The First Newspaper

Portland's first regular newspaper was called the Falmouth Gazette and Weekly Advertiser. Volume I, No. 1, is dated January 1, 1785. Benjamin Titcomb and Thomas B. Wait were responsible for this endeavor, which continued from that date for some years after.

The first issue, which may be seen at the library of the Maine Historical Society, is of four pages, somewhat smaller than our present-day newspapers, but larger than what we know today as "tabloid" newspapers. It has a very deep masthead and three columns of type.

Even the first issue contained advertisements. One Abraham Osgood "from London" offers an assortment of "English Goods and Hard Ware to be sold FOR CASH CHEAP at his store on King-Street (now Congress)." In another, James Fodick "at his Store in Middle-Street offers an assortment of English and West-India goods, Philadelphia Bar-Iron, New England Rum per Barrell . . ." also for CASH.

Further on, William Pratt "from London has just imported in the brigantine John, a quantity of goods, for which cash will be given . . . inquire at the Store of Joseph McLellan and Son."

BUILDING WITH MAINE FOR 123 YEARS-

THE CANAL NATIONAL BANK OF PORTLAND

Main Office, 188 MIDDLE ST., PORTLAND, ME.
Branch, 14 CONGRESS SQ., PORTLAND, ME. Branch, 93 MAIN ST., YARMOUTH, ME.

COMPLETE FINANCING, TRUST & BANKING FACILITIES

Member Federal Reserve System - Member Federal Deposit Insurance Corporation
FOR the first time in several years affairs on campus might be termed "nearly normal." True, the enrollment on the Orono campus, but not for the University, is at a record number of 4370. The highest enrollment was in 1948 when both Orono and Brunswick had 4796 students.

There are still on the campus temporary dormitories, classroom and other facilities. Classes continue to start early and run until after five in the afternoon. There are crowded conditions in some quarters and the campus seems to be overflowing with students.

Finances, or rather the lack thereof, continue to plague the Trustees and the Administration. The raise in tuition effective this fall is barely sufficient to meet the minimum operating budget for which the 94th Legislature failed to appropriate enough money. Many of the desirable and necessary standards will have to wait—not an unknown circumstance.

There are many cheering signs signaling the end of the post-war period. All students are now at Orono with the official closing of the Brunswick Campus on June 31—a venture that was a definite success, enabling more than 2300 students to start their college education. A Freshman Week program of renewed vigor was under the direction of a faculty committee headed by Prof. Matthew McNeary. The All-Maine Women and the Senior Skulls had early last spring planned a program of indoctrination to the customs of the campus. These senior honorary groups, assisted by the Sophomore Eagles and Owls, did a commendable job in getting the Class of '53 off to a flying start. All freshman men are housed in the North Dorms with the '53 coeds assigned to East and West Halls.

Smaller classes, in many instances, make for better academic standards. The new Plant Science and Engineering Buildings and the remodelling of Coburn and Win-gate Halls will greatly enhance the instruction of students. These additions and changes, needed for many years, brighten the University's outlook immeasurably. Also heartening is the addition to the Library facilities of the large main reading room and the Bass Room, which until this year have been used for classrooms. Work is rapidly going forward in the conversion of these two rooms, thus giving more study space in the Library.

In spite of the large student body, there are evidences that this year's students more nearly meet the University of Maine average than for several years. The G.I. seems to be losing his diffident and casual attitude toward the Maine "Hello" and other traditions of the campus.

The Class of 1953 approached the freshman rules with enthusiasm. The blue "beanies" move in groups about the campus carefully skirting the lawns and "giving way" to upperclassmen under the watchful eyes and black spots of the Sophomore Owls and the blue stars of the Sophomore Eagles.

Football practice has had a large group of undergraduate spectators in fair and foul weather. Various campus organizations were off to a good start.

Because of limited dormitory space, about 50 freshmen were housed in various fraternity houses until upperclass pledging in early October. At that time, the upperclassmen will move into the fraternities and the freshmen into the dormitories.

The Bookstore is still the most populous daytime spot on campus, with the Snack Bar in Carnegie basement also a favorite rendezvous.

Alumni can have pride in the auspicious opening of the Eighty-Second year of their alma mater and the Sixteenth year under the able and inspiring leadership of Dr. Hauck.

A section of the Class of 1953 at the freshman assembly when Dr. Hauck welcomed them to the University. This was the twenty-sixth freshman week, a program originated at Maine and now almost universally adopted.

ACCORDING to announcements from the Office of the President, there are a number of new appointments to the faculty as well as promotions for former members of the faculty as the 1949-50 academic year begins. The newly formed department of Agricultural Engineering has as its head, Professor Frank W. Peikert, who will also serve as head of the department of Agricultural Engineering in the Agricultural Experiment Station. Miss Marion E. Rogers will take over as acting head of the Women's Physical Education Department to fill the vacancy left by the resignation of Miss Helen Lengyel '27 last June. And Mr. Franklin P. Eggert will head the Horticulture Department of the Agricultural Experiment Station and serve as Horticultural Specialist for the Agricultural Extension Service as he fills the position vacated by Dr. Chester Hitz some time ago.

The department of Agricultural Engineering was formerly combined with the department of Agronomy with Winthrop Libby '32 as its head. Prof. Libby will now head the Agronomy work and Prof. Peikert will be responsible for the teaching and research programs in agricultural engineering. Prof. Peikert is a native of California. He received a B.S. in Agricultural Engineering from the University of California in 1933 and a master of science in the same subject from Iowa State College in 1934. From 1934-1940 he taught and did Extension work at the University of Georgia. From 1940-1944 he served as a professor of agricultural engineering at Texas A. & M. College. Following that for a year he worked as development engineer for the Goodyear Tire and Rubber Co. in Akron, Ohio. During the last four years he has done teaching and research work at the Michigan State College.

Miss Rogers received her B.A. from the University of Maine in 1930 and her M.A. in 1936. She also holds a diploma from the Sargent School of Physical Education. For the past twenty-two years she has been a teacher in the University of Maine Women's Physical Education Department. During the last four years she has done teaching and research work at the Michigan State College.

Mr. Eggert graduated in 1942 from Cornell University and received his master of science degree from that institution in 1947. For the past two years he has served as an assistant at the Geneva (New York) Agricultural Experiment Station and he has been working for his Ph.D. He will serve the fruit growers of Maine through its Extension and Experiment Station work.

COLLEGE OF AGRICULTURE:

Dr. John M. Woodward has been appointed assistant professor of Bacteriology. He received his B.S. from the University of New Hampshire, his M.S. from Massachusetts State College, and his Ph.D. from the University of Kansas. He has served as a research assistant at Massachusetts State College, a junior chemist in the Massachusetts State Department of Health, and has been a research assistant at the University of Kansas.

New instructors in the College of Agriculture are: Mrs. Ingeborg MacKellar, B.S. Framingham (Mass.) State Teachers' College; Home Economics; and Jean E. Wallace, B.S. '48 and M.S. '49 of Maine, Entomology.

Promotions in the College of Agriculture are as follows: Gordon L. Chapman '39, from instructor to assistant professor of Forestry; Ralph F. Evans, from instructor to assistant professor of Animal Husbandry; Mrs. Mary Snyder, from assistant to associate professor of Home Economics; Dr. Harold E. Young, from instructor to assistant professor of Forestry; A Stanley Getchell '38, from assistant in Chemistry to assistant chemist in the Agricultural Experiment Station; Roland A. Struchtemeyer, from assistant to associate agronomist in the Agricultural Experiment Station; Moody F. Trevett, from assistant to associate agronomist in the Agricultural Experiment Station.

COLLEGE OF ARTS AND SCIENCES:

Promotions in the College of Arts and Sciences are as follows: Henri A. Casavant, from instructor to assistant professor of Romance Languages; Dr. Herbert J. Edwards, from instructor as assistant professor of English; Dr. Clarence R. Hatch, from instructor to assistant professor of Romance Languages; Alfred G. Pellegrino, from assistant to associate professor of Romance Languages; Dr. David R. Trafford '39, from instructor to assistant professor of History; Dr. Louis A. Vigneras, from associate to full professor of Romance Languages; Dr. Robert M. York, from assistant to associate professor of History.

SCHOOL OF EDUCATION:

Dr. Garland B. Russell has been named as associate professor of Education. He received his B.S. degree from Brown in 1933 as well as his A.M. from that institution. He holds a Doctor of Education from Boston University. He has been successively a high school instructor in Cranston, R.I., principal of the elementary-junior high school, Grafton, Mass., and superintendent of schools in Dracut and Westborough, Mass. During the past few years he has taught at University of Maine Summer Session.

Robert E. Schreiber of Macomb, Ill., has been named Director of the Audio-Visual Service. He received his B.S. degree from Northwestern University in Chicago and his M.S. from the U. of Illinois. He has had experience as a teacher in secondary schools, supervision of audio-visual aids and instructor in radio Stephens College; research associate, audio-visual center, U. of Chicago; instructor in audio-visual aids, U. of Chicago; and has been extension teacher in audio-visual aids, Indiana University. He is the author of several articles on audio-visual education and has edited two publications dealing with audio-visual work. He will also serve as an instructor in Education.

Miss Mary T. Hayes will serve as an instructor in Education. She received her B.E. from the University of Vermont, and her master of education degree from Boston University.

MILITARY DEPARTMENT:

Lt. Col. Leslie Staub, A.B. U. of Kansas, will serve as assistant professor of Military Science and Tactics. He replaces Col. Richard Healey '38, M.A. '42, who has been assigned duty in Germany.

COLLEGE OF TECHNOLOGY:

Dr. Richard E. Durst is a new associate professor of Chemical Engineering. He received his B.S. from Otterbein and holds a Ph.D. from Ohio State. He has taught at Otterbein, served as a refining chemist in Columbus, Ohio, and has been a research associate at Ohio State University.

New instructors in the College of Technology are as follows: George A. Bjornson, B.S. M.I.T., Electrical Engineering; Carl Blake, B.S. and M.S. M.I.T., Electrical Engineering; (Continued on Page 14)
CAMPUS CHANGES

Dreams of almost twenty years of the administration were realized this fall with the opening of the new Engineering and Plant Science Buildings. Biennial reports of the deans of the Colleges of Technology and Agriculture have for many years pointed out the pressing need of the facilities these two new buildings provide.

While the lack of finances precluded all the desirable facilities, the minimum essentials are included. Some alumni will be disappointed that the engineering building does not have the anticipated tower for the old Wingate Bell or that both buildings have flat roofs or that the Horticulture Building was not moved so that the new Plant Science Building does not face on the south mall. However, all alumni will rejoice that these two new buildings are available for the benefit of the academic program.

The new Engineering Building, located just north of Crosby Hall and directly in front of the Shops and Foundry, will provide quarters for Dean Cloke and the administrative offices of the College of Technology, the departments of Civil Engineering, Mechanical Engineering, Geology and Geography, and the Maine Technology Experiment Station.

The moving of the above departments to this building made room for other desirable changes. Wingate Hall now provides for the Departments of Astronomy as well as the fast growing Industrial Cooperation Department under the direction of John Calkin '28A.

Where Prof. Trefethen and the Geology staff moved from second floor Fernald, quarters were made available for the Department of Journalism which was formerly located in East Annex, a temporary building to the east of Stevens Hall.

