Superintendent of Schools Report

To the Superintending School Committee and Citizens of Burnham:

I herewith present a report of your schools with the financial statements.

The class work in each of your schools is very satisfactory. The teachers are efficient, painstaking in detail with every phase of their work.

The true condition of the scholarship of your schools is seen in the high per cent of high school pupils who are on the honor list or who maintain a high rank in the several schools. Only a very few are below and that is unavoidable in any school system.

TEACHERS

There were three changes in teachers at the beginning of the school year in September. All the teachers are giving good satisfaction in their particular schools and I trust that nothing will come up to necessitate making a change as this is certain to interfere with the progress of the child for a time at least.

REPAIRS

The Eelweir school received special attention in repairs as a school was started there at the beginning of the school year.

The plastering on the Village school rooms is loose in many places and should receive attention before it falls.

EPIDEMIC

We should all learn a great lesson from the experience we have had with diphtheria. If in the first the party who was ill had given it proper attention no doubt nothing would have come from it.

The teachers are to be congratulated for the way they handled the matter before being advised of the nature of the epidemic.

While it cost the town a considerable amount yet had it not been for the skillful manner in which your health commission handled it the cost would have been greater and too, more deaths.

Let us here pause in memory of those who, as flowers, passed to the school celestial.

ACTION OF COMMITTEE

At the beginning of the school year it was voted to have nine grades in our school system. This will give your pupils a better preparation thus enabling them the better to take up advanced work.

All your children at the present are young for entering high school thus this act will be of material benefit.

School orders for all tuition bills, in fact for all

school bills have been drawn and passed to the Selectmen.

Soon, most any day now, I expect to receive the tuition bill from M. C. I. which I judge will be for 21 pupils at \$35., or \$735.00; and again in June for 19 pupils at \$25., or \$475.00. Next fall term may be 17 pupils at \$40., or \$680.00, making a total of \$1,890.00 to M. C. I. You will also have two at Unity at \$60. each or \$120.00, and one each at Clinton, Newport and Bingham which will amount to \$140.00. There will be a pupil to enter Oak Grove where the tuition is \$100. per year and a year's tuition of \$32. to Troy. Thus you will see that tuition will be as much next year as this.

This is a year when we must give special attention to our appropriations in every department of town affairs.

When your teachers were elected for the present school year it was with a cut of twenty percent, or from twenty to sixteen dollars per week.

I met with your special budget committee and gave recommendations as low as I felt they should be, but they were reduced.

I doubt very much if we can maintain the efficiency of our schools with that amount.

SPECIAL

All school bills which are due have passed to your selectmen for a town order, but I anticipate as last year, that a part of them will not go to the treasurer for payment, as the town funds are low.

Whenever I draw a school order for any amount that shows on my books as being deducted from the school money—I have nothing to do with cash or check payment.

It is not altogether right for school orders to remain unpaid when the school funds are not exhausted. I fully understand the financial condition of the town, but trust that very soon this will be corrected.

In closing I wish to express to all, the citizens, committee, teachers and pupils, my hearty appreciation for your co-operation.

Respectfully submitted,
G. M. D. GRANT, Supt.
