Alumni Hall Extensively Renovated

By James E. DeCourcy '34

A surprise that may lead to bewilderment lies in store for Maine alumni who have not returned to the campus since last spring, for Alumni Hall, the heart of University activity for over thirty years, has been completely renovated. Alto the exterior construction has not been touched, the interior is so much different, that it may almost be considered as new.

The first change that catches the eye of the returning alumnus is the paint job that has been done on the old building. All the trimming and the cupola have been repainted in white, the effect being to make the entire outside of the hall look like new. The change of color from a dull brown to a clean white gives the appearance of new life and activity.

Upon entering Alumni Hall from the front, the visitor will discover two new sets of doors, the outer ones being heavy permanent doors, green with white trimmings, and the inner ones stained oak with windows of shatterproof glass.

Then the surprise of surprises meets the eye. On the left of the hall, where formerly the class bulletin boards were located, there is another set of oak doors, and at the end of that wall, where the entrance to the Treasury offices was, is a similar set.

These doors lead to a vestibule reminding one of a bank building, for along the wall are teller's windows, and at the right end is a new set of mail boxes. Looking through the teller's windows, the alumnus will find a thoroughly modern office room, with desks neatly arranged, a telephone exchange in the foreground, and a clean looking composition floor. In the rear of this spacious room there is a private office for the Treasurer, Frederick S Youngs.

Continuing to the rear of the building, in the main passage, we discover two heavy iron doors where the University's trophy case stood for many years. These doors lead to a large fireproof vault, for important University records.

Prof. Stanley (Wally) Wallace's office, the shower rooms, and the University storerooms have been converted, and house the headquarters of the Department of Buildings and Grounds. Here we find a new lunchroom for the men who keep the campus beautiful, a plumbing shop, and a large stock room. The floor in the rear of this section has been lowered two and a half feet to make the stock room high enough to accommodate the necessary materials stored there.

President Now on Second Floor

Now to go upstairs and take a look at the old chapel. By this time the returning alumnus will no longer be surprised at big changes, and will take them more or less as a matter of course. The stairways have been made less steep by the addition of a landing slightly more than half way up. If the alumnus attempts to enter the chapel through what was its front door he finds that the front door is no longer there.

At the head of those stairs is a door on which one finds an impressive looking glass sign reading "President." Behind that door there are three rooms, one large one, one medium sized one, and one small one. They occupy the space formerly taken up by the stage, and perhaps slightly more. The large room is President Boardman's office, the medium sized room the office of his secretary, Miss Johnson, and the small room is a record room.

Little Theatre

The answer to that question will be found upon walking straight ahead into what was formerly the President's office. That office is now Mr. Gannett's. Adjoining the Registrar's department, we find offices occupied by Dean Hart. The Dean has lost room through the renovations, since a new stairway cuts his office off at the place where the old stairway was located, but at the rear of his office he has acquired the office formerly occupied by the President's secretary.

Continuing to the rear of the building, in the main passage, we discover two heavy iron doors where the University's trophy case stood for many years. These doors lead to a large fireproof vault, for important University records.

Prof. Stanley (Wally) Wallace's office, the shower rooms, and the University storerooms have been converted, and house the headquarters of the Department of Buildings and Grounds. Here we find a new lunchroom for the men who keep the campus beautiful, a plumbing shop, and a large stock room. The floor in the rear of this section has been lowered two and a half feet to make the stock room high enough to accommodate the necessary materials stored there.

Girls' Gymnasium

Next the gym. It has now been assigned solely for the use of women students for physical education work. In the first place the old track has been removed, giving the appearance of a great deal more room. Then the floor has been relaid. It took 7000 feet of lumber to make the new floor, which is double, and was especially levelled. What was formerly the end of the track at the West end of the gym, is the space occupied by the Masque dressing rooms, and a dark room for projection of motion pictures.

At the rear of the gymnasium, the space formerly used as an athletic stock room, are the headquarters of the Department of Physical Education for Women. Here there are five rooms and a closet including the office of Miss Lengel '27, in charge of Women's Physical Education and her assistant, Miss Marion Rogers '30, class rooms, and supply rooms. A new stairway has been constructed leading to this section of the building from outside, and the old stairway, that led to the stock room and was often crowded by the more poverty stricken students on the evenings of formal dances in Alumni Hall, has been removed. On the ground floor in the rear of the building, the space formerly used for service departments, plumbing, painting and electrical, a fine shower room has been installed.
Deering Named Agricultural Dean

Arthur L. Deering '12, whose appointment as dean of the College of Agriculture became effective with the announcement by President Boardman, November 11, is one of the most widely known men in the agriculture of Maine today and is probably almost equally well known among alumni because of his services to the General Alumni Association in several capacities. He succeeds Dean Leon S. Merrill, whose death was reported in the October Alumnus.

Dean Deering is eminently fitted for his new position. He has always been identified with the agriculture of Maine. He was born and raised on a farm, graduated from the College of Agriculture in 1912, taught school for a short time, after which he became County Agricultural Agent in Kennebec County, which position he filled with distinction.

In 1920 he was placed in charge of all County Agent work in Maine and in 1930 was given the added responsibility of assistant director of Extension work. A year later, he was promoted to the position of Director of the Extension Service, having a staff of more than fifty persons engaged in rural education of all phases of agriculture, forestry, and home economics. He is to continue as Director of Extension Service.

Both President Boardman and Dean Deering have received scores of congratulatory messages on this appointment. One is perhaps especially significant, which came to Glenn K. Rule, Editor of the Alumnus. It reads: "We congratulate the University on securing the services of Arthur Deering as Dean. He has made one of the best Extension Directors in the Country."

Dean Deering, known better to his alumni friends and others as Arthur, is serving his third year as president of the General Alumni Association and has been a member of the Alumni Council since 1912. He has been or is a member of several important committees, including chairmanship of the Memorial Fund Committee which raised money to build the Memorial Gymnasium, and of the Campus Planning and Landscaping.

As an undergraduate, the new dean was particularly active in athletics, making his letter in track and relay, being captain of the varsity relay team. He was also president of the Agricultural Club, of the Y.M.C.A., and was elected to Alpha Zeta, honorary agricultural fraternity.