The new Plant Science Building made many changes possible in the College of Agriculture. Departments moving into this new structure include Agronomy, Forestry, Botany and Entomology, and Horticulture, including the same and related departments of the Experiment Station and Extension Service.

The newly created department of Agricultural Engineering will occupy the space vacated by the Agronomy Department in the Agricultural Engineering Building.

In Winslow Hall, Bacteriology and Biochemistry will take over the rooms formerly assigned to Forestry, while the Extension Service will succeed Biochemistry in the basement.

Formerly known as the Horticultural Building, the brick structure connected to the greenhouses will henceforth be known as the Poultry Building and will house the teaching staff of that department. In January, the Department of Animal Pathology will move to the new faculty quarters in the new Animal Pathology Lab on which construction was started in early September, that department will temporarily be in the former poultry building.

Wingate Hall has undergone extensive repairs during the summer and will now be used entirely by the Zoology Department. This change was made possible by the moving of Wildlife Conservation to East Annex and Botany and Entomology as previously explained.

With the several moves detailed above, it was possible to move the Engineering Drafting Department, headed by Prof. Ben Kent '12, to East Annex. For the past few years the main reading room and the adjoining Bass Room, given in memory of Joseph P. Bass by Mr. and Mrs. Harold M. Pierce '16, have been used for Engineering Drafting. The interiors of these two rooms are now being completed. When these two rooms are finished, all the space originally intended for strictly library purposes for the present will have been completed.

Only then can alumni appreciate the full beauty of a Library which they have made possible. Had it not been for this fine alumni contribution, it would have been impossible for the University to have offered such splendid educational facilities during the past few years.

The Bass Periodical Room mentioned above is given in memory of Mr. Joseph P. Bass, long a distinguished citizen of Bangor, and publisher of The Bangor Commercial. This room in the north will be comfortably furnished and is intended more for light reading than study. It will be the only room in which smoking is permitted.

The main reading room extending along the front of the Library on the second floor is three stories in height with a vaulted ceiling. Bookshelves will line the walls except for the southeast corner where a reference desk will be located. An impressive room, not only because of its size but also for its light and cheery atmosphere, it will add greatly to the study facilities of the Library. It will increase the student capacity of the library by 35%.

ALUMNI MEETINGS

Oct. 5 Boston Alumnae Ninety-Nine Club 99 State Street—6:45 p.m.
Oct. 6 Portland (Maine) Alumnae B. P. W. Clubroom—8 p.m. Meeting the first Thursday October through June
Oct. 27 Teachers' Alumni Association Hotel Windsor, Bangor—6 p.m.
The Maine Club of Auburn—Lewiston

Every Friday 12 noon
Boston Alumnae Thompson's Spa
239 Washington Street

Robert F. Thurrell '15 and Mrs. Thurrell were hosts at their beautiful Cotton Mountain farm home to the Southern New Hampshire Alumni Association. An annual affair, this picnic was well attended.

Dr. and Mrs. Hauck were among the guests as was Fred D. Knight '09, member of the Alumni Council and Miss June Kelley '12, former Council member.

On August 14 Vermont alumni held an enjoyable picnic at the home of Anne Thurston Henderson '25, Quechee. So successful was this summer meeting that another is planned for next summer.

Harold Pratt '21 reports that the alumni picnic held at Sabbath Day Lake in the summer.

Boston alumni continued to hold their regular Friday luncheon meetings throughout the summer. Visiting alumni are invited to join these informal meetings each Friday noon at Thompson's Spa.

Alumni of Nu Epsilon Chapter of Phi Mu Delta observed their annual picnic at China Lake on August 7. Nearly one hundred alumni and guests were in attendance. A long established custom, the picnic drew alumni from scattered areas.

Alpha Gamma Rho, Psi Chapter, held its annual summer field day on August 21 at Sabbath Day Lake. About one hundred guests were present for the lobster dinner. Among those in attendance were Mr. and Mrs. George Findlen of Fort Fairfield. Mr. Findlen was made an active member of the fraternity last year. Nine of the Findlen children have attended the University.
Freshman Week—

For the first time since pre-war years a full-fledged Freshman Week was held this fall. The newcomers appeared on campus on Thursday, September 15, and the special activities for getting acquainted and becoming indoctrinated with the ways of the campus extended over the ensuing five days. The official count of freshmen is set at 777, a figure which is somewhat smaller than it has been for the past three years (the 1948 figure was 1043, or 266 more than this year). It is a happy thing to note, however, that the University family of classes is again intact on the Orono campus after three years of having the majority of the freshman men on the Brunswick campus.

Professor Matthew McNeary was the overall director of the Freshman Week Program. The freshmen were divided into 30 divisions of approximately 25 each. Two upperclass student leaders and one faculty counselor were assigned to each division. Upperclassmen on hand to give this assistance were the Senior Skulls, All-Maine Women, Senior Residents, Proctors, Sophomore Owls, and Eagles.

Joe Murray, Jr. (Joseph M. ’25, Frances Kent ’28), was Master of Ceremonies for the dinner and reception which was the kick-off activity on Thursday night.

Friday was Registration Day and program conferences were scheduled for Saturday and Monday. Conferences with the Deans of the respective colleges, conferences with advisers, meetings with the Dean of Women and the Dean of Men all came at some time during the 6-day period. Psychological tests and other educational examinations, chest x-rays and health examinations all added to the temporary confusion besetting Mr. and Miss Freshman. On the whole this opportunity to get preliminaries taken care of and get a little bit used to the campus and its ways before upperclassmen with their know-how appear on the scene is a much to be desired asset for the Freshmen.

It was not all work and seriousness though. There was a social calendar, too. On Friday night President Hauck welcomed the class at a get-together in Memorial Gym. On Saturday there was a picnic on the Athletic Field followed by a social in the Memorial Gym in the evening. Sunday there were church services in the morning and at night a sing was held in the Women’s Gym (originally scheduled for the Library steps, but rained out). On Monday night President and Mrs. Hauck held Open House for all freshmen with the Deans of the various colleges and their wives assisting in receiving.

Tuesday the onslaught of upperclassmen began and the Freshmen had to relinquish the “keys of the kingdom” which they held for almost a week. By Friday books had been bought and assignments which seemed heavy were staring everyone in the face, freshmen and upperclassmen alike.

Acknowledgments

Several alumni and friends have contributed items of historical interest to the University collection in recent months. These are much appreciated and it is hoped that these generous gifts will inspire other alumni to forward memorabilia to the Alumni Office.

Lawrence E. Philbrook ’16 has given his “M” book complete with pictures, clippings, programs and other items typical of a college scrapbook. Already this book has become a valuable source of information covering the period 1912-1916.

The Olympic uniform of Don Favor ’34 has been added to the sports trophies in the M. Chamberlin Pierce Room in the Memorial Gym. Now in the photography business in Brunswick, Don gave this uniform at the request of T. S. Curtis ’23, faculty manager of athletics.

Mrs. Charles Gibbs of Concord, California, has sent us the autograph book of her late husband, Charles Gibbs ’79, C.E. ’84, who died last year. Included are the signatures of the faculty and students of an early class—what was then known as the Maine State College.

Prof. Ben Kent ’12 has given pictures taken during his undergraduate days of several athletic teams and student organizations.

Valuable additions have been made to the ATO file in the University collection through pictures given by C. Parker Crowell ’98. Walter L. Ellis ’98 of Southport, has contributed some early pictures including one of the locomotives which was built in Scotland in 1835 for the Bangor, Old Town, and Milford Railroad and was scrapped in 1867.

Third Generation Frosh—

Left to right: Robert Osborne (Sidney ’23, Albert L. Whipple ’04), South Deerfield, Mass.; Lorraine Harvey (Kingdon ’30, Ermine Davis ’32, Chandler C. Harvey ’30), Fort Fairfield; Nancy J. Kelley (Linwood J. ’21, Florence Morrill ’21, Stephen Morrill ’00), Lewiston; Phyllis A. Armes (Fred D. Armes ’27, Fred W. Armes ’99), Topsham.

NOT PICTURED: Charles M. Plummer (Clinton A. ’09, Charles F. ’78), Portland; William B. Smith (William H. ’31, Margaret Whitcomb ’34, Beecher D. Whitcomb ’96, Rena (Dunn) Whitcomb ’98), Brookville, Pa.
SUMMER SESSION

Each passing year seems to bring greater activity to the University of Maine campus during the summer months. The regular summer session plus the many and varied groups which choose the University as a place for their meetings keeps things humming practically all summer.

Registration figures quoted at 1,437 students set a new record for the summer classes which are conducted on the campus. This number includes the workshop registration as well as those taking the full six week instruction. One hundred and seventy subjects were offered with a teaching staff of forty resident and thirty-seven visiting faculty. Workshops had many outside experts come to speak on special subjects. A busy program of recreational activities was carried on under the direction of Miss Eileen Cassidy. Trips to various points of interest in the eastern part of the State, a sports program, weekly dances, assembly programs featuring outstanding speakers and talented musicians—all contributed to a well-rounded six weeks of work and fun for the 1949 summer session.

Eight special three week courses offered during the first three weeks of summer school covered the following subjects: Social Studies in the Elementary School, Principles of Business Education, Communication Arts in the Secondary School, Junior High School Curriculum, Flexibility in the Elementary School, and Measurements in Business Education. Then, during the last three weeks of the session, workshops in secondary, elementary, and music education were offered.

During July a Driver Education course was conducted with nineteen persons enrolled—sixteen of whom were Maine school teachers. This workshop is designed primarily to aid high schools in establishing a course in driver education and is arranged in cooperation with the American Automobile Association. These courses in driver education and training have come to be in such demand throughout the country that there is difficulty in many sections in finding teachers who are trained to give instruction. At present only the surface of this type of course has been scratched with only about one-fifth of the nation's 26,000 high schools now providing driver instruction. Officials are predicting that before long most high schools in the country will have instituted such a course as one of vital importance to the welfare of every community.

A section dealing with Health Education was included in the Elementary and Secondary School Workshops this year. The purpose of this project is to provide an opportunity for school administrators, health supervisors, classroom teachers, and school nurses to get an overall picture of the school and community health program as well as furnish assistance in solving individual school health problems. Experts in various subject matter fields were brought to the campus in order to achieve this overall picture. Seven local health associations awarded scholarships to school teachers and administrators in order to enable them to attend this special workshop.

The first annual Character Education Workshop was held from August 1-5. It was designed for public school teachers and administrators, parents, staff and volunteer leaders of character building agencies, religious education workers, pastors, and other interested citizens. This workshop was sponsored by the Board of Character Education and Accredited Bible Study, Department of Education, State of Maine in cooperation with the School of Education, University of Maine. Resource leaders included personnel from the elementary and secondary workshops, officials of the Maine Department of Education, and religious leaders of the state.

From August 8-12 a workshop for School Secretaries was held. We quote Dean Mark Shibles of the School of Education to describe the need and purpose of this feature. "With the ever increasing responsibilities of the school administrator, more duties have been allocated to efficient secretaries. The secretary in the modern public school, in order to fulfill her role successfully, must understand the place of education in today's society, have knowledge of the organization and administration of schools, understand human nature, and be thoroughly acquainted with modern and up-to-date business practices." The workshop was designed to orient school secretaries to this point of view. Secretaries and clerical assistants employed in the offices of superintendents, school principals, directors, and other administrators were invited to attend.

