AN EDITORIAL

What's A Leader

The news of a shining big group of freshmen -- the men and women of the Class of 1970 is fascinating. They are bright young folks, healthy ones, eager and impatient. Many of their parents, teachers and neighbors are saying: "Ah, yes, there they go-off to college to become the leaders of tomorrow." True, some of them will become leaders in our relatively open leadership system in United States society. What should be of concern to us all is, the process by which some of these will be determined, but more importantly -- the kind of preparation they will find at a great university.

Not much longer ago than one year, John W. Gardner left the presidency of Carnegie Corporation to become secretary of health education welfare in the cabinet. Just prior to that change he wrote an essay on leadership and we looked at it to see what predictions he might have included about young peoples' opportunities to become leaders. He said, "...leadership in the U.S. is not based on caste or class, nor even on wealth." Also, "...leadership is dispersed among a great many groups in our society." Very few of our most prominent people, he believes, take a really large view of where our society is heading, or of what major trends determine our future or what we should be doing about the major trends. In fact, says he, most folks avoid the leadership assignment and are simply tending the machinery of that part of society to which they belong. And, he states, "The cure is not to work against the fragmentation of leadership... but to create better channels of communication among significant leadership groups, especially in connection with the great issues..." But, "...we are immunizing a high proportion of our most gifted young people against any tendencies to leadership."

The proof offered is reasonable. Life is a bit more complex in a crowded population. Young folks are aware of being anonymous members of a mass. How to exercise leadership is not a clearly visible process and so it is thought to be exceedingly intricate. Bright students may be discouraged or even carefully schooled to avoid leadership, because intellectually gifted ones go from college directly to graduate school or into professional schools. There the indoctrinated attitudes are the ones appropriate to scholars, scientists, and professional men. Good! Not good, however, beyond the purely professional tasks -- for the broadening of interests; instead rather narrowing and technical. "The academic world may appear to want to educate the technical expert who advises the leader, not the leader himself."

Where is the broad moral leadership -- the articulation of cherished values of our society? So much energy may be devoted simply to "tending the machinery of our complex society" that the heading may be obscured, and the ambition of a motivated and capable leader may be quashed.

Thank goodness for the traditions in songs, in customs, in newspapers; for the continuation of military training and of fraternity and sorority self government, of debating groups and student clubs. It may be in these, or just possibly in the classroom, that the leaders will be identified and will be motivated and will succeed to the places of real eminence where they will be needed. Let us resolve that they learn to express the values that hold society together, and that they conceive goals which can lift people out of petty preoccupations.

Welcome, members of 1970! Be ambitious! Learn to become leaders!

Monroe James Romansky '33 was honored with the second alumni Career Award during Homecoming. The first Career Award recipient was Louis Schweitzer '19. The citation for Dr. Romansky's award is as follows:

"For the honor brought to Maine by a man's active interests and achievements out of his business and professional career, the General Alumni Association of the University of Maine cites an individual this year. It is the second successive year for a person to be named Man of the Year and a recipient of a Career Award.

"Monroe Romansky was a fullback on the varsity football team at the University of Maine. He was also a basketball player during his undergraduate years, and was active on many committees of the student body. He was a member of the Sophomore Owls, of the Senior Skulls and of Tau Epsilon Phi Fraternity. He graduated with a degree in Zoology in the year 1933.

"An outstanding scientist, a discoverer of new uses for penicillin and streptomycin, the author of articles and monographs in medical journals, and a recipient of the Legion of Merit Award from the United States government, are all personal facts in this outstanding man's biography.

"Monroe Romansky is a second-generation American. His parents emigrated from the USSR and came to the United States. Dr. Romansky was born in Hartford, Connecticut. He graduated from Weaver High School in Hartford, and then after his days at the University of Maine, he earned his MD at the University of Rochester, in 1937. He
Nominations for all Alumni awards are welcome at any time and should be made to the General Alumni Association, 44 Fogler Library, Orono, Maine 04473.

The Alumni Service Emblem, awarded once each year at the spring alumni banquet, is given for meritorious and outstanding alumni service rendered through the GAA.

The "M" awards are made throughout the year and recognize alumni activity that develops strong and active goodwill for the University.

And, nominations can be made at any time for next fall's Career Award recipient and for the Black Bear Awards.

Black Bears

Interred in medicine at Strong Memorial Hospital in New York. From 1939 to 1940, he was a Gleason Research Fellow at Rochester.

"With these accomplishments, Dr. Romansky was realizing a goal that he had set for himself while a lad at Weaver High School at Hartford. At that time he said "I have never thought of anything except earning a place in medicine where I could make lasting contributions for the better health of mankind." He was married in 1943 to the former Evelyn Lackman and they have four sons.

"He served during World War II in the Medical Corps of the Army of the United States. From 1942 to 1945 he was engaged in research in the use of penicillin at the Army Medical Center, Washington, D.C. His research constituted distinguished service because with his professional skill and devotion to duty he brought about great improvements in the techniques of the administration of that antibiotic, particularly for saving lives and alleviating suffering. At Walter Reed Hospital, Dr. Romansky evolved a method of administering penicillin which successfully cut down its absorption rate in the human body, causing the patient little discomfort and providing a certainty of longer lasting action of the medicine. This early research led to the discovery of a cheaper and faster method of treatment of patients and particularly patients suffering from venereal disease. At the time of his return to inactive duty from the Army of the United States, he held the rank of Major, Medical Corps.