He has served in many capacities other than those which were a part of his regular work or for the Alumni Association. Some of these duties included Field Secretary for the Kennebec County Food Production Committee during the World War; Secretary of the Maine Farm Bureau Federation for ten years; member of the M.C.A. Advisory Board; member of the State Y.M.C.A. Committee; State Chairman of the Maine Children's Council; member of the Maine Agricultural Experiment Station Council; member of the Executive Committee of the Regional Agricultural Credit Corporation of Bangor, and several others.

Mr. Deering is married. Mrs. Deering has been active in the Women's Club of Orono and has been prominently identified with musical events in the town. They have four children.

Alumni Council Holds Regular Fall Meeting

Eleven members and officers of the Alumni Council were present at the regular fall meeting of that organization held November 11, as a part of the Homecoming Program. Committee reports were received and appointment of other committees was authorized.

Arthur L. Deering '12, president of the General Alumni Association, presided. First he introduced the "freshman" members of the Council who were present—F. Drummond Freese '15 and Joseph A. McCusker '17.

Reports were received from the Association Treasurer, Dues Committee, Memorial Fund Committee, Memorial Building Committee, Memorial Fund and Memorial Building Committee Treasurer, and the Song Committee.

After some discussion, two committees were authorized to be appointed. One to study the matter of a swimming pool at the University and the other to work in cooperation with a faculty committee to be appointed by the president of the University, to determine what, if anything, can be done toward establishing a Placement Service at the University.

Those who attended the meeting were: A. L. Deering '12, Orro; G. S. Williams '05, Augusta; vice-president; J. E. Totman '16, Baltimore, Md.; Mrs. Merrill Bowles '21, Bangor; R. E. McKown '17, Bar Harbor; C. P. Crowell '98, Bangor; F. D. Freese '15, Bangor; J. A. McCusker '17, Boston; W. R. Thompson '14, Caribou; R. W. DeWolfe '07, Portland; and Harry D. Watson '18, Orro.

Magee Elected President University Store Company

John H. Magee '17, of Bangor, assistant professor of economics at the University and president of the J. F. Singleton Company of Bangor, was elected president of the University Store Company for the ensuing year by the directors of the Store, immediately following the annual stockholders meeting held in October.

Irv Irving Pierce, chief accountant of the University, was reelected treasurer and Harold Bruce '20, manager of the Store, was reelected clerk. Stockholders for the year are as follows: Representing alumni—F. Drummond Freese '15, Bangor; F. Donald Crowell '17, Bangor; C. E. Crossland '17, Orro; Robert N. Haskell '25, Bangor. Representing the University—James A. Gamett '08; William E. Darrows '02; Maurice D. Jones '12; John H. Magee '17. Representing the students—Donald Favor '34, president of the Athletic Association; Philip Parsons, senior class Athletic Board member; Milton MacBride '35, vice-president of the Athletic Association.

At the meeting of the stockholders, the annual report was reviewed. Total sales for the fiscal year were $57,235.62, a decrease of approximately 22 per cent over the preceding year. In spite of this serious decline, it was possible through reduction of salaries and reduction of sales staff, to end the year with an operating loss of but $20.78.

Directors were chosen for the ensuing year as follows: Alumni—R. N. Haskell, C. E. Crossland Faculty—J. H. Magee and M. D. Jones. Student—D. Favor.
Dr. Eugene B. Sanger and John T. Gyger were nominated by Governor Brann, November 13, to serve as trustees of the University for seven years. Their nominations have since been confirmed by the Governor's Council. Dr. Sanger succeeds William McC. Sawyer '01, of Bangor, whose term expired October 21, and Mr. Gyger succeeds himself. His term expired on the same date.

Dr. Sanger who is widely known both in Maine and outside has long been interested in the University. That interest dates back to a time when Mr. Farley was coach of athletic teams at the University. During his time here, Dr. Sanger served as physician to the athletic teams. Since then he has followed University activities closely and has been a regular attendant at all major athletic events. A talk with the Doctor soon reveals his interest in and knowledge of University affairs.

He is a native of Bangor and has made a reputation as a physician and surgeon, even as his father before him was a noted surgeon. He is a graduate of Phillips Exeter Academy, Yale University, and Columbia University, holding degrees of Ph.B., M.D., F.A.C.S. He served his internship in various hospitals in New York, after which he returned to Bangor to practice his profession.

He is a member of the surgical staff of the Eastern Maine General Hospital, Visiting Surgeon at the Children's Home, and Consulting Surgeon at Bangor State Hospital and Children's Hospital in Portland. He also is Medical Director of the Great Northern Paper Co. Of particular significance is the fact that he is a member of the Board of Governors of the American College of Surgeons. He is a member also of Penobscot County Medical Society, Maine Medical Society, and American Medical Society. During the War, he served as member of the Registration Board and the Draft Board without pay.

He has been active in several business enterprises in Bangor, being one of the founders and directors of the Merrill Trust Company, president of the Bangor Opera House, Inc., and other companies. He is a member of many social and college clubs and fraternal orders.

He has been much interested in municipal affairs and to some extent in politics, though he has never been an aspirant for public office. He served as Surgeon General on Governor Hill's staff.

In April, 1902, Dr. Sanger married Ethel Field who died in 1927, and later married Mildred Moore in January, 1929. He has three children.

Mr. Gyger's first appointment as Trustee was announced February 19, 1930, to fill a vacancy on the Board. Thus he has served only about three and a half years. His interest in the work of the University has been such as to make his reappointment highly desirable.

During his term as Trustee, he has served on several important committees, including one on Education and the other on Campus Planning and Landscaping. As reported in the April, 1930, Alumni, Mr. Gyger is a resident of Cumberland Foreside. He is a graduate of West Chester, Pa. State Teachers' College, and Teachers College, Columbia University. He is a member of many organizations.

More recently, he has been particularly active in Farm Bureau work in the State, being President of the Cumberland County Farm Bureau and an official of the State Federation. He also has served as chairman of important educational committees, local, county, and state, and is recognized as a leader in his field.