An Institute of International Affairs was held on the campus on August 1-2. Two general assemblies, four panel discussions, and a series of exhibits comprised the program. Professor Robert York, of the University of Maine faculty, was chairman of a committee in charge of the program. Attorney James N. Hyde, U. S. representative on the United Nations General Assembly, and Professor Bruce C. Hopper, of the department of Government at Harvard University, were the highlight speakers of the Institute. Panel discussions were on these subjects: International Relations, International Economic Problems, Europe, and Latin America.

Summer session came to a close on August 12 with sixty-eight persons receiving bachelor degrees and thirty-seven master's degrees. Those graduating were entertained at a dinner given by the General Alumni Association preceding graduation exercises. Mr. Russell I. Thackrey of Washington, D. C., Executive Secretary-Treasurer of the Association of Land Grant Colleges and Universities, was the Commencement speaker.

Homecoming Nov. 4-5

Summer Camps—Along with other summer activities "camps" for civil engineering majors and for forestry majors are a part of the agenda. The purpose of the camps is to provide practical experience and training in the respective fields to round out the theoretical knowledge acquired in regular classroom procedures.

Civil Engineering Camp has its headquarters on the campus. Professor Weston Evans '18, who is in charge of the camp says, "Perhaps the best thing about it is that the young men learn how to do a good day's work," for classes began early and sometimes lasted into the evening. Then there was homework to do. The types of surveying included in this year's work were highways railroads, various forms of precise surveying, plane table work with maps actually made in the field, and stream gauging to determine the flow of water. Several inspection trips were conducted. A complete survey of the Appalachian Mountain Club property at Echo Lake was a special project undertaken at the request of the club. Plans are to make a complete map of the property based on the results of this survey. Seventy-five junior engineers participated in this summer camp.

The University's 17,000 acre tract in Indian Township, Washington County was the scene of the Forestry Camp for which sixty-five forestry majors were enrolled. The main purpose of this camp is to give the students practical training to enable them to take charge of forest land and manage it for perpetual production. The students live in log cabins, prepare meals and maintain the camps. The training includes measuring logs, trees and stands of timber; preparation of maps; building of woods roads; maintaining profitable forests; forest protection and conservation. Each year the forestry majors make records of the life history of trees located in some twenty sample wood-lots.
Television—
Waldo M. Libbey '44, assistant professor of electrical engineering at the University, demonstrates the ingenuity of the Yankee as he teaches television to his electrical engineering students without benefit of a textbook. Since available textbooks are obsolete, Prof. Libbey sifts his classroom material from current technical periodicals. He is thus teaching the technical principles of television by means of his own lectures and associated demonstrations and managing to give his students up-to-the-minute information of the field of television which they are interested in getting into.
A complete television camera with its associated amplifier as well as a receiver are available for demonstration purposes in one course. Technically this is called an iconoscope, and although not the latest type, it is adequate to demonstrate the principles of a modern television system.

Two New Honoraries—
Last May two new honorary societies were installed on the campus. They are Pi Kappa Delta, national forensic society, and Sigma Pi Sigma, national physics honorary. Among faculty members who were named charter members of the latter society were Clarence E. Bennett, professor of physics; Charles B. Crockett, professor of physics; Jonathan Biscoe, associate professor of physics; George E. Maxim '43, instructor of physics; Victor H. Coffin '31, instructor of physics.

United Nations—
Information on the United Nations will be available to organizations throughout the state during the current school year through the efforts of a group which has been organized on the campus. Composed of several campus organizations, plans are to list and file all material received at the University from the United Nations information service in order that it may be available to civic organizations in the state. The group also plans to have speakers and debate teams available for talks before organizations interested in United Nations affairs. Dr. Robert York, assistant professor of history, and Dr. Frank Foster, professor of education, are the club advisers.

Book Store Scholarship—
In July announcement was made from the Office of the President that the University Store Co. had established a $15,000 scholarship endowment fund, the income from which will annually provide three scholarships for undergraduates on the basis of "character, scholarship, service qualities of leadership and personality, and financial need."
The scholarships will be known as the "University Store Company Scholarships" and will be awarded to one senior, one junior, and one sophomore. Recipients will be selected by the University Committee on Scholarships.

Bray Memorial Plaque—
William E. VanVoorhis '49 of Saugerties, N. Y., was elected in June by seniors and graduate students of pulp and paper technology to have his name inscribed on the Paul D. Bray Memorial Plaque. Mr. VanVoorhis was chosen on the basis of "character, scholarship, and fortitude." This plaque hangs in Aubert Hall and was given by students in pulp and paper technology in 1948 in memory of Paul D. Bray '14, former head of the department.

Foreign Students—
Six new foreign students will be found among registrants at the University this fall. These six young people are here under the "Bowdoin Plan" under which fraternities, sororities, or other campus organizations furnish room and board and the University accepts responsibility for tuition and special fees. Five of these new students are living in fraternity houses and one woman is living in a dormitory. At the fraternity houses these men will enjoy the same house privileges that members and pledges do.
According to University rulings only ten foreign students could come in under this plan in a given year. In addition to the six already mentioned there are two foreign students who have been here previously and are returning this year. An effort was made to fill up the ten places, but qualified people did not come along at the proper time to be included.
Seven fraternities had signified that they would be willing to take care of a student. Five of these have them—namely, Phi Gamma Delta, Phi Mu Delta, Sigma Nu, Lambda Chi Alpha, and Sigma Chi. The other two are Alpha Tau Omega and Sigma Alpha Epsilon. The women students will live in one of the women's dormitories, and she is being brought in with assistance from women students and the local branch of the A.A.U.W.
The foreign students are Hans Werner Bür, Baden, Germany (Lambda Chi Alpha); Mogen Knochel, Herlufsholm, Denmark (Sigma Chi); Steffen Middelboe, Copenhagen, Denmark (Phi Mu Delta); Hans Jochen Schirrmann, Gravenwiesbach, Germany (Phi Gamma Delta); Artur Schoedel, Weissenstadt, Bavaria, Germany (Sigma Nu); and Nicole Jose Lyse Moatti, Boulogne-sur-Seine, France (women's dormitory).

Homecoming Nov. 4-5
The newest addition to the dormitories is located in the field in front of Balentine close by the road that is the south entrance to the campus. Not yet officially named by the Trustees, the dormitory has been designated New Dorm 3, it having been the third dormitory in the postwar construction program. Planned as a women's dormitory, it is for the present being used to accommodate the heavy enrollment of men.
A dining room is not included, for Estabrooke and Balentine Halls were considered to provide ample facilities to care for the needs of New Dorm 3.
Union Building Fund Report

More than 11,000 alumni, students, faculty, and friends have subscribed almost three quarters of a million dollars to the Union Building Fund. While this amount is short of the $900,000 goal, it is a remarkable evidence of faith in the University and appreciation of a need.

During the summer months active solicitation for the fund was delayed pending decision of the Union Building Fund Committee upon further efforts to raise the balance of the fund. Despite the inactivity, many additional contributions have come from alumni whose pledges had been paid in full and who wished to assure the success of the campaign. It is hoped that other alumni will extend their pledges.

The Union Building Fund Committee will meet in Portland, October 16 for full consideration of the campaign and plans for construction which is contemplated will commence in the spring. This meeting will follow one with Chairman Raymond Fogler '15 and the Executive Committee of the Board of Trustees on October 1.

As a result of the action of the General Alumni Association at its annual meeting last June when opposition to any building being erected on the proposed site of the Union Building was expressed, it is necessary before actual building plans can be prepared by the architects that the Trustees, with whom the final decision rests, approve a site. Other important problems in this connection must be discussed with the Trustees for the guidance of the Union Building Fund Committee in its discussions.

Hope was expressed by Chairman Fogler last June at the Alumni Banquet that construction could start early in 1950.

HOMECOMING

November 4-5

Meet Your Friends at the Homecoming Luncheon

Friday, November 4
Maine Resources and their Development
Speakers and Seminars
Junior Varsity Football Game
The Big Rally in the Gym, Bonfire and Skull Stag Dance
"M" Club Meeting

Saturday, November 5
Dedication of the New Engineering and Plant Science Buildings
Freshman Football Game
The Annual Homecoming Luncheon Bowdoin – Maine Game
Tea Dance
Fraternity Open Houses

You won't want to miss it this year
Manager—
John R. Gowell '38 has recently been appointed manager of Sales Forecasting for the General Electric Company's Air Conditioning Department. In this position he will be responsible for the development of sales forecasts and schedules, and the coordination of product requirements with production.

John R. Gowell '38
He goes to this important position from one with the management firm of Booz, Allen and Hamilton. Previous to three years service in the Navy, Mr. Gowell was with the Remington Arms Company in Denver and Bridgeport as assistant to the vice president. At the close of the service he returned to this Company where he remained until March 1947.

President of his class both as an undergraduate and an alumnus, he was one of Maine's outstanding track men and his record in the state meet for the discus still stands.

Hospital Administrator—
Named as administrator of the famed Elizabeth Kenney Institute in Minneapolis is Leroy N. McKenney '20, M.S. '42, of Duxbury, Mass. One of the outstanding institutions in the country for the treatment of polio, Mr. McKenney's appointment is considered an important one.

During the past year he has been administrative resident at Lowell General Hospital, Lowell, Mass. A veteran of both World Wars, he holds a master's degree from the University of Minnesota in hospital administration and an honorary degree from Dartmouth. Mr. McKenney has also completed advanced studies at Columbia, Boston, and Harvard Universities, and has taught in schools in Maine, New Hampshire, and Mass.

Mrs. McKenney and their two children plan to take up residence in the fall in Minneapolis, moving from their summer home at Duxbury, Mass.

A Maine the Long Way for--
Percy R. Keller '01, Linwood Kelley '21 and Joseph Chaplin '21, who were named by Governor Payne to the newly created State Board of Education.

Clifford G. Chase '04 on his reappointment to the Maine Sanitary Water Board of which he is chairman.

Harold J. Shaw '14, H. '43, newly elected vice president of the Holstein-Friesian Association at a meeting in California.

Myron C. Peabody '16, recently named Executive Vice President of the Federal Land Bank.

The newly elected president of the Vermont Society of Engineers, Harold Durgin '24.

The officers of the Class of 1925 and their early plans for their twenty-fifth next June.

Beverly P. Rand '37, Sherman Mills dairyman, the Green Pastures Contest winner in New England.

The many, many alumni who have been married during the summer. Best wishes from the Maine family.

Those alumni sons and daughters of the Class of 1968 whose names you will find in the Personals columns.

Old Friends—
Teacher and pupil met in entirely different circumstances from their original meeting when the session of Somerset County Superior Court opened recently. It was Clerk of Courts William L. Waldron '06, '08L, who with pride sat in front of the bench as a former student, Granville C. Gray '16L, took his place as Superior Justice.

