Maine Alumnus, Volume 16, Number 1, October 1934

General Alumni Association, University of Maine
STONE-THROWING ROMEOS
The engineers of the General Electric Company have been asked to solve some unusual problems, but never before have they had to work against Cupid. This is how it came about: Some of the swains who did their courting in parked cars along certain lighted roads in New England found that the lamps cramped their style. With simple but destructive logic they decided to extinguish the lamps with stones. Their aim was so good that repairmen of the utility which serviced the lights could hardly keep up with their depredations. Finally, G-E illuminating engineers were called in to design a fixture to foil the stone-throwing Romeos. These engineers produced a cast-aluminum guard, which looks very much like a baseball catcher’s mask. It protects the lamp, and at the same time helps to concentrate light on the roadway.

HURRY! HURRY!
A flood had crippled three important electric motors in the refinery of a large oil company on the island of Aruba, 50 miles north of the coast of Venezuela. The plant had to be shut down until new coils could be installed. Losses caused by the shutdown ran into thousands of dollars a day. An order for the coils and word of the refinery’s predicament reached General Electric in Schenectady, N. Y., on a Sunday morning. Work began immediately, and by dint of night shifts and a great concentration of efforts, the two-and-one-half-week job was completed in three days. The 808-pound shipment of coils, conveniently packed in small cartons, was flown in a chartered plane from Schenectady to the Newark airport, where it was transferred to an Eastern Air Lines plane bound for Miami. On Wednesday morning the cartons were transferred to a Pan-American Airways ship at Miami for the hop across the Caribbean to Kingston, Jamaica. From there, they were flown directly to Aruba in a specially chartered plane. They arrived Saturday morning, just six days after the order had been received by General Electric.

FAT SPARKS
The artificial lightning boys have beaten natural lightning in one regard, at any rate. Engineers in the General Electric high-voltage laboratory have produced discharges of a quarter of a million amperes, which is greater than the current of any direct lightning stroke yet recorded. This current is discharged at a pressure of 150,000 volts. Just as natural lightning, with amperage almost as great, destroys that which it strikes, so does the laboratory discharge; and just as natural lightning is accompanied by thunder, the laboratory bolts have their ear-splitting crashes. A copper wire a tenth of an inch in diameter is completely vaporized. A similar piece of iron wire is “exploded,” the remaining ends continuing white hot for several seconds. A section of reinforced concrete is broken into bits. The handle of a silver-plated ice cream spoon vanishes with a shower of sparks, leaving behind only the bowl discolored by the heat.

These engineers were the first to produce 10,000,000-volt artificial lightning discharges, and they are continuing their studies through these high-current discharges, in order to find better means of protecting electric distribution systems. K. B. McEachron, Ohio Northern, ’13, Purdue, ’20, M.S., is director of the laboratory, and associated with him in these tests are: W. L. Lloyd, Rensselaer Polytechnic Institute, ’18; J. L. Thomason, U. of Idaho, ’29; G. D. Harding, U. of Arizona, ’29; and J. R. Sutherland, Yale, ’29.
Dr. Hauck Assumes Presidency

Larger Freshman Class--Slight Decrease in Total Registration

On July 1, the new president, Dr. Arthur A. Hauck, became president of the University. All summer long alumni and students have been asking the question what kind of a man is our new president? The unanimous opinion of those who have had the opportunity of meeting and knowing him may be expressed tersely: "They came, they saw, they were conquered." The arrival of the new President stands as the major feature of the new year's opening.

Registration as shown in the tabulation on this page shows a decline of twenty-five or about 1.7% as compared with last year on corresponding date. Late registrations will doubtless increase these figures somewhat but it seems likely that the final total will be somewhat under the figure for 1933-34. The entering class is slightly larger with a sharp drop in the junior class. A considerable number of upperclassmen did not return because of financial problems, while a few who have been out one or more years registered. The calls for financial aid have been numerous; many well qualified applicants would have enrolled if they could have been given assurance of loans.

In the College of Agriculture the freshman registration total is up sharply, due largely to a jump from 25 to 46 enrolled for home economics. The number of Arts College freshmen is off somewhat over ten per cent while Technology made a slight gain. The number of rejections for admission this year was decidedly greater than a year ago.

In addition to the new President there are a number of new faculty members including six new department heads which is the largest number of recent years. Details concerning faculty changes are contained in a separate article.

Another outstanding feature which greeted students was changes which had been made in the physical plant. To Lord Hall a story had been added in the rear section. Wingate Hall was so completely remodeled as to leave one almost completely lost. Resulting from the changes in Lord, came the necessity for a new building to house the Mechanical Engineering Department "Shops," which was located near and north of Crosby Laboratory. Then too there are two sections of hard surfaced roads and glory

First Assembly

Impressive and enthusiastic. Those words describe the Assembly held the first day of classes. It was by far the best first Assembly of recent years. On the stage in robes were Hon. Harmon G. Allen, President of the Board of Trustees; Former President Boardman; President Hauck; and Rev. Cecil Fielder, M. C. A. Secretary, who presided.

Dr. Boardman was received with prolonged applause. His brief remarks were most fitting for the occasion, wishing power and success to and bespeaking loyal support and cooperation for his successor.

Mr. Allen in his first appearance on such an occasion asked the students in forceful and striking terms whether they were at the University to receive the benefit and value of all the fine things which the institution had to offer, or merely to spend their parents' funds for meagre returns. He then in his characteristic manner presented the new president of Maine, introducing him as a "regular fellow."

Dr. Hauck was greeted by a long, enthusiastic applause. He was impressed by its earnestness. It meant welcome to Maine in no uncertain manner. In a brief address quoted rather widely in the press of Maine, after touching upon problems, he said—"Our attitude should be one of courage and hope." He likened the college to a community, where there are opportunities for service. "The college community is not a place for giving orders—the best there is in teaching is not the definite assignment of tasks, but the stimulating of curiosity which makes you wish to go on—to make you successful in your chosen vocation. The volunteer spirit has a place in our college community. It takes a spirit of willing cooperation on the part of all; a sense of responsibility; a willingness to subordinate individual desires for the good of all, to put our community life on a high plane."

In concluding his first convocation address Dr. Hauck said—"Let us resolve that what we do for ourselves and for the University shall be done in the spirit of the volunteer. When the year has ended may it be said that because of our pride in the University, our search for opportunities for unselfish service, our friendly cooperation, the University in 1934-35 took another step forward."

So the new college year got underway. It is for alumni now to come back to see its campus, meet our new "Prexy" and renew faculty friendships at Alumni Homecoming which occurs this year November 2-3, the date of the last home football game.
Pres. Hauck Announces New Faculty Members

Twenty new faculty appointments and nine promotions or changes have been announced by President Arthur Hauck, effective with the opening of the college year. A dean of women and six new department heads, two each in Agriculture, Arts, and Technology are among the appointments and promotions.

Following are changes arranged by colleges:

**Agriculture—Professors:** Dwight B. Demeritt, Forestry and head of Dept. of Forestry, B.S., Maine, 1922; M.F., Yale, 1923; and Joseph A. Chucka, Agronomy and Agricultural Engineering and head of Dept., B.S., University of Wisconsin, 1927; M.S., 1928; Ph.D., 1930. (Also Associate Biologist in charge of Plant Breeding and Nutrition, Agricultural Experiment Station.)

Assistant Professors: Stephen M. Raleigh, Agronomy, B.S., Kansas State Agricultural College, 1927; Ph.D., University of Minnesota, 1934; Richard M. Riley, and Roger Clapp, instructors in Horticulture, have been promoted to assistant professors.

Fred P. Loring, Director of Short Courses in the College of Agriculture, B.S., Maine, 1916.

Allen W. Goodspeed '28 came to the University during the last college year. He is associate professor of Forestry, holding an M.F. from Yale in addition to his Maine degree.

**Arts—Professor:** Joseph M. Murray, Zoology, and head of Department of Zoology, B.A., Maine, 1925; M.A., Michigan, 1927; Ph.D., 1929.

Associate Professor: Edward F. Dow, History and Government and head of Department of History and Government, B.S., Bowdoin, 1925; M.A., Harvard, 1926; Ph.D., 1932.

Assistant Professors: Clarence E. Bennett, Physics, Ph.B., Brown, 1923; Sc.M., 1924; Ph.D., 1930; Donald M. Purdy, Psychology, A.B., Cornell University, 1921; A.M., Harvard, 1926; Ph.D., 1930; F. Eugene Melder, Economics, B.B.A., University of Washington, 1920; M.A., 1931.