Alumni who are acquainted with Mr. Gyger and his record as Trustee, are highly pleased with his reappointment.

(Continued on Page 46)
Alumni Service Emblem Awarded to Chase '13

The awarding of the 1933 Alumni Service Emblem to Edward E. Chase '13, of Portland, by Arthur L. Deering '12, President of the General Alumni Association, was a feature of the Alumni-Faculty Homecoming Luncheon held in the new Memorial Gymnasium on November 11. This is the fourth emblem or "Pine Tree M" which has been awarded to alumni of the University in recognition of conspicuous and valuable service rendered to the University and to the Alumni Association.

In making the award Mr. Deering first mentioned some of the important points considered by judges in reaching their decision. They are the number of different types of services rendered or positions held with length and quality of service, support given to alumni and University projects, and success in life, profession or business. While these are not all the points considered they are important ones.

Mr. Chase has been a leading member of the Western Maine Association for many years, having served as president for three years. He was elected a member of the Alumni Council in June, 1923, and reelected for a second term in 1926. The following year he was chosen vice-president of the Alumni Association and chairman of the Alumni Council Executive Committee which position he held until 1929 when he resigned because of his appointment as Trustee of the University. He was chairman of both Memorial Fund campaigns in Cumberland County, and is a member of the Endowment and Donations Committee. While all these services are important it is doubtless true that his work in introducing and securing the passage of the Mill Tax Act through Maine Legislature in 1929 stands paramount.

Mr. Chase has served two terms in Legislature. He was chairman of the Governor's Committee appointed to study railroad problems in cooperation with other committees of New England States. These are but some of many services which he has rendered to the University and to the State.

(Continued from Page 45)

Homecoming Luncheon

interesting address. Some of the more important points which he set forth are mentioned in the following quotations.

"Essentially I plead for a mastery of the basic underlying essentials in undergraduate training—English, foreign languages (at least French and German), mathematics, the fundamental aspects of the several sciences, and other subjects that help to make up a well rounded program. My plea is for a more restricted course of required subjects, and less choice of electives; the elimination of most of the so-called informational courses, so characteristic of so many of the curricula in our colleges of agriculture and education; the inclusion of certain cultural items in professional courses, that individuals taking professional courses may have not only a knowledge of the basic facts appertaining to their professions, but also a grasp of the wider aspects of education."

In speaking of research at the University of Maine Dr. Merrill commented, "As far as possible within its budgetary limitations, the University should encourage research. In every educational center, no matter where located, there are infinite subjects from which to choose. Generally speaking, the teacher who does some research work, either officially or on his own initiative, is a better teacher because he must of necessity keep abreast of the discoveries of others in his own field, and his own discoveries actually inspire him to inspire others.

"The University of Maine may look to the future with confidence if it will continue to heed to the line and insist in the future, as in the past, that its graduates be equipped with a basic knowledge of good English, proper preparation in foreign languages, a thorough understanding of the basic underlying sciences, including mathematics, and a grasp of the essential cultural subjects—in other words, a basis of broad general training that will enable its graduates to compete in terms of equality with those of other institutions."

Jones Succeeds Cook As "M" Club President

Philip A. Jones '19, of Bangor, freshman football coach, was elected to succeed Horace J. Cook '10, of Auburn, as president of the alumni-undergraduate "M" Club, at the second annual meeting of the organization held November 10 in the new Memorial Gymnasium.

Richard F. Tallbot '07, of Orono, was elected vice-president, succeeding Arthur W. Abbott '14, of Playland, Rye, N. Y., and Theodore S. Curtis '23, faculty manager of athletics, was reelected secretary-treasurer.

In accordance with the constitution, the new president appointed a few days after the meeting, the following executive committee: Maynard Hincks '32, chairman; William C. Wells '31; Clifton A. Hall '10; Arthur L. Deering '12, and Joseph A. McCusker '17.

In opening the meeting, President Cook outlined some of the work which had been done or was planned. The constitution prepared by a committee was read and approved. Coach Jenkins and Dean L. S. Corbett, chairman of the Athletic Board, spoke, after which Philip Jones, chairman of the executive committee for the past year, brought several matters before the organization.

There were over fifty present. Following the business meeting, there was a social hour, during which refreshments were served and pictures of state series football games were shown.

The University of North Carolina loaned this Fall $25,000 to 350 students.

Reappointed Trustee

John T. Gyser

The Maine Alumnus
With The Local Associations

Hancock County to Meet Dec. 5

Alumni of Hancock County are planning another big dinner dance meeting for Dec. 5 at the Trenton Grange Hall.

President H. S. Boardman, Coach Brice and Dr. C. C. Little are to be the speakers. With the success of a similar meeting last year still being talked about, it is expected another large crowd will be on hand.

George Mahoney '29, Secretary

Atkinson to Address Bostonians

Leroy Atkinson, sports writer for the Boston Transcript, is to be the speaker at the first monthly meeting of the Boston Alumni Association at the Boston City Club, December 11 at 6:15. His topic will be, "The Maine Football Team."

Mr. Atkinson visited the University early in the fall and has followed the Maine team closely during the season.

Joe McCusker '17, East Braintree, Mass., is president and Hazen H. Ayer '24, 24 Federal Street, Boston, is secretary.

New York to Resume Weekly Luncheons

Alumni and alumnae in New York are invited to join in the weekly luncheons which will be resumed shortly on Tuesdays at 12:30 p.m. Uptown—Schruff’s Restaurant, Chrysler Building; Downtown—Plantsman’s Restaurant—124 Greenwich Street; Brooklyn—Candelight Restaurant, 114 Henry Street. Definite announcement will be made shortly as to when these luncheons will begin.

Maine joined with Bowdoin alumni in a direct wire report of the Bowdoin-Maine game, November 11, the meeting being held at the Amherst Club. We had a fine time cheering the team to victory. R. M. Boynton, President

Picnic of the Northern Ohio Maine Alumni

The U. of M. alumni association of Northern Ohio held their Fall meeting at South Chagrin Metropolitan Park near Cleveland on October 8.

For the first time the weather was against us but we nevertheless had a good time and enjoyed good "eats" before the rain came along.

The following were present with their families.

