Dear University of Maine and University of Maine at Machias communities,

For the health and well-being of our university communities, [COVID-19 booster shots are strongly encouraged as a way to prevent severe cases of the disease](#). Anyone who is vaccinated and has in-person activities on our campuses or in our facilities statewide is encouraged to consider protecting themselves and others by getting booster shots when eligible. Information about vaccination requirements for UMS university community members is [online](#).

[The Maine CDC website](#) has information about the COVID-19 primary vaccine series and boosters, and vaccination locations in the state.

In addition, to help us maintain overall health and safety, university community members are reminded to continue to [self-report positive COVID cases online](#). An important reminder: If you feel ill, please seek medical attention and refrain from going to work or class.

Maine residents can now [go online to order five free COVID tests every month](#). [Information about symptomatic testing available on our campuses is online](#).

[Additional fall 2022 vaccination information](#), including how to find a flu clinic in Maine, is on the UMS website.