"Nor were his activities in service to the United States all of the matters for which he has deserved and received recognition. In 1950, he was named the outstanding graduate of Weaver High School of Hartford. He also received at the 38th convention of the National Fraternity, Tau Epsilon Phi, its Founders Award Key. This award was given for outstanding contributions to medicine.

"Dr. Romansky is a member of the College of Physicians, and of the American Medical Association and is also a consultant at many hospitals in the capital region and is professor and chief of medicine, George Washington University, Medical Division, Washington, D.C.

"In 1952, Dr. Romansky, then associate professor of medicine at the George Washington University, acting as consultant in internal medicine to the Surgeon General of the U.S. Army made a six weeks tour of army hospitals and installations in Germany and in Austria. He also spoke while in Europe before the Royal Society of Medicine in London, the Geneva Medical Society in Switzerland and the Pasteur Institute in Paris. Dr. Romansky, who makes his home with his family at 6609 32nd Place NW in Washington, is a widely known man of medicine and is listed in American Men of Science, the tenth edition.

"In 1960, under the State Department's direction, Dr. Romansky addressed an audience in Sao Paulo, Brazil, while making his study of South American medical facilities.

"In memory of this date, Dr. Romansky, and in our salutation to you, we wish also for you to have an electric clock inscribed with your name and bearing an appropriate photograph from the University of Maine campus.

"In recognition of the many outstanding honors already received and for his superlative contributions as a member of learned professional and scientific organizations, it is an honor to the General Alumni Association of the University of Maine, to cite this doctor's activities and achievements and to claim him as award recipient in the second year of the Career Award and to name him Man of 1966."
Black Bear Awards were presented at Homecoming to three loyal supporters of the University of Maine, Walter W. (Pete) Crane, Royal G. Higgins, Jr. '17, and Joseph M. Murray '25.

Pete Crane is the enthusiastic caretaker of the University athletic fields, Royal Higgins is an extremely active alumnus, and Joe Murray is the long-time dean of the College of Arts and Sciences.

The citation for Crane noted, “An enthusiastic fan and close personal friend to many Maine athletes over the years, this man has adopted the University as his alma mater.”

He will have been with the University athletic department 10 years in February. Before that, he worked for Maine Central and drove all the Black Bears sports teams when they took to the road over a period of 13 years.

A native of Whiting and graduate of Dennysville High School, Pete is now a resident of Brewer, but he spends as much time on the Maine campus as he does at home and never with a complaint.

In citing Higgins, it was noted that, “Roy has been an outstanding worker, contributor and loyal Homecoming alumnus for most of the 49 years since he was here.”

Higgins has supported the Western Massachusetts Alumni Association at Springfield, the Black Bear Club of Western Massachusetts, and the Graduate M-Club, in addition to giving much time to committees and fund-raising campaigns.

Now retired from Paine, Webber, Jackson, and Curtis, Royal Higgins is a former varsity football quarterback at Maine. While at Maine, he was president of the Skulls and of his junior class.

Dr. Murray’s citation noted, “Not only did Dean Murray serve a rapidly increasing enrollment of the largest college of the University very capably . . ., but he made his talents useful to alumni organizations.”

He was treasurer of the Memorial Union Building Fund, has been president of the Penobscot County University of Maine Alumni, and frequently speaks for student and alumni causes.

An outstanding scholar while a student at Maine, Dr. Murray became head of the zoology department at Maine in 1934 and was appointed dean of arts and sciences in 1941. During World War II he reached the rank of major while serving his country in the army and recently returned to teaching after 21 years as dean of the College of Arts and Sciences.
Maine Explodes On Homecoming

John Huard, Maine's Little All-America linebacker, picked the best possible occasion to make his claim to the title of the Black Bears' finest football player in history.

Performing before nearly 9,000 Homecoming fans, many of whom had previously worn the Maine uniform on the gridiron, Huard scored two touchdowns, unheard of for a defensive player, in Maine's 21-6 victory over Rhode Island.

The victory was a bright point in what has generally been a depressing season for Maine. The victory gave Maine a 2-4 record and the Black Bears were left in the position of having to win their four remaining games to post a winning record.

In previous games, Maine had lost to Massachusetts, 10-7; lost to Boston University, 20-7; defeated Bucknell, 7-6; lost to New Hampshire, 10-7; and lost to Connecticut, 20-19. Remaining games were against Colby Oct. 29, at Youngstown Nov. 5, and against Vermont Nov. 12.

Against Rhode Island, Huard blocked a punt in the first period and ran 12 yards with the ball for his first TD. In the final period, Huard, who had previously returned another interception 43 yards, ran an interception back 29 yards to a touchdown.

Two members of Maine's outstanding defensive unit accounted for the other TD in the first period. Norm Tardiff, a fine defensive safety, returned a punt 20 yards to the URI 33 and Paul Keany, the other defensive safety who doubles on offense, finally scored on a five-yard run.

Both Tardiff and Keany, who started the season on the defensive eleven, have played more and more offense as the season progresses, sparking what had been a lack-lustre offensive unit.

The Maine cross country team picked the finest possible time to reach its finest moment of the fall season.

