An enterprising entertainment group, the Maine Steiners, face you on our cover. The singers do not officially represent your State University, but they are organized to perform in Maine spirit, with earnest effort and through excellent talent. Members of the Steiners, standing left to right are: Larry Libby '62, David Sweet '62, Marty McHale '63, Robert Wasson '63, Wayne Wibby, Spec., Ray Berg '62; and, kneeling top to bottom of the photo are: John Mitchell '61, Frank Morrison '61, George Blouin '61. Director. Ray Berg is President; Dave Sweet, Business Manager; Frank Morrison, Publicity Director; and John Mitchell, Librarian. Members Gary Sage '61, Lin Billings '62 and Gene Elliott '63 were not present when this picture was made.

The Maine Steiners have sung for many groups on and off campus. They have performed for the Maine Day Skit, for student rallies, for the Auto Show of 1960, and have been booked for alumni meetings. Their success is evidently growing and is based upon strict discipline about preparation and practice and the best of knowledge about good showmanship. They are led by their director and are guided in all of their affairs by their own organization.

Maine is proud of its tradition of singing, is unique for its stirring "Stein Song." It is fortunate to have this keen young bunch of musicians, first organized at the University of Maine at Portland, now perpetuating the tradition at Orono, keeping alive in name and in talent—the wonderful spirit that most of us recall from our college days.

A tradition of educational leadership also exists at the State University of Maine. Since 1875 participation in that leadership has been a valued responsibility of University of Maine Alumni with the State of Maine, and with the Board of Trustees and the President. The alumni were first organized at a meeting August 5, 1875. At the second annual meeting, August 1, 1876, various articles of association were considered and adopted. In the preamble to those articles was the statement: "The object of this Association is to promote the prosperity of the college and to foster among the graduates a sentiment of regard for each other and attachment to their Alma Mater." Later, the Alumni Advisory Council was created to act as an instrument of the lasting purpose. Thus began the tradition which is still expanding but which has not been erased.

The early annual meetings of the Association continued for years to contain literary exercises as a means for the extension of learning beyond graduation. Assignments were made six months to one year in advance.

Today there is a firm organization of alumni, led by five officers and 23 council members, but they exist only because of the foundation which was formed 85 and 86 years ago. The work of these leaders in harmony with the General Association and with the Trustees and the President and with the State of Maine is still importantly concerned with the prosperity, spirit and educational endeavors of the University which now has grown out of Maine State College. Alumni have met and amended the details of their operations, in order to change with the times. Yet, they have not escaped the tradition of necessity to serve and support and to foster. Long before the Stein Song was written the pattern was set.

All of this is to say that the Maine Steiners are worthy of our esteem, for they add to the old something delightfully new. They are organized for a good purpose in keeping with our wish to promote a sentiment of regard for each other and attachment to our Alma Mater.

SERVING YOUR FAMILY TO PREVENT CRIPPLING DISEASES

Statement of Dr. Albert B. Sabin, who developed the Sabin oral polio vaccine through research supported by the March of Dimes:

"I wish to express my appreciation to The National Foundation for its faith in my work, expressed through grants of March of Dimes funds totaling \$1,500,000.

"For 22 years The National Foundation's broad medical research program has opened new doors in the whole field of virology. It was these breakthroughs that made antipolio vaccines possible.

"I wish also to express my thanks to the American people, whose contributions to the March of Dimes made it possible for The National Foundation to support my work."

NEW MARCH OF DIMES

*Will The University Move Forward With The Sixties
Or Stand Still In The Next Decade?*

The answer to the above question will be determined in large measure by the outcome of the following 5-point program being submitted to the 100th Legislature.

Operating Appropriation for the next biennium . . . \$9,853,202

The need for funds to increase faculty salaries is vital so that Maine may make up lost ground and be able to compete for qualified teachers with other comparable land grant universities . . . Inflationary factors, additional students, and new and expanded programs require an increase in appropriations in order for the University to merely hold its present position.

Capital Improvements . . . \$9,056,000

Eighteen capital improvements essential for the University to catch up on long delayed facilities and to provide a firm base for future growth are: Engineering Building; New Wing on Stevens Hall; Women's Physical Education Building; Equipment for Education Building; Forestry Building; Classroom-Office Building, Portland; Central Heating Plant (Phase I), Portland; Remodeling of Aubert Hall; Expansion of Sewer Facilities (Phase I); Service Building (Phase I); Expansion of Boardman Hall; Agricultural Engineering Building Enlargement; Renovation of Winslow Hall; Press Building; Roads and Parking; Enlargement of Men's Physical Education Facilities; Expansion of Electrical Facilities; Expansion of Water Lines.

Construction of Education T.V. Facilities . . . \$1,039,028

Educational television, of which much has been written in recent years, promises to speed up the process of broadening and strengthening our entire educational system.

Merger of Portland University With The University of Maine . . .

Boards of Trustees of the University of Maine and Portland University, meeting in Joint session in Portland on November 15, 1960, unanimously approved a resolution authorizing a merger of the two institutions. According to the action, announced by President Elliott of the University of Maine on behalf of both Boards, the Legislature will be asked to approve the merger.

Exemption of the University From 1955 Act and From the Bureau of Public Improvements . . .

The University, like the Highway Commission, is of sufficient size to operate economically its own program of construction, and it can best be operated "on the spot." For the Bureau of Public Improvements to undertake the full responsibilities called for under the Act, a greatly enlarged staff would be required operating from afar, resulting in duplication of work, cumbersome delays and increased costs.

The most important of the above five sections of the 5-point program is the request for Operating Funds. The request would be nearer \$15,000,000 if your University were to be brought up to the average level of State support received by the 69 similar public institutions throughout the country.

Spring Arts Festival Announced

Arts Festival Scheduled

Plans are underway for a Spring Arts Festival to be held at the University in March, *President Lloyd H. Elliott* announced recently. The program is being arranged by a special committee composed of faculty and students.

A series of events featuring art, music, literature, drama, the dance, and religion is under consideration by a committee appointed by *President Elliott* who, in announcing the committee, expressed a hope that this type of program might become an annual event on the University calendar.

Charles E. Crossland '17, chairman of the University Assembly Committee, is chairman of the Arts Festival Committee. Assembly committee members serving on this special committee are *Prof. George Manlove* of the English Department, *Prof. Ben Chapman* of the Mechanical Engineering Department, and *Prof. William Sleeper* of the Music Department. Other faculty members of the committee are *Prof. Herschel Bricker* of the Speech Department and director of the Maine Masque, *Prof. John Hankins*, Head of the English Department, *Prof. Vincent Hartgen*, Head of the Art Department, and *Prof. Arthur Reardon*, Director of Audio-Visual Aids, College of Education.

Student members of the committee are *Patricia Crabtree*, Camden, chairman of the student section of the assembly committee; *John Arsenaull*, Portland, President of the Maine Masque; *George Blouin*, Lewiston, President of the University Chorus; and *Malcolm Hamilton*, Bath, Chairman of the Fine Arts Committee of the Memorial Union.

The Festival will open Monday, March 13, and conclude Sunday, March 26.

Animal Pathology Receives Grant

A grant of nearly \$34,000 covering three years of work on fungal infections of poultry has been awarded to the Department of Animal Pathology, according to *Dr. J. Franklin Witter*, department head.

The funds were granted to the department by the National Institute of Health "on the basis of its valuable work during the last ten years on this problem which means so much to the Maine poultry industry," *Dr. Witter* said.

Dr. Witter noted that *Dr. Harold L. Chute* and *Prof. David C. O'Meara* of his depart-

ment and *Dr. Wanda K. Farr* of the Department of Botany and Plant Pathology would carry on the research work with the support of other research workers.

This National Institutes of Health grant will permit the expansion of work done for the Maine poultry industry along with the support of commercial laboratories and of the Maine Agricultural Experiment Station.

Dr. Quick Authors Article

One of Maine's faculty members, whose studies of animal population dynamics have taken him from the Arctic Circle to deepest Africa, is the author of a section of a new textbook on wildlife management.

Dr. Horace F. Quick, associate professor of game management in the University's School of Forestry, wrote the section on animal population analysis for the "Manual of Game Investigational Techniques" published this fall by the Wildlife Society. *Prof. Quick* was one of the seven Wildlife Techniques Committee members of the Society who prepared the volume.

Prof. Quick's study of wildlife population dynamics has taken the *Quick* family to British Columbia, where the chief interest was in fur-bearing animals; to Scandinavia, where *Prof. Quick* made population studies of moose and reindeer; and most recently, to Uganda, where the Maine faculty member studied elephant populations during 1959-60 under a Fulbright fellowship as a senior research scholar.

Part of the elephant population study was accomplished by use of aerial photographs, *Prof. Quick* said, as a practical way to enumerate herds of beasts numbering as many as 1,000, that had assembled to breed.

Seven Grad Fellowships For Maine

Seven graduate fellowships for study leading to the Ph.D. degree have been approved for the University of Maine under Title IV of the National Defense Education Act, according to an announcement Thursday by *Dr. Edward N. Brush*, Dean of Graduate Studies.

Two three-year fellowships will be awarded in Animal Nutrition, three in American History and two in Chemistry. Applications for the awards will be received by the departments concerned during January and February.

The fellowships awards, which will be-

come effective during the 1961-62 academic year, carry a stipend of \$2,000 for the first year of study, \$2,200 for the second year, and \$2,400 for the third year, with an additional \$400 annually for each dependent.

To be eligible for one of the fellowship awards a student must have completed the bachelor's degree at the time the award becomes effective, plan to enter a full-time program of study leading to the Ph.D. degree, and preferably plan to enter college teaching.

