Welcome! This beach is part of the Maine Healthy Beaches Program.

Think Healthy. Act Healthy. Swim Healthy.

Symptoms of water-related illnesses can include stomachache, vomiting, diarrhea, and infections of ear, eye, and skin. If you have any of these symptoms within seven days of swimming and suspect they were due to water contact at a Maine Beach, notify your physician and contact the Maine Department of Health & Human Services (800) 821-5821. Risk of illness may be greater for people with compromised immune systems. Water quality can change unexpectedly. Swim at your own risk.
