University of Maine

COLLEGE of TECHNOLOGY

The College of Technology offers curricula in Chemistry and Chemical, Civil, Electrical, General and Mechanical Engineering leading to the degree of Bachelor of Science. The Departments of Engineering Drafting and Mechanics offer courses required in all engineering curricula.

DEPARTMENTS

Chemistry and Chemical Engineering

The department offers major work in Chemistry and Chemical Engineering, including Pulp and Paper Chemistry and Technology. The student in Chemistry, in addition to the primary chemical requirements, takes courses in Bacteriology, Mineralogy, Bio-Chemistry, Metallurgy, and the teaching of Chemistry, while the Chemical Engineering student pursues fundamental courses in mechanics, heat, electrical and mechanical engineering involved in unit chemical plant operations. Together with fundamental courses in physics, mathematics, English, modern foreign language, economics, management and general, analytical, organic, physical, and industrial and engineering chemistry, the student obtains a good all-round education. Graduates make good records on a competitive basis as teachers, lawyers, patent examiners, physicians, research and consulting chemists and chemical engineers in federal, state, municipal and industrial organizations, and as superintendents and managers of industrial plants. Under normal conditions, demand for our graduates exceeds the supply.

Civil Engineering

The work of this department is to give its students exact and careful training in the fundamentals of the profession. Its graduates may be found in positions of responsibility in all sections of the country. The broad field of civil engineering is well covered by thorough instruction in surveying, sanitation, railroad location, geology, steam gauging, materials laboratory, and structures. During the senior year, specialized study may be selected in Highway Engineering, Railroad Engineering, Hydraulic Engineering or Sanitary Engineering.

Electrical Engineering

The department offers courses intended to develop the student educationally and at the same time provide him with the fundamentals of an engineering career. Courses in electrical theory are followed by specialized courses intended to give an insight into the different branches of light and power, and communication work. The subjects so treated are electrical measurements and testing, electric circuits, telephone communication, transmission and laboratory, direct and alternating current machinery and laboratory, electrical power plants and power transmission, illumination, transportation, communication engineering and laboratory, radio engineering and laboratory.

General Engineering

The primary purpose of this course is to afford an opportunity to a selected few outstanding students to develop themselves along certain specific lines, not afforded by other engineering curricula, in which they have great interest or are particularly capable. Opportunities are afforded for electives in economics, foreign languages, history, mathematics, physics, and psychology. Engineering or scientific subjects would be taken which would bear on some particular branch of engineering or have some functional objective such as design or research or management according to the leaning or capability of the candidate.

Mechanical Engineering

The Mechanical department aims to offer to students a curriculum which gives a broad training in the fundamentals of heat engineering, design, and the principles of industrial engineering. It includes such principles in economics, psychology and management which will give the student an insight into the commercial, human relations, and managerial problems, with which he will later come in contact. The theory is supplemented by practice in the shops, drawing room and our well equipped Crosby Mechanical Laboratory, and this broad foundation should help to shorten the transition period from college work into any Mechanical Engineering field.

CAPACITY CROWD AT ALUMNI BANQUET

A. L. Deering Reelected President - 1882 and 1902 Win Attendance Cups

Bright sunny skies smiled down upon the scenes being enacted on the campus during alumni day, Saturday, June 11. This fact, together with a larger attendance at both the alumni luncheon and banquet, provided the elements for a most successful and varied alumni day program.

The total registration, while somewhat lower than last year’s, was no indication of the day’s success. A high total of 612 attended the alumni banquet, when Carl P. Dennett ’02 gave a most interesting and instructive talk on “The Challenge to Business,” Harry E. Sutton gave the charge to the seniors, and President H. S. Boardman presented William Tudor Gardiner with an honorary degree.

The class of 1882 won the Class of 1908 Cup with six of its members present. The Twentieth Century Cup, awarded annually to that class since 1900 having the largest percentage register during alumni day, was awarded to the class of 1902.

Deering Reelected President

Arthur L. Deering ’12, of Orono, president of the General Alumni Association during the past year, was reelected at the meeting of the association held Saturday morning. George S. Williams ’05 of Augusta was reelected vice-president, as was also Maurice D. Jones ’12, of Orono, clerk; Paul D. Bray ’14, Orono, treasurer.

3 Alumnae on Council

One of the outstanding results of the General Meeting was the election of two more alumnae members of the alumni council. They are Mrs. Estelle Spear Robbins ’19, Portland, and Mrs. Rena Campbell Bowles ’21, Bangor. This important change of policy was made possible by an amendment to the constitution, voted favorably upon at the meeting.

Councillors elected for three year terms include: Richard E. McKown ’17, Bar Harbor, to succeed himself; Harold M. Pierce ’19, Bangor, to succeed Harry A. Emery ’06; Harold Cooper ’15, Auburn, to succeed himself; W. Ray Thompson ’14, of Caribou was reelected a member of the Alumni Council representing the College of Agriculture, and as representative of the College of Technology, Arthur E. Silver ’02, of New York City, was reelected; J. Harvey McClure ’05 of Bangor, was reelected to serve as one of the three alumni representatives on the Athletic Board.

The association at its meeting also voted to go ahead with the building of the Memorial Gymnasium, construction to start the latter part of the summer.

A band concert by University students was given in the Oval following the noon luncheon. At 2:30 the alumni parade left Alumni Hall for Alumni Field, where...
CLASS DAY EXERCISES ARE HELD IN OVAL

309 Seniors In Graduating Class—Exercises Include Both Levity and Seriousness

The 61st annual commencement exercises at the University of Maine began Friday afternoon with the class day exercises as the opening event. Following the group picture taken on the Coburn Green, the graduating class, three hundred strong, assembled in Alumni Hall and marched to the Oval where the exercises were held.

Attended by parents, alumni, friends, and underclassmen, the exercises, the last event which the seniors participate in as undergraduates, held a certain impressiveness which was broken only at times by the humor of the prophets and presentors of gifts.

