When a lawyer wants advice...

George Clark handles the life insurance program of J. V. Morgan (seated at desk, above), partner in a prominent law firm in High Point, North Carolina.

It's not surprising, therefore, that Mr. Morgan conferred with him on the effect that pending federal legislation would have on the integration of insurance with his personal estate. (This legislation would allow a self-employed individual a tax deduction on funds used to set up his personal retirement plan.)

The ability to provide well-informed service on a continuing basis is characteristic of the New England Life agent. And he is closely supported by his general agency and home office with informative reports and expert assistance in various technical areas.

If a career like George Clark's appeals to you, investigate the opportunities with New England Life. You get a regular income from the start. You can work anywhere in the U.S.A. Your future is full of substantial rewards.

For more information, write to Vice President L. M. Huppeler, 501 Boylston Street, Boston 17, Massachusetts.

New England Life

A career with New England Life attracts men from many fields—banking, teaching, business administration as well as selling. Some of our most successful agents have technical backgrounds.
Telling The World About Maine Potatoes.

This ad in full page size appeared in PRODUCE NEWS on January 16, and in THE PACKER on January 17, 1959. These two publications, leaders in the fresh fruit and produce field, have wide distribution among the men actively engaged in merchandising and marketing produce.

These advertisements, published in the interest of promoting the sale of Maine potatoes, are part of the Bangor and Aroostook Railroad's advertising and public relations program. This continuing program of cooperation is designed to promote the interests of northern Maine by telling the world of the great agricultural and industrial potential of the vast northern Maine region along the lines of the B and A.

BANGOR AND AROOSTOOK RAILROAD

Telling The World About State Of Maine Products
U. OF M. ONCE ABOVE AVERAGE, NOW FAR BEHIND

Source: Statistics of Land-Grant Colleges and Universities

Maine Falls Behind As Appropriations Lag

DATA already presented make it quite clear that the University of Maine has fallen far behind its sister institutions in other states in the postwar period.

During the 1930's the University was generally in a more favorable position than the average land-grant university and at the close of World War Two it was about equal to the average. Since that time its position has deteriorated markedly, however.

What has been happening can be seen most clearly by looking at figures for state appropriations. In 1946 the University's state appropriation per student was the same as that received by the country's average land-grant institution.

By 1950 the University's appropriation was only one-third of the national average. The University's appropriation per student fell by $228 at the same time that the average institution's appropriation rose by $117.

Increases in appropriations since 1950 have been enough to restore only part of the ground lost. In 1957 the University's appropriation per student was about 68 per cent of the land-grant average.
ON THE COVER

You might say that the cover picture this month indicates that a new trend is underway in the newspaper world, to say the least. Miss Phyllis Warren '60, left, of Fryeburg, and Miss Leslie Spalding '59, right of Lowell, Mass., are the two most recent editors of The Maine Campus, the University's student newspaper. Miss Spalding served during the 1958-59 college year and a few days ago, Miss Warren was elected to succeed her. The record isn't readily available, but as far as veteran faculty members believe, the University has never had two women editors in succession in history. In fact, some folks wonder if there has ever been one woman editor before. Who knows—some day you may not only see a woman as president of the U. S., but Misses Warren and Spalding and other lady journalists may become editors of the country's leading newspapers and magazines.
Reunions - Fine In '59!

The 1959 commencement program and class reunions are only a few short weeks away! The dates of June 5, 6 and 7 have been set for this year's colorful program. Here's the lineup of activities:

**FRIDAY, JUNE 5**

10:00 a.m.  Alumni registration, Memorial Union Building.
10:00 a.m.  Senior class meeting.
1:30 p.m.    Class Day exercises.
2:00 p.m.    Golf at the Penobscot Valley Country Club in Orono.
3:00 p.m.    All-Maine Women's pageant, Coburn Green.
6:00 p.m.    Reunion class dinners.
8:30 p.m.    Alumni open house, Memorial Union.
9:00 p.m.    Receiving line for President and Mrs. Lloyd H. Elliott.

**SATURDAY, JUNE 6**

8:00 a.m.    Alumni registrations, Memorial Union.
8:00 a.m.    Class breakfasts.
9:00 a.m.    Senior Alumni meeting, Memorial Union.
9:30 a.m.    Reunion class meetings, Memorial Union.
10:45 a.m.   General Alumni Association annual business meeting and election of council and officers, Memorial Union.
12:15 p.m.   Alumni barbecue, honoring Class of 1909, Memorial Gymnasium.

2:00 p.m.    “Country Style” tour of the campus, leaves from Memorial Gymnasium.
2:00 p.m.    Lectures for alumni and guests (site to be announced).
3:00 p.m.    Lectures for alumni and guests (site to be announced).
3:30 p.m.    Bangor alumnae tea for alumni, faculty, wives, parents, seniors and guests at Memorial Union.
4:00 p.m.    All-Maine Women’s tea at Memorial Union.
5:45 p.m.    Parade of classes, the Mall.
6:00 p.m.    Alumni banquet, Memorial Gymnasium—the highlight of the weekend.
9:00 p.m.    Alumni Hop and open house, Memorial Union.

**SUNDAY, JUNE 8**

The possibility of two graduation exercises was under consideration at press time. All persons planning to return for commencement are asked to watch for further notices on this matter.

Reunion classes this year are:

So you are going away to college are you, grandson? And you want me to tell you the story of my college life at "Old Maine." Well I guess you've heard all my personal experiences before, so tonight I'll tell you the story of my class, the class of "naughty nine."

We were certainly a green lot of fellows when we arrived on that campus, straggling in by ones and twos. Each had blood-thirsty tales of college life still ringing in his ears and most of us were ready to cut and run at a moment's notice. But with registration and first chapel over we had a meeting and our courage began to rise up and bubble. We elected a fellow by the name of Harvey as a scrap leader.

Whether this was a mistake or a joke I never learned but it was one or the other for sure. About the first rational thing we did was to elect H. P. Higgins our first class president. He proved to be a very efficient man and we were always glad of our choice.

Our first entrance into "college activities" was in that time honored custom, "The Night Shirt Parade." The terrible sophs took Maine Alumni Attention!

Notice is hereby given that the following matters pertaining to changes in the Constitution and By-Laws of the General Alumni Association will receive discussion and/or be voted upon at the June 6, 1959 Annual Meeting of the Association in Orono:

1. Authorization for the election and employment, by the Alumni Council, of one or more Assistant Alumni Secretaries, one of whom shall be an alumnus.

2. The offering of membership in the University of Maine General Alumni Association to alumni of the former Portland Junior College (now the University of Maine in Portland.)

3. The changing of the titles of Executive Secretary and Assistant Alumni Secretary(ies) to Executive Director and Assistant Executive Director(s) of the General Alumni Association.

Memos Of 1909

When we assembled for the last time in the fall of 1908 it was with a feeling of sadness around every heart. It was the last time we would come back in the best month of the year and meet our old friends. There were the usual numbers of left overs to join our ranks and absentees who had fallen from grace.

Fred Knight was elected president and a better man could not have been chosen. "Deac" White was football captain and "Spike" Mayo was again chosen to lead in baseball. Freddie Knight was track captain and all the college honors were represented by some seniors. We had a peaceful year. And when the time came for commencement, I, for one, was sorry to go.

And so when you have completed a four year course in college I hope you may have as pleasant a record to look back upon. Good night, son, we'll see you safely off tomorrow.

Important Notice

The 1959 Reunion-Commencement Bulletin will reach all alumni shortly. Attention is called to the notice of commencement exercises in this bulletin. Two Commencement Exercises are announced.

The senior class is reconsidering this matter, and two exercises may not be held. Alumni planning to attend commencement exercises are advised to contact the alumni office (44 Library) for the final decision as to whether one or two ceremonies will be held, and the location of these ceremonies.
What’s New In Admissions

By James A. Harmon ’40

Director of Admissions

James A. Harmon ’40

T is a pleasant experience, during this busy season of ringing telephones and interviews, to stop, think and write a brief report of the activities of the Admissions Office for The Maine Alumnus.

We are presently involved in the process of selecting a freshman class for the University of Maine. This process is complicated by the necessity of admitting students to approximately forty-four different programs, including specialized and area programs such as public management, pulp and paper technology, forestry, wildlife conservation, pre-medical studies, pre-dental studies, medical technology, nursing, home economics and education which involve all of the colleges.

“...Social Problem”

This process of students selecting a college is a social problem of great complexity—not wholly understood by the public, or even by admissions officers, although progress has been made in this in recent years.

It involves not only the student and university, but many other persons and institutions at various stages of the process of selection by the student and the decision of the admissions office.

Twenty to thirty years ago, college admissions was a relatively simple bi-lateral process between the student and college—today it is a complex operation with many facets. It involves parents, teachers, guidance counselors, testing bodies such as the College Entrance Examination Board (the University of Maine is now a member), and a broad fringe of interested friends and relatives (some of them alumni), various scholarship sponsoring groups and also the new National Defense Education Loan Plan.

More Competition

College competition is increasing rapidly. This is evidenced by the fact that the Dean’s List now contains many more names than in former years. This necessitates a more careful evaluation of an applicant’s program. It must also be noted that opportunities to attend other institutions following trouble are fast disappearing.

Many more students are now considering and preparing for a senior college program. The need is well known by serious thinking adults in a limited number of states. Although in the last seven years the number of high school graduates in this country decreased approximately five per cent, the student population of the University of Maine (along with many other colleges) has increased approximately 27 per cent. We presently have approximately 4,000 students here at Orono and 300 at Portland.

