"To those familiar with the University's long-standing need for a Union Building, the recreational, social, and service advantages that it will provide are readily apparent. In addition, as has been frequently pointed out, a Union Building is in a very real sense a laboratory of citizenship. Certainly the educational values inherent in such a campus center will go far toward making it one of the University's greatest assets."

(Excerpt from President Hauck's Report to Alumni, March, 1949)

This is the way the new Union Building will look when it has been erected a bit southwest of Fernald Hall.

"A laboratory of citizenship."
What's the Price of Milk?

Milk is nature's most nearly perfect food and is most important from the standpoint of health. The dairy cow should receive credit for this accomplishment in producing nature's best food. The patient bovine, however, leaves to the dairy cooperatives, the milk distributors and the other marketing agencies the problem of determining milk prices.

The basis of determining fluid milk prices in the larger markets such as Boston has been generally unsatisfactory until the "new look" in milk pricing became effective about a year ago. The new method, known as the Boston Formula for pricing Class I milk, is the result of recommendations made by a committee of eight economists. The Chairman of this group was Dr. George F. Dow, '27, Agricultural Economist for the Maine Agricultural Experiment Station, who is now serving as Assistant Director of the Station. Another member of the Committee who assumed major responsibility in preparing the Committee's report was Chester W. Smith, '36, who is Economist for United Farmers of New England and other Cooperatives in the Boston Market.

The new formula which was developed by this Committee has received the enthusiastic support of the New England dairy industry and became effective in the Boston Market on April 1, 1948.

The Federal Reserve Bank at Boston stated that the new formula is probably the most important milk pricing news of the last ten years.

The increased flexibility of milk prices, adjusted automatically for changing economic conditions, should help to keep demand and supply of milk in proper adjustment. However, if prices under the formula prove to be higher or lower than justified, so that production gets out of line with demand, there is a special price adjustment to correct this situation.

The new formula has several outstanding advantages over the previous methods of determining fluid milk prices. The producers' price will now be kept in line with the more important economic factors that influence production and consumption. Producers will be assured of an adequate fluid milk price which will encourage efficient production and will insure the making of long-time investments in buildings, equipment, and improved roughage.

An important part of the new formula is a provision for a seasonal adjustment in milk prices. During May and June when cows are on pasture about twice as much milk has been produced as during November and December. To encourage more uniform production of milk, the formula provides for a price decrease of 1 cent per quart in April, May, and June and a compensating increase of 1 cent per quart in October, November and December. This provision encouraged an increased production of milk last fall, resulting in an adequate supply of milk within New England to meet demand. In several previous years it was necessary during November and December to bring considerable quantities of milk into Boston from the Midwest at a considerably increased cost for milk.

The new formula has several outstanding advantages over the previous methods of determining fluid milk prices. The producers' price will now be kept in line with the more important economic factors that influence production and consumption. Producers will be assured of an adequate fluid milk price which will encourage efficient production and will insure the making of long-time investments in buildings, equipment, and improved roughage. This is important because serious consequences may result if milk is priced too high or too low over a period of time.

The new formula with its seasonal provision assures consumers an adequate supply of high quality milk throughout the year. Another important factor from the consumer's standpoint is the assurance that changes in prices paid producers are fair and equitable because they are based upon changes in economic conditions. Boston consumers know that milk pricing now is out in the open where all may see the specific reasons for changes in producer prices. If the formula calls for an increase, the producers promptly receive the extra price that is needed to maintain supply. If the formula calls for a decrease, consumers receive promptly a price adjustment that will help in maintaining milk consumption.

Another advantage of automatic formula pricing is that it eliminates the need for frequent public hearings to consider price adjustments. Such hearings are expensive and result in considerable delay due to the time involved in holding hearings, submitting briefs, and obtaining a vote of producers prior to a price change. Formula pricing helps in crystallizing industry opinion on what is a fair price and avoids much bitter nonconstructive controversy.

It is recognized that special conditions may develop temporarily that warrant a price change not provided in the formula. In such a case a public hearing may be held as under the previous setup to provide for the needed special price adjustment.

In the Midwest large quantities of milk are made into manufactured products such as butter, cheese, and canned milk. In these areas it is logical to base fluid milk prices on current prices for manufactured dairy products. In New England, however, only very small quantities of manufactured products are produced. The economic factors in the Midwest that affect the supply and demand for butter may be greatly different than the factors that affect the production and consumption of milk in New England. For this reason the new formula for fluid milk in the Boston Market is not determined on the basis of manufactured products as is the case with surplus milk.

Although the new formula has been in operation for slightly less than a year it has so far worked to the general satisfaction of Boston producers, distributors, and consumers. It is hoped that the new formula, with slight adjustments that may become necessary in the future, will do much to improve the problem of milk pricing.
Rail Executives—

To the impressive list of Maine men serving as railroad executives is added the name of Stanley G. Phillips '17 of Portland. He has recently been appointed chief engineer of the Boston and Maine and Maine Central Railroads. At the same time, James W. Wiggins '30 was named to succeed Phillips as maintenance of way engineer of the Maine Central and the Portland Terminal Company.

Starting his railroad career upon graduation, Phillips joined the Lehigh Valley Railroad as rodman. After serving with the 6th Regiment, Army Engineers in World War I, he returned to the Lehigh road in 1919. Following a brief period as track supervisor with the Central of New Jersey he entered the service of the Boston and Maine in 1929 as an assistant engineer, and in 1939 was appointed division engineer. In 1942 he assumed the position of maintenance of way engineer for the Maine Central.

Mr. Phillips' three children, Stanley G. Phillips, Jr. '42, Edward H. '44, and Saralyn '47, have all graduated from the University where they were outstanding students.

Since 1945 Wiggins has been assistant to the chief engineer of the Boston and Maine, Chauncey S. Robinson '11. His railroading career began following graduation when he joined the Erie. In 1933 he went with the Bangor and Aroostook as rodman and became assistant engineer of the Maine Central in 1936. In 1938 he returned to the B & A as superintendent of bridges and buildings and in 1940 was appointed principal assistant engineer. He joined the Boston and Maine as assistant to Mr. Robinson in 1945.

Mr. Wiggins is a member of Theta Chi.

Promotion—

The new head of the department and professor of Genetics of Iowa State College is Dr. John W. Gowen '14. His new appointment follows several years' tenure on the faculty of Iowa State which he joined in 1937.

Prior to his appointment to the Iowa faculty he had been an associate member of the Rockefeller Institute for ten years. From 1917 to 1926 Dr. Gowen served as biologist for the Maine Agricultural Experiment Station.

He was awarded his doctorate by Columbia University in 1917 after having received a master's degree at Maine in 1915. A member of Phi Kappa Phi, Phi Beta Kappa and Sigma Xi, Dr. Gowen also holds membership in several professional societies.

The Maine club of Lewiston-Auburn held its monthly meeting on January 20. Following a baked bean supper L. A. Lemieux of the Journal spoke on the work of the present Maine Legislature.

President Owen Stephens '17 presided at the pleasant affair which was attended by thirty alumni.

Director—

John C. Willey '35 has been named a director of the William Morrow and Company, Inc., New York publishers. Since 1946 he has served in the capacity of general assistant to the president of the Company. He is also a director and treasurer of the M. S. Mill Company of New York City.