More than forty years ago Mr. Waldron was principal of Brewer High School and from which Justice Gray was graduated in 1912. From Brewer Mr. Waldron went to Lee, Mass., High School, but decided to return to his love, law, and moved to Aroostook County where he practiced for six years. He then served as a lawyer and judge of the Municipal Court in Pittsfield for 20 years. In 1946 he went to Skowhegan as Clerk of Courts.

Prior to being named to the Superior Court this year, Justice Gray had for many years been a member of the state Industrial Accident Commission and for the past several years as its chairman. He had formerly been judge of the Presque Isle Municipal Court.

Long prominent in Masonic circles, Justice Gray is Grand Master of the Masonic Grand Lodge of Maine.

Vice President—
Alton T. Littlefield '21 has been elected a vice president of Central Maine Power Company, one of New England's largest public utilities.

Joining the Securities Department as a sales representative upon graduation, Mr. Littlefield has steadily advanced through the positions of advertising manager, director of publicity, director of public relations, general commercial manager to manager of division of operations in 1947. As a vice president, he will continue to direct the operations of the Company's five divisions.

A member of the Alumni Council for three terms and the Council Executive Committee several years, Mr. Littlefield has served the Alumni Association in many capacities.

Married to the former Pauline Hathorn '23, both the Littlefield children, Mrs. Marian Littlefield Hussey '47 and Elizabeth '51, have attended the University.

Previous to the announcement of Mr. Littlefield's new post, Central Maine Power had promoted two other alumni to responsible positions.

Hugh R. Pettee '22 was named superintendent of transmission with Steven Mank '31 succeeding Pettee as transmission engineer and reporting directly to him.

A native of Sullivan, Pettee has been with C.M.P. since graduation. In January 1946 he was appointed assistant superintendent of transmission. His new duties will include general supervision of the transmission system.

Janet, the Pettees' only child, is an outstanding member of the senior class and is president of the All-Maine Women.

Steve Mank, a letterman in track and winter sports, upon graduation worked with the U. S. Geological Survey and later for T.V.A. before joining C.M.P. as an assistant engineer.

Director of Agencies
Promoted to Director of Agencies of the Union Mutual Life Insurance Company, Robert C. Russ '34 will supervise that company's some 11,000 agents and brokers in 33 states.

Mr. Russ joined the Union Mutual in 1947 after several years experience with some of the country's largest insurance companies. He has been for the past several months assistant director of the post to which he has just been elected.

During World War II he served as a communications officer with the 7th Fleet and later was attached to Gen. MacArthur's Tokyo headquarters.
Resident Doctor—

Dr. Percy A. Leddy, New Haven, Conn., has been named director of the University Health Service and University physician at the University. For a number of years he has had a general practice at Northeast Harbor during the summer months.

The appointment of Dr. Leddy to the position of University physician marks the first time that the University has had a full-time doctor on the campus. Herefore the doctor who has served as director of the health service has devoted part of his time to this work and the remainder to his own private practice.

President Hauck pointed out that the University has long felt the need of a full-time physician, and that an expected record enrollment on the Orono campus this fall made the naming of a resident doctor particularly urgent at this time.

Dr. Percy A. Leddy, New Haven, Conn., has been named director of the University Health Service and University physician at the University. For a number of years he has had a general practice at Northeast Harbor during the summer months.

He became first assistant physician in the Student Health Department at Yale University in 1928 and was named physician in 1935. In that same year he was named physician-in-chief of the Yale Infirmary and associate professor.

During 1948-49 he was associate physician at the University of Connecticut.

Dr. Leddy has also served on the staff at the Bar Harbor hospital during the summer months since 1928.

THE MAINE ALUMNUS 12
OCTOBER, 1949
COACH DAVE NELSON opened pre-season practice September first with fifty-five candidates for the 1949 Black Bear football team. All went well for a few days until the injury jinx rode on to the campus. The first and most damaging injury came when Phil Coulombe '50, All-Maine fullback for the past two years, broke his ankle. One of the hardest running players on a Maine squad for many a year. Phil was expected to fill a key role on the backfield this year.

Ed McDermott '50, veteran center, was forced to give up football after about a week of practice because of a stomach ailment. Charlie Loranger, an outstanding back on last year's team, was also lost for the season due to a head injury.

Harry Easton '52 of Winchester, Mass., up from the Brunswick Annex team, was sidelined for several weeks. Next on the list was Ray Hackett '51, a promising tackle, Dick Reilley '50, a letterman, was injured and it is doubtful if he will see action this season.

While these serious injuries were taking place there were a number of lesser bruises and bumps which kept the infirmary ward well occupied and the coaches from putting together a good working combination.

One of the most intensive pre-season campaigns that a Maine team has experienced in several years was managed by Coach Nelson, his assistants Mike Lude and Hal Westerman, and ably assisted by Phil Jones '19, Sam Sezak '31, and Artie Clark '50, a letterman but ineligible because of the three year rule.

Two full sessions a day covering all phases of the game were on the schedule with additional blackboard and individual instruction in the evening. This 1949 team may not be on the winning end of too many games, but at least alumni can be assured that it will be well trained and coached.

Team Captain
For the first time since 1930 Maine will have a full season captain. This change was voted some time ago by the Athletic Board. Acceded the honor of captain is Don Barron '50 who has earned his letter as guard for the past three seasons. Known for his Fue play in the line, he came from Deering High where he played a lot of football. A Business Administration major, Barron's education was interrupted by service in the Navy. He is a popular leader on campus having been a member of the Men's Senate and Sophomore Owls and is a Senior Skull and president of his fraternity, Kappa Sigma.

LAND Harnden, Wilton; George Reed, Portland; Eugene O'Brien, Bangor; Richard Packard, Livermore Falls; and Clinton Tripp, Fryeburg.

Douglas Morton, Presque Isle, a letter winner in 1947, but not able to run last year because of an injury, has been working out on the course.

In addition the veterans will be bolstered by Richard Dow, Livermore Falls, number one man on last year's freshman team; Robert Eastman, Fryeburg; Dave Brackett, Melrose, Mass.; Roger Bailey, Portland; John Bowler, Bangor; and I. Hutchins, Fort Fairfield.

FALL SPORTS SCHEDULES

VARSITY FOOTBALL
Sept. 24 Rhode Island at Kingston
Oct. 1 Springfield at Orono
Oct. 8 New Hampshire at Durham
Oct. 15 Univ. of Connecticut at Orono
Oct. 22 Bates at Lewiston
Oct. 29 Colby at Waterville
Nov. 5 Bowdoin at Orono
(Homecoming)

JUNIOR VARSITY FOOTBALL
Oct. 14 Maine Central Inst. at Pittfield
Oct. 21 Freshman at Orono
Oct. 28 Maine Maritime Acad. at Orono
Nov. 4 Coburn at Orono

FRESHMAN FOOTBALL
Oct. 15 Hebron at Orono
Oct. 21 Junior Varsity at Orono
Oct. 29 Higgins at Orono
Nov. 5 Bridgton at Orono

VARSITY CROSS COUNTRY
Oct. 7 Bates at Orono
Oct. 10 Univ. of New Brunswick at Orono
Oct. 22 Univ. of New Hampshire at Durham
Nov. 1 Maine Intercollegiate Championship at Augusta
Nov. 7 New England Intercolligate at Boston
Nov. 21 I.C.A.A.A.A at New York

THE COACHES—Sam Sezak '31, John Cuddeback, Dave Nelson, Mike Lude, Hal Westerman, and Art Clark '49
Robert B. Marsh '30
Is Polio Victim

A victim of polio, Robert B. Marsh died on August 9 in Minneapolis after a week's illness. The Marsh family was heavily hit by the disease, for a daughter, Lucy, and a son, Larry, were also stricken. Both children are expected to recover. Two other children, Dan and Marilyn, escaped possible contagion because they were at summer camps.

On August 14 memorial services were held for Mr. Marsh in Excelsior, Minn., where the Marshes reside. It was requested that flowers be omitted since it was felt that gifts to create a fund for the Elizabeth Kenny Institute of Polio Research in memory of Mr. Marsh would be a much finer way for friends to show their sympathy and interest. Gifts to support this fund may be sent to Mrs. John Marshall, Excelsior, Minn.

Mr. Marsh graduated from the University of Maine 1930 having majored in Forestry. He joined the U. S. Forest Service working in Virginia, Mississippi, and Texas. It was while he was in Mississippi that he met and married Miss Martha Page of New Orleans, La. Shortly after their marriage they went to Minnesota and have lived there ever since where Mr. Marsh was an Executive with the Page and Hill Company, manufacturers of pre-fabricated houses.

During the years that the Marshes lived in the Minneapolis area, Mr. Marsh became well-known and made a host of friends. He will be greatly missed by all who knew him. He is survived by his widow and four children, a brother, James B., of New York, and two aunts, Mrs. Howard F. Kane and Miss Alice V. Bailey of Machias.

Alumni Watch Winners

Voted to "have done the most for the University during their college careers." Kathleen R. Kennedy, Bucksport, and Ralph E. Barnett, Augusta, were awarded the Portland Alumni Memorial Watch and the Washington Alumni Association Watch, respectively, during Commencement exercises.

The two valuable watches are presented annually by the Portland Club of University of Maine Women and the Alumni Association of Washington, D.C., to one woman and one man in the graduating class who, in the opinion of the students and the University administration, have done the most for the University. The awards are made as a result of a secret ballot by the students, passed upon by the president and the administrative committee.

Miss Kennedy is the daughter of Mr. and Mrs. Cleveland H. Kennedy, of Bucksport. She has majored in speech.

She has been on the dean's list for three semesters, and served as president of Balentine Hall during her junior year. She has been active in debating, serving as vice president of the Debate Council in her junior year. She also received her second year debating jewel this spring.

During her senior year she has served as president of the Women's Student Government Association, a member of the Social Affairs Committee, and Maine Day Committee.

She is a member of Alpha Omicron Pi, Sigma Mu Sigma, and the All-Maine Women Society. A sister, Alice Virginia, is a junior at the University.

During his sophomore year Barnett was a member of the Athletic Board. In his sophomore year he was president of the sophomore class, vice president of the Men's Student Senate, member of the General Student Senate, varsity football manager, member of the Athletic Board, Sophomore Owls, and a proctor.

In his junior year he was president of his class, vice president of the General Student Senate, assistant head proctor, and a member of several important student committees.

This year he has been president of the senior class, president of the General Student Senate, senior member of the Athletic Board, stockbroker in the University Store Company, head proctor, a member of the Senior Skulls, and a member of a number of student committees.

He has majored in civil engineering and plans to do graduate work in town management at the University next year.

He is the son of Mrs. Marguerite Barnett of Somerville, Mass., but has for the greater part of his life made his home with his aunt and uncle, Mr. and Mrs. Perley Hanks of Augusta.

Faculty Promotions

(Continued from Page 5)

Promotions in the College of Technology are as follows: Kenneth G. Crabtree, from associate to full professor of Electrical Engineering; Dr. Robert T. Hart, from assistant to associate professor of Chemistry; James F. Bailey, from associate to full professor of Mechanical Engineering; Andrew J. Chase, B.S. Maine '49, Mechanical Engineering; Andrew J. Chase, B.S. Maine '49, Chemical Engineering; Dr. Robert D. Dunlap, B.A. Colgate, M.S. and Ph.D. Penn State College, Chemistry; Frank C. Holden, B.S. Maine '43, M.S. Harvard, Mechanical Engineering; Vernon McFarland, B.S. Maine '49, Electrical Engineering; Dr. Nils K. Nelson, B.S. Missouri School of Mines and M.S. and Ph.D. U. of Illinois, Chemistry.