There are currently five students in the History Department and nine in Chemistry holding National Defense Education Act fellowships at the University. With the awarding of the 1961-62 fellowships there will be a total of 21 students working for the Ph.D. under the program.

Many Alumni In Paper Industry

The annual directory which has just been published by the University of Maine Pulp and Paper Foundation shows that 715 University of Maine alumni are affiliated with pulp and paper companies and allied industries.

Dr. J. Larcom Ober '13, of Beverly, Mass., president of the Foundation, in a foreword states that this is the largest number of University alumni ever reported in this rapidly growing business. He further commented that "interest in better trained personnel is a continuing feature of a growing and dynamic business." *Mr. Ober* is a retired Vice President of the Scott Paper Company.

The directory is mailed only to pulp and paper alumni and Foundation members.

Western Union Gift To E. E.

A pair of desk-corner facsimile telegraph machines called "Desk-Fax" was presented to the College of Electrical Engineering of the University of Maine today by Western Union. The Desk-Fax machines, actual production models of modern electronic communications engineering, consist of two transmitter-receivers which will be installed in the engineering laboratory for use by students in their studies of the growing field of facsimile telegraphy.

Asst. Prof. Leonard Bowles, of the Electrical Engineering Dept., accepted the gift for the University in a private ceremony held at Orono. Presentation of the Desk-Fax was made by *Harold I. Fenderson*, the company's District Manager of Maine, and *Thomas J. Birmingham*, Manager of the Bangor office.

Operation of Desk-Fax is simple. It transmits written, typed or printed matter rapidly and efficiently. The user simply places the message on the facsimile drum and pushes a button. The machine does the rest. Instantly and automatically the message revolves before an electric eye which flashes an exact picture of it to a receiving unit installed at the telegraph office or in any other location.

Dr. E. K. Miles Named Language Head

Dr. E. Kenneth Miles, Professor of German and a member of the faculty since 1933, has been named Head of the University's Department of Foreign Languages and Classics. Dr. Miles will succeed Dr. Wilmarth H. Starr who has accepted a position with New York University.

Beginning a busy career of active University service, Dr. Miles was one of the members of the first committee which initiated the Honors Program at Maine in 1934. He has served on the Honors Committee since that time and is currently Secretary for the Committee. He was a member of the Post-War Planning Committee of the College of Arts and Sciences following the end of World War II and now is Chairman of the committee studying the basic requirements of the college.

In the summers of 1959 and 1960 he was a member of the staff of the University's Foreign Language Institute. An amateur photographer, he served as President of the University Photo Club for 16 years. He is presently faculty adviser to Deutscher Verein and is a member of Phi Beta Kappa and Phi Kappa Phi honorary scholastic societies. He also holds membership in the American Association of Teachers of German and the Modern Language Association, and he is a member of Sigma Phi Epsilon fraternity.

During the World War II years, Dr. Miles taught mathematics as well as German to military personnel studying under the ASTP at the University.

After attending elementary and secondary schools in his home town of Ashland, Wisconsin, he was graduated summa cum laude from Lawrence College in Appleton, Wisconsin, in 1929. He obtained his master's degree in 1930 from Northwestern University, and after studying for a year and a half in Europe (University of Munich and the Sorbonne), he received his Ph.D. in 1933 from the University of Pennsylvania.

Dr. and Mrs. Miles (Evelyn Adriance '38) have two children, David '62, a member of Phi Kappa Sigma, Sophomore Owls '59-'60, Tennis Team '58-'60, and Nancy, a senior at Orono High School. The Miles are truly a "University" family since Mrs. Miles' mother, the late Mrs. Robert I. (Florence Buck) Adriance '04 was an alumna, and her father, Mr. Robert I. Adriance, formerly Head of the Social Science Department at East Orange High School in New Jersey, was a lecturer in Economics at the University for eleven years until his recent retirement.

The Miles live in Orono, across the highway from the Elms, the girls cooperative dormitory; and their home, overlooking the Stillwater River, was built on the foundation of the former Sigma Chi Fraternity House which burned in 1934.

To the alumni who have studied German under Professor Miles, perhaps the first

memory would be of the ever present humor and wit he uses to liven and make more attractive the hard work of studying a new language. Outside of the classroom, as many of our readers will know from past experience, he has always been ready to help students with problems ranging from the personal and practical to the best way of discovering the right intellectual direction.

We are certain that the vast number of alumni who have known and who have studied under Dr. Miles join the *Alumnus* staff in offering him congratulations and best wishes for the future.

A. V. Edwards Appointed Head Agri-Communications

Arthur V. Edwards of Bunceton, Mo., has been appointed Head of the Department of Agricultural Communications.

Mr. Edwards has been serving as Editor for the Cooperative Extension Service at the University in recent months, having come to Orono from the University of Missouri last April.

He succeeds the late Roderick L. Reynolds as head of the department which was formed only last year.

Edwards attended elementary and secondary schools in Bunceton and was graduated from the University of Missouri in 1947. He received his master's degree from the same institution in 1958.

His journalistic experience includes positions as Advertising Manager and Field Editor for the Rural Electric Missourian for two years, Assistant Extension Editor and Associate Extension Editor at the University of Missouri for 11 years.

Edwards is married to the former *May Cook* of Worcester, Mass., and they have five children, Riley, 13; Philip, 12; Jeffrey, 10; Martha, 8; and Jennifer, 3.

Associate Dean Named For Technology

Dr. Thomas H. Curry, head of the department of chemical engineering at Ohio University in Athens, O., has been named Associate Dean of the College of Technology, University President *Dr. Lloyd H. Elliott* announced recently.

Dr. Elliott said that Dr. Curry would assume his new duties on July 1, 1961. He

will work with Dean Weston S. Evans, head of the college.

Dr. Curry, who is married and the father of three children, has had the responsibility of organizing and developing the Department of Chemical Engineering at Ohio University since 1956. His duties have included designing and setting-up laboratory facilities, obtaining staff, planning and teaching new courses, and the guidance of students.

During the present college year he is developing a research program and graduate curriculum leading to the master's degree in chemical engineering.

He has taught at Ohio U. since 1953.

A native of Sullivan County, Indiana, Dr. Curry attended high school in Dugger, Ind., and was graduated from Purdue University in 1942. He was a special student in the humanities and social sciences at Antioch College in 1945 and 1946 and received his Ph.D. degree in organic chemistry from Ohio State University in 1953.

He was a National Science Foundation-Science Faculty Fellow at the University of Michigan in the summers of 1957, 1958, and 1959 and spent the past summer attending an institute in nuclear energy at North Carolina State College.

Between 1947 and 1953 he was a Charles F. Kettering Foundation fellow at Ohio State University. He wrote his Ph.D. thesis on "Investigations on Pyrroles and Related Substances Containing the Nitrile Group."

In addition to his teaching experience, Dr. Curry has held several non-college positions, including that of technical supervisor in the production of acetic acid, nitric acid, and high explosives for the Holston Ordnance Works-Tennessee Eastman Corporation in Kingsport, Tenn., (1942-45) and as a researcher in dyestuffs and paper coatings to Dr. C. S. Adams of Yellow Springs, Ohio, a consultant to the National Cash Register Company (1946-47).

In the summer of 1955 he worked on post-doctoral research on a U. S. Air Force Hydrocarbons project and in the summer of 1956 he was a chemical engineer in process design and development work for the commercial Solvent Corporation of Terre Haute, Ind.

Dr. Curry is a member of the Ohio Academy of Science, American Chemical Society, American Institute of Chemical Engineering, American Society for Engineering Education, and the American Association of University Professors.

A meeting was held December 15 in the Captain's Room at The Stephens House, corner of Union and Court Streets in Auburn. *Otto H. Wallingford '48* presided over the evening session.

Principal speaker was Coach Hal Westerman who discussed "The 1960 Football Schedule." His talk was followed by a film of the Black Bears in action in the Colby-Maine game.

T. Russell Woolley '41 was a guest at the meeting. Business included consideration of the possibility of and plans for a joint meeting with the Alumnae on February 16, the guest from Orono to be President Lloyd H. Elliott.

St. Petersburg, Fla. Alumni

The second gathering of Maine Alumni this season in St. Petersburg was on January 14 at the New Garden Room of the Pennsylvania Hotel.

Many southern visitors and residents from Maine enjoy these luncheons throughout the winter months. Plans are being made, writes *Oscar W. Mountfort '12*, to have a special visiting speaker at the February or March meeting.

Portland Alumnae

The Christmas Party at the Emery Street Home for the Aged was held on December 15. *Mildred (Morris '48) Hart* acted as chairman.

A Dessert-Bridge fund raising meeting was held January 19, proceeds to help sponsor the alumnae watch award and annual scholarship. Payson Smith Hall at UMP was the scene of this event, and co-chairmen were *Mary (Hubbard '46) Flynn* and *Mary (Libby '46) Dresser*.

Eastern Association, Univ. of Maine Women

January 24 was the date of the Dessert Meeting at the Atlantic Sea Grill, Exchange Street, Bangor. Chairman of arrangements and program chairman was *Rena (Campbell '21) Bowles*. *Betty (O'Leary '45) Beede*, President, conducted the meeting.

Speaker of the evening was Dean Emeritus *Arthur Deering '12* whose talk was interestingly entitled, "Hong Kong, A Shopper's Paradise."

Bears Win Classic

THE BIG NEWS in basketball since the last issue of the *Alumnus* came out is the tremendous play of the Maine team in winning the Downeast Classic Basketball Tournament in the Bangor Auditorium, December 27th. While annexing the title, the Bears revenged themselves on powerhouse Rhode Island for handing Maine the only loss of the season (Rhode Island won 77-72 at Kingston on December 14th).

