MAINE ALUMNUS
UNIVERSITY OF MAINE

FEBRUARY MARCH 1962
Where did yesterday go?

That's the big trouble with college reunions. They bring home the fact that time passes awfully fast!

Let's look ahead.

As a husband and father you can look ahead with greater confidence once you have talked life insurance with a Connecticut Mutual Life man. Reason: A CML man can tell you how much and what kind of life insurance will provide exactly what you want for your wife and children. He'll ask you what you and your family need, and when, and then recommend a plan to provide the funds. This skilled professional work he does without cost or obligation.

Many a client of a CML agent has been delighted at what was done to stretch his present life insurance, to make it provide more money for the right purposes at the right times without increasing the cost one cent! Why not call on a CML man for this service?

*Dividends paid to policyholders for 116 years*

Owned by its policyholders, CML provides high quality life insurance at low cost and gives personal service through more than 300 offices in the United States.

THINKING OF YOUR FAMILY'S FUTURE?

MAKE A DATE FOR YOU AND YOUR ATTORNEY to visit with one of our Trust Officers. One of the soundest ways to start off the year is to assure a good measure of security for your loved ones. It takes so little time... yet means so much. We'll be more than glad to talk to you and your attorney, at your convenience, about the peace of mind our trust services can bring you, in '62.

The Maine Alumnus

Editor's Stencil

A n alumni magazine speaks in a special way for the institution it represents. It reinforces intentions and actions of the associated former students.

The function of this periodical we call The Maine Alumnus follows, therefore, three general purposes: To present news, to reflect University views and to report alumni plans and actions in support of the institution.

There are several ways to accomplish these ends. Our publication could present limited or slanted news. It could propagandize one-sidedly for the University. It could give only restricted and unfair reports about a certain few alumni, chosen arbitrarily.

Or, conversely, it could present objectively the news and views of the University and its various spokesmen and alumni, letting the chips fall where they may.

We hope you feel The Alumnus follows the latter course. We hope you find evidence that our alumni magazine is making a sincere effort to achieve the objectives outlined above.

The question of editorial slant will normally be answered by an attempt to expose the good side of the University. Courage to be critical of policies not immediately popular is desirable, though it should be tempered by judgments that help preserve a "good image" of the institution and develop favorable "public relations."

However, honesty and strict dealing with truth in all ways must be the prime responsibility of such a magazine, as it is of the university it serves. Your alumni magazine, above all else, must be truthful, if it is to be a respected spokesman of those it represents.

It is an objective of The Alumnus to report what the Alumni Association is planning and doing, and thus to involve more alumni in joining others to achieve the united action believed to be directed toward the welfare of the University. Activities of the classes, local association work, committee projects and fund raising are important matters to be reported between the covers of The Alumnus.

We who are concerned with the production of The Alumnus feel it should achieve a dual goal. We believe it should be informational and inspirational. Alumni readers can helpfully resolve to assist us in our efforts by sending us information of general interest and by commenting on the contents of our issues.

Our readers can also assist by telling us what they think should appear in their magazine. Would a section by the president of the University be of interest? Would a section of letters from readers be an added attraction? Would more features about current University problems and various interpretations of these be of interest? Should the magazine try to present feature stories about more of the University's outstandingly successful former students? Should there be a continuing educational and cultural purpose in feature presentations?

These are some of the questions your editors continually face and hope you will help to answer by your comments.

So, if The Alumnus is to achieve the objectives its editors have outlined for it, it will take a continuing effort and interest on the part of its alumni readers. Your editors are determined that The Alumnus will shoulder a distinct amount of responsibility for advancement of the University.

---

The Cover: One of the newest additions to the Alumni Office "family" is the automobile pictured beside the Library. The automobile was made available through the generosity of William E. Bodwell '30, president of Bodwell Motors, Inc., in Bath. It's a Ford Fairlane 500 and its colors are the same as Maine's—pale blue and white.

THESE 3 VITAL STEPS
bring you the world's best telephone service

1 • RESEARCH
The telephone was born of research and grows ever more useful the same way. Bell Telephone Laboratories conducts a far-reaching research and development program—most of it in communications, but much of it devoted to defense.

Basic Bell inventions such as the Transistor and the Solar Battery have benefited man in many ways. And constant development of new equipment is revolutionizing telephony. But research alone doesn't bring service improvements and economies.

2 • MANUFACTURE
Research-created equipment must be manufactured, held to high standards at low cost, and made available anywhere in the nation.

That's Western Electric's job. Working closely with Bell Laboratories, Western Electric makes the vast amounts of high-quality equipment required for the telephone network. But the task still remains of putting this research and equipment to work—so they can make daily living easier and more pleasant for you and your family.

3 • OPERATION
Here, twenty-one Bell Telephone Companies step in. They take the results of Bell Laboratories research and Western Electric production and bring them to useful life on your bedside table or kitchen wall or office desk.

All three—research, manufacture, operation—are interdependent and indispensable. Working as a team with a common goal, they give this country the world's finest telephone service and more telephones than all other countries combined!

BELL TELEPHONE SYSTEM
Owned by more than two million Americans
What kind of university do I want?

A sensitive and aware university, creative and responsible, genuine, devoted to excellence;

A university in which clarity and joy are intrinsic, not accidental;

A university which celebrates truth and beauty and moral integrity in the way it envisions and carries on its primary intellectual functions;

A university, not a mere aggregate, a collegium in which teaching is itself a sharing of learning;

A university aware of its profound responsibility as the special nerve ganglion of society;

An intellectual-social group with a professional morale—i.e., an acceptance of its role as the intellectual conscience of the social order; that is to say, an acceptance of the inexorable demands of the emerging future dependent upon the resources of the present;

And therefore, a university involved, enmeshed, engaged, and yet, detached, transcending the present, roving, free;

A university aware of the past, that infinite reservoir of achievement, of failure, and hence, of wisdom;

And even more aware of that other infinity, the future, boundless for good and for ill;

A university which does not forget its locale, its own flavor, yet reaches to the ends of the world and learns from every culture.

What is it that makes an institution a university?

Vision.

Vision of needs and resources and possibilities.

Vision which cherishes equally the realized and the as-yet-unexplored, the actual and the not-yet-achieved, the known and the still-uncomprehended.

Vision and discipline and joy; patient effort, work and work; concentration and willingness to learn from the gentlest promptings of the quiet mind; courage to hold on, and willingness to forego even the most precious for a still more necessary truth.

Something like this is a university.

And what do we have to bring such an ideal to any degree of actuality?

Only people—actual persons, not as they might be, but as they actually are now—today.

Students and staff; teachers, scholars, researchers, planners, administrators, providers and maintainers of services and equipment;

Only people, and the curious tools of the mind: books, laboratories; and the impalpable, but sustaining and directing, web of mental-social habits— the karma which holds together seminar and class, tutorial, solitary study and group achievement.
Maine tackles the FUTURE

1. Where are we going?
2. How will we get there?

It takes no crystal ball to tell University of Maine planners that they face an enormous task in the coming decades of making room for an onslaught of college students. They are not taking a mere stab in the dark when they foresee a doubling of enrollments by 1970. When they make this projection they are counting actual heads—they are taking into account students already in grade schools and high schools, heading toward college educations. How are these planners tackling the problem of making room? Where will these students live? Who will teach them? What will they learn? Where will the necessary classrooms and laboratories come from? Above all else, who will foot the bill? For answers to these pressing questions facing the University of Maine, Alumnus associate editor Ronald K. Devine '55 has interviewed some of the key individuals intimately involved in Maine's future. What he has learned appears on the following pages.
Higher education's great demands are not going to decrease in the 1960's and I believe that it is vitally important for the citizens of Maine to realize that if we are going to achieve economic and social progress in this state we must provide qualified Maine boys and girls with the same opportunity to receive a college education, as do similar young people throughout the country.

For those reasons I am hopeful that continued and accelerated support of the University of Maine will receive top priority in the state's educational effort during the coming months.

On the south end of campus these days two crews of workmen are busily engaged in seemingly divergent projects. One crew is building for the future; the other is tearing down a piece of the past.

Going up is a new women's dormitory. Coming down are the South Apartments, to make way for what eventually will become a complex of living quarters for co-eds.

The significance of these two operations is that, while one is building and the other is tearing down, both are part of a unified, long-range plan of expansion of the state university.

In 1960 the firm of Alonzo J. Harriman, Inc., architects and engineers, prepared a report entitled, "A Growing University—1960-1970; a long range plan of growth for the campus of the University of Maine at Orono, Maine."

Here is what the planners wrote about needs in the coming ten years: "A realistic enrollment projection for the University of Maine for the next decade indicates that enrollment will double by 1970. These young men and women are already with us; they are not projected population figures. They exist in our grade and high schools today and they will want to attend the University tomorrow...."

"If the expansion of the University is to be accomplished in a logical manner, it is necessary to develop a long range plan of growth. Buildings must be located to effect an orderly development of the several Colleges of the University as well as required housing and dining facilities. Care must be taken that long term growth is in no way hampered."

The biggest "if"

However, the report is quick to emphasize that the plans it outlines all hinge on one vital point: "It...assumes that all physical plant expansion, and the necessary and accompanying increase in operating costs, faculty salary adjustments, etc., will find adequate funds available, as needed, for this expansion."

Thus is interjected the biggest "if" in the pattern of the University's future. It involves a biennial difference of opinion between University administrators and the Legislature as to how much the state can afford to contribute to growth of the institution.

For instance, during the last Legislature, the University requested $9,056,000 for 18 capital projects. It received $2,321,700 for five projects.

There are many sincere and conscientious legislators who feel the state simply cannot afford to appropriate the amount the University feels it needs. There are others who flatly state that the institution is large enough as it is now, and should not be expanded, even if money were available.

Prior to the convening of the last Legislature, the University held a pre-legislative conference to which all of the state's legislators were invited, to tour the campus and to see for themselves what kind of a state university they were being asked to appropriate funds for.

One legislator who refused to attend, when pressed for a reason, admitted: "My mind is made up on how much money they should get. I didn't want to be talked into anything."

Later, while the session was in progress, another legislator visited the campus during the latter part of the afternoon one day. He walked through one of the academic buildings and was chagrined at finding so many idle classrooms. "Why are you asking for more classrooms when you're not using the ones you have?" he demanded of an administrator. He was not impressed by the answer that at that time of day most students had finished their classwork. "Well,

A public body should give consideration to ways in which public education can be strengthened in Maine....

...I think the University must rely upon those who see the importance of education to interpret these needs and basically for the facts to speak for themselves....

