Esso and affiliates provide service in the United States and Canada. You can expect prompt, courteous, and efficient service when you present an Esso Credit Card. Webber Oil Company, Esso Distributor, 700 Main St., Bangor, Me., will be happy to give you complete details about the Esso Credit Card plan.
Wanted 100 Alumni...

who believe that their degrees are worth $5,000 or more...

who believe that they should return \( \frac{3}{5} \) of the cost of their education which was provided by the public-private partnership existing when they attended Maine...

who see that the service of their University to the State of Maine and the nation is a great service and not of importance only to themselves...

who have a deep faith in the broad educational purpose of a great University...

who believe in unstinting aid to all qualified young people...

who will contribute $5,000, over three tax years, to become partners in meeting the need at the University of Maine for an auditorium....

Signed: THE SENIOR PARTNERS

A. A. HAUCK BUILDING FUND
ON THE COVER

Our cover photo this month features Charles E. Crossland '17 who has served the University and the Alumni Association loyally for forty-three years. The young persons to whom he is talking in the foreground on the steps of the Library, are Mr. and Mrs. Harold L. Laskey. Harold (Buz) is a member of the Class of 1961; and his wife, Donna, is Secretary to the Executive Director of the Alumni Association, having worked in the Alumni Office for the past three years.
Want to Own . . .

A Piece of Maine?

No Population Explosion . . .
Maine has been unspoiled and untouched by extreme urbanization, and has abundant room in which to live, play and work.

A Growth Investment . . .
As one of the few places in the East with Real Estate available to fit modest budgets, Maine offers unlimited opportunity to those who wish to buy with an eye on the future.

These Brokers . . .
Will help you find the place that suits your needs. Consult them when you are interested in the purchase or sale of vacation, residential, business, or investment properties.

At the Alumni Banquet, General Alumni Association President George F. Dow '27 presented Henry T. Carey '22 with the 1960 Alumni Service Award. A capacity crowd attended the banquet and gave Mr. Carey a rousing ovation in recognition of his service to the University and the Association.

Henry T. Carey '22 Receives Alumni Service Emblem

H enry T. Carey '22 was awarded the Alumni Service Emblem on Saturday evening, June 4, to highlight the 85th annual Alumni Reunion of the University of Maine.

In presenting the coveted award to Mr. Carey, George F. Dow '27, President of the General Alumni Association, said:

"In 1930, the General Alumni Association established its highest award to recognize outstanding service to the University as rendered through the Alumni Association. Since that time, thirty Maine Alumni have received the coveted award.

"We have reached that moment in our Commencement-Reunion Banquet program where we are to present the 1960 Alumni Service Emblem to the person nominated and selected this year. It is a true pleasure and a distinct honor for me, to make this presentation.

"Our 1960 Service Emblem recipient has a long and enviable record of service to the University through the Greater New York Alumni Association. He has been an active worker and a leader of activities in the Greater New York Alumni Association.

"His advice and sound leadership have been valued in his work as a member of the Alumni council for many years. In 1953 he became a member of the Alumni Council Executive Committee.

"Always a key leader in general and in local alumni activities, he has been most generous in giving of his time and his gifts to fund campaigns. He was chairman for the Greater New York Union Building Fund; Special Gifts Chairman, Greater New York Arthur A. Hauck Building Fund and is a Senior Partner of the Hauck Building Fund. And, he has been a most helpful contributor to both individual and to group scholarship funds.

"He served from 1955 to 1957 as Vice President of the General Alumni Association. Then, from 1957 to 1959 he was President of the University of Maine Alumni Association.

"Our 1960 recipient is a true friend of the University. Tonight it is my privilege to present the 1960 Alumni Service Emblem to Henry Thomas Carey, Class of 1922, Jersey City, New Jersey."

GAA ELECTION OF OFFICERS

Reelected officers of the General Alumni Association were Dr. Dow '27 of Orono, as president; Alvin S. McNelly '44, of Melrose, Mass., as first vice president; Mrs. Lucy F. Sheive '27, of Portland, as second vice president; and Harry T. Treworgy '49, of Orono, as treasurer.

James A. Harmon '40 of Orono was elected clerk to succeed Edwin H. Bates '37, also of Orono.

Parker A. Leonard '50 of Bedford, N.H., was elected to a three-year term on the Alumni Council to succeed Thomas G. Mangan '16 of Livermore Falls.

Robert Nelson '45 of Attleboro, Mass., John F. Grant '48 of Bangor, and Albert S. Noyes '24 of Westbrook were re-elected to three year terms on the Council. The Council, at a meeting earlier in the day, re-appointed Raymon N. Atherton '18 of Orono to a four-year term as a stockholder in the University Store Company and Thomas Hersey '34 of Bangor to a three-year term on the Athletic Board.

Eleven of the classes and the Senior Alumni made the following gifts at the Alumni banquet:

Senior Alumni 3 annual $150
Scholarships $450.00
1910 To complete $5,000 in
Foundation $3,355.00
A. A. H. B. Fund 1,000.00
1911 Scholarship Fund $1,425.00
Total Fund 12,950.00
(Continued on Page 7)

OCTOBER HOMECOMING FOR '60

The big news about the next Alumni Homecoming is a change in date. October 8th is Homecoming day in 1960, with a Yankee Conference game with New Hampshire scheduled. (More on the homecoming change of date on page 11, under University News.)

The football team for this fall promises to be one of the best in recent years; and as always with Coach Hal Westerman’s teams, you can look for plenty of surprises.

Last year Maine played New Hampshire at Durham, with the game ending in a seven to seven tie in one of the hardest fought battles ever seen at N.H. The coming October clash is bound to be a contest no one can afford to miss.

Of special interest to many alumni will be a Masque presentation which will have been prepared for the new homecoming date through summer study of parts and early rehearsals.

The homecoming luncheon, presentation of Black Bear Awards and the usual various social events will be held throughout the festive week-end.

Football ticket applications will be mailed about August 1st to alumni living in the 10 northeastern states. Others may secure applications on request.

THE MAINE ALUMNUS
Retiring Personnel Honored

At the Alumni Luncheon on Saturday noon, June 4, GAA 1st Vice President Alvin S. McNeilly ’44, paid tribute to the retiring University personnel. Those honored were Roy W. Libby, Superintendent of the University Press; Harold Kimball, foreman of the poultry plant; Mrs. Alice H. White, stenographer in the registrar’s office; Dr. Kathryn E. Briwa, nutrition specialist; and Mrs. Charlotte C. Smith, clothing specialist, both in the Agricultural Extension Service; Dr. Esther Comegys, entomology; Dr. Charles O. Dirks, education; Dr. Frank E. Foster, education; Prof. Charles N. Howell, paper technology; Prof. Maynard F. Jordan, astronomy; Dr. Percy Leddy, director of the health service; and Dr. Marion D. Sweetman, director of the School of Home Economics.

Mr. McNeilly also paid tribute to the members of the Class of 1910 and each member was presented with a 50-year certificate.

(Continued from Page 6)

1915 Scholarship Fund $1,230.00
Total Fund 6,980.00
1920 U. of M. Foundation $5,644.00
Total Fund 8,244.00
1925 Scholarship Fund $2,167.00
Total Fund 3,702.00
1930 Scholarship Fund $600.00
Total Fund 2,530.00
1935 Student Loan Fund $1,935.00
A. A. H. Fund 500.00
1945 Scholarship Loan Fund $100.00
Total Fund 300.00
1955 Scholarship Fund $200.00
1958 Scholarship Fund $300.00
Total Fund 1,800.00
1960 Purchase of B.B.
Score Bds. $1,200.00
A. A. H. Fund 300.00
The following gifts were also made to the Alumni Activities Fund which makes Reunions and Homecoming possible:
Class of ’10 $175
’20 25
’25 100
’30 50
’35 100
’40 50
’50 100
’55 55
’58 50

Mr. Libby, Superintendent of the University Press, is retiring this year after 44 years of service at the University Press. One of twelve persons retiring from the University this year, he was among those honored at the Alumni Luncheon. In the photo above, he is shown by one of the flatbed presses which were new twenty years ago after he had completed 24 years with the Press.

The March, 1941 Alumnus, which dedicated a two page feature to Mr. Libby upon the occasion of his first twenty-five years of service had this to say: “...In 1916, one year after the first beginnings of the Press, a young man from Bangor arrived on campus to operate and keep in running order the new linotype machine just purchased. His name was Roy Libby...When Roy first arrived, he expected to stay three weeks or a month. But his stay prolonged itself as the work at the Press grew more varied and interesting with the growth of the University...It is an earned tribute to the Press and its Superintendent that the mark of the University Press symbolizes quality which is worthy to carry the name and seal of the University of Maine.”

The 1960 Alumnus would like to add: Thanks to a master printer whose patience and understanding over the years, coupled with dedication to quality and craftsmanship were mainly responsible for the excellent appearance of our magazine. We shall all miss the opportunity to turn to you for advice.

Clarence Weston ’08 has recently completed a scale model of the Hartwell Dam and Power Plant now being built on the Savannah River. The model is three feet wide by five feet long and is built at a scale of forty feet to the inch. Concerning the model, Clarence wrote: “The model has provided a pleasant and stimulating transition from forty-five years of dam and power plant design to a profitable hobby.”

Six Alumni Honored

Because of the threat of rain, the 1960 Commencement exercises were held at the new Bangor Auditorium where over six thousand persons saw 803 Maine students receive degrees.

Originally scheduled for the athletic field, commencement was moved to the Bangor Auditorium when U. S. Weather Bureau authorities predicted that showers were likely during the afternoon of June 5th.

During the commencement exercises the University awarded the bachelor's degree to 752 seniors and the master's degree to 51 graduate students.

For the first time in the history of the University of Maine, an earned doctor's degree was awarded. The recipient was Basil S. Farah, of Rockaway, N. J., who did his advanced work in the chemistry department.

Candidates for the degrees were presented by the deans of the colleges. President Lloyd H. Elliott officially conferred the degrees.

Eight persons were awarded the honorary doctor's degree. The honorary doctor of laws degree was presented to John H. Reed, governor of Maine; the Most Rev. Daniel J. Feeney, Catholic bishop of the Diocese of Portland; William Hilton, retired vice president of the Great Northern Paper Company and former head of its woodlands department; and Myron C. Peabody, president of the Farm Credit Banks of Springfield, Mass.

Honorary doctor of science degrees were conferred on Dr. Wilhelmina F. Dunning, nationally known director of the Cancer Research Laboratory at the University of Miami (Florida), and Dr. O. Spurgeon English, noted head of the department of psychiatry of Temple University Medical School and Hospital.

An honorary doctor of engineering degree was presented to Arthur O. Willey, of Cleveland, Ohio, a widely known industrial research director.

The commencement speaker, Dr. Hook, was awarded an honorary degree of doctor of humane letters.

The recipients of honorary degrees were presented by Raymond H. Fogler, president of the University's board of trustees, and the citations were read by President Elliott.

Commencement Address

The speaker at the University's 114th commencement exercises said that Communism should become a required study in American schools and colleges.

Dr. Sidney Hook, head of the philosophy department at New York University, said the introduction of such courses would not be an easy matter.

"I am convinced that until the theory and practice of Communism become a required study in our schools and colleges, a difficult thing to do unless the cultural vigilantes, whose ignorance is greater than their zeal, leave this to the educators themselves, it will never be intelligently understood," he declared.

"That the theory and practice of Communism are not now understood is evidenced by the fact every two or three years or so a new crop of political innocents is born cherishing illusions which the slightest familiarity with the geography of the Communist mind would have dispelled," he continued.

"The Communist fetishism of history makes survival the be-all and end-all of its existence. Under the shield of deterrence, nuclear disarmament may be slowly achieved under adequate controls. Our main hope for a world free of the shadows of war lies in evolutionary changes within the Communist Empire whose peoples may some day make their government responsible to popular democratic will.

"There are no certainties in history but the shape of the future will depend upon whether the minds of men can be won to allegiance to ideals of justice and peace under the rule of law.

"To win the minds of men we must know what the overriding issue of our time is. It is not capitalism or socialism; it is not one God or many Gods or no God; it is not productivity. The issue is freedom—the freedom of all human beings everywhere to live their lives in dignity and peace."

He told of the "consternation and dismay" which swept the American people when the Summit meeting last month in Paris "exploded before their very eyes."

"This surprise at the actions of the Soviet Union is no new thing in the history of American relations with Communist Russia," he said.

"Maturity of outlook in both individuals and nations is marked by habits of reasonable expectation," the speaker declared. "From this point of view American political understanding of Communism must be considered immature. No political party enjoys
a monopoly of this immaturity. All have been wise after the event not before. What the Democrats are now saying about the Republicans differs little from what the Republicans used to say about the Democrats."

The NYU professor summed up his address with these words:

"So long as the free world retains its deterrent, there will be no war.

Baccalaureate Address

The Rev. Harvey Bates, Director of Religious Affairs, spoke to this year's graduates "On Being Human" at baccalaureate exercises Sunday morning in the Memorial Gymnasium.

"Your task, the demand placed upon your life, is this: to become what you are—a human being in the midst of human beings," Mr. Bates told the class of 1960.

This means, the speaker said, "to accept your place as a part of nature and to enjoy that place, not forever analysing nature piece by piece in order to control and use it for your own particular purposes."

It also means, he said, learning to "doubt your doubts themselves, and risking the intuitions of imagination."

The speaker went on to point out the hazards facing those who seek to become human beings.

"We must," he said, "blast the roadblocks marked 'economic,' 'social,' 'educational' and especially 'racial,' 'national,' and 'religious.' We must root up, break down, destroy and overthrow.

"This world does not need experts who give answers so much as it needs listeners who give of themselves," he added. "In order for you to be able to listen to someone else and give yourself to him—or her—you have to believe that you are worth giving to him."

Mr. Bates concluded by saying the task of being a human being would be "as vital if the vision of Ezekiel, the valley of dry bones, becomes a reality today through nuclear war. If you were one of four or five of fifty who survived such holocaust, your central task would still include listening to others, offering yourself to others, sharing your sense of acceptance with others. The demand would still be there: to become what you are. And the holy depth from which the courage comes to live and love would still communicate, through kindled, keen imagination."

Honor Students

Eighty-nine members of the graduating class received recognition for their academic achievements.

Sixteen students received their degrees "with highest distinction." These students and their major subjects were William G. Vandervliet, Groton, Conn., botany; June L. Adams, Ogunquit, June S. Allen, Columbia Falls, both in home economics; Donald R. Mathieu, Bangor, history; Donald N. Sweeney, Bangor, history and government; Anne M. Burke, Portland, and Julia A. Duckworth, Gray, both in mathematics; Dorothy A. Devereux, Castine, medical technology; Constance Ham, Monmouth, psychology.

Also, Lynn A. Brewster, Waterville, zoology; Marie H. Fill, Bangor, and Barbara J. York, Old Town, both in education; Richard Campbell, Portland, electrical engineering; Gail Masterman, Glen Falls, N. Y., engineering physics; Charles E. Allen, Brewer, David H. Gagnon Portland, both in mechanical engineering.

Those receiving degrees "with high dis-

(Continued on Page 10)
was named a Distinguished Military Student.

A second highlight of the Class Day program was the awarding of Certificates of Merit to approximately 150 wives of seniors by President Lloyd H. Elliott. The certificates read in part as follows: "Be it known that the faculty and administration of the University recognize and appreciate your contribution, expressed in so many ways, to your husband's academic achievements."

The valedictory address was delivered by Richard L. Campbell, of Portland, who has majored in electrical engineering.

Mr. Campbell told of the responsibilities of educated people. "The educated or learned person is morally obliged to use his talents to the utmost for the benefit of his society," he said.