In the Downeast championship game Maine defeated Rhode Island 69-65 by coming from behind in the last minutes of play in a thriller which kept nearly 6,000 fans on the edge of their seats throughout the entire contest. At the end of the first half Rhode Island led the Bears 35-34 by virtue of the exceptional play of the Ram's Charlie Lee who scored 23 long set shot points in the first period.

The second half saw the Maine team continue to move the ball coolly in and out of Rhode Island's defense in a dazzling display of ball handling by all five regulars and reserve center *Pud Robertson*. Utilizing the fast break whenever the opportunity presented itself, the Pale Blue kept as poised as if they were enjoying a twenty point lead. With less than three minutes to play, Maine spurred to a five point advantage and were never headed after that in spite of Rhody's desperate last minute effort. It would be impossible to single one Maine man out for top honors; above all else, this was a victory brought about by teamwork, but a special nod needs to be given for an obviously fine coaching job, to *Coach Brian McCall*.

Rhode Island's *Charlie Lee* was voted the most outstanding player of the tournament,

and Maine's *Champeon* and *Chappelle* were named to the all-tourney team.

In the other tourney games Maine defeated Boston University 73-67 in the first round, and Cornell 68-58 in the semi-finals. Rhode Island beat Colby in the first game 67-66 (overtime), and Harvard 60-57. Also in the first round Harvard beat Bates 75-51, and Cornell defeated Bowdoin 67-46.

Bates won the consolation final by defeating Boston University 85-52, after having trounced Colby 59-57.

In their games since the Downeast Classic, the Bears have added wins over Bates (at Lewiston) and Colby to make their record this season eleven wins and one loss.

At this writing, Maine is rated fourth best team in New England (Providence 1st, Holy Cross 2nd, Boston College 3rd), and 13th best small college in the country. Other games already played which can conceivably affect New England and national ratings in the near future are: Providence over Rhode Island by one point in overtime, at Rhode Island, and Connecticut over Rhode Island by four points at Conn.

Yankee Conference and State Series standings at present are:

Annual Reunion, June 9-10-11, 1961

1888 Our oldest known living alumnus, Nathaniel E. Wilson, lives at 123 Maple St., Reno, Nevada. We are pleased to wish him well in this his ninety-third year of age.

1901 60th Reunion, June 9-10-11, 1961

Fred L. Martin, 8 Juanita Ave., Mill Valley, Calif. (winter address) and Herbert H. Leonard, So. Shaftsbury, Vermont, have been corresponding with Russ Woolley at the Alumni Office to formulate plans for the 60th class reunion. We expect Tom Buck to come from California, so we must all make a real effort to gather in Orono this June. You'll be hearing more of the plans later.

1902 Eugene Hunting of 1150 Century Bldg., Pittsburgh, Pa., writes that August 15, 1960 marked his 50th year with Hunting, Larsen & Dunnells Engineers. The firm deals in designing industrial plants, railroad structures, and warehouses.

A. E. Silver of 360 No. Fullerton Ave., Upper Montclair, N. J., has been thinking about plans for the 60th Class Reunion in 1962 at Orono. He'd enjoy hearing from classmates who are interested in having this Reunion.

1903 Mr. Harvey D. Whitney 698 Minot Ave., Auburn Here's some responses to my annual Xmas cards to classmates:
George L. Freeman of Gray returned home a few

weeks ago from the Maine Medical Center in Portland. He is improving.

Henry Haines of Skowhegan attended the Maine-Bowdoin game at Brunswick, but was disappointed in the outcome.

Ernest A. Porter of Brookline, Mass., is already making plans to attend the next Commencement.

John L. Robbins of La Grange takes his daily walk and removes snow from his driveway.

Harold Sheehan sends his greetings but no news of any consequence.

1905 Mr. Horace A. Hilton 385 Union St., Bangor

One way and another I have collected a bit of news. Most of it is to the good but the first item is one of sadness that we will all share. "Ben" Cowan passed away on October 30, after a long illness. He was one of the top men with the Stone and Webster Co., retiring some years ago.

A nice letter from "Joe" Crowe on November 10, that says "News from '05 seems to be scarce. Guess we don't do anything very exciting." And then goes on to tell about a trip of 1,954 miles over the Pacific Northwest states. Sounded like one of my trips of years ago. He still enjoys golf though his score is slipping a bit.

Next a note from "Pink" French from Florida. Says he feels able to drive to New Hampshire to his summer place but plans to leave the car there this time and fly back to Fla.

Then a good long letter from "Rat" Moody who is living at Cornish, Maine. After a working life of big cities, Pullman cars, hotels, and being away from home most of the time he is luxuriating in retirement. "Two miles out of the village, back in the foothills of the White Mountains. Out in the yard or looking out of any of our windows, I'm always reminded of the 121st Psalm."

A short note from Leon Foubert. "Hope you are keeping well. On this end things are O.K., so far." From Geo. Huntington. "Trust all is well with you; we are as usual, quiet and making no news."

From Bill Ricker. "Hi: Yes my candle is still burning." Hadn't heard from Bill in a long time and was happy to get his word.

Frank O. White sends a Christmas card from Edmunston, N. B., but keeps quiet otherwise. Frank pulled me through the THESIS that enabled me to graduate and I owe him a debt of gratitude.

Altogether our class is one of old retired men. Guess that I am the only one that doesn't acknowledge retiring, but that doesn't mean very much for a couple of hours a day is about my speed.

To all you whose names do not appear above, what do you say to sending me a word about your doings. I know the readers of these few paragraphs would indeed welcome any little thing that had your name on it.

1906 Mr. Henry W. Bearce 1115 Aragon Ave., Winter Park, Fla.

On December 10 we attended a luncheon of the St. Petersburg U. of Maine Alumni. Forty-two alumni, wives, and friends were present. Gertrude (Jones) Nutter and I were the only members of 1906. Other nearby classes were represented by "SI" Small and John Hillard, 1903; "Pink" French and Harry Beale '05; and B. R. Connell '07.

1907 Mr. Karl MacDonald 27 Nelson Ave., Wellsville, N. Y.

The Republican Journal, Belfast, reported that Perce Wyman's company has the contract to build an addition to the Unitarian Church there. It brought back memories of when your secretary used to pump the organ there Sundays for twelve dollars a year.

Herbert A. Knowlton, 17513 Delaware Ave., Lakewood 7, Ohio, writes: "Have been playing golf two or three times a week. Will probably stay here for the winter altho a trip to Arizona would be a nice change. I did not get to Maine last summer."

John P. Harvell, 1022 Florida-Mango Rd., West Palm Beach, Fla., says he has been home since the latter part of October. He spent the summer in Maine and N. H., but had a rough time as he was not well. He is better now and enjoying life. He mentioned that "Al" Wood's wife and sister, Eva, who live in West Palm Beach, were well. "Al" was class 1905.

A postal from Jerome B. Clark, 1400 Woods Place, Los Angeles 22, Calif., one of our three remaining Law classmates, says at 83 he has passed his yearly drivers examination and can now drive up to April, 1962. Last summer he built an apartment house and that with four other houses there and two in Maine keep him busy with care and renting of them. He says: "Yes, I am alive and kicking, very much, over the results of the election. We do miss the fine summers in Maine."

Arthur N. Beal, 17344 Arrow Blvd., Fontana, Calif., had a bad accident the early part of last year. A teenager going 55 miles in a 25 mile zone ran into them at a crossing. His wife was in the

hospital six weeks with four ribs broken and her spleen had to be removed as it was torn loose. He had four ribs broken. They are now back to normal. He is selling his cottage at Newport Beach as he does not expect to be able to go there summers much longer.

Horton W. Kierstead, 47 Violette Ave., writes that he is about the same. In November his wife fell and broke her left arm just above the wrist. "Hank" said he told her that he had found out that one arm does not add up to one half of two arms. She has our sympathy, especially my wife's, as she had the same break of her right arm several years ago.

I stayed in Greensburg, Pa., while doing some consulting work and asked Frank Maddocks and wife to have dinner with us. We had a very enjoyable evening talking over "the good old days." I had not seen Frank for over 53 years. He still does some property valuation work.

I was down to the annual A.S.M.E. meeting in New York. Called up Charlie Martin one evening and he came over to my hotel room where we spent a couple of very pleasant hours. I had not seen "Squab" since 1907. I thought he looked pretty good for a man that was at "death's door" last spring and was a present to his parents on Christmas Day 77 years ago.

Bennett R. Connell and wife left Scotia, N. Y., in the early part of December for St. Petersburg, Fla., where they will stay the winter. Their street address will be 810 5th Street, North, Apt. #1.

1908 Mr. James A. Gannett
166 Main St., Orono

Ballard F. Keith served on the Rhodes Scholarship Selection Committee for 1960-61 for the State of Maine. President Elliott of the University of Maine was Chairman of the Committee.

Clarence and Nestlin Westen's annual Christmas letter, while full of family news, was a very interesting travelogue. First off, they attended the ordination of their son Alvin with the Florida Methodist Conference at Lakeland, Florida. Alvin is serving his third year's pastorate of the Fruitland Park Methodist Church. Nestlin "had the thrill" of going with the League of Women Voters "Holiday in Europe" Osborne Tour, leaving Atlanta, Ga., on October 7th. The plane landed in Rome where the group spent five days. Then on to Naples, a visit to Pompeii, to Sorrento, and a trip to Capri and Florence. They also visited Austria, Germany, and Switzerland. Then to Paris and finally to London. The group returned home on October 30th.