President Everett Gunning of Waterville presided, gave a speech of welcome, and introduced the speakers John D Dickson, Jr., Waterford, N Y, class chaplain, delivered a prayer, and John R Moore, Ellsworth, dug out the past records of the class as a whole, and presented them in his class history.

Levity quickly followed when Miss Sylvia L Hickson and Robert S Shean, brought forth presents for a few of the outstanding seniors, introducing each, and explaining why he should be presented with such a gift.

John Barry, Jr., Bangor, opened the serious part of the program with the class oration, Free Thought. In his opening, Mr. Barry said:

"A realization has come to us today that we are now for the first time on our own. What we do in the future depends entirely upon ourselves. The class of 1932 is being confronted by a world filled with financial chaos and hardship. Probably the most trying period in our history is being passed, and we are now in the throes of the greatest financial depression which has ever been chalked down upon the slate of the United States.

Clarine M Coffin, Bangor, read her class poem. Wheeler G Merriam, Framingham, Mass, cleverly assumed the role of the prophet, Miss Helen W Stearns, prophetess for the girls, being unable to attend the exercises due to ill health.

Malcolm G Long, East Bluehill, followed with the valedictory, and the speaker exercises were ended with a selection by the band. Following this the class paraded to the lawn before Stevens Hall where the class tree was planted by Walter E Riley, Portland, class curator.

Commencement as it was held in the Oval, Monday, June 13, 1932.
343 DEGREES GIVEN AT COMMENCEMENT

Five Honorary Degrees Awarded—Dr. Little Chief Speaker

A total of 343 degrees were awarded Monday morning, June 13, at the 61st annual commencement, held in the oval under ideal weather conditions. Of the 343 degrees, 309 were bachelor degrees, 23 advanced degrees, and 5 honorary.

Dr. Clarence Cook Little, commencement speaker, emphasized in a stirring address "The Value of Simplicity." His opening reads: "There is no doubt that the world is in one of the most complete and uncontrollable attacks of St Vitus Dance that it has ever experienced." He went on to reiterate the need for simplicity of thought, of action, of ideals, in the lives of those about to graduate.

Citations by President Boardman in presenting the honorary degrees follow:

CLARENCE COOK LITTLE
Doctor of Letters
Graduate of Harvard, former president of the Universities of Maine and Michigan, biologist, research worker, director of the Roscoe B. Jackson Memorial Laboratory at Bar Harbor, managing director of the American Society for the Control of Cancer, New York City, member of many learned societies, author and lecturer.

Ten years ago upon this spot you were inaugurated president of this institution. Three years later you left for larger fields. During your administration you instilled new life in the institution and awakened us to new responsibilities. The impress of your fearless and earnest personality remains with us and we are glad to welcome you as an honorary alumnus of the institution which we know you love so well.

JOANNA CARVER COLCORD
Master of Arts
Graduate of the University of Maine, teacher, charity, Red Cross and welfare worker, author, present head of charity organization department, Russell Sage Foundation.

Your life has indeed been rich in devotion to duty and in the years ahead your progress should result in greater opportunity for fruitful service to mankind.

ALBERT WILLIAM STEVENS
Doctor of Engineering
Graduate of the University of Maine, outstanding army officer and aviation engineer.

By your dauntless courage, tenacity of purpose and vigor of manhood, you have overcome many obstacles and have made history in aviation, thereby rendering a real service in its development at a time when such service was most needed.

EDWARD BRACKETT WINSLOW
Master of Arts
Member of the board of trustees of the University of Maine, 1898 to 1911, and president of the board from 1908 to 1911, prominent and successful business man of Portland.

Your experience in the business world has given you opportunity to enter into the life of your community with timely and sagacious council. That you have seized the opportunity and have lived up to your obligations is shown by the esteem in which you are held by your fellow men.

EDWARD FRANKLIN DANFORTH
Master of Arts
Graduate of the University of Maine, graduate of Boston University Law School, respected practitioner of law in Skowhegan for over half a century, former judge of the probate court, one of the most regular attendants at commencement exercises for years, showing your interest in the institution by the gift of two prizes—the Franklin Danforth prize and Greek Culture prize.

It must be a satisfaction for you to look back over a life spent in the service of others. No richer asset can be left than the esteem of one's fellow men.

Said Dr. Little in his commencement speech:

"By stupid legislation which has complicated unnecessarily and has surrounded with piracy the problem of acquiring alcoholic beverages, our generation has given birth to a whole host of professional law-breakers. A simple control of the problem of distribution by governmental or other agencies must replace the present criminal and corrupt efforts to fool the public into believing the situation is improving or that it ever can be satisfactory under the present corrupt and illogical system.

"Mankind demands in this question the right to self determination. An insincere generation has bungled the problem badly and must change its tactics rapidly before it is overcome by the Frankenstein it has created.

Dr. Little praised the "small business" as the bulwark of national prosperity and advocated a decentralization of government in Washington, saying that public problems "should be debated and decided by the groups interested and not by those who know nothing of them."

Bitterly assailing "certain so-called patriotic organizations" and "empty-minded politicians" for their endorsement of "the claims of able bodied veterans for some $2,000,000,000," Dr. Little asserted "these men should be branded as the real menace to our country—its true traitors."

RECIPIENTS OF HONORARY DEGREES
Left to right—Captain A. W. Stevens '07; Edward F. Danforth '77; Miss Joanna C. Colcord '06; President H. S. Boardman '95; Clarence C. Little; Edward B. Winslow.
The Maine Alumnus

Athletic Representatives' Report

To the General Alumni Association:

There have been ten regular and two special meetings of the Athletic Board for the year ending June 9th. One or more of the three Alumni representatives on the Board have been present at each meeting. We are glad to report that the Board has held within its budget and that a balanced budget for 1932-33 has been presented and approved.

The new Athletic Field has been graded and drained and it is the hope of the Board that baseball may be played on it next spring, leaving the football field to turf over.