...Educational opportunity will not be expanded until citizens as a group and parents specifically want greater opportunities for their youngsters. I am confident that the people of Maine are desirous of a system of higher education equal to any in the nation.
Who will teach them? The scarcity of available instructors presents one of the most pressing problems in Maine’s future

why don’t you start running classes in shifts?” he retorted.

Even if it were academically desirable to operate a university on an around-the-clock basis, it would not solve another of Maine’s serious problems. If the campus operated day and night, twelve months a year, it might not need to build a single new classroom for a decade or more to handle the anticipated influx of students. But who would teach them?

Qualified faculty members are becoming increasingly scarce. More and more holders of doctorate degrees are being syphoned off college campuses and into more lucrative positions in industry. Competition among colleges and universities for the available faculty manpower is becoming more and more keen as demands increasingly exceed supplies.

University administrators feel Maine is not in a favorably competitive position in this regard. They can produce figures to show that Maine’s salaries are on the average of $1,300 lower than salaries at “sister” institutions in New England.

The faculty outlook

But salaries are not the only criterion upon which to judge the competitiveness of an institution in the search for a high-quality staff.

“Our best means of attracting and keeping outstanding faculty members is to permit them to develop individuals as well as departmental research and to participate in graduate level teaching,” says Dr. Lloyd H. Elliott, University president. This cannot be done if the undergraduate teaching load is too heavy.

Dean Joseph M. Murray of the College of Arts and Sciences feels the same way. All other things being equal, a potential faculty member will choose the institution that offers him the best facilities and chances for advancement, he says.

In fact, Dean Murray feels the most pressing problem facing the University is obtaining and holding a trained, experienced staff. He feels physical advantages are important in order to keep good personnel here; but at this point they are a secondary problem, albeit a serious one.

He is not optimistic about the outlook for the faculty problem. “I see no horizon to indicate that it will be relieved, to maintain the same requirements as we now have,” he says.

Easing the scarcity

Dr. H. Austin Peck, vice president for administration, discussed the scarcity of college instructors at a faculty seminar in November. At that time he suggested six steps which are now under consideration by educators for easing the scarcity:

(1) Give the students more responsibility for their own learning; (2) eliminate duplication and overlapping of courses; (3) try more experimenting with certain sizes of classes, perhaps finding larger classes effective in certain fields; (4) use more mechanical and electronic devices, such as television and teaching machines; (5) give some of the non-professional work done by professors to clerical and other non-professional employees; and (6) consider cutting down on the number of faculty committees and other administrative duties so professors can spend more of their time teaching.

Many Maine citizens are asking the question, “If we have such a financial and faculty problem, does the University really have to grow?” They note that other colleges in the state have placed rather rigid ceilings on their enrollments and have flatly refused to expand beyond a certain point.

Campus administrators feel this is one of the very pressing reasons the University of Maine must increase in size. They interpret the primary responsibility of the state university as one of providing a college education for all qualified Maine students who seek one.

Evidence that more and more qualified students will be seeking places at the University comes from the office of James A.

How Others Feel:

To improve the quality of its education, Maine must “emphasize the exceptional students, not the athletic teams. It must erase the ‘mass education’ image, show production of top-quality students.”

ROBERT A. MARDEN
STATE SENATOR
WATERVILLE

“Unless the University continues to grow to meet the demand it will mean that the state is failing in its obligation to educate its young people. This would adversely affect the future economy of the state and its existing businesses whether they be manufacturing, agriculture, forestry, fishing or recreation.”

RICHARD K. WARREN
PUBLISHER
BANGOR DAILY NEWS

The University’s most pressing responsibility is to gear for the future. It must increase in size, but quality must also improve. It can best improve this quality “by aggressive programs of faculty recruitment based on better salary scales.”

W. GORDON ROBERTSON
PRESIDENT
BANGOR AND AROOSTOOK COMPANY

The University’s most pressing needs are: “(a) Expansion of the University of Maine at Portland, to provide a ‘commuters’ college; and (b) expansion of engineering and research in fields particularly pertinent to Maine.”

REGINALD STURTEVANT
PRESIDENT
LIVERMORE FALLS TRUST COMPANY
"Maine is ready to go -- all we need is a few dollars"

Harmon, director of admissions. Mr. Harmon reports that applications for admission to next fall's freshman class are coming in faster than at any previous time within his experience. At the end of January more than 1,800 applications had been received, he says, adding that he expects some 2,700 in all this year. There are about 1,220 places for them.

Along with the increased number of applications, Mr. Harmon notes a higher and higher percentage of outstanding students seeking entry. "Many students who are not prepared to meet the demands of a senior college program and who might still have, in the past, made an application, are not doing so today," he says.

Compounding the problem of rising enrollments, faculty scarcity and physical plant limitations at the undergraduate level is an increasing trend toward growth of and need for graduate programs. "Maine's growth must be both vertical and horizontal," Dr. Elliott explains. "We must grow upward with more opportunity for graduate work, while at the same time broadening our base of undergraduate study."

The academic deans are vitally aware of this trend. "The undergraduate enrollment will increase more slowly, but the extent and quality of the graduate program must increase more rapidly," says Dean Weston S. Evans of the College of Technology.

"As we develop more liberal and broad undergraduate programs, we will create more of a need for specialization at the graduate level," comments Dean Winthrop C. Libby of the College of Agriculture.

"Development of a strong graduate program is obviously a 'must' in the next ten years," says Dean Murray of the College of Arts and Sciences.

Meeting the challenge

With these problems facing it during the coming decades—increasing enrollments necessitating expansion of physical facilities and acquisition of additional qualified staff members—how will the University and the State of Maine meet the challenge?

"Higher education's great demands are not going to decrease in the 1960's," says Governor John H. Reed, "and I believe that it is vitally important for the citizens of Maine to realize that if we are going to achieve economic and social progress in this state we must provide qualified Maine boys and girls with the same opportunity to receive a college education, as similar young people throughout the country.

"For these reasons, I am hopeful that continued and accelerated support of the University of Maine will receive top priority in the state's educational effort during the coming months."

Dr. Elliott proposes that "a public body should give consideration to ways in which public education can be strengthened in Maine... The Legislature, governor and other state officials should forge a far-reaching and definitive plan for the future growth of higher education in Maine, not continue in the happenstance manner which exists at present, operating from legislative session to session."

"The state will fail to advance at a rate commensurate with the rest of the country, economically, culturally and socially," if the University fails to grow to meet the state's needs, Dr. Elliott says.

How will the University get its point across to the people of Maine? "I think the University must rely upon those who see the importance of education to interpret these needs and basically for the facts to speak for themselves," Dr. Elliott says. "Educational opportunity will not be expanded until citizens as a group and parents specifically want greater opportunities for their youngsters. I am confident that the people of Maine are desirious of a system of higher education equal to any in the nation."

Dean Evans views the future with a similar optimism and his comment seems to sum up the feelings of the rest of the University's administrators:

"I have high hopes for the future of the University. I think it is in a better position to go in the right direction than it has been in for a long time. Maine is ready to go—all we need is a few dollars."

Next:

"Will my children get into college?"

Yet... If... In its next issue, The Alumnus will present an exploration of these all-important "ifs" in a 16-page series of essays entitled, "The College of Tomorrow."

The special report is a product of a cooperative endeavor in which scores of schools, colleges and universities are taking part. It was prepared under the direction of a group of educators who form "Editorial Projects for Education," a non-profit organization associated with the American Alumni Council.

The report tells the remarkably exciting story of higher education's future. Next... in The Alumnus.
Mary Alden Hopkins '99 Bequeaths
Valuable Library Collection

Through a thoughtful bequest of Miss Mary Alden Hopkins '99, the University of Maine Library recently received a valuable collection of 560 eighteenth century volumes.

Miss Hopkins’ desire to leave her collection to the University was made known by a friend, Mrs. Mary Squire Abbot, who wrote, “Miss Hopkins, an author, always had a deep interest in the 18th century as reflected in two of her own books. These were Hannah More and Her Circle, and Dr. Johnson's Litchfield.”

The eighteenth century collection consists of biographical volumes of prominent figures such as Walpole, Johnson, Garrick, Mrs. Thrale, Anna Seward; books about the domestic, social, and political life of the period; regional books concerned with architecture and gardens; books on the theatre and drama, and on literature; and basic reference books such as Burke’s Peerage and Landed Gentry, atlases, etc.

Miss Hopkins, a native of Bangor, had studied at Wellesley College and Columbia University after leaving Maine.

University Librarian Louis T. Ibbotson, in accepting the collection, said, “The working library of a scholar represents volumes which libraries cherish. When the library is that of a former student, it takes on added meaning. This eighteenth century collection will enhance the University of Maine Library collections, particularly in the field of English literature.”
NEEDED: $50,000 now for complete 600-seat theater-type

HAUCK AUDITORIUM

Construction to go forward this Spring and Summer

Fund-raising also going ahead during construction

Completion expected next year

The Arthur A. Hauck Auditorium will be constructed as a connecting structure to the Memorial Union Building, as shown below in the artist's sketch. A bookstore will be included on the ground level and its entrance can be observed in the sketch. At left in the drawing is the new education building. At the right is South Stevens Hall. The Library can be seen in the background, right.

Campus in Winter — II

Look, Ma -- no snow!

It wasn’t exactly an eskimo’s paradise. But the calendar said it was Winter Carnival weekend, and there would be snow sculptures. Even if there wasn’t any snow—to speak of.

Because of the herculean efforts needed to accumulate an adequate supply of snow for sculpturing from the barely two inches on the ground, it soon became evident the contest would be an all-male event.

Employing ingenuity and foresight as well as muscular power, fraternity and dormitory men trucked, scraped and plowed enough together to provide some stiff competition.

Alpha Gamma Rho won in the fraternity division with a white-toothed beaver beside a pointed tree stump. The entry was entitled, “Look Ma—No Cavities!” (See photo). Delta Tau Delta and Phi Gamma Delta were runners up.

Gannett Hall won first prize in the men’s dormitory division, with Cumberland Hall gaining an honorable mention.

Memorial Gymnasium was crowded Friday night for the Carnival Ball, at which Patricia Hebert of Westbrook and Sandy Fraser of Beaconfield, Que., were crowned king and queen.

Treading Indian Stages

Meanwhile, from half a world away came word that the Masque Theatre touring company had arrived safely in India. The company, made up of 13 University students and four grade school youngsters, is making a four-month trek through India and Pakistan as a goodwill mission for the U. S. State Department.