Maine depth gave the Black Bears a thrilling 28-29 victory over the University of New Brunswick before nearly 9,000 fans during halftime of the Homecoming football game.

St. Anselm's was third with 84 points in the triangular meet. The victory was the second straight for Maine after losses in the Bears' first two dual meets.

UNB's Bob Stewart finished first, but Maine's Steve Turner was a close second and Bears filled the fifth through ninth positions.

Except for a dual meet left with Colby, the remainder of the Black Bears' meets were championships—Yankee Conference, New England, and IC4A.

One dark spot in Maine's Homecoming celebration this fall was the Black Bears' 9-0 soccer defeat at the hands of Rhode Island.

The loss was the sixth in a row for winless Maine and left the Black Bears with only five games in which to score their first victory.

Coach Bill Livesey is in the midst of a building year, needless to say, and at times has fielded a team with nine of the 11 players lacking any previous soccer experience.
A University of Maine basketball team that includes only four lettermen opens the 1966-67 season on December 1 at St. Anselm's.

The veterans are seniors Terry Carr, 5-10; Dave Hale, 6-5; and Rick Woods, 5-9; and junior Tom Farrell, 5-9. Two non-letter winners from last season, 6-6 junior Chip Edgecomb and 5-6 junior Dave Smith, are also on Coach Brian McCall's squad.

McCall is expecting immediate help from several sophomores, including 6-3 Jim Stephenson, 6-5 Paul Reynolds, and 6-3 Rod Macklin. Transfer Dean Chase, 5-9, is also highly regarded by McCall.

Other squad members are transfer students John Eisaman, 6-3; and Bob Thomas, 5-9; sophomores Hugh Campbell, 6-4; and Wil Butterfield, 6-3.

Philip (Brud) Folger, a native of Farmington, has replaced Tom Reynolds as varsity ski coach and Bob Pickett, Maine's new freshman football coach, will handle the frosh ski team.

Folger, who also coached freshman soccer and will handle both varsity and frosh tennis, is a graduate of Middlebury College.

Maine and Colby College will be co-hosts for the NCAA Ski Championships March 2-3-4, 1967 at Sugarloaf Mountain. Folger is now involved in preparations for that meet that started over the summer.

The University of Maine will make an eight-game spring baseball trip into the Mid-Atlantic area this coming spring.

Included on the tour are games with St. John's, which finished third in the NCAA World Series last June, and Villanova, always a strong independent.

The entire trip schedule:
March 25—at Villanova, March 27—at Fairleigh-Dickinson, March 28—at Rutgers, March 29—at St. John's, March 30—at Columbia, March 31—at Princeton (two games), and April 1—New York University at Princeton.
Susan Derosier, the 1966 Homecoming Queen, was introduced (left) at halftime to the nearly 9,000 fans attending the University of Maine's Homecoming football game with the University of Rhode Island October 22.

Miss Derosier, a junior from Presque Isle majoring in elementary education, was selected in balloting by the Maine student body and was crowned the previous evening at the Homecoming Ball.

The 20-year-old daughter of Mrs. Cecile Derosier and the late Fred Derosier of Presque Isle, Susan is five feet, four inches tall, weighs 120 pounds, has hazel eyes; and brown hair.

Vying for the crown were (front cover and below, left to right) Cookie Shaw of Bangor, Judy Purzycki of Columbus, Ohio, Gretchen Harris of Skowhegan, Judy Anderson of Rumford, and Miss Derosier.
The University of Maine has grown to such an extent in recent years that close to 6,000 undergraduate students are now enrolled at Orono and nearly 15,000 students are enrolled throughout the state in all programs.

There are 6,325 students at Orono, including 1,020 seniors, 1,184 juniors, 1,570 sophomores, 1,549 freshmen, 480 graduate students, 12 fifth-year students 130 special students, 36 three-year nursing students, 333 two-year students, and 11 others.

There are 1,027 students on the Portland campus and 95 students at the University of Maine School of Law for a total of 7,447 full-time students. More than 7,000 have enrolled for Continuing Education Division Courses at various U-M centers throughout the state, giving the university an overall enrollment, both full-time and part-time of 14,447 plus.

Capt. Alfred D. Damour, M/Sgt. George E. Pritchard, and SFC Alfred A. Hoffmann have been assigned to the Department of Military Science at the University of Maine, replacing four members of the department who have been transferred to Viet Nam in recent months.

Capt. Damour is principal advisor and instructor of all junior cadets in the Reserve Officers Training Corps. Sgt. Pritchard is military science instructor for freshman cadets and rifle coach, and Sgt. Hoffmann is chief administrator of the ROTC Instructor Group.

Former members of the Maine ROTC unit sent to Viet Nam are Major Clifton H. Deringer, Jr., SFC Paul D. Chartier, SFC Floyd E. Holmes, and S/Sgt. Robert Spencer.

Frank W. Hagan '33 has joined the University of Maine Extension Service as coordinator and administrator of Title I of the Higher Education Act.

The University has been designated by Gov. John H. Reed to administer the act in Maine. Twenty colleges in the state are eligible to utilize the funds.

Claude L. Hough, 56, assumed the post of director of development at the University September 7, having served previously as the executive director of The Principia College Patrons' Association. Hough, who succeeds Peter Crolius, will be the university's principal fundraising officer for the Orono and Portland campuses and for other branches and units of the state university.