John T. Kendrick's address since he retired from Northland College is Ken-Mar Road, Mercer, Wis.

A Christmas card from Sarah (Brown) and George Sweetser '09, Portland, Ore., contains the news that one of our class adoptees, Sarah's sister, Lulu Brown of Old Town, flew out to Oregon last summer. After a wonderful visit with Sarah and George she took a jet back to Maine; about nine hours, Portland, Ore., to Boston.

Mrs. Raymond Fellows has moved from The Farm, the delightful summer home on Verona Island and is living in Bangor. Marge's address is: The Lower, 303 Hammond St.

With deep regret we record the death of Dr. George A. Phillips, Alice (Farnsworth) Phillips' husband, on December 24, 1960, too late to report in the January *Alumnus*. George had worked as usual on Friday but passed away suddenly early Saturday morning at his home, 208 Broadway, Bangor. George was as loyal to Alice's Class of '08, perhaps more loyal, than he was to his own Class of '08, University of Maryland, College of Dentistry. He had practiced his profession for over 50 years, the last 45 in Bangor.

1909 Mr. Fred D. Knight

W. Hartford 17, Conn.

All will be saddened to learn that Edward Earl Gardner died May 16, 1960, at Malden, Mass. Details were in the Jan. *Alumnus* in the necrology column. I am indebted to Francis P. ("Fish") Emery '08, for the above information.

Howard R. "Johnny" Johnson writes that the trip he and Mildred took to New England last summer was most rewarding and very strenuous. Besides their visits around New England they also spent some time in Richmond, Va., with their daughter. While there they attended the wedding of a grandson. They returned to their home in New Port Richey, Fla., in late August in time to endure the abnormally high temperatures of the following months. Johnny is active in color photography, shuffleboard, and has renewed a former interest in checkers, also does some gardening.

William T. Osgood "Bill" writes from his DeLand, Fla., home that he and Claribel had enjoyed fine fall weather in their area, but a lack of rain has injured the citrus crop considerably. The Osgoods are delighted with their new Hendersonville, N. C., home where they spent several months after

a month in Maine. It makes a fine interim home between Florida winters and Maine summers.

The Knights are heading for Florida in mid-January. They will be at 500 West Venice Ave., Venice, until mid-March. It will be fun to join the Florida West Coast Colony of Maine friends.

1910 Mr. George P. Goodrich
14 Lawn Ave., Portland

Your secretary and wife spent a most enjoyable Christmas with their daughter Virginia, her husband Clarence McIntire, and their four children, Linda, Kathy, Paul and Nancy. Both Virginia and Clarence are 1944 graduates of Maine. We sincerely hope all 1910ers had a very Merry Christmas and will have had a Happy New Year when this message reaches them.

We received a very fine Christmas greeting from our president, Ernest E. Lamb, and his good wife Polly.

Charles E. Stuckney and his wife head for Florida after New Years and will be there until May 1st. Their address will be: Medeira Beach, Fla.

News for 1910ers comes in pretty slow and your secretary hopes you will acquaint him with any event or activity when it happens to you. It's news to the rest of us, though it may seem trivial to you.

50th Reunion, June 9-10-11, 1961

We are now in the year 1961. Yes, it has finally come and we will celebrate our 50th Reunion next June which is becoming ever nearer with ever increasing rapidity. Are we going to have a Reunion attendance to make 1911 proud? Please write with your suggestions and also be sure to say that you will be there.

Some of the lost are found—Ralph H. Carlisle is located at 164 Essex Street, Saugus, Mass. Frederick M. Ingersoll is at R.F.D., Rockland, Maine.

Elmer R. Tobey was honored on December 12 at Past Masters Night in observance of Mechanic's Lodge, A. F. and A. M. at the Masonic Hall in Orono. Past Master Tobey was presented a 50 year medal, with Charles E. Crossland, Past Grand Master of the Grand Lodge of Maine, making the presentation.

The Florida Crew has migrated and we hope they are having the best of health and weather. The T. V. shows nice weather for the games there.

Arthur Richardson, our President, will be in Bangor soon. He will have a message for you, and will brief your Secretary on procedure for the Great Reunion. Let's go! go! go!

We've "found" two more "lost" alumni, Percy F. Ridlon and Charles E. Sullivan. Percy lives at 12 Cpl. Burns Road, Cambridge 38, Mass. Charles is manager of Mount Washington AutoRoad and his address is P. O. Box 486, Gorham, N. H.

Lewis J. Catheron, in a letter to Arthur Deering, writes: "I transferred to Harvard and received a B.A. degree in 1912. Five years with Stone and Webster Company followed, during which I was assigned to accounting and office work in Boston, Fort Worth, and El Paso, Texas. Then World War I took me to France with the Coast Artillery School, with final rank of Captain. After the war my employer for nine years was Eastern Manufacturing Company in Boston and at South Brewer, Maine. In 1928 I joined the International Hydro-Electric System group of companies and worked principally for New England Electric System, then a subsidiary. I am now assistant treasurer of Abacus Fund—name changed from International Hydro-Electric System in 1957." Lewis' address is Still River Road, Bolton, Mass.

Walter Witham writes that because of an accident and illness he has been, as he expressed it, "out of circulation for at least six months this year." However, he is now "back in the office a few hours each day," and we trust is on the high road to a speedy recovery. Walter's address is 815 24th Street, N. E., Canton, Ohio.

Instead of publishing details of the progress of the 1912 Fund drive in this column, it has been decided that Arthur Deering will include them in his next letter to the class members. The drive has made considerable headway in 1960. With the present momentum we should really "go places" in 1961.

Happy New Year.

Classmates:

We had just enough snow in Portland the night before Christmas to add to the beauty of the day.

It was a most pleasurable one for me and I hope that each of you enjoyed this holiday wherever you were.

I have received quite a few letters in reply to my letter sent to each of you relative to the Class Incidental Expense and Gift Funds for the 1963 Reunion.

From Dr. Forrest B. Ames came a check sufficient to buy a \$100.00 Savings Bond. Thanks "Doc" for your promptness and especially we are grateful in view of your difficulties in moving, etc. Please note the new address is 13 Longmeadow Drive, Brewer, Maine. With the increase in your family, it looks as if you will achieve the title of "1913 Grand Pop" in 1963.

Wonders never cease—received a fine letter from Richard (Dick to YOU) A. Power who is manager of the National Farm Book Company at Viroqua, Wis., along with a check for the Class Incidental Expense Fund. Dick writes that he is not sure whether he will be able to come on to the Reunion in '63 as June is one of his busiest months. Well, Dick, your 50th will come but once in your life time and hope that you will make the effort. If I can't persuade you, I know Lloyd Houghton '12 can. Remember once upon a time you and I took the entrance exams together.

Received a card and note from Melvin and Lois St. Clair at 2605 Cleveland St., Tampa 9, Fla. "Mel" is an ardent supporter of the St. Pete Maine Alumni meetings and hopes to make it in '63. Sure hope to see you both, Mel.

John Littlefield has had some tough sledding this year with two operations, but writes that he is slowly recuperating. His address is Brewer, Maine—send him a card, I know he will deeply appreciate it. Thanks for your letter, John, I am grateful for your courage in writing it.

"Deak" Wescott, Maine ex '13 and Dartmouth '13, writes that he also has had two operations but now on the way to recovery. (Looks like we are all beginning to fall apart.) Says, that after getting over the hump, he hopes to make the 50th at Maine in '63 and will contribute to the cause. A fine Maine spirit, "Deak"; best to you and Eve. He would like to hear from you, send him a card at Bar Harbor. OH! yes, Chester A. Wescott would give the card a better sense of direction.

Leon Dodge of No. Edgecomb, Me., contributed to the Class Incidental Fund in response to my letter and said that this second reminder made him aware that so few had contributed. Thanks, Leon. Hope you are making preparations for the '63 Reunion.

"Slab" Savage is back at the old Camping Grounds, 105 12th Ave., N., Indian Rocks Beach, Fla., and he writes that he would like to see any of the members of the Class who are down his way—leave your Wampum and Tomahawks home.

A wish for a Happy and Prosperous New Year to you all.

We have heard from Roy Peaslee. He said: "I am thoroughly enjoying my retirement, principally because I am busy and have a happy home. Sorry to have delayed so long, 'Hi.' Hope you will call sometime. Farm is 1.8 miles from Hooksett (route 3A) on Bow Bog Road. Hope you are both well and happy."

Roy has had a very busy and a very useful life. Starting in 1914, the year in which one of the University's fine classes burst upon a waiting world, Roy taught successively at Kents Hill Seminary, Hopkinton, N. H., High, Contoocook, N. H., High, and then entered the extension service as Assistant County Agricultural Agent in Merrimack County, N. H. in 1917. He moved from there to Chittenden County, Vt., for a year, and then returned to Merrimack County as Agricultural Agent, a position he held until 1924. In 1924 he went to work for the Merrimack Farmers Exchange in Concord, N. H. Starting after a short indoctrination period as a store manager, he advanced to sales manager, and from 1924 to 1956 when he retired, he served the exchange as general manager. In addition to his duties with the vigorous and growing Farmers Exchange, Roy found time for civic and community service being identified with the Chamber of Commerce, hospital, church, bank, YMCA, investment and loan, Federal Savings, Associated Grocers of N. H., and with the School Board of Bow, N. H.