Double The Enrollment

With the so-called World War Two babies now beginning to enter high schools, the number of high school graduates will increase sharply in the years ahead. And the number of graduates who will be preparing for college will result in the doubling of our student population in the next decade.

Limited facilities, especially in housing for girls and the lack of some laboratories further complicate our problem. The difficult job of maintaining adequate faculty also must be considered. Multiple applications further adds to the complexity of the problem. Each of our students applies to more than two colleges; many to five or six. This is always dangerous as we must predict a certain number of enrollees from our admissions. However, the total number of admissions must be made rather early in the spring.

Outstanding students are shopping for the best financial as well as academic deal. Many are uncertain about their real interests and aptitudes. These students apply to several institutions to “play safe.”

Many young people have given serious thought to the selection of their college and program and have taken the time to review their course of study, its prerequisites and demands; others, who have picked up random rumors, prejudices and some bad advice of assorted varieties, apply for admission with limited or no real objectives. All cases must be reviewed and students counseled.

The University of Maine is seeking students with several attributes, namely a record of scholarship and achievement... excellent academic aptitudes... strong motivation for serious work... real objectives in mind... abilities to become potential leaders... and students who will be happy and productive at Maine and contribute to our college community.

No Time Wasted

Much of our time, with a limited staff, is spent in counseling students who do not enter Maine; visiting schools to maintain a close rapport with the secondary and preparatory school officials, teachers and to keep up with significant changes now taking place in almost all schools, carrying on interviews; and taking care of correspondence which is very heavy and increasing.

Admissions officers accept the fact that sooner or later they must say “yes” (admitted) or “no” (rejected). This is the real result of all our work. Very few individuals in society are faced
with similar decisions which must necessarily affect the future of our civilization and way of life. I offer this as a statement of fact with real humility, rather than as a request for sympathy or statement of appreciation.

Priorities Explained

Such decisions are made only after careful review and serious contemplation. Qualified Maine students must, and do, receive priority. Among a limited number of non-resident students admitted to Maine each year, all factors considered, sons and daughters of alumni receive our first consideration. In fact, close to 50 per cent of our non-resident students are now alumni children. We are pleased to know that Maine continues to be held in high esteem by so many of our loyal alumni. We are always happy to receive information from our alumni concerning any applicant, with or without alumni connections. Such information, when not used to pressure a decision (I realize the danger of misinterpretation of this statement) is of great help to us in the selection of our class.

The fact that the number of students we will be able to teach effectively must be determined in January increases the complexity of the admissions procedure and final action by our committee. It is almost impossible to make changes in the teaching staff at Maine between January and September. It seems important to me that we must impress parents that if we accept a student, we must be able to offer him a sound program. Considering all of the factors mentioned in this short report, and the ever-increasing number of young people seeking a senior college program (the numbers will show a marked increase in the next decade), and our facilities and faculty to teach those admitted, a class is selected. The individuals that make up each class will add to the reputation and prestige of the University of Maine, or lessen the influence of all of our graduates.

It has been my pleasant experience to work closely with the General Alumni Association staff in the past few months, and with many interested and loyal alumni in the northeast area. I hope I can meet many more of you in person in the coming years.

Research In Chemistry In Maine

"... A Curative Agent For Cancer"

A University professor is making good use of the laboratories in the new wings of Aubert Hall, home of the Department of Chemistry.

Hard at work in the spacious new labs are 29-year-old Dr. George Robert Pettit and four assistants, who have been carrying on research related to the cancer problem for nearly two years.

"Years of Effort"

In discussing one of his fields of research, chemotherapy (the treatment of disease with synthetic organic chemicals), Dr. Pettit recently told an editor of The Maine Alumni that this approach "may some day provide us with a curative agent for cancer. It's apparent," he added, "that it will take years of concerted effort to provide the ultimate solution to the cancer problem. It's a long term undertaking.

"Cancer is caused by abnormal cell division in the body. The cancer cells are somewhat different from normal cells and they spread in tissue throughout a certain area of the body.

"What we hope to do, as do other organic chemists engaged in this work throughout the world, is to design or find in a natural source a compound which will inhibit this abnormal cell division. Any such compound ideally would effect a cure without harmful side effects."

Among the men contributing directly to Dr. Pettit's project are Dr. William Bowyer, David Alkalay, Michael Baumann, and Phillip Douville. Dr. Bowyer is a post-doctoral research assistant while Alkalay, Baumann, and Douville are graduate research fellows at the University.

One phase of Dr. Pettit's research is concerned with the naturally-occurring substance podophyllotoxin and with certain steroids. Several members of the latter, Dr. Pettit explained, are chemical compounds which are found in the human body. They regulate such important functions as salt and water balance and carbohydrate metabolism.

Podophyllotoxin is a compound which was first isolated from a species of the plant genus podophyllum. An example of this plant is the May apple, which is found in this country.

Podophyllotoxin is a compound which was first isolated from a species of the plant genus podophyllum. An example of this plant is the May apple, which is found in this country.

"One of the many advantages in creating a useful synthetic medicinal agent is that it may usually be manufactured commercially on a large scale and therefore be available at low cost," he stated.

In regard to Dr. Pettit's second area of study, he is seeking to synthesize abnormally substituted steroids which might be useful in the treatment of cancer.

The work of Dr. Pettit and his associates is supported in part by the National Cancer Institute of the National Institutes of Health and the American Cancer Society.

Public Funds

Public funds support the National Institutes of Health, which is a subdivision of the Public Health Service of the Department of Health, Education and Welfare, the latter a U. S. government agency. The American Cancer Society is also supported by public donations, Dr. Pettit noted.

Dr. Pettit became interested in this field of research while working on his master's and doctor's degrees at Wayne State University in Detroit under Dr. Carl Djerassi. He came to the University in 1957 and is at present an assistant professor of chemistry in the College of Technology.
Ready for action! Phyllis, third from left, and five of her sub editors are shown before settling down to publishing their first edition of the Campus. Left to right: Carol Pollard '60, Ellsworth Falls, copy editor; Pauline Dion '60, Lewiston, feature editor; Miss Warren; Glen Philippon '60, Lewiston, city editor; Martha Merrill '60, Westbrook, make-up editor; and Diane Wiseman '60, Newport, society editor.

Phyllis and her advisor, Prof. Brooks Hamilton, scan the first copy of the Campus published under her leadership. Prof. Hamilton is head of the Department of Journalism.

Two In A Row!

PRETTY SCAREY!

That's the way an attractive University coed first described her feelings last month when she spoke about her future as editor of the University's student newspaper, The Maine Campus.

Miss Phyllis Warren, a junior majoring in journalism, thus became the second straight woman editor of the Campus. She succeeded Miss Leslie Spalding of Lowell, Mass., who has directed Campus operations for the current college year.

The fact that the Campus has come up with woman editors for two successive years is surprising when one considers that the University enrollment of about 4,000 consists of three men students for every one female student. In addition, men have been editors of the newspaper for as long as most alumni can remember.

Her aim in her new position: "I hope that the Campus will continue to be of service not only to students but to alumni and the administration alike."

At least one member of the staff has to be a man. Here Phyllis and her sports editor, Rick Brennan, decide the fate of two pictures of members of the tennis team.

Phyllis and printer Rex Sibley watch copies of the Campus as they are printed at the University Press.
May 1, 1959

Dear Alumni of Maine:

I was pleased indeed to learn that the Arthur A. Hauck Building Fund has exceeded the half-million mark.

As your Alumni Fund Volunteers continue this effort, which is so important to the University, I wish to express the appreciation of the entire University family for the grand job being done, both by workers and by contributors. We are confident that the total goal of $1,500,000 will be attained within a reasonable period of time.

There can be no finer way in which you can honor President Emeritus Arthur A. Hauck than the successful completion of this Fund which will complete the Memorial Union and construct the Auditorium to bear Doctor Hauck's name.

I am informed that, while many alumni remain to be contacted in the campaign, alumni solicitation to date has been gratifying. We are particularly pleased with the generous response from the University's students and faculty, and from the non-alumni friends of the University.

In thanking all who have given of their time, talents, and financial resources to date, may I call upon those who have not as yet participated to join with the thousands of their fellow alumni who have already demonstrated their devotion to the University and to Doctor Hauck. We wish you to know that your participation will be equally appreciated by the University and the General Alumni Association.

Sincerely yours,

Lloyd H. Elliott
President

LHE:FED
Champeon ’61
Real All-Star

THEY'RE SPELLING "CHAMPION" a new way at Maine these days and little wonder, for the man in the spotlight has accomplished something that no other Maine athlete has done since the Yankee Conference was originated 13 years ago.

Wayne Champeon ’61 of Greenville, a mighty mite who can run like the wind and display amazing deception at the same time, was named to the Yankee Conference all-star basketball team after the recent hoop season.

In accomplishing this double honor, Champeon became the first Maine athlete to make both all-star teams in history. In fact, only one other athlete in Conference history has done it; that was New Hampshire's marvelous Billy Pappas who graduated a few years ago.

Ex-Grid Coach
Farley Dies

John Wells Farley, 80, one of the University's pioneer football coaches, died on February 12 in Needham, Mass., after a lifetime filled with achievements in public and private service.

Among his outstanding achievements in public service was the organization of the world-famous Children's Medical Center.