Dr. Edwin Young, president of the University of Maine, recently completed a 24-day trip to Southeast Asia under the auspices of the U.S. State Department.

As an advisor to a Southeast Asian plan to develop an extensive program of regional education, Dr. Young met with representatives from Thailand, Malasia, Laos, the Philippines, Singapore, and South Vietnam.

The regional program is an attempt to pool resources and develop educational opportunities that the countries could not economically provide separately, according to Dr. Young.

The plan is still in the confidential stage. Dr. Young and his wife Phyllis spent an average of three hours daily traveling and Dr. Young was often at the conference table another five hours daily.
Dr. Hans Weisz of Lincoln, a native of Vienna, Austria, and Dr. Russell Lane of Blue Hill have joined the staff at the university's health center.

Dr. Weisz replaced Dr. Dean Hutchins, now on a two-year leave of absence to work in a special World Health Organization program to eradicate measles in Africa.

The University infirmary handled 34,700 students visits last year, according to Dr. Robert Graves, the director, and with the increase in enrollment, the increase from two to three full-time physicians was necessary.

Fifty University of Maine Travelling Art Exhibits are now on tour of Maine schools in the fourth year of a program which brings together the works of contemporary Maine artists.

The shows are designed to acquaint school children with the work and styles of the state's professional artists. The exhibits, crated and matted for hanging, are sent to the schools for a month at a time, and each school is responsible for sending the exhibit on to its next destination.

Dr. W. Harry Everhart, University of Maine zoology professor, has been named by Gov. John H. Reed to a subcommittee concerned with water resources planning and program coordination.

Dr. Everhart is also chief of fisheries for the Department of Inland Fisheries and Game. The water resource planning subcommittee is one of several subcommittees of the Governor's advisory Council on Outdoor Recreation and Natural Resources.

Four University of Maine alumni will do field work for the State of Maine Talent Utilization Agency, a federal program sponsored by the University.

Stanley M. Ferguson '52 of Madison, Ernest Saunders, Jr., '36 of Lewiston, Donald M. Bruce '60 of Orono, and Bert L. Pratt, Jr., '43 of Caribou will work with school superintendents, guidance counselors, civic groups, and others.

Known as scholar scouts, the men will work to identify youngsters with advanced educational potential and to encourage these students to continue their education through high school and into the post high school and college level.

Ferguson will work in schools in Somerset, Knox, Lincoln, Sagadahoc, Kennebec, and Franklin Counties; Saunders will cover Cumberland, York, Oxford, and Androscoggin Counties; Bruce will work in southern Penobscot, Hancock, Waldo, and Piscataquis Counties; and Pratt will be in Aroostook, Washington, and northern Penobscot Counties.

University of Maine alumni, ages 23 to 35, are invited to apply for the White House Fellows program, which gives young men and women chosen from business, law, journalism, the universities, architecture, and other occupations high-level experience with the workings of the federal government.

Working as assistants in the executive branch, those college graduates chosen receive stipends of up to $15,000 for their year in the program.

Applications for next year's program will be accepted until January 6, 1967 and can be obtained, along with additional information, from Thomas W. Carr, Director, Commission on White House Fellows, The White House, Washington, D. C. 20500.

HARDWARE
BANGOR MAINE
The University of Maine, both at Orono and Portland, is in the midst of a $15,672,857 building boom. Nineteen construction projects, most of them scheduled for completion before next fall, are either in the planning stage, out to bid, under construction, or nearly completed.

Funds for the projects, 16 on the Orono campus and three in Portland, have come from two referendum votes authorizing $12-million for housing and capital improvements and from the legislature, which allocated $4-million for capital improvements.

The Orono projects include:

A housing complex to include three dormitories and a dining hall. Work has started and completion is slated for September, 1967.

A new zoology building, which has been started and is to be completed by November 1, 1967.

A new forestry building, which will be placed out for bid shortly.

Renovation of Fogler Library was completed for the opening of school in September.

Expansion of the central steam plant, which is to be finished by the end of the year.

A new service building, which is slated for completion by June, 1967.

A public information and press building, which was placed out for bid early this fall.

Improvement of existing campus roads and parking areas, including a new access road from Park Street, is completed.

Additional sewage disposal facilities. Bids were opened in September.

Renovation of Carnegie Hall, Aubert Hall, Fernald Hall, and Crosby Laboratory. All are in planning.

Expansion of campus water lines, completed in September.

A new infirmary, now in planning, with a 40-bed capacity.

Enlargement of men's physical education facilities, scheduled for completion next summer and including tennis courts and a soccer field.

The Portland projects include:

A new science building, now in planning with no completion date set.

A multi-purpose building, now in planning with no completion date set.

Law school renovations, which are completed and include additional space for the library.
With the enthusiastic backing of Edwin Young, University of Maine students are well on their way towards realizing a long-time dream.

Fund raising has begun and plans are being drawn for a $225,000 recreational swimming pool to be built behind and connected to Lengyel Hall, the women's physical education building.

Under the direction of John Gooding, the student chairman, pledges of over $14,000 have been received from upperclassmen and a continuing campaign will be aimed at freshmen and other students who have not contributed.

The pool, to be housed under a permanent plastic dome 120 feet in diameter, would be a year-round facility and would fill a crying void in the recreational opportunities provided for the rapidly expanding student body.