Prior to his entry in the Army, Transportation Corps, in 1943 and from which he was discharged with the rank of captain in 1946, he has been an instructor in English at the University of Missouri. Following his graduation from Maine, he joined the faculty of Coburn Classical where he was submaster. He received his master's degree from Harvard in 1940 and in 1943 a master's degree in business administration from the same University.

A Phi Beta Kappa and Phi Kappa Phi, Willey was a Rhodes Scholarship candidate in 1935. As an undergraduate he was active on the Campus Staff and the Masque, of which he was president his junior year. He is a member of Sigma Chi.

In 1943 he married the former Fern Morrison in Columbia, Missouri.
Legislative Bills—

Now pending the action of the 94th Legislature are some bills of interest to Maine alumni, the most important of which is the appropriations bill.

On February 2, Dr. Hauck and a Trustee Committee appeared in a public hearing before the Legislative Appropriations Committee. The University officials explained why it was necessary to request an additional $300,000 for each year of the next biennium plus the regular Mill Tax appropriation. Dr. Hauck outlined plans for abandoning the Brunswick Campus next June.

As another reason for the increased appropriations, Dr. Hauck cited the need of increased faculty salaries. “We must have an improvement in our faculty salary schedule,” he said, “if we are going to keep or recruit competent people.”

There was no opposition to the request of the University. Supporting the request was M. L. Stoddard, Maine manager of the Veterans Administration, who stated, “I wouldn’t like to see any false economy to the end that the work at the University should lessen.”

The Recess Commission, appointed by the 93rd Legislature to study the establishment of a Medical College, has submitted an adverse report.

Dr. Clyde I. Swett ’27, chairman of the Commission, in his report said:

“We have no doubt that the initial capital investment would have to be at least $3,000,000, and some of our members think it would be twice that amount. The operating costs of such a school, beyond amounts received for tuition, etc., would mean an appropriation by the state at the very lowest of $250,000 per year.

“Without definite assurance that more doctors in Maine, for Maine, would result; with initial costs assuredly running into the millions, and operating costs at a very high rate; with a limited potential of development in the school, this commission doubts that the costs of such a school would be offset by the benefits which could reasonably be expected from it.”

The Commission expressed belief that a medical school located at Bangor as part of the University of Maine “would be very limited in its potential because the clinical facilities and teachers of medicine are obviously limited in that area.”

A bill has also been introduced to reestablish the Maine Law School. A similar bill was presented to the previous Legislature by the late James B. Perkins ’09L. The hearing on the bill at that time was before the Appropriations and Financial Affairs Committee which submitted an “ought not to pass” report. A resolve was then substituted for the report and was indefinitely postponed in the Senate.

The present bill was introduced by Senator Robert Haskell ’25 of Bangor.

Promotion—

Frederick Robie ’16 has been promoted to the rank of Colonel, USAF. He is now stationed at Craig Air Force Base, Alabama, where he is an instructor in the Military Management Division of the Special Staff School.

A veteran of the First World War, Col. Robie resigned as Secretary of State, Maine, a post he had held for five years, to join the Air Corps as a major. As a Lt. Col. in Military Government he spent almost four years in Europe. Since returning to this country he has served in various capacities which have resulted in his latest promotion.

His two sons, Frederick, Jr. ’40 and John ’42, both war veterans, and his daughter, Harriet ’40, are alumni of the University.

Track men of earlier years will regret to hear of the death of Tom “Red Demon” Keane who coached at Maine. Remembered as one of Maine’s outstanding track men, he had won many track championships himself, as well as having coached many Syracuse University teams to championships.

Presenting the New Alumni Trustee...

The appointment of Harold J. Shaw ’14 of Sanford as alumni trustee was confirmed by the Governor and Council in January. Trustee Shaw succeeds Harold M. Pierce ’19 of Bangor who declined renomination by the alumni. Mr. Pierce was first appointed as alumni trustee in 1937 upon the death of Hosea B. Buck ’93 and has served continuously since then. He has given unselfishly of his time and resources to the University during these years; many of which he was the only trustee in the Orono area and was thus called upon to spend countless hours on University affairs. Alumni are indeed grateful for his conscientious and generous services. As a token of this appreciation, he was awarded the Alumni Service Emblem last June.

Trustee Shaw, for several years a member of the Alumni Council, is currently vice president of the General Alumni Association. He has been president of the York County alumni and is chairman of the Union Building Fund in that area, as well as a member of the Union Building Fund Committee. He is also a member of the Agricultural Advisory Council of the University.

Owner of Shaw’s Ridge Farm, Mr. Shaw is recognized as one of Maine’s outstanding farmers and is nationally known for his herd of Holstein Friesian cattle, which has been the outstanding farmer-bred herd in the country. He has served as president of the Holstein Association of America and is a member of its Finance Committee with Mr. Owen D. Young. Individual Holsteins from the Shaw herd have brought as much as $2,000 at auctions. His other business interests include farm machinery, apple orchards and ice cream manufacturing.

In 1937 the University designated Mr. Shaw an outstanding farmer, and in 1943 awarded him the honorary degree of Master of Science.

In addition to his many business interests, Mr. Shaw has found time to serve on several important agricultural and civic boards. He has been the Maine member for agriculture for the New England Council, vice president of the Auburn Production Credit Association, chairman of the State Milk Control Board, and an officer of the Maine Milk Dealers Association. He has also been a member of the Maine Development Commission.

A devoted alumnus with a sound and comprehensive knowledge of both the state and the University, Mr. Shaw is a worthy representative of the alumni on the Board of Trustees.
C OACH George "Eck" Allen has resigned as head coach of football and basketball. His resignation takes effect at the end of the academic year and he has been released from further teaching during the spring semester.

Coach Allen joined the Maine faculty in 1941 coming here from Brown University where he had been backfield and basketball coach for four years. Previous to this he had coached at Parkersburg, Va. High School. As a quarterback at West Virginia he had for three years received All-America mention.

He entered the U. S. Navy following his first year at Maine, and after three years' service returned to the faculty. During his tenure as football coach he lost only three state series games, with one tie and eight wins. His teams won one state series title and tied for one. In basketball his teams won two state titles and gained a second place tie in 1946-47.

Allen introduced the T formation to the University. He succeeded Coach "Foxy" Fred Brice, long time football and basketball coach at Maine.

Following the close of this past football season, "Eck" entered the Leahy Clinic in Boston for the treatment of stomach ulcers which have plagued him for several months. In his letter of resignation to Dr. Hauck, he said, "I am convinced that the strenuous duties and constant pressures involved in serving as head coach in two major sports have recently been detrimental to my health."

Coach Sam Sezak '31, assisted by Dr. Rome Rankin, has handled the basketball team during most of the present campaign. E. E. "Tad" Wieman, director of athletics, has stated that the University hopes to select a new coach in time for spring football practice.

Coach Allen's resignation met with disappointment in Maine athletic circles for he had been regarded as a fine coach and gentleman. He had particularly impressed the alumni groups which he had addressed with his desire to have his players consider their studies before athletics. He leaves the University with the best wishes of a host of friends.

He and Mrs. Allen, the former Betty Bray (Paul D. '14), and their two daughters will continue to live in Orono for the present.

**Basketball**

The basketball team returned following the Christmas holidays hopeful of getting back into the win column after having lost two out of their first three starts. However, they were denied this as the list of scores below will indicate.

Mid-years called a halt to all games for a period of two weeks. Coach Sam Sezak '31, who was then given full charge of the team, was faced with the third round of state series and the second round of Yankee Conference play.