Farley was leader of Maine's football fortunes in the 1901 and 1903 seasons. During these two seasons, Maine won 12 out of 16 games, posting a 7-1 record in 1901 and a 5-3 mark in 1903. Maine won the State Series championship both years, winning all eight of its Series games.

Alumni Job Opportunities

A NEW JOB list for alumni received since the April issue has been prepared by the Placement Bureau. Any alumni interested in full information on any jobs listed below are invited to write to: Philip J. Brockway ’31, Placement Director, 104 East Annex.

4-59-90. Plant manager trainee wanted for small, hardwood manufacturing plant in southern Maine. Will be responsible for production, maintenance, personnel, purchasing, etc. Mechanical Engineering degree preferred, will consider combination mechanical engineering courses and business administration degree. Salary open. This company has excellent possibilities for growth.

4-59-91. Young man to train for position of poultry plant supervisor in cooperative agricultural organization in Pennsylvania. Poultry major or industrial engineering background wanted to develop production. Salary open.

4-59-92. Men or women graduates for library bookmobile. Positions open in two parts of Maine, one Aroostook, one western area. Enjoy working with people. Preference for French speaking ability for Aroostook section. Salary open up to $4200.

4-59-93. Eastern New Jersey instrument manufacturer seeks recent technical graduate with ingenuity and interest in machinery, tools, manufacturing. Problems include prototype design, tooling, shop equipment, quality control, customer service. M.E. preferred, other engineering degrees acceptable. This company is headed by a Maine graduate.

4-59-94. Women graduates are sought for a national group work organization for career possibilities throughout 21 states and Canada. Predominately eastern U.S. Major or minor work in sociology, home economics, physical education. Problems include group direction, teaching, group recreation. This is a relatively recent national club organization for girls 16-18 stressing programs in home making skills and various social activities.

THE FOLLOWING JOB OPPORTUNITIES ARE ALL DIRECTED TOWARD GRADUATES OF THE PULP AND PAPER CURRICULUM OR ALUMNI WITH EXPERIENCE IN THE PULP AND PAPER FIELD:

4-59-95. A manufacturer of industrial instruments from southern Massachusetts seeks paper graduate to work on control problems of paper machine. Some experience in a mill will be helpful. Will work between home office and field, probably 25 per cent travel. Opportunity to develop new users of instruments to solve control problems. Salary open.

4-59-96. Young man to be developed as assistant technical director for paper manufacturing company in Pennsylvania. Also seeking candidates for other positions on technical staff. Pulp and paper graduates or men with experience are invited to apply. Salary open.

4-59-97. From a consulting firm, notice of an opening has been received for a client in Delaware. Seeking man for independent research on paper-making processes and conversion methods. The company is a corporation division with recently expanded research facilities. Seeking demonstrated ability in analytical methods, experience in cellulose chemistry, and development of paper products. This can develop to Associate Director of Research. Starting salary open to $12,000.

4-59-98. A recent inquiry from a Pennsylvania paper manufacturing company lists an opening for an Assistant to Supervisor of soda pulp mill. B.S. degree in Chemical Engineering, Pulp and Paper major, also 2-4 years' experience chemical pulp manufacturing. Salary open. Present supervisor near retirement.

4-59-99. A Pennsylvania paper manufacturing company has position open for technically trained engineer to work on raw water and waste water control. Is seeking mill experience but will accept those without experience if interested in this particular field.
A third major institute has been awarded to the University of Maine for the 1959 Summer Session.

The National Science Foundation has given the University a grant of $42,780 with which to hold a Summer Training Program for approximately 100 high school students who have demonstrated outstanding ability in science.

Previously, the University has been awarded institutes in mathematics and foreign languages.

President Lloyd H. Elliott has said that the program will be held in cooperation with Science Service which promotes high school Science Fairs and conducts the annual Science Talent Search.

The students will live and study on the University campus for four weeks in August.

The major objective of the program is to give the opportunity to promising secondary school students to gain an increased understanding of scientific content and methods through instruction given by persons of recognized scientific stature.

Students will attend lectures and discussion groups, engage in laboratory work, and take field trips. They will also confer with university staff members engaged in research. Special lectures will be given by outstanding visiting scientists and authorities.

The program is an experimental one which will not duplicate the work usually covered in existing high-school or first-year college courses. It is designed to accomplish the following:

a) To broaden the background of students both in the historical development and present scope of science
b) To develop an appreciation of the interrelationships among the various scientific disciplines
c) To provide contact with scientists currently engaged in research and develop an understanding of the methods they employ
d) To provide opportunity for the acquisition of some skills not ordinarily taught in formal courses
e) To provide limited training in the use of the literature in various fields both for reference and research
f) To demonstrate through field trips the application of scientific principles to modern technology and the world of nature with emphasis on the line which divides the known from the unknown, and
g) To give the student an experience in the thrill of discovery through participation in some project of research nature.

Director of the program will be Prof. Spofford Kimball, head of the Department of Mathematics. Associate directors will be Prof. John Beamesderfer, head of the Department of Chemistry; Prof. Clarence Bennett, head of the Department of Physics; and Prof. Benjamin Speicher, head of the Department of Zoology.

Students will receive living expenses on campus and travel expenses.

University Notes

Science Foundation Names Maine As Institute Site

$17,000 A Year Scholarship Fund

A scholarship fund which will provide up to $1,500 or more per year for recipients has been established for University of Maine students from six Maine communities. President Lloyd H. Elliott has announced.

Dr. Elliott said that the scholarship funds are the result of a trust fund which was established by the late Donald S. Walker of Liberty and New York City before his death.

Walker established the trust, which has a current value of $1,465,000, for his sister, the late Madge Walker of Liberty. After the death of Miss Walker, it was announced by trustees that one-third of the annual income from the trust, amounting to approximately $17,000 per year, will be available for University scholarships.

The scholarships, to be known as the “Joel J. and Annie H. Walker Scholarships,” will be available for students residing in the towns of Liberty, Appleton, Montville, Paterson, Searsmont and Washington.

Each scholarship will have a value of $1,500 per year, more or less, or whatever is necessary to provide all expenses of the scholarship winners, including tuition and other fees, board and room charges, books, supplies and miscellaneous personal expenses.

“It means,” Dr. Elliott said, “that about 10 to 12 deserving students from the six towns concerned will have nearly all of their expenses paid for a four-year University education.”

The trust fund is of a perpetual nature, and the scholarships will be available for an indefinite number of years.

If the full $17,000 is not spent each year, the unused amount will revert to the trust. Trustees will then turn over the funds to the Thayer Hospital in Waterville and the Waldo County General Hospital in Belfast to provide for hospital expenses incurred by residents of the six communities.

Hitchner Hall

The newest College of Agriculture building at the University will bear the name of one of the University’s veteran staff members—Prof. E. Reeve Hitchner.

University trustees have voted to name the new animal-poultry science building for Prof. Hitchner, who will retire in June as professor of bacteriology after 37 years of service.

The 98th Maine Legislature appropriated $600,000 for the new classroom-laboratory building, which is an addition to the former Animal Pathology Building. It will house the poultry science department, part of the animal science department, the department of biochemistry, the department of bacteriology, and offices for the Agricultural Extension Service personnel in dairying and poultry. The new building is expected to be ready for occupancy by late summer.

Dr. Hitchner was graduated from Pennsylvania State College in 1915 and received his M.S. degree from Penn State in 1916. He was awarded the Ph.D. degree by the U. of Wisconsin in 1931.

HITCHNER HALL
Local Associations

Auburn-Lewiston Alumnae

On March 18, the Auburn-Lewiston Alumnae met at the Auburn home of Janet (Mayo) Sylvester '56. Guest speaker at this meeting was Miss Helene Murphy, Lewiston history teacher, who spoke on her studies and travels in Europe. Miss Murphy illustrated her talk with colored slides.

Black Bear Club of Rhode Island

The Black Bear Club of Rhode Island met on April 2 at the home of Myron W. Zimmerman '50 in Rumford, R. I.

Guests and speakers at the dinner meeting were Clifford Patch '11, Chairman of the University's Athletic Board, Don Taverner '43, University Alumni Secretary, and A. W. Gavett '40, well-known Orono businessman.

Portland Alumnae

The Portland Chapter of University of Maine Women held two major meetings during April.

On April 2 the group held its Annual Undergraduate Tea at the University of Maine in Portland. Women students residing in the Portland Area were guests. Featured speaker was James A. Harmon '40, University Registrar, and Miss Margaret M. Mollison '50, Assistant Alumni Secretary, brought campus greetings. Betty (Baker) MacQuiston '46, the group's president, presided.

On April 11, the Portland Alumnae held their Annual Scholarship Dance in Portland. Funds from this enjoyable social event are used for the Portland Alumnae Watch and Scholarship Program. Chairmen for this activity were MacQuiston '48, Mollison '50, Penobscot Valley Alumni-Alumnae Zimmerman '50, Portland Alumnae Black Bear Club of Rhode Island Helene Murphy, and Bangor Alumnae president, Solander '31.

Greater New York Alumni

The Greater New York Alumni 1959 Spring Banquet was held in Rockefeller Plaza on April 24.

Special Guests of the New York Alumni at this highly successful Banquet were University President, Lloyd H. Elliott, and Mrs. Elliott. President Elliott was the speaker of the evening, and addressed the group on the planned development of the University and the current activity at Maine.

Also present, and bringing greetings from the University's General Alumni Association, was the Association's Executive Secretary, Donald V. Taverner '43.