**Technology—Professors:** Paul D. Bray, Pulp and Paper Technology and head of the Department of Pulp and Paper Technology, B.S., Maine, 1914; promotion; Ch.E., 1918; Weston S. Evans, Civil Engineering and head of Department of Civil Engineering, B.S., Maine, 1918; promotion; M.S., 1921; and Embert H. Sprague, Sanitary Engineering, B.S., Dartmouth, 1900.

**Administration—Edith G. Wilson, Dean of Women and Instructor in Education; Captain Archie E. Phinney replaces Capt. Hugh Wear as Professor of Military Science and Tactics.**

**Experiment Station—Mary M. Clayton, Nutritionist, Department of Home Economics, Experiment Station, B.S., Columbia, 1918; M.S., University of Rochester, 1923; Ph.D., 1927.**

**Harry D. Watson, '18**

*The Maine Alumnus*

Harry D. Watson, 1918, of Orono, has been appointed by George S. Williams ’05, President of the General Alumni Association, to serve as a member of the Dues and Finance Committees for a three-year period. Avery Hammond ’11, of Bangor, now serving his third year on these committees is Chairman with Dr. Harry Butler ’20 also of Bangor, as the second member of these important committees.

Mr. Watson is now Associate Professor of Mechanical Engineering in the College of Technology. Beginning this fall he has been given charge of Technology Personnel work which brings him into contact with the students of that college.

As an undergraduate Mr. Watson, or Harry as he is widely known, was active especially in athletics, winning his letter as Varsity pitcher. He became associated with the Mechanical Engineering Department immediately following his graduation, rising to his present position as an Associate Professor. He has also done some graduate work at Harvard Engineering School and taken courses at M.I.T. He received his Master’s degree from the University of Maine in 1928.

Mr. Watson has served on a number of committees on the campus including an active part in recent commencement programs. He will be remembered by many, astonishing those who attended the last commencement baseball game by the manner in which he struck out the members of the Senior baseball team, retiring them in an astonishing, mythical way. He is a member of Phi Eta Kappa fraternity, active in American Legion affairs, as well as a member of and active in several honorary and professional groups.

1913; M.S., Ohio State, 1915; Ph.D., 1923.

Delmar S. Fink, Assistant Biologist, Plant Breeding and Nutrition, Experiment Station, B.S., University of Wisconsin, 1930; M.S., 1931; Ph.D., 1934. The retirement of Dr. George E. Simmons as Head of the Department of Agronomy was announced last spring.

Twelve resignations effective at the close of the year are as follows:

**Agriculture—Werner T. Snyder, Agronomy. Arts—Cecil G. Garland, Economics and Sociology; Arlin M. Cook, English; Elizabeth Foster, English; Ruth S. Dove, English; Leola B. Chaplin, English; Max G. Guyer, History and Government; Donald S. Piston, Physics; Glenn Q. Leifer, Physics; Lilian H. Brush, Psychology; and Edward B. Cooper, Physics. Technology—H. Elmer Hall, Mechanical Engineering.**
October, 1934

Alumni Sons-Daughters Set New Record

To the class of 1938 goes a record for having the largest number of alumni sons and daughters any University class has ever contained. The number 51 is eight more than last year. There are 30 boys and 21 girls.

The Class of 1912 tops the list with eight sons and daughters, with 1908 and 1909 following with six each and 1913 next with five. Forty-six of these second generation students presented themselves for the picture as shown below.

Sixteen of the 51 reside outside of the State of Maine. This is a much higher percentage of non-resident students than is the figure for the entire University enrollment.

Seven of these freshmen can boast that both their parents attended the University. They are as follows—D. S. Adams, Lucy Cobb, R. W. Harvey, M. S. Lord, P. B. Markle, W. F. Schoppe, and Mary L. Wright.

Following are the names arranged alphabetically, followed by the name and college class of their parents.

Bettina E. Bruce—Herbert P. Bruce '09, Nahant, Mass.; Stuart G. Bryant—Gilford Bryant '04L, deceased; Lucy M. Cobb—William A. Cobb '08, Belfast, Bell Harris Cobb '08, Belfast; Walter F. Davis, Jr.—Walter F. Davis '10, Old Town; Mary L. Deering—Arthur L. Deering '12, Orono; Elizabeth B. Drummond—Robert R. Drummond '05, Orono; Roderick R. Elliott—Wesley C. Elliott '02, Montreal West, P. Q.

Hamlin M. Gilbert—William H. Gilbert '07, Hartford, Conn.; Wallace F. Gleason, Jr.—Wallace F. Gleason '12, South Portland; Earle E. Gray—George E. Gray '13ss, Anson; John D. Haggard—Harold D. Haggard '09, North Edgecomb; George H. Hamor, Jr.—George H. Hamor '09, Barahona, Dominican Rep.; Walter B. Hanaburgh—Florence B. Hanaburgh '05, Buchanan, N. Y.

Waldo F. Hardison—Grover M. Hardison '08, Caribou; Gerald F. Hart—John W. Hart '13, Brewer; Alice M. Harvey—Chandler C. Harvey '90, Fort Fairfield; Robert W. Harvey—Everett B. Harvey '14, New Haven, Conn., Luella Woodman Harvey '12, New Haven, Conn.; Margaret E. Hinkley—Victor H. Hinkley '12, Brewer; John Hooper—Henry S. Hooper '18, Old Town.

(Continued on Page 7)

ALUMNI SONS AND DAUGHTERS, CLASS OF 1938

The year in parenthesis is class college year of the alumnus

Front row, left to right—Walter Hanaburgh (05), V. M. Prince (06), Francis C. Jones (12), W. R. Thompson, Jr. (14), Wallace F. Gleason, Jr. (12), George E. Philbrook (10), Fred N. Beck (13L), Leslie Brooks (25), Edward Pierce (07), Prentiss Markle (11-11).

Second row, left to right—Bettina Bruce (09), Mary L. Wright (10-11), Evelyn B. Adriance (04), Margaret E. Perry (07), Lucy Cobb (08-08), Betty Littlefield (06L), Margaret Hinkley (09), Frances Nason (09), Barbara Brown (16), Mary L. Deering (12), Mary-Hale Sutton (09), Elizabeth Drummond (05).

Third row, left to right—Earle E. Gray (13Sc), Stuart Bryant (04L), Richard Varney (27ss), Roderick R. Elliott (02), Marjorie M. Thompson (12), Sarah Littlefield (13), Alice Harvey (90), Catharine Rowe (93), Jean Kent (12), Annette H. Youngs (14), Robert W. Harvey (12-14), Moses S. Lord (08-10).

Fourth row, left to right—Gerald F. Hart (13), Donald Adams (11-13ss), Walter F. Davis, Jr. (10), John Hooper (18), John D. Haggard (09), Waldo F. Hardison (08), Robert Schoppe (02-08), Hamlin Gilbert (09), Raymond McGinley (99), George H. Hamor, Jr. (09), Allen D. Trask (08), Robert Hussey (12).
Lord Hall Extensively Remodeled

By Walter J. Creamer ‘18

A much needed reconditioning and rearrangement of facilities in Lord Hall has been accomplished in the summer months. The forge room, foundry, carpenter and machine shops have been transferred to a new shop building; and the old one story section has been built up to two stories in height. These changes have made it possible to transfer out of the poorly lighted and ventilated and otherwise inadequate attic the communication and electrical measurements laboratories, locating them on the second floor; and to discontinue the basement as a laboratory area.

The first floor as now arranged includes the electric power laboratory and standards room in the main building as before, with a larger instrument room, providing better storage for instruments, centrally located between this area and the new power laboratory extension in what was formerly the machine shop. All old wiring here, which was becoming hazardous, has been replaced by new circuits in iron conduit, and many new trunk circuits have been placed for the new laboratory extension. The new and old laboratories are connected by broad ramps, and may be isolated by the automatic closing of fire doors in case of fire in either part.

The expansion of the power laboratory with the increase in floor space allows apparatus to be spaced to better advantage with resultant improvement in safety and convenience of working conditions for the students.

At the rear of the power laboratory extension, in the area formerly occupied by the forge room and foundry, are located a new repair shop for the repair of electric machinery and the construction of electric appliances, and a small research laboratory for special studies of electrical machinery. This laboratory is provided with complete electric power service from the main switchboard in the power laboratory. Two offices and two small class rooms are also provided in this area for the use of the department of Mechanical Engineering.