Last fall the practice football field was flood lighted by four one thousand watt lights and gave very satisfactory results to the football squads. Late practice and flood lighting is necessary because the football men are not able to get on to the field until late afternoon.

The trend of Athletics in all branches still continues to the Intramural and this seems to be the trend throughout a large part of the country.

The Faculty Manager with the approval of your Board, will continue to try to arrange junior varsity games.

The Grandstand Corporation has presented an operative schedule which will insure a stated reduction of its indebtedness each year and will allow for insurance, painting, interest and repairs. A charge is now made for the use of the bleachers whenever they are required to be set up.

The broadcasting of home athletics was frowned upon by the Board which feels that it might reduce the gate receipts and lead to difficulties over faulty announcement.

The winter sports program was this year supported by the Board as a minor sport and the necessary funds were found to care for it.

Tennis was accepted as a minor sport with the provision that the tennis club should attend to and assume all financial obligations of the schedule of matches which they presented.

Your Board is in favor of a rotating football schedule. This matter was taken up with the other three Maine colleges and it was found that Bates and Colby are in favor and Bowdoin opposed to the plan. The Faculty Manager is today bringing the matter again before the meeting at Augusta, it having been tabled at the last meeting. We believe that the rotating schedule would mean much in our favor financially.

At the January meeting it was voted that a Committee be appointed to prepare and present a proposed change in the paragraph in the University of Maine eligibility code that would permit our Freshmen to compete in the Mame Intercollegiate Track and Field Association Meet.

On presentation of the report there was a divided opinion in the Board and by a majority vote Section 2 of Article 12 was changed to read as follows: No Freshman shall be allowed to compete on the Varsity teams in any branch of athletics. Exception: The Athletic Board by a majority vote may allow individual Freshmen to compete on a Varsity team in contests with teams representing other colleges or Universities permitting Freshmen to compete as members of their Varsity teams. Each case must be acted on individually by the Athletic Board. As a result of this change and by a majority vote of the Board three Freshmen were entered and allowed to compete in the 1932 Mame Intercollegiate Track and Field Association Meet at Lewiston.

Your Board last year authorized the Track Teams to go to the University Club Meet at Boston instead of the Boston Athletic Association Meet. This change in our outdoor track schedule proved very satisfactory and will undoubtedly be continued.

Your Board believes that the staff of Coaches and Trainer are high grade men and competent in their fields, and that results have been satisfactory. No mention has been made of them because they are a matter of record in the Alumnus.

Respectfully submitted,

J H McClure

sound financial position through the passage of the Mill Tax Act of 1929. In placing your name upon the rolls of the University, we feel that we are gaining an honorary alumnus who will continue in private life the same interest which you have shown as the chief executive of the state.

Carl P. Dennett '02 Main Speaker

Mr. Carl P. Dennett's speech was most interesting and informative. He said in his opening:

"While fully realizing that this is a time for constructive, and not destructive thinking, I am unable to detect any..."

"It is time for blunt talking and facts—no matter where or whom it hits. The cowardice and inefficiency of Congress has never been more glaring than during the present session. If any proof is needed to substantiate this statement, I point to the 145 Congressmen (134 Democrats and 11 Republicans and I Farm Laborite) who have just signed the necessary document to force a vote on the Soldiers' Bonus Bill. It took only the presence of scattered bands of a few irresponsible veterans (estimated at 6000 out of a total of 4,300,000) lobbying among them to drive or frighten them into signing what they must know is to promote an unsound and improper measure at this critical time."

In his closing he said "Is it too late for us to save the situation and restore confidence in this country? No, it is not—emphatically No, provided we have the same intelligent administration of our public affairs that any prudent man would use in business."

"One of the controlling reasons for believing that it is not too late to save the situation in the United States is the result achieved in England under financial conditions vastly more difficult than those with which we are now confronted. England's national expenditures had led the country into a situation where the internal debt was ten times the annual public revenue and one and one-half times her national income."

"When the people of England awoke to their perilous situation they installed a new government committed to most drastic economies, including reduction of the dole and cutting the wages of the civil service list. The budget deficit was turned into a surplus in six months. The responsibility for seeing that these things are done lies squarely upon the people, and the extent to which they will make themselves articulate in public affairs and in politics."

The Soldiers' Bonus

Speaking of the soldiers' bonus he said:

"...the cowardice and inefficiency of Congress has never been more glaring than during the present session. If any proof is needed to substantiate this statement, I point to the 145 Congressmen (134 Democrats and 11 Republicans and I Farm Laborite) who have just signed the necessary document to force a vote on the Soldiers' Bonus Bill. It took only the presence of scattered bands of a few irresponsible veterans (estimated at 6000 out of a total of 4,300,000) lobbying among them to drive or frighten them into signing what they must know is to promote an unsound and improper measure at this critical time."

In his closing he said "Is it too late for us to save the situation and restore confidence in this country? No, it is not—emphatically No, provided we have the same intelligent administration of our public affairs that any prudent man would use in business."

"One of the controlling reasons for believing that it is not too late to save the situation in the United States is the result achieved in England under financial conditions vastly more difficult than those with which we are now confronted. England's national expenditures had led the country into a situation where the internal debt was ten times the annual public revenue and one and one-half times her national income."

"When the people of England awoke to their perilous situation they installed a new government committed to most drastic economies, including reduction of the dole and cutting the wages of the civil service list. The budget deficit was turned into a surplus in six months. The responsibility for seeing that these things are done lies squarely upon the people, and the extent to which they will make themselves articulate in public affairs and in politics."

Decision Reached to Build Gym if Possible

After hearing the reports of the Memorial Fund Committee, Memorial Fund Special Gifts Committee and Memorial Fund Treasurer the Alumni Council at its annual meeting June 10 stood by the vote passed at a meeting April 24 instructing the Memorial Building Committee to proceed with the development of plans looking forward to the construction of the Gymnasium this season if possible. The very latest floor plans and elevations were on display at the meeting having been received that day. The cooperation of alumni in making payments on their subscriptions is urgently needed to assure building this year.