Pointing out that more and more people are tending to be satisfied with social and intellectual mediocrity, he called on his classmates "to strive to enlighten others as to the importance of intellectual competence, to applaud and encourage their efforts for intellectual improvement, and to oppose tendencies toward intellectual mediocrity."

Ann M. Burke, Portland, a mathematics major, delivered the salutatory address. Speaking on this nation's cultural heritage, Miss Burke said that Western civilization is built on the belief that "humanity is something very special." She contrasted this belief with the Communist idea that "humanity as humanity is nothing."

She concluded by saying, "We Americans are singularly fortunate in that we possess the happy combination of the right ideas and great physical resources. Let us value them for what they are, never confusing the true issues. Let us see clearly and reverently what we must do, and let us do it. Let us struggle with all our might to preserve the values which have brought us to our preeminence. To struggle for anything else is quite futile."

Charles Ochmanski, Augusta, class president, presided at the exercises.

Norman W. Stevenson, Fort Fairfield, was the class marshal; Barbara York, Old Town, and Gail Carter, Washburn, delivered the class history; Eliot Rich, Portland, was the class chaplain; and Gail Masterman, Glens Falls, N. Y., wrote the class ode. Tribute was paid to the wives of the seniors in behalf of the husbands.

Following the Class Day exercises, the seniors and their guests attended a Faculty Appreciation Hour; a concert by the "Cumberland 3," a nationally known musical group; and a reception by President and Mrs. Lloyd H. Elliott.

In the evening the annual Commencement Ball was held in the Memorial Gymnasium with music by Sammy Kaye's Orchestra.

SIX ALUMNI HONORED

(Continued from Page 9)

tinction" were Allan Gordon, Old Town, forestry; Marcia F. Carlesy, Harrison, Dale R. Ireland, Limestone, Nancy E. Waisen, Harrison, all in English; Helen Y. Gillespie, Orono, Mary A. Harsh, Conn Jr., Orono, William J. Shirley, Norway, all in history and government; Laurel A. Hoyt, South Portland, Joyce E. Torrey, East Union, both in psychology; Carole E. Allen, Caribou, Jeanette M. Lawlor, Oakfield, both in sociology; Barbara J. Connor, Hartsdale, N. Y., Ruth A. Ford, Milo, Patricia E. McGuire, Orono, Martha A. Zoldis, Bangor, all in education; Louis Agathos, Lisbon Falls, chemical engineering; Raymond D. Dunlop, Skowhegan, Gerald Henderson, Wells, Robert E. Rowe, Camden, all in mechanical engineering.

Also, Melvin H. Bowie, E. Peru, Arthur W. Harris, Biddeford, Jacob M. Weinberg, Bangor, in engineering physics; Joseph H. Bigl, Millinocket, Donald C. Lewis, Jr., Bangor, Norman E. Nutter, Thornndike, Roger W. Williams, Gorham, all in mechanical engineering.

Receiving degrees "with distinction" were Hayden M. Soule, Jr., East Corinth, agri-cultural engineering; Gordon W. Stuart, forestry; Mildred D. Arnold, Swampscott, Mass., Peggy A. Chatto, Bangor, Pauline L. Jackson, Camillus, N. Y., all in home economics; Stanley B. Chenoweth, Skowhegan, wildlife management; Marilyn K. Libby, Mars Hill, English; Diane C. Faucher, Lewiston, Janet I. Fletcher, Portland, both in French; Sally E. Curtis, South Portland, German; Samuel G. Warren, Buckfield, history; Joseph A. Dion, Attoleboro, Mass., Sidney J. Gordon, Brookline, Mass., Charles V. Veilleux, Waterville, all in history and government; Martha Merrill Brackett, Westbrook, journalism.

Three students in the College of Arts and Sciences were enrolled in the "honors program." Graduating with "highest honors" were Enid A. Kelley, Marblehead, Mass., mathematics, and Rosemary K. Baron, Orono, sociology: with "high honors," Kenneth H. Haynes, Gray, history and government.

THE ROTC PROGRAM

The Military Department climaxd its academic year with the commissioning of the Army ROTC senior cadets at the Memorial Gymnasium on Sunday morning at 8:15 o'clock June 5th.

President Lloyd H. Elliott presided at the ceremony and presented commissions to 68 cadets. Donald M. Libby, Colonol, Class of 1918, administered the oath of office.

Joseph A. McCusker, Colonel, USA Retired, Class of 1917, read the president's charge to commissioned officers.

The following cadets by maintaining a high academic average, by meeting high ROTC standards, and by demonstrating outstanding qualities of leadership were designated as Distinguished Military Graduates:

William A. Binette, Livermore Falls; Alan R. Campbell, East Corinth; Conrad S. Cleale, Bangor; Stephen R. Collins, Ashburnham, Mass.; Dale C. Delano, Bangor; Joseph A. Dion, Old Town; Richard W. Jack, Rangeley; Michael G. Madore, Presque Isle; Larry A. Mills, Bangor; Robert D. Perault, Biddeford; Joseph B. Probert, Stabbwater; Mark R. Shibles, Orono; Thomas F. Staples, Eliot; Max W. Stewich, Lisbon Falls.

See page 18 for Honorary Degree Citations

We're Not Shooting For The Moon

But we are proud to announce that stage one of the Hauk Fund Missle has been successfully launched with the assignment of $290,000 for the completion of the Memorial Union Building.

Wouldn't you like to add a little fuel to assure the safe arrival of stage two, the realization of the Arthur A. Hauk Auditorium? Rockets won't fly with empty fuel tanks; and buildings, no matter how badly they are needed, can't be built until the money is in hand. Every dollar you give now means that the auditorium, the new center of the cultural arts at Maine, is that much nearer completion.
The Big News this month is a new date for homecoming for the fall of 1960. Homecoming this fall will be held on Saturday, October 8th, and the football game featured will be against the University of New Hampshire. For the first time in the history of the University, the homecoming game will be played against a Yankee Conference opponent instead of the traditional State Series team.

The main reason for the change to October was to insure better and milder weather than is normally expected in November. After considering many factors involved in setting homecoming at the earlier date, the Alumni Association with the cooperation of the University Calendar Committee, decided that the chances of better weather, and the fall foliage would encourage a larger attendance at homecoming weekend and insure a more pleasant visit for alumni.

The 1961 homecoming date is scheduled for the Saturday of the Connecticut game, to be held the third weekend in October.

Maine to Play at Portland Sept. 17
Alumni in the area around New York, Boston, and Portland will be especially interested in another innovation scheduled this fall. For the first time in many years, Maine will play its initial football game at Portland against the University of Massachusetts on September 17th. (Years ago, when travel was a limiting factor in the meeting of teams at a distance from each other, Maine occasionally played out-of-state teams in Portland.)

With turnpikes leading from New York and Boston to Portland, the travel time for alumni from these areas should enable many to attend the Massachusetts game who might not have spare time to drive all the way to Orono. It is estimated that five hours easy driving will get New York Alumni to Portland, and will take only two and a half hours from Boston.

The game will be held at the Portland Municipal Stadium where plenty of seats will be available. This is the facility used by the University of Maine at Portland for its outdoor athletic events.

Since the game is scheduled the same day as registration on the Orono campus, it is doubtful if many of the University students will be able to attend, but plans are being made for the cheerleaders to register early and be in attendance.

The date again: September 17th, at the Portland Municipal Auditorium.

At the annual ROTC Review and Awards Ceremony in May, George F. Dow '27, President of the General Alumni Association, presented the Alumni Sabre to Richard S. Shumway, a senior forestry major from Greenfield, Mass.

In addition to the Alumni Sabre Award, Mr. Shumway also received the Department of Army superior cadet ribbon and certificate as the top military student in the senior class.

First Doctoral Graduate

FIRST DOCTORAL GRADUATE
The June 5 commencement exercises at Maine marked an academic first in the University's history when Basil Said Farah was awarded the doctor of philosophy degree in chemistry.

Several honorary doctorates have been awarded by the University each year, and a graduate program leading to the master's degree has been offered in various departments for more than 80 years, with the first master's degree awarded in 1881.

In 1957 the trustees approved a program in chemistry leading to the doctor's degree, and later a similar program in history. Farah is the first to complete the requirements for the Ph.D. degree at Maine.

Mr. Farah was born in Nazareth, Palestine, attended school in Jerusalem, Jordan, and come to Flint Junior College in this country in 1951. He transferred to Michigan State in 1953, where he earned the bachelor's degree.

In 1955 Farah came to Maine as a graduate assistant in chemistry, and was awarded the master's degree here in 1957.

He is now a United States citizen, and married to the former Barbara Donald '58, who was a chemistry major at the University.

Mr. Farah completed his courses and research in residence at Orono last June, and has since been employed by the General Chemical Division of Allied Chemical Corporation in the company's research laboratory at Morristown, N. J.

Maine Govt. Featured at Summer Session
A special course in Maine government which includes both lectures and travel will be offered July 11-29 during the University of Maine Summer Session, Dean Mark R. Shibles, director of the session, said Wednesday. The course will be taught by Professor Edward F. Dow, head of the department of history and government at the State University.

Students will learn about vital problems of state and local government, and become acquainted with government in action in institutions, agencies, and through officials in charge.
REVEREND F. W. LYON '56
PASTOR OF CONN. CHURCH
On May 8th, Reverend Frederick W. Lyon '56 was installed as the pastor of the Thompson (Conn.) Congregational Church. Reverend Lyon, who majored in sociology at Maine, completed a four year course of study at the Andover-Newton Theological School and graduated on May 23.

ALUMNA ELECTED V. P.
BRADFORD JUNIOR COLLEGE
BOARD OF TRUSTEES
Miss Marion E. Martin, Maine’s Commissioner of Labor and Industry, was recently elected vice president of the Bradford Junior College Board of Trustees.
A member of the Class of 1917 at Bradford, Miss Martin later attended Wellesley College, earned a B.A. at Maine in 1935 and an M.A. from Bates in 1938.

MARION COOPER '27 ELECTED
PRESS-RADIO-T.V. SECRETARY
At the annual spring meeting of the Maine Press and Radio-T.V. Women, Miss Marion Cooper '27 was elected Secretary for the coming year.

G. M. BOND '26 WIRTHMORE
PRESIDENT
In a recent election by the board of directors, Executive Vice President Granville M. Bond '26 of Wellesley was elected President and Chief Executive Officer of Wirthmore Feeds Inc., Waltham, Mass. He resides at 339 Grove Street, Wellesley, Mass.

MELVIN S. FULLER '53
PROMOTED AT BROWN
Effective July 1, 1960, Dr. Melvin S. Fuller '53, has been promoted to Assistant Professor of Botany at Brown University. After taking his B.S. Degree from Maine, Dr. Fuller received the M.S. Degree from the University of Nebraska and the Ph.D. Degree from the University of California at Berkeley. He joined the Brown faculty last year.

Do You Have Degree Insurance?
The value of your degree is determined by the proficiency of the current crop of graduates in any given year. Obviously, if our standards should take a drop, relative to those of other institutions, possessing a degree from the University will be worth less to you than if standards are kept up.
One of the most important “step-ups” planned in the near future is the Arthur A. Hauck Auditorium. A contribution to the Hauck Building Fund will not guarantee that your degree will be worth more to you, but it is a step in the direction of strengthening the over-all program at the University which will help keep the value of a Maine degree up where it belongs.
Start your “degree insurance” with a check to the Arthur A. Hauck Building Fund now. You'll be glad you did.

TWO ALUMNI EXHIBIT PAINTINGS
At the annual spring exhibit of the Bangor Art Society in the Bangor Public Library, a watercolor entitled “Winter Brook” by Philip J. Brockway '31, won third place honors in the 43 painting exhibit. During the week of April 13-20, the watercolors and oils of Walter E. Morrison '12, were exhibited in the South Weymouth (Mass.) Branch of the Quincy Trust Company.
Mr. Brockway is well known to alumni as the Director of Placement at the University. Mr. Morrison, formerly an executive with the Armstrong Cork Company at the South Braintree Plant, is now retired and busily engaged in his hobbies of woodworking, gardening and painting.

W. H. COVELL '55 NAMED NEWBURYPORT COACH
Elected to the position of head football coach and science teacher by the Newburyport, Mass., School Board, was Waldo H. Covell '55, formerly football and baseball coach at Madison (Me.) High School.
A Maine man was also selected as Mr. Covell's assistant coach. John E. (Jack) Welch '60, outstanding halfback on the University's football team in recent years, will also teach science in addition to his coaching duties.

LOVELL C. RAWSON '29
PROMOTED BY AMERICAN FOREST PRODUCTS
American Forest Products Industries announced recently the promotion of Lovell C. Rawson '29, to the position of Eastern Regional Manager.
Mr. Rawson, a forestry graduate of Maine, will co-ordinate AFPI's forestry educational program through the Boston, New York City, and Harrisburg, Pa., district offices. He will retain responsibility for the six-state New England office at Boston while carrying on the expanded duties.

Two fraternity brothers from the furthest points of the continental United States met recently in the same office at Fort Eustis, Va. At the left is Lt. Colonel Gregg McLeod, PSI Chapter of KAPPA SIGMA, Univ. of Maine, Class of '33, and at right is Lt. Colonel William R. Thomas, BETA XI Chapter of KAPPA SIGMA, Univ. of California, Class of '30. Both are assigned to the G-3 Division of the US Army Transportation Training Command at this post.

FORT EUSTIS, VA.—Two fraternity brothers from the furthest points of the continental United States met recently in the same office at Fort Eustis, Va. At the left is Lt. Colonel Gregg McLeod, PSI Chapter of KAPPA SIGMA, Univ. of Maine, Class of '33, and at right is Lt. Colonel William R. Thomas, BETA XI Chapter of KAPPA SIGMA, Univ. of California, Class of '30. Both are assigned to the G-3 Division of the US Army Transportation Training Command at this post.
It Pays To Advertise

For several months, sales of the University of Maine Chairs, an item handled by the Alumni Association, had been lagging. To help promote interest in the chairs, the Association took a one page ad in the April issue of the Maine Alumnus. The results were gratifying, to say the least! Within two months after the ad appeared, more than 20 orders came into the Alumni office.

Over seven thousand copies of the Alumnus are mailed every month, October through June. Our subscribers, who enjoy incomes above average, are located half in the state of Maine and half outside, with seventy-five percent in the New England area. These consumers, who have a demonstrated interest in the state and the University represent a market which can only be reached in its entirety through the Maine Alumnus.

Planning of our advertising program for the issues from October, 1960, through June, 1961 includes new features to call readers' attention to our advertisers and their products or services.

We urge all alumni to patronize those advertisers whose messages appear on the Alumnus pages.

G. P. HITCHINGS '37 ELECTED V. P. AMERICAN AIRLINES

George P. Hitchings '37 a native of Waterville, Maine, has been elected Vice President of Economic Research for American Airlines it was announced today by William J. Hogan, Executive Vice President.

Mr. Hitchings joins American from the Ford Motor Company where he had been Manager of the Economic Analysis Department since January, 1947. Earlier, he was an economist with the Federal Reserve Bank of New York.

He succeeds W. Braddock Hickman who recently joined the Federal Reserve Bank of Cleveland as Senior Vice President.

Mr. Hitchings has completed graduate study in Economics at the American University and is a member of Phi Beta Kappa and Phi Kappa Phi Honorary Societies.

During World War II he served two years as an Air Force Officer.

ALUMNUS ELECTED GRAND MASTER

Elected to the position of Grand Master of the Masonic Lodge of Maine recently was Leon M. Sanborn '27. Mr. Sanborn makes his home in Gorham, Maine; and has served in the past as Deputy Grand Master of the Lodge.

CAPTAIN V. L. HATHORN '36 COMMANDS "WEEK END WARRIORS"

Featured in the May 8, 1960, magazine section of the Boston Sunday Herald was the Naval Air Station at South Weymouth, Mass., where an intensive training program for Naval Reservists is carried on. Commanding officer of the station is Captain Vincent L. Hathorn '36.