The drawing room, class rooms, and offices on the second floor of the main building have been refurnished and rearranged, private offices replacing the large general office for the faculty of the Electrical Engineering department. This change is a great improvement as it permits better working conditions for instructors and opportunity for private conferences with students.

To the rear of the main section, beginning at what was formerly the carpenter shop, a central corridor runs to the extreme eastern end of the building, with newly constructed rooms on either side. On the north side of this corridor a sizeable studio, seating about one hundred, provides a suitable audition room for acoustic studies as well as offering a convenient room for engineering society meetings, and other assemblies. The room is equipped with a screen, lantern, and movie projector; and it is hoped later to be able to install a synchronized sound motion picture projector for the study of sound motion picture engineering, as well as for the showing of educational films.

Opposite this room is a large class room which will be used mainly for computation classes. This room is equipped with twenty small tables for computing work. To the rear of this room is a shop used for the repair and construction work incident to the operation of the communication and electrical measurements laboratories. A toilet and two small communication laboratories occupy the remaining space formerly given over to the carpenter shop.

Beyond this point the new second floor construction over the former location of the forge room and foundry houses seven other small laboratories, an instrument room, and a power room, where storage batteries and motor-generator sets are located to supply power for the communication and electrical measurements laboratories. Of interest in this section is the dark room to be used for photometric work and the study of photocells, and the sound-proof room to be used for experimental work in the recording of sound, study of sound absorption, and other acoustic measurements. A total of seven small laboratories are available here, which, with the two previously mentioned, give facilities for four groups of students, each group using two separate terminal rooms for their telephone circuits, with one room reserved particularly for radio transmitters. The various rooms will also be used for radio laboratories, and for sophomore and junior electrical measurements. By careful planning it will be possible if the need arises to carry on two of these laboratory courses simultaneously.

An average of eight trunk circuits per room is provided, the trunks terminating in the power room on a switching panel where they may be inter-connected or energized. Each pair of wires is placed in half-inch iron conduit for shielding against cross-talk on adjacent circuits.

The celotex partitions used in this area provide an advantageous type of construction from the acoustic standpoint. The generous use of glass gives well lighted laboratories, and permits ready observation of work going on in various rooms by the instructor in charge.

Both first and second floor laboratories are provided with compressed air outlets for cleaning of electrical equipment and operation of paint sprayers. New paint and varnish throughout, together with the installation of a completely new lighting system, has resulted in better lighted and more attractive rooms. The removal of the old heating and ventilating system with its many bulky air ducts has measurably increased the floor space; and the entirely new system plant, with the unit system of heating and ventilating for each class room, insures at last comfortable and healthy working conditions for students and faculty.

The changes outlined above have resulted in enormously improving the facilities for instruction in the department of Electrical Engineering; and all alumni who are interested in this department and are able to visit the campus should not fail to inspect the new Lord Hall.

Lord Hall as It Now Appears—(courtesy W. S. Evans ’18)
October, 1934

Dana S. Williams '00L Heads Shrine

By Linwood J. Kelley '21

In Minneapolis, Minnesota, on June 20, 1934, a beautifully engraved gold ballot was cast, signifying a unanimous choice by the Representatives of the Imperial Council of the Shrine of North America of an alumnus of the University of Maine, class of 1900, Dana Scott Williams, for Imperial Potentate.

Mr. Williams was born at Lewiston, Maine, on Sept. 23, 1878, the son of the Reverend Sumner G. and Ella Wyman Williams. He was educated in the public schools of his native city.

In the fall of 1898 he went to Bangor and secured employment in the Bangor House as a night employee, thus defraying expenses of the law course at the University of Maine. He was graduated in 1900 with the degree of Bachelor of Laws.

However, in the April term of Court, Androscoggin County, Maine, prior to graduation, he passed the bar examination and was admitted to the Bar at the early age of twenty-one years. He immediately entered upon the practice of his profession and for the past thirty-five years has been actively and successfully engaged in the general practice of law at 215 Lisbon Street, Lewiston, Maine. For the past seventeen years he has served as Secretary of the Androscoggin County Bar Association. For many years he has been a member of the Executive Committee of the Maine State Bar Association and at the present time is the first Vice-President of that organization. He is also a member of the American Bar Association.

He is Vice-President of the M & M Library Association and the University Club, Charter member of the Lewiston-Auburn Rotary Club, being third President and representative to Rotary International.

During his thirty-five years of practice, Mr. Williams has served as legislative agent for many Corporations, among which are The Grand Trunk Railway System of Canada and the Canadian Na-

---

Alumni Sons-Daughters

Charles J. Nason '09, deceased; Margaret E. Perry—Donald C. Perry '07, deceased; George E. Philbrook—John N. Philbrook '10, Tenafly, N. J.; Edward W. Pierce—S. Frank Pierce '07, Portland; Vinton M. Prince—Charles E. Prince '06, Kittery.

William R. Thompson, Jr.—William R. Thompson '14, Caribou; Allen D. Trask—Warren D. Trask '08, Melrose Highlands, Mass.; Richard H. Varney—Benjamin H. Varney '27s, Jonesboro; Mary L. Wright—Harold W. Wright '10, Portland, Mildred Prentiss Wright '11, Portland; Annette H. Youngs—Frederick S. Youngs '14, Bangor.

Prism Appointments

David S. Brown, of Ellsworth, has been appointed editor-in-chief of the Prism for next year. John Sealey, of Southborough, Mass., is to be business manager.

M. C. A. Officers

The following officers have been elected to serve the Maine Christian Association for the coming year:

Brann '98 Reelected Governor of Maine

“Tried and found worthy”—that was the decision rendered most emphatically by the people of the State of Maine at the polls September 10, with the result that Honorable Louis J. Brann, a graduate of the University in the class of 1898, was reelected Governor of Maine for the years of 1935 and 1936. This in itself is a tribute to Governor Brann but it does not tell some of the very striking facts which brought him into the limelight so that he is now mentioned prominently in national political circles.

Here are some sidelights which add sweetness to victory. Governor Brann is the first Democrat to be reelected to the gubernatorial chair since the Civil War. He polled the largest Democratic vote ever cast in a Maine election receiving over 160,000 votes as compared with 120,000 when he was elected two years ago. He ran far ahead of his ticket, even exceeding early majority estimates by his party. While this highly complimentary vote was being cast for Mr. Brann at the same time the Republicans increased their already wide margin of seats in Maine Legislature. This only goes to demonstrate the more Governor Brann’s popularity with the people of the State.

One may without the least reflection upon our distinguished alumnus ask what is the background leading up to such a smashing victory with the opposition running high? There is but one answer—Governor Brann.

Prior to the election he made the most intensive campaign in years, filling several engagements day after day for several weeks. While this doubtless was a factor, there is back of it the man. People liked the Governor.

Just to quote a few excerpts from the Press of Maine—“Personally, Brann is popular, even Republicans admitted that his personal appeal to the electorate was something to conjure with—outwardly suave and mild mannered—when in his office he insists on seeing all who call.”

Another daily said “Brann has convinced the people of his sincerity, his ability and his devotion to the State and its citizens” —still another editorial said “While he has occupied the office of governor, Louis J. Brann has won popular approval by the course he has pursued in the discharge of his duties. He has been friendly to all who have asked for assistance. He has been helpful to many industrialists who have asked him to intervene for them with Federal administrators—He has been democratic in his relations with the people of the State.”

These are some of the important reasons why Maine citizens expressed their confidence in Governor Brann to serve them for another term.

While it is technically improper to editorialize on this page, nevertheless The Alumnus on behalf of Maine alumni expresses its delight that “Dick” Brann, as his college mates still call him, achieved such striking success.

Prof. Briscoe’s Library Given to University

The forestry library of the late Professor John Manvers Briscoe, Head of the Forestry Department from 1910 until his untimely death in 1933, has been presented to the Forestry Department. The library, consisting of seventy-one volumes of forestry text-books and treatises on the subject, and seven hundred unbound bulletins and reports, was given by Mrs. Briscoe in memory of her late husband.

In the bulletins and reports are American and foreign papers of considerable value and many that are not available at present since they are out of print.

It is planned to house the library in the Forestry Department in Winslow Hall for the present. The University and the Department appreciate deeply the receipt of this valuable gift.

At the request of Mrs. Briscoe the books will each bear the inscription, “In memory of John Manvers Briscoe, Head of the University of Maine Forestry Department from 1910 to 1933. ‘Grate sumi manu.’”