The father of three daughters, Roy reports that he has eight grandchildren with another on the way. His daughters are Margaret P. Danforth, Concord, N. H., Elizabeth P. Cain, Damascus, Md., and Mildred P. Lundburg, Waterford, Calif. He married Gertrude Tilton Lyford, on May 15, 1960, who has 12 grandchildren and another on the way. Roy and Mrs. Peaslee are living on a farm in Bow, N. H. They have a large garden and a 175-acre stand of pine which he is slowly improving. In addition to that, he is working part time as an appraiser for the Concord Savings Bank.

45th Reunion, June 9-10-11, 1961

Since there was news left over from last month, we shall start with that.

Samuel Rudman of the Home Radio and Furniture Company of Bangor has won the annual Furniture World award plaque for the State of Maine for the year 1960. This New York publication annually conducts a poll to determine the furniture buyer in each state of the union who has been outstanding in his dealings within the industry. He was awarded the winner's plaque at the Fall market breakfast of the New England Furniture Agents association at the Hampton Court Hotel. Presentation was made by the board chairman, who said that the award is given to those whose human relations best qualify them for high recognition in the industry.

I was delighted that "Tom" (Thomas G.) Mangano replied to my request letter telling us about his European trip. The trip was set up by the N. Y. Athletic Club for their members and friends. They sailed from New York on the S.S. Constitution of the American Export Lines Aug. 7. They visited Naples, Nice, and Genoa. They entrained for Rome for the opening of the Olympic Games. Since the club had members who live in Rome they were well entertained. They attended the Audience given by the Pope to the Olympic

athletes. This was very impressive. They attended the opening ceremonies of the Olympic Games. They took in other places of interest, including St. Peter's, the ruins of Ancient Rome, the Catacombs, Apian Way. "Tom" considered Rome the most impressive of all the cities he visited. After a week in Rome, they flew to Monte Carlo, where they had a very good time. Their next stop was in Paris. Then they went to London. After three days in London, they took a plane to New York and arrived there after an eight hour flight. Thanks very much for a most interesting account.

Last summer I received a letter from Edith (Flint) Coe telling of a visit to her son in California last spring. Sorry I haven't had a chance to use it before. Her son took her to San Diego, San Francisco, and Palm Springs, and showed her as much of Los Angeles as he could. Edith loved California. The airport in San Francisco is marvelous (I remember that) and the Pacific, so very blue with breakers so very white. They came down the coastal highway, through Monterey and Carmel. Thanks so much for a most interesting letter; I wish space permitted all the details.

The portrait of an outstanding Ohio dairy leader was given last summer to the "Hall of Fame" in the dairy science department at Ohio State University. The person so honored was Charles L. Blackman, Extension Dairyman at Ohio State University. The honor was given to him because of his outstanding contribution to the dairy industry in Ohio. He was born in 1893 on Peak's Island off the coast of Maine. After graduating from the University of Maine in 1916, he obtained his master's degree from Iowa State College the following year. He has been a county agent in Maine, a dairy extension specialist at Iowa State College, a field secretary for the New England Holstein Association, and manager of Summit Farms, a Holstein farm in Maine. In 1925 he went to Ohio as Extension Dairyman and has served in that capacity for 35 years. From January 1947 to July 1948, he was on leave of absence to Colombia, South America, as a technician for the Office of Foreign Agriculture Relations. For two years, October 1955 to 1957, he was on leave with the first team to go to Rajasthan, India, with Dr. Sutton of OSU. The Blackman home is always open to those on the OSU campus from foreign lands. It is said at the USO, "Charley is never afraid to say he doesn't know. His rule is never compromise with the truth. He believes in keeping an open mind, a clean heart, and a forgiving disposition." He is serving his second year as secretary of the Ohio Dairyman's Association.

Here's a recent letter from Roy Higgins: 1917 Classmates:

"I am very keen to see the Arthur A. Hauck Auditorium built at Maine. It will be a wonderful and useful addition to our campus.

"Feeling so strongly about it, I have made three additional contributions at various times after completing my original pledge and I hope I will be able to give more if I live long enough. I am telling you this simply with the hope that it might stir some of you to similar action. We have been a pretty loyal class and I'm sure all of you would like to see this project to a successful completion.

"I'm looking forward to our 45th. Hope to see you all there. Best regards."

Don Perry has heard from Ernest Coolbroth, who has retired from the Longlines Dept. of A. T. & T. after 40 years of service. He and his wife will be at 54 Woodruff Avenue, Wakefield, R. I. His son is a plant supervisor for Southern Bell in Montgomery, Ala., and a daughter with three children lives in New Jersey.

Edwin H. (Hy) May has been appointed consulting manager of Phoenix Mutual in Hartford, Conn. Nearing retirement, he has been with Phoenix since 1929, and manager since 1937. His son, Hy, Jr., is State Republican Chairman.

Everett F. Libby is retiring on January 1 as engineer at Hartford Accident and Indemnity, in Manchester, N. H., and has been with the company in Maine and N. H. since 1930. He is a charter member and Veep of the N. H. Accident Prevention Council.

We extend our sympathy to the family of Charles H. Champion who died November 7. He was vice president of the R. T. Vanderbilt Co., Inc., Park Ave., New York, and made his home in Westport, Conn. He was an expert on the production of specialized paper for printing. (See Necrology.)

The Alumni office sent me a note about Randall A. Harrington, Convent, N. J. He has one more year to go before retirement, although he says he never felt better in his life. He has been through three wars, and says he hopes he won't have to go through another.

We were delighted to receive Christmas cards from several of our classmates. Frank '17 and Ella (Wheeler) Harmon, San Mateo, Calif., wrote that they are both very busy. Frank is active in two engineering societies, Ella is on the auxiliary staff of a home for elderly women, and they are both active in church work. Last summer they spent their vacation at Lake Almanor in northern California with their son and daughter. The fishing was good and the scenery beautiful.

A note on a Christmas card from the Lawrence Eddys, Schenectady, N. Y., said they expect to move to Camden, Me., about March 1, and will be at 29 Megunticook St.

Also Christmas cards from the Harold Pierces, Woodstock, Vt.; Louise Pratt, Hanover, N. H.; the Henry Turgeons, Auburn; Blanche Haley, Lincoln, N. H. and Vernon and Jessie (Prince) Wallingford, Ferguson, Mo. Thank you.

Those of you who were back at our reunion remember Dot Holbrook and another woman were planning a trip for September. Dot writes, "Our Scandinavian trip was a month of pure joy. We visited both cities and small communities and planned our itinerary and made our reservations ourselves. One of the highlights of our trip was seeing John Thomas of Boston University break the high jump record at the Helsinki Stadium where he competed with the Finns, enroute home from the Olympics in Rome. Our "Sauna" in Finland was a bit of local color we thoroughly enjoyed. The Local steamship tour around the coast of Norway was most interesting—as well as a four-day boat trip across the canals of Sweden, passing through sixty-five locks. Our only conducted tour was a four-day bus trip through Denmark—"Fairy Tale Tours"—which I heartily recommend. We had a superior person as a guide and we took in everything from pickling pears in a landlady's kitchen to a thorough review of the history and evidences of the Viking era. The Danish people were very hospitable and have great character. It was a perfect vacation and September the ideal time to go."

Coninne Barker writes from Barbizon-Plaza Hotel, N. Y., "My 'graduation' from the New York City School System took place Sept., 1959. I plan to remain in New York City for the present. I like the old town. I could be coaxed to take a whole

or part time position in the city if any of our alumni can use a Political Science Major, U. of M. and Columbia." (Ed. note: Any Alum who knows of an opening please contact Corinne.) Corinne continues: "There were numerous things I had dreamed of doing and had not done in Europe. So I made a long list and let Thomas Cook & Son have a headache getting them into almost a three month sojourn in Europe. It all centered about a possible date for the Passion Play, August 17.

"I wish space were available to fill in all the colorful details from the Netherlands, Germany, Switzerland, and Paris. Next I went to London where I spent several days with Ethel Wigmore. The 1920ers should remember her as Librarian at Maine in those days. Ethel and I have kept up a friendship over all these years. She has done so many interesting things. She has just retired from Head Librarian of the World Health Organization. She lives and plans to live in London. She will winter in Southern Spain. We did a lot of sight-seeing and saw 'Oliver' which is coming to New York and is a *must*. I sailed for home on the Parthia Sept. 24. I had sailed over on the Berlin. I like the smaller and slower ships. Some of this dates back as I said to dreams from geography and literature of even elementary days. I've managed to make more of my dreams come true, but I still have a few more. When we cease to dream and try to make them come true, then we really 'retire.'"

Elva (Gilman) Boynton writes, "Ray had business in Lisbon on the Tagus River bridge, so took me along. This was my second visit to Portugal, however, this time I really had to enjoy this beautiful country. Portugal is an ideal spot as to climate, scenery, interesting people and excellent food. We made friends on the first trip and during the several trips Ray has made alone. One of these friends, a world traveler, an Art Collector, an antique hunter, an inventor, a foreign representative and salesman for an air plan company, offered to take us on a trip to Spain. He is unmarried, has a valet, wouldn't own a car, but travels in a hired car with a chauffeur. It would take the entire issue of the *Alumnus* to tell all that we saw and about the things that happened on the trip that was the most fabulous affair I could even dream about. We drove down the western coast of Portugal and we got to the Spanish border where we had to cross over to Spain by ferry. We landed in Seville. The next day Mr. G. sent the car to Gibraltar and we three flew from Seville to Tangier, North Africa. That is the most exotic place—quite like Miami in best section and a second Bagdad in the Moslem quarters. We really toured Spain (wish space permitted all my impressions) and then left Madrid and drove back over the mountains. We collected our belongings in Lisbon and flew back. The jets are wonderful—six hours over, eight hours coming back, quicker than we can drive to Orono."