To quote the Herald: "South Weymouth, with its colorful 'Weekend Warriors' is a prime example of the tax-dollar well spent."

H. O. RANGER '48 JOINS GENERAL FOODS

Hubert O. Ranger '48 has been appointed director of the packaging laboratory at the General Foods Research Center in Tarrytown, N. Y.

Mr. Ranger, who joined General Foods March 1, was formerly laboratory director of the Plastics Coating Corporation in Holyoke, Mass., a firm he had been associated with since 1951.

WHAT'S IN IT FOR YOU?

Those who have been active in the Alumni Association have learned that they make many valuable business contacts in addition to gaining the satisfaction which comes from working for a good cause.

There are many ways in which the Alumni Association proves helpful to its members. Sometimes, for example, members find participation valuable in locating jobs of the right kind. Space does not permit a detailed study of the variety of ways participation in the Alumni Association aids the Alumni themselves as well as the University. The best way to find out for yourself is to become a dues paying member. What you have to do, is send a check for $5.00 for a year's dues (six for husband and wife together). And if you happen to be passing by Orono, drop in at the Alumni office in the Library. You’ll find it a pleasant and profitable experience.

GEN. C. O. TOTMAN NAMED V. P. SUMMERS CO.

Brigadier General Clayton O. Totman '35, retired from the U. S. Marine Corps, recently became associated with the Summers Fertilizer Company, Inc., as Assistant Vice President.

ASSISTANT COACH MOVES TO BRIDGTON HIGH

Bob Flynn '60, assistant coach of football and baseball, has accepted a teaching and coaching position at Bridgton High, in Bridgton, Maine. Serving as a scout for the varsity football and baseball teams for the past two years, his primary coaching duties were with the freshman teams.
THOSE WHO RETURNED IN ’60

Are You a Good Catalyst?

Among the student body, the faculty, and the Administration of the University, the Alumni Association acts as a catalyst, constantly striving to help things move in the right direction. Like all organizations, the Alumni Association is no more than the people who make it up, and we'd all like to have you with us in the unstinting effort to help the University keep pace with the times.

Our most immediate objective is to aid the Hauck Fund Committee in making the dream of a new auditorium come true. You can become part of this vital effort by sending a check to the Arthur A. Hauck Building Fund Office today.
A Year Of Growth At Maine

REPORT OF ALUMNI TRUSTEE

Marked progress has been made this year. This advancement and the studies which are underway in preparing for the future have made the Trustees and the administration even more conscious of the big job which is before us. Some of the more significant developments of the year and plans for the immediate future are discussed in this report.

Academic

The academic standing of our University is of first importance. All other matters are secondary. President Elliott and other administrative officials of the University have been giving this top priority in their plans. While academic standing cannot be measured specifically, there are some developments which indicate progress. Among these are the following:
1. The upgrading of the faculty as shown by their academic training, experience, and ability.
2. The establishing of doctoral programs; the first earned Ph.D. degree will be conferred at the June Commencement. The Chemistry and the History and Government departments now offer doctoral programs with other similar programs in prospect.
3. The Institutes for which the University has been given substantial grants is recognition of academic proficiency.
4. The increasing amount of funds being given to the University for research purposes.
5. Improvement in facilities for both teaching and research programs.

Academic improvement will continue to receive foremost consideration.

Enrollment

The registration for the fall semester 1959 was about the same as the preceding year. This is due in large measure to the fact that the number of Maine secondary school graduates in June 1959 was the smallest in many years. The number sharply increases from this point. Following is an enrollment summary:

<table>
<thead>
<tr>
<th>By Colleges</th>
<th>613</th>
</tr>
</thead>

</tr>
</tbody>
</table>

Of the 3776 undergraduates enrolled at Orono, 2790 or 73.9% were men and 986 or 26.1% were women. The registration of graduate students and also the number of undergraduate women are the highest in the history of the University.

It is expected that the enrollment next fall will be about 300 more than in 1959. This will be due largely to:
1. Admission of women students to University of Maine in Portland.
2. Increase in women's registration at Orono. There has been an increase of 40% in the number of women's applications this year.

While housing facilities is a factor which limits enrollment, even more important is the amount of operating funds available for the employment of a well-qualified teaching staff.

Although the pressures for admission to the University this year have been very considerable, it is clearly evident from now on that the pressures will increase. This situation raises a basic question of the philosophy of the service which a state university should render to its citizens. Should admission standards constantly be raised, thereby depriving large numbers of qualified young men and women of the opportunity to gain a higher education, or should the state, through increased appropriations, make it possible for the University to accept several hundred more each year who have the ability to profit from college training and thereby contribute to the economic and cultural progress of community, state and nation.

Physical Plant

Three new buildings were completed and used this year for the first time. The Physics Building, Animal Science, named in honor of Professor E. Reeve Hitchner, and a Men's Dormitory named in honor of James A. Gannett '08.

Two buildings are now under construction, one a women's dormitory, having a capacity of 170, scheduled for use in September and a men's dormitory with a capacity of about 260, to be ready in September 1961.

It is expected contracts will be awarded within 60 days for an Education Building, another women's dormitory to be completed for September 1961, the completion of the Men's Union and for faculty and married student housing.

The Trustees are eager to have the South Apartments and North Dormitories razed at the earliest possible date.

Housing Bond Issue

The citizens of Maine demonstrated in a convincing manner their interest in providing educational opportunities for their sons and daughters by approving the referendum question providing for $10,000,000 State Bond Issue for housing facilities at the University. This vote in the proportion of four to one was most heartening to the University and friends of education. The University has requested $3,300,000 of the $10,000,000 for use during the next fiscal year. This issue of $3,300,000 State of Maine bonds was sold in May. The interest rate is about 3.4 percent. These bonds are to be amortized through dormitory operations. This made it necessary to increase board and room charges for dormitory residents $50 per year, beginning next fall.

There is no misunderstanding, I repeat that this money is not a state appropriation, for the bonds are to be paid from dormitory income. It can be used only to provide living quarters. No part of it can be used for academic buildings or other facilities, nor for University operating costs.

Salaries

Although faculty salaries were increased this year about nine percent, the average of our salaries is still the lowest in the New England state universities. The increase for 1960-61 will be about five percent. It is absolutely essential that every effort be made to improve salaries in order that we may maintain and improve the quality of our staff, and above all that we do not lose good teachers to other institutions and industry and thereby impair our academic progress.

Personnel

As essential as equipment and buildings are to an educational program, the heart of our success is in the personnel of our University staff.
Major appointments made during the year include that of Treasurer Harry W. Gordon to succeed Frederick S. Youngs '14, retired; Dr. Austin Peck, director of the School of Business Administration and head of the Department of Economics and Sociology, to succeed Dr. Robert Shay, resigned; Professor Harold M. Woodbury '37, to succeed Professor Stanley Wallace as head of the men's division of Physical Education; Colonel Lister K. Olson, head of the Military Department; the Reverend Harvey M. Bates, Jr., as Director of Religious Affairs; and Donald V. Taverner, Director of Development.

We were saddened by the death of Dr. Frank H. Dalton, head of the Department of Bacteriology, who had been a valued faculty member since 1948.

The Trustees are happy to pay tribute to the fine quality and devoted service of our staff. We are proud of their good work. President Elliott's vigorous and constructive leadership has been most gratifying to the members of the Board.

Tuition

Most reluctantly, the Board of Trustees voted to increase tuition and fees, beginning next fall semester, from $303 to $400 for residents of Maine, and $700 to $800 for non-residents. This action was necessary to provide operating income. Our tuition is one of the highest among state universities in this country, and unquestionably makes it impossible for some capable Maine boys and girls to enroll at the University.

Development

Our plans to activate a Development Program at last became a reality with the appointment of a Director of Development. We believe that this program, when it has been well established, will result in bringing substantial income from gifts, foundation grants, bequests, and other sources which may well become a significant factor in University operation.

Legislative Request for 1961-63

Preliminary work has already been done in preparing our requests for the next Maine Legislature which will convene in January. Unquestionably the University will request for the next biennium the largest appropriation ever, and unquestionably makes it impossible for some capable Maine boys and girls to enroll at the University.

Cooperation

On behalf of the members of the Board of Trustees, I wish to express our appreciation for their cooperation. Such cooperation is both helpful and inspiring to Trustees, faculty, and students and is one of the foundations on which our continued progress will depend.

Raymond H. Fogler
Alumni Trustee

ATHLETIC BOARD REPORT

To THE General Alumni Association of the University of Maine:

I submit this annual report on behalf of your representatives on the Athletic Board, Clifford Patch '11, Albert Smaha '45 and Thomas Hersey '34 covering athletic activities for the college year of 1959-60.

Our teams have had a very interesting year and several teams have met with outstanding success. Two State Championships (Basketball and Winter Sports) were won this year and our baseball team tied for first place in the State Championship. Our teams won the Yankee Conference Championships in rifle and cross country, and tied for first place in the Yankee Conference baseball.

Our track team scored second in the State and Yankee Conference Series and several college records have been broken by our individual team members. Our football team scored second in the State Series and third in the Yankee Conference.

Our basketball team scored a three way second place tie in the Yankee Conference and won 18 games and lost 2 games during the past season. This record is one of the best in our history. We won the second annual Downeast Classic Tournament held in Bangor.

Our varsity baseball team won 12 games and lost 3 games during the 1959 season. Our Track team won 5 meets and lost 1 meet during the indoor and outdoor season. Our Cross Country team won the New England Championship.

The Winter Sports team had one of its most successful seasons in history, and placed Charles Akers on the U. S. Olympic Ski team, and our team earned a ranking in the top eight teams in Eastern U. S. and Canada.

Join the partnership now, and by a donation to the Arthur A. Hauck Building Fund, you will know you are repaying your obligation to the private partners who worked and paid for many of the facilities you enjoyed at Maine.

WHY CONTRIBUTE?

It may seem to you that requests for money come all too frequently. But consider this: a student at the University of Maine pays only one third of the total cost of his education. Where did the rest of the money come from? From the public-private partnership which has existed since the University was founded, came the funds to pay the bills and construct the necessary facilities.

Maine has been blessed with energetic and generous alumni who have felt a moral obligation to return to the University in good measure the two thirds of their own educational costs which were paid for by the public-private partnership.

Children, grandchildren, and even great grandchildren of alumni make up a large percent of the growing enrollment at the University (estimated 4500 next year). They need desperately an auditorium now, and it is only through the private partners that they can have this need fulfilled.

Join the partnership now, and by a donation to the Arthur A. Hauck Building Fund, you will know you are repaying your obligation to the private partners who worked and paid for many of the facilities you enjoyed at Maine.

HONORARY DEGREE

CITATIONS

(Continued from Page 10)

WILHELMINA FRANCES DUNNING

Born in Topsham, Maine; a graduate of this University in 1926; Master's and Doctor's degrees from Columbia University; cancer research assistant at Columbia; teacher at Wayne University, College of Medicine; associate in cancer research at the Detroit Institute for Cancer Research; Professor of Zoology at the University of Miami, and since 1952, research professor and director of the cancer research laboratory at that institution; author and contributor of over 50 scientific bulletins and articles; member of learned and honor societies and recipient of four civic and professional awards for conspicuous achievement and leadership.

You have dedicated your life to exacting research, the results of which have contributed importantly to the progress which has been made in seeking to solve the mysteries of cancer. Your notable achievements have won you the admiration and esteem of your peers. In recognition of your service to mankind and the distinction which your work has brought to you and to your University, the Board of Trustees is happy to confer upon you the honorary degree of Doctor of Science.

OLIVER SPURGEON ENGLISH

A native of Presque Isle, Maine, a student of this University who speaks of his years on the campus as "crowded with a wealth of impressions, valuable contacts, and a personal thrill of achievement," a graduate of Jefferson Medical College, with study also at Grand Seminary in Montreal and Marquette University; priest at St. Mary's Parish in Orono; former Diocesan Superintendent of Schools in charge of instruction in all Roman Catholic schools and colleges of the Diocese of Portland; Bishop at Portland Cathedral in 1946; named Coadjutor Bishop of Portland in 1952 and assumed the title of Bishop of the Diocese of Portland in 1955; recipient of honorary degrees from five colleges.

In recognition of a life devoted to the spiritual leadership of your people, one who has consistently tried to provide superior educational programs in the schools and colleges under your charge, and a citizen who has demonstrated loyalty to the University, the Board of Trustees takes pleasure in conferring upon you the honorary degree of Doctor of Laws.

WILLIAM HILTON

A native of Chesuncook, Maine; a graduate of this University in 1911; the first watchman at the first fire lookout station in Maine, which is believed to have been the first in the United States; associated with the Great Northern Paper Company since 1912, first in the forest engineering division of which he later became superintendent; vice president in charge of woodlands from 1929 until his recent retirement, in which capacity he was responsible for the management of 2,500,000 acres of timberlands; a director of the company, bank director, trustee, and director of several professional organizations; internationally known lecturer who has sought to determine through research some of the more precise factors which cause and genuine affection for your native state, the University Board of Trustees takes pleasure in conferring upon you the honorary degree of Doctor of Laws.

SYDNEY HOOK

Distinguished son of New York State; graduate of the College of the City of New York and Columbia University; starting as an instructor at New York University in 1927, he has risen to the position of professor and head of the Division of Philosophy, New York University Graduate School of Arts and Sciences, and Chairman of the Division of Philosophy and Psychology of the Graduate School; teacher at summer sessions and at the New School of Social Research; characterized by many as a most stimulating teacher; three times a Guggenheim Fellow in different European nations; recipient of the Nicholas Murray Butler Silver Medal for distinction in philosophy; lecturer, author of several books, and member and officer of honorary and professional societies, including the American Philosophical Association, of which he is now president.

In recognition of your eminently successful scholarly achievements, your enviable position as one of the great philosophers of our time, your thirty years of successful teaching, and your challenging efforts through writings and from the platform to promote democracy as the living faith for America and for the world, the Trustees of the University of Maine confer upon you the honorary degree of Doctor of Humane Letters.

MYRON COLUMBUS PEABODY

Born in Exeter, Maine; a graduate of the College of Agriculture of this University in 1916; after seven years as a farm manager, he became associated with the Federal Land Bank of Springfield, Massachusetts; rising through the ranks, he became executive vice president in 1949, in which position he held until 1952 when he was elected president of the Farm Credit Banks; known in the real estate, production, and cooperative credit needs of the agriculture of the eight northeastern states; bank trustee, director and past president of several banks, societies and organizations; a leader in alumni affairs of this University, serving fifteen years as a member of the Alumni Council and two years as president of the General Alumni Association, which long and valuable services earned for him the Alumni Service Emblem award in 1954.

Your quiet, tactful, and able leadership has gained for you the esteem and recognition of your associates, and your geniality has endeared you to all. In recognition of your achievements and your devoted service to your Alma Mater, the Board of Trustees takes pleasure in conferring upon you the degree of Doctor of Laws, which places you within the circle of its particularly honored graduates.

HIS EXCELLENCY

JOHN HATHAWAY REED

A native of Fort Fairfield, Maine; a graduate of the College of Agriculture of this University in 1942; a naval officer of World War II; a partner in one of the large firms of potato growers and shippers in Aroostook County; though young in years, a veteran leader in many community and state activities, including president of the local hospital and county and state fair associations; a representative in the Maine Legislature, and now one of the youngest governors in Maine's history.

In recognition and appreciation of your many public services, your constructive, enthusiastic leadership, your integrity, your eagerness for the economic development of the state, and your deep concern for and desire to improve educational opportunities for Maine young people, the Trustees of the University of Maine take particular pleasure in conferring upon you the honorary degree of Doctor of Laws.