Gov. John H. Reed ’42 sent his congratulations to the dramatic group on the eve of departure. “We are certainly pleased that the theatre group is having the opportunity of touring in India and Pakistan and I am sure we will be proud of their achievements and that they will bring credit to the entire state, as well as to our country,” he said.

Back on campus, a committee of nine undergraduates was making plans for the annual Brotherhood Week held the last week of February. “Race Relations” was the theme. Among those participating was the Rev. Maurice McCrackin of West Cincinnati, Ohio, noted for his efforts in the field of human rights, and treasurer of “Operation Freedom,” a national organization formed to give support to the civil rights struggle in Haywood and Fayette counties, Tennessee.

Appearances by internationally known theatrical and musical figures and groups were highlights of the March Arts Festival. Poet and anthologist Louis Untermeyer, author Cornelia Otis Skinner and playwright Marc Connelly lectured and gave readings from their works. The Quebec Symphony Orchestra and the Claremont Quartet presented concerts. The program also included art exhibits, film showings and seminars. Registrar George H. Crosby headed the 12-member student-faculty planning committee.

For Freshman: Honors

In academic affairs, the College of Arts and Sciences for the first time extended its honors program to the second semester of the freshman year. Thirty-two outstanding freshman students were selected to take part, 29 from the College of Arts and Sciences and three from the College of Education.

In the bricks-and-mortar department, the maintenance and control committee of the Board of Trustees opened bids on another women’s dormitory. The $1 million structure is designed to accommodate 180 students. Construction is due to begin in the spring.

Another sign of spring was word that preparations have begun for Farm and Home Week in April. Some 4,000 visitors are expected to attend the 55th annual event.

As the days slowly churned toward spring, most on campus were counting their blessings at having had such a mild winter so far—and crossing their fingers that it wouldn’t take a turn for the worse.

Members of the Maine Masque theatre group prepare to board a bus to begin their tour of India and Pakistan. Photo courtesy of the Bangor Daily News.
Maine's first distinguished professorship

The University will institute its first distinguished professorship in the field of pulp and paper technology, as a result of a $30,000 grant from the Louis Calder Foundation of New York City.

The grant, accepted by President Lloyd H. Elliott at a meeting of the University's Development Council, was made through the University of Maine Pulp and Paper Foundation.

The funds, $10,000 to be used each year, will establish a position to be filled by an outstanding teacher or scholar whose salary and research interests will be supported by funds in addition to those provided by the regular university budget.

"It is a pleasure for the Development Council to announce this notable milestone which is the first such professorship ever received at the University of Maine," W. Gordon Robertson, Council chairman, said.

Speaking on behalf of the University's trustees, Dr. Elliott pointed out the impact a program of this kind will have. "This professorship, and those which will follow, will do much to place academic departments of the University in a position of unquestioned excellence. Officers and directors of the Louis Calder Foundation have shown the way to a new level of support for the University of Maine and we are most grateful," he said.

The course in pulp and paper technology was the first in the nation when it was established in 1913.

Law school dean named

Edward S. Godfrey, professor of law at Albany Law School, Union College, has been appointed dean of the University's Law School in Portland, effective July 1.

A native of Phoenix, Ariz., Mr. Godfrey is a graduate of Harvard University.

The law school in Portland became a part of the University last September as a result of the merger of Portland University with the University of Maine.

Mr. Godfrey's appointment is the first step in the University's plans to develop a fully accredited three-year graduate school for granting of law degrees.

REPRESENTING MAINENeeded:

John K. Dineen '51 represented the University at the inauguration of Henry A. Kriebel as president of Babson Institute at Wellesley, Mass.

MATURE WOMEN

BY DR. MARY S. ZINK
Associate Dean of Women

As the University of Maine has grown, so have its residence units for women increased in number and size. The small dormitory for 80 to 100 girls is no longer being constructed; the last two buildings opened accommodate 180 students and the next to be opened will have room for 260.

This brings about inevitable changes in the administration of the larger units—changes that affect the smaller ones as well—for with greatly increased size there is a danger that the friendly atmosphere for which the campus is known will gradually be lost. One way to counteract this is to help the student have a satisfying experience in a pleasant living situation which also is conducive to serious academic achievement.

The University has a long tradition of expecting its women students to take a large share of the responsibility for governing their activities, for maintaining high standards of conduct and for developing a congenial atmosphere in their living units. They do not do this alone. In each dormitory a mature woman, or House Director, works closely with student leaders, housing officers, and the office of the Dean of Women to help maintain the kind of living situation that will give each girl an opportunity to grow as a person and as a student.

The woman who has some college education, who has a lively interest in the world around her, and who has an intellectual curiosity may well find a position of this kind to her liking. She is in a unique position. Opportunities to attend lectures, concerts, or regularly scheduled courses provide stimulation for personal enrichment and at the same time provide a common ground for exploring ideas with students.

The dormitory community, as a part of the larger university community, often may become a kind of extension of the classroom. In the dormitory girls can be encouraged to explore together some new concept heard in class, to continue discussions following a provocative lecture, and to develop further their own emerging ideas. It is here that some of their values are tested, modified or perhaps rejected.

The role of the more mature adult who lives with these girls may be that of a good or balance wheel, of levenger or stabilizer, of questioning skeptical or non-critical listener—at times one, at times another, as the situation dictates. One of the by-products of this informal educational program in the dormitory is the development of new interests and ideas or the broadening of old ones by the house director as well as by the students.

Where there are young women there are young men; they inhabit the lounges and public recreation areas of the women's dormitories. Some are shy, some assured, and some brash, would be men-of-the-world—a cross-section of the Maine campus and any home town. They call for their dates at the dormitory but they linger and enjoy dormitory hospitality when all residents have worked together to create the friendliness that the University cherishes.

The men, too, are encouraged to participate in informal living room discussions and to become better acquainted with educational goals of the various colleges and departments. It is as important for them to expand their horizons and try out their emerging philosophies and beliefs as it is for the girls with whom they go. The house director enjoys and accepts them as she does the girls and often she becomes advisor, teacher, and confidant for these visitors.

The challenge is great in a woman's housing unit; the rewards are also great. The person who has a sincere professional interest in young people, both men and women, who enjoys working and playing with her peers, and who likes to set her intellectual sights on new fields of interest could accept the challenge.

Perhaps you can suggest a likely candidate for this venture. If so, contact the office of the Dean of Women, 219 Library, University of Maine. More information will be sent to you or to a prospective house director if requested.
Three new trustees appointed

Charles E. Crossland '17 of Orono,
Owen Halbert Smith '41 of Presque Isle
and W. Gordon Robertson of Bangor are
the new members of the University's Board
of Trustees.

They replace Raymond H. Fogler '15
who served as president of the board, Frank

Mr. Crossland, one of Maine's most wide-
ly known alumni, has been associated with
the University since his graduation.

He served first as assistant state 4-H Club
leader, then as executive secretary of the
Agricultural Extension Service. Later he
became extension editor.

From 1928 to 1946 he served as alumni
secretary of the General Alumni Associa-
tion, during which time he created one of
the most successful alumni associations
among land-grant institutions.

From 1946 to 1954 he served as director of
student and public relations, and from 1954
to 1958 he served as assistant to Presi-
dent Arthur A. Hauck. From 1958 to his
retirement in 1961 he served as vice presi-
dent for administration.

After retirement he continued as execu-
tive secretary of the University of Maine
Pulp and Paper Foundation, a position he
still holds.

Mr. Smith is a successful Aroostook
County potato farmer. Besides producing
20,000 barrels of seed potatoes a year, he
also grows 200 acres of small grain and
manages a 6,500-hen laying flock.

He has served as a member of the Maple-
ton Town Council and is a director of
School Administrative District No. 1. He
is chairman of the board of trustees of the
Grant Memorial Methodist Church and is
a past president of the Maine Potato Coun-
cil. He also is a member of the Agriculture
Advisory Committee, College of Agricul-
ture.

Mr. Robertson, a native of Scotland, is
president of the Bangor and Aroostook
Company, a position he has held since 1938.
Before joining B & A, he founded Albatros
Fertilizers, Inc., and Beaver Brook Farms,
Inc., in Caribou, where he made his home
after coming to this country from Canada.

He is chairman of the University's De-
velopment Council.

Alumni names in the news

Congratulations to . . . .

. . . D. W. Tabbutt '22, who retired in
February after nearly 40 years of service
with the U. S. Forest Service. He was serv-
ing as chief of the Lands Branch in the
headquarters of the Eastern Region at Up-
per Darby, Pa., at the time of his retire-
ment in February.

. . . Frank Besse '20 of Clinton, who has
been elected president of Associated In-
dustries of Maine.

. . . Royal O. Mehann '36, who is in
charge of the atomic power plant of the
world's first nuclear powered merchant ship,
the NS Savannah, during its sea trials. Mr.
Mehann heads a staff of highly specialized
technicians who are responsible for the
design, evaluation, performance and main-
tenance of the ship's nuclear propulsion
plant.

. . . Mme. Freda Gray-Masse '50, mezzo-
contralto, who was soloist in three separate
programs at which Pierre Monteux was
guest conductor of the National Symphony
Orchestra in Washington, D. C.

. . . C. Earl Libby '16, of Pompano
Beach, Fla., who was presented a TAPPI
Medal, highest honor of the Technical As-
sociation of the Pulp and Paper Industry.
His award was reported in Pulp & Paper
magazine.

SOUTHERN ILLINOIS’ WOMAN OF YEAR

Southern Illinois University's “woman
leader of the year” and popular first lady is
a Maine alumna.

She's Mrs. Dorothy (Mayo '30) Morris,
wife of SIU's President Delyte Morris.

A tribute to her popularity was the honor
paid her during halftime ceremonies of the
SIU-Bowling Green football game in No-
vember, when Mrs. Morris was presented
a dozen roses and the University of Maine
song book.

Afterwards, a formal open house was
held at the Delta Zeta sorority house in
her honor, with about three hundred SIU
people attending.

In December, she made an honorary
member of Kappa Omicron Pi, national
honorary professional Home Economics fra-
ternity.

In March she will be honored as “Wom-
an Leader of the Year” at the ninth annual
Women's Day at SIU.

During the spring term she and Dr. Mor-
ris and their younger son, Michael, a senior
at SIU, will be making a tour around the
world. The Morrises, who have another son,
Peter, celebrated their 31st wedding anni-
versary in December. In October they be-
came grandparents for the first time when
a son was born to Peter and his wife.

A recent feature story in The Egyptian,
SIU's student newspaper, said of her: "Mrs.
Morris is busy with various activities, but
she always finds time to talk to students. She
makes visitors to the Morris home feel wel-
come and comfortable.