George Ginsberg and I had lunch one day recently formulating tentative plans for reunion. They are developing. George and Mrs. Ginsberg are at this time vacationing in Florida.

I am sure we are all pleased and proud to have Rena C. (Campbell) Bowles reappointed to the Board of Trustees.

From the Alumni Office comes news that Stephen Beaker retired from the New York Telephone Co. in August and is living at 6128 47th Avenue, No., St. Petersburg, Florida.

Martha (Woodbury) Kurth is in permanent residence at North Sandwich, N. H., liking it so much that she and her husband take only short trips. I am sure that one of the trips will be to Orono in June.

A recent news item in the State of Maine as well as Massachusetts papers was the announcement that one of our classmates, Harry Elmont Henderson from Hartland, was made Deputy State Treasurer at the State House, Augusta. Many of us will remember that tall, plodding Cross Country runner of long ago. Harry was a letter man in track and the 1922 *Prism* has this to say of Harry, "Everybody expects him to succeed as a C.P.A." We can be sure that he is a C.P.A. and a good one. Congratulations, Harry, in your career as an honest, conscientious, public servant. Other states might very well emulate this example in their appointments.

The 1952 *Alumni Directory* lists Earle F. Allen as

one whose address is unknown. The Alumni Office now states that Earle lives at 22 Cross St., Norwell, Mass., that he is a consulting electrical and mechanical engineer and that his activities in the Town of Norwell include in the past 10 years that of selectman, assessor, and former member of the Water Commission.

Two of our members recently were the subject of newspaper items through the work of their churches. One, our old favorite Estelle Nason, was elected president of the Women's Alliance of the Church of Universal Fellowship at a meeting held in Orono on Dec. 13th.

Ralph G. Kennison, manager central division, Central Maine Power Co. at Augusta, mentioned in our column of the March 1960 *Alumnus*, has done it again. Ralph was featured in a clergy, laymen's picture taken at Augusta at the Episcopal Churchmen's Fall Conference. There are many others who are working for the good of mankind through unpaid or underpaid public service in our cities and towns, schools and churches—this is America and this is a familiar pattern of life's activities, fostered or encouraged at our University.

Corra Russell (Mrs. Henry '23) Doten has been named one of the three trustees of the Orono Nursing Service. Also continues to be very active in the Esther Eayres Chapter of the DAR as well as the Thursday Club. She and Henry seem a part of the campus at 356 College Ave.

Another active person in club affairs is Marion Day (Mrs. James P. '16L) Quine who was recently installed as president of the Bangor Toastmistress Club. She and her husband, who is a practicing attorney, reside at 24 Royal Rd. One of their sons lives in Bangor and the other, Albert '60, is teaching in Aroostook County.

It certainly is good news that John A. McKay is vice president, National Account Relations of the Owens Corning Fiberglass Co. at 717 Fifth Ave., New York 22, N. Y.

Adolph Bisson writes that he has been a resident of Florida for eight years and is a real estate broker and salesman in the Orlando and Winter Park area. If you are interested in homes, lots, and acreage, I guess "Dolph" is your man to see. You'll find him at 203 Lantana Drive, Orlando.

I was sorry to have missed Ralph and Ruth (Coombs) Thomas when they were in Bangor this summer. They visited our beautiful campus and were much impressed with its growth since 1923. Ralph is busy as usual as Vice Pres. of the Buhl Land Co. of Detroit and is also serving as a Trustee at the Bushnell Congregational Church. He is chairman of a Convention of Building Owners and Managers being held in Detroit this fall. Ruth reports that their grandchildren consist of two little girls which are a special joy because they live nearby their home which is at 16766 Edinborough Rd., Detroit 19, Mich.

Hillis W. Holt, according to the New Britain, Conn., *Herald*, has been in the radio business as chief engineer for 37 years. He is so well known as an electronics expert that people from far and wide call him to solve their problems. The long interview and photograph of Hillis were published in the November 21st issue.

Harold J. Chase is manager in engineering in the small turbine department of the General Electric Co. at Fitchburg, Mass.

Phillip E. Woods is bridge construction resident engineer on relocation of Rt. 1 at Brunswick. Phillip will be on this specific job about a year. He lives at 97 Spring Street, Gardiner.

The class members who knew Jackie Jackson (Mrs. Charles R. Hersum) will be shocked and saddened to hear of her death recently in Washington, D. C., where she and her husband lived. Our

profound sympathy is extended to her husband and any other family members. We have lost a loyal, fine class member and friend.

Cecil Cutts is assistant director of student aid at the University. He is in charge of all student loans of which the National Defense Education Act loans are a part. He is also coordinator of all conferences held by outside groups at the University. In addition, Cecil has charge of about 40 foreign students who are attending the University. Cecil was for many years superintendent of schools at Saco, coming to the University in 1959.

Lynette (Walker) Flewelling is head of the English Department at Saugerties, New York High School. One daughter, a graduate of the University of Vermont, is teaching at Brattleboro, Vt. The other daughter is attending Wilson College in Chambersburg, Pa. Lynette lives at 51 Market St., Saugerties, N. Y.

George Davis Chase, Jr., is head of the science department and chemistry teacher at the Senior High School in New Britain, Conn. He is also faculty manager of athletics.

Rubena (Comins) Pressey is Dean of Women at Bangor High School, and is also a Guidance Counselor. Rubena lives at 12 Grove St., in Brewer.

We are pleased that classmate Earle Hillman of Bangor has been elected president of the State Senate in the 100th State Legislature currently in session in Augusta.

Helene (Douglas) Daniels now lives at R.R. #1, Readfield, Maine. Helene's husband, Dr. Donald Daniels (U. of M. '22) is on the staff of the veterans hospital at Togus.

Blakeslee, eminent authority on the Far East.

At a meeting of the Maine Water Utilities, held recently in Madawaska, Maurice H. Burr was elected second vice president. How about a note from you Maurice: all about your other activities, your family, etc.?

We were recently delighted to have a call from Hugh Huntley and his wife Lillian. They were en route from visiting relatives in Bangor to their home in Auburndale, Mass. Hugh is safety supervising engineer for the Liberty Mutual Insurance Company. Lillian teaches part time in the kindergarten. They have one son, William, who is with the Lideli Pharmaceutical Company in Kansas. They have two grandchildren. Both of them are busy in church work and various activities around Auburndale.

He and Ruth (Greenlaw) live in Wisconsin Rapids, Wis., and I believe they have three children, who must be all grown by now.

Col. Frank Bostrom retired from the Air Force in 1959 and has come back to Maine to settle. He can be reached at Beech Ridge Road, R.F.D. 1, York, Maine, where he is building a home.

Dick Fitzmorris was on the campus in the fall and stopped in to see us briefly. I learned then the sad news that he and Claire (Callaghan) had lost their younger son, Jimmy, last May. He was killed in an automobile accident. To make it even harder for the family Dick's mother died on the same day. Their daughter, Eileen, who is a nurse, came home to New York for a while. She was married in September and now lives in Wilmington, N. C. Dick and Claire spent their vacation in Maine. Dick is as busy as ever recruiting and training personnel for the Telephone Co.

Between Christmas and New Year's—I hope the first was merry and the latter will be happy. It is certainly a pleasure to have our young folks home and to hear about life on campus from our freshman daughter. She makes me wish I could turn back the pages of time.

Our congratulations go out again to Cliff McIntire who again waged a successful campaign for his seat in Congress. Just before midnight on Nov. 8, he thanked his constituents for the privilege of representing the Third Maine District for another term. The Republican Congressman has already served for nine years.

The leadership and drive of Cony High School's principal was one of four factors listed as reason for the school's being selected for the 1960 Bellamy Award. Prin. Horace Croxford came to Cony in 1954 after several years of teaching in Old Town, Orono, Bar Harbor, and Branford, Conn. In 1958 Horace served as president of the Maine State Principal's Assn. and is a member of the Standing Com. of the N. E. Assn. of Secondary Schools and Colleges. In addition he is a member of the Council of N. E. Secondary School Principal's Assn. In 1957 he attended the National Convention of Secondary School Principals in Indianapolis and in 1958 went to the convention in Philadelphia as a delegate from the state association. Mrs. Croxford is the former Isabelle Robinson '3. They have a married daughter and grandchild.

Ralph Perkins who lives at 423 Fox Chapel Rd., Pittsburgh 38, Pa., reports that he attended an alumni dinner at the Hilton in Pittsburgh quite recently, but he didn't say whom he saw from our era.

Russ Lathrop was elected president of the Bangor Parking and Modernization Corporation at its annual meeting.

Milford Payson has become coordinator of adult activities on the Friends Neighborhood Guild in Phila., Pa. His address is 712 No. Franklin St. I saw him last summer in Camden and he didn't mention his work so this must be a new venture.

Among the representatives of the Aetna Life Ins. Co. honored for outstanding records in life insurance promotion at a recent dinner meeting in Portland was Glenn Lamoreau of Richmond.

Vaughan Daggett, chief engineer for the Me. State Highway Commission and a member of the State Board of Registration for Professional En-

gineers, was a speaker at the second annual meeting of the Maine Society of Professional Engineers in Augusta, Nov. 5.

A forage analysis service for Maine Dairymen has been established at the Agricultural Experiment Station. The service is described in a circular, "Maine Forage Analysis," prepared by Ralph Corbett, Extension dairyman. He earlier published a bulletin "Feeding Maine Dairy Cows" which is popular among dairymen.

Dr. Louise Bates Ames, noted psychologist, was a speaker at the convention of Maine Congress of Parents and Teachers. Her subject was "Needs of Children and Youth." A cofounder of the Gisell Institute of Child Development, she is presently its director of research.