The game with Connecticut showed some improvement, with the Nutmeggers winning handily 58-29. However, Maine suddenly came to life in the eleventh game of the season losing a spirited performance to New Hampshire in the final seconds 52-51. Leading throughout the tussle, Maine saw their hopes dashed by two spectacular field goals just before the whistle.

Don Kelsey and Bert Goddard, brother of Maine's hard playing center, became eligible at mid-years and in their first game did much to put spark in the team.

The Bowdoin and Bates games saw Maine set a new state series record when both teams were held to but a single field goal in the first half. The Black Bears had suddenly come to life. Not only was Maine's new second semester 2-3 defense too strong, but their shooting had improved immensely. What had been poorly attended games previous to the team's new found strength at once became jam-packed.

It was a good omen for the remaining four games on the schedule with the Rhode Island encounter, always a stumbling-block for Maine, eagerly looked forward to on Washington's birthday. The team and students are anticipating a victory.

**Snowless Snowbirds**

Maine's winter sports team was one of the strongest in the east on paper and hoped to prove it on the snow. But snow up to mid-January in Maine was something Coach Ted Curtis '23 and his team dreamed about.

Early in the fall the team began training over the cross-country course and in the gym. They rounded in shape quickly, eagerly anticipating an early snow. As December wore on and the date of the Lake Placid meet came nearer, it was planned to go to the White Mountains for a few days practice. Again, no snow, but two days after Christmas the team left for Lake Placid. For the first time this year good skiing conditions were found and time trials were promising.

Then came the rain and the Lake Placid meet was washed out. The team came back to Orono to again train over the cross-country course in unseasonably warm weather.

After five cancelled meets because of the poor skiing conditions, the winter sports team entered into the season's first competition at the state open championships held during the Rumford Winter Carnival, February 5. Here the team showed up well with Ted Hawkes tying for first place in the downhill and Dick Dwelley ('Zeke' 25) placing second.

Dave Newton, Auburn, finished just behind three Olympic team members in the Cross Country.

In the Dartmouth meet, Bill Cummings, Auburn, sophomore, turned in a sterling performance with a jump of 44 meters, thus taking first place. The maximum distance for scoring had been set at 42.5 meters. He was accorded one of the greatest ovations “ever witnessed at a Dartmouth meet.”

The Maine team gained third place in the team score in jumping. With the top jumpers of the country and including Olympic jumpers in the competition, this score indicates real accomplishment for the Black Bears. Maine gained in sixth place in the meet.

* Maine score listed first.
ONLY $200,000 MORE TO GO

ONLY $200,000 needs to be subscribed to reach the goal of the Union Building Fund. This is proving an incentive to fund workers in all areas to renew efforts in seeking to attain the goal.

Alumni can look with pride on the amount already subscribed. It is a noteworthy achievement, but no alumnus will be satisfied until the “home stretch” drive has attained the last $200,000.

The $700,000 already subscribed is the largest amount of money ever raised at Maine for an Alumni project. It is a fine expression of the loyalty to the University of Alumni, students, faculty and friends. Many Alumni who have paid their original subscriptions are now continuing their quarterly payments. These Alumni give inspiration to the campaign.

There are many alumni who have not yet given their support to the fund. Campaign plans have been arranged so that an opportunity will be offered, between now and June, to every alumnus to generously and conscientiously assist. Upon the subscriptions of these Alumni rests largely the success of the “home stretch” goal.

It is the hope of Chairman Raymond H. Fogler ’15 that the remaining $200,000 can be subscribed by Commencement. With hundreds of alumni gathered on campus for Alumni Day, it would be a grand climax to this annual day of reunions to be able to announce that the task to which the Alumni Association had set their collective hand had been accomplished.

Dr. Hauck has characterized the Union Building as “one of the University’s greatest assets” (see page 2). Such a statement from one who for fifteen years has served as our president is indeed cause for every alumnus to share generously in this project. It has been suggested that no finer recognition of gratitude could be paid Dr. and Mrs. Hauck for their fifteen years at Maine than the successful completion of the Fund.

These years under Dr. Hauck have been ones of progress for the University. The many needed facilities have been accomplished save one—the Student Union—and this the alumni will do.

There is determination that this Memorial Union shall be erected in lasting memory to the 180 men who gave their lives and in tribute to the almost four thousand Maine men and women who served in World War II. That determination should be brought to an early fruition.

The Special Gifts division, under the chairmanship of J. M. Sims ’32, has already raised 89% of its $300,000 goal. Thomas Mangan ’16 is the latest area chairman of Special Gifts to reach the 100% mark in the quotas assigned.

Several other Special Gifts committees are confident of exceeding their goals in the near future, thus substantially reducing the $200,000 needed.

The Carolinas have shown rapid strides under the new chairmanship of Willis S. Winslow ’19. In an area where alumni are widely scattered, Mr. Winslow has demonstrated that it is possible without too much effort to meet alumni and discuss the Fund with them.

Mr. Winslow is hydrographic engineer for the North Carolina State Highway Commission. Prior to going with his present employers in 1923, he was assistant bridge engineer under the Delaware Highway Commission which he joined following graduation. A native of Waldoboro, he now lives in Raleigh, N. C. He and Mrs. Winslow have three children.

Further south two new key people in Florida, Voyle “Red” Abbott ’18 for the East Florida area and Harry Fogg ’15, Central Florida area, lead all areas with a 14% gain. These two men, by their enthusiastic work, will soon have Florida in the 100% column. A sizeable gift from a non-alumnus has helped the Florida goal and is a pointed evidence what alumni can do in assisting the drive and finding new friends for the University.

Mr. Abbott has continued to show the same aggressiveness that characterized his undergraduate days. Now with the Florida Greyhound Lines, he lives in Jacksonville. His business career began with Stone and Webster and later he became affiliated with the Florida Motor Lines. He was promoted to president of that company and now holds the same title of Florida Greyhound.

Harry Fogg lives in Eustis, Florida, with Mrs. Fogg (Mildred Flower ’5). He is an inspector for the State Plant Board of Florida and the U. S. Department of Agriculture. Always an enthusiastic alumnus, Mr. Fogg is among the distinguished group of alumni who have paid dues each year since the Alumni Association was reorganized in 1921.

The other three Maine colleges have fine Union Buildings. All but eight of the state universities and land-grant colleges of the country have Union Buildings.

THE MAINE ALUMNUS

FEBRUARY, 1949
Philadelphia alumni, at their meeting on January 28, elected the following officers: Harry Williams '15, president; George Ramsdell '30, vice president; and Lihwood M. Day '41, secretary-treasurer.

Miss Margaretta Warren '36, of the Burpee Seed Co., was speaker of the evening. Her talk described the development of new strains of flowers and vegetables and was illustrated by color slides.

Alumni of the St. Petersburg, Florida, area, formed an alumni club at a meeting in mid-January. Twenty alumni and guests were present at the first meeting which elected Miss Margaret Lovely '33, president; Sidney H. Winchester '11, vice president; and Mrs. John Glover (Edith Ingraham) '17, secretary-treasurer. The Club plans to hold monthly meetings.

Among those in attendance were Prof. William Barrows '02 and Mrs. Barrows, James Booth '10, Albert Drew '90, Earl D. Hooker '03 and Mrs. Small, Charles M. Watson '24 and Mrs. Watson, William B. Blaisdell '11, Howard W. Hayes '10 and Mrs. Hayes, Melvin H. St. Clair '13 and Mrs. St. Clair, Herman Mansur '05, and the above named officers.