Alumni Meetings December

New York plans to resume monthly meetings in December

Portland Alumnae

The Portland Club of Maine Women met Thursday evening, November 2, at the Y.W.C.A. club room. Vice-president Mrs. Harry Henderson presided. At the business meeting plans were discussed for a Christmas party.

The Club plans to do something in memory of Louise Kincade, who, as well as Victoria Weeks Hacker, was a founder of the Club. They worked together. Nothing definite, however, has been decided upon.

The president elected a committee to present a slate of new officers to be voted upon in the December meeting. Mrs. George Davis, guest speaker, told of her trip to the Century of Progress Exposition.

Speakers for this occasion were Alumni Secretary Crossland, Bill Kenyon, assistant varsity football coach, and Arthur L. Deering '12, President of the General Alumni Association.

Deering and Kenyon Spoke to Central Maine Alumni

Nearly fifty alumni, alumnae, wives, husbands, and friends gathered November 3, the night before the Colby-Maine game in Waterville, to hear of activities at the University, prospects for the game, and make plans for the winter season.

In the absence of president of the association, A. P. Wyman '07, Leon Savage '32, was presiding officer with Willard Gilmore '32, secretary.

Speakers for this occasion were Alumni Secretary Crossland, Bill Kenyon, assistant varsity football coach, and Arthur L. Deering '12, President of the General Alumni Association.

During the business meeting, plans were discussed for future gatherings of this organization. It was decided to plan a meeting every other month during the winter.

A musical program, singing of Maine songs, and serving of refreshments completed the evening.

Snow '20 Elected President Teachers’ Association

The annual meeting of the University of Maine Teachers' Alumni Association was held at the Pine Street Congregational Church, Lewiston, October 26. Earle H. Danforth '19, of Gardiner, president, was in charge of ceremonies, assisted by Erno Scott '30, who led singing and cheering in his usual vigorous and successful manner.

The speakers for this meeting were Dr. Roy M. Peterson, Director of Maine Summer School, and Hon. Harry Manser, of Auburn, Associate Justice of the Maine Supreme Court.

Officers were elected as follows: President, Charles A. Snow '20, Fryeburg; vice-president, Eric O. Berg '24, So. Portland; treasurer, K. Jean Keirstead '30, Old Town; secretary, C. E. Crossland '17, Orono.

The possibility of establishing a Scholarship Aid Fund was discussed and it was voted that the incoming president appoint a permanent committee of four with the president for the time being ex-officio fifth member to give this matter further study and bring in a report at the next meeting.

New York Alumni

University of Maine alumni residing in and near New York are invited to attend the annual dinner of the Maine Society of New York which will be held Tuesday, December 12 at 8 p.m. in Waldorf-Astoria Hotel. Get in touch with Daniel Chase '08 who is secretary of this organization. His office is in Hotel McAlpin.
Proctors System Changed

The depression made inroads into the proctor system which has been in effect for two years. The number of proctors in the freshman boys' dormitories has been reduced to seven this year and the responsibility of supervision for proctors and dormitories has been transferred from the Dean of Men to the Treasury Department. The proctors for this year are as follows: Francis Morong, South Portland; Darrel Badger, St. Andrews; George Cobb, Auburn; Carl Honer, Hartford, Conn; James DeCourcey, Darien, Conn.; Gordon Richardson, Beverly, Mass.; and Kenneth Aldrich, South Paris.

Bates President Addressed Assembly

"How German Ideas are Form ed" was the title of an address given by President Clifton D. Gray, of Bates College, at an assembly November 21. Dr. Gray, having made several trips to Europe in recent years and only just returned from such a trip, presented the results of his observations and studies on the German situation in a very clear and impressive manner.

Later Dr. Gray addressed members of the faculty at a luncheon, continuing the discussion of Germany. On both occasions Dr. Gray was applauded enthusiastically.

Rhodes Scholar Nominees

John B. Quinn, a senior from Wilmington, Delaware, and Alfred B. Gordon, a sophomore from Dexter, have been nominated as two candidates from the University by the University Committee on Rhodes Scholarships, to appear before the State of Maine Rhodes Committee in December. At that time two candidates will be selected from the four colleges in Maine.

Masque Dedicated Little Theatre

New dramatic history was made at the University when the Masque gave its first major production of the year entitled, "Counsellor-at-Law" by Elmer Rice. As mentioned in the leading story of this number the University now has what may be considered a Little Theatre. Moreover a new policy was instituted when this production was staged two nights, November 8 and 9, as is done at many institutions. The response to this plan was so encouraging that the next major play, "Death Takes a Holiday" will likewise have double run early in December.

The play "Counsellor-at-Law" had a cast of thirty-one persons of whom fifteen were freshmen. The leading part was played by Theodore Wood, a junior, in an unusually able manner.

Scholarship Awards

The three Hovey Scholarships awarded to seniors in the College of Technology, the value of one hundred fifty dollars each, were awarded to Lloyd W. Burr, Mattawamkeag; Bruce S. Longfellow, Machias, and Richard Moore, Rangeley.

The seven Charles H. Hood Scholarships of two hundred dollars each, being the largest offered at the University, were awarded to Philip S. Parsons, South Paris; Donald P. Corbett, East Parsonfield, and Morris Judd, South Paris, seniors; William N. Farwell, Unity, and Cecil A. Gilbert, Greene, juniors; John R. Dean, Waterville, and Malcolm L. Tilton, Burnham, sophomores.

World's Fair

Something new by way of entertainment and educational nature was held at the University November 18 in the form of a World's Fair, sponsored by the M.C.A., Y.W.C.A., and the Liberal Club. The purpose of this event was to arouse student interest in Internationalism. Profits are to be used to bring speakers on international subjects to the University.

There were booths representing nine nations with suitable materials made in those countries on sale and with entertaining numbers in the forms of dances or other events as typical of the several countries.

Athletic Rallies

Three rallies were held, one preceding each State Series game with marked success. To alumni of a few years' standing, these brought back memories of days when every game was preceded by such a rally.

The first one was held at one o'clock just as the team was leaving for Bates. The next was held Friday evening preceding the Colby game, accompanied by a huge bonfire. The third rally which was part of Homecoming program is mentioned in another article.

