The Bishop Misbehaves"? Dayson also played the lead in the theater's Shakespearian festival in August.

And so, with these profound revelations, I depart to see you next month.

1944 Esther Randall
19 Sabattus St., Lewiston

Back to the old routine again after a wonderful summer! Let's see what has happened of late.

In Shanghai on June 19 Fran Higgins was married to Joseph Olexo. Mail reaches the Olexos at either the American Club or 66 Tihwa Rd. N (Tifeng Rd.) Shanghai, China.

Also in June word came of the birth of Bruce Goodwin Brownlee—June 13th the exact date. The Brownlees, daughter Joyce, and the new addition live at 3715 N.E. 74th St., Portland 13, Oregon.

Bill Brown is program director for radio station WMTW in Portland, and he and Esther live at 27 Forest Park, Portland.

During the summer the engagement of Virginia Jones of Lynn, Mass., to Dick Burrill of Livermore Falls was announced.

Leslie Brewer is in the electrical contracting business for Fred J. Brewer, Inc., of Bar Harbor. Mail goes to 9 Michigan Ave., Bar Harbor.

In Winchester, Mass., on June 20 Miss Barbara Hughes became the bride of William Ford, Jr. Mrs. Ford is a graduate of Colby Junior and Boston University.

The engagement of Miss June Kellett of Lakewood, N. J., to Capt. George Gunn was recently announced. Miss Kellett is a graduate of Filkin Memorial Hospital and is now serving in the A.N.C. at Fort Monmouth. George, as you know, graduated from Tufts Dental School in 1946

and now is with the Army Dental Corps at Fort Monmouth.

July was certainly THE month of weddings. Lillian Silver of Orono and Peter Schwartz of Czechoslovakia were married in Portland on July 4th. As of the first of September, the Schwartzes will make their home in Orono while Mr. Schwartz finishes his course at the University.

Early in the month Hugh Holland and Rita Mayo were married in St. Joseph's Church in Brewer. Hugh is employed by the International Paper Co., and home for the Hollands is 19 Union St., Livermore Falls.

On July 22 Frances Pressey and Dean Pennypacker were married in the Columbia St. Baptist Church in Bangor. Franny has been organist at this church since graduation and Dean is employed by the Eastern Corporation. After Aug. 1st the Pennypackers will live at 14 Eaton Place, Bangor.

Also in July, Ruth Duran became the bride of Milton Beverage of North Haven. Following a trip to the Gaspé, the Beverages will live in Orrington. Milton is a graduate of Suffolk Law School and is a member of the law firm of Gould, Beverage and Grover in Bangor.

Any vital statistics that you can contribute surely will be welcome. See you at homecoming (?)

1945 Mrs. Fred Haggett
105 Main St., Orono

The sixty-four dollar question as far as I am concerned is: "Where has the summer gone to?" It seems as if it were only a few days ago that I was winding up this column for '47-'48, and now I find I'm commencing all over again. A hearty greeting goes to each of you with the hope that you have had a summer similar to that of Dorothy Currier Dutton who recently informed me that it had been "perfectly wonderful."

And now for the news which consists mainly of weddings and engagements. First on the list is the June wedding of Miss Mary Louise Staley of San Antonio, Texas, to George A. Rogers, Jr. The event took place at Bad Nauheim, Germany, with a two weeks wedding trip through Switzerland. Evidently George met his wife in Frankfurt where both have been stationed with the U. S. Army for the past two years. Last June the Rogers arrived home for reassignment, the latter location which is at present an unknown quantity to me.

On Saturday, June 26th, Barbara Atherton was married to Robert B. Case of Grand Forks, North Dakota, at the Orono Church of Universal Fellowship. Athie's only attendant was Doris Emery Spencer; Priscilla Shaw had charge of the Guest Book, and Don Crossland was one of the ushers. Athie and Bob are now out in North Dakota, but from sources knownst only to me, I understand that the East should not be too surprised to see them back again, this time to remain for good.