Bridges ’18 Nominated For N. H. Governorship

H. Styles Bridges, University of Maine, Class of 1918, received the Republican nomination for the Governor of the State of New Hampshire by a highly complimentary vote having a wide margin over his competitor. Mr. Bridges is now serving as chairman of the Public Service Commission, this being his third year as a member of that body. The election occurs in November. Mr. Bridges has long been prominent in political and civic affairs in Concord and in the State.

Following his graduation from the University, he became County Agricultural Agent in Hancock County. Later he became a member of the Extension Staff in the University of New Hampshire and served as Secretary of the New Hampshire State Farm Bureau Federation. Subsequently, he became Editor of the Granite Monthly magazine having wide circulation in New Hampshire and was at the same time Director and Secretary of the New Hampshire Investment Company. He was also Secretary and Treasurer of the Farm Bureau Mutual Automobile Insurance Company.

As Vice-Chairman of the Republican State Committee and Director of the Speakers Bureau he was a factor in the election of recent Republican governors in his State. In the City of Concord he is a Trustee of the Public Library, Trustee and Treasurer of the Putnam Agricultural Foundation and is an officer in the United States Army Reserve Corps. He has been an active, interested alumnus, having only recently retired as President of the Southern New Hampshire University of Maine Alumni Association which held last spring the largest meeting on record.

Alumni Homecoming Set for November 2-3

The fourth annual Alumni Homecoming is to take place November 2-3, the day of the last home football game for this season. Larger numbers of alumni have returned to this event each succeeding year since it was started. It is expected this year will set a new record.

Bryant Patten ’23, of Bangor, is chairman of the Homecoming Committee appointed jointly by President Hauck and the President of the General Alumni Association, George S. Williams ’05. Other members of the committee are Edward H. Kelley ’90, Orono; "Ted" Curtis ’23, Orono; Ulmer Davis ’24, Bangor; "Duke" Dunham ’24, Orono; and Marion Rogers ’30, of Orono. Plans are already well underway. A happy surprise is in store for those who return.
Four New Faculty Appointments

Dr. Joseph A. Chucka, graduate of the University of Wisconsin and Associate Biologist at the Maine Agricultural Experiment Station, has been appointed Professor and head of the Department of Agronomy and Agricultural Engineering to succeed Professor George E. Simmons who retired last spring. Dr. Chucka received his Master's and Doctor's degrees also from Wisconsin completing his Doctor's in 1930.

His work at the Experiment Station has dealt largely with soils and fertilizers and has won for him a wide reputation among the farmers of the State of Maine. He is to continue as Associate Biologist at the Station, devoting half time to research and half time to teaching.

Miss Edith G. Wilson, who last year served as acting Dean of Women at the University, has been promoted to full Deanship, serving also as Instructor of Education. Miss Wilson is a graduate of the University of Southern California, Class of 1923, and holds also a Master's degree from the same institution conferred in 1928.

Following graduation she taught mathematics in high schools of Arizona and California, later becoming associated with Y.W.C.A. work in San Francisco. This led to a position with the National organization in 1929 which work she left to become Associate Secretary of Christian Work at the University in 1931. She has had wide experience as counselor and program director at Y.W.C.A. camps in Maine and elsewhere. She has also done graduate work at Teachers College, Columbia.

By action of the Board of Trustees last spring there was created a Department of Pulp and Paper Technology with Professor Paul D. Bray '14 as its head. Formerly this subject has been included in the Chemistry Department.

Following graduation from the University, Professor Bray became Chemist with the Katahdin Pulp and Paper Company, the next year resigning to become Chief Chemist of the Eastern Manufacturing Company which position he filled for three years. He then became Assistant Sulphite Superintendent of the Eastern Manufacturing Company for a five-year period when he resigned to accept the Associate Professorship at the University in 1923. He has this year been appointed full professor and head of the new department. Professor Bray is active in many things including several years' service as Treasurer of the General Alumni Association.

Dr. Joseph M. Murray, 1925, of Hampden, has taken up his duties as head of the Zoology Department with the opening of the college year. Following graduation, Dr. Murray, or Joe as he is familiarly known, attended the University of Michigan doing graduate work. Dur-
Welcome—“Prexy” Hauck

Custom or tradition has at times said that the word “Prexy” was not to be conferred until it had been earned: that any new occupant of the presidential chair must have demonstrated that his qualifications were such as to merit the more informal and somewhat affectionate title of “Prexy.”

Only three months have passed since Dr. Arthur A. Hauck came to the presidency of the University. During that time the host of faculty, alumni and others who have met him have been impressed with his pleasing, democratic qualities, his earnestness, and deep interest in the progress of the University. In his address of welcome to the class of 1938 he said in closing, “We hope that this class may become known as a friendly class at a friendly University.” In that comment, Dr. Hauck reflected one of his most conspicuous attributes, friendliness.

So at this our first opportunity we welcome Dr. Hauck as our leader and ascribe to him now the friendly title of “Prexy.”

The coming of a new president marks a milestone in the life of any college or university. This is as it should be for with a new leader comes new ideas and ideals, new plans and methods, new outlook and enthusiasm. These qualities stimulate achievement, add zest to an activity that tends all too easily to become routine, and gives new meaning to the vital matter of education. These characteristics we can see in the new horizon of our University life.

With each change of leadership comes anew a pledge of support from the three groups which make up University life, the students, the faculty, and the alumni. We shall look forward with anticipation to the declaration of policies in the President’s inaugural address. In the meantime while we know little concerning new policies or detailed plans, we venture to express the belief that his desires will coincide with those of alumni—to see the University maintain its standing and go forward as rapidly as sound policies and tried methods will permit.

“Prexy” Hauck, we feel sure you will find Maine alumni cordial and friendly, and ready to assist in attaining new achievements. We welcome you, and look forward confidently to the years just ahead.

To 1934

You may well ask yourselves right now, what place the University is to occupy in your life. It is a vital question, both to you and to your University. For most alumni, who have any real interest and pride in the University, it is more than a matter of chance that Maine is a part of their daily lives. It is their plan.

If your University is to become a lasting reality to you, if you wish to keep alive those friendships and associations which time and experience will prove are irreplaceable, if you wish to have an active part and assist in the forward march of Maine, then you will decide now, that you will maintain your University contacts.

This can be done in several ways, three of which follow: first, return to the campus every time you can possibly do so; second, attend local meetings of University alumni, and third, support the General Alumni Association, the object of which is to keep you informed about University and alumni activities and to promote the welfare of the University.

What about you of the Class of 1934? Is the University to become a slowly fading memory, or are you going to cherish and keep alive your University and all of its many associations? What you do this first year out will either consciously or otherwise influence the mold of your future alumni relations. Each of you will answer the question by your actions during the months just ahead.
Dean Deering to Address Two Groups

Dean Arthur L. Deering '12, of the College of Agriculture and Alumni Secretary Charles E. Crossland '17 are to attend and speak at meetings of the Oxford County and White Mountain Associations October 11 and 12.

G. O. Hamlin '00 Entertains Lincoln County Alumni

Fifty alumni, undergraduates, and friends including the new President, Dr. Hauck, and two former Presidents, Drs. Boardman and Little, were guests of George O. Hamlin, 1900, and Mrs. Hamlin at their summer home in Boothbey Harbor, August 18. This was the second annual outing of Lincoln County alumni.

At a brief business meeting officers were elected as follows: President, B. West Lewis ’16; vice-president, Harold D. Haggert '99; secretary-treasurer, Selma Gregory '34; executive committee, C. H. Buck ’23, C. N. Walker ’33.

Mr. Hamlin welcomed the group to his home and then introduced Alan Bird, 1900, as presiding officer. Brief remarks were made by Doctors Little, Boardman, and Hauck; Mr. George Williams, president of the Alumni Association; Dean Arthur L. Deering of the College of Agriculture; and Alumni Secretary Crossland.

Games were enjoyed during the afternoon and evening.

York County Picnic

The annual picnic and dinner of the York County Association was held at Hotel Atlantis, Kennebunk Beach, on July 1. President “Hamp” Bryant is managing director of the hotel and Hamp spared neither time nor expense in making everything ship-shape for the event. It was a highly successful affair, especially the evening dinner and entertainment. Music was furnished by the Bye Family Ensemble of Portland and special entertainment by Pietro Mordelia and two daughters, of Boston. Both groups presented music and entertainment of superior quality.

There were over 50 present from York County and about 25 visitors from the Western Maine Association. There was no evidence of lack of gaiety at any table in the dining room. It was the unanimous opinion of all that there has never been given more for a dollar than what was received at this happy event. We anticipate having an equally successful annual meeting next winter.