Members of the Southern Connecticut Alumni were invited to this Banquet, and were well represented.

Presiding was Albert M. Parker '28, Greater New York Alumni President.

Western Massachusetts Alumni

The Western Massachusetts Alumni met at the Cambridge Park Hotel, Cambridge, Mass., April 19. Guest and speaker at this dinner meeting was Donald V. Taverner '43, Executive Secretary of the General Alumni Association. Mr. Taverner discussed the University's current legislative program and late developments on campus.

Bangor Alumnae

The Eastern Association of University of Maine Women held its annual meeting in Bangor on April 13. Plans were made for additional gifts to the University and the following officers were elected for 1959-60: president, Elizabeth (O'Leary) Beede '45; first vice president, Jean (Polleys) Fenlon '50; second vice president, Arlene Lynch '25; secretary, Arline (Tangel) Pilot '47; and treasurer, Shirley (Hathaway) Sibley '46.

Retiring President Stella (Borkowski) Patten '47 presided.

Washington, D. C., Alumni

William C. Wells '31, University Manager of Dormitories and Food Service, was the guest speaker at an April 14 meeting of the Washington, D. C., Alumni, held in Arlington, Va.

Mr. Wells discussed late developments on the Orono and Portland campuses with the attending alumni and their guests.

Also present as special guests of the group were President-Emeritus and Mrs. Arthur A. Hauck, and Maine Congressman Clifford G. McIntire '30, who is also a member of the University's Alumni Council.

Presiding at this dinner meeting was Washington Alumni President, Clifford H. West, Jr., '43.

Western Massachusetts Alumni

Amherst was the site of an April 15 dinner meeting of the Western Massachusetts Alumni.

Guest and speaker at this meeting was Dean Weston Evans '18, of the University's College of Technology. Dean Evans discussed late campus developments and the University's legislative program.

Arrangements were made by Arvo A. Solander '31, Western Massachusetts president, who also presided.

Auburn-Lewiston Maine Club and Alumnae

The Auburn-Lewiston Alumnae joined the Auburn-Lewiston Maine Club for a special dinner meeting in Auburn on April 16.

Featured guest and speaker at this meeting was Dr. Lloyd H. Elliott, President of the University. President Elliott addressed the large number of alumni and guests on the University's legislative program and planned development of the University.

Also present, and representing the General Alumni Association, was Donald V. Taverner '43, the Association's Executive Secretary.

Roger Williams '45, Maine Club president, presided.

St. Petersburg, Fla., Alumni

Oscar W. Mountfort '12, St. Petersburg Alumni President, has announced that the group has completed another season of highly successful monthly alumni luncheons.

While attendance at the monthly Luncheons is greatest from the classes prior to 1920, Mr. Mountfort reports that classes through 1958 and 1897 were represented during the season.

Officers elected for the coming year (1959-60) were: president, Oscar W. Mountfort '12, vice president, Sidney H. Winchester '11, and secretary, Harry E. Rollins '16. Saturday Luncheons are planned for December through April during the coming year.

Coming Meetings

Boston Alumni

Spring Dinner-Dance

6:00 P.M., May 2

Boston Yacht Club

Speaker: Pres. L. H. Elliott

THE MAINE ALUMNUS
NECROLOGY

1892

JOHN CLINTON GIBBS. The Alumni Office has been informed of the death of John C. Gibbs as having occurred in November of 1957. A resident of Lynn, Mass., he had retired from the Gibbs Brothers, a florist business, in 1938 after 43 years of work. He was a life member of the American Floral Association, the Rotary, Masons, and Odd Fellows. Mr. Gibbs was a member of Kappa Sigma Fraternity.

1898

CHARLES PARKER CROWELL. Parker Crowell died on March 31, 1959, in Bangor, Me. A native of Orono, he had been the distinguished building Orono High School in 1938. Mr. Crowell was then an architect of Maine architects and senior partner of the firm Crowell, Lancaster, Higgins, and Webster until his retirement in December of 1956. Since 1902 Mr. Crowell had been in a Bangor office for the practice of architecture. More than 1,000 buildings in Maine were built under his supervision; his hospitals, schools, and business buildings are scattered throughout the State. Among the buildings at the University for which his firm served as architects are: Stevens Hall, Merrill Hall, Rogers Hall, Lord Hall, Estabrooke Hall, Balfour Hall, Colby Hall, Chadbourne Hall, Oak Hall, Dunn Hall, Cobbett Hall, the Mechanical Shops, the Horticultural building and green houses, and a two-wing addition to Aubert Hall. In addition, he served as a consulting architect for the Library, Boardman Hall, and Deering Hall. As a very active alumnus, Mr. Crowell served for several years as secretary-treasurer of the Senior Alumni Association, as president of the Penobscot Valley Alumni Association, for many years on the Athletic Board of the University, for 19 years as a member of the Alumni Council, and in 1932 he received the Alumni Service Emblem. He served on the Bangor City planning Board from 1948 to 1952. Survivors include his two sons, one as—Robert P. ’29 of Lancaster, Pa., and three grandchildren. Mr. Crowell was a member of Alpha Tau Omega Fraternity.

1900

HENRY FRANK DRUMMOND. Henry F. Drummond died in Bangor on January 8, 1959. He was president and treasurer of the Bangor Box Company of Brewer. In 1906 he joined this firm after spending several years with the General Electric Company in Schenectady. Mr. Drummond was a trustee of the General Hospital and of the Bangor Historical Society; he served on the board of the Bangor Symphony Orchestra and worked with that group toward the purchase of Symphony House as a conservatory of music. He was an active Rotarian. As an active alumnus at the University of Maine, he served on the Alumni Council, the Memorial Gymnasium Fund Committee, and as president of the Kappa Sigma alumni. Survivors include two daughters—one is Charlotte Drummond—master’s degree in 1941) Mannecke of Seoul, Korea; a granddaughter—Marcia Dolley ’62 of Bangor; and four grandchildren—is Henry D. Mannecke ’55 of Philadelphia, Pa., and another is Michael Dolley ’61 of Bangor, Me. Drummond was a member of Kappa Sigma Fraternity.

1902

SAMIlUE PRINCE DAVJ. The Alumni Office has been informed that Samuel P. Davis died in March of 1958. His business was real estate and insurance brokerage. He had been retired for several years and resided in Glendale, Calif. His widow is listed as surviving. Mr. Davis was a member of Beta Theta Pi Fraternity.

1904

CLIFFORD GRAY CHASE. Clifford G. Chase died on March 15, 1959, at his home in Bangor, Me. A native of St. Margaret’s Bay, Nova Scotia, he served for many years as purchasing agent for the St. Croix Paper Company of Woodland. Mr. Chase retired in 1954; he had also been editor of the St. Croix Observer, the local weekly newspaper. He served several terms in the State Legislature and was the former Chairman of the State Water Improvement Commission. Mr. Chase was active in many Masonic groups and in the Calais Rod and Gun Club. Mr. Chase was president of the Class of 1904 of the University. Survivors include his wife, two sons—one as Granville ’28 of Hohokus, N. J., a daughter, a brother—Danie1 ’08 of New York City, a sister—Florence Chase ’09 (of Orono), and a grandson—Robert C. ’53 of Orono, and a daughter—Marjorie (Chase ’32) Awezic of Waterford, Conn. Mr. Chase was a member of Sigma Alpha Epsilon Fraternity.

1905

STUART WALDO HANSON. Stuart W. Hanson died on January 9, 1959, at Colorado Springs, Colorado. He was a resident of Denver until moving to Denver in 1957. Survivors include his wife, a daughter, two grandchildren, and four great-grandchildren. Mr. Hanson was a member of Phi Gamma Delta Fraternity.

1908

ARTHUR LAWRENCE BEEDEE. Arthur L. Beedle died in July of 1958 while vacationing at his home in South Paris, Me. Mr. Beedle resided in Cincinnati, Ohio, and was president of the Beedle Equipment Company. Beedle was a member of the executive committee and a director. Survivors include two sons as listed as survivors.

1920

PHILIP JOHN LEARY. Philip J. Leary died on March 15, 1959, in Chelsea, Mass. A native of Lynn, Mass., he prepared for college at St. John Preparatory School in Danvers, Mass. From Maine, he served as a lieutenant in the U. S. Army in World War I and again in World War II. He was a partner in the Shea and Leary engineering firm in Lynn for a number of years before becoming an inspector for the Army Engineers. He had resided in West Newbury for nearly 20 years. Survivors include his wife, two sons—one is Joseph W. ’50 of Methuen, three daughters, three brothers, two sisters, and several grandchildren. Mr. Leary was a member of Alpha Tau Omega Fraternity.

1926

THOMAS ROLAND, JR. The Alumni Office has been informed of the death of Thomas Roland, Jr., as having occurred on January 3, 1944, in Holyoke, Mass. He was a native of Nahant, Mass., and was a florist. No further details are available.

1930

DONALD GREGORY WHALEN. The Alumni Office has been informed that Donald G. Whalen died on September 11, 1957, in Portland, Me. A native of Sanford, he graduated from Lee Academy before attending the University of Maine. For the past two years he had resided in Portland; previously he was employed by J. J. Newberry Company, Firestone Rubber, and the Old Town Company. Survivors include his wife, his parents, two sons, and three brothers—one is Robert ’50 of Millinocket.