In July at the Blue Hill Baptist Church, Rebecca Bowden and Malcolm Herrick were married. Both Becky and Mac are working in Rochester, N. Y., the former as Training Supervisor for Sibley, Lindsay and Curr Co., the latter for the Stromberg Carlson Co. The address of the Herricks is 26 Upton Park, Rochester, N. Y.

On August 7th another definitely '45 wedding took place. Peg Stackpole and Otto Wallingford were principal characters, while minor roles were played by Lucia Packard as maid-of-honor, Ursula Sheldon as one of the bridesmaids and Phil Stackpole as best man. Otto has been employed as an Orchardist in Auburn

with the result that the Wallingfords' address is Perkins Ridge, Auburn.

The Church of Messiah in Auburndale, Mass., was the scene of the marriage of Connie Carter to Bill Lamprell on Saturday, August 28th. The one attendant was matron-of-honor "Charlie" (Chaplin) Bradley. Connie and Bill will make their home at 16 University Place, Orono, for the coming year, as Bill has his senior year at Maine to complete; Connie will work as Assistant to the Director of Nursery School Education in the Home Economics Department.

On Sunday, August 29th, Pauline Parent '48 was married to Larry Jenness in the Second Baptist Church in Waterville. Again Don Crossland was one of the ushers. They will live at 104 Main Street in Orono for the coming year; Larry will continue to bury his head in U. of M. books for the next nine months, while Polly will teach math, physics and English at Orono High School.

Sunday, September 5th, was the wedding day of Madeline Neviers; she became the bride of Harold E. Boynton of Camden, Maine. The event took place in the Second Congregational Church of Norway, Maine, and Dorothy Dutton and permanent escort Bob, Charlie Patridge and Fred and I had the pleasure of seeing that Maddy received a proper launching as the new Mrs. Boynton. As yet, I have no definite address of the Boyntons.

And now, two engagements. In late August Mr. and Mrs. J. Norman Mullen of Houlton announced the engagement of their daughter Helen '43 to Bob Varum. During the past years Helen has been working with the Allis-Chalmers Manufacturing Co. in Boston, and Bob has been at Spencer Kellogg and Sons, Inc., Edgewater, N. J.

Also engaged is Saralyn K. Phillips '47, daughter of Mr. and Mrs. Stanley G. Phillips of Portland, to Bill Bickford. At the present time Sally is a Service Representative at the New England Telephone and Telegraph Company. Bill, who received his Master's Degree in Physics at Columbia University last June, is now working in Waltham, Mass., for the Raytheon Mfg. Co.

As for Fred and I—well, Fred headed for Fort Bragg and North Carolina, with Maine's R.O.T.C. Unit for six weeks after college closed last spring (his ideas about Army life have not improved much as a result), and I headed for French Lick, Indiana, as an alumnae delegate to a sorority convention. Three weeks in July I spent peacefully in Maine and then, with Fred's return, we came back to Orono, and have been building by ourselves an 18' by 24' house on Bennoch Road, 400 feet over the Orono line into Stillwater. We plan to be in it by September 28th at the latest. Many of our relatives and friends were more than skeptical at our venture at the beginning, but now we are having the last laugh, and the biggest laugh, on them.

1946 Miss Therese I. Dumais
104 Main St., Orono

It doesn't seem possible that it was 'way back in June at our grand 1946 Class Reunion that Millie, after two years of faithful and grand service as our class secretary asked to be replaced; at our class meeting I was elected to follow. *I hope*, in Millie's capable footsteps. I do want to serve you as well as Millie did.

Right here and now I shall enter my vote of thanks to all of you for leading such varied and eventful lives so that I have a lot of news for the class. A hundred and one things have occurred, and they are for all of you to catch up on:

During our Alumni festivities on June

19th Harriet Ann Steinmetz was married to Harold Raymond Fray, Jr., at the All Souls Congregational Church in Bangor. The Frays are now at 275 Williams St., Middletown, Conn... do let us hear more news from you, Harriet and Harold.