R. H. Lovejoy, Secretary

Association Meetings

11 Oxford County
12 White Mountain Association
Nov. 2 Western Massachusetts—Fall meeting

Alumni Teachers to Meet Oct. 25

The University of Maine Teachers Alumni Association is to hold its annual dinner and meeting in Portland October 25, beginning at 5:45 o'clock in the Y.W.C.A.

Charles Snow '20, genial president of the Association, has set out to make this a good old-fashioned Maine party with Prof. John H. Huddleston, of the University, as the after dinner speaker.

Election of officers and other business will come before the group for action. The Association is to maintain headquarters in the Portland High School during the Teachers Convention.

Repscha Selected Head of Philadelphia Association

Our picnic of June 16 was a successful affair. It was held at the Downstown Y.M.C.A. Although there were facilities for baseball playing, tennis, bridge, quoits, etc., the swimming pool was by far the most favored spot during the afternoon. At six o’clock a meeting was held at which the following officers were elected for the coming year:

Following the meeting we had a baked bean dinner in the open which was very much picnic style.

Needless to say everyone enjoyed himself thoroughly, and left with a firm resolve to attend next year’s picnic, come what may.

George O. Ladner ’26, Secretary

Larger Registration at Summer Session

Three hundred and fifty students registered at the annual University Summer Session, an increase of twenty-four over 1933. The session was favored on its opening day by an address by President Hauck who had just arrived on the campus.

Thirty-seven colleges and 26 normal schools were represented in the registration. The University led with 42 students. One hundred and thirty-six of the registrants came from outside of Maine, 16 states and the Canal Zone being represented.

Special social features included weekend trips to Bar Harbor, Lakewood, Castine, and Moosehead. The famous actress, Maude Adams, with company presented Twelfth Night.

Alumni Homecoming Nov. 2-3.

Creamer ’26, Heads Washingtonians

The annual picnic of the Washington Alumni Association was held Saturday, June 2, at Henry Bearce’s, 6308 Ridge Avenue, Chevy Chase, Maryland. True to Maine custom beans baked in the ground were served.

Officers were elected as follows: President, Ansel S. Creamer ’26; vice-president, Harold L. Winter ’26; secretary-treasurer, Marion Lord ’27.

Eastern New York Outing

On June 9, the annual spring outing of the Eastern New York Alumni Association was held at Thatcher Park, better known to residents of Schenectady and vicinity as “Indian Ladder,” with thirty present.

The truly striking scenic features of this park lent much towards the success of the occasion. No small part of the credit for this success must also be given to Ex-President H. P. Mayo who supervised the preparation and service of the eats.

No iron bound program was followed. Some took advantage of the opportunity to explore the cliffs while others played horseshoes. After the picnic dinner an informal meeting was held under the direction of Vice-president B. R. Connell. At this meeting Mr. T. R. Soderburg was appointed acting Vice-president for the vicinity of Glens Falls.

The outing was closed with a smashing ball game full of strike outs and home runs, played to a no decision finish with intermittent time out periods to allow the players to recuperate.

Athletics

Football Prospects

The largest squad in years, if not in history: a lighter team than last year; and still an uncertainty as to the starting lineup. Such is the situation at this writing, September 25. It is expected that Maine will be represented by a good team although nobody is making predictions. The opening game with Rhode Island, which is to be a real story, will tell a big story.

When Fred Brice returned to the University to open his fourteenth year as coach, he found on September 10 a pre-season squad of forty-two men which is the largest number ever back for early training. The total size of the squad grew to seventy-six after college opened. The squad is to be divided shortly into the varsity and junior varsity groups.

The regular men lost by graduation are Favor, backfield; Parsons, Aldrich, O'Connell, ends; Judd, guard; and Davis, tackle. Files, tackle, did not return to the University.

Some of the more promising sophomores, judging from early season work, are Roderick and Proctor, guards; Hamlin, end; Jackson, tackle; Dow, Chapman, and Brewster in the backfield.

The regular men lost by graduation are Favor, backfield; Parsons, Aldrich, O'Connell, ends; Judd, guard; and Davis, tackle. Files, tackle, did not return to the University.

At the moment it would appear that Carl Honer is to be assigned much of the load which Don Favor carried last year. The men who have been playing regularly on Team A as a starting lineup are Cobb, center; Roderick and Reese, guards; Sideling and Totman, tackles; Doherty and Hamlin, ends; Higgins, quarterback; Marshall, Honer, MacBride and Littlehale in the backfield.

Football Tickets

Football ticket application forms have been sent to practically all alumni in New England and to some in New York. Those desiring tickets are urged to make reservations early.

Tickets for the New Hampshire game are $1.50 for admission and $2.00 for reserved seats, including tax. The admission price to Dartmouth game is $1.10 including tax. There are no reserved seats.

Ask for seats in the Maine section.

Maine is to play Holy Cross in 1935 and Columbia in 1936.

Cross Country Outlook

Coach Chester Jenkins is smiling and well he might. The outlook for cross country of Maine is the most promising in years. Of last year's team he has back Black brothers, Saunders, Marsh, Cole, and Wishart. He lost by graduation George Osgood and Don Corbett. Added to his string of experienced men is Hunnewell, winner of the National Freshman meet last year, and Corbett, who showed up well in Junior varsity races. The Varsity squad consists of twenty-six men. The schedule is said to be the best in several years.

For the first time for many years at least, the distance of cross country runs has been reduced to four miles for Varsity races and the New England Meet. The National Meet will continue at the former distance of approximately six miles until the present cup is won permanently.

The Freshman squad consists of about sixty men including several experienced runners. This is more encouraging than was the outlook last fall.

Don Favor Travels

Don Favor was chosen to compete in the N.C.A.A. meet at Los Angeles and won third position with a hammer throw of 164 ft. 3 ½ in. A week later he won the National A.A.U. hammer throw with a distance of 163 ft. 5 ¾ in. Resulting from his consistent performance he was selected as a member of the United States track and field team to compete with Japanese teams leaving about the middle of August on this trip. In the first meet, September 8, he placed second. A week later, however, he won first place in another meet with a distance of 166.27 ft.

Former Baseball Coach Dies

“Monte” Cross, for six years coach of baseball at the University, died at Philadelphia, June 21, at the age of sixty-three years. During his work at Maine “Monte” won a host of friends and supporters through his ability and genial personality.

Cross Country Outlook

Coach Chester Jenkins is smiling and well he might. The outlook for cross country of Maine is the most promising in years. Of last year's team he has back Black brothers, Saunders, Marsh, Cole, and Wishart. He lost by graduation George Osgood and Don Corbett. Added to his string of experienced men is Hunnewell, winner of the National Freshman meet last year, and Corbett, who showed up well in Freshman races. The Varsity squad consists of twenty-six men. The schedule is said to be the best in several years.

For the first time for many years at least, the distance of cross country runs has been reduced to four miles for Varsity races and the New England Meet. The National Meet will continue at the former distance of approximately six miles until the present cup is won permanently.

The Freshman squad consists of about sixty men including several experienced runners. This is more encouraging than was the outlook last fall.

—Don Favor Travels

Don Favor was chosen to compete in the N.C.A.A. meet at Los Angeles and won third position with a hammer throw of 164 ft. 3 1/2 in. A week later he won the National A.A.U. hammer throw with a distance of 163 ft. 5 3/4 in. Resulting from his consistent performance he was selected as a member of the United States track and field team to compete with Japanese teams leaving about the middle of August on this trip. In the first meet, September 8, he placed second. A week later, however, he won first place in another meet with a distance of 166.27 ft.

—Former Baseball Coach Dies

“Monte” Cross, for six years coach of baseball at the University, died at Philadelphia, June 21, at the age of sixty-three years. During his work at Maine “Monte” won a host of friends and supporters through his ability and genial personality.

—Freshman Football

Seventy-five freshmen are out for football. The squad is much heavier than for many years and it is believed will outweigh the Varsity team. It is impossible at this date to forecast the nature of the Freshman team.
 Alumni Personalities

Deaths

'75 Allen G. Mitchell, who was retired and living at 315 South Orange St., Media, Pennsylvania, died July 4. Mr. Mitchell was formerly superintendent of the Atlantic Division of the Pennsylvania Railroad Company.