Introducing . . .

Clifford G. McIntire '30 of Perham has been appointed a member of the Alumni Council to succeed S. Wilson Collins '19, resigned. Because of his appointment to the Board of Trustees, Mr. Collins felt it necessary to resign from the Council to which he had been elected for a three-year term in June.

Assistant general manager of the Maine Potato Growers, Inc., of Presque Isle, Mr. McIntire has long been prominently identified with agricultural affairs and particularly with the potato industry in Aroostook County. Since graduation he has been a grower of foundation and certified seed potatoes.

For many years he was an appraiser for the Farm Credit Administration. In 1947 Mr. McIntire joined the Maine Potato Growers organization in his present post.

Active in Aroostook civic affairs, he is a past president of the Washburn Rotary Club, treasurer of the Aroostook Farm Bureau, vice president of the Potato Industry Council and the Maine Federation of Agricultural Associations, and a director of the Executives Club of Presque Isle.

A past president of the Northern Aroostook Alumni Association, Mr. McIntire has a wide alumni acquaintance ship. He is a member of Alpha Gamma Rho, Alpha Zeta, Phi Kappa Phi, and Phi Sigma fraternities. He and Mrs. McIntire have two children, Patrice and Blynn.

TRACK

Chet Jenkins, veteran track coach, looked forward to the Intramural meet, as he trained men, for it would give him the first idea of the abilities of men under competition.

The Intramurals and Charles Rice Cup competition, run simultaneously, drew one of the largest crowds ever to watch the two days of events. Phi Eta Kappa repeated last year's performance by winning both competitions. In the Charles Rice scoring, Phi Eta was hard pressed by Off Campus, winning by only one point. Kappa Sig and Sigma Nu were runners up in the Intramurals.

Dick Knowlton '51, up from the Brunswick campus and running for Dunn Hall, was the most impressive of the meet. He won the two mile race and placed second in the 1,000 yd. run. John Bowler '52 scored wins in the Intramural 600 and 280.

Team scores for the Charles Rice competition were Phi Eta 30, OCUMMO 29, Phi Kappa Sig and ATO 10, Nor Dorms 9, Dunn 8, Sigma Nu 7, Beta 6, Lambda Chi 3, SAE 2, Kappa Sig 1½, Frosh 1. In the Intramurals, open only to non-lettermen, the scoring was in the following order: Phi Eta 32½, Kappa Sig 27, Sigma Nu 21½, SAE 18, Phi Kappa Sig 13, Beta 10, Phi Mu 9, Sigma Chi 8, Lambda Chi 5, ATO, Phi Gam, and Alpha Gamma Rho 3.

The only meet scheduled prior to mid-years was the K of C meet in Boston Garden in which Coach Jenkins has entered a team in the mile relay. The next dual meet will be on February 19 when New Hampshire comes to Orono.

In the K of C meet, Maine placed fifth of all New England colleges in the one mile relay on a time basis and second among the Yankee Conference teams.

The one mile relay team finished second to Rhode Island in the B.A.A. meet at the Boston Garden defeating Connecticut and Massachusetts, the only other teams in Yankee Conference competition.

Coach Jenkins had reason to be confident about the dual meets with strong teams from New Hampshire, Springfield, Northeastern and B. U. that complete the indoor track schedule.

Some alumni contend that the campus is at its loveliest under a blanket of snow. This Ted Newhall photo of the Administration Building, better known as Alumni Hall, gives strong support to that contention. The pointed firs and the towering elms, so typical of all of Maine, add much to the incomparable charm of the campus.
S.A.E. Honors Mrs. "Mac"

by Don Gross '49

Mrs. Edith McCollum, Sigma Alpha Epsilon's beloved "Mother Mac," who didn't intend to stay" when she walked through the fraternity's front door 25 years ago, was presented a silver tea set at a banquet honoring her service as house mother, Thursday evening, Feb. 10.

The motherly "Mrs. Chips" was presented the tea service by William Kendall, SAE president, a button sewn.

Master of ceremonies for the affair was T. Russell Woolley '41.

"Mac" was close behind with eight victories and one defeat. Dunn Hall #2 led in the White Division of the dormitory league with North Dorm #11 leader in the Blue Division.

Intramural hockey continued to gain fans. There is sentiment among the student body to have hockey become more than an intramural sport. There are seven teams competing in the hockey league this year. A hockey rink has been constructed to the east of the Field House. The traditional problem at Maine of the weather vs. the playing surface continues to bother the players, however.

In intramural competition for all-point scoring, Kappa Sig leads the fraternities with Phi Kappa Sig trailing by three points. These scores do not include basketball. Tau Kappa Epsilon and Phi Eta Kappa tied in interfraternity bowling.

Two fraternities have adopted the "Bowdoin Plan" of financing an education for foreign students. Phi Mu Delta and Sigma Nu were the first to adopt the plan discussed by the Interfraternity Council. They will pay the cost of a student's board and room in the fraternity while the University will pay the tuition and fees of not more than ten such students. Several other houses are also planning to make available an American education for some foreign student.

Intramurals

Intramural basketball at the halfway point in the schedule showed an improving caliber of play. Phi Mu Delta and Kappa Sig led the fraternity league, each with nine wins and no losses while Phi Gam was close behind with eight victories and one defeat. Dunn Hall #2 led in the White Division of the dormitory league with North Dorm #11 leader in the Blue Division.

Not so lucky are two Greek students already enrolled at Maine. They were recalled to their motherland to serve in the Greek Army. Many protests were submitted on behalf of these two who were good students and campus citizens; but their government was adamant, and they sailed from New York on a trip which one characterized as "going from heaven into hell."

The wheels, or campus leaders of various organizations, met with President Hauck on a Sunday night when he discussed with the students the problems of the University and its plans for the future. A fine piece of student public relations, such discussions do much to eliminate the gripes of students.

As final exams approached, The Campus interviewed Deans Cloke, Shibles, Deering (A. L.'33) and Murray (J. M. '25) on their opinion of final exams as a "fair means of judging a student's knowledge of a subject." Editorial comment accused the Deans of "bedging" in their statements, and so the subject will be pigeonholed in the desks of the students until the next examination period when it will probably break out in its periodic rash.

Examination and registration schedules were impatiently awaited by the students from the office of Registrar Jim Gannett '08. On them hung the important matters of how much vacation each would have. Those whose names began with A to Bak were first in the day registration period with names Bal to Bey the last. As ever, the examination schedule did not suit the wishes of any student and the time worn verbal arguments for a change "so that I won't have to stay here until the last day" began to plague the Deans.

The local chapter of Tau Epsilon Phi was announced by the National Interfraternity Council as having the highest scholastic average of any fraternity chapter in the country for 1947-48. Coming just previous to final exams, the announcement found brief fires of intent among the fraternities to raise their scholastic standing.

The Masque set the dates of March 16-19 for "Macbeth," the first Shakespearean production attempted since 1942. They were hopeful it would be the same success that was "Hamlet" in 1941, when the Masque presented the first complete collegiate presentation of that play and had to hang out the "SRO" sign several days before the opening performance.

