## THE DAILY DOUBLE—FIRST AND THIRD RACES

The DAILY DOUBLE consists of a play on the first and third races. In playing the Double, you select the horse you think will win the first race and the one you think will win the third race. You call for your Daily Double ticket by number. If it should be the 2 horse in the first race and the 5 horse you like in the third race, you ask for ticket 2-5. Be sure to ask for your ticket in this way, always giving the number of the horse in the first race first. If you turn the numbers around or reverse them, you will get a ticket on two horses 5-2 that you probably don't want.

The Daily Double is an entirely separate transaction from the regular betting, and the money bet on the Daily Double is a separate pool. It has nothing to do with the different horses in the first and third races pay in the regular betting.

All tickets for the Double must be purchased prior to the running of the first race. The official pay-off on the Double will be announced and posted before the running of the third race. Keep your tickets on the Double until the official winning combination has been announced.