'21 W. Foster Barry, 37, of Cape Elizabeth, treasurer of the Timberlake-Estes Company, collapsed and died almost instantly of heart ailment as he was playing an extra hole of golf in the President's Cup tournament at the Portland Country Club, June 19. Mr. Barry was born in HARRISBURG, Pennsylvania, his family moving to Portland in 1912. Besides his wife, Frances Briggs Barry, he is survived by his mother, Mrs. Anna Barry, a brother, J. Urban Barry, both of South Portland, a sister, Miss Stella Barry, of Boston, and two children, Joan and Robert.

Dr. Edward Robie Berry

Dr. Edward R. Berry, a graduate of the University, class of 1904, and upon whom an honorary degree of D.Sc. was conferred in 1924, died in Scranton, Pennsylvania, August 17. With the passing of Dr. Berry the University and the General Alumni Association has lost one of its most ardent and loyal supporters.

In the field of science Dr. Berry was recognized as a leader, gaining world distinction thru his discovery of fused quartz in 1924 after several years of research. This achievement brought to him the much prized Grasselli medal in 1925, awarded to scientists who make notable contributions to science. His discovery proved to be highly valuable and practicable thruout the world, and has been mentioned by authorities as being one of the most important scientific discoveries of the decade.

Following graduation from the University, Dr. Berry gained valuable experience in several fields, becoming associated with the General Electric Company where he rose to the position of associate director of the Thompson-Tompson Company, and at the time of his death was vice-president of the Inland Utilities Co. of New York.

He is survived by a wife and a son Richard who is a sophomore at the University.

By Classes

'82 Thomas W. Hine, of 2700 Fairfield Street, Eureka, California, writes as follows: "I am out of touch with all the alumni and can only report as to myself. I have retired from business and if the Brain Trust will also retire before they destroy the constitution I will have enough to finish my days in reasonable comfort."

'83 Levi W. Taylor, who is retired, has moved to 35 So. Professor Street, Oberlin, Ohio.

'96 Joseph W. Randlette, of Richmond, has been chosen by the Republican county committee as the Republican candidate for county commissioner.

Paul D. Sargent, who has had long experience and training in the Highway Engineering and Municipal Drainage field, is now on the Engineering Staff of the Corrugated Metal Pipe Manufacturer's Association of New England, 1417 Statler Building, Boston, Mass.

'97 William G. McGrillis, of Plymouth, N. H., was chosen to serve on the executive committee of the New Hampshire Pharmaceutical Association.

The Percolator, a monthly publication of the Chemists Club, of New York City, contained in its March issue an article about Allen Rogers.

'00 Grosvenor W. Stickney is a Resident Engineer Inspector of the East Side Railroad Company.

'07 The Bye Family Ensemble, of Portland, has been signed for a series of radio broadcasts from Boston. The Bye Family Ensemble is composed of Erich Bye, pianist and director; Mrs. Odele Bye, second violin and soprano; Miss Christine Bye, first violin; Miss Eleanor Bye, cello; and Richard Bye, trumpeter.

'08 Edward W. Cram has been named to serve as a trustee of Westbrook Junior College until 1939.

Stacy C. Lanpher is secretary of the new fish and game association formed at Dover-Foxcroft for the promotion of hunting and fishing at Sebec Lake.

Otis W. Means has moved to 35 E. Owen Street, Newton Centre, Mass.

'Denoted by Classmates

'09 The Boston Evening Transcript of July 7, 1934 contained an article entitled—"A Friendly Hour with Mary Ellen Chase."

17 Miss Leola B. Chaplin, of Cornish, is head of the English Department at Westbrook Junior College. She has been in the English Department at the University of Maine where she received her Master's degree last year and was elected to Phi Beta Kappa.

18 Francis T. McCabe and Miss Luberta M. Harden were married in Boston August 11. Mrs. McCabe's home is in Bremerton, Washington. She has been on the staff of the Clark University Press in Worcester, Mass., since she took the Ph.D. degree there in 1925. Mr. McCabe is vice principal of the Ridge Technical School in Cambridge, Mass.

19 Charles Champion, of Miller's Falls, N. Y., has been elected as a vice-president of the American Pulp and Paper Mill Superintendents' Association.

20 A signal honor came to Nathan F. True when he was awarded an honorary degree of Doctor of Science at Evansville University, Evansville, Indiana, at the annual commencement exercises. He is a chemist with the Mend Johnson Company, and is an active member of numerous national science organizations.

21 O. E. Underhill, whose address is 21 Frances St., New Britain, Connecticut, is teaching science at the Connecticut State Teachers College, New Britain, Conn.

22 William P. Bangs is supervisor of Physical Education in the Public Schools of Hyannis, Mass.

23 Donald F. Alexander, who is Chief Electrical Engineer for the Frigidaire Corporation, has moved to 436 Dorset Drive, Dayton, Ohio.

24 Mary Friend, who is a teacher in Skowhegan High School, resides at 342 Water Street, Skowhegan, Me.

25 Raymond S. Finley is third vice-president of the newly organized Pittsfield Lions Club.
A. L. Holbrook is with the Massachusetts Department of Agriculture at Northampton, Mass.

G. Harrison Kennard, of Rumford, and Eleanor A. Fisher, of Mexico, were married on June 11. Mrs. Kennard has been employed at the Connecticut Paper and Bag mill in Rumford. Mr. Kennard is employed by the Rumford National Bank. Recently he was appointed to serve as liaison officer between the banking institutions and the Federal Housing Administration forces. One banker in each state has been appointed for this office to carry out the Government's program for housing repair and modernization.

John E. LaPlant is teaching science in the Winthrop High School. His residence address is R. S. Gardiner.

Ernest S. Ridlon is a 1st Lieutenant in the 132nd Co., C.C.C., Lewiston, and resides at Cape Porpoise.

Philip C. Roberts is Cottage Master #4 at the State School for Boys, South Portland.

Owen F. Sherman is chemist with the Kessley & Mattison Company, Ambler, Penna.

Virgil C. Smith and Azalia F. Osgood were married July 14 in Bangor. Mrs. Smith was graduated from Farmington Normal School and Columbia University. She has been principal at Woodland for the past three years. Mr. Smith has been employed as mechanical engineer by the St. Croix Paper Company at Woodland for the past six years.

Chester E. Baston is in the high school at Stafford Springs, Conn.

Floyd J. Carr was a caller at the Alumni office in August. He is now managing the S. S. Kresge Company in Bristol, Conn., and resides at 674 Farmington Avenue.

Wallace H. Elliott has been promoted to principal of Patten Academy. He has been in charge of the agriculture department and sub-master for the past seven years.

John D. Farquhar is assistant civil engineer for the Sanitary District of Chicago, and resides at 3544 Oak Avenue, Brookfield, Ill.

Madeline M. Gillen is teaching English in the Woosocket Senior High School, Woosocket, Rhode Island.

A fish and game association for the promotion of hunting and fishing at Sebec Lake has been formed at Dover-Foxcroft.

Eleanor G. Ringdahl is a teacher in the Drury High School at North Adams, Massachusetts, and resides at 156 Church Street.

Karl B. Whitcomb is a junior topographic engineer and is now with the U. S. Geological Survey party at Ludlow.

William L. Young and Ruth Crazy, of Newtonville, Mass., were married, August 11. Mrs. Young was graduated from Vassar College and from Simmons. Mr. Young is an instructor in the Horace Mann School, Everett, Mass.

Stuart H. Chapman, who is with the Westinghouse Electric and Manufacturing Company, has moved to 43 Lownes Lane, Springfield, Penna.

Mrs. Helen Peabody Davis, of Durham, North Carolina, announced the birth of a daughter, Elizabeth Hall Davis, on June 13.

Nathan Epstein, of Bangor, is coach of baseball and basketball at Caribou High School. He has been at Fort Kent High for a number of years.

George W. Jacobson was awarded Master of Science Degree at Rutgers University this year. Since his graduation from the University of Maine, he has devoted his energy toward teaching, graduate study, and research. He is now head of the department of mathematics at the Point Pleasant Beach, N. J., High School.

Michael L. Lavorgna is sales manager for the Synchronic Air Conditioning Corporation, Milwaukee, Wisconsin, and lives at 4474 N. Murray Avenue.

William Parsons is a forester for the Department of Interior at the Acadia National Park, Bar Harbor, and resides at Hulls Cove.

Clara W. Peabody and H. D. Hershman of Waterville, were married at Gorham, N. H. on June 23. Mrs. Arthur E. Wilson (Mabel Peabody '23) of Providence, R. I., was matron of honor. The double ring ceremony was read by the bride's brother-in-law, the Rev. Arthur E. Wilson '23.