"No majd answers the doorbell for Mrs.
Morris. She greets guests at the door with
a smiling 'Hello, so glad to see you today.' "

16 THE MAINE ALUMNUS
Four undergraduates gathered recently in the Alumni Office to have their picture taken. Their major subjects covered a wide range—engineering physics, German, medical technology, pre-medical. But all had one thing in common: All were recipients of Senior Alumni Scholarships.

On hand to appear in the photograph with the students was Richard F. Talbot '07 of Orono, president of the Senior Alumni. With Mr. Talbot in the photo above are the scholarship winners. From left, William H. Thurlow IV '65, Melicent Betty Chapman '63, David M. Parker '63 and Thomas G. Peterson '62.

Mr. Thurlow, from Brunswick, is a freshman majoring in the pre-medical course.

Miss Chapman, from Augusta, is a junior majoring in medical technology. She is a member of Sigma Mu Sigma, psychology honor society.

Mr. Parker, from Bangor, is a junior majoring in engineering physics. He is a member of Tau Beta Pi, engineering honor society and Sigma Pi Sigma, physics honor society.

Mr. Peterson, from Biddeford, is a senior majoring in German. He is a member of the Deutscher Verein, German honor society.

The scholarships, which amount to $150 each, were established in 1957 by the Senior Alumni Association. Each year since then three students have received the scholarships.

The Senior Alumni Association was founded in 1936 "to promote good fellowship among its members, and by its influence endeavor to advance the interests of the University."

Other officers of the Senior Alumni this year besides Mr. Talbot are Henry W. Bearee '06, first vice president; Walter E. Farnham '07, second vice president; James A. Gannett '08, secretary; and Charles F. Smith '10, auditor.
Athletics

‘No one has humiliated us’

VARSITY BASKETBALL coach Brian McCall was getting ready to take his team on the road for the season’s final two games when he was asked to comment on his club’s progress.

Considering that he began the season with only one letterman and scarcely anyone else with varsity experience, he was full of praise for the way his team had developed.

“The team had the quality of not giving up when it had many disappointments, such as losing two-pointers and one-pointers,” he said, noting that difficulties were compounded by the loss of Captain Skip Chappelle, lone survivor of last season’s championship team, for the entire month of January because of injuries.

“The boys have the quality of not quitting — of staying in there. It’s a team with spirit and it has now blossomed out.” He referred to the winning streak which saw strong Connecticut and Colby teams go down in defeat before the Black Bears.

“But we played too many games away from home this season,” he said. “This handicapped us, but at the same time no one has humiliated us. The boys had their ups and downs, but they gave it all they had.”

The record was not one to be ashamed of. Counting Downeast Classic play in Bangor during the Christmas recess, the team compiled 12 wins against 12 losses.

On snow and cinder: Ski and Track teams busy

It isn’t often an athlete performs against his own alma mater’s team. But it happened to last year’s varsity ski team captain Charlie Akers this season.

Skier Akers competed against the Maine club as a member of the U.S. Army ski team in a meet at Dartmouth College. Later, he left for Finland, where he is competing as a member of the Army’s biathlon team.

The Maine team came in 7th in a field of ten in the Dartmouth meet. Earlier, it placed 6th in a field of 11 at Middlebury.

Misfortune in the form of an automobile accident prevented the team from competing in a meet at Williams College. Coach St. Dunklee and several members of the team were injured, but had recovered in time to participate in the remainder of the season’s schedule.

In track news, Theodore S. (Ted) Curtis ’23 announces three big events coming up — two this spring, the other next January.

On May 12, the University plays host to the Yankee Conference track meet, taking its turn in the six-year cycle. The week before this event, Maine travels to Brown University to participate in the New England Track Championships, along with 41 other college teams in the six-state area.

Next January, Maine will have the honor of competing in the first event to be held in the new Dartmouth College field house when the Black Bear varsity and freshman indoor track teams meet the Big Green. The event also marks another “first” for Maine — the first time its indoor track team travels to Dartmouth. Maine added Dartmouth to its indoor track schedule last year, playing host two years in a row.

Pitchers sought in Butterfield’s talent hunt

Spring may not be in the air yet, but thoughts of it are very much in evidence as Maine’s baseball team breaks out its leather and lumber for the 1962 season.

Pitchers and catchers have begun working out in the Field House under the direction of varsity baseball coach Jack Butterfield ’53.

In his bid to better last year’s 7-10-1 record in State Series and Yankee Conference play, Coach Butterfield is looking for a stronger pitching staff.

Heading the list of returning lettermen on the mound are Captain Bill Livesey, an All-Yankee Conference outfielder a year ago who pitched part time; seniors Pete Henderson and George Bartlett, and junior Bill Thomas.

The 23-game schedule begins on March 31 and includes ten Yankee Conference games and six State Series contests, along with seven non-league matches.

Here’s the schedule:

Local Associations

Auburn-Lewiston Alumnae
Mrs. Julia (Shores '49) Hahnel, President
The group met on Wednesday January 17, with Aletha (Meade '48) Blenkmon, Maril
(Stoner '53) Nash and Emily (Smaha '51) Marcou as hostesses. The speaker was Roland Hastings, Jr., Assistant Director for Alcoholics Rehabilitation in Lewiston. Business discussion and a proposed joint meeting with Portland Alumnae were considered. The group met again on February 21, at the home of Eleanor (Byron '53) Gove, Shaker Street, Lewiston.

Chicago Alumnae
George Garland '45, President
A Valentine's Party combined to make a pleasant evening for the Chicago folks, who ate a steak dinner at Stevens on February 14 and visited with Dean Mark R. Shibles of the College of Education. Stevens Steak House is at 476 North York Street in Elmhurst.

Auburn-Lewiston Alumnae
Otto H. Wallingford '48, President
Even a Bates alumnus attended the men's group meeting on January 18, reports Richard J. Davis '44, Secretary—describing the evening when Coach Harold S. Westerman attended and brought his films of the 1961 football season. This affair also marked the 25th anniversary of the founding of the Auburn-Lewiston Maine Alumni Club, under Alonso J. Harriman '20, the first President.

Portland Alumnae
Priscilla (Thomas '49) Rines, President
A most successful card party was the January 25 meeting of the group, boasting a large attendance, good bridge games with prizes of a novel kind and with Margaret M. Mollison '50, Assistant Executive Director of the General Alumni Association, visiting from Orono. This was an annual fund raising event for the club.

Southern Kennebec Alumni
Norman Godine '57, President
A regular meeting of the businessmen's luncheon group was held on Friday, February 2 at the Worster House. Visiting with the large number of Maine men on this occasion were Ronald K. Devine '55 Associate Editor of The Maine Alumni and T. Russell Woolley '41, Executive Director of the General Alumni Association. Officers of the club are planning soon to announce a new meeting place for future luncheons.

Southern Penobscot Alumnae
Mrs. Jean (Polleys '50) Fenlason, President
Wednesday, January 24, was the meeting date for this club in the recreation room of Footman's Dairy, Brewer. The interesting program featured Dr. Horace Quick of the School of Forestry. He presented an illustrated talk entitled "An African Safari." Dr. Quick returned last year from an official mission on the dark continent, to study economic factors associated with the preservation/reduction of an elephant population.

Alumnae hold scholarship bridge
A capacity crowd of 250 women attended a scholarship bridge sponsored by the Portland Club of University of Maine Women in January at Payson Smith Hall on the UMP campus.

Mrs. Frances (Roderick '57) Soderberg and Mrs. Elizabeth (Kononen '56) Berry served as chairmen. Others assisting them included Mrs. Carolyn (Lorke '56) Kostopoulos, Mrs. Laura (Tucker '55) Seavey, Mrs. Elaine (Pratt '56) Golden, Mrs. Carolyn (Bull '56) Dahlgren, Mrs. Priscilla (Dearborn '59) Atwood, Mrs. Faith (Wixson '56) Varney, Mrs. Verna (Wallace '49) Andrews and Mrs. Charlotte (Dimitre '39) Connolly.

The proceeds from this bridge will go toward the scholarship presented each year to a deserving undergraduate woman at the University.

Somerset County Alumni
William G. Hepburn '42, President
Dr. Lloyd H. Elliott, Maine's President addressed a dinner meeting at the Lancey House, Tuesday, January 30. His talk outlined recent changes at the University and he commented on future growth of the State University. T. Russell Woolley, Alumni Director, also attended from Orono. The business meeting made preliminary plans for a May meeting and named a nominating committee.

Western Mass. Alumni
Elwood M. Beach '51, President
These Maine Alumni made a special cheering section at the Maine-U. Mass. basketball contest, Saturday night, February 19, 1962.
10, in Amherst. These folks have turned out at the Cage before, and find it is a sporting good way to meet, win or lose in any game.

St. Petersburg, Florida, Alumni
Oscar W. Mountfort '12, President
Folks had a cold day (36 degrees) on January 13 for their second meeting of the season, but they attended from as far as 125 miles away—out of Winter Park.
Excitement centers on the planned meeting of March 31, when Dean Mark R. Shibbles will be the visiting speaker.

The case of the missing alumnus

A search for a "missing" alumnus has ended with a double-barreled success and an interesting tale of coincidence to boot.

The "detective" in the case was Herbert P. Bruce '99, and the "missing" alumnus was Noel Van Bibber '10, whose address was not on file in the Alumni Office. Also among those whose addresses are unknown was Mr. Van Bibber's brother, Ray, also known as Dion, a member of the Class of 1909.

Detective Bruce was eventually successful in locating Noel's address in Washington state, and in turn received from him the address of Dion in Texas.

But in the course of the investigation, the Alumni Office got into the act. During all the conversation in the office about the search, Executive Director T. Russell Woolley '41, who was half listening, popped out of his office to ask, "Is that Van Bibber from Texas?" It turned out that he was, but no one seemed to know what town.

Dr. Woolley quickly supplied the needed information. It seems that while he was teaching at the University of Texas before returning to Maine he had on several occasions stopped and eaten at the Stage Coach Inn, operated by none other than the missing alumnus, although he had not been aware at the time that "the charming gent was a Maine man."
Notes from the Classes

If Your Class Column Is Missing...

...It's because your editors have decided to alternate class news. Your class column will appear in every other issue of the six 1961-62 issues. The 1962 June Reunion classes, however, will have a news column in print every issue.