1933

WILLIAM EVERLETH HARMON. William E. Harmon died on March 30, 1959, at Bridgton, Maine. He was the owner and operator of the auto service station in Bridgton. Mr. Harmon was a noble grand of the I.O.O.F. and an active member of the Redmen. Survivors include his wife, six sons, two daughters, his mother, twin sister, and two half-sisters.

1939

PAUL ARTHUR VANCE. Paul A. Vance, of Easton, Me., and son of Mr. and Mrs. Paul Vance, is currently a student at the University of Maine. He is a member of the Alpha Phi Omega Fraternity.

1942

KENNETH SHERWOOD SAWYER. Kenneth S. Sawyer of Grafton died in Bangor on March 14, 1959. A native of Garland, he had been employed by Fox and Gymn, Inc., and Peavey’s Express Express of Bangor. For the past two years he had resided in Denver, Colorado. He was the subject of some interesting comments in his note and we can assure you that Prof. Weston’s wit is as sharp and fine as ever.

1943

WILLIAM EVERLETH HARMON. William E. Harmon died on March 30, 1959, at Bridgton, Maine. He was the owner and operator of the auto service station in Bridgton. Mr. Harmon was a noble grand of the I.O.O.F. and an active member of the Redmen. Survivors include his wife, his parents, two sons, and three brothers—one is Robert ’50 of Millinocket.

1946

RALPH WALDO THOMAS. Ralph W. Thomas died on March 31, 1959, in Tampa, Florida. A native of Sanford, he graduated from Lee Academy before attending the University of Maine. For the past two years he had resided in Tampa; previously he was employed by J. J. Newberry Company, Firestone Rubber, and the Old Town Company. Survivors include his wife, his parents, two sons, and two half-sisters.

SONAL ALUMNI

1883

Miss Jane C. Michaels, the oldest living alumna of the University of Maine, resides at the Hotham Nursing Home on the Bangor-Orono Road in Orono. She lived in Old Town most of the time prior to the last year, and is known for her numerous articles which were published in the Penobscot Times, the local weekly newspaper.

1896

We have recently received a note from Professor Emeritus Charles P. Weston who is convalescing at Martin’s Nursing Home on the Bangor-Orono Road, R. F. D. 1, Bangor, Maine. The April Alumni was the subject of some interesting comments in his note and we can assure you that Prof. Weston’s wit is as sharp and fine as ever.

1899

Wallace Belcher enjoyed the Easter season at the Inverurie Hotel, Paget, Bermuda. While there was a profusion of flowers, the family was not as fully blossomed as usual due to the...
early cote on which Easter fell this year. The Belchers were in Bermuda on their honeymoon 50 years ago.

By a fortunate coincidence another alumna of Maine State at the Hotel was Mrs. George E. Sukinson '14 from Providence, R. I.

Clara (Green) Campbell has changed her address from Portland to 9 Shore View Dr., Yonkers, N. Y.

1900

Judge Ernest E. Hobson of Brown Street in Palmer, Mass., observed the 50th anniversary of his admission to the bar in March of 1959. He is serving as judge of the Eastern Hampden District Court.

Autene (Cousens) Hinks has a southern address: Perky Villa, Elmor Village P. O., Ormond Beach, Florida.

Frank A. Neyes resides at 125 Westway Place, Battle Creek, Michigan.

John L. Robbins of LaGrange tells us that he attended the Maine-Colby Football Game last fall, but didn't see anyone. John is now a senior in Worcester Tech in M.E.

Myles W. Illingworth, Concord Hall, 3 Concord Ave., Cambridge, Mass., writes, "Will be 75 years (young) in April. Still going strong. I am just rounding out 50 years of organization work. Have had the privilege of working with many of the leaders in the Field of Business."

Charles E. Davis, 20 Wayside Ave., Bridgton, had been working steadily at surveying the Waterford-Norway town line of 7 miles length, until snow came, so he did not get in his usual hunting. He saw two moose. They did not get to Endicott, Maine.

Joseph F Merrill, 318 16th Street, Manhattan, Kansas, seems to be enjoying his retirement. Evidently his health is better than it has ever been, even though he says he tires quite quickly. He enjoys the local "Rock Hound Club" which searches for fossils, etc., in limestone and shale. He is also interested in the Riley Fish and Game Association. He and wife were quite busy at Christmas with two daughters and two grandchildren in town.

Frank P Holbrook, Louis Terrace, Apt 46, Chattanooga 3, Tenn., says he and wife are in good health for their age. He has been on the staff of the Patten Hotel, which he did for three years, for the hours were irregular and he began to feel the need of more freedom.

Frank S Sawyer is now living at 4712 Roanoke Parkway, Kansas City 12, Mo.

Emory needed a model of its campus. Mr. Weston has been intimately interested in the University since his student days and he began to feel the need of more freedom.

Y quarantine for the seasonal influenza and drives in cardboard, wood and paint, has recently been completed. Behind the building is a model of the replica of the Emory campus constructed by Clarence Weston of 1908, has been made available for our class column.

Autene (Cousens) Hinks has a southern address: Perky Villa, Elmor Village P. O., Ormond Beach, Florida.

Clara (Green) Campbell has changed her address from Portland to 9 Shore View Dr., Yonkers, N. Y.

Your alumni office, 44 Library, is interested in having any copies of PRISMS which you may have and for which you do not have further use. There is a historical file being compiled, and the Institution is interested in collecting several copies of each PRISM. We are particularly interested in finding 1909 PRISMS at this time.

By Classes

1908

Mr. James A Gannett 166 Main St., Oroco

Thanks to Prof. Charles P. Weston '60, a copy of The Emory Wheel, the undergraduate newspaper of Emory University containing a description of the replica of the Emory campus constructed by Clarence Weston of 1908, has been made available for our class column.

Golden Wedding Anniversaries are in prospect for '08'ers in the coming years. In addition to the Merle Sturtevants who celebrated their 50th last June, Elon and Harriet Brown observed theirs on September 4, 1959. Harriet said in a recent letter, "I wrote of the Golden Anniversaries and asked how we celebrated. We held Open House and about 135 of our friends came to offer good wishes and we had a fine time. Quite a few calls from friends would come in to celebrate our anniversary."

Golden Wedding Anniversaries are in prospect for '08'ers in the coming years. In addition to the Merle Sturtevants who celebrated their 50th last June, Elon and Harriet Brown observed theirs on September 4, 1959. Harriet said in a recent letter, "I wrote of the Golden Anniversaries and asked how we celebrated. We held Open House and about 135 of our friends came to offer good wishes and we had a fine time. Quite a few calls from friends would come in to celebrate our anniversary."

Did you put down in your date book "Orono—June 5-7, 1959"? If not, do it now. You must not miss that one.

Howard Johnston ("Johnny") calls attention to a little blunder in his recent story. His new permanent address is in the March Notes as 201 W. Mountain Drive, New Port Richey, Fla. It should be 201 West Mountain Ave. Sorry! The Johnstons are well settled now and very happy that they made the change from Massachusetts to Florida. Now the problem is: why didn't they move ten years earlier. One more flake of snow and Johnny would fly into hysteric. Comfort, company, and citrus fruits are wonderful, Johnny! We are so glad! But there will be no snow in Oroco in June. Hope you can make it.

Martha (Knight) Anderson writes that her son and his bride are coming East from California in June to be located at Irvington-on-the-Hudson, N. Y., with the Nevis Biological Laboratory of Columbia Univ. It will be nice to have them located near so. Marrie's address—Mrs. Olaf J. Anderson, 126 West River St., Orange, Mass.

A card from the George Naumans, mailed in Buenos Aires, indicates that they are having a grand tour of South America. They'll be back for Reunion.

We understand that many of our number have already reported they expect to attend our 50th and returns are still coming.

Walter Emerson has had a good winter in Florida. He and Jessie will come home about April 1, to take over the insurance business while Mrs. Emerson goes to Harvard business. For Walter, Jr., it will be a return, under happier circumstances, to his base of operations during World War II.

At this moment, it appears that our class gift will be in excess of four thousand dollars. The presentation in Jospeh, will well quicken your pulse with pride. Don't miss it!

Mr. Dimon E. Merrill 293 High St., Westwood, Mass.

Appreciative honors were recently accorded to Robert W. Littlefield of Westwood when the Wells-Osgood Parent Teachers Association pre­ viously held a dinner in which Mr. Littlefield has been a member.

Frank S Sawyer is now living at 4712 Roanoke Parkway, Kansas City 12, Mo.

Did you put down in your date book "Orono—June 5-7, 1959"? If not, do it now. You must not miss that one.
present work or play, trips recently taken or planned, facts about your present work or play, facts about any other members of 1910 that you pick up, and they will soon appear in the Maine Alumnus. Best of all, please write me as follows, "I will be in Orono for our Fiftieth Reunion in June 1960" Through your cooperation in sending news items frequently, we will all feel better acquainted for the Big Reunion coming up in 1960.