Albert A. Rights is an instructor in English and dramatics at Lehigh University, Bethlehem, Penna. His address is 33 E. Elizabeth Avenue.

William Ringdahl is a partner in the Down East 5 & 10, Machias.

Eleanora G. Ringdahl is a teacher in the Drury High School at North Adams, Massachusetts, and resides at 156 Church Street.

Raymond E. Wood is research engineer for the Galvin Manufacturing Company, Chicago, Illinois, and lives at 3425 Shefield Avenue.

Russell B. Baker is a credit reporter. He lives at 23 Talh Avenue, Winthrop Beach, Massachusetts.

H. E. Bell is a partner in the Down East 5 & 10, Machias.

Eleanor M. Fitzherbert is a Debit Collector, Bureau of Internal Revenue, Augusta.

Carroll E. Hackett, of Portland, and Lilian Nordica Norton, of Farmington, were married June 16 at Brewer. Mrs. Webster has been teaching Home Economics at the College of Saint Elizabeth at Convent Station, New Jersey. Mr. Webster is assistant operating engineer at the Bangor Hydro-Electric Company.

Daphne M. Winslow, of Rockland, who has been teaching French, English, and physical education at Norway High School for the past seven years, is now teaching French and English at Fryeburg Academy, Fryeburg.

Byron Porter and Ruth L. Morris were married in Bradford, Pennsylvania, on August 4. Mrs. Porter graduated from Oberlin Kindergarten college and taught in the South Mountain school at South Orange, New Jersey. Mr. Porter is affiliated with the New York Trust Company credit department. They will reside at 31 Randolph Place, South Orange, New Jersey.

David H. Stevens is town manager of Ashland.

Clarence E. Otis is a commercial salesman for the Central Maine Power Company and lives at 16 Burleigh Street, Waterville.

Helen Moore, of McKinley, has joined the faculty of Cony High School in Augusta and has been employed by the Portland Maine Publishing Company. She graduated from the Maine School of Commerce in June.

Robert D. Parks and Katherine Fuller-ton were united in marriage on August 18 at Evinston, Florida.

The wedding of Maurice Stone and Cecelia Weinburger, of Pittsburgh, Penna., was solemnized in Pittsburgh, Pennsylvania, July 26. Mr. Stone was graduated from the Margaret Morrison School of Carnegie Institute of Technology. Mrs. Stone is now credit manager of the Liberal Credit Company of Pittsburgh.

"30 Do you realize, my dear classmates, that this column of ours is rolling on into its fifth year?"

And have you heard that—

"Georgie" Barnes is stepping up into the faculty of Presque Isle High from Sherman High.

Ruth Hall-ox leaves Ellsworth to continue her teaching of domestic science in Skowhegan Junior High.

Dorothy Culley is one of the faculty of Foxcroft Academy.

Roland Cyr is employed with the New Haven, Conn. Water Bureau as assistant engineer on designing, testing, and inspecting concrete.

Thurlow Abbott Chandler was united in marriage with Miss Georgie Marie Blanchard, of Pemberton, N. Y., on June 23. Mrs. Chandler was graduated from the Berkeley Institute and Froebel League and has held a position with the New York Kindergarten Union. Thurlow is connected with the American Tel. & Tel. Company in New York City. Emory Bailey, of Mystic, Conn., was one of the ushers.

Miss Virginia White became the bride of Stewart Donahue on August 16 in Presque Isle. She is a graduate of Simmons College, has been an efficient teacher in Westbrook Seminary, and for the past three years has taught home economics in Litchfield High School. N. H. St. George is in the bakery business in Presque Isle.

Miss Ruth Barker and Harland Knight were married in June in the Warren Congregational Church in Warren. Mrs. Knight is a graduate of Gorham Normal School and was a popular teacher in Westbrook. Harland is employed in the office of the Portland Record.

Among the late summer weddings was that of Miss Jennie Beatrice Smith to Ronald Irvin Miller, of Fall River, Mass. They were married in Farmington, June 23. Mrs. Hackett received her education at Farmington high school and Wheaton College, her residence address is 109 Gainsboro Street, Boston, Mass.

Howard R. Norton is an engineer for the U. S. Forest Service in Brookhaven, Mississippi.

Blair C. Wilson was elected president of the Morse High School Alumni Association, Bath, at their annual banquet. He is the youngest person ever to be appointed to this position. In August the engagement of Dorothea L. Greene ’32, of South Orange, New Jersey, was announced. She is employed by the Merrill Trust Company, Bangor. Mr. Lynch is in business with his father, who is president of the Lynch & Cameron Company, Bangor. They will reside at 38 North Pearl Street, Bangor.

Hildreth Matheson ’33 and Edward Palmer, of Portland, were married August 26 in Bangor. They are residing in Hamp-ton, N. H.

And have you heard that—

Miss Athalie Elaine Perry and Franklin Towne, which took place last November at Conway, N. H.

The marriage of Miss Barbara Hunt ’31 and Dr. Anthony Pelletier was solemnized on August 7. Tony received his M.D. from Yale Medical School this June and now goes to Bosto to serve an internship in surgery in King’s Hospital. Mrs. Pelletier is a research assistant in the Department of Internal Medicine.

The wedding of Miss Angeline Aldrich and Ross Patterson Spear took place in June in Bangor. Mrs. Spear is a graduate of Washington State Normal School and has taught in Cutler, Danforth, and East Corinth. Ross has been principal of East Corinth Academy for the past four years.

The marriage has been announced of Miss Millie Davis and Dr. C. E. Badger, which took place last November at Conway, N. H.

Pauline Hall, Class Secretary, 59 Fletcher Street, Kennebunk.

"31 Hello, ’31-ers, Freshman Week has begun on the campus, and believe me, I didn’t feel any greener seven years ago when we arrived than I do now as our class secretary. I plan to do my best, however, and with some help from you all, I think maybe we can make this column quite newsy."

It seemed good to meet a few familiar faces at summer school. Jean Keirstead, Vivian Drinkwater and I were taking courses, and Florence Ward Elliott was here with Linwood.

Mr. and Mrs. Paul Bennett have a young re (Pete), William Silas, born April 28, 1934.

Do you realize, my dear classmates, that this column of ours is rolling on into its fifth year?"

Mr. and Mrs. Paul Bennett have a young re (Pete), William Silas, born April 28, 1934.

At Maine’s summer camps this summer were Dave Farrar and Sam Sezaak. Dave was instructor in handicraft at the Bangor “Y” summer camp at Branch pond. Sam was back for his “5th” year at “Phil Jones’” Hatch on Great Pond. They are residing in the Suburban.”

On June 10th Miss Phyllis M. Brydon, of West Falmouth, became the bride of Dick F. Blanchard. They are living in Pemberton and Mr. Dick is still with the U. of M. Agricultural Extension agent in Oxford county.

On Aug. 27 Miss Marion Dickey and Charlie Chaplin were married in Cornish. They are receiving mail at R.P.D. #3, Bangor, Maine.

Jennie Davidson and Bob Jackson ’29 were married in Old Town July 16th. Bob is at present sales manager of the aeronautical division in N. Y. C. of the Aluminum Co. of America. They are residing at 794 Anderson Ave., Apt. 5, Grantwood, N. J.

"Chucky” Cushman is salesman for Cooper Publishing Co. He was married July 4th at Portsmouth, N. H. to Miss Hazel Louise Davis, of Westbrook. They are living at 97 Fern Street, Bangor. Last Wednesday, Sept. 5th, in the Meth­odist Episcopal Church in Winterport Frances Downes became the bride of Bernard Parr, of Mansfield, Ohio. In 1933 “Fran” received her M.A. in zoology from Massachusetts State College, and has been teaching in Caribou. Mr. Parr was graduated from the Univ. of Illinois in 1929 and was instructor in mechanical engineering at
the U. of M. from 1930-1933. At present he is an engineer with the Westinghouse company in Mansfield, and there the couple will reside at 437 Park Ave. west.

Who says college romances don’t last? ’31 has proof they do. On July 16th Hazel Hammond and Ewart Rawnsley were married in a very attractive home wedding at Stillwater. Ewart is now employed in Sanford.

On Tuesday, Aug. 28, Dr. “Tony” Pelletier and Barbara Hunt were married in Portland. “Tony” is to serve his internship at the King’s hospital, Brooklyn, N. Y., and Barbara is research assistant in the department of internal medicine at Yale University. At the wedding Jeanette Roney, 30, had charge of the gift book, and Eleanor Mahoney and Hazel Parkhurst served. Among those present were Mr. and Mrs. Warren Blockinger. “Blocky” is now manager of a Grant Store in South Boston, and is living at 132 Washington St., Brighton, Mass.