The students watch the progress of construction of the new Engineering and Plant Science Buildings with more than a casual interest. They fully realize that without the completion of these two buildings by next September, classroom space is going to be at a premium and may result in longer class hours. Warm weather has allowed construction to go on at a faster rate than was anticipated, and with the shells of the buildings almost finished, there is every assurance that they will be completed during the summer.
NECROLOGY

1899

CHARLES HARRY WHITE. The death of Charles Harry White occurred on January 23, 1949, after a brief illness. He was a life long resident of Bangor, Maine, and had worked as a chemist for the Maine Agricultural Experiment Station, where he had served since 1918. He was a past director of the Frontier Trust Company in Fort Fairfield and a member of Blazing Star Lodge A.F. & A.M. in Rumford, Maine.

1903

RICHARD HENRY BERRY. Richard Henry Berry died on February 6, 1949, in a Waterville hospital where he had been rushed after being stricken with a stroke while working in the attic of his home. He was a graduate of Maine Central Institute and the University of Maine in 1901, at the time of his death he was working as a scientific aide at the Aroostook Farm of the Maine AES. He received a degree in Pharmacy from the University of Maine in 1907.

1907

REGINALD CARLTON GELLERSON. On February 1, 1949, Reginald Carlton Gellerson passed away in a Bangor hospital. He had been ill for some years. He was a graduate of the University of Maine in 1901. At the time of his death he was living in Pittsfield.

1919

WILLIAM HENRY ALLEN. William Henry Allen, principal of St. Croix High School in Woodland since 1929, died January 20, 1949, at the Calais Regional Hospital. He had been ill for two weeks with a heart ailment. He was a graduate of Hebron Academy and the University of Maine. After serving in World War I, he received his M.A. from Brown College. He was married and had three children.

1925

PAUL WESCOTT LIBBY. The death of Paul Wescott Libby, age 82, occurred in a Bangor hospital on November 15, 1948, after an operation for a cancer of the lung. He was a member of the Brownville Junction Masonic Lodge and of the Woodland American Legion Post. At the time of his death he was living in the Washington County Schoolmen's club and secretary of the committee preparing the coming intercollegiate basketball tournament. He was married to a former student at the University.

1942

CHARLES THOMAS KENISTON. Word has reached the Alumni Office of the untimely death of Charles Thomas Keniston which occurred in Urbana, Ill., on May 30, 1948. Death came two weeks after an operation for a brain tumor. Mr. Keniston was a veteran of World War II having served from June, 1942, to June, 1945, in the United States Army. He was active in community activities and had served as president of the Rotary Club. He was a graduate of the University of Illinois in Urbana studying for his Ph.D. in Physics, his chosen field of work.

BY CLASSES

1896

Stanley J. Steward, who has been out of the state for many years, has returned to settle down to enjoy life. He and Mrs. Steward are living in Dover-Foxcroft and have bought a house and thoroughly enjoying fixing it up. Now retired, Mr. Steward was for some time State Supervisor of Instruction in Vermont. During the war he was an instructor in the training program of the Sperry Gyroscope Company, Lake Success, N. Y. A son and a daughter have been students at the University—C. Weston Steward '29, and Evangeline (Mrs. David Shapleigh) '25. At present they have a grandson in attendance at the University.

1899

Frank M. Stimson's latest communication to the Alumni Office shows that he is living at 266 Washington St., Bath.

Next Reunion, June 1949

William W. Haney continues to be with the Eastern Underwriters Insurance Bureau, 111 John St., New York. His residence address is 251 W. 71st St., New York.

Mary Alden Hopkins, who had been writing for magazines and newspapers for some years, has retired and is living at R.F.D. #1, Bethel, Conn. She received an M.A. degree from Columbia University in 1909.

William A. Murray, who was formerly an engineer for the Maine Department of Public Works, is now living at Bar Mills, Maine. This move was reported to the Alumni Office earlier.

Edward E. Palmer is retired and living at 35 Hawthorne Rd., Braintree 84, Mass. He was for some time a sales engineer for the General Electric Company, 140 Federal St., Boston.

According to latest reports, Marcellus M. Vezzie is still Vice President of the Boston Insurance Company and Old Colony Insurance Company, 17 Battery St., Boston, Mass. His residence address is 112 Clark St., Belmont, Mass.

1903

Hollis W. Libby is in Salem, Oregon, where he is a civil engineer for the State Highway Department. During the war he served as a Lieutenant Commander with the United States Navy. Mail goes to Box 152, Rt. #2, Salem.

1907

Mr. Karl MacDonald, 27 Nelson Ave., Wellsville, N. Y.

John W. Emmons is a salesman and treasurer of E. F. Morgan Co., 87 Liberty St., Conners St., Boston. He resides on Washington St., N. Pembroke, Mass.

Stephen F. Pierce of 60 Brentwood St., Portland, writes that he has retired and is enjoying his leisure.

Ernest L. Toner is a representative for the investment firm of Bond & Goodwin and the Investor's Syndicate. His home is Oak St., Guilford.

Dr. Walter W. Black has retired from active practice as a surgeon in Portland, Oregon. Having received his M.D. degree from the University of Oregon in 1916, he has been in that state through
Next Reunion, June 1949

Clarence M. Weston, who is with the U. S. Corps of Engineers, is in charge of Clarks Hill Dam in Savannah, Georgia.

William T. Osgood sends in a change of address from Wilmette, Illinois, to 744 Minnesota, DeLand, Florida.

Next Reunion, June 1949

Frank Dow is Assistant Commissioner, Bureau of Customs, Washington 25, D. C. His residence address is 6405 Ridgewood Ave., Chevychase 15, Md.

Next Reunion, June 1949

William Hilton, who is vice president and general manager of the Great Northern Paper Company, has been elected to a three-year term as a trustee of the Eastern Maine General Hospital in Bangor.

Next Reunion, June 1949

Clifford H. George, who was formerly with the Puget Sound Power and Light Company in Seattle, is now manager of the Chelan Utility District #1, Wenatchee. Washington.

Clifford H. George was elected president of the Boston University School of Medicine Alumni Association and first vice president of the Boston University General Alumni Association. Dr. Barton holds the position of assistant professor of clinical surgery, Boston U. School of Medicine and is a visiting surgeon of the Massachusetts Memorial Hospital. He resides at 68 Colbert Rd., West Newton, Mass.

Next Reunion, June 1949

Mrs. Norma Torrey (Antoinette Gould) 9 Populant St., Bangor. Corporation of last October's item concerning Elizabeth Ring. She is not president of the New England Historical Society but rather she had the distinction of being invited to the Standing Committee of our own Maine Historical Society. 1948 was definitely a year in which Maine recognized in a tangible way the capabilities of some of her women, bestowing "firsts" upon them. Elizabeth is the first woman to serve in this capacity since the founding of the Society 120 years ago.

Again on the home front Clarence Beckett is probably doing some planning, too. He was appointed by the Governor to the Maine Development Commission. Clarence lives in Calais and is in the wholesale grocery concern of Beckett & Company, and was previously on the Governor's Council. What are the rest of you '23ers doing and planning? Write early and often to your class secretary, Toni Torrey.
1929 Miss Barbara Johnson 32 Orland St., Portland

Next Reunion, June 1949

Entry! Entry! Attention all 29ers! I had a letter recently from President Bob Parks asking me to ask you to mark up your calendars for our twentieth reunion June 10, 11, 12. Think of it, our twentieth! (Remember how we looked at the class of 1909 during our commencement week?)