Continuing in the marital vein, Barbara Dicket was married to Richard Brown in Belfast, on July 3rd. Frances Ella Johnson married Charles Francis Guild, Jr. in Bangor. The members of the class of '46 were quite prominent at the ceremony; Mary Frances Spangler was Maid of Honor, Bob Eddy was best man, and John Brookings was one of the ushers. The Guilds are living at 186 Hammond St. while Charles finishes his senior year at Maine.

One of the early June weddings was that of Evie Young and Carl B. Robbins in Searsport at the Methodist Episcopal Church. Carl also attended the University of Maine and is enrolled at the Cincinnati College of Embalming; let's hear from you people out Ohio way.

In Scotland, South Dakota, on August 29th Bob Hamm was married to Florence Frances Bauder; Bob, as you will all remember, was our Class President during our Junior year. On August 21st Mary Miller married Walter Savckik; the Slavckiks are living at 48 Summer St. in Hartford, Conn. To complete the August weddings, Mary Hubbard and Jack Flynn were married in Norway, Maine, on August 28th. The Flynn's will be in Orono at 5 Allen Rd., Dryden Terrace, the ultra-modern apartments that have sprung up south of campus, while Jack finishes his studies at the University.

In Bangor the engagement of Elaine Nella Wardwell to Storer S. Parsons was announced late this summer; "Tote" is now research assistant at the Roscoe B. Jackson Memorial Laboratory in Bar Harbor.

September is still the month of vacations, and I can't help but be envious when I mention the postcard I received from Lucille Cote while she was in Bermuda; during the year Lucille is still in Pearl River, N. Y., working for Lederle Labs.

I also received a card from Jean Thompson mailed during a stop between visits along the Oregon coast.

On my way out to Northwestern where I did graduate work this summer, I stopped and visited with Evie Shaw for two days in Boston; we had dinner with Joannie Porter the first evening, and we met Gene Emerson and had lunch with him; we just missed seeing Jack Day with whom Gene had been visiting.

September is also a month for going back to work and taking new jobs. We '46ers are certainly making changes! Franklyn Talbot, who has been working at the University Library, is planning to enter Columbia for a degree in Library Science. Charles F. Hass is now educational Counselor for a correspondence school; Charles has been pastor of the Congregational Church in Hampstead, N. H.

It has been fun writing this first letter to you, and it is good to hear from so many of you. Please do keep on writing me all the latest news at the above address or at the Speech Department at the University here in Orono.

1947 Mrs. Paul J. Dowe
85 Myrtle St., Westbrook

Summer is nearly over and I certainly hope all of you have had a wonderful time wherever you were. Now it's time to get busy and find out what everyone is doing. I have a lot of news that has piled up during the summer. Certainly would like to hear from more of you, however, if I'm slow in answering, it's be-

cause I now have a very small son, Jimmy, to take care of and he demands quite a lot of attention.

First, there are quite a number of weddings to report.

B. J. Durgin and Dick Banton were married in June. B. J. has been teaching at Anson Academy and Dick is a senior at the University.

Late in May, Gay Weaver became the bride of Ten Broeck Cornell of Newton Highlands, Mass. Gay graduated from Tufts (Jackson College) in 1947. Her husband was also graduated from Tufts and is to be a French teacher this fall.

In July, Effie Nutter of Corinna became the bride of Gerald Page of Corinna. Effie was a home demonstration agent in Southern Aroostook, with headquarters in Houlton. They will live in Corinna where her husband operates the Cameo Beauty Salon.

Shirley Castner and John Kenoyer were married June 13 and their address is Alvarado Apt. Hotel, 5118 So. Dorchester, Chicago, Illinois.

Ralph Peavey and Helen Strout were married and are residing at 518 Park Ave., Cranston 5, R. I.