ARTHUR OSGOOD WILLEY

A native of Maine; graduate of this University with a degree in mechanical engineering in 1924 and a master's degree in 1929; a teacher at the University for five years; a member of the faculty of Case School of Applied Science for eleven years, rising to the rank of associate professor; in 1949 he became director of research of Lubrizol Corporation, one of the largest manufacturers in the world of chemical additives for lubricating oils; he is now executive vice president of that corporation, which operates six plants in the United States, Canada, and England. During World War II he was a consultant to the Intelligence Department; a member and officer of many professional societies, including vice president of the Society of Automotive Engineers.

In recognition of your achievements as a successful teacher, corporation executive, and director, whose industry and ability have made you one of the foremost authorities in the world on automotive engineering, lubrication, the Board of Trustees of your University is proud to confer upon you the honorary degree of Doctor of Engineering.
An Editorial

Much misunderstanding has been indicated among the former students of the University of Maine where we have met them lately, about the Alumni project which we call the Arthur A. Hauck Building Fund. It is far from being a "dead horse" but is a very active and stimulating activity for our association right now. The Fund has grown almost one hundred thousand dollars since commencement time last year.

The earliest monies for the Fund were reported in September of 1957. In round figures, the total collected or pledged now has reached $600,000. The month of May (the last full month reported at this writing) saw $20,500 collected, adding enough to reach that six-tenths of a million figure. But, the two objectives which were formulated by Maine Alumni were known in 1957 to require a total of one and a half million dollars. The two objectives which have held for the past thirty-two months have been and still are: to complete construction of the Memorial Union, second floor—and to honor President Emeritus Arthur A. Hauck by the construction of an auditorium on the campus, which would bear his name.

By the time this editorial is read, the contract work to complete the second floor of Memorial Union will be well started. Bowling alleys and kitchen facilities as well as new room construction will be finished this year. The money to pay for the work is ready or has been paid to workmen, nearly three hundred thousand dollars given by alumni, faculty, students and friends. The first commitment no longer detains us.

The Hauck Auditorium Fund is growing nicely. This is excellent, for the auditorium is something the legislature cannot first provide. Pledges are being fulfilled, because a pledge from a Maine man or woman is a meaningful matter. Some alumni have not yet been asked for their contribution; some have sent their promises to pay without having been seen by a fellow alum. Others have pledged so long ago that the initial pledge period has expired and the money given in full—so they have made another pledge. New donors are being met in solicitation areas, and here's the rub, they are being sought in only one area at a time: New York, New Jersey, Connecticut, Maine and Massachusetts. That is the Alumni Council and Fund Committee plan for the clean-up phase of the campaign. Workers are not busy in all areas at once, only in one area at a time.

As a Maine Alumnus intends what he promises when he makes a pledge, so do the leaders among the alumni intend to keep a promise. They are proceeding to complete the first solicitation by having before them the names of all alumni who have not been seen as those still to contact and to ask for contributions. Only a percentage of $1.5 million has been raised.

On October 31st, 1956 the President of Harvard University announced a plan to seek capital funds of between 75 and 100 million dollars. When the plan had been organized, run by its 5,500 workers and had ended in January 1960—a sum of 82 and one-half million dollars had been found. And we know it is because Harvard has a name, because it is historic, because it has famous alumni. Yes, its alumni have given it its name. Should a Maine alum care less about his University because it is just less than 100 years of age? Similarly, should not a Maine man or woman feel equal pride with ex-students of Dartmouth, Yale, Princeton? We have graduates working beside those of the other great schools, keeping for our alma mater the excellent name it already has. What does it mean to be a Maine man? To be a Maine man is to be a member of a public-private partnership, helping the newer generation to a generous education, using the facilities provided by the state and by individuals. One accepts his private partnership as does a Dartmouth or a Harvard man. It means, if we are young, that we have found the world's work to do in all parts of the world, and we have succeeded to large incomes also. It means, if we are young, that we have seen our University was doubled in capacity and in registration over the past twenty years. And it means, if we are younger still, that we will see it double in greatness again before ten more years have passed. And, if we are old, it means that nothing can diminish the enduring quality of a truly magnificent growth seen in the sweep of fifty to a hundred years. Both the young and the older ones of Maine have pride, and enduring purpose.

To be a Maine graduate is to have a passport into the world. John Masefield said of universities in general, "They give to the young in their impressionable years the bond of lofty purpose shared, of a great corporate life whose links will not be loosened until they die." It seems quite true of the University of Maine.

Thus, for each and every Maine Man there is a decision. Let there be no misunderstanding. If one is not seen and asked for a Hauck Fund contribution, he can raise his own sights and send a pledge of unstinting size. If he has been seen he shared a discussion of this real auditorium need with a fellow alum, and then raised his sights and gave. Having been seen, he raises his sights and gives again. Rather be a Harvard man? Rather not!

Teams Register Outstanding Record

Followers of the University's varsity athletic teams had every right to be pleased with the performances of the Black Bears during the 1959-60 college year. A check of the final records Tuesday showed that 1959-60 proved to be the finest year since World War II for U-Maine teams in the major sports of football, basketball, baseball, and track.

Maine, in dual contests in these four sports, won 39 contests, lost only 12 and tied two during the year for a winning percentage of .707. The Bears were especially dangerous on their home grounds, winning 22 out of 23 home contests for a sizzling .957 average. Two years ago Maine posted a 22-5 home record for a two-year home mark of 44-6.

In 1959-60, Maine had a 3-3-2 football record, 19-4 basketball mark, 12-8 baseball record and 5-1 track record.

In the 15 years since World War Two ended, Maine's major sports teams have participated in an even 750 dual contests and have won 393, lost 346 and tied 11 for a winning average of .531.

The chances for success in 1960-61 appear bright as the majority of the top individual athletes attending the University this year were members of the sophomore and junior classes and the freshman class also came up with several outstanding performers.

A check of Maine's athletic record in the major sports areas since World War II ended is as follows:

Olympic Squad Chooses U. of Oregon

The U. S. Olympic track and field team has notified the University that it has selected the U. of Oregon as its summer training site prior to leaving for the 1960 Games in Rome.

Ted Curtis '23, faculty manager of athletics, said he was notified by Clarence Dussault of Tufts College, a member of the U. S. Olympic track and field committee.

Maine, Dartmouth and the U. of Vermont had originally been considered as summer training sites, but team officials have decided to go to the U. of Oregon, Dussault said.

Coach McCall Operates Basketball Camp

Brian McCall, head coach of basketball at the University, will serve as director of the Camp Katahdin Basketball Camp for two 10-day sessions this summer.

The camp, which occupies more than 300 acres on the shores of Lake Etna, 18 miles west of Bangor, is equipped with recreational facilities including seven all-weather outdoor basketball courts and an indoor court.

He and his staff will conduct daily competition with evening lecture and discussion sessions. The usual camping activities, such as swimming, boating, sailing, fishing and tennis will also be available.

Mr. McCall, a graduate of Dayton University, where he captained the Dayton basketball team, coached basketball at a Cleveland high school before coming to the University two years ago.

The young mentor has gained a great deal of respect for his accomplishments with the Black Bear quintets, who have won 34 of 45 games in two seasons.

A PARTNER IN HISTORY

Crosby Laboratory, a building completed in 1928, provides facilities within it for the Department of Mechanical Engineering.

It is another example of the Private Partnership provision for education at Maine. The Honorable Oliver Crosby '76 bequeathed $100,000 for its construction.

Today, building costs demand that many persons volunteer their support to build the Arthur A. Hauck Auditorium.

At the annual election of officers dinner meeting of the Chicago Alumni Association, on April 29th, those attending can be seen here enjoying a lobster dinner.
Local Associations

Auburn-Lewiston Alumnae

On April 20, the Auburn-Lewiston Alumnae met at the home of Mrs. Otto Wallingford, Perkins Ridge, Auburn.

The guest speaker at the meeting was Caroline F. Klein of Auburn who offered some useful tips for flower arrangements. Officers were elected at the business meeting.

Hostesses were Mavis Varney, Peg Dowe, Barbara Craig and June Davis.

On May 18 the meeting for the annual spring banquet was held at the Stowe House in Brunswick. Dr. Hilda Fife of the English Department, at the University of Maine, was the featured speaker. Her subject was: Humorous Maine Authors.

A special guest was Margaret Mollison '50, Assistant Executive Director of the General Alumni Association who brought news from the campus and spoke about the Commencement-Reunion program.

Phyllis (Richards) Johnson '51 conducted the business meeting.

St. Petersburg, Florida, Alumni

The final luncheon-meeting of the season was held in the New Garden Room of the Pennsylvania Hotel on Saturday, April 2. The resignation of Harold E. Rollins '16, Secretary, was accepted with regret. New officers were elected. Dates for the coming season's luncheon meetings were selected.

Central Massachusetts Alumni

On Saturday night, April 9, a joint meeting of the Central Mass., University of Maine Alumni with the local New Hampshire and Vermont Alumni was held.

A large group was in attendance, slightly more than one-third of them from Maine. The speaker was Dr. Robert H. Kroepsch, Executive Secretary, the New England Board of Higher Education. Dr. Kroepsch spoke on benefits of cooperation and coordination between New England colleges.

Bangor Alumnae

The Eastern Maine Association of University of Maine women met in the Coral Room of the Brass Rail on the evening of April 25. Officers were elected for the coming year.

The group voted a scholarship for a deserving woman student from the Bangor area. They also set aside a fund for a display area in the new dining room of the Chicago Alumni Memorial Union Building.

The group voted a scholarship for a deserving woman student from the Bangor area. They also set aside a fund for a display area in the new dining room of the Memorial Union Building.

Plans were made for the Commencement Tea to be held at the University on June 4, with Mrs. Jean (Polleys) Fenlason '50 as general chairman. Following the business session, Mrs. Donna Holmes Chandler entertained with seasonal songs.

Chicago Alumni

A Maine lobster dinner was enjoyed by the Chicago Alumni when they met on Fri-
day night, April 29. Joseph Browne, husband of Kathryn (Mills) Browne '47, arranged transportation of the lobsters. A short business session was held to elect officers, and a presentation was made of a check for the Arthur A. Hauck Building Fund to Mr. Thomas Desmond '33, chairman of the drive. The money was raised through a novel sale of calendars to midwestern Maine alumni. Charles H. Jack, Jr. '46, presented at the meeting. Sports films of University of Maine teams were shown following the dinner.

Boston Alumni

The annual dinner-dance meeting of the Boston Alumni was held at the M.I.T. Faculty Club on April 30. An important vote was taken at the business meeting to join the Boston Alumni Association and the Boston Men's Association. New officers were elected for 1960-61. Edward C. "Buzz" Sherry '38, president at the session, during which a scholarship fund check was presented to T. Russell Woolley '41, Executive Director of the General Alumni Association. Brief remarks were made by the Executive Director and by special guest Donald V. Taverner '43, former Director.

The featured speaker was Dr. Clarence Cook Little '32H, former President of the University of Maine. His speech was a delightful discussion of the current cancer research problems related to tobacco smoking. Dr. Little was accompanied by his wife, Beatrice (Johnson) Little '24, Trustee of the University of Maine.

Portland Alumnae

The annual scholarship dance of the Portland Alumnae was held at the Lafayette Hotel on April 30.

The annual business meeting was held on May 5 at the University of Maine in Portland. New officers were elected and the gavel was turned over to incoming President Norman H. Parrott '50, who conducted the program.

James A. Harmon '40, Director of Admissions at the University of Maine, spoke on the Problems of Admission in the Current Decade. A guest at the meeting was the Executive Director, The General Alumni Association, who was introduced to the members.

Rhode Island-Southeastern, Mass. Alumni

On May 13, University President Lloyd H. Elliott addressed the annual dinner meeting on the subject: Current Problems of Growth at the University. The meeting was held at the University Club in Providence. John R. Gowell '38 presided over a most enjoyable dinner program. New officers were elected and the new President, Richard Fairchild '50, concluded the session.

The President of the University was introduced by Alfred B. Lingley '20. Guests at the dinner were T. Russell Woolley '41, and Margaret M. Mollison '50 from Orono.

Black Bear Club of Rhode Island

On May 14, the Black Bear Club of Rhode Island and guests from Orono and New York enjoyed the Annual Clambake at the home of Carleton ("Speed") Merritt '24 in East Greenwich. The regular monthly meeting was held.

Guests at the delicious clambake were: Thomas G. Mangum '16, Frank C. Brown '30, Henry T. Carey '22, Council Members, and Margaret M. Mollison '50, T. Russell (Continued on Page 22)
Auburn-Lewiston Alumni

The Auburn-Lewiston Alumni met for the final event of the season at the Cabana, Tripp Lake, Poland, on May 19. A lobster dinner was enjoyed by the club. No speaker or program was intended. Oscar R. Halbert Jr. '44 presided at the business meeting.

NECROLOGY

1904—CHESTER STEEL EVERETT. The Alumni Office has been informed that Chester S. Everett died on November 24, 1945. He was a civil engineer. Mr. Everett was a member of Sigma Chi Fraternity.

1905—JOSEPH TOWNE WINSLOW. Joseph T. Winslow, 82, died on February 29, 1960 in Springwater, New York. He was a graduate of the University of Maine Law School, and was elected to the honorary scholastic society, Phi Kappa Phi. In 1945 he retired after practicing law and serving as editor of the Lawyer's Cooperative Publishing Co. of Rochester, N. Y., for 40 years.

1906—EARLE REVERE RICHARDS. Earle R. Richards, 77, of So. Berwick, died in a Rochester, N. H., hospital on April 16, 1960. A native of New Hampshire, he was a member of the Maine Society of Professional Engineers and the Descendants of Old Plymouth Colony Settlers. Over a period of many years Mr. Richards was Secretary of the Class of 1906 and class personalss editor for the Maine Alumni. He was one of the editors of the Class of 1906 History which is in published form. Last October he and his wife celebrated their 50th Wedding Anniversary. Besides his wife, he is survived by a daughter—Edna (Richards '33) Staples of Ogunquit, a son—Lt. Col. Millburn L. '34 of Washington, D. C., four grandchildren, and one great-grandchild. Mr. Richards was a member of Phi Kappa Sigma Fraternity.

1909—GEORGE THOMAS CARLISLE. George T. Carlisle, 74, died at his home in Bangor on May 17, 1960. A native of Edgecomb, he attended Lincoln Academy in Wiscasset. At the University of Maine he received his degree in forestry and became widely known throughout this country and Canada in the timber appraisal and management field and highly respected by those in the industry. In 1923, with the late Henry Prentiss, he founded the Prentiss and Carlisle Company, consulting engineers and timberland managers, and was president of the company at the time of his death. Ousatumped in the forest field, active in civic and British Columbia, the Gaspe Coast, and in Tennessee at the time of the creation of the Great Smoky Mountains National Park. He was a director of the Eastern Trust and Banking Company and of the Lincoln Trust Company, a former president of the Bangor Chamber of Commerce and of the Bangor City Club, and a member of the Society of American Foresters in whose activities he took an active part. A loyal alumnus of the University, he served as a member of the Alumni Council and was President of the Class of 1909 for many years. He is survived by his wife; five sons, all graduates of the University—George T. N., '09, John D. 40, and Charles F. '50 all of Bangor, and Robert '41 of Ellisworth; three daughters—one is Mary (Carlisle '43) Hilton of New York, Del., and 27 grandchildren.

1910—JOHN HOWARD DOW. John H. Dow died on October 19, 1959 in a Chicago hospital while visiting his daughter there. A native of Mapleton, he had always made his home there and was employed for some time as a rural mail carrier. He is survived by a son and a daughter. Duane Dow '57 is a grand-nephew.

1910—WESLEY GEORGE CUSHMAN. Wesley G. Cushman died on November 27, 1950 in Baltimore, Md. He is survived by his widow and two daughters.