Promotions in the College of Technology are as follows: Kenneth G. Crabtree, from associate to full professor of Electrical Engineering; Dr. Robert T. Hart, from assistant to associate professor of Chemistry; John Lewis '43, from instructor to assistant professor of Chemical Engineering; Kenneth L. Parsons '34, from assistant to associate professor of Electrical Engineering; Dr. Edward F. Thode, from assistant to associate professor of Chemical Engineering.

Not new to the University at large but new to the Orono Campus are the following people who have been on the teaching staff at the Brunswick Campus: assistant professors, Albert A. Barden, Jr., Zoology; Everett H. Nason '40, Engineering Drafting; Frederick B. Oleson, Physics; Capt. Stephen E. Andrews, Jr., Military Science and Tactics; Capt. John T. Mullaney, Military Science and Tactics. Instructors, Neil W. Allen, Jr., History; Charles E. Bybee, Chemistry; Kenneth W. Davidson, Physics; Benjamin F. Graham '43, Botany and Entomology.
WALTER WAITS TILL WEBBER. Sudden death came to Walter "Ike" Webber while he was visiting friends in Orono July 25, 1949. For the past four years Mr. Webber has been retired from work and living in Auburn. Prior to that he was purchasing agent for the Maine Seaboard Paper Co. in Bucksport. For some time he was a research chemist for the Brown Co. in New Hampshire. He was a member of Beta Theta Pi fraternity; he was a 32nd degree Mason and a member of various other groups.

RALPH HUBERT CAHOUET. Following a brief illness Ralph H. Cahouet of Cohasset, Mass., died August 14, 1949, at Boston City Hospital. He was a member of the Boston law firm of Hale, Sanders, Burns, and Morton. He served as general counsel for the State of England Motor Rate Bureau and was considered one of the nation's outstanding authorities in the field of transportation law. In addition to his interest in the University of Maine, he also took law courses at Harvard and Columbia Law Schools. He was a member of the federal as well as the state bar. He was always active in many organizations and served presidencies in the Boston Chapter of the association of Interstate Commerce Commission Practitioners and the Boston Trade Association Executives group. He was a past trustee of Derry Academy in Hingham and a former New England regional attorney for the National Labor Relations Board.

ERMONT GETCHELL FROST. A belated report of the death of Ermont G. Frost has reached the Alumni Office. He died November 14, 1947, in Springvale, Maine. We regret that further details are lacking.

ARTHUR MOSHER CLOU D MAN. On August 8, 1949, Dr. Arthur M. Cloudman died in Chicago where he had been since 1947 as senior medical resident in the Jackson Memorial Laboratory in Bar Harbor as a pathologist. He was at one time assistant editor of the "Bulletin" of the American Cancer Society. He received his Ph.D. from the University of Michigan. He was a member of Alpha Gamma Rho fraternity.

RICHARD SPA LDING HODSDON. A mid-air crash of two naval planes during carrier practice landings near Mayport, Fla., brought death to Lieutenant Robert Lancaster, pilot of one of the planes. Cause of the crash was not known, but it was a cloudy day and visibility was poor. Lt. Lancaster flew some 70 missions in the European Theater of Operations during World War II and was shot down twice during that time. He held many of the outstanding decorations of the U.S.A.F. for distinction in the line of duty. Lt. Lancaster was based at Mitchel Field at the time of the fatal accident. He was married to the former Janie Hopkins of Veazie and they had one small daughter.

WALTER J. M OR RIL. Following a long illness came to Walter J. Morrill at his home in Ft. Collins, Colorado, on August 22, 1949. Mr. Morrill had been a member of Lambda Sigma since 1905 but prior to that he was a member of Phi Beta Kappa, Alpha Sigma Phi, and M College forensics department and a former state forester in that state. He was largely regarded in that area for the work which he did in his lifetime in the field of forestry. He held a master's degree in forestry from Yale University. He was a member of the Metropolitan 4-H Club, Rotary Club, and a member of the American Foresters Association. During his college years he was a member of Kappa Sigma fraternity. Interment was in Parkersburg, W. Virginia.

ARTHUR MOSHER CLOU D MAN. On August 8, 1949, Dr. Arthur M. Cloudman died in Chicago where he had been since 1947 as senior medical resident in the Jackson Memorial Laboratory in Bar Harbor as a pathologist. He was at one time assistant editor of the "Bulletin" of the American Cancer Society. He received his Ph.D. from the University of Michigan. He was a member of Alpha Gamma Rho fraternity.

He was married to the former Janie Hopkins of Veazie and they had one small daughter.

BY CLASSES

1899 George P. Gould has been elected president of the Maine Association of Clerks of Courts for the coming year. A meeting of the group was held in July in Bangor.

1895 Frank L. French has retired from active work and is living in Burlington, Maine. He formerly lived at 52 Elizabeth Ave., Bangor.

1898 Clarence E. Watts, ME '03, has retired from his work as a mechanical engineer with the Berwind White Coal Mining Co. in Windber, Pa. He retired at 1005 Cambria Ave., Windber.

1937 ROLF BROWN MOTZ. Rolf B. Motz died on May 2, 1949, in Portland, Maine. He was superintendent of schools for Cumberland, Cape Elizabeth, Falmouth, and North Yarmouth which position he had filled since 1942. Prior to that he was principal of Mt. Desert High School in Somesville. He will be remembered there for his excellent basketball teams which often attained championship levels in small schools tourneys even though the school is among the smallest. His love of basketball and his ability to deal with young men brought this sort of achievement about.

1944 RICHARD SPA LDING HODSDON. A mid-air crash of two naval planes during carrier practice landings near Mayport, Fla., brought death to Lieutenant Robert Lancaster, pilot of one of the planes. Cause of the crash was not known, but it was a cloudy day and visibility was poor. Lt. Lancaster flew some 70 missions in the European Theater of Operations during World War II and was shot down twice during that time. He held many of the outstanding decorations of the U.S.A.F. for distinction in the line of duty. Lt. Lancaster was based at Mitchel Field at the time of the fatal accident. He was married to the former Janie Hopkins of Veazie and they had one small daughter.
Mrs. Herbert P. Mayo took an extended trip by motor to California.

Dr. Leonard H. Ford has retired as Bangor's city physician. His retirement was effective July 1st. He had held that position since 1943.

William A. Murray of 13 Kenilworth St., Portland, subscribed to a Life Membership in the Alumni Association in June when he was on hand for the 50th reunion.

1912 Dean and Mrs. Arthur Deering traveled to Fayetteville, Arkansas, this summer where the Dean gave a three-weeks' course at the Regional Extension School for Southern workers at the University of Arkansas. Subject: "History, Philosophy, and Objectives of the Extension Service.

An August newspaper item revealed that Rep. Frank Fellows of Bangor sailed August 26 for Europe on the Queen Mary for an extended tour of displaced persons camps in Germany and Italy. The trip was to last more than a month. This was Congressman Fellows' first trip outside of the country and his first tour as a member of Congress. London, Paris, Frankfurt, and Rome were on the list of places to be visited in the course of business.

In June 1949 the Maine Agricultural Experiment Station published a Bulletin written by William (Bill) Schrump entitled "Practices, Costs, and Tuberculosis in Digging Potatoes in Aroostook County, Maine."

Dr. Forrest B. Ames has just completed a term as president of the Maine Medical Association.

Dick Huntington, who is Editor of the "Hotel Management" Magazine, traveled up the coast of Maine this summer, a trip on which he reports in his magazine.

1914 Paul W. Morrison is Sales and Advertising Manager of the B. A. Ballou Co., manufacturers of products, in Providence, R. I. His residence address is 22 Keene St., Providence.

Harold J. Shaw, former vice president of the Holstein-Friesian Association at its annual meeting in California the first week in June, Theodore W. Haskell, vice president of the Merchants Warehouse Co., Boston, spoke on warehousing and advertising on the campus before a class in advertising last spring on the Maine campus.

Rosemary Brennan Doyle (Mrs. Joseph E.) is living at 66 Rossi Ave., San Francisco 18, Calif. She has been teaching at a private school there since 1948.

Raymond H. Fogler has been elected to the board of the Council of the Industry Association of New York, Inc.

At the annual meeting of the Charlestown Five Cents Savings Bank Lewis O. Barrows was elected a new member of the corporation. He is secretary of the Liberty Mutual Insurance Co.

Arthur L. Davis has a new address—71 Longhill St., Springfield, Mass.

Clarence E. Libby of Syracuse, N. Y., and head of the department of Pulp and Paper Manufacture at New York State College, received a professional degree in Chemical Engineering at the June Commencement exercises at the University of Maine.

Myron C. Peabody has been named Executive Vice President of the Land Bank, which serves the farmers of the eight northeastern states. He has been vice president and secretary of the institution for the past few years.

Herschel S. Libby received a Doctor of Education degree from New York University. He is Superintendent of Schools in Irvington, N. J.

Mrs. John Glover (Edith Ingraham) returned to Maine from Florida in June in time for Commencement activities. Her son, Frederick, was a member of the graduating class. She left for a visit in California shortly after graduation time.
Claude L. Sidelinger was elected treasurer of the Board of Trustees of Monson Academy in July.

Col. Joseph G. Phillips, who was promoted to Chief Engineer of the Maine Central and Boston and Maine Railroads earlier in the year, has moved from Portland to 99 Ashington St. Marblehead, Mass.

William G. Wahlenburg is a silviculturist in the research branch of the U. S. Forest Service's Southeastern Forest Experiment Station in Asheville, N. Carolina.

Col. Joseph A. McCusker, Inf., ORC, is Administrative Officer of Regiment "D," 132nd Infantry Training Center, New York City. He is Executive Vice President of the United Military Hospitals, president of the Associated Manor of Winthrop, head of the department of Civil Engineering at the U. of M., and president of the Maine Society of Civil Engineers held at Tufts College. Eleven colleges and universities of New England were represented at the event.

1918 Raymond N. Atherton, General Manager of the Maine Blueberry Growers, Inc., spoke at a meeting of the New England Institute of Cooperatives held at the University of Vermont in June. Mr. Atherton was also named vice president of the Maine Cooperative Council at its annual meeting in Bangor N. H.

Alfred A. Bean, photographer of Winthrop, has been named principal of Pride's Corner School in Westbrook. She has been principal of North Monmouth Grammar School for the past two years. Previously she had taught in Jay, Maine, North Attleboro, Mass., and Holliston, Mass.

Dr. Edward A. Stimson, professor of biology at the University of Maine, spoke at the opening of the new building of the University of Maine, Orono, in June. He has been associated with the University of Maine for many years.

1919 Edwin W. Adams has terminated his employment as assistant agent of the Lewiston Division of Pepperell Manufacturing Company. He had been with the company for many years. Although retired, he will be a consultant to Pepperell and to the Bates Manufacturing Co., which has a finishing plant in Augusta.