Bob says for you to start arranging for baby sitters and polishing the old jalopy for even though a little hair (or lack of it) and weight might fool us for a minute, it goes without saying that everyone will feel right at home. Incidentally the classes of '27, '28, and '30, who were in school with us, will be holding their reunions, too. Bob would like to have any ideas for reunion sent to him. His address is Revolutionary Rd., Concord, Mass.

Weston Atchison is a fire insurance inspector in Burlington, Vermont. His residence address is 18 Adsit Court, Burlington.

Philip Marsh is a visiting professor of English at the University of Texas.

North Berwick, and is purchasing agent for the Hussey Manufacturing Company. Raymond W. Ernest of Brownville Junction was recently elected president of the Piscataquis Teachers’ Association.

Richard W. Holmes was recently elected president of the Parents Group of the Webster School in Orono.

Dr. Edward Blank was married last April to Miss Cyril J. Chertoff, formerly of Cleveland, Ohio. Miss Chertoff is a graduate of Flora Mather College (Women’s Division of Western Reserve University) and received her M.A. in child psychology at Yale. Mrs. Blank was engaged in child guidance work in Tucson and Phoenix preceding her marriage. Dr. Blank is a consulting psychiatrist at St. Monica’s Hospital in Phoenix and also for the city’s school system. The Blanks reside at 733 W. McDowell Rd., Phoenix.

Sarah Jane Thompson, science teacher in Edison High School, Mount Vernon, N. Y., is a member of the Selective Teachers’ Recruitment Committee of Gamma chapter of Delta Kappa Gamma, a national honorary teachers’ organization. Sarah lives at 21 Overlook St., Mount Vernon.

They have what it takes

TELEPHONE LINEMEN have the traditional Bell System spirit of service that aims to "get the message through." They also have what it takes in the way of equipment and supplies.

Their wires, cables, poles, tools and countless other things are provided by Western Electric—maker or supplier of practically everything used in your telephone service. We carry stocks of 31,000 different items to help all Bell telephone people, not only to do their daily job of maintaining and expanding telephone facilities but also to meet sudden emergencies.

- Western Electric has been a part of the Bell System for many, many years—ever since 1882. Our people share in the System's spirit of service. We, too, are always ready to answer the unexpected hurry call—to help "get the message through" for you.

MANUFACTURER of telephone apparatus for the Bell System.
PURCHASER of supplies for Bell Telephone companies.
DISTRIBUTOR of Bell telephone apparatus and supplies.
INSTALLER of Bell System central office equipment.

Western Electric

A UNIT OF THE BELL SYSTEM SINCE 1882
Lloyd Goodwin is chief chemist with the Maccon Kraft Co., Macon, Ga. His home address is 223 Hillridge Dr., Macon, Ga.

I’ll be looking for news before next month!

**1935**

Mrs. Thomas McGuire

(Agnes Crowley)

209 W. 106th St., Apt. 3-W,

New York

Hello, everybody—sorry to have missed the deadline last month. Guess it must have been the Christmas rush—or possibly the balmy December weather.

The other evening at the Ritz Carlton, the State of Maine Club met. It was very interesting, singing and talking with so many people who are State of Mainers at heart. There didn’t happen to be any ‘tasters’ there, but there were a few from the University. Of course Bowdoin and Colby were represented, too. The feature of the evening was a talk by Governor Payne. The new governor certainly knows the merits of the state, and if he is able to reach an audience like the one he had at the Ritz, Maine won’t be large enough to take care of all the people who will want to be there. Senator Smith was too busy being on the campaign, though the Senator was busy with her duties in Washington. It so happened that the particular business that delayed Senator Smith and eventually prevented her leaving Washington was the salary increase for President Truman.

Marion Eaton was at the dinner-dance, too. Marion is a State of Maine First celebrity—Marion had the first sailing school in the State of Maine. This summer she plans to expand even more. Her headquarters are to be at the Samoset Hotel, and her school will be there, too. Sounds very interesting.

And at Abraham Straus in Brooklyn, Velma Colson has had another promotion, too. Velma is now a buyer. I’m not sure you know that when you are in Abraham Straus, you’ll know for what to ask!!!

Stephen S. Marshall, Jr., is an engineer in the advertising business, still with an agency, and still plugging away at the first nine hundred thousand (marked down from a million.)

Ronald I. Mayo (‘37). Contrary to popular opinion, the bride did not wear a parka or carry a bouquet of icicles! The account ran true to bridal tradition and the young couple left by plane for a honeymoon in Seattle, Wash. They are now at home in Juneau, Alaska. The wedding occurred October 22, 1948. Our best wishes for your happiness and prosperity! The bride, a graduate of a Tennessee college, is employed in the office of the Veterans Administration. The groom is with the U.S. Geological Survey in Juneau.

I am looking forward to hearing from all of you in 1949. May it be the best year yet for each and every one of us.

It’s been nice writing to you and now your ‘37 reporter must say good-bye with whistling in Dixie!

**1939**

Mrs. Donald Huff (Ethelyn Parkman) 7 Penley St.,

R.F.D. #2, Augusta

Russell Gamage is a research engineer for Pratt & Whitney in East Hartford. His residence address is 324 Griswold St., Glastonbury, Conn.

Jim and Lillian Mitchell Cail have moved from Cumberland Mills to 1021 Grant St., Santa Monica, California. Jim is with the Evergreen, while in Maine. What is now, Jim? Johnny and Kay Cox Bennett returned from India about a year ago. Johnny is now with the Atlas Supply Company. Their address is Bldg. 6-B 3 Redfield Dr., Metuchen, New Jersey.

Joe Norma Thompson (Phoebe Dunbar) make their home at 87 Whipple Rd., Kittery. They have two daughters—Marion and Nancy.

The Smiths (Lura Stearns) and two daughters make their home at 28 Brooks Ave., Burlington, Vermont.

Merrill Bradford is associated with the law firm of Eaton & Folsom in Bangor. He and Mrs. Bradford live at 100 Ohio St., Bangor.

Have learned Bud Robbins’ address—133 So. Portage St., Westfield, N. Y. Also hear that he has two children—David and Nancy. Now how about letting us in on your occupation, Bud?

Wendell Smith is supervisor of the Belfast Office of the Farm Security Administration.

Clement Smith is engaged in farming in Monmouth.

Laura Chute Danforth (Mrs. Hazen) lives in Brewer where her husband operates a hardware store. They have one son.

Eunice Gale and Bob Colony were married recently. They are living in Portland.

Lucille Fogg Baldwin (Mrs. Robert) is living in Essex. Bob’s wife, where her husband is a dentist. They have two sons.

Mrs. Sumner Hancock (Betty Homans) is living in Casco. She has a son, Douglas—two years old.

Milton Jellison is associated with the Eastern Trust and Banking Co. in Bangor. He lives on Norway Rd. in Bangor.

J. Marianne Roberts Hathcock has moved from Hollis Center to 22 Weymouth St., Saco.

Tom and Barb Barker are now living on the River Road, Newcastle, Maine. Tom is still with the Federal Land Bank.
of Springfield and is doing only appra­aisal work now. Their son, Robert, is 8½ years old.

Gordon Chapman and Doris Little­field of Bangor were married this past summer at Sovereign Gra­dation Chapel. Gordon attended the U. of Vermont where he received his M.S.; he then attended Yale graduate school. At present he is an instructor in forestry at the University of Maine. Doris was graduated from the Eastern Maine General School of Nursing in 1947 and is now employed as a nurse in the Cushings veterans administration hospital in Framingham, Mass. The Chapmans reside at 1 Harris Rd., Apt. 23, Orono.