1912 Mr. William E. Schrumpf 40 Atlantic Ave, Orono

Five hundred alumni and friends of the Asbury Park High School assembled at the Sea Girt Inn on June 27, 1912, to commemorate a testimonial dinner in honor of Edward F. Carleton '12, who retired July 1 at 41 years as teacher, coach, and athletic director of the Asbury Park High School. Ed went to Asbury Park in 1917 and returned after a haitch in the army to coach basketball and another one as football coach. He was a member of the New Jersey State Intercollegiate Athletic Association, was on the executive committee that was able to set up the football rules and was a gala affair for outstanding recognition of his excellent record of service as an officer and employee of this fine company. "Blondy," wife, Lillian, and daughter Phyllis are going abroad this month (April) and intend to visit Russia, as Phyllis is an expert on Business and a good student and learn much about this land behind the "Iron Curtain." She works for the American Cyanamid Co. and does all their travel around the world. It is said that as a result of Russian articles, they are buying a Mercedes-Benz in Germany and doing the balance of Europe and England under their own control. Now, that's what I call a real vacation and a well earned one. Congratulations, "Blondy" and best wishes that you and your family will have a wonderful trip, but be sure and get back by June 1963 for you are "booked" for an illustrated lecture at the 50th Reunion this June, but it's impossible."

The first edition of Who's Who of American Women has just come to my desk and in it I found Leah (Ramsdell) Fuller. Leah is the author of several delightful books and is very active in Club work particularly PEN. She summers in Rockland and winters in Coral Gables, Florida, at 1231 Genoa Street.

I have two new addresses:

Lt. Col. Donald Lambert is now at Twin Coves, Southport, Me. I think he has probably retired.

Don Coady is at 159 Graham St., Biddeford, Me.

1922
Mrs. Albert E. Libby (Minnie Norell)
Mallett Hall, F.S.T.C., Farmington

Rememmbing the feeble but enthusiasm attempts of the early theatre of our day, how the Maine Masque has grown in stature and importance. This year it was selected by U.S.O. and ATA for a tour of military installations in Europe. William, son of Stan Hanson, was a member of that cast having such an exciting experience.

Leona (DeBeck) Wooster, principal of the consolidated high school at Sorento, had the misfortune to slip on the ice and fractured her hip. Her son graduates from Maine this June and her daughter from high school.

I am sure more of the many school problems now facing us would be resolved with men of Philip White's caliber serving on the school committees. For the past 25 years he has carried out his own philosophy "that a person able and qualified to render public service should do so." During his term of office on the school committee "Reading High School and Birch Meadow School have been constructed and extensive alterations on others;" also "the concept of providing sites for future school needs" has been carried out. In the area of teacher problem he "recognizes the need of being in a position to adequately compensate good teachers." He is associated with the Boston lawyer firm, Hutchins and Wheeler. He and Martha (Sanborn '23) have five children, all properly educated, I am sure, and several are Maine Alumni.

We were sorry to learn that Frank Preti of Portland has been in the hospital since last December. He had a stroke while working at his desk. You will rejoice with Frank that the prognosis is good and that he shows improvement every day.
Bedford Rd., Pleasantville, New York. As this is also the hometown of the Reader's Digest, Catherine is working with them temporarily, which appears to be most stimulating and interesting. Their daughter is a senior at Smith and a son lives in Maine.

And not far away lives James W. Merritt at 23 Old Mamrook Road, White Plains, New York (so the Alumni Office tells me).

Philip D. Davis is living at 122 Ellis Avenue, Jamaica, New York.

William M. Foss has moved to a new address which is 11 Circle Lane, Albany, New York.

Marie (Hodgdon) Curtis, since the sudden death of her husband and our beloved classmate, has moved from Toptown to 234 College Road, South Portland.

They have a summer home. Fernald is president of the Ryle Manufacturing Company of West Paterson and is also head of the Instrument Specialties Company, Inc., of Little Falls.

MAY, 1959

Here are some future foresters of Maine. Frances, 9, William, 4, and Fernald, Jr., 11, are the children of Fernald '25 and Mrs. Stickney of 34 McKinley Avenue. West End, near the historic buildings, where they have a summer home. Fernald is president of the Ryle Manufacturing Company of West Paterson and is also head of the Instrument Specialties Company, Inc., of Little Falls.
have you heard?...the latest news about your former classmates at Maine? You probably haven't, for it has been many years since you last talked with them. Did you know that they may be back on campus on June 5-7 for the annual class reunions? It's an event you won't want to miss, for a lot has happened in the years since you left college. You'll want to be on hand to renew those acquaintances.

Classes holding reunions this year will be:

- **Senior Alumni**
  - 1934
  - 1939
  - 1944
  - 1949
  - 1954
  - 1957

All other alumni, regardless of class, are cordially invited to attend this year's program.

Our sympathy is extended to Miriam Hanaburgh and Mary (Sewall) Alden. Their mothers passed away this winter.

**S.O.S.—No news from you—no column for June.**

1934 Miss Claire S. Sanders
123½ Main St., Orono
25th Reunion, June 5-7, 1959

I am indebted to Maxwell (Harding) Goode of Bangor for the following item: Peggy (Dodge) Booker has been visiting in Brewer recently. Guy '33 and Peggy live at 215 Aroela Avenue, Penacook, Florida. Guy is safety supervisor at Chemstrand Corporation. The Bookers have three children: Ellen, 20, a junior at the University of Alabama, is studying to be a medical technician. Sally, 16, is a junior in high school; and Richard, 12, is in the seventh grade in junior high.

Larry Tompkins' daughter Ann, a senior at the University, was just elected to Phi Beta Kappa Congratulatations! Their home is Island Falls, Maine.

Some addresses: Merle H Bragdon lives at 808 Bayshore Boulevard, Clearwater, Florida; John C. Good at 5612 No. 19th Place, Phoenix, Arizona; and Hope (Clark) Saper, Grey House, Ardsley on Hudson, New York.

Plants are progressing for our 25th Class Reunion. Pete Karakeas has requested that you return your questionnaires to him as soon as possible. Some additional information on the class dinner to be held at the Orono Inn on Friday night, June 5, a little later. Tom Hersey is chairman and he promises a fine dinner with a most enjoyable program to get us all reacquainted. A letter will come to you asking for reservations.

Please plan to be with us for the big Reunion Class Banquet. If you have not received any information about the Reunion, write directly to Stanford Searles, 189 Greenacres Avenue, Longmeadow, Massachusetts, who is Reunion Chairman.

1935 Mrs. Thomas S McGuire
(Agnes Crowley)
21 Widgeon Way, Greenwich, Conn

Dear '35ers,

How nice to hear that Don and Gin (Trundy) Stone are living at 180 Burgess Avenue, Westwood, Mass. In the family, too, are Susan, 16, a junior in Westwood High School, and Don '85, a third grader. Don travels constantly in his position as appraisal engineer for Stone and Webster Engineering Corp. As Gin wrote, Don was in the Dominican Republic, and has just arrived from Mexico. Much of Don's traveling is in the U. S. A. He was president of the Boston Chapter of the American Society of Appraisers for two years, and Regional Governor for the next two. The Stones include all of New England. For over five years, Gin has been active in the P.T.A., League of Women Voters, etc. Occasionally the Stones see Bob Arey and his wife. Bob is in Stamford.

Next month—

1936 Mrs. Edwin P. Webster
(Phyllis Hamilton)
286 Bowery Rd., Bangor

Here's news on three of our Classmates: George H. Northrup lives on Adams St., Silver Hills, New Albany, Indiana.
Glad to hear Ed and Bertha Spalding summer at Kennebunkport. That is just a stone’s throw away from Ed and Bertha’s in Meriden, N. Y., and they both teach at Kimball Union Academy. Their children are Edward, Jr., 17, and Martha, 14. Judge Kenneth A. Sparr and Joan live in South Orleans, Mass. Ken is Judge of Probate for Barnstable County. I love the way Ken described his wife’s occupation as “None” with a little p.s. description of her as mother, housewife, nurse, taxi-driver, feeder of dogs and cats, house painter, and committee woman. Ken and Joan have three sons: John, 13, Peter, 11, and Leonard, 6, and all three enjoy Scouting and motorcycle riding. No more than 20 years ago they had a trip to Europe—partly because Ken’s foreign duty in the Navy took him to Missouri, Florida, and Texas! Ken is active in Rotary and Moderator of Orleans Town Meeting. The family enjoy sailing, music, birds and last of all, observing summer visitors! Ed and Elizabeth (MacKinnon) Stetson have a delightful place for vacation in West Gardiner, Maine. Ed is Economic Administration at Topus, but in the summer they run “Vorone Lodge and Cabins.” They have one daughter, 12, who is a Scout and active as they are, in swimming, boating, and church activities. Joanne Elizabeth is a member of the church Choral Society among many other activities.

Douglas and Lib (Thaxter) Wyllie live in Lynnhaven with their son, David, 14, who is a senior at University of New Hampshire, and Gordon, 19, who is a freshman in high school. Lib is an accountant and office manager. The Wyllies all enjoy church socializing, square dancing and gardening.

Vincent L. Hathorn is now addressed: Capt. on R. A. Burns receives mail c/o Hutchins Advertising Company, 43 East Avenue, Rochester 4, N. Y.

Numerous news letters from Maine “Jim” Sproul is the start of the most news this column has seen for some time. Jim, or Manley as he was known during our college days, transferred to law school, lives with his wife, the former Ruth Wadsworth, and one summer Bertha Elaine, and son Bruce, on Scarsdale Road in Dennis, Mass. Elaine is completing her third year at Harvard Law School, and Bruce attended Tabor Academy in Marion, Mass., next fall. Jim is president or treasurer-manager of three lumber firms and two real estate corporations located in Maine, New Hampshire, and Massachusetts. One of them, Flax Pond lumber, Inc., is at Dennis Church Choral Society among many other activities.