NECROLOGY

FACULTY

ERNEST HUGHETT, Ernest Hughett, of Buffalo, N.Y., died December 27, 1961, following a heart attack on his 69th birthday. He was spending the winter at Bartow, Fla. Mr. Hughett was a graduate of the University of Michigan, where he coached football at the University of Maine 2 years, coming in 1915. After his stay at Maine, he served as athletic director and football coach at a private boys school in Buffalo. He was an organizer, part owner and player, on the first professional football team there. He was also well known as an official, and worked Army-Navy and Sugar Bowl games, among others. Survivors include his wife and two sisters.

1988

DR. RAY HERBERT MANSON, Dr. Ray Herbert Manson, 84, died December 23, 1961, at Rochester, Ky. Dr. Manson graduated from Gardner High School before entering the University to graduate with a B.S. in Mechanical Engineering in 1901. He received his degree in Electrical Engineering at the University. Dr. Manson was a student in the kerosene lamp days and supervised the wiring of the campus for electricity, doing much of the work himself. Before joining Stromberg-Carlson in 1916, Dr. Manson was associated with Western Electric Co., of Chicago, Kellogg Switchboard and Supply Corp. of Chicago; Dean Electric Co., Elyria, Ohio; and Garford Manufacturing Co., of Elyria, Ohio. Dr. Manson joined Stromberg-Carlson in 1916 as chief engineer, in 1920 he was elected a director, and in 1924 became vice president in charge of engineering. In 1940 Dr. Manson became general manager and served until 1945 when he retired in 1949. He continued as Chairman of the Board, director and Mr. and Mrs. Manson maintained a winter home at Madeira Beach, Fla. Mr. Manson did much to get the St. Petersburg Alumni group organized and one of the nation's leading authorities in the field of communications, and the creator of more than 100 inventions in his field. Dr. Manson was elected an honorary doctor of Engineering in 1933. Dr. Manson was a past president of the institute of Radio Engineers and later was elected a fellow of that organization. He served as a director of the Radio Manufacturers Association. He helped establish technical standards for both AM and FM broadcasting. Dr. Manson was a life member of the Telephone Pioneers of America and a Fellow of the American Institute of Electrical Engineers, the Radio Club of Americas, and the Rochester Engineering Society. Survivors include a daughter, a son, a brother, Walter B., C. S., and several grandchildren. Mrs. Manson was a member of Phi Kappa Sigma Fraternity.

1962

HENRY WILMOT CHADBOURNE, Henry W. Chadbourne, 84, N.Y., died December 11, 1961, after a brief illness. A native of Mattawamkeag, Me., Chadbourne graduated from the University in 1903 after graduating in Electrical Engineering from the University; he moved to Alpaca in 1947. At General Electric, Mr. Chadbourne was an assistant engineer on mining projects. He was the author of several technical articles and parts of two handbooks. He was a member of Charles W. Meade Lodge F, and A. M., the Genealogical Society of New Hampshire, Society of Colonial Wars and the County and the Scotia Baptist Church. Before transferring his membership to the Scotia church, Mr. Chadbourne was a member of the Scotia Baptist Church of Schenectady, and presided for 40 years. On December 10, 1955, Mr. and Mrs. Chadbourne celebrated their 50th Wedding Anniversary.

1907

Mr. Chadbourne served as secretary and president of Northeastern N. Y., U. of M. Alumni, and was a senior class secretary in 1947. Survivors include his wife, a son, a daughter, a brother, Vaughan R., '10, of Dallas, Texas, two sisters—one of whom is Dr. Ava Chadbourne '15, and 10 grandchildren.

1963

ERNEST LINWOOD BAKER, Ernest L. Baker, 81, died November 16, 1961, at Rochester, N. Y. A native of Portland, Mr. Baker graduated from the University in 1905, and in 1916 with seven years to graduate in Chemistry. Mr. Baker was president of Pyramidal Process Co., manufacturers of adhesive products. He was also director of Research Manufacturers. He retired at the time of his election as director of the company. Mr. Baker was a member of Sigma Alpha Epsilon Fraternity.

1958

LEWIS STILLMAN RECORD, Lewis S. Record, 84, died December 15, 1961, at Jaffrey, N. H. A native of Worcester, Mass., Mr. Record was a graduate of Brown University in 1902, and received his LL.B. degree from the University College of Law in 1905. Mr. Record was superintendent of schools in Portland-Jaffrey Superintendency Union for 28 years from 1915 to 1943. Previously Mr. Record was employed in law practice for seven years, then followed teaching at Palmer, Mass., Ludlow, N. H., and boothbay Harbor. He served as Judge at Newport, N. H., District Court 1913-1914 and justice and notary at Jaffrey 1946-54. He was a member of the IOOF of which he was treasurer for 30 years, and of Charity Lodge AF&AM. Mr. Record and his wife marked their 59th wedding anniversary on May 8, 1961. Survivors include his wife, five daughters, two sons, 16 grandchildren, and seven greatgrandchildren.

1907

HERBERT HENRY SMITH, Herbert H. Smith, 76, of Keokuk, lowa, died December 31, 1961, at St. Joseph's Hospital, after a short illness. A native of East Corinth, he graduated from the University in 1919, and returned to the University for three years. Mr. Smith had lived in Keokuk since 1908, and was a retired employee of the Union Electric Co. He was the Member of the Masonic Lodge. Mr. and Mrs. Smith observed their 50th wedding anniversary in September, 1958, Mr. Smith's wife preceded him in death November, 1961. Survivors include one brother.

1948

HENRY LEROY MINER, Henry L. Miner, 77, of Alameda, Calif., died November 19, 1961, in that city. A native of Red Lake Falls, Minn., he graduated from Haverhill High School in Massachusetts before entering the University to graduate with a B.S. degree in Chemistry. When he retired in 1948 Mr. Miner was superintendent of California Paint and Ink Co. Prior to his twenty-seven years with this company, Mr. Miner was a chemist for E. I. du Pont de Nemours and Co., in Wilmington, Del. As sales manager of California Ink's raw material department, Mr. Miner acquired a host of friends throughout the West. He was president of the Golden Gate Paint, Varnish and Lacquer Assn. in 1941-42. His wife survives. Mr. Miner was active in College and was a member of Phi Kappa Sigma Fraternity.

1910

HARRY PENNELL, Harry P. Carle, 75, of Park Ridge, Ill., died December 9, 1961. A native of Portland, Mr. Carle attended the local schools, and the University of Maine. Mr. Carle was a contracting engineer for Morden-Allen Co., of Chicago, Ill. He retired in 1956. Survivors include a daughter and a son, and a daughter George W., '05, of Portland, Mr. Carle was a member of Phi Gamma Delta Fraternity.

1911

MAJOR WILLIAM SANFORD GOULD, Jr., Major William S. Gould, Jr., 73, died January 12, 1962, at McDill A F B Hospital, Tampa, Fla., following illness of one month. 1911

DR. WILLIAM HOPE MARTIN, Dr. William H. Martin, 71, died January 3, 1962, at his home in New Brunswick, N. J. Dr. Martin was a graduate of Conway Hall, Carlisle, before entering the University of Maine to graduate from the College of Agriculture major in botany. Dr. Martin went to Rutgers Uni-

FEBRUARY-MARCH, 1962 21
versity as a research assistant in plant pathology, receiving an M.S. in 1915, and a Ph.D. in 1917. She was from 1917 to 1919 in the Department of Botany at the University of Connecticut. After graduation, she remained on the staff until 1923.

In 1923, she was appointed head of the Department of Plant Pathology at the University of Massachusetts, where she served until 1951. She made significant contributions to the study of plant disease control and the development of new control methods.

In 1951, she was appointed head of the Department of Pathology at the University of California, Berkeley, where she continued her research and teaching until her retirement in 1970.

She was a member of the American Phytopathological Society and the American Association of University Women.

She was known for her dedication to teaching and research, and for her contributions to the field of plant pathology.

She died suddenly on December 30, 1972, at the age of 79, leaving a legacy of important scientific contributions to her field.
ciology. Over the years she worked for the N L R B in Washington, D.C., Philadelphia, and Atlanta. Later she was employed by the Farrington Corp., of Boston, and was employed by the New Hampshire State Department of Health and Welfare. Survivors include her brother, one son, a daughter, mother, and two sisters.

LYMAN LOCKE LORD. Lyman L. Lord, 45, of Charleston, died suddenly December 30, 1961. A native of Providence, R.I., and a graduate of the Glaiss Classical Institute. He was active in Boy Scout work, and at the time of his death, was scout master of local troop 114. He had been a rural mail carrier and was employed the past 10 years by Fawcett Publications, Inc., a publisher at Dexter. He was a member of the Grange and of the Masons. Survivors include his wife, three sons, one daughter, his mother, and two sisters.

FREDERICK GROVER ROBBINS, JR. Frederick G. Robbins, who died June 26, 1961, at Tuscola, Ill., a native of Millinocket, he graduated from Bangor High School, and attended Beals Business College and Bangor School of Commerce. Mr. Robbins also attended Husson College, Colby College, the University of Nevada, and was a teacher of mathematics at Austin, Nevada. Survivors include his wife, one brother, and a half-brother, and an uncle, L. Robbins, 30, of LaGrange.

EDWARD CHARLES PENNIMAN III. Edward C. Penniman III, 38, died at his home December 3, 1961, in Thetford, Vt., after a long illness. A native of Montpelier, Vt., and a graduate of the University of Vermont, and the School of Forestry, he was employed by the U.S. Forest Service, later by Socony Vacuum, East Pipe Line Union, and at the time of his death by the Vermont State High School District. He served in World War II for three years. Survivors include his father, a sister, and several nieces and nephews.

CARL B. Richards and Carol B. Richards, 32, of Van Buren, died June 26, 1961, at her home after a long illness a native of New York. She is survived by her husband, and two sisters.

SENIOR ALUMNI

Annual Reunion—June 8-10, 1962

Senior Alumni are invited to look into the front of this Alumni to read the story about Senior Alumni and your very fine annual scholarship program.

1895 A note from Gustave Atwood tells us he will be 91 years old on March 11. He is retired and lives at 200 Bay Street, Taunton, Mass.

1901 Mrs. Karla A. Kent became Mrs. Fred A. Ross, 12, 1961, at the home of her Mr. Martin’s brother, George 12, in Mill Valley, Calif. The Fred Martins will be at home after June at 2706 West Bell, Wash. Mrs. Martin writes that they will be in St. Petersburg, Fla., in March. She takes a spring break in April and May, before going to Seattle.

1902 Chadbourne Hall will be the dormitory headquarters for the ‘20ers on June 8, 9, and 10 when we celebrate our 60th Class Reunion. Much of our activity will be held at the Memorial Union Building, the student center, but we can spend a great deal of time on Chicago, too.