Approximately $8,000 have been left by graduating classes to be used towards a pool and the students plan to ask the state legislature to provide the balance of the necessary funds.

However, before asking the solons for funds, the student committee is aiming for 100 percent participation of the campus community. Faculty and staff members have indicated that they will contribute to the pool, which would also be available for their recreational use.

The alumni have not been asked to contribute, but have been asked by Gooding to provide moral support and influential backing rather than monetary support at this time.

In June, alumni voted approval of the project, which originated with the students.
Dear friends and former students -

Being the custodian of a page of this issue my chore has quickly and honestly become one of the happiest endeavors of my years of association with the University - TO PERSONALLY THANK YOU.

Thanks for what, perhaps you are asking. For the annual support, small and large, that you as alumni and friends have provided. This enabled the staff of your University's Department of Student Aid to assist over 900 worthy, undergraduate, students with financial grants during the 1965 - 66 college year. It would be extremely difficult for each recipient to express his appreciation directly to you - but it is possible for me, through this medium and in a collective fashion, to pass along the warm and heartfelt expressions of gratitude which we have received from hundreds of those who had such assistance. $267,000 in available monies is a cold, stark figure for one year of allocation. Much of it was made available to the University for student assistance because of your interest - and perhaps, in part, by your thoughts or memories of similar situations in earlier college years.

Thank you - and with great appreciation.

Sincerely,

Robert C. Worrick '43
Director of Student Aid

A 22-day tour of Europe next summer has been planned by the General Alumni Association for University of Maine alumni, faculty, parents, and friends.

A complete and detailed outline of the tour can be obtained by writing the GAA, 44 Fogler Library, Orono, Maine 04473 or Dittmann Tours, Inc., PO Box 199, Northfield, Minnesota 55057.

The escorted tour will leave New York by jet liner on July 17, 1967 for London. Following a visit to England, the tour will continue through Denmark, Holland, Germany, Austria, Italy, Switzerland, and France. The tour will leave Paris on August 7 for New York.

The complete tour price is $895 per person and includes air transportation between New York and Europe, all transfers and transportation within Europe, hotel reservations in twin-bedded rooms with private baths, most meals, sightseeing entrance fees, service of guides, and many other features.

This tour is being handled by a professional tour company which has had years of experience in handling alumni tours of this type.

The group will be accompanied by professional tour guides throughout and a member of the university staff will act as the tour director.

Before leaving the United States, each person will receive information on clothing, shopping, currency, and many other items to help in individual preparation for the trip.

Maine In 1909
Genuine Engraving
Hand Painted
Perfect Gift
Fully Guaranteed

Maine alumni are offered new prints of a 1909 engraving of the University of Maine campus done by Richard Rummell. These new prints, done with the original engraving, are also hand-painted in delicate soft blues, browns, reds, and greens, using the best imported water colors.

This engraving is certified to be a hand-printed restrike taken from the original plate—not a reproduction or photograph.

The prints themselves are approximately 16 by 28 inches and can be ordered in a frame approximately 25 by 36 for $39 or for $25 unframed, plus the Railway Express shipping charge collect.

Orders should be made to the General Alumni Association, 44 Fogler Library, Orono, Maine 04473.

A bequest of $93,287.40 has been received by the University of Maine Foundation from the estate of Harry E. Emery, late of Bangor. The terms of the bequest stipulate that the income from the fund which is to be used for loans to "well deserving students at the University of Maine giving special consideration to students from Anson Academy and members of Beta Theta Pi Fraternity," Mr. Emery, active in alumni and class affairs at the University, died in 1961.

60th Reunion — June 2 & 3, 1967

We held our "Little Reunion" on Saturday, July 30, at Kohl's Lobster Pound, Seapsort. Those present with wives were Barrows, E. Lambe, Mac Donald, Will, Albott, and Pymen. Ben Williams was the only man. We were missed Walter Farnham who was coming but was stricken with a fatal heart attack. Mildred (Mansfield) Martin expected to come but her arthritis acted up. A nice shore dinner and then adjournment to the shore for a talk.

A letter from Dana R. Beal, Fullerton, Calif., in regard to his father, Arthur Beal. Arthur is in very good physical health but has had hardening of the arteries for some years. He is in a convalescent hospital in Fullerton.

A letter from Mrs. Guy Roberts, Santa Paula, Calif., says she and Guy were in good health. They live in their own home and Guy had a garden which they enjoyed.

Terschau, Veve, Portland, called on us in Bangor but we had not moved in from our Pitcher Pond cottage, so he missed us. He left a note saying that he was in good health but his eyesight was becoming poor. He is still working at the Casco Bank, Portland.

Jerome B. Clark, Los Angeles, Calif., has recovered his health again. However, his wife had a fall and broke a small bone on her spine. She has been confined to her bed and wheel chair.

Mrs. Thomas Gunn (Cora Shaw) spent the month of July in Bangor with her daughter Mrs. Wayne Evans and family. A recent letter expressed her loneliness at her home in Pittsfield, Mass., after a month with a family of ten.

Joe and Margaret Gerrity have spent their usual busy summer — long weekends at York Harbor and mid-week in Newton. Recently they attended a meeting of the Jackson Laboratories Trustees in Bar Harbor.