Thomas Davis became sole owner of the T. and J. Davis Co., one of the largest milk and dairy businesses in eastern Maine. In 1902, he and his brother John had had the business together for some 29 years. Mr. Davis lives in Vassalboro. He is a Director of the Bangor Production Credit Association, county chairman of the Soil Conservation Committee, and a past president of the Penobscot Farm Bureau.

1920 Leroy N. McKenney has been named Administrator of the Elizabeth Cady Stanton Institute of Minneapolis, according to an announcement which reached the press in August. Mr. McKenney had been administrative resident at Lowell General Hospital in Lowell, Mass. He holds a degree in Hospital Administration from the University of Minnesota. He and Mrs. McKenney plan to go to Illinois, but will keep their Duxbury home as a summer residence.

1921 Mrs. Emilie Kritter Josselyn 15 Caryl Ave., Yonkers 5, N. Y.

Joseph Chaplin, principal of Bangor High School, has been named to the newly appointed State Board of Education.

Lewis A. Gannon is New England representative for the Whitmayer Laboratories, Inc., of Trenton, N. J., manufacturing chemists. Lewis and his wife cordially urge '21 classmates to contact them at 91 E. Broadway, Derry, N. H.

E. W. M. R. E. A. H. Mount, Mountview, N. J., is a professional engineer for the state of New York. He has one daughter, Berniece, Cornell '50, an honor student in the College of Architecture; and one son, J. Robert, a high school student.

1922 Mrs. George A. Moore (Ardis Lancer) 21 Empire St., Pittsfield

The Alumni Office has received the following note from Bob Laughlin and enthusiastically hopes that others of '22 will heed his suggestion:

"ATTENTION: CLASS OF '22"

"You can read each Alumni through and through with no report from '22. One hundred and forty-three rounds of live ammunition left the campus back in June 1922. Some must have hit the mark. All cannot be empty shells. Perhaps you didn't make a killing, but even a blank can make a report.

"Here goes one now."

"Report! ! ! ! ! !"

"Sure! I've been right here for twenty years. Where have you been and what are you doing?"

1923 Mrs. Norman Torrey (Toni Gould) 9 Prospect St., Bangor

Next Reunion June 16-18, 1950

A happy meeting with Harriett Weatherbee True this summer produced a few items of interest to '23ers. Harriett is still living in Texas where her husband, Sterling H. True, has oil interests. Her mail goes to P. O. Box 671, Tyler, Texas. Harriett has a received a note from Frankie Webster who is teaching at Port Chester, N. Y. and Hazel Winslow who is located at 334 Limerick St., Rockland, where she is in the brokerage business.

Congratulations to Mr. and Mrs. F. S. Stickney on the birth of a daughter, Carolyn Frances, on June 12th. I'll bet "Stick" is having the time of his life taking pictures of her! I shall be looking for one.

Among the highlights of my summer was my attendance at the Zonta International Convention at Quebec in June, as a delegate from the Bangor Zonta Club. "Cliff" Merrow is General Freight Agent for the St. Johnsbury & Lamolle RR and the Barre and Chelsea RR. He married Hilda Kinney from Houlton and they have a son, Preston, who is attending the University of Vermont. They reside in Montpelier, Vt.

We prize highly the inscription which reads: "To Prexy and Bea from the class of '24, 25th reunion, June 12, 1949." Your kindness is very touching and we hope you will all come and see us, partake of a "social hour" with us, during which we plan to use the tray in a demonstration. Thank you again from the bottom of our hearts.

Now for some class news which has been sent in by some member of the class of '23. The Alumni Office will be happy to send out information about you to your friends if you will let us know of any changes in your address or occupation. It is important for us to keep in touch with all our members.

George Lord has attended a workshop at Cornell and has been appointed chairman of a Committee on Visual Aids in Education.

Harry Fisher, though known as a man of few words, has kindly sent in the news that he is employed by the Central Vermont Public Service Corporation and has been located in Rutland, Vt., since 1936.

Harold Durgin was recently elected president of the Vermont Society of Engineers. He lives at 81 Davis St., Rutland, Vt. He and his wife have two young sons, Eddy and Ricky, aged 5 and 3 respectively. Harold attends U. of M. meetings regularly in that region.

Earl Dunham served as Marshal of the U. of M. alumni during the celebration of Orono in June.

Howard Bowen has been elected secretary-treasurer of the Charles E. Ball Club, a group composed of superintendents who have served Maine schools for ten years or more. The club met on the campus in Orono in August.

Conrad Kennison, president of the Maine Graphic Arts Association, presided over a banquet and business session of this group in June at the Penobscot Valley Country Club. Conrad is with the Kennebec Journal in Augusta.

Well, this is a good start for the year. So let's keep it up. We still feel very sorry for any class member who didn't get to the 25th reunion in June. Didn't we have a jolly and heartwarming time?

1925 Mrs. George Lord (Louise Quincy) 38 Forest Ave., Orono

Next Reunion June 16-18, 1950

Hello! Here I am again and here we are beginning the year of our 25th reunion. I hope you are all planning now to come Orono way next June. Those
Mary Waterhouse attended one of the workshops at the University this summer. She is teaching in the Home Economics department in Sanford, Maine.

Rev. Stanley Hyde was appointed in April to the commission on worship of the Federal Council of Churches of Christ in America.

Edrie Mahaney Rathburn now lives at 225 Narragansett Bay Ave., Warwick Neck, R.I.

Melville H. Johnson has been named principal of Madison High School.

Jim Blair now owns two shops in Manchester, Conn. “Blair’s Specialty Shop” and “The Little Shop.” Jim has a family of seven: three daughters, Patricia, in her first year at Lasell Junior College. Arlene is the president of the Burlington Council of Church Women. John, 22, is a junior at the University of Vermont. Tweedie who is 14, Sherry 7, and James Boardman Blair born May 23, 1948. They reside at 376 Porter St., Manchester, Conn.

I first want to thank those of you who have sent in news. It is a big help to receive it. Keep it coming.

Next Reunion June 16-18, 1950

True Maine Hospitality
(Leone Dakin)

Excellent Meals, friendly service.

9 College Hgts., Orono

Plans were begun for celebrating the twenty-five reunion in 1954 and it was voted to establish class dues of $5.00 per year for the next five years to build up a fund for reunion expenses and the customary gift to the University. Payments of this year’s two dollars or the entire $10 may be made at any time to Treasurer Mary McClure, 45 Sixth Street, Bangor.

Miss Barbara Johnson
32 Orland St., Portland

Thirty-three 29ers attending the 20th reunion in June elected the following officers: Reginald H. Merrill, Brewer, Me., president; Roderic C. O’Connor, Dracut, Mass., vice president; Mary Robinson McClure, Bangor, treasurer; and Barbara Johnson, Portland, secretary and personal editor. Elected to the Executive committee were Albert J. Harmon, Froh, J. Hurley, Ellsworth, Robert D. Parks, Orono, Richard D. Holmes, Orono, and Ruth Meservey, Bangor.

President Reg Merrill has asked me to write these articles to keep the officers informed. Reg was a student in Electrical Engineering at the University, and he was manager elect of the 1928 track team and was later awarded the manager M by the Athletic Association. He has been very active in alumni activities, serving as Secretary of the Women’s Athletic Association and vice president and member of the executive committee of the Concentrated Association of Maine. He worked on the library campaign drive in Connecticut and has been a member of the alumni dues committee from 1946 to 1949, serving as chairman last year. During the past twenty years he has lived in Maine, Massachusetts, and Connecticut, returning to Maine last year.

President Reg Merrill has asked me to write these articles to keep the officers informed. Reg was a student in Electrical Engineering at the University, and he was manager elect of the 1928 track team and was later awarded the manager M by the Athletic Association. He has been very active in alumni activities, serving as Secretary of the Women’s Athletic Association and vice president and member of the executive committee of the Concentrated Association of Maine. He worked on the library campaign drive in Connecticut and has been a member of the alumni dues committee from 1946 to 1949, serving as chairman last year. During the past twenty years he has lived in Maine, Massachusetts, and Connecticut, returning to Maine last year.

Treasurer Mary Robinson McClure was captain of the varsity hockey, president of the Students’ Athletic Association, and winner of the Maine Seal in athletics. She was a member of the All Maine Women’s Association and Alpha Omicron Pi Sorority. She was graduated with a B.A. degree in economics and sociology, Mary worked on the University of Vermont, and was vice president of the Eastern Association of U. of M. Women. She married to James W. McClure (Maine ‘33) and the McClure home, 45 Sixth Street, Bangor, is co-inhabited by sons, Roderic, 8, and Alan, 6.

Your secretory was graduated with a B.A. in English and was a member of the Mu Mu Sorority and also a part-time student journalist interested in the people interested in the people. She was the women’s news editor of the Campus by working in the Editorial Department of the Press Herald in Portland and was a member of the society since 1943. I’ve been doing a Dr. Jekyll-Mr. Hyde act for the past several years by teaching in Portland High School day times and supervising school publications. I’ve held various committee chairmanships in the Portland Club of U. of M. Women and worked on the Library and Union Building drive, I honestly watch for ‘29 persons at 32 Orland Street, Portland, where my household includes Airedale terrier, Geoffrey, and cocker, Dinah.

J. Elliott Hale, Waterville, was program chairman for the annual meeting of the Maine Public Health Association held at Rangeley Lakes in August. Dr. Paul D. Giddings of Augusta was nominated to the Maine Board of Registration of Medicine, and the Society for the Protection of Medical Research.

Robert Parks, former president of our class, is now president of a new Howard Johnson restaurant on Commercial Street, Portland, which, incidentally, is one of the few places in Portland where you can get a good meal. I know! (It used to be Langley’s restaurant.)

Philip Marsh was a member of the summer session staff at the University of New Mexico.

Charles Hall Rogers is general man-
1930 Mrs. Pauline Hall Leech
Homer Folks Hospital, Orono, N. Y.

Edwina and Phil Beckler are in the process of moving from 85 Elm St., Orono, N. Y., to Sherwood Ave., Red Oak Mills, where they have a new development just outside Poughkeepsie. Phil is employed as a milk sanitarian by the State Public Health Department, and he has had a promotion. Their daughter, Phyllis, is starting her first year at Potsdam State Teachers College with a major in music. There is no question that she is a sophomore in high school. And young Susan was four years old the first part of September.

Harold A. DeWolfe is Plant Engineer with the Howard Smith Paper Mills Ltd., Beauharnois, Quebec, Canada. He resides at 5 Mill St., Beauharnois.

Frank Goodwin, with the New England Power Service Co., New Hampshire and Vermont, and is located in Montpelier, Vt.

Ray Spear is an electrical engineer at the Portsmouth Naval Shipyard and is living at 33 Rice Ave., Kittery. He received his master's degree from the University of Maine in 1940.

Paul Taplin is president of the Barre, Vt., Chamber of Commerce.