Student Hockey Team

Defeats Alumnae 2-1

The latest thing in winter sports is snow hockey, with red balls for color! An alumnae hockey team, returning to college for a match with a picked student team, during Alumni Homecoming, November 11, found a wind-swept and snow-laden campus. They played the merriest game on record, losing to the students by the close score of 2-1.

Rolling out of bed at daybreak to clear the field for action is one of the joys of an undergraduate. The real fun began at 10 a.m. Crisp voices cutting the air, crunching snow underfoot, and gleaming tunics announced the arrival of the teams.

"Warm up!" was never more quickly obeyed. Bare legs danced on the crested earth. When the whistle blew, away flew the prancing players—oops! Polly McCreary '32 slipped. Back and forth, in clouds of snow raced those hockey sticks and tunics! Marion Rogers '30, wiry center h.b. and Fern Allen clashed on the "great white way," and with a chuckle faced each other. Flora Stone '35 caught the fiery red ball, ran the field, and made a goal!

Costumes worn for this sport were highly individual. Ski suits and streaming mufflers, tunics and mittens, bare arms and furry caps mingled in a grand display.

Out in the region of the windy wings, Eleanor West '33 and "Frankie" (Frencelia) Dean '34 snake-danced around that fascinating ball as though hypnotized. Next, the whole alumnae forward line ploughed down the field and Robinson made a goal, proving they hadn't forgotten their cunning, or lost their bag of tricks in the snow.

Here's the line-up: Alumnae—L.W., Merritt Dunn '33; L.L., Polly Brown '33; C.F., Mary Robinson '29; R.I., Eileen Cassidy; R.W., Eleanor West '33; L.H. B., Dolly Dumber '32; C.H.B., Marion Rogers '30; R.H.B., Polly McCreary '32; L.F.B., Mary McLoon '31; R.F.B., Elizabeth Murphy '30, and G., Muriel Whitman '33. Student—L.W., Flora Stone; L.I., Shirley Young; C.F., Fern Allen; R.I., Dorothy Laurance; R.W., Beatrice Cummings; L.H.B., Ella Rowe; C.H.B., Dorothy Newman; R.H.B., Elizabeth Myers; L.F.B., Annie MacLellan; R.F.B., Francella Dean; G., Jane Chase.

Cynthia Wagsatt
A Toast to Coach Fred Brice!

By Jack Moran, Sports Editor, Bangor Daily News

December, 1933

The press in the East has recognized the ability of Fred Brice. More perhaps, than ever before, the Maine mentor has been lauded by the Metropolitan papers. Typical of the regard that the press has for Brice is found in the well worded bouquet penned by Stanley Woodward of the Herald-Tribune. He says: "Brice could make a football team out of five letter-carriers, four soda jerks, a reporter, and a traveling salesman." But he warns: "Some day a delegation from a large university, which is looking for a coach, will brave the snow drifts north of Bangor and steal Fred Brice."

Only the Maine men who watched the 1933 Pale Blue team in action can fully appreciate the enormity of the job Brice accomplished this fall. He started with a center, two ends and a halfback. Vital key positions were without tenants of any recognized ability. The material, such as he had, was light and inexperienced.

Tying that group together into a team that was able to compete successfully with the seven scheduled opponents was in itself a feat that is bringing no end of intelligent quarterbacking is the balance wheel of the Brice system of attack. Tirelessly the Pale Blue coach culled his squad for the logical man. It was Ted' Butler, a daring youth who turned in a season's work of mental manipulation that fired the Pale Blue team into a position that with the seven scheduled opponents was in itself a feat that is bringing no end of applause to the ears of the veteran Maine mentor. But selecting a quarterback from the green lot of candidates available, one who could adequately direct the power and deception that Brice had equipped that team with was another bit of ability that deserves a like number of huzzahs.

Intelligent quarterbacking is the balance wheel of the Brice system of attack. Tirelessly the Pale Blue coach culled his squad for the logical man. It was Ted' Butler, a daring youth who turned in a season's work of mental manipulation that fired the Pale Blue team into a potent machine that turned in one of the greatest bits of offensive endeavor in Maine football history.

But even more significant than the fact that Fred Brice built a pennant winning machine out of the inexperienced timber he had to work with was the offensive power the Bears sprayed over the opposition. In a year that has predominated with defensive play Brice fielded perhaps his most powerful scoring machine. Already reverberations to curtail what many declare are definite defensive advantages are rebouncing through the country yet Maine tangled with three recognized powerful defensive teams in Bowdoin, Colby, and Bates and came out on top in each case.

The weapons Fred Brice armed his team with this fall were well conceived, practical and adequate. Ably directed, particularly against state series foes, Maine flashed an attack that was the outstanding feature of the series. All three state rivals were felled by the lightning-like thrusts of the Black Bear offense. Rhode Island, New Hampshire, Lowell and Yale were equally hard pressed to compete against the varied attacks Brice fired at them.

Dominating the Maine play this season was a typical group of Brice nurtured players. Milt MacBride, of Easton, the leading ground gainer of the squad was playing only his third year of football of any kind. Before entering college, MacBride, a rosy cheeked 158 pounder from Aroostook, as Pat French would explain it, didn't know whether a football was full of air or feathers. Bob Littlehale, who bulleted his way through the Yale line for a touchdown and later won high scoring honors in the state, came to Maine with three years' experience as a lineman. George Cobb, veteran center, and a 60 minute football player, arrived at Orono a freshman with high school and prep football experience as a halfback. Those cases are typical of the way the Stillwater sage handles men.

It is his ability to judge a man and fit him into the machine that has sent Brice to the top. He is a keen student of human nature. In addition, he is ultra-modern. His teams are stylish not in regimentals but in nomenclature. Since his arrival at Maine he has pioneered attack and defense changes in this state. Yale stumbled over the defensive alignment introduced by Brice this fall. On offense, Bates, Bowdoin, and Colby were bewildered by the swift, mobile, and positive attack of the Bears that mixed deception with power and turned the whole into a machine that Yale authorities claim is the best drilled of any team on the Eli schedule.