Effective on February 1, Don Kilgour was assigned to the general office of the Central Maine Power Company. He has special district work there and at eastern division headquarters in Rockland. Don has been district manager at Norway since 1946, and has worked with his wife Barbara and two sons. Active in community affairs, Don has had a number of offices in the local Chamber of Commerce, assistant cub master, and in Little League work. (Still keeping that left arm in shape, Don?)

Harry Conner, general superintendent of the Oxford Paper Company in Rumford since 1955, has been promoted to the position of assistant mill manager, with overall responsibility for all paper manufacture, conversion, finishing, shipping, and related activities.

Raynor Brown of North Waterford has been appointed to a five-year term as a member of the Agricultural Advisory Council of the University of Maine by President Lloyd H. Elliott.

Appearing on the program of the 52nd Annual Farm and Home Week at the University last month were ’37ers Tom Houghton, Bev Rand, Jerome Emerson, and your reporter.

Saw Josie (Naylor) Woods of Kittery at a State Pilgrim Youth Fellowship meeting in Portland in mid-March. Also saw Elmer Crowley of Augusta. Josie’s daughter and Elmer’s son were elected state officers in this organization.

1938

Mr. Robert L. Fuller 47 Andrews Ave., Falmouth Foreside, Maine

A nice newsletter from Maine “Jim” Sproul is the start of the most news this column has seen for some time. Jim, or Manley as he was known during our college days, transferred to law school, lives with his wife, the former Ruth Wadsworth, and one summer Bertha Elaine, and son Bruce, on Scarsdale Road in Dennis, Mass. Elaine is completing her third year at Harvard Law School, and Bruce attended Tabor Academy in Marion, Mass., next fall. 1939

1939 Mrs. Norman H. Thompson (Phoebe) 87 Whipple Rd., Kidder

20th Reunion, June 5-7, 1959

This is it. The celebration date is almost here. Attention! The following is for you. Make your plans now.

Friday, June 5, Banger House 6:30-7:30 social “happy” hour. 7:30-9:00 Buffet or dinner. 9:00-1:00 Dance. Estimated cost $8.00-$10.00 per couple for evening.

Saturday, June 6, A.M. Breakfast by classes. Class pictures, reunion and chapter meeting.

Alumni meeting

Neon Barbecue lunch.

P.M. Picnic at campus

Alumni Banquet

Alumni Hop

The following are quite sure will be there: Laura (Chute) Danforth, Jim Cunningham, Spike Leonoh, Bob Colluman, Helen (Bond) McCutchan, Wilfred Bennett, Kay (Cox) Bennett, Tom and Barb (Corbett) Barker, Lynne (Parkman) Huff, George Temple, Alice (Lancaster), Paul Brown, Phoebe ( Dunbar) Thompson, Diana Drew, George and Lucille (Bell) Grange, Mac McCarthy, Art Weatherbee, Bill Hilton, Tom Verrill, Irwin Cooper, Dot (Silver) Seota, Al Friedman, Dave Trafford, Edwin Lawson, Harry, (Harrison), Dempsey, Tim and Hazel (Curran) Corin, Phil Craig, and Merrill Bradford.

This is the last time I shall be able to tell you about Reunion plans. Twenty years have passed, it is time we got together. Hope to see many familiar faces and shall carry around notes to attempt a reporters coverage for the next issue. See you Friday night for a few hours then all day Saturday. Tim and Hazel (Curran) Corin are residing at Chestbrook Knob, Road, Danbury, Conn. Their children are Barbara Jean, 11, Timothy Paul, 9, Mary Elizabeth, 7, and Patricia Ann, 4.

Tim is the manager of the Genung’s Dept. Store. They have been living in Danbury for twelve years. Mary (Orr) Devitt of Waterville was in the news-print in March through her hubby Joseph J., supervisor of secondary education for the Maine Dept of Education in Augusta. Mr. Devitt lectured to a class in Maine Government at the University of Maine.

From the ’40 column I learned that Tib and Betty (Kruze ’40) Parkman have moved to Charlotte, N. C. They have four children: three boys and a girl.

News comes from Charles S. Parnell (change from Patrinellis) He is the editor for Bancroft Whitney Co., San Francisco, Calif. Charles has three children—Linda, 16, Susan, 6, and Richard, 4.

Until our Reunion in June. Remember the dates JUNE 5, 6, & 7.

1940 Mrs. Artemus Weatherbee 1032nd Ave., Silver Spring, Md.

Here’s news of the distaff side:

Charlotte (Noyes) Olson and family live at 209 Elm St., W. Concord, Mass. Husband Fred is a physicist with the U. S. Gov’t. The family is Sally, 17, Nancy, 13, and Buck, 9.

Margaret (Maxwell) Atwood lives at 1060 Beacon St., Brookline, Mass. Dorothy (Shiro) Katz lists herself as a housewife and is busy at 91 Snowden Lane, Princeton, N. J.

with you. I have some wonderful letters to share
Whalon) I also do volunteer work at the hospital. Penny and I are looking forward to going to New York to TAPPI. What a pleasantly busy life, Jane.'

Jane (Rand) Pendleton, 122 Hollis Rd., Lunenburg, Mass., writes. "I have had 10 years in Girl Scouting, 2 years as a leader, and I am now a Life Member. I am still active in T. A and our square dance club. I am a member of one of the women's service groups at our church (All Saints Episcopal Church in Lunenburg)."

Edward Falardeau is located at 13499 Crenshaw Blvd, Hawthorne, Calif. He is a real estate broker, has his own company, and is a member of the National Association of Realtors. When he wrote, he had just returned from a ten-day trip to St Petersburg to take home movies of the New Museum of Art and History.

Dorothy (Hodgkins) Anderson lives at 2808 Dover St, Longview, Washington. The Andersons have three boys, David, 11, Douglas, 9, and Wendy, 4. Beth can say almost 25 words and short phrases, half are Japanese. She loves everyone, "this smiling kung, delightful armful of Imp." Wendy goes to nursery school, speaks a little Japanese, and enjoys chopsticks like a native, and prefers her getas to shoes. Daddy and Mother have been in the building of a little Japanese Episcopal Church. They have an on-site congregation and a Japa

tese congregation of about 80 families. The service is led by both a Japanese and an American rector. "We have raised $4500 by canvasing gifts, with $2500 more to go to buy the land. We have been given three Queen Bats which will be the church building, so we are well on the way. Any donations gratefully accepted!" (If any of our church guilds, back home would like to help us, we'd be so appreciative of $1.00, $5.00, just anything you can give.)

Jane (Rand) Pendleton, 122 Hollis Rd., Lunenburg, Mass., writes. "I have had 10 years in Girl Scouting, 2 years as a Browne Leader, 2 years as a troop leader. I am a member of my church's Girl Scout Council and all the P. T. A. and Church activities that go with them. At present, I am a guidance counselor and a junior high school teacher. I have two Boy Scouts, 12 and 11. My 7-year-old twins will be my next Cub. My 15-month-old baby looks up to his big brother and they love each other." The Haynes & Chalmers Co.

A. S. Chalmers '05, Treas.

MALE HELP WANTED

A wonderful and great opportunity! If you have Encyclopedia sales experience, Vacuum Insurance, Stainless Steel Utensils, etc. Write today. References required.

LAMBERT DISTRO DISTRIBUTORS

335 Yonge & 1 Gould St. Toronto, Ontario, Canada.
to date on the whereabouts of Peter Crockett. Peter served three years in the Navy, returned to the U. of M., but because of N.E. climate he transferred to the U. of Wisconsin. The committee is really planning some wonderful get-togethers that will take place with a bang there. If Bob Campana and wife Deanie are going to make it all the way from Long Beach, Calif., and the Ted Carters from New York, we can do it, too. Speaking of Bob, he and Deanie are rocking their second daughter born on February 9—Constance Catherine. Had the most wonderful letter from Phil Craig and glad to catch you up with his family. He and Leslie are parents of three: Douglas, 5, Lauree, 3, and a March 3 entry—Barbara Jane. They are living at 725 Pine St., Deerfield, Ill., and are both very active in community activities. Phil is in the employee and industrial relations field and presently working installing a new program at the Vapor Heating Corp. of Niles, Ill. Phil is so sorry to miss the Reunion but will be thinking of us all recollecting old times on campus.

Hear that George Harris has been promoted to the manager of marketing operations at the Johnson City plant of G.E. in Waterville, N. Y. Very proud to read that Ralph Barnett was chosen by the Maine Jr. Chamber of Commerce as one of Maine's three outstanding young men! Daryl Pelletier has been appointed principal of the North Street Junior High School in Green- \nwich, Conn. Before assuming his duties of April 1, he was an educational lecturer at Bridgeport Univ. Daryl and Gloria (Dow) have 4 daughters and are living in Riverside, Conn. Clyde Adams is now living at 26 Mountain View Rd., Poulsbo, Wash., and is the assocs. county agent for Pierce county. Wouldn't it be wonderful to see Beth and Elmer Bartley at the reunion? And the five little Bart- \nleys, too! Elmer has just been transferred from Seattle to the Boeing Aircraft plant at Moses Lake, Wash. They say it is so much more like Maine this side of the Rockies. Norman Curtis was married in February to Pauline Leatherman of Pittsburgh, Pa. Norm is working for the Pittsburgh Light and Co. and they will live in Allentown, Pa.

Bill Stuckel is an engineer for the Belcher Oil Co. in Miami and lives at 4271 N W. 172 Drive, Opa-Locka, Fla. Edward G. Hough was recently elected as chairman of the New England Council of Young Republican Clubs at their recent quarterly meetings in Concord, N. H.