1940

Mrs. Edward R. Ladd (Peggy Hauck)
508 Talbot Ave, Rockland
Mr. and Mrs. Alvah Pangburn have a new son, Alan, who arrived on January 14, 1949. The Pangburns are living at 1 Pleasant St, Caribou.

Helma K. Ebbeson is doing graduate work at the U. of M. this year and is assistant house director of Barden Hall. Mrs. Otto Plequette (Phyllis Brown) has moved from Ocean Park, Maine, to 305 State Rd, Haverford, PA.

Robert Golden (formerly Robert Golden Andrews) is an osteopathic physician and surgeon in Springfield, Maine. He graduated from the Kirksville, MO, College of Osteopathic Medicine and Surgery in 1943. Prior to coming to Springfield to set up practice, he was Medical Examiner for the sunflower oil company in the oil fields around Valsa, Oklahoma. From 1944 to 1947 he was engaged in Public Health work under the Wartime Manpower Commission. He is now practicing private practice in Buxton, Oklahoma.

1941

Mrs. Vale Marvin (Hilda Rowe), Kennebec Rd., Hampden Highlands
Albert E. Leach who was formerly teaching at Cherryfield Academy, is now teaching in Buckfield, Maine.

Hartley Banton has been named first vice president of the Newport Kiwanis Club.

Mr. and Mrs. John Spinner (June Bridges) are living in University City, Mo. John is Department Manager of the Maryland Casualty Company. They have a daughter about a year old.

Kent Robertson is Sales Agent for the American Furnace Company in St. Louis, Mo. His wife, Betty (Mills College '45) is Fashion Director for Famous Barr Co., St. Louis' largest department store.

Bob Carlisle has been appointed a member of the newly created Planning Commission of the city of Ellsworth.

Hartley Banton is teaching at Shead Memorial High School in Eastport, Me.

Walter and Charlene (Perkins) Strang are teaching at Orchard School in Westport, Me. Walter attends the University of Maryland, Baltimore College of Dental Surgery, where he is a junior.

Dwight A. Brown is living at R.F.D. #1, Ellsworth Falls, Maine. He is in the Real Estate and Insurance business in Ellsworth.

Mr. and Mrs. William Alexander (Zoe Pettengill) and son, Charles, now 16 months old, left on last Sept. 16th for Honolulu, Hawaii. Bill '48 (originally class of '44) is associated with the Mutual Telephone Co. in Honolulu.

On November 27, Miss Alice M. Noyes became the bride of Harold L. Hamm at St. Mary's Catholic Church in Bangor. Mrs. Hamm was graduated from the Greenville Consolidated School and the Massachusetts Memorial Hospital School of Nursing. She was a member of the Army Nurse Corps for three years, serving with the Pacific Theater. She is now associated with Coffin and Wimple, Inc., Bangor. He and Alice will make their home in Bangor.

Cecil Woodbury went on a nice note from which I shall quote, "I left Sperry Gyroscope Co. last June where I was a project engineer and moved to Brock­haven National Laboratory, Upton, N. Y., where I am now. I'm in the Pile Opera­tions Division of Nuclear Science and Engineering. We are building an atomic pile down here. We have two children, Suzanne 5, and Julie 2½. We're twelve miles from the nearest town!"

Also a nice letter from Lib Emery Files, who tells us that Maynard has re­entered the army as a Major and is sta­tioned at Fort Preble, So. Portland. They are living at 15 Longfellow Rd, Cape Elizabeth, Me. Lib had heard from Betty Jones Benjamin that their son joined Roger there last September. Lib also had heard of an announce­ment from Tom Fairchild and his wife of their new baby—but in moving Lib misled the card and could not remember whether it was a boy or a girl. Congratulations to the Fairchilds! Please let me know which for future publications! And please keep writing all of your news—good-bye until next month.

Robert Golden (formerly Robert Gold­en Andrews) is an osteopathic physician and surgeon in Springfield, Maine. He sub­sequently attended the University of North Carolina at Chapel Hill and the University of Pennsylvania before being assigned to the Army and Navy Y.M.C.A in Shanghai, China. His work is that of program chairman. He goes to a meeting of representatives of national organizations and the Chinese government, and then attends to the business of the organization.

Eloise Simpson is teaching at Shead Memorial High School in Eastport, Me.

Joseph Crowley, but the successful John Bapt High School three-sport coach isn’t having any, thank you. And rumors are, he’s the Big of the coaching fraternity—and they insist his record proves it. In four years his Crusader football team had a 23-2 winning record, and a single tie. The Harps from the Heights of Broadway won the Penobscot Valley Conference championships two years of the four, went undefeated in 1946 and unbeaten against each season. Top it all off with a couple of mighty important deaths among arch-rivals, Bangor and Cheverus, and you see why the football faithful would vote Crowley if Nat ran for President. In three seasons of basketball, the Crowley cagers have made the PVC throne room a permanent residence ... a 17 and 3 record was best. Baseball had been a minor sport for much too long at Bapst, so

And so, additional congratulations to the Crowleys!

Joseph Crowley, but the successful John Bapst High School three-sport coach isn’t having any, thank you. And rumors are, he’s the Big of the coaching fraternity—and they insist his record proves it. In four years his Crusader football team had a 23-2 winning record, and a single tie. The Harps from the Heights of Broadway won the Penobscot Valley Conference championships two years of the four, went undefeated in 1946 and unbeaten against each season. Top it all off with a couple of mighty important deaths among arch-rivals, Bangor and Cheverus, and you see why the football faithful would vote Crowley if Nat ran for President. In three seasons of basketball, the Crowley cagers have made the PVC throne room a permanent residence ... a 17 and 3 record was best. Baseball had been a minor sport for much too long at Bapst, so
We shall end the column this month by paying tribute to two members of the class of 1945 who were killed in World War II. On November 10, 1948, committal services were held at Arlington National Cemetery, Va., for Pvt. Robert A. Brautigam, who had gone overseas in November, 1943, and was assigned to Headquarters Company of the Third Division, U.S. Army Infantry Regiment. He was wounded at Anzio and was in the hospital for four months. On August 15, 1944, he participated in the invasion of the Normandy Peninsula, and was killed August 28 while serving as a scout. Bob was awarded the Good Conduct Medal, three Battle Stars, a Bronze Arrowhead, the Combat Infantryman’s Badge, and a Second Purple Heart posthumously.

Committal services were held at St. John’s Catholic Church in Bangor on December 30, 1948, for Pfc. Charles A. Flanagan. Charles went overseas with the 334th Infantry of the 84th Division in September, 1944, and went into combat on the Siegfried Line on November 18th. On November 23rd he was killed while attacking a pill box near Beeck, Germany.

1946 Miss Therese Damais 104 Main St., Orono

That Christmas mail brought quite a bit of news from the class of ’46. I must confess that next-to-last column was non-existent in the December column of the Speech Convention in Washington, D.C., over Christmas vacation. But now let’s spend this time catching up on the changes that the new year may be bringing us.

I received a grand note from Betty (Perkins) Stubbins. “Perk” and “Steb” are living at 627 Pine St., LaCrosse, Wisconsin. “Steb” is working with the France Co. in LaCrosse, a heating and air-conditioning firm. “Perk” says they’ve made many friends and the note sounds as though they’re right at home in Wisconsin. Of course the best news was about Martha Louie—that October 29th add to the Stubbins family. Those very proud parents report that the off-spring now weighs 10 lbs. 5 oz. “Perk” writes that the baby looks just like Don.