CLARENCE DOUGLAS PARKER. The Alumni Office has been informed of the death of Clarence D. Parker in Portland on February 1, 1940 at the age of 82. He was born in Walton, Nova Scotia. Mr. Parker was a member of Theta Epsilon Fraternity, now inactive.

WILLIS ELMER ROBERTS. Willis E. Roberts, 75, died in Brunswick on March 29, 1960. A native of Brunswick, he graduated from Bowdoin College in 1907, and from the University of Maine Law School in 1910. He practiced law for 30 years, then took over the management of the Roberts Shoe Store, which he operated until the time
Notes from the Classes of 1911

PERCY GORDON KILBURN. Percy G. Kilburn died on September 23, 1946, at Lake Arrowhead, California, where he and his wife had owned and operated a resort lodge for ten years. HDMI. Dow survives.

CHESTER M. MERRILL. Dr. Chester M. Merrill, 71, died at home in South Paris on April 14, 1960. He was a graduate of the United States College of Veterinary Surgeons, Washington, D. C., in 1913 and for many years of his professional veterinary medicine in South Paris for the past 47 years. He also was known for his pioneering efforts in education consolidation, sponsoring the campus plan. Active in civic affairs, he was a member of the town budget committee and the school building committee. Professional groups in which he held membership were the Maine Veterinary Medical Association and the American Veterinary Medical Association. He is survived by his widow, a daughter and a brother.

LISEY MANSFIELD HUGGINS. Lisey M. Huggins died on December 11, 1959, at Lake Winnipesaukee, Concord, N. H. She was a graduate of the University of Maine in 1912 and was a member of the Kappa Phi Gamma Fraternity. She married a classmate at the University, Walter F. Huggins, who was a member of the Theta Chi Fraternity.

ARTHUR LEROY OLIVER. Arthur L. Oliver, 65, died at his home in Green Bay, Wis., on April 25, 1960. He was a graduate of the University of Minnesota in 1919 and was a member of the Phi Delta Kappa Fraternity. Survivors include his widow, a daughter and two brothers—one is Frederick N. '36 of DeForest, N. Y. Mrs. Palmer was a member of Kappa Sigma Fraternity.
with his daughter, Tani (Gould) Tozer '23, to their home in Bangor in time for the early June Reunion.

Another classmate, Frank Sawyer, who receives mail in care of his daughter, Mrs. Mary Sawyer of 1360 Taylor Street, San Diego 6, Calif., is a native of Corinna, he attended Colby College before entering the University to study engineering. Mr. Knowles is a member of Alpha Tau Omega Fraternity. Some contrast to the many student-owned automobiles of today.

The late Earle R. Richards carried on the news gathering to keep an active class column for many years. (See June ... visits at the Alumni Office and the annual attendance at Commencement of this fine Maine alumnus will be deeply missed.

The Knowleses sold the home in Teaneck, N. J., and now have a ranch home at 920 Lincoln Circle, Winter Park, Florida. They are busy keeping up with four daughters, eight grandchildren, and two great-grandchildren.

A native of Conna, he attended Colby College before entering the University to study engineering. Mr. Knowles is a member of Alpha Tau Omega Fraternity.

Arthur A. Hauck Building Fund

The late Earle R. Richards carried on the news gathering to keep an active class column for many years. (See June ... visits at the Alumni Office and the annual attendance at Commencement of this fine Maine alumnus will be deeply missed.

T. A. Noyes winters in the South, but receives his mail via Michigan.

Another classmate, Percy L. Ricker of 3740 Oliver St., N.W., Washington 15, D.C., has written and made plans to be in Orono for the Commencement-Reunion Weekend. He is the founder and president of the Wild Flower Preservation Co., for which he is a consultant. He hopes to get back to Maine this spring. We trust he can make Commencement Reunion on June 4 when he can see some of his classmates.

1905 For 12 years since retirement the President E. Frances of Eaton Center, N. H., have been about 55 miles to the north of St. Peter's on Route 30 every winter. They receive mail at P.O. Box 742, Bellingham, Fla. For the past 11 years they have been attending the U. of M. Luncheons at the Penn. Hotel in St. Pete and quote, "These luncheons have been enjoyed to the fullest and I recommend attendance to all Maine people in this section of the State."

1906 We find that there are 57 of the Class of 1906 for whom current addresses are on file in the General Alumni Association records.

Certainly amid the '06 ranks there is one who would volunteer to carry on the writing of news for the 1906 column.

Jesse D. Wilson, 53 Elm St., Topsham, was a victim of a coronary, says he just had a physical check up and the doctor told him that if he continued as he was and did not call attention to his disease, he will die of old age. He is sorry he can not get back to Commencement to see some of his classmates.

Frederick D. Southard, Maine 1906 3427 Freeman St., San Diego 6, Calif.

IN MEMORIAM

May 16, 1960

On the death of Earle Richards Our Class Secretary

Treasured are those memories Of one I loved, as one man to another Close in aims and ideals, as one's own brother, Through the years till but my reverses Remain.

Steadfast as a volunteer Unfeigned efforts to ensure the memories Of all those classmates of the yesteryears, His pen, a magic wand, to picture here Our Maine.

1908 Mr. James A. Gannett 166 Main St., Orono

Arthur A. Hauck Building Fund Number contributing—13

Clarence Weston writes from Atlanta, Georgia, that he has completed his scale model of the Hartwell Dam and Power Plant now being built on the Savannah River. The model is three feet wide, nine feet long and is built in a scale of forty feet to the inch. It shows the concrete dam and sections of the earth embankments on either side. At the base of the non-overflow section is the power plant with five outdoor generators and a control building. In the foreground is the splay tower and the first tower of the four 230,000 volt transmission lines.

The ground surface of the model was formed by first tracing each five foot contour onto a composition board of the proper thickness, cutting these contours out, and then pasting on foam rubber. The first towers of the four 230,000 volt transmission lines.

THE MAINE ALUMNUS
writes: "The model has provided a pleasant and stimulating transition from forty-five years of dam and power plant design to a profitable hobby." The Alumni Office has given a new address for Robert L. Cummings as Mt. Valley Inn, Waynesville, N. C.

On a recent trip to the Carolinas your reporter looked up Frankie Richardson, near Norfolk, Va., whom he had not seen in fifty years. I think both were surprised that the years had wrought such changes in our appearances. But we did not dwell on the passing years. Rather, we had a wonderful, but all too brief, chat. Many, many things were left for future discussion. Frank has become an attorney and is now president of considerable skill, and since his retirement several years ago it has become his chief hobby. His winter address is 117 69th St., Virginia Beach, Va. and in summer it is Box 84, Baldwinsville, N. Y.

Some '90s are touring Europe this spring—the Joe Garey's, the Jess Masons, the George Naumans, and probably others from whom we have not heard.

Number contributing—26

This is the last letter your scribe will make this spring in trying to pull a few items together that may interest some readers of The Alumnium.

It has seemed at times that the 1910ers were the most modest group of people I ever knew, for very few of you have related any stories of your own experiences that would have made the writing of this column much easier and surely more interesting to all of you. My thanks to the few that have taken time to write about themselves and greetings and best wishes for the good health and a pleasant future to the eighty odd members of 1910 that arc now living according to the latest information we have been able to secure.

As the Alumnium went to press we learned of the death on May 10 of Paul Libby after a brief illness. Funeral services were held at Alexandria, Va., on May 15. A report will be in the October Alumnium in the Necrology section.

1909

Mr. Fred D. Knight

Your reporter’s principal source of news through the years has been our distinguished classmate, Dr. Mary Ellen Chase. Indeed, it was not for her frequent notable appearances the 1909 column would have made without any thought of personal glory that her efforts and be glad to hear from some of the boys. We still hope the Conlogues change their minds and join us by Jet plane for the 50th Reunion.

The Ernest Walkers have arrived back from their around the world cruise and will be up soon to tell us about it. Must have been something.

Walter E. Morrison recently held an exhibit of a selection of his paintings. The selection, containing both water colors and oil, was shown in April at the South Weymouth Branch of the Quincy Trust Company. Walter’s address is 17 Peter Hobart Drive, Hingham, Mass.

As I sit down to write this column and look across the street, I see Delton W. Folley at his uncle’s house. He has a large interest in the preparation for the two hundredth anniversary of Cumberland County. If you come to Commencement this year you can see for yourself.

Class of 1910—50th Reunion—1960

Listed in the February Alumnium as whereabouts unknown can be reached at the following addresses: Francis E. Howard, P. O. Box 110, Boston 17, Mass., Orwell Logan, 842 The Almeda, Berkeley, Calif.

John L. Collins, 12 Crosby St., Augusta, has been named Chairman of the Committee in Charge of Arrangements for the 50th Anniversary of the Maine Association of Educators, which is to be held in January 1961.

"Phil" D. Simonton of 327 Home Ave., Oak Park, Ill., regrettably stated he cannot make the trip to Orono since he has several petty ailments that require home care. "Phil" asked to be remembered to all 1910 classmates.

George D. "Bruce" Bauricx will go to the summer Olympics in Rome. The Conleys are planning to come to Commencement this year.

President Arthur Richardson has retired and will be with us to a glorious 50th Reunion in 1961. This is the last issue until the new School Year. Send us all the news for fall.

Walter E. Morrison recently held an exhibit of a selection of his paintings. The selection, containing both water colors and oil, was shown in April at the South Weymouth Branch of the Quincy Trust Company. Walter’s address is 17 Peter Hobart Drive, Hingham, Mass.

Mrs. Everett B. Harvey (Carrie L. Woodman) who lives near Robert, also graduate from the University of Maine (1931) has a change of address. She now resides at 133 Shawsheen Avenue, North Haven, Conn.

By the time this issue of the Alumnium arrives, you will have received Mrs. Deering’s letter regarding the proposed 1912 breakfast Saturday, June 4, at 8 a.m. in Stodder Hall. We are looking for a goodly number back on the campus to renew old ties and make plans for our 50th Reunion.

Class of 1911

Mr. Avery C. Hammond
P. O. Box 200
287 Ohio Street, Bangor

Junior Partners — 3
Number contributing—29

As I sit down to write this column and look across the street, I see Dave F. Folley at his uncle’s house. His hat is denim, his derby hat, a beard, a cane, a dog, and a camera. Why the derby, we do not know, but think it is to go with the beard which he is wearing for the two hundredth anniversary of Cumberland County. If you come to Commencement this year you can see for yourself.

Last year we told you of the extensive travels of our own Raymond E. Davis of Berkeley, Calif., in connection with his consulting engineering work. Well, he is at it again. Last November and December, as a member of a Board of Engineering Consultants for the Kingdom of Togo, he took another trip to the Far East. Since the beginning of 1960 he has twice been to New York and is scheduled for another trip in late June. On the week of May First, as a member of the Board of Consultants for the Bureau of Reclamation, he will be at Glen Canyon Dam on the upper Colorado River in Arizona. A couple of weeks after that he will be on a similar trip to Flaming Gorge Dam on the Green River in northern Utah. Shortly thereafter, as a member of the Board of Consultants for the Corps of Engineers of the U. S. Army, he will be on an inspection trip to the Norfolk Dam in Arkansas. A short time later he will be up in the jungles of northern Thailand, where Bhumpol Dam, the highest in that part of the world, is under construction. He says, "Just one dam thing after another." He says he is not working as hard as he once did, but, you can draw your own conclusions. Raymond plans to attend our 50th Class Reunion and is looking forward to it.

Everett Maxcy has gone to New York for his third throat cancer operation. His vocal chords have not been interfered with and his general conclusion has been better than normal. We are looking for, and hope for his speedy recovery.

JUNE, 1960

We were very proud to learn of the winning of...
one of the top awards this year by Woodbury L. Berce of this Class during the 53rd Annual Meeting of the Maine State Agricultural Stabilization and Conservation Committee will be crowned with further success.

Just got word that Mary E. Russell who according to the last report was living in Pearl River, N.Y., and working for the American Cyanamid Co., has moved to Cottage St., West Brookfield, Mass., P. O. Box 257. Mary, you are now not too far from Orono, so hope that you are planning to be with us in '63 at our 50th, and do try to get back to one of the Commissions before then if you can. I am not a bit "nosy" but just curious.

We turn to our Class History and again "YOU WERE THERE." On March 4, 1910, we met in Fernald Hall and I quote this time from the Secretary's Report, verbatim—"The purpose of this meeting was to elect a Manager of the Debating Society. A motion was made, seconded, and carried that the Nominating Committee be laid aside (in other words, given the "Bums" Rush) and that the Class elect a Manager (but no mention was made of other duties). I am not sure of this."

About 50 per cent retired now, and feeling the need of more aid and activity. Dr. Ferguson has turned to the study and exuberant application of the growing gladiolus. In addition, in 40 years in X-Ray work, Dr. Ferguson turned out a goodly number of papers and articles for medical journals.

Among his other activities were consultant or radiologist to seven hospitals in and about Boston, associate professor of Orthopedic and Fracture Surgery at Boston University, and teaching appointments at Cornell and Columbia.

Dr. Ferguson writes that he has always had many hobbies. One of these, whist and bridge, led to the writing of a book entitled "Contract Bidding Tactics at Match Point Play," with S. Garton Churchill, former National Pair Champion at Contract Bridge.

A specialist in X-Ray he was particularly interested in X-Ray of the bones and spine. This interest led to the production of a number of papers and lectures. He has also served as President of the Boston Orthopedic Club.

During the Conference of the American Orthopedic Association and the American Academy of Orthopedic Surgery.

An article from the May 1960 Paper Trade Journal was authored by Dr. Ava H. Chadbourne '15 of Bangor. It is an Indian legend of the Moosehead Lake region and makes very interesting reading.

The following news item should have been in our column several months ago. I had it from a number of most interested sources. I can only say I am very sorry for the delay. In June, Professor Earl C. Libby retired as head of the department of Pulp and Paper Technology at North Carolina State College. He will be a member of the staff for the first summer institute for the department. The institution is located at the University of Maine from July 11 to August 19. A very fine tribute to him was paid by theDean of the State College of Forestry. He has been Professor of Pulp and Paper Technology at the University of Maine from 1932 to 1952, and the program at North Carolina State College followed the same direction in 1952. These programs will continue to receive the enthusiasm and ability of Dr. Libby. His talents as a great teacher and builder of men have endeared him to many hundreds of young men who studied under him and in each of whom he expressed a deep personal interest.

A full page article in the May 1960 Down East magazine was authored by Dr. Ava H. Chadbourne '15 of Bangor. It is an Indian legend of the Moosehead Lake region and makes very interesting reading.

We have heard recently that Col. Charles L. Stephenson is the Civil Defense Director of Cumberland County. The big event now is the annual national problem of Civil Defense. Another Maine Alumnus who works for Col. Stephenson calls him “a grand guy.”

Elmer J. Wade, an electronic engineer, of Scotia, N. Y., has recently completed 40 years of service with the General Electric Co. He has long been recognized as one of the outstanding development engineers in the electronic field throughout the U. S. industry, and in recent years some of his technical contributions have been recognized in Europe. He has had at least 14 patents issued. He joined the General Electric at the Schenectady Works in 1902 and received his B. S. in Electrical Engineering at the U. of M. After a year in the Service Department the company, in the Piping and Erdman Engineer Dept. During World War II he was loaned to the General Electric Research Laboratory in Schenectady, Piping and Erdman with a group working on the development of weapons to counteract submarine warfare. In 1947 he went to K A P L (the Knolls Atomic Power Lab, operated for the Atomic Energy Commission by the General Electric Co.). He plans to retire this year. He has a shop in the basement of his home where he has made several gadgets that he may market. He has a summer camp on an island in Boothbay Harbor. He and his wife are considering moving to Florida, but he thinks he would miss his shop, as Florida homes have no homes of time. He has had many happy years of well earned retirement.