"Put" and Mildred Bruce and Walter Harvery were among the few of our class who attended alumni goings in June. Put and Walter are of that ageless breed who think all who are not bed-ridden should get to Orono in June and October. More power to them! Put was honored by his fraternity — Sigma Nu for "Distinguished Service" to his chapter.

Early in the summer Harold Rich was put to bed because of poor circulation. He says he is getting too much and Frieda none at all. We hope he has improved by now and is about as usual. They have been among the most loyal of "Naught-niners" on all occasions.

Walter Harvey has written and phoned me quite frequently in recent months. He seems as rugged and active as ever.

Mrs. Warren Trask, Sally to her friends, is due to return this fall after completing her degree at the University of Maine. She has been doing the interesting equipment, memorabilia, and vehicles in the lumbering industry from earliest time. Lore Rogers, himself, was busy cataloging and setting up articles when we from the Alumni office stopped by in August. He and Mrs. Rogers have also set up a picnic and camping area in Patten.

Pearly Vinal Vincent sends a thank you for the birthday cards, as have many others. Nice to hear from her in Arcadia, Florida.

A call on Harvey Whitney, class of 1925, to visit to Lore Rogers and wishing that some of his classmates would send him a bit of news.

Allen Knowles of Winter Park, Florida, and a friend visited the Alumni office in August.

Raymond W. Davis of Gulford, "Jill," has retired as president of the Gulford Trust Co., after being associated with the bank for 53 years, first as secr. and treas. and then as its president from 1928 to his retirement. He will still remain as a trustee of the bank and of the executive committee. Ray is best known to many Maine men as a trustee of the Univ. of Maine with a long and illustrious record of achievement and was president of the board from 1952 to 1955. He was given an honorary degree of LL.D. in 1957, in recognition of his great service to the Univ. of Maine.

Had a card from Marty McHale that he and his "bride" just returned from the Baseball Hall of Fame at Cooperstown, N. Y., where they witnessed the ceremony of the installation of Ted Williams and Casey Stengel into that famous group of baseball men. Marty knew them both well. Marty tells of his joining the Red Sox back in 1910 in an article in "Red & Gun."

In last July's Alumni I told the story of Seavey A. Piper as chairman of the State Soil and Water Conservation Committee. Seavey Piper has been further featured in the U.S. Dept. of Agriculture Magazine as the outstanding advocate of soil and water conservation which is greatly needed in many parts of the U.S., particularly in the arid sections of the country as in Arizona, New Mexico and California.

Albert and Madelyn Conley had to go to Alaska this Summer to keep cool. They write from Harrison Hot Springs, B.C., that they are on their way home from a trip to Alaska and the Yukon.

Back in Maine the Lou Geerys one Sunday in August invited the Brownie Schrumps and your sec. to their place at Hancock Point, a beautiful spot looking out on the bay.

55th Reunion — June 2 & 3, 1967

12

Reunion weekend in June found two sons of Alphonse Chase, Colonel Baker '41 and Faulkner '41 enjoying their 25th reunion, while Gordon was also reminded a 25th year of managerial work with Sears and Roebuck Co.

June Kelley, our vice president, spent two weeks at Bayside this summer.

Sympathy is extended to Luther Russell, of Kents Hill, on the loss of his wife, Pauline.

Summer was a most beautiful one 'tis said. It has been said that those who live outside the State, now have the opportunity to come back home. If you could not make it I do hope you will get back to the University this fall so to some of the football games and attend the coming season and make your trip both ways a most enjoyable one.

A brief note from Muriel (Young) Maine tells us she has two grandchildren, John T. '40 and Julia (Holmes) '45 Maine. So glad to hear of this, Muriel, and also to learn of the outstanding job son John is doing in the other business.

Got a card from “Flicky” Richards who came East this Summer from St. Louis but only was able to get as far as Boston where sightseeing was the order of the day. Thanks for the card. Hope some day you will make up your mind to come and bring your family back to Maine to live.

The sympathy of the Class is extended to Mrs. Barford and immediate family on the death of John Wallace Barford, Kindeeook, N. Y., Class of 1904.

Christopher S. Roberts of Rockland died July 16. He was a graduate of the University of Maine Law School '13 and was a well-known trial attorney and a member of the Bar on the island and in Bangor. He was married to Muriel Burns Roberts and the immediate family.

Class secretary, H. P. Adams, is taking a forced vacation (because of a heart attack) at St. Joseph's Hospital, 297 Center St., Bangor, Me.

Three members of the class were present in June for a class meeting on Reunion Weekend. Present were R. H. Fogler, H. P. Sleeper, and Laura Hodgkins Jackson. Officers elected were: Fogler, Secretary, and class reporter, Sleeper. Merton Banks registered for Saturday events.

Verne Beverly wrote: "Amy and I took a 20 day canoe trip with an old canoe in March. We went to Jamaica, then through the Panama Canal up to Golfito, Costa Rica and return. Needless to say, I had a fine trip. We leave about October 16th to drive to Los Angeles. We jet to the National Association of County Agents in Hinsdale, N.H. on October 27. Previous to the meeting we take a four day trip to the near-by islands. On our return to L.A. November 1st we spend some time in Arizona on our way back to Sarasota. It means I will have to miss some of U's football this fall.