June was also the month of Edith Strout's marriage to Craig Richards of Dorchester, Mass. Edith has been teaching English at Hartland Academy this past year. The couple will be at Pride's Corner, Westbrook, where Craig, who graduated from Bangor Theological Seminary, has a pastorate.

There are also a few engagements to report: Valerie Parkin to David Wyman who will attend Columbia University College of Physicians and Surgeons this fall. For the past year, Val has been secretary to Dr. Issac Webber of Portland having graduated cum laude from Boston University College of Business Administration.

Jan Brown was graduated from the Prince School of Retailing and her engagement to Edward Noyes, Jr., of South Natick, Mass., was announced recently. He is a student at Bowdoin College.

An August wedding was planned by Starr Roberts, R. N., and L. Sumner Chalmers of Bangor. Both graduated from the University. He is employed by Western Electric at Kearney, N. J.

1948 Mrs. Willard Moulton
33 Grove St., Orono

Not too many of those little white cards have reached me as yet, so what I know is strictly via grapevine and mostly sketchy. I've reached one conclusion: the class of '48 has spent the summer getting married! Some of the marriages are: Edie Anne Young and Al Hutchinson; Ollie Coffin and Halver Hart ('49); Dick Cutts and Billie Starrett ('47); Rachel Seavey and Milton Popkin ('47); Margie Watson and Al Savignano ('49)—Al is going to be coaching at Hampden Academy this year; Jose Libby and Dave Hayes ('50); Marit Andersen and Bill Wilson ('48)—they'll be in Philadelphia while Bill is studying at Penn State Medical School; Ruth Fogler and Merle Goff—Merle is attending Wayne University in Detroit and their home address is 16132 Harlow St., Detroit 27, a house which they and Alice Fonseca and Frank Haines, also married this summer, will share—Frank is also studying at Wayne; Joan Frye and Dick Meserve; Jean Campbell and Dick Foster ('50)—they'll be back in Orono and Jean is going to work as assistant to Dr. Mabec in Bangor; Donna Welts and Howard Wagoner ('49); Guylene Smith and Mert Goodall ('49); and Pauline True and Willard Moulton—we'll be in Orono, for Will is returning to the University for graduate work.

First State House

Maine's first State House was built in Portland, the capital of the newly-ratified state, in 1820; on the site of the present City Hall. The lot on which it was built ran 57 feet on Congress Street and 150 feet on Myrtle Street. It was a two-storied building of wood with a hipped roof and high ceilings. The front was finished with a pediment supported by pilasters, sheathed and painted white. The lower floors contained rooms for the new state's officers, the upper floor housed the Senate Chamber and had rooms for the Governor and Council. The courtroom of the adjoining County Court House served as a Representatives Hall.

Maine's legislature held its sessions in these quarters until 1831 when the state government moved to Augusta. Even after that date, when

planning a new County building, it was specified that "suitable quarters should be included for the State Legislature should they desire to return to Portland."

On the occasion of General Lafayette's visit to Portland in 1825 an awning "was spread from the front coving of the State House to the elm trees in front and a platform at the entrance was built to the height of two steps" where, after a brief rest in the building, the General held his reception.

The State House was moved some years after Portland was no longer Maine's capital, to the east corner of Congress and Market Streets, and was destroyed in the great fire of 1866.

"Lend me your ears" says science

It's no accident that you hear so clearly when you pick up your telephone. Bell Laboratories engineers are constantly at work to make listening easy for you.

When these engineers design a method to bring speech still more clearly to your ears, the new circuit is given many scientific tests. Then it gets a final check from a "Sounding Board" like the one pictured above.

This check shows just how the system will work in actual use. The men and women

represent you and many millions of other telephone listeners. Their specially trained ears check syllables, words and sentences as they come over the telephones. While they listen, they write down their ratings on the pads in front of them.

The Board members approve only when they are sure that the voice they hear is natural in tone, clear in quality and easily understood. Not until they are certain the circuit will suit your ear is it put into use.