There will be a room on first floor for us to gather and have drinks in the ‘20 Priam, the 1920 History and some of our interest. Plan to be with your fellow ‘20 Clasman to enjoy all our activities.

1903 Mr. Harvey D. Whitney

I received 11 cards of holiday greetings from members of the class, was very pleased to get them, but was sorry they had so little to say about themselves, St. Louis “Stub” enjoys reading the personal articles of his classmates, please write to him about one himself.

Wilbur H. Bullock quit work at the end of 1961. His new address is Eastland Park, 157 High St., Burlington, Vt. He calls to the area often and wishes to repeat the good times at the 50th. O. K. with me and the sooner and oftener the better.

The Bill Boglers are spending the winter at St. Petersburg, Florida—631 4th Ave., North. Bill is looking forward to the Maine Alumni lunches.

The winter address of the Henry L. Nashes was incorrectly given in the November Alumni. It is 675 Avienda del Noriega, San Jose, San Francisco, Calif. The Nasher have been living in Omaha with the N. W. Bell System has been transferred to New York with the Western Union.

Mrs. O. L. Anderson (Merville Knight) writes that she had a gold heart attack last year but that she has been doing very well, has been doing some extensive with her leek before the introduction in our area (Grange, Maine)—private.

The red Knights expect to leave for Alaska February 1, for two months—more or less

THE MAIN ALINE
Cora Mae (Phillips) and Don Perry '18, are busy restoring an old farm on Deer Isle.

Richard Harriman, of Alden, Pa., is an editor on the Philadelphia Bulletin.

Joe Bedard, 64 So. Locust Point Rd., New Kingston, Mass., is a principal and superintend- ing principal, dealing in s replacements in Richmond, Va., and in three Massachusetts schools.

James H. Freeland

Gow Street, Bangor

Cash Scholarship for 1961-62 has been awarded to the following students:

10. Collins, Caribou, has been named chairman of the student committee for the University Day Program in June. A $1,325,000 campaign is underway to provide for improvements to be made in the student center.

12. Frieda W. Kimball, of 300 Aker Ave., Averill Park, N. Y., has been named chairman of the student committee for the University Day Program in June. A $1,325,000 campaign is underway to provide for improvements to be made in the student center.

13. To the class of 1921—Greet.

14. Mary M. Brown, New York, N. Y., has been named chairman of the student committee for the University Day Program in June. A $1,325,000 campaign is underway to provide for improvements to be made in the student center.

15. Wife and husband, Earl Stevens to New Hampshire, address Box 4, New Paris, Vt.

16. H. S. Kimball, of 300 Aker Ave., Averill Park, N. Y., has been named chairman of the student committee for the University Day Program in June. A $1,325,000 campaign is underway to provide for improvements to be made in the student center.

17. Wife and husband, Earl Stevens to New Hampshire, address Box 4, New Paris, Vt.
church fairs. A member of the Murray Alliance of the Winthrop Street Universalist Church, Augusta, she was pictured in a local paper at a committee meeting.

Sen. Earle M. Hillman of Bangor has joined William R. Smith, Inc., Realtor Brokers. Senator Hillman is currently president of the Maine Senate. Harry Cohen has retired and resides at 1020 6th St., Santa Monica, Calif. Harry, and his late brother, Phil, were with our class for one and two years, respectively.

Doris Dow (Mrs. Harland) Ladd, of Hallowell, is acting State Home Demonstration Agent Leader for Maine's Agricultural Extension Service, while Connie Cooper '46 is working on her Ph.D. at the University of Chicago. Doris is co-chairman on a committee for the Crafts Show to be held in April during Farm and Home Week at the University. Doris is regularly employed at Ass't's Home Demonstration Agent in Waido and Kennebec counties.

Walter Littlefield writes, "I am still sitting out this first year of retirement trying to catch up on a number of things which need to be done to my houses and cottage. Walter lives at 279 Pleasant St., Marblehead, Mass.

Mansfield Packard served as chairman of the General Alumni Association's Telefund drive in the Waterville Area. Claude Tozier was the chairman in the Portland area.

Bob Haskell was named vice president of the Merchants National Bank of Bangor, at the 111th annual meeting of that institution. Bob was also reelected a director of the bank.

Linnwood (Zekke) Dwellley, who retired last year after 30 years of guiding the ELHS skiers, entertained the Stansby Bird Club at their 43rd Anniversary meeting, at Auburn. Zekke is staff skipper of the St. Croix Ventures. His topic—Canoe Trips in the Allagash Region.

"Pet" Thornton was one of two persons honored with a Community Service Citation at the annual meeting of the Limestone Chamber of Commerce at Loring Air Force Base Officers Club, "Pet" was honored for "his unselfish assistance in voluntary projects which benefit the community." 1927 Mrs. Edgar Bogan (Sally Palmer)
70 Forest Avenue, Orono
35th Reunion, June 8-10, 1962
A card from Jay and Danny Webster gives them a new address—Birch Knolls, Cape Elizabeth. Their new home is right on the water. I am sure you can have salt water fishing without leaving their front porch. To quote them "it is a crazy house and we love it." It looked like mighty good living in the picture and I am anxious to see them and it.

Eddie Johnson, state horticulturist, is on a committee arranging a craft show for the 1962 Farm and Home Week program. He also has an eye on India these spring months as their daughter, Sara Lou, is in the Masque group representing the University in India. The group left January 31st and is due back on campus by May.

Edith (O'Connor) Thaxter recently presented a program on flower arranging at a meeting of the Mrs. Maine Club held on campus.

John Mahoney received a formal commendation from the Worcester Taxpayers Assoc. at its recent annual meeting. The commendation is in recognition of John's 30th successive year as the association's executive director.

Leigh Plaisted who has served as herdsman in the department of animal science at the University for the past 35 years has resigned to accept the position of farm supervisor for the Maine State Prison farm at Thomaston. More than 35 friends and associates attended a dinner in his honor at the Oronoka and presented him with a University chair and a gift of money. Good luck to you, Leigh, in your new position. We will miss you on the Maine campus.

Dr. Ernest A. Elliott, a Portland dentist, has been elected to the board of directors of the Deerings Savings and Loan Association.

Elwin B. Hodges has been appointed assistant maintenance engineer of New Hampshire Public Works and Highways Department. He has served the state highway since 1933 and has been division engineer since 1940.

This is almost my own song. No more than one column to go at most. In case this is the last it has been fun and good luck to my successor. Be kind to whomever it may be and send some news.

Remember reunion in June—how about it, Prexy, are you making plans?

1929 Mrs. Matthew E. Highlands
(Ramona Polley)
111 Forest Avenue, Orono
Your reporter has just returned from two lovely, sunny weeks in Florida, a few days in Miami where husband Matthew attended meetings and then to Key West for a vacation.

I was able to find only three sons and daughters of '29 in the freshman class at Maine this year. They are: Elaine Dunn, daughter of Roger C. Dunn of East Brownfield, Helen Downing, daughter of Kenneth Downing of Bangor, and Alan McClure, son of Mary Robinson McClure of Bangor.

Shirley Berger has been made a member of the Judiciary Committee of the Penobscot Bar Assn. Shirley practices law in Bangor.

Josephine Hartwell, who teaches in Old Town, is an active member of Alpha Chapter of Delta Kappa Gamma. At one of their meetings this winter she chairmaan a panel discussion on "Helping People Live With People."

Reginald Merrill has been president of the Brewer Kiwanis Club this year.

We hear that Bill Chapman is a very progressive and successful farmer in Bethel. He owns some of Maine's outstanding Shorthorn beef cattle and is
chairman of the Soil Conservation and Stabilization Committee for Oxford County.

Oscar Turner of Livermore is president of the Maine Farmers Union. Mr. Turner and his successor were selected last fall as EGGiob editor chairmen for the State of Maine. EGGiob, in case you don't know (and I didn't), stands for Maine Essential Governmental Information, a publicize and merchandize Maine eggs.

The Maine Institute of Technology, which has sold to a Florida company but Al Haarm continues to be president.

The Maine Institute of Technology, which has sold to a Florida company but Al Haarm continues to be president.

1931

Mrs. Sam Szak (Ethel Thomas) of Portland

Les Hughes has been appointed vice president at Maine State University, and he has been given a salary of $1,000. He is 35, and he is a graduate of the University of Maine.

1932

Miss Angela Minnelli

25 Ashmont St., Portland

30th Reunion, June 8-9-10, 1962

Alden Parker, who has been teaching in the Cathedrals, has made the news twice recently. He is the new head manager of the Bangor Savings Bank branch facility that was recently opened in Bangor.

1933

Mrs. Robert Pendleton (Betty Barrows) of Island Falls

Charles D. Fales, Raymond president, Dielectric Products Co., was one of seventeen Maine businessmen to be included in "World Who's Who in Commerce and Industry."

Philip Hovey has been appointed superintendent of the office of the Fire Prevention District of the Hartford Accident and Indemnity Co. Phil has been with the company since 1936. He is a registered professional engineer. He is a member of the American Society of Safety Engineers, the New England Safety Committee and the Watertown Safety Committee. He is married and the Hoveys have four children. He lives at 31 Fair- mont St., Watertown, Conn.

Richard L. Johnson has been promoted to development engineer at the IBM Poughkeepsie, N. Y. Data Systems Division of the Laboratories. He and his family live at 17 Woodward Road, Poughkeepsie, N. Y.

Stephen Barry is plant engineer at the Buckstop mill of St. Regis Paper Co. Those of you who are in the pulp and paper business will be interested in the plant changes that have been accomplished under Mr. Barry's direction. He has been a member of the American Society of Safety Engineers, the New England Safety Committee and the Watertown Safety Committee. He is married and the Hoveys have four children. He lives at 31 Fairmont St., Watertown, Conn.

1935

Miss Isabel Freeman

23 Beliveau Drive, Lynn, Mass.

Dr. Gerald H. Leavitt of Millinocket was newly elected dean of the College of Agriculture, Forestry and Home Economics at the University of Maine. The annual meeting of the Millinocket Agricultural Society at the annual meeting held at the Millinocket Hotel on June 29, 1961. Harold W. Farnsworth was re-elected to the newly created position of operating vice president of the Union Club.

A. Hamilton Boothby, the former principal of Rockland High School took part in the Institute for Science at Colby College. His address is Anson, Box 192. He is superintendent of schools in the Anson area. Dr. Boothby has been appointed acting postmaster at Kears Falls. He assumed the post after having served as postal clerk for nearly 21 years.