In May, Allyn and Bacon published Linwood Chase's book A Guide for the Elementary Social Studies Teacher. Linwood writes: "This summer for 8 weeks we were on another trip abroad, revisiting and also some new places in Switzerland, Austria, Germany, and England. While Hazel settled down in England to study with a tapestry weaving teacher, I took off for Cairo and then spent two weeks with my son who has just become the chief political officer in the American Embassy in Damascus, Syria. The Middle East was an entirely new experience."

From Peg Balthen: "Soon after the best reunion ever, I have a most delightful tour of the Scandinavian countries.

From Leah Ramsdell Fuller: "We're on a 41 day Arctic cruise—we've been to 'top of the world'—seen the Arctic ice park, glaciers—been to Land of Midnight Sun—seen a herd of reindeer (600-800) going up ship in Norway. Oh, it's been heavenly!"

45th Reunion — June 2 & 3, 1967

Here we are starting another college year and this is an important one of us with a reunion in June. I hope to see many of you at the class meeting, to be held at Homecoming.

Parker Patterson had the honor of representing the University of Maine when a new president was inaugurated at Oklahoma State University on Oct. 21. Parker lives in Oklahoma at 2227 E. 22nd Place, Tulsa.

Fred and I had the pleasure of going to a lovely buffet luncheon Labor Day Sun- day at the home of Donald Perry '18 and Cora Mae (Phillips) Perry '21. They live at Sunset on Deer Isle. Guests were all maine people, coming from as far away as Belfast, Orono, Northeast, Southwest, and Seal Harbors. Foster Blake was also there from our class with his wife, Dorothea. In all, six classes were represented.

An item from Hampden: Earl McGraw, su- perintendent of SAD 22, and his wife, who is secretary to the superintendent, retired this year. They were honored at a surprise assem- bly at the three School recently and were presented with gifts from the students in appreciation of the help given them over the years.

Some of you did not get your questionnaires returned to me in time to be included in the class let-

Twice, this summer, I had the pleasure of chatting with Gladys Staples Col- burn who was charged the gift photos at the Jordan Pond House. She spends the winter in Seal Harbor. Elizabeth Harkness has retired from teaching but she has not lost her sense of humor. She lives in Lincolnville and for "position" she said, "On my knees, digging cutworms in the garden." Dr. Arthur G. Turner was honored by the YMCA: "For Service to Youth" in Providence, R. I. and one of his sons is President of the Foster Libray in which is grandson to it.

Parker Patterson '22 who is President of the Patterson Steel Co. in Tulsa, Oklahoma, sent the clipping telling of the "Meritorious Service Award" given him by the Dept. of the Interior, in recognition for his service as a general engineer at the Bureau of Mines Petroleum Center in Bartlesville, Okla. for 20 years.

Henry Doten reports that we now have $1,531,79 in dues assessment of the gift account. We have a reunion in two years so we had bet- ter be fattening up the kitty.

We have lost three more of our members. Our most heartfelt sympathy to the families of Lionel E. St. Pierre, Arthur E. Rogers, and George A. Vose.

It seems impossible that time has gone so fast that we are at the beginning of another academic year. Dr. L. Bowen of Hallowell received the Block M award for outstanding service to the University of Maine. Incidentally, Governor Cooper presented the award, stated that since his graduation from Maine, Howard has contributed selflessly to the cause of education throughout the State. Congratulations Howard.

Mary Friend was recently honored at the award ceremony for her High School for her twenty years of service in teaching at that school.

Edith Beckett is Librarian at Calais Free Li- brary and has served in that capacity since 1950.

Dave Guppy Parsons is teaching at Ashland High School.

Pat M. Croxford obtained his Master's De- gree in August. See '31 for news of his wife, Erma.

Lt. Col. Tobias C. Eastman who was killed in action in World War II, has had a signal honor bestowed upon him through the efforts of Father Leo W. Nugent, Rev. Nugent spear- headed a movement to have Camp Duschau—formerly a prison camp in Germany, renamed Eastman Barracks. While this may be cold comfort to Mrs. Eastman who lives in Flyeburg, Maine, we hope this will be spiritual solace. The class is proud of Tobias.

The Littles had one of those fairy story weeks at the Univ. of Maine in June when the new A. and his wife were dedicated in honor of my husband and I was given an Honorary degree, Doctor of Humane Letters. We both feel very humble and happy about the whole thing. We had a gathering of the clan and you might be amused at what our seven year old grandson said when someone asked him what he liked best about the new building. He had sat quietly through the speeches but dis- carded his angelic wings fast when he replied: "The EXIT."

Al Repshaw, American Embassy, Box 10, FPO New York, 09527, sends me copies of his letters with us in a fruit line at the United States Cof American University, where he is with a team of nine other U.S. professors on a U.S. Aid assignment to the University of Addis Ababa and teaching project. Al is on leave from Louisiana State. Al says, "Finding this assignment most interesting. Arizona is new dedicated fine trip of about 10,000 students with better than 300 engineering students. It is 240 miles south of Cairo on the Nile, not far from the Aswan Dam. It is a city of a quarter million people. Chances of rain once in 25 years." Why not send a Al a "shower" of letters? In June, Al was made a Fellow in the American Society of Mechanical Engineers. Lafayette Chapter of the Louisiana Engineering Society has present- ed him a plaque for "the member of the Year." Congratulations from us all.