Two weddings of interest to class members: Philip Bruce Curtis, son of Mr. and Mrs. Cliff Curtis, was married on Thanksgiving weekend to Catherine Ayer in Winchester, Mass. Both bride and groom were members of the 1960 class of U of M. In Boston on December 3, Herbert Hammons, Jr., son of Mr. and Mrs. Herbert Hammons (Louise Durgin) was married to Grace Wright. Herbert, Jr., is completing his study in dentistry at Tufts College.

Willard Farris has been elected director for three years of the Engineering Society of Cincinnati. He is living at 240 Ireland Ave., Cincinnati 18, Ohio.

News from the Bill Daley family at 6 Riverside Drive in Falmouth. Susan, the youngest daughter, is now a freshman at Maine, Michael has graduated from Dartmouth in June and is now associated with his Dad in business, and daughter Margaret, Mrs. Linwood Carson, is teaching at Las Cruces, N. M.

Francis "Pat" McGuire of Orono was named as a vice chairman of the scouting district newly formed known as the Penobscot Valley District.

Vance Springer is director of research and statistics for the Maine Department of Health and Welfare. In Augusta recently he announced a new policy by this department designed to give closer scrutiny to and better records of Maine marriage statistics.

Lewis Parlin, assistant state soil conservationist, recently discussed the need of securing information of the soil and water needs of the people of Maine before the annual meeting of the Maine Soil Conservation District Supervisors Association held in Bangor. He pointed out that the answers to questions pertaining to farmers' soil and water problems will be secured by research people only and suggested the appointment of a representative to present these needs to the Agricultural Research Service for action.

George B. Findley of Washington, Me., has retired as a poultry specialist. On Nov. 8, he was elected State Representative to the Maine Legislature from the class towns of Rockport, Union, Warren, and Washington.

Mr. and Mrs. Donald L. Lester (she is Marion Dickson, Class of '33) now live at 28 Maxwell Drive, Wethersfield 9, Conn. Their daughter, Barbara ("Skipper") who is 15 and a sophomore at Wethersfield High School, has selected U. of M. as her first choice of colleges for September of 1963. After finishing her third season at the Westerman's Wavus Camps in Jefferson, she visited the campus in August and reaffirmed her choice.

Nancy Louise McIntire, daughter of Smith S. McIntire, of Perham, Me., has entered Farmington State Teachers College.

Jack Grenfell, 19, son of the Rev. and Mrs. Jack (Clarine M. Coffin) Grenfell, pastor of the South Park Methodist Church, Hartford, Conn., has entered Alaska Methodist College at Anchorage. He is the third generation of his family to take up the ministry as a profession. His father and grandfather were both Methodist ministers and because of this heritage he is allowed to attend AMU under a ministerial heritage grant.

It was wonderful to have holiday greetings from so many classmates of '33, but I do wish that you had sent along a few new items.

Mr. and Mrs. Ernest Percival of Brownville, have announced the engagement of their daughter, Susanne Percival, to Jock Brown of Williamsburg. Miss Percival is a student at Husson College. Mr. Brown is a student at the University of Maine.

Mr. and Mrs. Robert E. Pendleton of Island Falls, have announced the engagement of their daughter, Nancy Pendleton, to Edward McGraw of Winthrop, Mass. Miss Pendleton attended Becker Junior College in Worcester, Mass. She is a graduate of Felt and Tarrant Comptometer School in Portland. Mr. McGraw is a graduate of Coyne Electrical and Technical School in Boston.

Walter Fitzgerald who lives in Bath sent along a few notes about his family. His daughter Jean, who attended Gorham State Teacher's College, was married in June to David G. McLuer of Bath. They are at present in Biloxi, Miss., where Mr. McLuer is enrolled at the Air Force School of Electronics. Wayne, the oldest son, is a member of the class of 1964 at U. of M. There are also three other children in Walter's family. Sorry, I do not have their names.

A short note from Mary (Scott) Bratton told us the good news that she and Bill now have a seven month old granddaughter, Leslie Widen.

Two good prospects for Maine live nearby. They are the grandsons of Clarence Berry. Their names are Kevin and Timothy Prescott, and their parents are Raymond and Susan (Berry) Prescott

Mr. and Mrs. Willis G. Pratt of R.F.D. #1, Rumford, Maine, enjoyed a very pleasant three weeks' vacation in the Hawaiian Islands, leaving Rumford August 14th, and returning on September 3rd. They travelled by jet plane each way between New York and Honolulu and stayed, most of the time, at the beautiful "Hawaiian Village" on Waikiki Beach. In addition to sightseeing around the island of Oahu, they visited the islands of Maui, Hawan and Kauai, taking in the major points of interest on each.

Warren Flagg '35 visited the Pratts at the Hawaiian Village, for a little while one afternoon, after getting out of work, and chatted about the "good old days" at U. of M.

The weather was perfect during the whole three weeks, and "Bill" had a lot of fun taking some three hundred, 35 mm., colored slides.

On the return trip, while changing planes at Los Angeles, the Pratts were visited by Mrs. Pratt's brother and his wife, Charles and Viola Frederic, of Hollywood, California.

Appointment of Carl Whitman as General Chairman of the Needham Fourth of July Committee for 1961 was recently announced. Carl, who is Assistant to the President of Food Enterprises, resides on Paul Revere Road. In addition to many committee activities of the Exchange Club where he was Vice Chairman of this year's July 4th Celebration, Carl takes an active part in many other Needham civic affairs. He is a Town Meeting Member, a member of the Board of Directors of the Needham Civic Council, and was Chairman of the Building Committee for the recently completed addition to the Central Police and Fire Station.

You won't be reading this column until February, but it is being written on Dec. 28th, and I am full of news from Christmas cards. What a

pleasure to have some first hand news rather than having to copy newspaper clippings!

Alice (Crowell) Lord has joined the ranks of grandparents. Her oldest daughter, Karen (and I'm sorry that I don't recall her married name) is the mother of a baby boy. Alice's other daughter, Janice, is attending Waynelect; son John, South Portland High; and Jeff is in the seventh grade. Alice says that Dot and Vernon Packard's son is at Middlebury College.

Ann (Eliasson) and Dick Clarke live at 79 Viscount Rd., Longmeadow, Mass. Their son, Tom, is a junior in high school, a member of the National Honor Society, captain of the football team, treasurer of the Student Council, and a member of the varsity basketball team. Karen, their daughter, is in the seventh grade and a member of the Glee Club and water ballet.

Claire (Saunders) Ashworth writes that her oldest, Nancy, graduated from college last year and is working in a branch of the Hartford Library. She plans to go to Columbia U. next year to work toward her master's degree. Bill is attending Wesleyan, where he received a scholarship, and is a member of the freshman soccer team; he also just qualified for the Squash Team. John is 14 years old—Claire neglected to say what year he is in school—he is an Explorer Scout and attended the Scout Jamboree held in Colorado last summer. As to the parents, Bruce is president of the Hartford Alumni Assn. and Claire is chairman of the joint YMCA-YWCA Board and on the Board of Directors of the Greater Hartford "Y." Their address is 45 Lancaster Rd., West Hartford 7.

Margaret (Litz) Earle has four daughters, but mentioned only Nancy, the oldest. She will graduate from high school this year and hopes to go into nursing. Marg is still in Perth, N. B.

Virginia (Nelson) Sturgis and son, Peter, live at 206 So. Maine Street, Cheshire, Conn. Ginny is teaching in junior high. Her daughter, Diane, is married and has three children.

Louise Steeves was planning a cruise to the West Indies for the Holidays. She has her own real estate business in Miami, Fla. Her address is 3901 S.W. Seventh St.

Georgia (Fuller) Wiesandanger writes that her son, John, is a freshman at Maine in the College of Technology. Georgia lives in East Winthrop and said that this summer she, Geneva (Epstein) Cutler, Charlotte (Fuller) Southard, and Beanie (Reed) Shafer got together at her home for a few pleasant hours. Geneva lives in St. Louis, Missouri, and is married to Dr. Harold Cutler. They have two children, Emily, 14, and John, 7. Charlotte lives on Murray St. in Augusta. Her husband, Frank, is a Bowdoin graduate and is municipal judge of the City of Augusta. Their son, Frank, attended the YMCA camp at Cobbesee this summer. Beanie's husband, Rea, works in the Bureau of Standards in Washington, D. C. They have two girls, Christy and Sally Ann. Their home is in Rockville, Md.

Georgia also sent me a clipping from the Augusta paper in which Gridley Tarbell was mentioned as a member of the Maine Aeronautics Commission.

Lawrence Cote of Augusta is secretary of the Maine Society of professional engineers.

Lt. Col. Richard O. Gordon, his wife, Florence, and son Richard Jr., live at 14 Buckner Circle, Ft McClennan, Ala.

Our daughter, Judy, has been home from the U. of Wisconsin for an all too brief visit. I imagine things will be pretty quiet around here now

Keep the mail coming—isn't it fun to have a long column for a change? Also don't forget to start making plans for the BIG Reunion in June.

Some of this month's news comes to us through Christmas notes. A Christmas card from Josie (Naylor) Woods introduces three daughters of a "Maine" family. Eldredge "Bud" Woods is Maine '36, their eldest daughter, Dena, attended Maine; and Nancy, now a senior in physical education, has maintained a Dean's list average through much of her college career, has been a junior resident, and is a member of the education honor society, Kappa Delta Pi. Josie reports that their third daughter, Hazel Jean, a senior in high school, also plans to come to the University.

The Woods live on the Pepperell Road, Kittery Point.