Ettelle (Sawyer) Carlson has a most interesting position as Director of Public Relations at the International University, University of California, Berkeley, Cal. Her office plans the Community Relations Program, Understanding through Hospitality, for foreign students studying at the Univ. of Cal. Many Rotary Clubs in the region sponsor trips for these students, and they stay in the homes of Rotary Club Members. Recently Ettelle accompanied a group of 26 students on a trip to Redding which included a visit to Lassen National Park, Shasta Dam, and a lumber mill. She also accompanied 40 students to Yereka—Montague. At another time she and 29 Students visited Lake Tahoe and Squaw Valley where they skied, visited an American Indian School at Carson City, and they visited Reno. These trips afford a wonderful opportunity for foreign students to observe our schools, homes, industries, conservation programs, and areas of scenic beauty which they would not otherwise be able to visit. Congratulations to Ralph A. Wilkins who has recently been elected president of Bird & Son, East Walpole. Mary Agnes Farnham Alumnus had a write-up about him when he was elected executive vice president, but since that time he has been made president.

Have a nice summer. Send me some news in the fall.

Fred Whiteside, principal of the Blodgett Vocational High School in Syracuse, N. Y., writes, “Believe it or not, I look forward to news from you about Maine. As you know I can’t be as a graduate, having received my B. S. and M.S. from Syracuse University in September through my High School days in addition to the time I spent at U. of M., bring back fond memories. I sure wish I could say that I will be back to our forty-seventh reunion in June, but in my job, that is a busy one. However, I will try to settle for five years from now and I will make a date to see you then. In 1965 I expect I will have brought lots of lessens into the world.”

My wife and I get over to New England about every other year. A year ago our business husband live in South Weymouth and we usually spend a couple of weeks together touring New England. We have vacated the time now and we have a couple of weeks free and we have a couple of weeks free and we have been traveling for some time now and we have a couple of weeks free and we have been traveling for some time now and we have been traveling for some time now. We have a couple of weeks free and we have been traveling for some time now.

We appreciate the cooperation of others in the sending of news. So thanks to Ethelyn (Percival ’24) Howard, we have the following about Frank and Ethelyn from their home in Medford, Mass., “A year ago Feb. 1. Frank retired after 18 years in the Boston Naval Shipyard. A year ago last October we bought a summer cottage on Lake Anna-gussett in Orono, Me., and we rented it out to a man from Rumford and 26 miles from Auburn. Last Summer we spent 12 weeks there. We installed, paneled, fixed the water system, put in an electric water heater, installed a shower using a plastic kidde playpool for the base, and dug a 70 foot drainage trench for the sink. Our cat this summer we hope to build a garage and workshop and glass in the screened porch. Frank has made a transit to use up there. It is beautiful there. The foliage was gorgeous over the October 12 weekend. We are near the lake and also near route 140. The fishing is good, too, and our cat loves the fresh perch fillets.

We have a nice fireplace there which we enjoy in the evening, also a gas floor furnace which keeps us warm when it gets cold.

We are spending Olsen’s one week vacation up there from April 15-23. We have a few friends ready for the trailer and are getting anxious to get started.

Frank Preti writes from Portland after eleven weeks in Florida. “It has been a long time since graduation, but yet it seems like yesterday. I am still trying hard to get well. It’s been tough medicine for me to be quiet as I am a fairly active individual. I was about to return, when I received my stroke, when I was feeling fine and had just returned from a cruise to the North Cape and visited Iceland, Norway, Sweden, Denmark, Holland, Germany, Belgium and attended the world’s fair in Brussels. It was a wonderful trip, far better than a trip I took to Egypt, Jerusalem, Greece and Italy. I’d take the latter again if they gave me a choice. Met Earle Dunham and wife on the Swedish trip. Both graduates of Maine. He used to live in our town. We visited them at Fort Lauderdale while there. Frank’s reference is to Earl and Alice (Stanley Dunham).”

Here we go: I quote the following nice letter from “Bus” Walker, formerly classmate of yours, the Class of 1953. “I had a buzz saw with in-
numerous class activities "Dear 'Hatch': May I say 'Thanks' for your accepting the duties of Reporter for '22. You have relayed the news of our classmates with an enthusiasm that brings to my mind the warmth of your personality, as I remember you. Sorry that Fate hasn't allowed our paths to cross. Not too much to report on the interesting-career type of personal activities, but my years have been very happy. "We live in an early American house built about 1780, only about an hour's drive from Waban. Father of two boys and one girl who is married and lives in Weston, Mass. Our daughter has three children and the grand-pa role suits me fine. I have permit me to include all her vivid and wonderful experiences. We have been with a local manufacturing company for the past 11 years and while I know retirement is not too far off, I'm not eager to see it arrive, as I enjoy active work, and am lucky enough to have good health to enjoy my work. You may have to dig out a Post Card to identify me, but I'll bet I'll know you when we meet which I trust will be soon." "Bus" lives at 592 Tremont St., Taunton, Mass. How could a classmate be any nicer than write a letter like this? My face is red. Thanks, "Bus."

"Our former Secretary, Minnie Norell Libby, wrote me from Florida and this is her story which I am pleased to have: "I have visited my sister during March until April 7 just outside Pensacola, Florida, and I have visited the fascinating city of New Orleans!" I wish space would permit me to include all her vivid and wonderful details of New Orleans! Her description of the city homes, restaurants and for boys this made me agree and join Minnie in saying, "Don't overlook New Orleans in your travels. Thanks, Minnie, for your interesting Penelope. These New Orleans men sound too rough for a tender stocking."

As the reporting year ends, I am well aware of the fact that many may not fancy the style which I am trying to bring to "The Maine Alumnus." It is my hope to be on campus at Commencement and

Class of 1925—35th Reunion—1960

I know that all of you will be as delighted as I am that Sally Curtis, daughter of Marie (Holden) and our late classmate, Louis E. Curtis, has been named recipient of a Fulbright award for graduate study in Europe. Sally has also had the unique honor of being one of the University's government interns and spent six months working for Congressman Oliver in Washington. Now coming to Maine is living at 234 College Road, South Portland, and has a fascinating position at Bridal Consultant, which entails giving advice on the etiquette and details which can make weddings the success they deserve and thus eliminating all headaches for the bride and her family.

Harold C. Perham of West Paris and his son, Joseph of South Portland, are among those functioning as a Father and Son team of lay-leaders to carry out a Missionary program on Universalism which is being promoted here in Maine on a state-wide basis. Harold also serves as executive secretary of the Maine Association of Universalist Laymen. And just in case you may have forgotten, Harold and Mrs. Perham are the parents of an extraordinarily brilliant family of thirteen children.

Nearly all of them are through college now, although Joseph is working on his master's degree at Maine, where Douglass is enrolled as an active engineer. The three youngest children are all in high school in West Paris where they are excelling in basketball. How about some news about yourself, your family, etc., Wally?

Since this is my last column, I want to say thank you to all of you who have helped make it possible for us to be in print every issue these last ten years. I wish I might have had better cooperation from cards and letters sent out, but then I guess some people are just not "Alumni" minded—or too modest.

Valle's Steak House in Woodfords Corner in Portland will open in a half-million dollar plant adjacent to a motel, on outer Brighton Ave., sometime in June. Valle who parlayed a hamburger into a multi-million dollar business is one of the largest caterers in the state.

Llewelyn Dwyer is again planning his annual Camporee at the Camporee grounds, purchased in 1935, for seven weeks through the North Woods of Maine, on the watersheds of the St. John, Androscoggin and Penobscot Rivers. In addition to fishing there is fossil hunting, geology, forestry, camp cooking, swimming, and mapping. A wonderful experience for boys.

Sympathy of the Class is extended to Justice Edward Curran in the recent loss of his wife Katherine. She is also survived by three daughters: Eileen Curran, Mary Curran, and Anne Curran, and by one son Edward M. Curran, Jr. Valle's Steak House in Woodfords Corner in Portland will open in a half-million dollar plant adjacent to a motel, on outer Brighton Ave., some time in June. Valle who parlayed a hamburger into a multi-million dollar business is one of the largest caterers in the state.

Two more names from the "lost" department, which by the way has dropped from 126 to less than 20 due to Mildred (Brown) Schrumpf's efforts, are the following: Dr. Lazarus Manoil and Aliee Andrews.

Dr. Manoil graduated from Tufts' Medical School in 1928. He is at present living at 34 West Lynn St., Phoenix, Arizona. Aliee is maintenance man for Denby Co., in Troy, N.Y. His home address is 398 Second Ave., North Troy, N.Y.

Llewelyn Dwyer is again planning his annual Camporee at the Camporee grounds, purchased in 1935, for seven weeks through the North Woods of Maine, on the watersheds of the St. John, Androscoggin and Penobscot Rivers. Ruth M. (Thompson) Thompson, Bendermere Ave., Interlaken, Asbury Park, N. J., is my lifesaver this month. Ruth is a Home Ec teacher in a new three million dollar high school just opened in her birthplace. She is now residing at 1370 Kirmann Ave., Reno, Nevada.

I would welcome bits of news on your vacations, family weddings, anniversaries etc. So long for a while and have a wonderful summer.

1929
Miss Ruth M. (Thompson) Thompson, Davisville, N. J., is a good job teacher in New York.

The following effort is an attempt to keep the Class of '29 in business during the time that your secretary and her husband are exploring Europe. Matthew '28 and Romona (Pooley) Highlands left Orono on March 31 and sailed the next week from New York on the Bremen. They picked up a Triumph (car) in London, crossed the Channel immediately and began a six-months journey through Europe. Be good heart, for Romona will sail back the last of September and take over. Please welcome her home with all the news that you have accumulated during the summer.

And last but not least, Irving Pickering recognizes gravel in Ogunquit as the type that could bear gold and we have a minor Gold Rush in those parts. Irving is an engineering superintendent.

Dear Classmates,
I wish I might wait till after I've talked with each of you at our 30th Reunion before writing our class notes, but that is impossible since I must get these off by the first of May. However, I've already gleaned some news in the correspondence involved in making up the Class Notes. I'll include the rest of our news next fall.

Thanks to our hard working Alumni office, several names have been taken off the Class List. We would be happy to hear about more of them.

Bruce Burns is now with the Bechtel Corp. and lives at 2107 Grant Ave., Richmond, Calif. Ira Drew is a supervisor with Bartlett Tree Service. His address is Route 4, box 46, Salem, Va.

Grace (Gillette) Nichols can be found at R.F.D. 4, Cedar Hill Farm, Gales Ferry, Conn. Grace is a poultry inspector with U.S.D.A.

The president of Rudman Beverage Co. and the Pepsi Cola Bottling Co. of Bangor is David Rudman of 34 Bellevue Ave., Bangor.

Edward Stern, a Bangor attorney, is candidate for the Class of 1929.
for the Democratic nomination to the post of Penobscot County Attorney in the June primaries.

Fred Lamoreau was reelected chairman of the Town of Orono Budget Committee at the annual meeting on March 21.

Don LaPoste is now Mrs Meretone E. Round and lives at 48 Duron from Penobscot Street, Orono. Donie is the mother of five children and two of their boys are in the service. She is back at the University carrying a full schedule as a senior in education. Those of us who get back may even see her graduate. Congratulations, Donie. You deserve a wonderful and busy life.

The Kents live at 76 Orchard Drive, Greenwich, Conn.

1931

Mrs Sam Sezak (Ethel Thomas)

Fred Lamoreau was reelected chairman of the Town of Orono Budget Committee at the annual meeting on March 21.

I was pleased to see a picture of "Patty" (Barton) Painter appearing in the Christmas edition of the Arthur A. Hauck Building Fund Number contributing—85

Notices to all members of "31!" Start making plans for our THIRTIETH next June! Let's make the American Institute of Electrical Engineers, Tau Beta Pi, New York City Engineers Club, Milbrook Golf Club of Greenwich, Conn., and Mohawk Club of Schenectady, N. Y. The Kents live at 76 Orchard Drive, Greenwich, Conn.

Mrs Angela Miniutti

August 26, 1932

I am glad to report on "lost" members who have been found. Mrs. O. H. Wyman is now living at 228 Brackett St., Portland.

Who is going to find yourself in the vicinity of your Alma Mater.

I must apologize for an error made in a recent item about Myrna Fahey, movie and TV star from Maine. She is not the daughter of Sylvia (Hickson) Fahey but our class of 1932. Myra Alden Denaco of 42 Grant St., Bangor, is her uncle through marriage. Needless to say, Uncle Al has applied to the university to be we. In January Myra was to start work on a new movie, "A Girl of Wall Street," starring Mary Edgar Allan. She will play opposite Mark Minton in this picture that will star Vincent Price. She is a graduate of Falmouth High School.

Ralph N. Prince, Field Service Engineer with Huyck Felt Company Division of Huyck Corp., has been appointed president of the American Institute of Electrical Engineers at the annual meeting held in New York City. Mr. Prince is a past president of the American Institute of Electrical Engineers and has been associated with the company for many years.

A fascinating feature story printed in the Hartford Courant, "The Doctor Who Retired a Science," Dr. Monroe Romansky, was sent to me by the class news editor, Dr. Romansky. Romansky's formula whereby penicillin was enclosed in a combination of peanut oil and beeswax, at first promising for use in curing syphilis, did not work in time new methods and techniques building from the Romansky idea were developed and the present methods of treating syphilis which could be treated by penicillin. Dr. Romansky is now a full professor of medicine at George Washington University. He has extensive laboratories, one at George Washington Univ. Another is at Dr. Romansky is a con­sultant to the Surgeon General of the Army, consultant in International Medicine to the Veterans Administration Hospital in Martinsburg, W. Va., and the American Medical Assn Council on Pharmacy and Drugs.

Ralph N. Prince, Field Service Engineer with Huyck Felt Company Division of Huyck Corp., has an article in the Paper Trade Journal of April 4 on the subject "How to Improve Felt Performance When Using Wet Strength Resins" and "Paper Technical Laboratories, Inc., Rockport, Maine, to deliver news in person, if you happen to find yourself in the vicinity of your Alma Mater.

Number contributing—131

A write-up of a recent Maine Masque production in the Bangor News listed Ed Haggett as a member of the lighting crew and Diane Wiseman on the publicity committee. Sons and daughters continue to be active in Masque activities which is marvelous.

The above are two excellent candidates and we hope they will be elected to the office they seek. And while we're on the subject of politics, have you read in the recent Daily Press article that Terrance F. McCabe, Augusta, son of Francis "Pat" McCabe, was elected vice president of the U. of M.'s Young Republican Club?

This has been a great month of "dots" for me. Let me tell you what I am writing thus in April. I attended the Regional Meeting of Hospital Auxiliaries at the local hospital and Dot (Rosen) McCreedy and Dot (Newman) Gray were also present. I was delighted to see you both! Mrs. Albert (Doris Rosen) McCreedy lives at 2 Tuckser St., Norway, Maine. Her husband works at the Post Office, and as a hobby which is slightly remunerative, the couple organizes and runs a Junior Hockey Club every Thursday night. The whole family skis which gives them wonderful weekend fun together all winter. Lary is a freshman at High School, an honor student, and most interested in Boy Scouting and in track. Billy, the athlete, is in the 7th grade; and Mary is in the 5th grade. Dot is president of the St. Catherine's Guild for the Church, vice pres. of the Hospital Aux., and worked for crippled children. The Stotts were located in Danvers, Mass. Although I was not there, I was wondering when I saw them last week.

Mrs. Robert W. (Doris Newman) Gray resides at 1019 Oak St., Gardiner, Maine. Dot has been chairman of her Hospital Auxiliary for two years and has taught physical education in the high school which is near her home. Nancy, her oldest, is engaged and is at the Thayer Hospital, here in Waterville, studying X-ray Technology. Frank Jeffrey is a high school freshman, and Karen Mary is 10 years old. When you go through Gardiner to the north of Davis Phil is ranch management specialist with the Extension Service of the Univ. of Calif, with his office on Davis Highway. Dot and Phil's oldest boy Joseph was married in February and works for the Pacific Gas and Elec. Co. in Sacramento. James is attending the U. of Calif. and majoring in Irrigation Science. John is a student at Davis High School and is active in sports and the school band.