Memorial Fund Report

Arthur L. Deering '12, chairman of the Memorial Fund Committee, presented a report which showed that a total of 402 payments, amounting to $5,999.96 had been received since June 1, 1931. Sections of the report are as follows:

"Since June 1, 1931 a total of 402 payments amounting to $5,999.96 has been collected on pledges. To many, and most of all to your committee this is very disappointing. After sending one notice last fall, it seemed best to discontinue the regular follow up because of the meagre returns and the number who wrote stating they could not make a payment. Since then, economic conditions have become worse. The income has been conserved, and alumni who still have subscriptions due, have not been constantly reminded, during a time when they are unusually sensitive about their financial condition."

"As the plans for the Memorial Gymnasium began to reach the final stages, the Memorial Fund Executive Committee voted to start a semi-intensive effort to secure the $30,000 needed to assure construction this season. It was decided to—

1—Raise as much as possible from rank and file unpaid subscriptions
2—Request payment of special gift subscriptions
3—Endeavor to interest a few of the special gifts prospects who had not yet subscribed to make gifts totaling about $15,000.
4—Seek a few additional subscriptions from a specially selected group who had subscribed once and paid
   in, and there are now outstanding some 2,390 subscriptions having balance due of $185,293.49

Memorial Fund Treasurer

Harry E. Sutton, '09
Chairman of Special Gifts Committee and during absence of W. McC Sawyer, Chairman of Memorial Building Committee
Delivered charge to Seniors at Alumni banquet

Memorial Building Committee

William McC Sawyer '01 of Bangor, chairman of the Memorial Building Committee, was present at the Council meeting and took part in the discussion but having been absent because of ill health the report was made by Harry E. Sutton who had been acting chairman of the Building Committee in the absence of Mr. Sawyer.

The report indicated that several sets of plans had been prepared and that he believed now they have arrived at a satisfactory set of floor plans. If these plans are approved by the members of the Memorial Building Committee, as is expected, the architects will proceed at once with detailed specifications, after which bids will be secured. In accordance with the vote of the Alumni Council a contract or contracts may be let subject to the approval of the Alumni Council Executive Committee and to the Board of Trustees Committee on Conference. It is unlikely that construction can be started earlier than August 15 or September 1, 1932 if the bids are low enough to warrant proceeding with construction this year.

Prize Speaking Contest

Fifty-five high school students gathered at the University on Friday, May 13, with eight emerging as winners of the Annual University of Maine Prize Speaking Contest. Four types of speaking were represented—declamation, extemporaneous speaking, humorous reading, and serious reading. Prizes of ten dollars and three dollars, first and second places respectively, were awarded in each division. On the following day winners spoke their selections over WLBZ.

Delivered charge to Seniors at Alumni banquet

Memorial Fund Treasurer

The annual report of the Treasurer of the Memorial Fund, Ralph Whittier '02 was submitted to the Council and approved, this report having been previously audited.

During the year the total income was $10,761.28 of which $4,801.32 came from interest. Expenditures for the period were $1,337.77 of which $500 was a transfer to the Memorial Building Committee. The present status of the account is as follows:

Permanent Committee on Song Book Advised

To the Alumni Council

The Song-Book Committee hereby reports the completion of its commission to get out a new book. A considerable mass of material was on hand a year ago, when the Council voted to go ahead with the enterprise. The numbers from the old book which received a decisive vote, in the poll invited through the columns of the Alumnus, have been retained. The objectionable texts, which first prompted the edition of a new book, have been revised or replaced to eliminate the points in question. The prize songs and all of the numbers which have appeared in single editions have been included.

Of the new material, some of the numbers had full musical arrangements, some partial arrangements, others no musical settings. The matter of publication rights for several of the tunes recommended by the verse authors proved an obstacle. Some rights and permissions were secured from the copyright owners, some could not be secured at all or only at prohibitive prices, and standard melodies were adapted in their stead. As many numbers were edited and included as the agreed retail price of one dollar would allow. There is still a considerable amount of material in manuscript, which may be made available for future books, through editing and publication rights.

All of the numbers are in engraved form and in storage for subsequent use. The expense of future editions will thus be greatly reduced. In fact all of the material in the book placed on the market this year, and much that is new, may be added to the next edition without raising the price of the book.

The committee's advice is that a permanent song-book committee be kept alive, through some plan of membership succession or rotation, commissioned to gather and edit material for future editions. The initial sale of the book has not been as large as would doubtless have been possible in a year of business prosperity, but it will not take many college years to absorb the present stock on hand. If a continually-functioning committee should exist, no delay would be encountered in getting out a new edition. Alumni and student talent for versification and musical composition should continually be sought and crystallized in song-book contributions.

I would take this occasion to thank the other members of the committee for their assistance and advice during the culmination of this enterprise, especially the Alumni Secretary, Mr. Crossland, who handled all of the business details, and also the publisher, Thornton W. Allen, for his painstaking interest and courtesy in meeting our desires.

Respectfully submitted,

A W Sprague, Chairman and Editor

Alumni Activities Fund Report

Joe W. Gerity '09, chairman of the Trustees of the Alumni Activities Fund, reported to the Alumni Association that the Fund now had $1467.63 on hand. Dimon Merrill of the class of 1911 was chosen as new Trustee.

In the report, Mr. Gerity pointed out that during the last three years the Fund had shown material growth, from $315 to the amount indicated above. Five classes contributed over $320 last year.

The purpose of this activity is to create as rapidly as possible a fund, the income from which may be used towards maintaining the General Alumni Association. At present the interest is being allowed to accrue.

There are five Trustees of the Fund. Mr. Dimon Merrill was chosen to serve five years. His home is in Norwood, Mass.

Alumni Council Opposed to Frosh in Varsity Sports

Opposition to participation of freshmen in varsity athletics and the announcement of plans to publish a new alumni directory were among the important matters discussed at the Alumni Council meeting, Friday, June 10. Other subjects are reported in detail by means of committee reports.