1931 Mrs. Sam Sezak
(Ethel Thomas)
4 Gilbert St., Orono

The following item appeared in the July 5th Portland Press Herald: "Dr. Dean Fisher, Falmouth, director of the Bureau of Health, Department of Health and Welfare, announced his resignation to be­come effective on August 1 to accept a position as Director of the Central Maine General Hospital in Lewiston. A native of Berlin, N. H., Dr. Fisher has been Health Bureau Director since May 1947. Commenting on Dr. Fisher's resignation, Health and Welfare Commissioner David H. Stearns said: "State service in general and the Department of Welfare in particular have sustained a distinct loss." Richard F. Blanchard of Cumberland Center was appointed to the Maine Milk Advisory Committee, a new committee created by the last Legislature. He was found from among those recommended by the milk industries and will serve two years.

John L. Cutler received his Ph.D. from Ohio State University in June and is back with the department of English at the University of Kentucky.

Ernest K. Gatcombe, Jr., is now living at 39 Farm Hill Rd., Cape Elizabeth.

1932 Pauline I. McCready, after spending a month at home in Bangor this summer, went on to Indianapolis, Indiana, where she accepted a position as director of the group work division of the Council of Social Agencies for Indianapolis and Marion County.

The Maine Alumnus 19 OCTOBER, 1949

Freddy Hinton is Controller for the Aladdin Industries, manufacturers of electric and kerosene lamps, vacuum bottles, and radio tuning devices. The company has moved general offices from Chi­cago to Nashville to a new plant and office building. Frederick and his wife Adele have purchased a new home on Woodlawn Dr., Nashville, Tenn.

Charles Ted James is District Group Supervisor with the Travelers Insurance Co., in Nashville, Tenn.

Lew Madison is Sales and General Manager of Clark Seed Farms in Rich­ford, N. Y. He lives in Dryden, N. Y.

Andy Watson is Marketing Specialist, State Dept, of Agriculture, in Augusta. He lives in Monmouth. Andy and family moved to Monmouth earlier this year from Old Town.

Kenneth Pullen is a partner in a retail clothing business in Milo, Maine.

Dr. Philip O. Gregory, who is a prominent physician and surgeon in Boothbay Harbor, was chairman of the Salvation Army annual appeal this past summer.

Orissa Frost Kingsbury (Mrs. Em­mons) has been appointed to the faculty of Husson College in Bangor. She attended the Swinburne School of Applied Arts, Portland, R. I., in 1945 and received her education degree from the U. of M. this year.

Del Ballard is School Administrator of Hamilton Standard Propeller Division of United Aircraft Corp., East Hartford, Conn. His residence is 66 West Middle Turnpike, Manchester, Conn.

Beatrice "Bunny" Folsom was married July 30th to Mr. E. Kenneth Albaugh of Wilmington, Del. The bridegroom was graduated...
with offices in New York City. The Coulls have four children, two boys and two girls.

The Sorensens have two sons, Tom aged 13 and Greg aged three. They built a home three years ago in Berlin, Conn., on an acre of land overlooking three mountains.

I'm very grateful to Effie for such a nice batch of news. How about someone else doing the same within the next couple of weeks so that the November column will fare as well?

Bob Russ has been elected Director of Agencies of the Union Mutual Life Insurance Co. in Portland. One thoughtful friend of our Alumnus noted, "If that meant less traveling, to which I replied, 'I always have hopes'—THAT ALSO APPLIES TO THE 1934 COLUMN. PLEASE DON'T LET ME DOWN!

1935
Mrs. Thomas McGuire

published by the Museum of Comparative Zoology. We are sure that it is a real contribution in that field.
particularly active in accident prevention and the prosecution of violators of safe flying regulations. He is chairman of the N. E. Council of state aviation officials.

John has two daughters.

Maj. Joseph R. Hamlin, U.S.A., has completed a tour of duty with the Office of the Chief of Special Services, and after taking a short leave in Maine, reported to the Quartermaster School, Camp Lee, Va., for his new assignment. This very official release tells us nothing of Ruth, though naturally I assume she enjoyed the short leave in Maine.

Betty and Wally Gleason stopped here recently on their way to Asbury Park, N. J., after their vacation. Wally has been studying at Rutgers University this summer.

Heard from Lucy Cobb Browne. Lucy and Paul ’39 and their family of four boys left West Springfield, Mass., where Bud was County Agricultural Agent to go to Frederick, Md., to manage a dairy farm. Lucy says they have 85 milking Guernseys, 30 young stock, and 2 bulls. They planned a vacation in Maine sometime this summer. Their address is Locust Level Farm, R.D. #2, Frederick, Md.

Carl Osgood writes that he and Frances (Kelleher of Orono) have a little girl, Jane, who was two in July. Carl is an associate in mechanical engineering at the University of Pennsylvania and studying for a Ph.D. in metallurgy. Their address is 343 Grand Ave., Apt. A, Camden, N. J.

Allen Trask was married to Elizabeth P. Pond on June 11 in Hudson, Ohio. Mrs. Trask is a graduate of the College of Wooster, Wooster, Ohio. After a trip through the northeastern states, they will reside in Naugatuck, Conn.

Mary Wright Donnini dropped me a card to give me her change of address. They are to live at 1806 Corbin Ave., New Britain, Conn., until the house which they are building is completed. You will remember that Frank is employed by the Sanitation Dept. of New Britain.

Jean Kent Belding wrote to say among other things that she saw Betty (Mitchell) and Lester Smith in Montpelier, Vt., connected with the Vermont Extension Service. Jean and Oliver have a daughter, Elizabeth, now 17 months old.

Jo Profita was named Air Force Hostess at the Service Club at Dow Air Field in Bangor early in the summer. She had just recently returned from California.

Edwin S. Costrell received a Ph.D. from Clark University, Worcester, Mass., at special commencement exercises following summer session in August. Ed is married to the former Miss Mary Schell of Detroit. His major field has been International Relations.

1939 Mrs. Donald Huff (Ethelyn Parkman)

7 Penley St., R.F.D. 2, Augusta

Lois Leavitt Adams has been named dietitian at the Augusta General Hospital. She has previously been Food Supervisor for the Health and Welfare Association, Pentagon, Washington, D. C.; dietitian at the Gardiner General Hospital; and a teacher of dietetics at the

Bill and Betty (Johnson) Publicover greeted Mrs. Edward Ladd (Peggy Hauck) on June 16, 1949. They live in Gloucester, Mass.

Dana Jeffery Carr joined the family of Mr. and Mrs. Carr on June 23, 1949. Douglas is with the U.S. Rubber Co. and they live at 923 Michigan St., Evanston, Il.

Margaret Steinmetz and Ralph A. Mosher of Union Springs, N.Y., were married at All Souls Church in Bangor on August 20. Margaret has taught Home Ec. at Peru High School and at the East Greenwich High in Rhode Island. In 1945 she received her M.S. degree at Cornell University. At Cornell she was a member of the Housing and Design Dept., College of Home Economics, and was a 4-H club specialist in home improvement. Mr. Mosher is a graduate of the College of Agriculture of Cornell University, class of 1939. He taught agriculture prior to the war. Later he served as a training officer for the Veteran's Administration in Syracuse, N.Y. Mr. Mosher is now engaged in farming in Union Springs.

Natalie Elizabeth Hooper became the bride of Mr. Carroll R. Swaney on July 9, 1949, in Hampton, N.H. After attending the U. of M. Natalie went to the Bryant & Stratton Institute in Boston.

Paul Morin is the Deputy Commander of the State Department of Amvets in Providence. Fred E. Holf has resigned from his job as Extension Forester and is now connected with the Maine State Department of Forestry.

Oscar R. Martin has been honored posthumously. The Ingalls 4-H Camp at North Hero, Vt. has named its new recreation hall, Martin Hall. Oscar was a 4-H Club Agent in Chittenden County, Vt., from 1946 until his death in March, 1949, and was very devoted to the 4-H program.

enjoyed an overnight visit in August from the Cranes on their way to Maine. It was grand revisiting the little (Ouellette). Ick, and Nancy, who is now nearly two years old. The Cranes are enjoying Wiscasset, ME, and are offering Ick's work with DuPont is most interesting and he has had a nice promotion. That information from a source other than the Cranes. Victoria McKenzie Chappell and husband Bill spent a week end with the Crane last spring. The Chappells live at 4713 Lackawanna St., Elsmere, Del.

We here at 171 Gerry Rd. thoroughly well, it's Hi again! I do hope the summer was good to all of you and that you have returned from vacationing with a lot of vim and vigor to start the fall season off with a bang.

And last of all please note that the Cotters have moved to a new address, too—lest the little notes I hope to receive...you will help me in making it a large column each month. Remember the new address—92 TOXTETH ST., BROOKLINE 46, MASS.

David McKenney is a physicist in cellophane research for the E. I. du Pont de Nemours Co. in Buffalo, N. Y. His residence address is 47 Hirschfield Dr., Williamsville 21, N. Y.

Virginia May is copy editor for the University this past year. Phil and Coke and Coke's daughter, Dawn Marshall, have gone to Ames, Iowa, to make their home. Phil is to teach at Iowa State College.

Cecelia Sullivan became the bride of Emile Comeau in August. Prior to her marriage "Sully" had been teaching in Newington, Conn. Mr. Comeau is from Belmont, Mass.

On June 15 in Winchester, Mass., Miss Fay Pike became the bride of Joe Sutphen.

Another summer wedding was that of Annetta Bishop to Stanley Reed in Caribou on August 14. Mrs. Reed has been teaching in the Mary Snow School in Bangor for the past two years. Mr. Reed is employed by the Bishop Shoe Store in Caribou.

My only correspondence of the summer was a card from Mary Esther (Treat) Clark who has been working for Ada McCormack's "Letter" magazine as head of the research department while Don was finishing up his senior year at the University of Arizona. The Clarks' address is 521 W. Rillito St., Tucson, Ariz.

Greetings, '45'ers! Commencing with the sincere hope that each of you has had as pleasant a summer as I have had, I shall turn immediately to the box full of news which has come to me in various ways these last months.

We have several new class babies to
add to our ever-growing list. Last June 13th Margaret and Calvin Friar became the proud parents of 7 lbs. 6 oz. Julia Williams. The Friars have been making their home at 38 N. Main St., Orono, where Calvin has been working as a Soil Laboratory Asst. over at the Technological Experiment Station.

On July 9th Susan Carolyn, weighing an exact 7 pds., presented herself to Barbara (Higgins) and Russ Bodwell '44. The Bodwell address is 1797 Manor Dr., Orono, N. J.

Also, in July baby was 6 pds., 3½ oz. Judith Claire who made Maine ("Babs") Haines and Bob Pancoast happy parents for the second time with this unexpected little one. With Babs giving the news that Bob is working in Philadelphia, and that they have "dream of an apartment." Address—Pawtuck, Apt. 25-B, Haddonfield, N. J. Also, Babs and Bob spent the night of June 11th at East Natick Mass., with ("Chaplin" and Bill Bradley, and the following night with the above mentioned Bodwells. According to Babs, "All were fine that date.

The Bodwells and the Pancoasts should note of another New Jerseyite—Norma ("Cam" McKenney) Peterson. I had a most welcome note from Cam this summer telling me that back last October 13, 1948, their lively young son, Robert Edwin, Jr., was born. They had a wedding in September after their new home was completed, their address would be: 106 Brunswick Rd., Cedar Grove, N. J.

