## REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Cary:

In accordance with the school laws of Maine, I hereby submit my second annual report as superintendent of schools of Cary. The same elementary schools have been maintained the past year as the year before. Cary is fortunate in having local teachers who are capable of carrying on the schools so efficiently. Attendance has been very satisfactory. We are working towards a uniform system of textbooks, so that pupils moving from one district to another will still be using the same text books.

Our Health Program is being carried along again this year. Special rates are being given to all school children in regard to glasses and teeth. Our students in high school can have these rates as well as those in the grades.

In regard to repairs, very little was done last year. Wood putty was put on some of the windows in the Wilcox School and a stove was bought for the Skedgell. The Smith school is very much in need of repairs. Ceiling and walls need to be fixed. We need new blackboards.

These statistics are for the Fall Term ending December 1937.

School, Teacher	Terms	Salary	Enroll- ment	Aver. Attend.
	Experience			
Smith, Carrie Seamans	66	\$476.	22	17.03
Wilcox, Myra McClellan	57	476.	16	12.9
Skedgell, Clara Ingraham	12	510.	19	12.3

Our regular equalization fund for last year was \$120. This year we are receiving an additional sum of \$375.00. The law specifically provides that the equalization fund shall be expended for those purposes designated by the Commissioner of Education. Namely, lengthening of the school year, purchase of text books, reference books, teaching supplies and equipment. No part of the equalization fund can be utilized for reducing appropriations at the annual meeting of the town. Towns at their annual meetings in 1938 should make appropriations at least on a level with those made in 1937. Otherwise, they may forfeit any right to share in the distribution of equalization in December, 1938. In other words the entire equalization fund is to be devoted for the further improvement of educational efficiency beyond the present standards.

The text book, supply and repair accounts show an un-

expended balance. We would not have this balance if all school bills were paid.

We have the smallest number of tuition students in school now that we have had for some time. Two graduate in June and we expect three more to enter in the fall. Your school committee has increased the length of the school year to 34 weeks. This is because we are receiving additional funds from the state.

Your school committee recommends the following budget for the coming year:

Common Schools	\$700.00
Tuition	450.00
Text Books	75.00
Supplies	60.00
Fuel	120.00
Janitor	60.00
Repairs	100.00
Superintendence	100.00

In concluding this report, I wish to say that my work with you has been exceedingly pleasant during the past year, made so by your help and cooperation for which I offer my sincere thanks and appreciation. I desire also to thank the teachers and pupils for their courtesies and assistance.

Respectfully submitted,

FLOYD C. ROYAL,

Superintendent of Schools