Alumni who were present at the Council Meeting are as follows: A. L. Deering '12, President; H. Cooper '15, C. P. Crowell '98, J. L. Ober '13, Mrs. W. F. Schoppe '08, H. E. Sutton '09, J. E. Toman '16, A. E. Silver '02, R. W. DeWolfe '07, R. H. Fogler '15, Council members, and M. D. Jones '12, clerk, and P. D. Bray '14, treasurer.

Reports were received from the Treasurer, Finance Committee, Song Book Committee, Faculty Retirement, Memorial Fund Committee, Scholarship and Loan Fund, Athletic Board, Univeristy Store, Alumni Activities, Special Speakers and Union Building Requirements Committee.

The action which the Council took regarding freshmen participating in athletics is as follows: "that it is the unanimous opinion of the Alumni Council that freshmen should not represent the University in varsity athletics and that the secretary be instructed to advise the chairman and the alumni members of the Athletic Board of this action."

Announcement was made that the Trustees of the University had appropriated funds whereby a new directory could be published during 1932-33. Report was also made that the Trustees had felt it unwise at this time to make funds available to compile and publish a University War Record.

Details concerning the work of several of these committees are given in committee reports, published elsewhere in this number of the Alumnus.

Treasurer's Annual Report

Paul D. Bray '14, treasurer of the Alumni Association, in submitting his report as treasurer, pointed out that the income from advertising this year had exceeded the budget but that there had been a serious decrease in income from alumni dues, that expenditures for the year had been about $1000 below the budget but that income had fallen off $1500 which meant an estimated operating loss for the total year, ending June 30, of about $515.

The report which follows is for the eleven months' period ending May 31.

The estimated receipts for June were

$634 and the estimated expenditures including bills payable on hand were $2880 which would leave an estimated balance at the close of the fiscal year, June 30, of $1143

Committee on Campus Planning
and Landscaping Reports

Arthur L. Deering '12, President of the General Alumni Association and chairman of the alumni committee on Campus Planning and Landscaping, reported to the Alumni Council and later to the annual meeting of the General Alumni Association that the University had employed Olmstead Brothers of Brookline, Massachusetts to prepare a new campus plan and develop a landscaping plan. This information comes from authoritative statement by President Boardman.

It will be very gratifying to many alumni who have been much concerned about landscaping the campus to know that the University is now working on this important matter and that the Company has already prepared a preliminary plan which was submitted to the Trustees at their June meeting.

Mr. Deering in reporting to the Council pointed out that the Alumni Committee had conferred with the Trustee Committee on landscaping and campus planning, the members of which are Trustees Buck, Chase and Gyger. It was pointed out that before a landscaping plan can be prepared it is necessary to develop the campus plan. It is understood that any landscaping plan which is adopted will be on a long time basis. It is more than of passing interest to know that Olmstead Brothers prepared a landscaping plan for the University not many years after it was established.

The Council accepted the report and continued the committee.

Remember HOMECOMING—Day of last football game next fall.

CLASS OF 1882

Left to right—Will R. Howard, Belfast; Daniel C. Woodward, Lowell, Mass; Charles S. Bickford, Belfast; George R. Fuller, Southwest Harbor; Alfred J. Keith, Old Town; James H. Patten, Bar Harbor.
For the second year in succession, Maine and Colby tied for the state championship in baseball. Both teams won 6 games and lost 3, while last year they won 7 and lost 4. With the outcome of the states series doubtful at the beginning of the season, Coach Bruce found several pitchers during the season who exceeded the expectations of the baseball public, and who did their part towards bringing the season to a successful conclusion, including Bagley, Romansky, Nutting, and Hall. Heavy hitting and a surprising number of stolen bases also added weight towards the final score. The final season score shows that Maine received 82 runs to her opponents' 76.

Maine 7—Bowdoin 6

On April 30, the Maine Bears slipped over their first series win when they topped Bowdoin in a close game, both sides seeming to be fairly evenly matched.

"Blondie" Hincks, '32
Honorary Co-Captain of Baseball

Maine 4—Bates 2

May 6 witnessed the second state series win, when a heavy-hitting Maine eleven defeated Bates on Alumni Field, 4 to 2. Smith, '32, made three two-base hits, while McCabe, '32, Hincks, '32, and Hall, '33, each made one two-base hit.

Maine 2—Colby 3

Foster, Colby freshman pitcher, worked as a jinx against the Bears on May 7, when Colby won with the score of 2 to 3, also on Alumni Field. Both McCabe and Abbott, '33, made two-base hits, but these with others were not well enough bunched to pile up a large score.

Maine 12—Bowdoin 2

At Brunswick on May 12, the Pale Blue buried Bowdoin 12 to 2. Hincks, '32, hit a homer, Kiszokan, '32, connected for a three-bagger, two-base hits went to McCabe and Smith. One of the features of the game was a double play, Hallgren, '32, to Lewis, '33, to Smith.

Maine 5—Bates 11

Bates pulled the wool over the Maine Bears' eyes on May 13 at Lewiston when they won 11 to 5. Both Kiszokan and Talbot made three-base hits, but this was not enough to equal their opponent's heavy slugging.

Maine 9—Colby 1

On May 19 the Maine eleven, playing on the home field, defeated Colby 9 to 1. Lewis '33 and Bagley '32 both hit homers, while Smith and Hallgren received a double apace. A sweet double play also added to the spice of the game—Hallgren to Lewis to Smith.

Maine 10—Bowdoin 9

Hall Hall '32 was the hero of the game on May 24 with Bowdoin when in an extra inning he slammed a home run into right field, thus winning an otherwise close ball game, 10 to 9. Abbott '33 also made a homer during the game.

Maine 9—Colby 7

Coming into the home stretch of the state series, Maine on May 25 blasted out a crucial win over Colby, 9 to 7. Up against Colby's pitching ace, Foster, once more, the Maine eleven retired him with eight runs and nine hits in five innings. Kiszokan received a triple and Nutting a double, with men on the bags both times. Two double plays featured the game—Lewis to Hallgren to Smith, and Hallgren to Smith to McCabe.