The Marriage Department for '45 flourished this summer. First on the list is the marriage of Miss Dorothy Locke Stevens to Mr. Maurice Robert Hill, Jr., on July 30th. Miss Stevens is a graduate of Morse High School, a member of Beta Delta Chi, and a talented artist who has been known to attend church every week! Mr. Hill has been married before, but his past has been left behind and he's known to have a "dollar" in the bank! Their address is 1797 Manor Dr., Union, N. J.

One engagement do I have to report. On September 10 announcement was made of the future marriage of Miss Jane Stevens, daughter of Sagadahoc County Register of Deeds and Mrs. Hiram T. Stevens of Bath, Maine, to Maurice E. Avery. Miss Stevens is a graduate of Colby College, a member of Beta Sigma Phi Sorority, and a talented organist who is well known in church circles. Mr. Avery has been supervisor of music in East Hampton, Conn. Carl was graduated from Maine last June.

One engagement do I have to report. On September 10 announcement was made of the marriage of Miss Dorothy Locke Stevens to Mr. Maurice Robert Hill, Jr., on July 30th. Miss Stevens is a graduate of Morse High School, a member of Beta Delta Chi, and a talented artist who has been known to attend church every week! Mr. Hill has been married before, but his past has been left behind and he's known to have a "dollar" in the bank! Their address is 1797 Manor Dr., Union, N. J.

Another surprise visitor was Stevie Jacobs '44 who came to call on the "com- mand" of his wife Isabelle (Ansell). Issie has been living in Highham, Mass., for the last few months and has been more than busy looking after the three young ones of the family. Stevie is connected with the New England Forestry Foundation which is a non-profit corporation to provide woodland ownership and forestry service at cost. Stevie was fervently hoping to find enough business in this area so that he and Iselle could settle in Brunswick. "I'm hoping," he adds, "as Brunswick is only 15 miles from where Fred and I will be this winter.

Twice since June, Marty and Bob Temple have spent a few days with Fred and me. The most interesting news from them is that Bob is going into business for himself—handling, selling, etc., all sorts of mill supplies, equipment, and machinery. And, as a result, Bob who always swore he'd never settle in Maine is going to do just that! As yet I have not learned just where their home will be. Also, through the Temples I have news of Doris and Lynn Wilkes. Apparently they have been going through the process of buying a Cape Cod house in Garham, N. H. (P. O. Box 299) Bob is a Chemical Engineer in the Research Division of Brown Co. in Berlin, N. H. (3) John Marriott is a Math Instructor at the River Country Day School in Pembroke, Mass. His residence address is Hollis St., Groton, Mass. I shall quote the remainder of John's remarks about himself: "Hi! We have been pretty busy since our wedding in June. We have 2 sons, Duncan 2 ½ yrs. and Stephen 4 mos."

As for Fred and me, Fred is working for the Sealtest Plant of the General Ice Cream Corporation in Portland, and we are living in Phippsburg, 40 miles away. Star, Fred has been able to drive back and forth fairly easily a few times a week, and we hope that he can do likewise this winter, because we do not intend to move until we absolutely have to. We've had a very pleasant and happy summer, heat and all.

Well, this is it for now! Keep the news coming in—and we'll be seeing you next month!

1946

Mrs. Alfred D. Gamber
(Therese Dumas)
21-C So. Apts., Orono

Homecoming Nov. 4-5

I'm so glad that so many of you took time out during such a busy summer to write and tell me your latest news.

The best news is to hear of additions to the class of '46. Peter Charles Brown was born June 9 to Barbara (Dickey) and Joe Chaplin of Lewiston Virginia (Tufts) and Joe Chaplin announced the arrival of his first born. Mrs. T. L. Chapman, and a daughter, Teresa Sylvia,
Mary Elizabeth Smith is now research assistant at Hamilton Station, a part of the Roscoe B. Jackson Memorial Laboratory in Bar Harbor. Mary's address is P.O. Box 78, Hamilton Station, Bar Harbor.

Judy Banton is an assistant in chemistry at the Agricultural Experiment Station on the University of Maine campus. Judy is living at home—4 Chamberlain St., Brewer.

Dave Holmes is a graduate student at M.I.T. and living at Graduate House, Mass. Institute of Technology, Cambridge, Mass.

(Editors' Note: You will have noted that Terry's name has been changed at the beginning of this column! We thought you should have further details. The wedding took place in Our Lady of Wisdom Chapel in Orono on Sept. 12. The bridegroom is from the University of Maine and was one of the class of 1944 before military service interrupted his college career. He was in the Marine Corps, as a member of the Phi Mu Delta fraternity. Pelham, N.Y., is his original home address. Terry will continue as an instructor in Speech at the University during the 1949-50 academic year.)

1947

Mrs. Paul Dowe (Peg Googins)
Turner, Maine
Homecoming Nov. 4-5

Here we are again for another get-together. The summer just flew by, didn't it? I'm sure you all have a lot of interesting things to tell about the summer. I have quite a bit of news, but am...
of the high school glee clubs. She has been studying music—Public School Music and the Northwestern Conservatory of Music in Bangor.

Lala and Bob Dinsmore (that's Lala Jones, you know) have settled in Berlin, N. H., where Bob works for the Brown Paper Co.

Phyl (Jordan) Hanson is working for Heath Textbook Co. in Boston where Eric works toward a Harvard Ph.D. They visited with Sib (Shirley Sibley) and Jim Morrow over Memorial Day weekend and last spring. We'd all love to hear from you Morrows down there in Connecticut.

We all seem to be all for this time. I can just hear everyone say something about what I have left out. I'll tell you what to do to remedy that fact that there are suggestions that you don't send along any announcements, marriage, and birth announcements, etc., that you may have or see. They would help tremendously, really. If you want them returned say so, and I'll take care of that. This is a new idea of mine to add to the column. Certainly would appreciate your help.

Lastly would someone write to me about the reunion last June which I was unable to attend?

Next Reunion June 16-18, 1950

Hi, 48ers—vacationers and otherwise. In the opinion of this writer the summer was busy as usual, and that's saying a lot. Thanks for the letters—there were quite a few, and thank you for the ones you're going to write soon! Please do.

Marriages have always have to start off the first fall issue of The Alumnus. Come June, there's a mad rush to the altar and the momentum carries on through September. These are among this summer's marriages of 48ers:

Mary Grace Tibbetts and Ralph Bean. They've been living in North New Portland this summer where he has been doing construction work at Dead River as an engineer with the New England Public Services, Inc.

Frank Foster is a College Sales Trainee for the B. F. Goodrich Co. which has offices in Boston. Mass. Mail goes to 494 Hammond St., Bangor.

Lala and Bob Dinsmore (that's Lala Jones, you know) have settled in Berlin, N. H., where Bob works for the Brown Paper Co.

Phyl (Jordan) Hanson is working for Heath Textbook Co. in Boston where Eric works toward a Harvard Ph.D. They visited with Sib (Shirley Sibley) and Jim Morrow over Memorial Day weekend and last spring. We'd all love to hear from you Morrows down there in Connecticut.

1948

Mrs. Willard Moulton (Polly True) Sebago Lake, Maine

Next Reunion June 16-18, 1950

Hi, 48ers—vacationers and otherwise. In the opinion of this writer the summer was busy as usual, and that's saying a lot. Thanks for the letters—there were quite a few, and thank you for the ones you're going to write soon! Please do.

Marriages have always have to start off the first fall issue of The Alumnus. Come June, there's a mad rush to the altar and the momentum carries on through September. These are among this summer's marriages of 48ers:

Mary Grace Tibbetts and Ralph Bean. They've been living in North New Portland this summer where he has been doing construction work at Dead River as an engineer with the New England Public Services, Inc.

Betty Small and Cortlandt Beck of Chicago were married in June and are living in Illinois. Further details are lacking, but will try to find them and furnish them.

Hazel Day and Herbert Ellingwood have been married. Herb is in his final year at the American International College, Springfield, Mass.

Shirley Doboz and George Lewis '49. He's employed by Sears-Roebuck, Greenfield, Mass.

Phylis Fraser and John Weatherbee '49. Helen Buzness was an attendant at the wedding. John is working at the Washington, D. C., office of the Tennessee Eastman Corp., Kingsport, Tenn. They are living at 1101 Catawba St., Kingsport.

Venita Kittredge and Sidney Young. He is attending the Caniot School of Radio and Engineering in Washington, D. C.

Among engagements this summer were:

- Elizabeth Meyer and Stephen Slagle. They are both teaching at Bancroft School, Haddonfield, N. J., and are planning a fall wedding.
- Russell Bradley and Henrietta Garran of Bangor. They are also planning on being married this fall. Russell is a graduate student at the University of Maine. Mail goes to Box 481 in Maine.
- Paulie Marcous and John Kelley '49 were engaged in June. They are both working in Bangor. John is working for Westinghouse in Pittsburgh.
- Jane Scales and Dave Cates '49. Jan is teaching at Farmington High School.
- Robert Eddy is a medical student at Columbia College of Physicians and Surgeons.
- Philip Downie is taking managerial training at the Eastern States Farmer Exchange warehouse in Brewer.
- Robert Eddy is a medical student at Columbia College of Physicians and Surgeons.

The Alumnus.

FRONT COVER
It would be nice if we could keep a lot of ready-made Long Distance calls waiting in neat rows for you to take your pick. But it won’t work that way.

You need too many sizes. Today, it’s a 100-mile or 1000-mile call. Tomorrow, it may be our special 2947-mile size (the longest possible call in continental U.S.).

Whenever you call, wherever you call, we make it to your measure and deliver it in less than two minutes on the average!

It takes lots of planning to do such careful tailoring. It takes a lot of equipment. And it takes the skill and experience of many, many people.

Long Distance service grows steadily faster and better. And it’s friendly service all the way.
FIELD STUDIES of lightning by General Electric use the Empire State Building as a laboratory. Knowledge gained from these and from . . .

LABORATORY BOLTS—the most powerful ever produced—aid G-E engineers in developing better and lower-cost protective equipment.

G-E LIGHTNING LABORATORY—world’s largest—is new center for continuing lightning research.

'Tamed' lightning helps to write its brother’s story . . .

LIGHTNING—when you consider it in terms of microseconds—is not nearly so impetuous as summer storms might indicate. Before loosing its charge, for instance, it sends down advance "streamers" to plot out the easiest path and makes sure that the earth sends up other streamers to meet it. In its downward course it may hesitate forty times and more before deciding on its next step . . .

Some strokes are extremely slow, building up and releasing their charges in a tenth of a second rather than the usual millionth. They produce no thunder . . .

More than 95% of our lightning comes from negatively charged clouds . . .

Facts like these are part of the working knowledge of the engineers in General Electric’s High Voltage Engineering Laboratory in Pittsfield, Mass. It’s their job to develop lower-cost equipment that will better withstand lightning and that will better protect electric service against it.

To aid these specialists, General Electric recently equipped them with a new laboratory, the world’s largest lighting center. One of the main tools: the most powerful man-made lightning ever produced, rivalling the force of natural bolts, adding further to our knowledge of this “weapon of the gods.”

By emphasizing research and creative thinking, by encouraging fertile minds to follow their own imaginative bent, and by implementing their work with the best available facilities, General Electric remains “a place where interesting things are happening,” and stays in the forefront of scientific and engineering development.

You can put your confidence in—

GENERAL ELECTRIC