News has been received of the recent wedding in Farnington of Raymond “King” Mossler and Mary Clark, of Livermore Falls. “King” is chief chemist at the International Paper Company’s Otis Mill in Chisholm, and they are residing in Livermore Falls.

Dick and Polly Starns Loring have a new assistant in their filling station, Master William George Loring, born July 9, 1934.

Mr. and Mrs. Malcolm Long (Thelma Gibbs) are now residing at 407 N. 33rd St., Billings, Montana.

Neal Landers’ new address is 515 Meadow St., Agawam, Mass.

Another summer engagement was that of Helen Pigeon to G. Philip Walker, of Fryeburg.

The marriage of Miss Manilva Noyes and John P. Doyle took place on July 10, 1934, at the home of the bride in Caribou. Mrs. Doyle is a graduate of Caribou High School and Aroostook State Normal School. She has been teaching in the Caribou schools. The new couple will live in Caribou.

The marriage of Miss Gilberta Watters, of East Hampden, and Keith Percival occurred on July 10, 1934. Mrs. Percival is a graduate from St. Joseph’s College, Princeton, N. J., and where “Bee” will continue to teach. She was married in St. Dominic’s church, Portland, on Sept. 12th to Edwin T. Nadeau, of Eastport. She was attended by the bride’s sister. They will reside in Eastport where the groom, a graduate from St. Joseph’s College, Princeton, N. J., is in business, and where “Bee” will live.

Normal School at Castine has opened with Erno Scott promoted to vice principal. Erno previously taught psychology and sociology.

And now, so long until next month. Don’t forget to let me know your whereabouts and who’s who.

Mary R. Carter, Class Secretary, University of Maine, Orono.

’32 Frank Battles received an M.A. in Economics at Syracuse University this summer.

Miss Ethel M. Mayers was married to Harry J. Burnham on July 3, 1934, at Brookfield, Mass. The bride is a graduate of Summer High School, 1929, also of Bridgewater Teachers’ College, 1930. She has been a teacher in Garfield school, Holbrook. Mr. and Mrs. Burnham will make their home at 420 Main Street, Saco.

Paul L. Danforth has been appointed a special representative of Lions International, from Belfast. He has been employed in the Belfast branch of the Merrill Trust Company for the past three years.

Ke is associated with the Penobscot Chemical Fibre Company for several years. Mr. Pressey is employed by the Penobscot Chemical Fibre Company. Dorothy Somers is teaching Home Economics at Wells High School, Wells.

The announcement of the engagement of Louise Washburn to Anthony Stranges was made recently. Mr. Stranges is from Germantown, Penna., and he studied engineering at Drexel. The wedding is to take place in Maine this Fall.

Bertha Warren is Drama Artist in the advertising department of the Community Service of Boston. Her address is 220 Hemenway Street, Back Bay, Boston, Mass.

Class Secretary, Mrs. Helen Stearns Hincks, Myrtle St., Orono.

Bertha Warren is Drama Artist in the advertising department of the Community Service of Boston. Her address is 220 Hemenway Street, Back Bay, Boston, Mass.

Class Secretary, Mrs. Helen Stearns Hincks, Myrtle St., Orono.

Don Blake sends in his destination as Millinocket, Maine. He is with the 193rd Company, Department of Agriculture. He is with the 193rd Company of the C.C.C. I guess you're one of few 1933 foresters who has not gone to the "uttermost" parts of the U.S.

Several new folks have been added to our enrollment this summer—On August 10 Libs Hilliker was married to Joseph LaFrance in Gilford, N. H. They will make their home in Belmont, N. H. where Mr. LaFrance is employed in the Belmont Hosier Co. We didn't even survive, Libs, but we hasten to send our best wishes. On June 18 Phil Plummer, Phi Mu Delta, was married to Alice Elizabeth Tapley. Phil is employed as a foreman in the Stowell Silk and Spool Co. at Bryant Pond. On June 28 Betty Barron and Bob Pendleton were married in Brunswick. Ev Gleason was one of the bridesmaids. Betty and Bob were in here one Sunday for dinner—Betty and Bob, too—stated that her first batch of muffins had been devoured in one meal. Some time in August Dick Porter and Ruth Drew Talbot, of Gorham, were married. Dick is connected with the S. D. Warren Co. of Portland.

"Staircase" class is employed as Advertising Manager for Rines' Brothers Company, department store, in Portland.

On May 5th Warren Hendrickson and Dorothy Van Alyne, of Waterville, were married. For the past winter Warren has been assistant state director of the CWA.

Well, summer is over and soon the "frost will be on the punkin"—but never mind—we've all had a grand summer—we've worked hard—we've thought a lot about the world—have we? We've had certain notions about "Prohibition—The Miracles—Modern Youth—World Peace, etc. in Bal- entine—didn't we?

Well, I suppose that Arthur Brown is in England now. He and his sister, Bet¬rina, sailed from New York the first of August. Bettina will study at the Sor¬bonne in Paris during the winter, com¬pleting her college course, while Arthur will study mathematics at Bransen College, Oxford University, as a Rhodes Scholar from the New England Rhodes Foundation District. After completing the coming year's study at Oxford, he will have the option of taking another year for an advanced degree.

LeRoy Shaw, Jr. is now with the Central Maine Power Co. in Dexter, Maine. His address is 141 Main St., Dexter, Maine. Bunny Callaghan was appointed Home Demonstration Agent for Oxford County on July 1st. We know that you were very successful, Bunny, in a similar position in Aroostook and Waldo Counties and we congratulate Oxford County on its choice. By the way—don't you ever have time to write a letter? Am i glad your answer to this question has been published. It is hard to find time to write to each other—isn't it? We do a lot of thinking but it's rare when we get the same thoughts on paper. But I'm glad you are doing Home Demonstration Work in Farmington, Maine. Can't you just hear Betty and Bunny in their customary earnestness discussing and discussing. We did enjoy settling all those little questions like 'Prohibition—The Miracles—Modern Youth—World Peace, etc. in Bal¬entine—didn't we?'

One of our classmates, Bert Richardson, has gone "galavantin"—way off to California. He is doing laboratory work for the Adohr Creamery Co., 1801 La Cienega Boulevard, Los Angeles.

From time to time when you gather bits of news please send it along to 87 Spring St., Saco. That must have an old familiar ring—a plea for news.

Those of our class who have taken the fatal plunge are as follows: Errol Higgins married Glenna Bell Walsh on July 25. James Pisco married Helen Smith, of Chicago. Charles Reed married Price! A Whitmore on graduation day. Ruth Smith married Seth Jackson of the Class of '33. Allen Thomas married Enid Mer¬ton of Moncton, N. B., and they are liv¬ing in Caribou. Bob Thomas and Elmor Grimnell were also married at Commence¬ment time. Lawrence Tompkins married Pauline Sibley, of Old Town. Lawrence is teaching at the Merrill High School in Smyrna Hills. Ruth Walenta married John Pease Hodgkins and will live in Old Town Square, where her hus¬band teaches in Ellis College.

You can obtain the full address of any of these people by writing to me at Calais, Maine, or to the General Alumni Association at Orono.

Peanut Bunker, Class Secretary.
THROUGH recent trying years there has been no letting down in the quality of your Bell telephone service. On the contrary, improvement has gone steadily on.

On long distance and toll calls, the percentage of calls completed is now higher than ever before. The average time required for making these connections has been reduced from 2.8 minutes in 1929 to 1.5 minutes. Since 1929, mistakes by operators have been reduced one-third and more than 99% of all telephone calls are now handled without error.

The number of service complaints by customers is now the lowest on record and reports of trouble with instruments have decreased 17% since 1929. It is truer than ever that this country enjoys the best telephone service in the world.

The ability of the telephone system to improve its service in difficult years is due to unified management and a plan of operation that has been developed and perfected over the past half-century. In good times and bad, it has proved the wisdom of one policy, one system and universal service.

BELL TELEPHONE SYSTEM
"To me a cigarette is the best smoke. It’s a short smoke... and then again it’s milder.

“I notice that you smoke Chesterfields also. I like them very much.”

“I HAD A BERTH in the ninth sleeper. It was a heavy train and a cold night—snowing—and I thought about the man with his hand on the throttle. I admire and respect those men.”