Maine 3—Bates 4

In a closely fought battle, Bates on May 28 won the last game of the season, thus retiring the hopes of the Bear for the state championship. Nutting, Maine pitcher, was retired in the tenth inning in favor of Bagley in the pitching box. Both Hincks and Kiszokan hit homers, while Hincks and Smith received a double apace.

Bowdoin Captures Track Crown

A strong and well-balanced Bowdoin track team swept to supremacy in the State Track Meet May 14 held at Garcelon Field, Lewiston. Bowdoin garnered 57 ½ points to Maine's 37, Bates 30 ½, and Colby's 30. Two Bowdoin men, McLaughlin and Stanwood, scored 31 of their team's total points. Maine was the only team to make a clean sweep of any event, when Fickett, Alley, and Favor, in that order, shut out all rivals in the discus throw. An inch and a half was added to the pole vault record when two team mates, Carl Webb and Bill Hathaway, soared 12 feet, 2½ inches to give Maine a tie for first-place honors. Victory and a new record in the low hurdles might easily have gone to Maine's new promising Sophomoreometer toppler, Bill Florio, who was leading McLaughlin of Bowdoin by a yard as they approached the next to the last fence. Florio cleared it cleanly, but his left knee buckled slightly upon landing, and before he could regain his stride, he had been passed. Russ Shaw registered Maine's only first place in the running events by leading the field home in the half mile.

**With the Local Associations**

**Annual Meeting in Worcester**

The 12th annual meeting of the Worcester County Alumni Association was held April 13, 1932, at the Lobster Garden banquet rooms with 28 present. John Mahoney, President, presided. Charles Crossland and Dean Cloke were the guest speakers and all were much interested to hear of recent developments at the University.

New officers elected were: President, Leon E. Seekins ’20, Vice-president, Harry A Davis ’00, Secretary and Treasurer, Ruth M. Taylor. A committee was appointed to arrange for a big time at the Maine-Holy Cross football game, Oct 8, 1932. This consists of George Hanson ’17, Dr. Masterson ’10, John Mahoney ’27, Preston Hall ’15, and Ruth Taylor ’30.

All Massachusetts alumni chapters are asked to co-operate with us in making the get-together a huge success.

**Portland Alumnae Meet**

The Portland Club of University of Maine Women met at the Y.W.C.A. on May 5 with Hazel Sparrow and Hazel Sawyer acting as hostesses. At the business meeting the President read a letter from President Boardman reporting that the Victoria Weeks Hacker watch had been awarded to Margaret Collins Church. It was voted to have our June meeting in the form of a picnic.

We were much pleased to have with us Miss Elizabeth Foster, acting dean of women at the University. She brought us the latest news from the campus and the faculty, helping us to realize how Maine is growing in size, beauty, and equipment.

Dorothy Henderson, Sec’y

**Northern Ohioans Have Picnic**

The Northern Ohio Alumni Association held its annual picnic at Twin Lakes, Ohio on Saturday June 11th. The attendance was very gratifying with seventeen alumni present, who with their families and friends, brought the total up to fifty-six persons.

Weather conditions were ideal and we were pleased to be able to make such a favorable showing at this time. Supper was served about six o’clock and the meeting adjourned shortly before eight o’clock. It is hoped that another summer meeting may be held later in the season.

The following alumni were present: F. T. Vose ’00, Clement Whittier ’01, Philip Dorticos ’04, A. M. Knowles ’04, W. E. Scott ’04, H. A. Knowlton ’07, B. L. Potter ’09, R. B. Cruickshank ’10, C. G. Cummings ’10, A. C. Goodnow ’11, W. R. Witham ’12, Mrs. B. E. Barrett ’15, B. E. Barrett ’16, C. A. McKeean ’23, C. L. Beal ’24, A. O. Willey ’24, E. L. Staples ’27.

Knox County:

The annual meeting of the Knox County Alumni Association was held Tuesday evening, May 17, at the Copper Kettle at Rockland with 26 present. President Ralph C. Wentworth appointed Harold Nash, Miss Ramona Leadbetter, and Elmer True as nominating committee. Following a delicious supper, assembly singing of Maine songs was enjoyed under the leadership of Jerome Burrows with Mrs. Helen Wentworth at the piano. Dr. Charles Dickenson of the psychology department at the University was the speaker of the evening and gave a most interesting and entertaining talk on “Psychology in its Relation to Teaching.” He also spoke of the new addition to the Arts and Sciences building which is being planned.

The nominating committee presented the following list of officers, who were duly elected: President, Alan L. Bird 1900; Vice-President, John J. Tewksbury ’06; Secretary-Treasurer, Katherine A. Veazie ’30. Executive committee: Ralph Buzzell ’13, Dr. Burton Flanders ’08; F. L. Morse ’22.

Plans were discussed for a picnic to be held this summer and Jerome Burrows was appointed to look after the arrangements.

Katherine Veazie ’30, Sec.

---

**Recent Activities of Lehigh Valley**

Mr. and Mrs. Woodsum were once more hosts to members of the Lehigh Valley Alumni Association at a baked bean and brown bread supper at their home on Lehigh Mountain, Saturday, May 12. The nineteen members who attended pronounced the affair a huge success.

Invitations to the annual picnic of the Philadelphia chapter were distributed, and ways and means of getting there were discussed, also plans were made for our own chapter picnic to be held at Kunkle’s Grove at Palmerton on Sunday, June 26.

**Philadelphians Have Ripe, Luscious Beans**

The Maine-Bates outing held at the home of "Shy" Hayes June 4th was a huge success. About eighty (80) were in attendance and enjoyed themselves by tennis, quoits and an impromptu ball game.

Aside from the fact that Bill Fogler sprained a muscle in his leg, there were no accidents to mar the happiness of the party.

