Burnham, Maine

FOR THE FISCAL

Year of 1947-1948

BY THE

OFFICE OF SELECTMEN
TOWN OF BURNHAM, MAINE

In presenting this annual report of the financial condition and operating procedure of the Town of Burnham we are breaking a long established precedent in supplementing the report with this summary.

All governments is faced with the same rising costs which is so apparent to every citizen in his private life.. Additional sources or new sources of revenue must be found to meet these rising costs in the long range taxation program.

There is at present no mechanism for obtaining revenue from new sources and until this is provided there is no other way but to add this increasing burden to real estate.

X We have had a conference with the State Board of Assessors and the State has requested that there be an increase in the valuation of buildings. Land is valued at present as high as it can be.

This measure was formulated for the purpose of a more equitable distribution of taxation. If the Assessors for 1948 carry out this directive from the State Board of Assessors it is probable that any increase in the tax rate will be small. Otherwise the budget which is recommended and which must be raised together with all overdrafts will result in an appreciable increase in the tax rate. Overdrafts must be taken care of currently or they will result in an increase in debt which we will not be permitted to carry.

There has been no period in our lives when more careful consideration should be given to municipal questions as shown in the warrant, than at present.

We strongly urge that this consideration be given.

The above should be read, Village Primary 6 boys, 5 girls.

At present time there are 24 tuition students. This number will more than double in the next few years.

CONCLUSION

Work should be started soon on a new building in the Village as time allotted by the State will run out soon. Your school costs will increase each year unless some other means of taxation is found to relieve the burden on real estate. the chief increase in cost will be in cost of High School tuition which will more than double present figure. The teacher shortage is still acute and certified teachers are hard to find. I wish to thank the teachers, the school committee and the citizens for their cooperation during the past year.

Respectfully submitted

KARL H. McKECHNIE

Superintendent of Schools

REPORT OF BUILDING COMMITTEE

During the past year plans have been drawn up for a two room building to be constructed on the old site.

The cost of a building of this kind will depend on the amount of lumber and material the town could furnish itself.

The Committee recommends that a new building committee be appointed or elected to carry on and work out a program which will be for the best interests of the educational needs of the town.

Plans as drawn up are ready for the use of this committee if desired.

The time allotted by the Department of Education for providing a new building will run out this year. Some action should be taken at this town meeting in regards to better building facilities.

Respectfully submitted,

E. E. Davis, Chairman