Mr. and Mrs. Charles Pressey of 460 Union St., Bangor, recently celebrated their 25th wedding anniversary at a surprise party given in their honor. Christine, a daughter, poured, while her sister Theresa assisted in setting the table.
ence, was pictured in the Bangor News, featuring "theatrical lobsters to be used as props in Eugene O'Neill's play "Ah, Wilderness!" to be produced by the Maine Masque on their India-Pakistan tour which began Feb. 1. The lobsters were heavily salted, dried then touched up with red lacquer, then covered with clear lacquer to help prevent breakage on the trip.

Changes of address: Mrs. Mary (Pray) Frey, 71 Brunswick Ave., Gardiner; Thomas Acton, 89 Anderston St., Portland; Charles Becknell II, 503 Main St., Rockland; Oscar Fellows, P. O. Box 326, Bangor; Harold Nelson, P. O. Box 1420, Portland; and Lt. Col. Francis Morang, 15 Weyley St., Shrewsbury, Mass.

1937 Mr. Edwin H. Bates
8 College Hts., Orono
25th Reunion, June 9-10, 1942
Mark it on your calendar right now. Our 25th reunion dinner will be held at the Penobscot Valley Country Club on Friday evening, June 8. Working on the plans are local class members, namely, Alice Stewart, Henry Woodbury, Harold Young, Ed Merrill and myself.

Word from the following already is evidence of a good turnout. They'll come: Dick Braley, Tom Houghton, Bob Hawkes, Lib Hoyt, Don Kilgour, Elmer Crowley, Les Smith, Barb Raymond, Alan Duff, Ruby Elliott, and Audrey Tibboudeau.

Audrey also reports that Mabelle and Roger Smith, Lib Unsworth, and others from whom she has heard are planning to attend.

The Class Gift Committee, Win Adams, Bob Laverty and Harold Young remind us that the time is creeping up on us to ante up—several have contributed recently—about 30 class members in all to date. You'll hear more soon about class gift plans.

Names in the News:
Gus McLaughlin served as Merrimack County heart fund drive chairman.
Alice Stewart is doing a study of the New England-Atlantic Provinces-Quebec area under the Cee Research Fund.
Bob Ohler is president of the Maine Heart Association.
Jerome Emerson has been elected to the board of directors of the American Farm Bureau Federation.

Dick Berry has been named a member of a special committee to study the Casco Bay transportation problem.

Tim Thompson was recently appointed head of Maine Farmers' Exchange seed potatoes department.

Send us news—especially the news that you'll be here for our 25th Reunion.

1939 Mrs. Linwood R. Card
(Charlotte Hennessy)
41 True St., Portland
Had a nice letter from Anne (Anderson) Clapper with a "Howdy to the class of '39 from the West. Anne says, "It would seem with all the millions of visitors going to Hoover Dam, not to mention those attracted to the Las Vegas diversions, someone from our class should be going by my house. Needless to say I'd be happy to extend hospitality to a fellow classmate." So if you are headed west the Clappers, including three children, live at: 1516 New Mexico Street, Boulder City, Nevada. Anne is President of Boulder City branch of A.A.U.W. and Historian for the Nevada State Division of A.A.U.W., is in hospital auxiliary, P.T.A. and other community activities. Her husband is research manager at the Henderson, Nevada, plant for American Petosh and Chemical Corp. Madge Stacy has written to Anne from Avignon, France. She and her two sisters, Dora and Maude, were travelling in France, Italy, Switzerland, Austria, Germany and England.

Stanley Titcomb's new address is: 5 Hawthorne Avenue, Fort Chester, N. Y.

William A. Glover has been installed as acting postmaster of Rockland.

Saw a good picture of Gwilym Roberts giving ski instructions to his three daughters at Titcomb Memorial Slope, Farmington. Gwil is a professor at Farmington State Teachers College. Then the next article says Meredith Ann is the name given by Prof. and Mrs. Gwilym Roberts to their daughter born Nov. 8. Don't believe she was one of the three in the picture!

Edward R. Ladd has been renamed vice president of the Board of Trustees of the Knox Hospital.

Albert H. Freedman who is a prominent business and civic leader, was honored by Pine Tree Lodge, B'nai B'rith. He received the "Man of the Year Award" at a community dinner at the Jewish Community Center in Bangor.

Harold Eastbrook has closed out his jewelry business in Brattleboro, Vermont, and has accepted a position with the J. A. Merrill Company, one of the oldest jewelry stores in Portland.

George and Jean (Grange) Sawyer have announced the birth of a daughter. Sorry I haven't any information on the rest of the family. See you in two months.

1941 Mrs. Donald G. Wilson
("Skip") Creamer
Timbercliff, Camden

In spite of the Christmas mail and my appeal for a bulging mail box, most of the following items have been furnished by the clipping service at the Alumni Office. You just have not cooperated, classmates. I do, however, owe thanks to a few who took the time to send notes of interest along with their holiday greetings.

Isabelle Garvin Massen sent greetings from 19 Morningside Court, Pennington, N. J., where she and Jack and family have just settled themselves into a new spin-level. Jack has accepted a position as an appraiser with the Bureau of Public Roads in the State of N. J. Their son David entered high school this fall and Craig is a 6'2" senior.

The Leon Ladds (Ruth Linnell) have bought a house in Lunenburg, Mass. Lee is a Lt. Col. in the Signal Corps and is stationed at Fort Devens. They have just had the wonderful and rewarding experience of touring England.

A short but welcome note from Franjie North Waters indicates that she is still living in Portsmouth, Va., where she sings in the choir (not "Bob White" I'll betcha) bowls, and lends a helping hand in community affairs. Her Steve is attending Frederick Military Academy in Portsmouth, Diane Weatherby, daughter of Alice (Christie) and Beverly Weatherby (42) is a junior at Gould Academy in Bethel, Alice and Bev own and operate the well-known Weatherby Camps at Grand Lake Stream, a fisherman's Paradise. I know that they are often hosts to numerous colorful people from both the political and theatrical worlds. Should be exciting. One bit of proof was a newspaper photo of Christie and Bev posing with Ted Williams and a guest from last summer. From Loomis School in Conn., Ginny and Larry

THE MAINE ALUMNUS
Muzroll send word that all is well with them. Linda is at Windor High, and taught for five weeks in the Loomis summer school and then the family came on to Dexter for the summer. Esther Drummond Hawley, who is associated with WMMS, has been nominated by Gov. Reed for advancement to the chairmanship of the State Personnel Board. Esther says her son-in-law is a trustee of the Mutual Life Insurance Company's Honor Club for 1961 and will attend the Company's National Field Club Convention. April, John Sylvester Theophilus, is now serving the Methodist church in Rockland and lives at 41 Beach St. there.

Spaulding Tukey's picture appeared recently in a Portland paper announcing that he has been elected a vice president of Tukey and Trust Co. In charge of the bank's real estate and mortgage department, he has been with Casco since 1948. Some of the other executives are member of Cape Elizabeth School Planning Committee, Maine Charitable Mechanics Association and Cumberland County Farm Bureau. He is a member of the Bangor Club in Augusta, recently presented a program on comparative education and teaching at the University of Maine, and then moved on to Mount Desert Island.

Gardnor, Conn., Hear carried a lengthy and interesting article on Al Brundage. In short, it seems that Al had made quite a name for himself as a star football player at Harvard, and that he is a graduate of Harvard's engineering school. He is head of the firm's exotic materials division and is responsible for the development of new materials for use in the automobile industry. He has also been involved in the design and construction of new buildings.

In Boston University Law School (LL.B. ’51) from Maine and is practicing attorney in Bangor.

June will soon be here making me ready for Orono for our 20th Reunion? Can't find your class column? There's a reason. See Page 21.

1942

Mrs. Gilbert Y. Tavener (Bath) 80 Vernon St., Brookline, Mass.

1943

Mrs. Donald Tavener (Olive Rowell) 9 Chapel Rd., Orono

Notes from two Bowers from both sides of the continent were received recently. From Samuel Brown, 11604 Interlaken Dr., Tacoma 99, Wash., we hear that the Browns have six children, ranging in age from 15 on down to 4. All enjoying skating in Washington's beautiful mountains. Sam is Public Relations Officer with Weyerhaeuser Co., and helped to start an independent boys school in Tacoma which is in its fifth year and has more than 200 students.

Now, from the other Brown, Francis, that is, we learn that he and Elizabeth and their three children (ages 1-3-4 years) are residents of Calais. Francis, is an attorney in the partnership “Brown and Boardman,” and is active in many civic activities, such as being a trustee of the Methodist Church, president of the Calais Regional Hospital and others. Stan Frost and Joe Young both reside in Calais and are employed by the St. Croix Pulpwod Co. Francis sees them often as well as seeing Joe Ingalls who is employed by the St. Croix Paper Co. in Woodland. Thanks to all the Browns for all the news!

A number of class members have been newly elected or appointed to one office or another. Here are some of them: Vernon Elsom was appointed chairman of the Orono "Twins" Drive to raise funds for the Orono Community House and the Orono YMCA. He is in charge of the men's and family housing at the University. Philip C. Chute continues to serve as president of the statewide organization of motel and motor lodgers which recently held its 46th meeting in Bangor.

Basil Clements, Winterport poultryman, became the fourth member of his family to be elected president of the Waldo County Extension Association at the annual meeting in Brooks.

Lewison attorney Edward M. Robinson has been sworn in as hearing examiner of the Maine Liquor Commission.

Owen Hancock, Casco, has been elected chairman of the Democratic State Committee. He is a former legislator.

Mrs. Martha Hodgkins, Orrington, is the newly elected president of the Maine School Boards Association.

Both Edward Woodward and Ralph Johnson, Jr., have received promotions lately. Woodward is now superintendent of maintenance of the Wyman-Gordon, Rockland, Maine, plant. He and wife and four children reside at RFD 1, North Grovendore, Conn. Johnson has just been appointed Assistant to the Oxford Paper Company (Rumford).

Don and I were among many who were pleased by the legislature's action on Educational Television and are now awaiting the referendum in June. Don has been very much interested in getting the effort to bring Statewide ETV to Maine.

1945

Richard H. Danforth (Sebec) 909 Fitchburg St., Winooski, Vt.

Well, gang, here's the news again from '45, with a big assist from Carolyn (Chaplin) Bradley in Brewer. She's working in the Dietary Department at the Eastern Maine General Hospital. Thanks a million, Carolyn.

