University of Maine president Joan Ferrini-Mundy, who chairs the University of Maine System Science Advisory Board, talked with the Portland Press Herald about current COVID-19 guidelines and active case numbers across the System. "We're wanting to be sure we do all we can to keep everyone safe, so our discussions are more around, 'Do we need to add anything? What do the numbers look like?'" Ferrini-Mundy said. "Every day we look at these numbers, but at this point there hasn't been a discussion about rolling back in any way." Yahoo! News shared the Press Herald story.