Jo (Snare) Dwyer's family had a fine summer holiday at their camp near Hamilton, Mass. Her older boy, Terry, is in 9th grade, John is in the 4th. Her husband, Larry, who has been for several years principal of the High School in Berlin, N. H., became superintendent of schools there in July. Congratulations, Larry! Jo's address is 286 Church St., Berlin, N. H.

While shopping in Bangor recently, I ran into Naida (Sanders) MacNaughton. The MacNaughton family were excited because Don had just moved his business, Rogers' Jewelry, to a handsome new store on Broad St. Don and Naida have two boys, Tommy, 12, in the 7th grade, and Danny, 5, in sub-primary. They have lived for some time in Hampden Highlands.

John Green, R.F.D. 4, Somers, Conn., is currently working with an experiment involving work crews from the Connecticut State Prison. He finds it interesting. He has five children, two of whom are teachers, one in the marines, one in second grade, and one married and living in the Canal Zone. John also has a "wonderful grandson."

Another classmate, Jerome Emerson, was re-elected head of the Maine Farm Bureau at a conference held at the University in November.

Suggestion: Have any of you Christmas news you would like to share?

Our developing class agent system is bringing in some interesting mail indeed. A long letter from Dan "The Colonel" Roberts is here beside me and, as our teen-agers would say, I've been getting a large charge out of it. Wish I didn't have to boil his letter down to bare facts. Dan is an advertising sales representative, doubles as an assistant to the Advertising Manager, handles research for the commercial end of the magazine, and occasionally contributes editorial matter to *Hospital Progress*, the official publication of the Catholic Hospital Association of the United States and Canada. He is married to a "lovely St. Louis gal, Marilyn (Meyers)—since 1950. They have two sons, nine and seven, a St. Bernard—"intake about \$22 per month," a nine-room home on an acre lot, built in 1958, in Kirkwood, Missouri. Many thanks, Dan, for a really great letter! Oh, nearly forgot, Daniel C. Roberts, 1345 Wilton Lane, Kirkwood 22, Mo.

Last summer Morris Wing was named resident manager of the Woodlands Division of the International Paper Co. in Maine and also manager of the company's subsidiary International Logging Corporation in Chisholm.

Dick and Margie (French) Franz and their two children, Barbara and Michael, are now located in New England. Dick is a Major in the Air Force and stationed at Grenier A. F. Base, Manchester, N. H.

Earl Hodgkins was installed master of the Ralph J. Pollard Masonic Lodge in Orrington in December.

Bob Deering writes, "I am doing a big landscape job on a proposed park of over 5,000 acres. The California State Park Commission (of which Will Rogers, Jr., is chairman) has approved preliminary plans, and now I'm preparing a report for the Legislature." Bob is now living at 121 San Bernabe Dr., Monterey, Calif.

Harlan Rowe is a food inspector for the U. S. Army and is living at 94 Riverdale Park, Gloucester, Mass. He is married to the former Eileen Connors, a graduate of Husson Business School in Bangor. They have two sons, James, 16, and Keith, 13. James is a junior at Kents Hill School, while Keith is an 8th grader, at home.

Latest news on a couple of the gals in the class—Marie Pinette, whose address was not known for a couple of years, is now living at 2231 California St. N. W., Washington, D. C. I believe she has been in the D. C. area ever since graduation. Janice (Woodward) Beedy lives in Turner and teaches at Canton High School.

I do hope that all of you enjoyed the holiday season as much as we here in Orono did.

A note from George Norton of 399 Elm St., Northampton, Mass., says that both Joe Flanagan and he look forward to the two days they spend on campus each year interviewing students for Monsanto. The trip was in January in 1961. George's wife, Jane, is a teacher at Northampton High School. When George isn't busy managing project engineering in the Plastic Division of Monsanto in Springfield, he enjoys boating on Long Island Sound, weather permitting.

On their holiday greetings to us, Pat West included the following note: "As you see, we're now stationed in New Orleans. Bruz is assistant director of reserve units and travels a lot in the states of Louisiana, Arkansas, Oklahoma, Texas, and New Mexico. He likes his work very much. Getting to Maine now is a major excursion, but we plan to drive up come June. We'd so enjoy seeing any Maine folks in this area." Wonderful to hear from you, Pat. Incidentally, the Wests' address is: 2429 Bristol Place, New Orleans, 14, La.

Philip Chute, manager and owner of the Chute Homestead, Naples was re-elected president of the Maine Hotel Association in Portland recently. Congratulations, Phil.

Barbara (Cole) Bear sends word from Thor Place, Fairfield, Conn., that J. Alice Smith '41 and her daughter, Dianne, worked at the Bears' summer camp in East Hampton, Conn., last summer. Two of Rudy and Jeanne Haffner's children attended camp.

Though this news will reach you all long after the Christmas holidays are over, at writing time I am buried under a mound of wrappings, toys, new

clothes, dropping tree needles, and children at home for vacation!

Had a nice chat with Betty (Flint) Hilton before the holidays and she offered some new and interesting news about a classmate not heard from in a long, long time. Ann Harmon, who married Gerard Driesen from Netherlands, is now settled in Switzerland with her 3 children. Betty thinks her husband works with Nestle's.

In the fall, Floyd Beecher, a Portland realtor, was named president of the Maine Association of Real Estate Boards.

Bernard Prescott has been appointed to the Social Service Dept. of the Veterans Administration Hospital at Northampton, Mass. He and his family will make their home in Northampton, which will make them practically neighbors of ours. Do hope our paths will cross one of these days!

It is always interesting and pleasing to find more and more members of our class fulfilling their civic responsibilities. The *Bangor Daily News* reported in October that Mr. and Mrs. Dana Giggey were named co-presidents of the Fifth Street Junior High School, P.T.A.

At a Farmers Home Administration conference of all state and county personnel at the Elmwood Hotel in Waterville this last October, State Director Millard G. Otto presented an award to Asa R. Mace, Jr., for his contribution to the employee suggestion program.

Lee C. Davis of Barnstable, Mass., holds now what sounds like a tremendously interesting and worthwhile position. He has been appointed full time director of the Cape Cod Junior Museum of Natural History at Brewster Town Hall. This unique and growing organization is comprised of boys and girls 9 years and older. Classes are held on Saturday afternoons in 5 categories. Lee is teaching sea-shore life. Other classes include pond life, plant life, geology, art and nature. Lee was formerly with the Oceanographic Institute at Woods Hole.

Olive (Coffin) Hart lives at South Hope with her husband, Halver 'Skipper' '50 and their 4 children. Their mail goes to RFD #2, Union. Skipper holds a supervisory position in the Sylvania plant at Waldoboro. Ollie has been Town Treasurer at Hope for several years.

Don Thomas is teaching freshman and junior English at the Chicopee, Mass. High School this year. Another neighbor of ours. Strange our paths have never crossed since we sat next to one another in numerous English classes at the good old U. of M. Last address I have recorded for the Thomases is 313 Cortland St., Springfield.

Will close the column this month with a bit of sad news for one of our classmates. I'm sure we all extend our sympathy to Pauline Quint Arbo (Mrs. Russell) whose small son was killed in an auto accident in Patten, Maine.

Brrrrrr—the calendar says it's not too long until spring but I wonder! The latest news of 53-ers:

'53 Alumna Visits Norway

Last fall Eini (Riutta '53) Johnson was sent to visit Norway and the Norwegian Housewives Association as the 1960 Frysinger International Fellow by the Woman's National Farm and Garden Association (in U.S.A.). She flew to Finland by jet in early September and visited 43 relatives. Then her official tour began with visits to many parts of Norway. Her hostesses were members of the NHA and really gave her an opportunity to see the agricultural developments of the country. There were many side visits to spots of cultural or historical note and Eini was most impressed with the Norwegian way of life. The intense national pride is marvelous. On her departure date of October 10, she left Norway with mixed emotions. She had met so many wonderful people, and yet the lights of New York couldn't have looked better, for it was return to her wonderful family and the opportunity to tell many garden groups about their fine counterparts in Norway. Our congratulations to you, Eini, for being selected as the Frysinger Fellow; we're sure you were a fine American ambassador.

Winter Scene—Casco Bay

Our first minister, Parson Smith, the indefatigable diarist of Portland's beginnings, writes under date of January 14, 1752, that Casco Bay and the harbor were frozen over so hard that he and his wife and others took an excursion to Brunswick and return, all of the journey on the harbor ice. His party passed over Harsisacket Bay in going and returned directly from Brunswick across the Bay outside Maquoit Island to New Casco and thence to the Beach home."

That this fact was not an unusual occurrence is attested by many other entries in the good Parson's diary. It seems to have been quite the thing to hold sleighing and skating parties on the harbor ice during the long and cold winters.

Many times logging teams were driven over the ice that formed between the coves of the mainland and the town landing, as the shortest and easiest way to bring in the royal masts and ships timbers which constituted the chief industry of the settlement at the time.

In February, 1844, there is record of the harbor freezing from shore to shore, all the inner islands being caught in the ice. Many ships were frozen in as they lay at the docks.

To expedite the delivery and despatching of their merchandise "seventy or eighty" merchants of Portland turned out on the third day of the great freeze armed with "ploughs, saws and axes." Working all day from sun-up to dark, this busy army of volunteers carved a channel through the solid ice, extending from the Union Wharf to Fort Preble, a distance of more than two miles.

This is the first recorded instance, it is believed, that the ice in the harbor was broken to allow the passage of ships. Previously, ships that were caught by the freezing waters of the harbor when they lay at anchor, or at the docks, lay there until the temperature moderated.