Men and women of Maine, a toast to Fred Brice!
**The Maine Alumnus**

**Team Wins State Football Championship**

Looking at the season in terms of victories and defeats, one might say we had had just a fair season; but when one realizes that early in the season sports writers generally gave Maine nothing better than fourth place in State Series it looks different. Two games, Rhode Island and New Hampshire, were lost by breaks—or Fortune, call it what you will. In every game with the exception of Yale, Maine's play was distinctly superior to that of the opponents.

Repeatedly Coach Brice has referred to the wonderful team spirit of the boys this season, attributing success to that spirit and indicating it was the finest he had ever seen. They were a plucky, hard working bunch, outweighed on the average from ten to twenty or more pounds per man in every game, but this was offset by fast, deceptive, hard play. Alumini who have followed the team closely have commented repeatedly upon the excellent physical condition of the Maine men. This is a tribute to the trainer, Wallace.

The entire backfield, Favor, Butler, MacBride, and Littlehale, has been more or less consistently in the limelight all season; Parsons at end has had a great season; Cobb at center was a bulwark of strength, and Davis especially considering his light weight did a fine job as guard. Parsons, Favor, Cobb, and Littlehale were known as the 60-minute men.

Who do we lose? Well, we lose some good men. The seniors who played more or less regularly are Parsons, Aldrich, and O'Connor, ends; Davis, Rice, Hill, and Judd, guards; and Favor in the backfield. From this it would appear that Coach Brice may have a problem in his ends and guards, and needless to say Co-captain Favor as a triple threat, especially as a punter, will leave a big berth for someone to fill. The other co-captain, Phil Parsons, was one of the best ends Maine has had in years.

Now for a resume of the state series games.

**Maine 12—Bates 7**

At Lewiston October 28

Bates' strong defensive team which held both Harvard and Dartmouth to small

16 first downs to Bates' 5, and gained 225 yards in rushing against 83. Two forwards were completed for 50 yards as compared with two for 20. Favor's punts averaged 42 yards against 33 for Bates. Ted Butler surely had Bates "befuddled" by his selection of plays. Combined with this was a fine coordination and the determination to win. Maine scored immediately from the first kick off. Milt MacBride in no small measure was responsible for this, making 39 yards in three trips. After the ball arrived at the Bates 5 yard line, Bob Littlehale repeated his Yale performance with four bucks for a touchdown. Bates then turned a break into a score when a punt was driven offside by the wind at the 19 yard line.

With the score 7-6 in favor of Bates at the half, the Maine boys went to work immediately and tallied a second time. Ruses by Littlehale, MacBride and Butler, together with perfect pass for 20 yards by Favor did the trick. The score was made by Aldrich who took Bates completely by surprise when he received a pass behind the line and scored around the right end.

**Maine 18—Colby 7**

At Waterville November 4

With the exception of a few short minutes, when MacBride and Favor executed two beautiful passes consecutively for a gain of 52 yards, Maine rooters wondered throughout the entire first half where the well oiled, powerful machine was that had functioned so effectively a week earlier. Between fumbling and inability to consistently gain through the Colby line, they were getting nowhere with the result that at the half, the score stood 7-0 for Colby. Their score came as a result of a fumble and a break near the goal line.

When the second half opened, things began to happen. The Maine team came into its own and scored three touchdowns. The first came after Sideling recovered a fumble on the 46 yard line. A series of rushes and a pass brought the ball within seven yards of the goal, when Favor shot a pass which Littlehale received as he fell over the goal line. From then on, Maine kept things moving. The boys cashed in on an offside punt at the 26 yard mark and later Littlehale intercepted (Continued on Page 51)
Cross Country Team Has Good Season

A win and a loss in dual meets, second in the New Englands, and sixth in the I.C.A.A. in New York, certainly sounds like a good showing for the cross country team. Moreover, the dual meet was lost by only one point.

When the season opened, Coach Chester Jenkins had but two men whose ability was well known, namely, the Black brothers. The others were uncertain. However, Joel Marsh came along well as the season advanced and Saunders and Wishart were the other two men who helped Maine achieve a good season. None of these men are seniors, so unless something unforeseen happens, they will all be available next year.

Maine Defeats Bates

The annual dual meet with Bates took place in Lewiston, October 27. It was reported that Bates was weakened by the loss of one or more of her regulars through injuries. The result—Maine 17—Bates 40. The Black brothers and Marsh finished together, Saunders placed fifth, Wishart sixth, Morong tenth, and Osgood, eleventh. The first five Maine men finished within 100 yards of each other.

Second in New England Meet

Maine varsity cross country team placed second to New Hampshire in the annual New England Intercollegiate run at Franklin Field, Boston, November 13. There were ten competitors. Rhode Island placed third and Bowdoin fourth. As usual, the Black twins ran together and were credited as having finished third and fourth. Marsh came ninth, Wishart 17th, Saunders 21st, and Morong 23d.

Sixth in Nationals

Maine won sixth place with the score of 177 in the I.C.A.A. meet in New York November 20, with 17 teams competing. Last year our team placed eighth in the same meet. For the first time this year, the two Black brothers were separated, due largely, if not entirely, to a sprained ankle which Ken sustained early in the race. The boys placed as follows, in the team scoring: E. Black 11th, K. Black 26th, Marsh 39th, Saunders 47th, Wishart 54th, Morong came in 74th, and D. Corbett 98th.

Hunnewell Star Fresh Cross Country Runner

Perhaps William F. Hunnewell of Madison, a freshman, stole a big share of cross country honors at the University this year by winning first place in both the New Englands and I.C.A.A. runs. This promising distance lad is said never to have run more than one mile before entering college and was not widely heralded in that event. He has shown remarkable development during the season. His performance, together with the marked improvement shown by Corbett, brother of Don Corbett ’33, who finished ninth in New Englands, furnishes most of this story.

As the summary shows, Team A won but one race of the five, while Team B took three dual meets of five. In the New England meet, the team ran its best race of the season and secured fifth place with eight competitors. Hunnewell’s time for three miles was 16 minutes, 53½ seconds. Corbett placed ninth.