Dr. Peter P. Bartlewski, D.M.D. lives at 115 Pendleton Rd., New Britain, Conn. Thanks so much for news of you. Pete and his wife Mary have "done themselves proud" with 5 children: Peter, Donald, Patricia, Andrew, and Mary Ann. Besides his dentist work, Pete is a director of the Peoples Saving Bank, a member of the Pueblo Boys Club, as well as a member of the Holy Name Society of the Church.

Oroho and Philip Parsons are living at 323 F St., Davis, Calif. Don was at Edward Little High School in Auburn, previously, and he developed one of the finest bands in high school ranks in this part of the country. In addition to his teaching duties at Masconomet, he plans to develop a choir at The First Church. Donald Gay of Greater Danvers, Music Director at Masconomet Regional High, has been appointed choir director of The First Church, Congregational, Highlands, Mass. Don was at Edward Little High School in Auburn, previously, and he developed one of the finest bands in high school ranks in this part of the country. In addition to his teaching duties at Masconomet, he plans to develop a choir at The First Church.

Time to wish you all a pleasant summer! How the months do fly by! Even though it is not our reunion year, I hope to see some of you in Orono in June. I hope to see you all in Orono in June and plan to enter Maine in the fall. The second son will be a senior in high school next year.

Hal is also on the committee for our Class Fund and says that the money is swelling. Keep those checks coming!

Portable Hobbies is superintendent of the Portland Water District. He and Solveig (Heistad '38) live in West Falmouth.

Charles D. recently was elected vice president in charge of industrial sales of Warren Pumps, Inc., Warren, Mass. Royal Mehann's address is Cherry Hill Apts., 916 West, Merchantville, New Jersey. Another "lost" member has been found: Edward McKeeney lives at 128 West Stimmel St., West Chicago, Illinois.

Many thanks to Angela Minetti ('32 Class Secretary) for sending me the following item from the Portland Press Herald:

George Frazee, Jr. has been named a National Merit Scholar. There were only four Maine students to receive this honor and they were chosen not only for scholastic ability, but also for such qualities as leadership, citizenship, and participation in extracurricular activities. May we add our congratulations to their parents. There were many students who were not chosen and who should be commended on the passing years when we read in the "25 Years Ago" column of the Bangor Daily News that Reggie Naugler was elected Mayor of U. of M. Reggie was the first to hold that honor.

This class extends sympathy to the wife and three sons of Joseph McEachron of Greenville who died in late May. (See June Necrology.)

Margaret (Rice) Ladue of 7 Briarcliff Dr., Port Washington, L. I., N. Y., after graduation went to N. Y. and worked for magazine and book publishing houses, as promotion manager of American Book Outdoor Life and Today's Woman. She has been an associate professor of speech at Penn State University. He has two children, Sandra, 10, and Stanley, 7. Elton completed his doctorate at Northwestern in 1950. He has been an associate professor of speech at Penn State since 1950, also staff engineer and part-time consultant for a Research and Development Company on contracts, classified, Dept. of Defense. His hobbies are gardening in summer and woodworking in winter.

Mrs. Clement Smith (Mary Ellen Buck) of Monmouth, Maine, was named a member of the national Family Test Group of Farm Journal Magazine. Members of the test group were selected on the basis of special interests and skills in some phase of homemaking or family life. She was born to Dr. and Mrs. James D. Clement, Jr. on March 28. His name is Jay Langdon Clement, 6 lbs. 8 oz. Jim is a surgeon in Bangor and physician of your part. His home address is 158 Kenduskeag Ave., Bangor.

Peggy (Hauck) Ladd called me last month.

Capt. Robert B. Cook, Staff eng. Sec. Base C, A.P.O. 44, New York, N. Y.

Lost—Barbara Bailey Patterson (Irvin M.), Marjory Gerstian Poock (Leon R.), Adrienne Thorn Pulver (William F.), Ellis M. Ramsdell, William J. Sirois, Glenwood A. Snowdon, Harold Y. Stockholm, James M. Stoddard, Abraham L. Teitelbaum, Mal, Herrick M. Thomas, George Thompson, and Marie F. Thompson. This completes the missing classmates list. Good luck.

Charlotte Hervey Carter (Mrs. Linwood R.), 41 Tree St., Portland, is the next secretary on the list. Let's give her a huge start on next fall's list. She attended the Maine-Bowdoin game at Brunswick!

If you are interested in hearing the details of "Haggett's Indiscretion—over-exposure and undermining in Fla." add your name to Dune's list and he will fill you in on the sordid details.

Gad, these editors give you the heebie-jeebies—first they holler for material, then when you finally get it, they cut the very devil out of it. Well, here goes for the second try on Capt. George Roundy's letter from Camden.

"O.K., Roberto, you asked for it! "Barbara (Brown) 38, and me too, also 38. After 15 years of fighting the Battle of Boston, going to Fay, Spofford & Torndike, Engineers private salt mine, I got smart and came back to Maine. Tired one deal in Boothbay Harbor in the spring of '39 which didn't work out, and settled for the above Corp. (Island Marine Co.) or its predecessor. Last summer ran RICHARD T H from about July 4 to October 12 on a regular schedule, and from then until November 1 on a charter schedule. Corporation formed as of January 1, 1960 and another stockholder added. Some winter work, with prospects for a better deal next winter when more generally known. Summer schedule looks busy and good, with prospects for a real banner year if we can't stand hearing from more classmates. In order of receipt, we've had letters and checks from the following: Mirtam (Hilton) Coffin, Waldo Hardston (probably prodded by Haggett) and (don't think John was delirious at being ahead), Madelaine (Davis) Johnstone, Jim DeCosta, Ann Vague, Henry Allen, George Tanou- gas, Tubby Hodges, Virginia (Hilt) Benton, Don Kelley, Art Smith, Priscilla (Toudreau) Rowe, and Jim Starch. Welcome to the club and thanks for the fine support—may we still make that lofty goal that Gowell went off half cocked about. Let's see your name, and yours, on the next list. If you are really interested in hearing the details of "Haggett's Indecision—over-exposure and undermining in Fla." add your name to Dune's list and he will fill you in on the sordid details. On the way back from Florida with the Haggetts, we visited the Pentagon at 5:00 P.M., the Dwight Lords, and the Sherrys—and I'll leave you to guess who was the most confusing. And a free night of lodging in no way influenced us! If anyone feels offended because I haven't used some of the information you so kindly sent in, be patient. I'm working on it, but not 'til fall since this is the last edition. I'm writing for the day that the Alumni Office and editors can spare me more space.

See you all at the Maine-Bowdoin game at Brunswick?"
She and Ted were here in Washington visiting her folks and were going on to Williamsburg. They were spending as much away from the Maine winter, but arrived here in a blizzard!

By the time you read this we will have had our first Reunion. I'll bet everyone who has promised to do so will come—especially all of you who have promised to do so.

Good-bye, and it has been fun writing to you.

The sociological factor known as "mobile population" is surely reflected in many instances among the members of the class of '42... e.g. Paul Bartlett, now a Major in the Air Force, is located at 85 Montgomery St., and is teaching astrophysics at the Warren Force Championships at Army, at Maxwell AFB. Frank Phinney has advanced to the rank of Lt. Colonel, U.S.M.C. and is currently with the Division of Information, Headquarters USMC, Washington, D.C., with a residence address of 3813 Keller Ave., Alexandria, Va.

A third member of this “operation mobile population” is Major Ernest Chadbourne, who is with the Army and has a current address of DA, OTSG, RM 2703, Main Navy Bldg., Washington. C.C. A bit of news has cropped up concerning Edith (Jacobs) Stierberg, who was with our class for just one year. Her husband, Dick, is a professor of English at the University of Minnesota, and his present address is 99 Summit St., Woodland, Maine.

Don and I have just returned from a delightful week-end in Boston, where we attended the Boston Alumni Summer Dance. Along with many friends from other classes, we saw Dr. Richard Bragdon and Mary (Hempstead) Henmon. Seeing Mary reminded me of an article from The Dragon (the AOPi Alumnae Magazine) recently naming Mary the Boston Alumnae Woman of the Year for her part in the construction of more schools for Norwood. It seems that the inspiration for following through on such a public service project dates back to an AOPi Convention which she attended when she was an undergraduate. We’re all proud of you, Mary. Keep up the good work!

Dick and Thelma Bragdon and their three children live in Needham. Don had a very pleasant visit with them during the winter. As many of you may know, Dick is an orthopedic surgeon. We certainly enjoyed having a chance to chat and renew acquaintances both with the Bragdons and our other friends in Boston.

Prof. John F. Lewis, head of the department of paper technology at Lowell Technological Institute in Lowell, Mass., will be a member of the staff of the Summer Institute for the Pulp and Paper Industry here at the University this summer. According to an article in the Bangor Daily News, since graduating from Maine in 1948, he has a registered chemical engineer in Massachusetts and in Maine.

From the Kennebec Journal we find that Lt. Cmdr. John H. Chadwick, USNR-R, Augusta, is now in command of the naval reserve supply division. John is a shade tree specialist with the Entomology Dept. of the Maine Forest Service. The Chadwicks make their home at 955 Green St., Augusta.

There seems to be an accumulation of address changes which might interest you. Here are a few: Wilbert E. O’Neil, 3326 W. 115th St., Inglewood, Calif.; Fletcher A. Hatch, Jr., Cia. Bana­nera del Ecuador, Apartado 1295, Guayaquil, Ecuador; and George L. Parkin, 104 East 6th St., N.Y. 16, N. Y.

A few weeks ago a newspaper reported that Lieutenant J. P. Canevaro spoke at Simmons College.

A friend sent Don the clipping with the following comment: "After the stories you have told through the years, I’m not surprised that you have decided to use an alias. However, I am surprised that you should choose such a distinctive one!"

1945

Thomas Stoter is with the Charles A. Jordan Insurance Co., 68 Old Oaken Bucket Road, Scituate, Mass.

Vinette (MacDonald) Swisher lives at 3314 Jade Ave., Bakersfield, Calif., with her lawyer husband and 7-year-old daughter, Karin.

The class will be saddened to hear of the death of Lt. Commander Charles Dobbins, Gwen Cus­hing’s husband. He died at home early in March, having been a pilot for ten years. He soon would have been eligible to command his own jet squadron. Gwen and her four children live at 113 68th St., Virginia Beach, Va.

Danforth E. West was elected Vice President of the Eastern Maine Association of Independent In­surance Agents.

A wonderful letter from “ Bosnia” Jones in Hawaii gives fresh ideas for livening up the column.

And that’s it for now. We’ll be back in Oc­tober. I hope all of you will write me a few lines as you sit in the sun this summer.

CONSTANCE P. LAGER ’41

NANCY C. PHILBROOK ’42
Betty (Collis) Eck is to have a new address also as of July 1, 1960. It is to be 49 High St., Newburyport, Mass.

Edward (Kimball) Hitchcock can now be reached at 4500 Barwick Rd., Charlotte, N. C.

The address for Addie L. (Eastman) Stackpole is 732 Essex Place, Orlando, Florida. This must be Louise Eastman to us of '45 How about a note from you, Louise, for the new secretary to start with in the Fall?

We hear that Wendy and Liz Work are leaving Brewer soon. Wendy is going to work again for Ingersoll-Rand in Philadelphia, N. Y. You folks will be missed in Maine, but we all wish you the best of luck!

From the Alumni Office we learn that Wendell Johnson's present address is 28 Woodfitch Ave., Greenfield, Mass. He is an engineer for the Yankee Atomic Electric Co., Rowse, Mass.

Please note a change of name for Edmund Malakonis, who I believe was from Lewiston. He is now Edmund McLoone. He is marketing manager for T. M. Duche, Inc., Clifton, N. J. His home address is Virginia Road, Lake Vallalla, Montville, N. J.

The Alumni Office sent along a very lengthy clipping and picture, too, of our own Barbara Hastings. "She is a very busy person indeed!" After graduation she spent two years as a special student at Moody Bible Institute in Chicago. She is now on her own and does not need to be but she feels that she wants to be known as a rural missionary, dedicated to young people of rural communities and "through them to work unceasingly to open the small churches that have been closed for many years." She feels that this is what the Lord has called her for this good and challenging mission.

When she returned to Maine from Chicago, she preached at the Baptist church at South Liberty. In the summer of '59 she resigned to take over the Greeley Corner Church which was reopened in August after many years of being deserted. Besides work at this church, Barbara also preaches at the North Palermo Baptist Church. Following the 10.00 service, at the Corner, she drives on and conducts 11:30 services. At this latter church she has a young people's gathering on Tuesday evenings. The second Friday of each month Barbara lives in a "charming pre-fabricated home" which she had moved down from Presque Isle to South Liberty and which she shares with a young woman from Newburyport, Mass., who is a field worker for the Child's Evangelical Fellowship.

The Bangor Daily News recently pictured Har­riet (Daw) Cousins as the 1960 Chairman for the Bangor Easter Seals Sale. Harriet is also on the executive committee of the YGOP of the Bangor area.

The Alumni Office has turned up an address for S. Roger Bailey, who has been one of our missing members. He was a member of the Class of 1948 at Barton College, Providence, R. I., and now lives in West Corinth, Vt.

A copy of a booklet entitled "Better Chapter Management," handbook for the management for fraternities, came to our attention. The author is Charles H. Jack, Jr. of 290 Geneva Ave., Elm­hurst, Illinois. They note this booklet when he was an undergraduate Theta Chi at Maine and it surely is an excellent guide for undergraduate fra­ternity officers.

This is it for now, I hope that by fall you'll have lots of news for us all about interesting vacations, new babies, new jobs and maybe a few surprises. Happy Summer!

1947

What a wonderful surprise to find Henry "Slugg" Wyman '49, and husband of '48er Sona Averill, in the pulpit of our church as a guest minister one Sunday this month. It was a real thrill to hear an old Maine friend doing such fine work. Betty and Sona spared us an hour or so of their busy schedule for a visit at our home. They covered a lot of territory in one call. They returned to N. H. where they bought a sporting estate and spent time remodeling an old house. Vikki Ann joined the family about this time. '46 saw Rudy enrolled in Law school in Missoula, and '45 found them back in N.H. with Rudy at the Observatory on Mt. Washington, and Barb and the three children (Kristi born Oct ',55) at home in Salisbury. In '56 Rudy joined the In­ternational Geophysical Year expedition to Wilkes Station, Antarctica in charge of the meteorologi­cal program. Barb and the family, including another daughter, stayed in Bethel the sixteen months he was away. In 1958 they moved to Missoula, Mont., where Rudy was with the Weather Bureau. The only contact is by ham radio until he returns next March. They bought a home in Mis­soula and Barb has been there very busy. The two oldest children, William, 8, and Vikki, 6, are in school while the new kids, new jobs and maybe a few surprises. Happy vacations to all!

1949

Mrs. Oscar R. Hahnel, Jr. (Julie Shores)

I had the nicest letter from Barbara (Hastings) Hahnel. I enjoyed it so much, but since I can't get all of it in one column I will try to condense it for you. Barb and Rudy were married Feb. 18, 1950, and left for Alaska in 51 as a team for the U.S. Weather Bureau. Their first child was born in Anchorage. They moved to Alaska and had many interesting experiences with the Inuits. In 56 they returned to N. H. where they bought a sporting estate and spent time remodeling an old house. Vikki Ann joined the family about this time. '46 saw Rudy enrolled in Law school in Missoula, and '45 found them back in N.H. with Rudy at the Observatory on Mt. Washington, and Barb and the three children (Kristi born Oct ',55) at home in Salisbury. In '56 Rudy joined the In­ternational Geophysical Year expedition to Wilkes Station, Antarctica in charge of the meteorologi­cal program. Barb and the family, including another daughter, stayed in Bethel the sixteen months he was away. In 1958 they moved to Missoula, Mont., where Rudy was with the Weather Bureau. Well here I sit down to knock off the last column and stretch and hope that my successor will be as interested in it as I know Barbara and I have been. I have spent the last five years in college and it hasn't been too easy at times, but I'm glad to have given it a plug and hope whoever does will pick up where I have left off.