The principal feature of the afternoon was the bean raising. Mr. Hayes had previously arranged a bean hole at the rear of his garage and had placed therein the night previous a large kettle of beans and necessary embers to properly cook same. At six o’clock the ripe luscious beans were duly extracted to the tune of... (Continued on Page 160)
What Is Happening Over-Seas...?
Special Events in Europe This Summer

The magnetic continent of Europe is this year seething with intense activity. Conferences, parleys and diplomatic events of high significance will draw alert-minded students of international affairs across the Atlantic.

There are other lures too. This year, as in the past, Europe will offer her visitors a delightful array of events—festivals, art exhibits, conventions, carnivals, fairs, sport tournaments, races, opera and processions. Indexes of the charm, variety, and interest of life abroad.

The summary of foreign events this summer is interesting as information of what is going on across the sea, and, if you are planning to go to Europe, may aid you in making out your itinerary to include the events of especial personal interest to you.

For more detailed information about these foreign events, we suggest you write or call at any office of the American Express Company, or the alumni secretary of this magazine. The Intercollegiate Alumni Extension Service appointed the American Express Company as their Official Travel Bureau in order to aid alumni when they travel, and you may feel free to approach them on any travel problems or bookings, and to use their United States and foreign offices as your headquarters.

May 14 to Aug 7—Modern Housing Exhibit, Berlin.
June 1-30—Fourth International Book Fair, Florence.
June 20—All-England Lawn Tennis Championships, Wimbledon near London.
June 21—Dutch dances in the Municipal Theatre, Amsterdam.
June 27-Sept 10—Shakespeare Dramatic Festival, Stratford-on-Avon.
July 24—International Yacht Races, Calesa.
Aug. 4—"The Rhine in Flames" Illumination of the Rhine at Siebengebirge.
Near Bonn.
Aug. 12—Grouse shooting begins.
Aug. 1 & 2—Festival of the "Pardon of Assisi," Assisi.
Sailing-boat regattas and swimming competitions, Sorrento.
Sept. 22—Opening of the Fifth Intl Aviation Exhibition, Prague.

Constitution Amended

At the meeting of the General Alumni Association on Saturday, reports of several committees mentioned were received and special votes of appreciation were extended to Ralph Whitter in recognition of his efficient and outstanding service as treasurer of the Memorial Fund during a time when there has been so much uncertainty as to the banks.

To T. A. Sparrow who retires as a member of the Finance Committee after three years' service, a vote of appreciation was also passed.

The Constitution of the association was amended whereby the number of council members at large is increased from eleven to thirteen and the number of alumnæ representatives from one to three.

The results of elections are reported in another article.

FRANK P. WASHBURN
Reappointed to Board of Trustees

(Continued from Page 157)

Report of Finance Committee

b—The cost of raising dues was 10 9%, exclusive of clerical work involved. This is slightly higher than recent years, the usual figure being about 10%.

c—Money income from dues was 24 2% below 1930-31 and 23% below the budget.

d—Group V "Never-paids" was for the first time in several years a "losing" proposition, the Association failed to get back money expended ($87.4 vs. $75). This group (2998) constitutes 42% of the list. 1618 or 54% of the 2998 are graduates.

Mr. Sparrow having served three years on the committee retires this year. He will be succeeded by Harold M. Pierce '19 as chairman who has served two years.

Ballard F. Keith '08 is the third member of the committee.

When driving through Maine this summer be sure to drop in on the campus and see the many changes.

(Continued from Page 159)

Alumni Day Registration

The Maine Agricultural Experiment Station has recently published two publications: Sources of Nitrogen for Potato Fertilizers in Aroostook County, by B. E. Brown and E. R. Tobey '11, and Blueberry and Huckleberry Insects, by C. R. Phupps.

The December issue of the Western Society of Engineers Bulletin contained an article entitled, The Old Grad, by Arthur R. Lord. Mr. Lord set forth in his usual fascinating way that "the situation of the old grad is far from hopeless."

(Continued on Page 163)

Philadelphia Association

a movie camera and were enjoyed by all. The Philadelphia Chapter owes many thanks to Mr. and Mrs. Hayes as being the perfect host and hostess. A great portion of the success of the party was due to the untiring efforts of Mr. Ladner and Mr. Woodsum in arranging details and engineering the job.

Carl B. Eastman, '25, Sec'y
"The Goodly Heritage"

The Goodly Heritage, a new book by Mary Ellen Chase '09, head of the English Department at Smith College, is scheduled to appear September 23, under the impress of Henry Holt and Company, of New York. This publication is of considerable length—over 80,000 words—and is a social history of the Maine coast during the last century, with special emphasis on the nineties. It is written in autobiographical form and contains, as well

Carl P. Dennett, '02
Chief Speaker at Alumni banquet, whose speech was most instructive and well received

as personal experiences, some valuable and interesting records and papers relating to the Puritan tradition of Maine and also the seafaring men. The book emphasizes the traditions that really made coast history the classical in education, the Puritan in religion, the seafaring in industry

Edward E. Chase '13 is the author of a pamphlet entitled Restore Real Representative Government. In this work, Mr. Chase lists the ways in which the Republican Party may make itself successful in the coming elections

Boston College Wins New Englands

When Stanwood of Bowdoin fell in his hurdle race, Bowdoin's chances at the New England crown fell also, as Boston College sprung a surprise to amass 20 points to the former's 19. Brown occupied third place, with Maine and Holy Cross tied for fifth with 12 points apiece. The remaining points were distributed as follows: New Hampshire and Springfield 11 apiece, Bates and Wesleyan 8 each.

Bill Floring ruined whatever chances Bowdoin had of winning the meet when in a beautiful race he beat out McLauhin to the finish, winning with the record time of 24½ seconds (new Brown field record). Favor '34 got third in the 16-pound hammer throw; Fickett '32 a third in the discus; Webb and Hathaway tied for third in the pole vault.