In the I.C.A.A. meet, Hunnewell, the only Maine runner to compete, turned in time of 14.47 for three miles.

Statistics show that Maine made 15 first downs to Colby’s six, gained 166 yards in rushing to 99, completed seven forward passes for a gain of 81 yards, to the opponent’s two for 41 yards. Favor’s punts averaged 41 yards to Colby’s 38.

Maine 18—Colby 7

a pass. MacBride turned in 17 yards which together with some rushes by Favor, Littlehale, and Butler meant another score. Butler scored both of the last two touchdowns by using some of Brice’s choice deceptive plays.

Statistics show that Maine made 15 first downs to Colby’s six, gained 166 yards in rushing to 99, completed seven forward passes for a gain of 81 yards, to the opponent’s two for 41 yards. Favor's punts averaged 41 yards to Colby's 38.

Maine 12—Bowdoin 0

At Orono November 11

Maine sewed up the State Championship by defeating Bowdoin 12-0. The field was in poor condition because of several inches of snow fall the night before the game. This condition slowed down the game very much, footing was so uncertain, and the ball was so slippery that passes and fast playing were virtually impossible.

Although Bowdoin outrushed Maine 9 to 8 in first downs, there never was any question about the superiority of the Maine team. Only once did Bowdoin reach Maine's 32 yard line, which was their nearest approach to our goal.

Two blocked punts, one in the second and another in the third period paved the way for Maine scores. Sam Reese was responsible for the first one on their 24 yard stripe. MacBride then streaked 23 yards for the most brilliant run of the day and Bob Littlehale did the rest. Parsons and Sidelinger broke up another punt, this time on the four yard line. After three tries by Littlehale, Ted Butler called for a trick play which found MacBride running wide and scoring unmolested.

Favor’s punting in this game was the finest of the year, perhaps of his college career, especially under such difficult conditions. His nine punts averaged 47 yards apiece. Davis wound up his career with such flashy playing as to put him in the headlines, while Aldrich likewise ended his days of University football with a game which was by far his best in the last years. Parsons, too, completed his football career by playing a marvelous offensive and defensive game, so much so, that Jack Moran in his report of this game, spoke of him as the ace of all Maine wingmen.

Freshman Football

Three victories and two defeats is the result of the season’s work for the freshman football team. At times, they were almost brilliant and again were impressively weak. Considering the fact that there were but two or three men who had had real experience on important teams, Coach Jones and his aides certainly were successful in welding a team which made a very creditable showing.

Perhaps what is as important as victories is the fact that several promising players were developed. Of these, two or three are line men and the others back field. The most outstanding backfield man had never played football before coming to the University.

The measure of how much knowledge they acquire and the real value of the freshman team shows up year in and year out in the varsity rather than in terms of victories alone during the first year.

During the period of 1923-33 Bowdoin endowment funds increased from $3,600,-000 to $6,400,000.
The Maine Alumnus

ALUMNI PERSONALS

DEATHS

'81 Dr. Oliver Cummings Farrington, 69, veteran curator of geology at Field Museum of Natural History, died November 2 at Bills Memorial Hospital in Chicago. He had been seriously ill for several months. Among the honors conferred upon Dr. Farrington were the presidency of the American Association of Museums, fellowships in the Geological Society of America and the American Association for the Advancement of Science, the honorary presidency of the Society for Research on meteorites and memberships in Sigma Xi and Phi Beta Kappa. He was born in Brewer, October 6, 1864. He received bachelor's and master's degrees in science at the University, and a doctorate at Yale. Dr. Farrington had been on the Field Museum staff since 1894. Prior to that, he was on the staffs of Yale University and the United States National Museum. His widow survives him.

'80 Erwin Sibley Turner died in Philadelphia, Pa., on August 29, 1933, at the age of 35. He was a member of the Class of 1928. His death was caused by a heart attack suffered while in the United States National Museum. The University Store Company takes pleasure in giving many free services to the student. Among them is the sale and handling of stamps and laundry cases.

'83 Class Reunion, June 9, 1934.

'84 Carl N. Garland, superintendent of Methodist churches of the Portland district, was chosen a member of the executive committee of the International Commission at its annual meeting held in Augusta on November 11, in connection with the third annual Alumni Homecoming program.

'85 Class Reunion, June 9, 1934.

'86 W. H. Burke, who has been president and general manager of the Minnesota Power & Light Company with headquarters at Duluth, Minn., has recently transferred to New York City to accept a position as assistant to the vice-president in charge of Operation of Electric Bond & Share Company.

'87 Dr. Allen Rogers, supervisor of industrial chemical engineering at Pratt Institute, has been awarded a certificate of appreciation by the Board of Managers of "A Century of Progress," Chicago, in recognition of his services as a member of a committee of fourteen that planned the exhibits for the Hall of Science.

'88 Dr. Elmer Drew Merrill, director of the New York Botanical Garden, was the guest speaker at the alumni-faculty luncheon held on campus November 25. Mr. Sawtelle left November 15 for his home in Haverford, Pa., after spending the summer in Maine doing historical research work. He was founder of Islesford Collection, Inc., in 1919.

'89 Fred L. Garrigues is a sales engineer with American District Telegraph Company, 261 N. Broad St., Philadelphia, Penna. His residence address is 11 E. Mercer Avenue, Llanerch, Penna.

'90 Class Reunion, June 9, 1934.

'91 Percy R. Keller of Camden has been elected president of the Maine Municipal Officers' and Assessors' Association.

'92 Class Reunion, June 9, 1934.

'93 Class Reunion, June 9, 1934.

'94 Class Reunion, June 9, 1934.

'95 Class Reunion, June 9, 1934.

'96 W. D. Pearce of 4121 Sasafras St., E. Erie, Pa., has been elected to the chairmanship of Erie section, American Institute of Electrical Engineers. Mr. Pearce is a member of the transportation engineering department of General Electric Company.

'97 Dr. Erwin Sibley Turner died in Philadelphia, Pa., on August 29, 1933, at the age of 35. He was a member of the Class of 1928. His death was caused by a heart attack suffered while in the United States National Museum. The University Store Company takes pleasure in giving many free services to the student. Among them is the sale and handling of stamps and laundry cases.