Mrs. Harriette (Daw) Cousins, of Bangor, recently attended the annual meeting of Region I of the American Association of Junior College Clubs in Mass., as a delegate from the Bangor Junior League. Rob the Great Chief of the Bureau of Elementary Education of the State of Maine, is in Augusta, recently presented a program on comparative education and teaching at the University of Maine, and then moved on to Mount Desert Island.

Bill Emerson, Chemical Engineer with the Penobscot Chemical Fibre Co. at Great Works, recently discussed the possibilities of the United States Navy using rubber meeting called for the purpose of organizing a "Clergy Manument" public relations office to organize a rubber program.

Latest news from the Mortgage Tax Program.

Dr. John W. McAllister, now makes his home at 1523 Home St., Bangor.

Bill and Connie (Carter) Lamprell are now residing at 1504 Stoneo Rd., Baltimore 12, Md. They were in Maine, at Blue Hill, during Christmas week, and visited with Bill and Carolyn (Chaplin) Bradbury of Bridgton, Me.

Elbridge Greetly is now residing in Morrill, Maine.

Barber Crandall has moved to 599 Paradise Drive, Tribun, Calif. Herschel A. Smith has moved from Mary Eastin's house in Westfield, Orono to Reservoir Road, and family have moved to Viewpoint, Quaker Hill, Conn.

Don and Enid G. Lou (Littlefield) Danforth are enjoying their new home in Andover, Mass. Don travels a lot, and Enid keeps busy with church and Scout activities.

Ada (Minot) and Fred Haggert are living in Phippsburg, N.H., wrote of the arrival of Phil on formation for rooting plants under plastic, as described in a recent Portland Sunday Telegram article concerning home horticulture for winter. Fred writes to write to Lyle, and he will pass the latest word to you.

The Rev. E. Charles Dartnell of the First Methodist Church of Bangor recently took part in a Panel Discussion with clergyman of all faiths at the annual meeting called for the purpose of organizing a "Clergy Manument" public relations office to organize a rubber program.

A final note (sweet) (Bill) (Lump-Lump) Lamprell and (Wally) (Wood) (Lamprell) have been American Field Service reunion back in Nov. 1961.

They, too, on the 20th Anniversary of the U.S. in World War II of the AFS. A wonderful time was had by all, and over 300 of the gang were back. Bill writes all is well, and will write you all the news. Lumpy will write you next time. Let's hear from all of you before the next issue.

1947

Mrs. Walter C. Brooks (Peg Spaulding) 57 Leighton Street, Bangor

15th Reunion, June 8-10, 1947

Hope you are making Reunion plans—soon we will be sending you our plans for a get-together on June 8 and 9.

Mrs. Robert Dinmore (Lala Jones) Box 411, Groton, N.H., wrote of the arrival of Phil on Nov. 6, 1961, and gave me an idea of the activity of her family. Bob was in charge of the district boy Scout Council in Grove City, Pa., and they have taken part in both the Outing Club ski slope (all three older children and their younger brother possible) and the Boy Scout Board Chairman. She also directed and had a small part in a one act play which her Woman's Club's 50th Anniversary was entered in the state drama contest. They won second place in the comedy division. She included a letter from Gerald Smith, 61 West 50th St., Apt. 2B, New York, N. Y. Gerry is back with Time Magazine as a research writer and Bob (who like to do more free lance writing) has taken over the space as a writer. Gerry visited Jan Browne Noyes (Mrs. Edward) at 8 High Rock Rd., Wayland, Mass., and their daughter was a wonderful guest from her school. Gerry is still a member of Orono High School and lives in a terrific golfer.

Christmas greetings came from Bob and Stella Patten, Brentwood Acres, 33 Murray Drive, Cape

SELL INSURANCE—
AND LIKE IT!

With new uses developing for life insurance, both business and personal, an agent’s career can be a creative and satisfying one for HBS alumni.

Norman M. Wallack ’48, New England Mutual Life Insurance Company, Boston

Of course we have many alumni among the managerial personnel in the industry. So they immediately want to know how I ever ended up as such an anti-hero, and so forth. Expecting some horror story of a misspent youth and wasted opportunities. Actually, the facts bear no resemblance to their assumptions. I am in this business because I like it, because I chose it after trying several other types of work, because it offers all kinds of opportunities for ingenuity in developing special insurance programs for particular companies and individual clients. In so doing, I have come to the conclusion that businessmen are in
in industry to start one in life insurance

Norman Wallack had good reasons. Here's the first-hand account he gave us after his article had appeared in the Harvard Business School Bulletin—

"After graduation from Harvard Business School, I did well during the next nine years in two different areas of business. First, as merchandise manager for a large Midwest manufacturer. Next, as developer and owner of a camping-equipment company. But after five years of having my own company, I sold out at a substantial profit. Six months later I had decided to sell life insurance for New England Life.

"I had plenty of confidence by this time in my business ability. Now I wanted to find an area where it would pay off on its own and require little reliance on others. I wanted a field that offered increasing income as I grew older without suddenly dropping off when I reached 65 . . . that held fewer of the frustrations encountered in industry . . . that could put to best use my training at the School, experience and capabilities.

"Life insurance seemed to come closest to this ideal. So I picked out the company with one of the finest reputations and cost pictures in the industry and sought out one of the most outstanding training agencies in the business.

"It adds up to this: I'm in this business because I like it. Because I chose it after trying other types of work. Because it offers all kinds of opportunities for developing special insurance programs for companies and individuals. It's the unusual combination of freedom and variety that appeals to me. Perhaps it will appeal to you."

If you'd like a reprint of the 5-page article by Norman Wallack, "I Sell Insurance — And Like It!" just send along the coupon. We'll also mail you our free booklet, "Are you cut out for a career in LIFE UNDERWRITING?" which describes the opportunities with New England Life for those men who meet our requirements.

NEW ENGLAND LIFE

Vice President John Barker, Jr.
501 Boylston Street
Boston 17, Mass.

Please send me a reprint of Norman Wallack's "I Sell Insurance — And Like It!" and your free booklet, "Are you cut out for a career in LIFE UNDERWRITING?"

Ardmore Avenue

Seaside Park, N. J.

I have some changes for your address book:

Davie ’59 (Margaret and Doris (Marrat)

Elizabeth Ann Conner, 27766 Gkowdy Rd., N.

W., Atlanta, Ga., 44th Rd., N.W.

Daniel H. Bryant, 36 Pleasant St., Yarmouth,

Chris ’58 (Jean and Dick) Moen, 2015 S. White

till Rd., Petersburg, Va.

Zira Scheer, 17 S. Quaker Lane, West Hartford,

Conn.

Reginald Bowden, R.F.D. 6, Augusta,

M Patricia Hurley, 12 S. Park St., N. W.,

Apartment 1, Washington 8, D. C.

Ray and Liz (Pierce) Cross have left the sunny

south for 200 Water St., Athens, Ga., 8. H. They

moved in September when Ray took a job with the

Improved Machinery Company. Mark, 3, and Jeff,

3, have traded their swimming trunks for snow tops

this winter.

December is birthday month for the daughters of Ed ’56 and Joyce (Reynolds) Ludwig, 254 Lan

caster Ave, West Springfield, Mass. Linda Joyce

unherded in the holiday season on December 19. She

came home from the hospital on December 24 as

a present for her parents and celebrated her sixth birthday

on that day. Ray had four cakes on his in

November 2. They say “hi” to everyone.

Annie ’50 and Richard (Clara) Thompson and

Elaine (Watts) Parker are living at 214 Traple Rd.,

Belmont, Mass. A registered medical tech-

nical assistant, Elaine, is employed at the Malden Hospi-

tal School of Technology, Tom, an alumns of U. I.,

is an underwriter for the Liberty Mutual

Company.

The WELCOME MAT is out at 292 Summer

Ave., Reading, Mass. If you stop, you will find

Shirley ’52 and Pat (Gill) Chamard at home with

James Joseph, 2, and Thomas Gill, who arrived on

April 1.

A new citizen made his appearance at the home

of Hale ’54 and Nancy (Karalak) Reed, R.F.D. 3,

Gerald Dr., Rockville, Conn., on June 14. David

Johns Kim, 5, and Dana, 4.

Nancy L. Young and her husband are the new

dwellers at 102 Westport Rd., Canton, Conn.

She is sharing the nursery with Janet, a little lady of

three. Fred is studying for his Ph.D. in physics at

the University of Notre Dame.

The Christmas mailbag included news from Bill

Elton (Bill) Reed, who are enjoying the "cold world

charm" of a small farming village near Frank-

turf, Germany, in spite of the fact that it takes 60

minutes to get to the nearest post office. That Martha

Louise, an August 13 stork special, is not in a hurry for

her diapers. Their address is: Capt. and Mrs.

William P. Reed, R.F.D. 3, Del., A.P.O.

Casco Neck and the Puritans

The area around Portland with its wealth of fur, fish, and tall timber for ships' masts, was a much-fought-over prize from the moment the first white men settled on the shore of Casco Bay.

Gorges, Rigby, their agents and heirs, all claimed jurisdiction of the area, under grants from their free-handed King, Cleaves, Portland's first maintained settler, claimed proprietorship. The Massachusetts Bay Colony entered the fray. No one knew who actually held the province, and the consequent legal wrangling was not conducive to orderly government.

Into the welter of claims and counter-claims the Massachusetts Bay Colony pressed her own demands without let-up. The inhabitants of Maine stopped their internal wrangling temporarily to unite against this common enemy. The majority of the settlers were staunch Episcopalians and bitterly opposed to the ideas and practices of Puritanism.

Finally, in 1638, over the protests of the settlers, Massachusetts was victorious and took formal possession of the Province of Maine. In order to preserve any of their rights and privileges, the settlers were obliged to sign a formal document called the "Submission of 1638," which began:

"We, the inhabitants of Black Point, Blue Point, Spurwink and Casco Bay, with all the islands thereinunto belonging, do deem and acknowledge ourselves to be subject to the Government of Massachusets..."

After promising that religious differences wouldn't deprive the Maine colonists of their civil rights, the agreement stipulated that: "... all those places formerly called Spurwink and Casco Bay from the east of the Spurwink River to the Clapboard Islands in Casco Bay, to run back eight miles in the country... henceforth shall be called by the name of Falmouth."

The next fifteen years in Maine found the people still unwilling to recognize the authority of Massachusetts. Appeals were made to England for a more agreeable government. In 1665 the authority of Massachusetts was abrogated by Charles II, who appointed governors to the province. That there was not an easy task is attested by the fact that three years later these men threw up their hands in failure and returned to England. Massachusetts re-established her jurisdiction by force and gradually and grudgingly the people submitted to her uneasy rule.