Alumni and Faculty Write

Recent publications of the University of Maine Studies include the following issues by Maine alumni and faculty members: Whittier's Use of the Bible by Dr. James Stacy Stevens; Constantia—a Study of the Life and Works of Judith Sargent Murray, 1751-1820 by Vena Bernadette Field; The Penobscot Boom and The Development of the West Branch of the Penobscot River for Log Driving, by Alfred Geer Hempstead, A Portrait of the Mill

Governor William Tudor Gardiner who received an honorary degree at the Alumni banquet and whose speech of acceptance was applauded by all. His cooperation in aiding the Mill Tax for the University has been outstanding

Iunal Church of Shakers, by Edward F. Dow, Phelena—The Life and Works of Sarah Wentworth Morton, 1739-1856, by Emily Pendleton '26, and Milton Ellis '07; Local Government in Penobscot County, by Edmund Hobart Bartlett '26; The Influence of the Latin Elegists on English Lyric, by Pauline Aiken

Readings in the History of Education in Maine is a source book compiled by Dr. Ava A. Chadbourne '15, of the department of education, it contains material chosen from books already existing on the subject of education in Maine and is designed primarily to familiarize the teacher with facts and events needed for the background of Maine history. Since the history of Maine is a required subject in the public schools of the State, and as material available up to the present time has been very limited, Dr. Chadbourne's new book will fill a crying need throughout the public school system of Maine
Skulls Tap 9 Juniors

Nine new Skulls were tapped immediately following the Junior chapel exercises on May 6. The new members are all outstanding in athletics, and include Monroe Romansky, T84, of Hartford, Conn.; Freeman Webb, PHK, of Houlton, Herbert Lewis, B0II, of Wollaston, Mass, Swen Hallgren, ZAE, of Portland, John Wilson, ZAE, of Lowell, Mass, Samuel Calderwood, ZAE, of Roxbury, Mass; Melbourne Means, AXA, of Dedford, Gilbert Robertshaw, ATO, of Union Village, R.I., Harry Booth, PHK, of Lewiston.

EVERTT GUNNING, ’32
President of Senior Class as Members Become Alumni

Arts and Sciences To Be Named Stevens Hall

As announced by President H. S. Boardman, the Board of Trustees recently announced their approval of the exterior plans of two new wings for the Arts and Sciences building, located east of Alumni Hall. Upon completion of the two new wings in the fall, the building will be renamed Stevens Hall, in honor of Dean J. S. Stevens, recently resigned dean of the Arts and Sciences College.

The two new wings will house the departments of economics, psychology, school of education, department of Spanish and Italian, and the music department. Thus, for the first time in the history of the University, the College of Arts and Sciences will be housed entirely, with the exception of the pure sciences, under one roof. These new accommodations, it is expected, will prove of much value, both to the administration of the college and the convenience of faculty and students.

Resignation of Dr. Colvin

The retirement of Miss Caroline Colvin, head of the department of history and government, was announced recently by President H. S. Boardman. For thirty years Miss Colvin has been an integral and familiar figure in the life of the University; her retirement from active teaching will be keenly felt in the years to come. A native of Indiana, Miss Colvin received her first degree from the University of Indiana in 1893, and her Ph.D. degree from the University of Pennsylvania in 1901. She came to the University in 1902, and in 1906 became a full professor, holding the same position up to the present time. From 1923 to 1927 she was dean of women. Miss Colvin is a member of the American History Association, the Medieval Academy of America, the American Academy of Political and Social Science, the Royal Society of Antiquaries of Ireland, the Maine Historical Society, the American Society of University Women, Phi Beta Kappa, and Phi Kappa Phi.

Skulls Abolish Bag Scrap

Senior Skulls recently made a major change in the freshman rules for next fall in abolishing the bag scrap between freshmen and sophomores. A football game between the two classes is now contemplated and will probably go into effect as a rule upon permission from authorities higher up. A rope pull or similar event will take the place of the bag scrap.

Dr. Russell Retires

Dr. Fremont Lincoln Russell, professor of bacteriology and veterinary science in the College of Agriculture, will retire at the end of the present academic year, according to announcement of President Boardman. A graduate of The Maine State College in 1885, Dr. Russell received a degree in veterinary surgery at the College of Veterinary Surgeons of New York in 1888. He has been an instructor at the University since 1889, and a professor since 1896. Dr. Russell is a member of Phi Kappa Phi, the United States Veterinary Association, the Maine Veterinary Association, and the Society of American Bacteriologists.

Have you paid your Alumni dues?

Alumni To Take Part in Trials

Three alumni of the University and two undergraduates have been invited to take part in the time trials for the Olympics, to be held in Cambridge, June 17 and 18. Dean L. S. Corbett, dean of men, has also been selected as an official timer for these events.

The alumni planning to attend the time trials include Don Favor ’34, in the hammer throw. Bill Gowell ’30, discus champion, will also take part in his event. Rip Black ’30, former New England and state hammer champion, has been working out under the eye of Johnny Magee, Bowdoin track mentor, and will enter his specialty. Bud Lindsay ’30, former national cross country champion, will compete in the steeple chase. Bill Floring, Pale Blue low hurdler, was invited to attend the meet, but, because of a change in distance on the Cambridge track to which he is unaccustomed, he has decided not to compete.

MARGARET CHURCHILL, ’32
Received Watch Award

Three fraternity houses were victims of burglars during the night of May 18, including Phi Gamma Delta, Alpha Tau Omega, and Sigma Alpha Epsilon. Five days before the Sigma Chi House was also visited at night and suffered to the tune of $30.00.

*Class years at the left · · · Reunion years across the top*
They're clicking with millions . . . You see more Chesterfields smoked every day...Here's why...

They're milder. They contain the mildest tobaccos that money can buy.

They taste better. Rich aroma of Turkish tobacco and mellow sweetness of Domestic.

They're pure. Everything that goes into them is tested by expert chemists.

They satisfy. You break open a clean, tight-sealed package. You light up a well-filled cigarette. They Satisfy! All you could ask for.

Hear the Chesterfield Radio Program. Every night except Sunday. Columbia network. See local newspaper for time.