'98 Class Reunion, June 9, 1934.

'99 Class Reunion, June 9, 1934.

'00 Alden B. Owen is a consulting engineer with Elliott Company. His address is Box 259, Doylestown, Penna.

'01 Class Reunion, June 9, 1934.

'02 Class Reunion, June 9, 1934.

'03 Class Reunion, June 9, 1934.

'04 Class Reunion, June 9, 1934.

'05 Class Reunion, June 9, 1934.

'06 Class Reunion, June 9, 1934.

'07 Class Reunion, June 9, 1934.

'08 Class Reunion, June 9, 1934.

'09 Class Reunion, June 9, 1934.

'10 Class Reunion, June 9, 1934.

SERVICE

The University Store Company takes pleasure in giving many free services to the student. Among them is the sale and handling of stamps and laundry cases.

Alumni will be interested in the cost of this bit of service and below we list the expense as taken from our records for the year Nov. 1, 1932 to Nov. 1, 1933—

Everett Gunning is with the Montgomery-Ward Company in Connecticut. Address—37 Guernsey St., Stamford, Conn.

The class of 1932 regret to hear of the death of Karl Werner Heye which occurred in July. Karl Werner Heye was sailing for Germany on the Bremen, with a friend, Charles Manger, of New Angeles. On the first night out of New York, the tragedy occurred, when Manger accidentally discharged a pistol which he was examining, shooting Heye. The body was brought back to New York for burial.

The death of Ronald Henry Maclean occurred on June 26, 1934, in Caribou. He had been ill for some time with pulmonary tuberculosis. He was buried in Caribou.
Rosella E. "String" Randall is a Food Demonstrator for the Corn Products Refining Company. Her address is c/o Corn Products Refining Co., 80 Washington St., New York City.

O. L. "Rusty" Rumaza is employed by the New Hampshire State Forestry Department as Forestry Foreman in the C.C.C. camp at Tamworth, N. H.

The wedding of Leona H. Small and Kenneth Starbird took place on April 8, 1933. Her address is 1848 Commonwealth Ave., Suite 45, Brighton, Mass.

Louise Washburn is doing dietetic work in Philadelphia. Her address is 6911 Clearview St., Mt. Airy, Philadelphia, Pa.

Class Reunion, June 9, 1934.

33 Class Reunion, June 9, 1934.

Class Secretary, Mariene Smith, Spring St., Saco.

Hello, Classmates—How I wish that you all might have been able to be at the recent State Convention for "us pedagogues." It did seem like a reunion for a few '33ers. I felt like Mr. Snoopus himself because everyone whom I met became the victim of a cross-examination for class news. I emerged with a miniature "Who's What"—here it is, with thanks to my many collaborators.

Before Dixie and Marg and I could even get registered for the convention, we had to congratulate the new principal of Canton High School, Clark Abbott, who was at the door. We saw "Jo" Mutty and Frank Waterhouse from Old Town High School, "Bunny" Folsom from Ellsworth High, Helen Peabody from Levant, "Rip" Page—who is Supervising Principal of the Abraham Lincoln School in Bangor, Bruce Ashworth, sub-master at Orono High, and Dolly Dumphy from Freeport—all that same meeting. Of course, we had to go shopping at "Peck's" in Lewiston—lo and behold—here comes Charlie Pober from the Oxford Paper Company and Bill Bratton—not with the A. & P. Co. in N. H., and "Scottie." Did we "buzz"!

Marg Moulton and Dixie and I had lunch with Miss Greene that same day and learned that Evelyn Plummer has a very fine position as Home Demonstration Agent in Connecticut.

After convention, Betty Tryon, who is going to business school in Portland, met Grace Querrie. Marg, "Richie" Richardson and I in Portland—and none other than Bunny Callaghian appeared with her. Bunny is at home in Brewer for a few weeks. More news popped up and I had to resort to pencil and paper—you know what these female discussion groups are like as far as knowing things—"K" Small is opening a school for Elocution in Auburn, Dot Blair is teaching dancing at her home in Westbrook. Bob Stubbart is employed by Sears & Roebuck Co. in Bangor (and "Snoopus" says he lives with Merritt's uncle and boards with Merritt's father and mother.) Charlie Bunker and Tillie Bell are employed in the Telephone Co. in Bangor. Jimmy McClure has recently been appointed Scoutmaster of Troop 12 in the Farmington district in Bangor. Merritt Dunn and Helen Hilton are at home this year—you know, I'm beginning to think Bangor is a very fortunate city—certainly '33 is well represented there.

I saw Tom Desmond in Biddeford the other day—he is employed by the New England Tel. & Tel. Co. Our class enrollment is increasing all the time—Charlie Fobes, Phi Mu Delta, was married to Miss Marjorie Kimball, of Westbrook, on October 21, 1933. Charlie, we welcome the new member and hope you'll be happy in your home and in your work with the C.C.C. at Princeton. Your brother forester, Jo Penley, has picked a much warmer climate in Arkansas.

Helen Nivison is studying at Yale Medical School and Arthur Garvin, Jr., is a graduate student at the University of Iowa. If anyone finds himself in Boston near Common Street—out of gasoline or in need of a parking station, call for Horton Ide at the parking station. Horton, you send the bill to Mel Means in Biddeford. Mel is busily employed by the Saco-Lowell Machine Company, but I think he would sign a check for you.

We also manufacture a full line of Solenoid and Motor Driven Valves, Damper Regulators, etc.

R-K Reducing Valves are built for any kind of service where steam is required to be reduced from any initial pressure down to ounces.

Well, good luck to you all until next month.

Marnie Smith

Of all the ways in which tobacco is used, the cigarette is the mildest form.

You know, ever since the Indians found out the pleasure of smoking tobacco, there have been many ways of enjoying it. But of all the ways in which tobacco is used, the cigarette is the mildest form.

Everything that money can buy and everything that Science knows about is used to make Chesterfields. The tobaccos are blended and cross-blended the right way — the cigarettes are made right — the paper is right.

There are other good cigarettes, of course, but Chesterfield is the cigarette that's milder, the cigarette that tastes better.