Incidentally, Jeanne Ross Nelson, I am sending out an S.O.S. for your address—’46. I’ve lost it. Perhaps you may say: just a penny post card would do the trick, Jeanne. Of course, you could mention how the Nelson family is getting along!

Mary Witty Ambrose is still in Orono, although I haven’t seen her once. I understand the Ambroses have a growing family now.

Thanks to the Alumni Office we can catch up on a few changes of address. We reported that Geneva Butler was working at Mt. Desert Island Hospital in Bar Harbor. Her home address there is 11 Wayman Lane. Joseph A. Boyer, Jr., who is now a first-year student at Harvard Law School, is at 14 Chauney St., Cambridge 38, Mass. How are the studies coming?

We mentioned previously that Betty Jenkins was at Baker School. Brookline, Mass. The office sent along the information that Betty’s address in Brookline is 104 Main St., Orono. She is doing private duty nursing at the Eastern Maine General Hospital in Bangor.

We shall end the column this month by paying tribute to two members of the class of 1945 who were killed in World War II. On November 10, 1948, committal services were held at Arlington National Cemetery, Va., for Pvt. Robert A. Brautigam, who had gone overseas in November, 1943, and was assigned to Headquarters Company of the Third Division, U.S. Army Infantry Regiment. He was wounded at Anzio and was in the hospital for four months. On August 15, 1944, he participated in the invasion of the Normandy Peninsula, and was killed August 28 while serving as a scout. Apt. 1E, 202 Riverside Drive, New York 25, N. Y. I believe she is teaching school. Thanks loads, Winnie, for your news. Sure helps.

Cynthia Clark of Auburn is engaged to Dr. Harry J. Crocker of Boston. Cynthia has recently accepted a position at the Boston Lying-In Hospital. Dr. Crocker is resident physician at Pratt Diagnostic Hospital in Boston and is specializing in internal medicine.

Catherine Moses was married in December to Harold Marden of Albion. Katy is working at E.M.G.H. in Bangor from which she graduated in June. Her husband is a senior at Maine. Their address is 128 Hammond St., Bangor. Joanne Anthony is an instructor in mathematics at the University of Maine.

Eugene Mawhinney of Jonesboro, instructor in economics at the University, has written a Social History of Machias, prior to 1800 as his master's thesis. He received his M.A. in history at the February commencement exercises.

Mark Emery, Jr., is a special agent for the Insurance Company of North America. His business address is 922 Elm St., Manchester, N. H., while his home address is Box 104, Main St., Groton, Mass.

Ora L. MacDonald is continuing graduate study at the University of California.

Lewis Distant is now a Chaplain at Fort Banks, Winthrop, Mass. He was formerly minister of the Congregational Church in Sherman Mills.

Frank Duffin is working for General Electric in Schenectady, N. Y.

Robert Fischer is Assistant Ranger at Brush Creek Ranger Station, Medicine Bow National Forest. His mailing address is U. S. Forest Service, Ryan Park, Wyoming.

Marjorie Grant is a computer at the Langley Memorial Aeronautical Laboratory in Hampton, Va.

Irving Gray is a Ass't. Photographic Adjuster with the Liberty Fire Insurance Company in New Haven, Conn. His residence address is 103 Lindsley Ave., Meriden, Conn.

George Garland is a tailorman with the Arcata Timber Products Company in Arcata, California. His residence address is 1900 12th St., Arcata.

John Hamlin is at the University of Maine, a graduate student in Public Administration. He is living at 35 Vezzie St., Old Town.

Leonard Harlow is a reporter for the Bangor Daily News and is located in Rockland. His residence address is 45 Main St., Rockland.

Harland Hatch is assistant manager of the Houlton Van Company in Houlton, Maine. 12 Bowdoin St., Houlton is his residence.

Richard Krause is an electrical engineer with the Gould Paper Company, Lyons Falls, N. Y.

Conan Kornetsky is doing graduate work in clinical psychology at the University of Kentucky. His mailing address is P.O. Box 3164, U. of Kentucky, Lexington, Ky.

Lorna Fay Kramer is a social worker with the State Department of Health and Welfare, Division of Child Welfare, Bureau of Social Welfare with headquarters in Bath at 35 Front St., Bath. Her residence address is 67 Court St., Bath.

Stephen Knight is living at 193 Essex St., Bangor, and is a plant engineer at the Eastern Corporation in Brewer.

Arthur Levensailor is living at 300 Kensington Rd., Rocky River, Ohio. His work is that of a research engineer for the Comp. and Turbine Section of NACA and he is working with flight propulsion.

Mail for Guy Lewis goes to 266 Essex St., Bangor. He is working as an engineer for the State Sanitary Water Board.

Edward Little is working as an accountant with Gould & Smith, Inc., of Presque Isle, distributors of farm machinery and equipment. His residence address is 145 So. Main St., Presque Isle.

Bill Patterson is a physicist in the research laboratory of the Dressstrom Company in Lancaster, Pa.

Bill Rice is working toward his master's degree at the Yale School of Forestry.

If any of you who boasts himself a member of the class of 1948 would like a classmate's address, I should be glad to get it for you from the Alumni Office if it is available or perhaps from other sources. I'll make a bargain with you, though. If I get you a letter from you with some news in it. You can tell me if you're interested in the place where my news items aren't going to be handed out to me on a silver platter, and I'm going to have to depend on you people to be baby grapevines.

**FEBRUARY, 1949**
Prior to the war of the Revolution there was no court house or regular place for holding court in Portland. Sometimes court was held in the old town house at the foot of Middle Street. The second story of the old meeting house on India Street "was fitted up at the expense of the town as a court room," and served as such from 1746 to 1774. Occasionally court was held in the Widow Alice Greele's tavern, or in Freeman's Tavern.

In 1774 the town house at the foot of Middle Street was moved to Greele's Lane to make way for "a large and handsome new Court House." This building was to be 54 by 50 feet, with a belfry. It was uncompleted when the town was destroyed in the bombardment of 1775.

The frame for the first building to be used as a regular Court House was raised on the site of the present City Hall on October 3, 1785. It was 48 by 34 feet, with 20 foot stud posts, two stories high with a "roof so framed that a belfry could be added at some future time." The first floor was an open hall in which were kept the gallows and stocks and pillory, ready to be erected for use when needed. The second floor contained the court room and offices. The cupola, added in 1788, was surrounded by a gilded and hand-carved weathercock. Near the front of the Court House stood the whipping post with cross bars for securing the arms of the culprit.

In 1816 this building was moved to the upper part of Exchange Street to make way for a new brick Court House.

In 1948, enrollments in G-E courses totalled more than 21 thousand

To graduate engineers, including women, General Electric offers further study in its "Test" Course, in its A, B, and C Courses of increasing specialization in engineering problems, or in its Sales Engineering Program. Business administration and liberal arts students study the broad list of subjects provided by the Business Training Course. There are other courses for advertising recruits, chemists, stenographers. Young people without college degrees may enroll in the company's Apprentice Training Program, offering training in subjects ranging from blueprint reading to applied metallurgy. All in all during 1948, the company provided free instruction in 96 courses, taught by more than 500 instructors. Total enrollments numbered 21,482. By developing new skills and new talents, G-E employees improve their jobs and increase their contributions to the quality of General Electric products.