Kendall Warner, Fishery Biologist, was the recent speaker at the University Farm and Home Week on March 30.

George Broussard is the manager of the Bangor branch of the Greyhound Lines.

Bryce Perkins was the member of a panel on elementary education. He is the supervising principal of the Magrath School in Norwalk, Conn., where he is director of the Norwalk Plan.

Kendall Warner, a Fishery Biologist, was the recent speaker at the University Farm and Home Week held at Orono on March 29.

June again! Do you realize that it's been seven whole years since we were sitting in the gym...
swapping around those precious pieces of parchment in order to get each to its proper owner? Seventh wedding anniversaries are coming up for many of us. You know, it just doesn't seem possible. Enough of that—I guess I won't be gray for a few days anyway.

Charles M. Star has accepted the appointment of assistant treasurer for the Forster Manufacturing Company. His address is 40-Falmouth Fisheries, Inc., Rockland.

Norman Roy's address is 485 Main St., Lewiston, and his business address is at 6 Potter St., Brunswick, where he has taken over the business of his late mother.

Phyllis (Neves) Beckman now soaks up the sunshine in Florida instead of the Balentine sunporch roof. Her husband, Dr. Frank '52, is a GP in Pompton Lakes (Henry, R. E., and E. Court). They have two daughters, Lynn, who is three, and Kristin Lee, who was born this past December.

Gainor McGorrill was the Easter bride of Anthony J. Ventresco of Dedham, Mass. (Her father, Rev. Milton M. McGorrill, performed the ceremony.) Gainor is presently teaching in the Oakdale School in Dedham, Mass. Her husband is a graduate of Roberts Technical Institute and Suffolk University. He is an engineering student at M. I. T. and employed at the Laboratory for Electronics in Boston. Their address is 156 River St., Dedham, Mass. Congratulations, Gainor. Remember the back row in Education class our sophomore year?

Be sure to get a new job, set married, or have a baby this summer so we'll have plenty of news for the 4 LUMUS next fall!

1954 Mrs. R. L. Weatherbe (Martha Jean Wyman)

M.R.B. Box 270-A, Bangor

Arthur A. Hauck Building Fund Number contributing—139

Hi again—this is the last column till fall. I managed—or we managed—to produce some news of our own this month! Bob and I welcomed our second daughter on April 24th. Her name is Judith Anne. Kevin, age 4½ and Susan, age 3½ have given their complete approval to the new addition.

Received a new note from Peggy (Robinson) Manzer. She and Frank are living at 1003 North Ocean Ave., Seaside Park, N. J.

Arthur A. Hauck Building Fund Number contributing—139

Yep! "The Fabulous Fifth" has found its way into the pages of our class history, but you can read about the highlights in the October column. A tip of the hat to Ron Devine and his "assistants"—Sue (Humphrey) Paine, Carlene (Lobley) Boyce, Dick and Libby (Currier) Eustis, Jane Boyce, Clinton Conant, Bob Foster and Darrel (Pont) Platas. They did a fine job on our reunion program, and we enjoyed every minute of it! (We'll keep in touch in the next column.)

Mary Blanchard, Newton Lower Falls, Mass., and Thomas Reynolds will be married this month. His address is 35 Weston Ave., Madson. A late summer wedding is planned by Judith Hyde, Talladega, Ala., and Joe Griffin. After he left Maine, Joe was a lieutenant in the U. S. Army for three years. He graduated from the University of the South, where he was president of the Alpha Delta Chi fraternity. He is now employed by the Hartford Accident and Indemnity Co of Portland.

I ran into Ruthie Thompson at the Monmouth Shopping Center, Easton, N. J., before Easter. She's teaching physical education at the Ocean Township School. Although she was not able to get to reunion, she did spend her spring vacation in Orono. Anyone who wants to "beach" this summer can contact her at 409 Bendermere Ave., Interlaken, N. J.

Kurt Palmer is assistant office manager of the Harriett Baker Company, Waterville. His address is 21 Winstead Street, Waterville.

Thomas C. Monaghan is back on the east coast again. His new address is 46 River Avenue, Gardiner, Maine.

John W. Mersereau is a First Lieutenant, U. S. Army, assigned to Trux Field, Madison, Wisconsin. He and Nancy were married Dec. 1958. Their address is 1217 Delaware Blvd., Madison, Wis.

Thomas Calderwood has been elected president of the Bangor Jaycees Congratulations, Tom! A note from Melisa Parker finds her busy with Catherine, 4, Charles, 2, and five-month old John. A1 '54 is president of the Penobscot Corporation Corp. which distributes Paragon Precut Homes to northern and central Maine. The family resides at 303 Lincoln St., Bangor.

John Ertha, a ninth grade teacher of English and social studies in Groton, Conn., was the speaker for the Worcester Federation of Liberal Republican Women which he attends. He and his wife, Linda, are living at 439 Beach Road, South China. They have two girls—Polly, who celebrated her first birthday on April 10, and Julie, a little lady of three.

Janice (Foss) Clement is at 333 Third Street, South Portland.

Joan Martin will be in Auburn at Center Street this summer, then she will return to Glen Falls, N. Y., in the fall.

Blaine O. Plummer is living at Main Street in Monmouth.

A note from Sally (Gay) Blodgett tells us that Ed is making the Army a career, and is assigned to the Advisory Group in New Haven, Conn., where he joined the Regular Army Advisor to a Reserve General Hospital and a Reserve School. Ed and his wife Gaye Brooks are living at 150 Diamond Street in New Haven.

Also, a note from Sue (Bogart) Allard tells us that they have moved from 617 Highland St., Belvidere, Illinois, where Gordy is a project engineer for Perfection Manufacturing. The Allard Family now have Kathlene, who joined big brother Rick in March.

"Tickie" (Eleanor Turner) and Merle Noyes live in Milo, through the summer at 311 Maple Avenue. They have a son, Roy Ordel, born in February, to keep big sister company.

That’s it for this year. For even though the Almighty takes a holiday, my “nose for news” doesn’t! So keep me posted on your plans and doings over the summer. Have fun, everybody—see you all in the fall!

Editor’s Note: You’ll be interested to know that your editor, Al, will see the wedding of the year in Alaska next year. We know Judy will want to hear from you to keep a newsy class column so next fall we’ll give her address in the 49th state.

Here we are at the end of the “year”—again! Those years are slipping by terribly fast.

Bill Dorrity writes that he and his wife are the proud parents of a baby boy. Bill has been teaching at the U. S. Army and is doing research work—presently on a method for making a rolling machine Bill can be reached at 14 Lord Hall U. of M.

George (Judy) Vinette (Hawkes) Mehan and their daughter, Dawn, were stationed at Fort Devens—172 Pine St., Danvers, Mass. Cyn writes that Al and Sally (Cooseboom) Webster are living at 48 Windermere Ave., Rockville, Conn., with their two children, Deanie and Al, Jr.; John and Donna Stanwick, son Tommy and daughter Mary Ann, are somewhere in the state of Washington, where John is a forest ranger; Dick Irwin is going to OCS, Ft. Sill, Okla., after finishing a stay with the army in Hawaii! Thanks for all the news, Cyn.

Ed Damon writes that he and his wife Nancy (Frey) are now located at 2426 Haybarger Lane, Erie. In May, where Ed is employed by the Erie Morning News.

Will and Sally (Kappas) Dyer have proudly announced the birth of their daughter, Deborah Jean, on March 27.

And Carleton and Betty (Moloney) Wilson’s daughter, Lori Colleen, arrived March 13.

Joan (Knight) Day writes that she, Al, and daughter Kelly are now living at 1956 Congress St., Portland, where Al is employed by Northeast Airlines.

“Well” (Capps) Dyer have proudly announced the birth of their daughter, Deborah Jean, on March 27.

And Carleton and Betty (Moloney) Wilson’s daughter, Lori Colleen, arrived March 13.

Joan (Knight) Day writes that she, Al, and daughter Kelly are now living at 1956 Congress St., Portland, where Al is employed by Northeast Airlines.

“Tex” (Mills) wrote to say that he and Nancy (Hayward ’60) and son, Christopher, are living at 3021 36th St., Omaha, Nebraska. “Tex” is employed as assistant department manager with Armour and Co.

Douglas and Franne (Roderick) Soderberg are now living at 394 Carroll Street, in Manor Park, November. Following their family addition in January of this year, Douglas was appointed as General Agent of the Aetna Life Insurance Co. for the State of Maine. They are living in the MacArthur Gardens on the Eastern Promenade in Portland.

Joanne Larent is keeping busy with her many responsibilities as head of the Nursing Program at Kennebunk Junior College, where she is living with Virginia Freeman’s ’58 mother at 23 High St., Kennebunk.

Lila Whitcomb Smith is now living with Let’s have a couple of Southerners in Maine. Ed and her husband Donald are now living in their farm at 1035 Highland St., N. E. Sandy is still teaching while Don goes to Williams College Law School. Congratulations are in order to Sandy, who was recently elected president of her local Phi Mu Alum group.

After two years in Southeast Harbor both Molly and I are making a change next year. Miss Imm is all set to go to Brunswick where she will be head of the Home Ec Department in BHS and will undoubtedly continue the high caliber work that she has produced at Penobscot. Molly has made plans to attend the Summer Session at Maine.

I have accepted a position teaching French in Stratford, Conn., and am looking forward to a wonderful year there. This summer I will be studying at the Language Institute in Orono. All your tidbits may be sent to my home address, MRA 6170, Bangor.

Have a good summer, everybody!

1958

Miss Kathie Veecky

Cards and letters from many of you have been more than welcome during the past month—and new offspring seem to be the news of the day. Congratulations to all parents and parents to be!

Mr. and Mrs. Larry Thurwell are most proud of their daughter, Marlene, born on December 25. Larry writes that he has switched divisions at Hercules Powder Co. and is now in the synthetics research division, dealing with sales service and development. The Thurwells’ address is 704 Millwood Rd., Wilmington, Dela.

Bob and Peggy Carmichael had their third child, a son, Jon Elliot, born on April 11. The Carmichals’ home is in Millinocket at 26 York St., Maine. Lois (Perkins) and Izzy Martin had their second, Timothy Perkins, on April 1. The Martin family lives in Ellsworth, where Al is employed by Northeast Airlines.

Dianne L. Moulton, daughter of Anita and Bill, was born on April 3 and is home to visitors at 408 Maryland Ave., Westbrook, Me.

Lou Cook, recently discharged from the service, will be spending the summer in Friendship before going to work in September. His address there is Box 93, Friendship. By the way, it was none other than Mr. Cook who was responsible for our tasty reunion lobster!

Alan Merritt recently was promoted to first lieutenant, and is stationed far East with the U. S. Army.

On April 9, Sally Hyman was married to Kenneth Cassie in Lakewood, N. J. The couple’s address is 1130 County Line Rd., Lakewood.

Carol Stevenson, wife of Walter Abbott in Reading, Mass., is now living at 31 Elm St., Reading, Mass., in late February. Walt and Carol are now living in Waterfront.

Ivan Fletcher was married way out in Oregon to Ann Chabot of North Attleboro, Mass., on Feb. 20. "Bailey" and Ann are living in Klamath Falls, Ore., where he is a member of the junior high school faculty.

And last but not least, Dexter Huston recently took as his bride Gloria Ann Nadeau of Lewiston. "Deck" is the owner of the Central Maine Roofing and siding Co. and is also an underwriter for Berkshire Insurance Co. The Huttons are living in Upper Turner St., Auburn.

At Fort Rucker, Ala., are Phi Eta Jim Kelley and Lambda Chi Ray Sabo.

Bob Carmichael and his wife are back at 26 York St., Millinocket, where Bob is teaching and coaching at St. John’s High.

And your friend and mine Bill Sawyer is in the Securities Division of Merchants National Bank and living at 64 Myrtle St., Boston.

Mustn’t a month get by without a wedding or two.

Carol Stevenson ’59 became the wife of Walter Abbott in Reading, Mass., in late February. Walt and Carol are now living in Waterfront.

Sandra (Daley) Demann in a long newsy letter writes that she and her husband Donald are most happy in their Salem, Oregon, home (at 1056 10th St., N. E.). Sandy is still teaching while Don goes to Williams College Law School. Congratulations are in order to Sandy, who was recently elected president of her local Phi Mu Alum group.

After two years in Southeast Harbor both Molly and I are making a change next year. Miss Imm

JUNE, 1960
The University Store Company...

Dedicates this space to the promotion of the Arthur A. Hauck Auditorium

With the $13,000.00 contribution to the student fund drive last fall, the Bookstore continued a policy which it has followed over the years. Since the store is, by nature, a non-profit making organization, the net gain realized from the sale of books and supplies is put back into the University by giving to projects like the Memorial Union and the Arthur A. Hauck Auditorium, and campus activities.

We are sure that many of our friends who attended the University in earlier years will remember the horseshoe coffee bar at the Bookstore, and will also remember leaving the Bookstore to crowd into the Little Theatre in Alumni Hall to watch a Masque production or to hear a speaker. With the tremendous increase in the number of students, the crying need for a new and adequate auditorium is even more apparent than it was a few years ago. We urge all alumni to help as much as they can and join us in our efforts to make the Hauck Auditorium a reality.
Lots of busy people on my route don't get to the Merrill Trust very often, so I do their banking for them! The Merrill Trust sends 'em special envelopes for mailing in their deposits.

Sound like a pretty easy way to save? You bet it is... with Merrill Trust's BANK-BY-MAIL service!

Whaling

New Bedford is the New England town usually associated with early whaling days. The great, graceful “whalers” were known over the entire world as the sternest, finest ships afloat, and the term “New Bedford Whaler” was applied to all of them. Their fame will last in song and story and their beauty never fade from great paintings. They were about the last of the great sailing ships, and a far cry indeed from the ugly but efficient “factory” ships of today.

What is not too well known is that some of these same whalers were built in Portland. Neal Dow in his “Reminiscences” talks of building, when a young man, “a new and clean ship just built in Portland for New Bedford parties engaged in the whaling business, and to be fitted as a first class whaler.”

Whales were not unknown from early days around Portland waters — in fact, blackfish and true whales were numerous out of Portland Harbor up to the latter part of the 19th century. They yielded quantities of fine quality oil, but the Massachusetts town to the south had already established itself as a whaling capital and home port for the whaling industry.

The great ships were frequently seen in Portland Harbor, where they would seek shelter from storms, and the sight of one making port must have been thrilling to even the most sea-hardened of Portlanders.

Captain Benjamin Willard in his “Life History and Adventures” tells of one amusing incident in 1866, when all the shipping in the harbor was alerted by the presence of a 30-foot whale. The unwelcome visitor eluded all efforts to capture him, but back and forth all day long, charged between Vaughn’s and Portland Bridge. Crowds collected on the banks and bridges, cheering when the whale surfaced to “blow” and peering anxiously when he submerged. Finally, on flood tide, he escaped to the open water beyond Portland Bridge and was seen no more. Shortly after this a seven-ton blackfish was captured by Captain Willard. It measured twenty-four feet in length and twelve feet in circumference. Another whale Captain Willard tells of sighting “was between fifty and sixty feet long.” When harpooned, he towed Willard’s little ship, the “Nestor,” many miles before he tired and was brought to side.