For your information, the Alumni Office has new addresses for the following: Harriet Rowe, now Mrs. Murray Robbins, 186 Russell St., Worcester, Mass.; Howard E. Wiswell now lives at 2325 47th Street, Washington, D. C.; Margaret Michel and Millard Moors in Phila- delphia. Mrs. Moors was employed at Nan Duskin of Philadelphia. Millard is presently at Hercules Power Co. Home is at 509 Riverview Drive, Apt. 5, Kalamazoo, Michigan.

Students, well, guess that is all I can add for this month. Remember the Canamans can come from Calif, the Bartleys from Wyoming, and Carters from New York, you can do it, too. See you in June on campus.

50th Reunion, June 5-7, 1959

Just think—next month is our big time. . . . Hope you all have your plans made to be right there when the Class of '49 lines up. The commit- tee is really planning some wonderful get-togethers that will take place with a bang there. If Bob Campana and wife Deanie are going to make it all the way from Long Beach, Calif., and the Ted Carters from New York, we can do it, too. Speaking of Bob, he and Deanie are rocking their second daughter born on February 9—Constance Catherine. Had the most wonderful letter from Phil Craig and glad to catch you up with his family. Service, an enterprise he started himself a short time ago.

Clare (Levaruret) Hodgkins sent along scads of information a bit ago. First, Clare, Wendy, and Vonc, 5% and Stephen, 3, have been in Washington, D. C., since 1956. Wendy spends his days as an occupational analyst for the Army and his nights at Georgetown University Law School where he has one more year to go. Their address is 428 37th Place, S.E., Washington 19, D. C.

The Meaders, Russ and Jo (Jostyn), have a new home at 4 Laurel Hill Lane, Winchester, Mass., with their three children, Jeffrey, 4½, Holly, 2½, and Andrea Beth, 9 mos.

The Allens, too, have a new home where Walt '50 and Beth (Clark) and Andrea Jo, 4½, live at 27A Gallup Lane, Waterford, Conn.

Alton and Dottie (Patten) Curtis and the two boys, Foner, 4, and Warren, 3, are at 165 East St., Whinsville, Mass. Alton is teaching a business course at the high school and attending Boston University at night working toward his master's in business education. Ken and Roseanne (Pendleton) Gray have a new home in Hermon. The Grays have two girls, Cindy, 2½, and Nancy, 6 mos.

Jim '50 and Marie (Bean) Ashley live in Presque Isle with their two girls and boy, ages, 5, 3, and 1½.

Dick and Anne (McKiel) Whatley are in Narragansett, Rhode Island, where Dick is an assistant coach at the University of Rhode Island. Since Dick coaches at a boys' camp outside Winthrop every summer, the family including Billy, 3½, and Sue, 2½, get to go to Maine.

Joyce Foss is at Iowa State working toward her American Dietetic Association rating.

Dick and Jan (Bannister) Reilly are at 36 Mac-Arthur Rd., East Natick, Mass. They have just had a third daughter recently.

Pat Thurston is teaching in Hartford, Conn. She spent six weeks last summer as an European tourist.

And that was some letter—I hated to see the end of it Thanks, Clare

Congratulations and best wishes to Byron Perry and Mary Ryder on their February marriage. Mary was graduated from John Brown and is now employed at the New England Telephone and Telegraph Company. Byron is a teacher at Bangor High School at present. The couple are now at home at May Srirêt in Vazee.

Saw our first spring robin on the lawn today! What a delightful sight after the long winter we've had!

1953

Mrs. Philip E. Johnson
(Euni Rustia)
South Penobscot

I don't know about you, but I was beginning to entertain serious thoughts of spring never coming this year—I'm convinced now, however, that it has arrived. (That brown stuff the kids track in on their boots isn't chocolate!)

This month we hear that:

Roberta A Rogers of West Hartford, Conn., is engaged to Richard Goodin. She is a graduate of the Eastern School of Dental Hygiene in Rochester, N. Y., and is employed in West Hartford. Dick served with the U. S. Army and now attends the University of Hartford, where he is employed by the Travelers Insurance Company in Hartford.

In February, David Silsby was married to Eleanor (Eames) Guild of Bangor. She is a graduate of Westbrook Junior College. After graduation, she spent some time as a '53er, David went on to graduate from Stanford Junior College and Stanford University School of Law. After a wedding honeymoon in Bermuda and New York, the Silsby's are now at home at 96 Welsey St., Bangor.

Robert Kellog's wife, Betty, is president of the "Forestry Wives" at Yale, a social group of about 25 wives of forestry students. She is a 1953 graduate of Mt. Holyoke where she majored in biochemistry. She did chemistry research in Summit, N. J., for two years. Bob expects to receive his degree as a doctor of forestry in wood technology this summer. The busy Kelloggs have two children, Kimberly, 3½, and Kerry, 8 months.

Wendall O. Quimby has accepted employment with the Dielectric Products Engineering Company, Inc. of Raymond, Maine.

Dorothy (Bell) Effren—a bona fide Missoula mule now—has recently moved to a new address with her husband, Ron, and 3½ year old daughter, Stephanie. She is a graduate of the University of Oregon and is employed in Missoula, Montana.

Nevada is about 6 miles from Kansas City where Lorrie has a sister. She also visits her parents in Denver, Colorado, each summer where they moved several years ago.

Donald S. Swicker has recently been added to the sales staff of the Sandusky, Mass., Consolidated School, where he teaches Grades 5 and 6. He served as a lieutenant in the U. S. Army from 1953-58 and completed tours of duty in Boston and Philadelphia areas, as well as Greenland.

That's all I have to report this month. How about you—Y-O-U—investing 3 or 4 cents to insure a continuance of this news in the ALUMNUS?

Happy Spring Fever.

1954

Mrs. R. L. Weatherbee
(Martha Jean Wyman)
M.R.B. Box 270A, Bangor

Have you already asked Grandma to stay with the children while you're at Orono—June 5, 6, 7? Perhaps those of you minus children could ask your best friend to mind your pet parakeet, pup, pussy cat, or python. Don't let anything hold you back from this big whang dingy!

Patricia Hamblot was married to Jonathan D. Petry of San Diego, Calif., on March 28 at Windham, N. H. Rumor has it that they may be heading for Singapore. Until recently Pat has been working for the U. S. Government in Washington Jonathan is a grad of San Diego State College and Stanford Dan and Joan (Leach) Davis wrote a note saying, "Hi to everyone" They are in the midst of moving as Dan has accepted a position with Goulds Pumps as a salesman.

"It's the merry month of May, and we find that..."

1956 Miss Judith A. MacPherson  
Towson, Maryland  
"We're well into Spring, and summer travelin' time will be soon upon us. So the news this month is going to be addresses and more addresses, for those of you who'll be coming out of hibernation and roaring into the summer sun..."

1957 Miss Kathie Vickery  
Southwest Harbor, Maine  
"Also heard from Larry Ronco who's way out West. Here's a little history: Larry and Sally Wright of Pittsfield and Arlington, Va., were married in June of '57, spent 4 months in Boston where Larry worked as an industrial methods analyst, and then to Benning, Ga. Since February of '58 they've been at Fort Carson, Colo where Larry is a 1Lt. In October Larry and Sally will be moving back east where Larry will be a partner and gen'l. business manager of a new magazine. What's the name, Larry? Larry said that Dick and Fran (Rich) Secord are in Philadelphia where Dick is going to U. of Penn. Dental School. Bob Smith is also in Philly doing grad work at U. of Penn's School of Osteopathy. The Ronco's address is 29 Broadmoor Ave., Colorado Springs, Colo."

To this day many believe that the Islands of Casco Bay have huge stores of pirate treasure buried along their shores. Names like Bold Dick Ledge, Blethen Cove, David's Castle, Burnt Coat, or Witch Rock; stories still exist of the infamous pirates Dixie Bull and Captain Kidd, serve to whet the appetites of treasure seekers.

One true story concerns Great Walt Bagnall, who gained much gold by dishonest transactions with the Indians, and is thought to have buried his hoard at Richmond's Island where he lived until killed by the very Indians he cheated. Whatever happened to Bagnall's fortune, it is a fact that in 1855, when the owner of Richmond's Island was plowing a field near the shore, an iron pot was turned up that contained gold and silver coins. Since the latest date on the coins was 1625, it may be reasonably assumed that this was part of Bagnall's loot.

Another story concerns a pirate ship that foundered on Brown Cow Ledge. Some of the crew are supposed to have escaped to Jewell's Island with a "great chest of gold," which they buried there.

Still another legend is of Captain Kidd who, making into a cove on Jewell's Island buried a "huge copper kettle" filled with his choicest treasure. One version has Kidd summarily executing the sailors who helped bury the treasure, so that only he would know the spot, which he marked with a flat stone on which he carved an inverted compass. Even today hopeful visitors to the island search for a stone inscribed with a compass pointing south.

On Crotch Cliff Island lived at one time a recluse, one Captain Keiff, thought to be a smuggler and a pirate. He had an unlovely habit, the story goes, of tying a lantern to his horse's neck during storms and riding up and down a brook lying behind treacherous reefs, to lure passing ships to their destruction. Many an unwary pilot steered his vessel onto the reefs, believing the light meant safe harbor. Keiff then salvaged the cargoes and is thought to have waxed rich on this practice.