Dr. Clyde Swett has been named chairman of the Commission on Development at Ricker College, Houlton.

Major Betty (Cooper) Cantor, has been ap- pointed to a position on the Wing Staff of the New Hampshire Wing. Her daughter, Betty has been a member of CAP for 11 years in Maine.

Cline Irish is a freshman son at the Univer- sity this fall.

Don Dressel, looking real young in a picture in the newspaper, is with the regional office of the General Service Administration.

Hope you did not miss the citation at U of M's August graduation when Lincoln (Mack) Sennett was the recipient of an honorary Doctor of Pedagogy. Mack also holds an MA (1932) from Columbia University. He is president of Washington State College, Machias.

Aaro Kazham, the "renown" of the cruise ship operations and is out of the country much of the time.

Anne Fuller Linn's daughter, Mary (Linn '51) Roby, is really "authorizing" in addition to teaching at Orono High. She has three books (mysteries) already published, the last one in England this summer, and has sold several stories to Alfred Hitchcock, of which two have already been published in his magazine.

"Coheen" Covara retired recently, but, disliking Maine winters, has built a house on Sanibel Island in the Gulf of Mexico, offshore, s.w. of Fort Myers. He signs his letters "ap- prentice beachcomber."

Ray Burton has moved from Miami to Fort Lauderdale, Fla. Not retired, are you, Ray? Airline Lynch is N.E.A. Director of Bangor Teachers Asst.; hostess committee of Bangor's BPW Club, Mainspring correspondent of Delta Kappa Gamma, and secretary to the Southern Penobscot U of M Alumnae. Oh, yes, she is also teaching school at Bangor Junior High on Union Street.

The following items were noted from the "renown" of the questionnaires sent out at Reunion time.

Effie Braden Ridley—writes that they were unable to return for Reunion as Don was recovering from surgery at the time. They have 16 grandchildren. John K. Schroeder — still Principal of York High School. Edward F. Stanley, last year's president, has moved to a new office at 935 Park Ave., N. Y. 10028. We learn that his only niece was mar- ried at the time of our Reunion. We would have had the pleasure of his company.

Carl Bischoff—was recovering from a bout with pneumonia at the time. Better luck at our 45th.

Lawrence Buck—sent word from Tehran, Iran that at the time he was busy "helping the ministry of Posts, Telephone & Telegraph, get some modern communications in Iran. It is rather a long way to come for a Reunion—hurry back for the 45th. Charles Hammond—writes that a few weeks previous to our June date he came in contact with a train, the result: broken leg and ribs and the campus impossible. George Littlefield — busy time of the year for him. Theodore S. Rowe—just couldn't make it. Emily Pendleton.—In May, Emily moved into a new home in Bay- side Northport. On August 27th she en- tered the United States Naval Reserve at a meeting of Delta Zeta, with 14 U. of M. Alumnae pres- ent, two from the class of '26. Emily lives in Florida in the winter. Gerald Wheeler—Super- visor of the White Mountain National Forest has been appointed to the Summit Planning Committee of a long awaited Com- mittee of Mt. Washington. Kenneth O. Plumer—In June retired from the New England Tele- phone Company after being employed by them for 41 years. The occasion was noted by a party of 75 people at the Pilots Grill in Ban- gor.
John A. (Jack) Pierce, Mrs. Pierce and their son Robert, Arlington, Mass., were called in "Jack's" hometown of Otisville, Ill. in August. John is a senior Research Fellow at Harvard, where he has been since 1934, except for two years which he spent at M.I.T. One of his latest interests is work on radio aids to navigation and in August he joined a paper on OMEGA, a navigation radio aid, at the International Navigation Congress in Munich, Germany. He is the recipient of a Presidential Certificate of Merit, the Morris Liebmann Prize, the PGANE Ploneer Award of the IEEE and the Thurston Award of the Institute of Navigation. Maybe some of you will remember that "Jack" is a grandson of Dr. Merritt C. Fernald, first president of U of M.

Another engineer, Raymond H. Morrison, in company with his son Bruce, recently made hits in Bangor when his company, Northern Supply Company, announced the opening of a new warehouse, sales and display facility. A principal of the company is the only wholesaler and retail supply business in the state. It also does business in Vermont and New Hampshire. Besides son Bruce, a 10-year-old Nancy, a Bangor High senior, assisted during the summer. Following graduation Ray got his master's degree in 1953.

William N. Harris, son of Mr. and Mrs. Charles M. Harris, Augusta, has received a Master's degree in business administration from Northwestern University, Chicago, with a major in corporate finance. William received his Bachelor of Science degree in 1961 and is employed by Sears, Roebuck and Company in Chicago. Classmate Charles and his wife attended the Northwestern U ceremonies.

Remember Mary McGuire, who had a finger in just about every pie on campus? Well, she's now Dr. Mary A. McGuire, associate professor of English and chairman of the English Department and recently named Buhl Professor at Chatham College, Pittsburgh. The Buhl Professorship is awarded each year by the Chatham Board of Trustees to a faculty member in the humanities with the rank of assistant professor or above. She holds an M.A. and a Ph.D. from Columbia University.

Dr. Frederick H. Thompson has submitted his resignation as a member of the Portland Renewal Authority. We are sorry to hear that it was "for health reasons" that Fred decided to resign from his present duties.

Mr. and Mrs. (Edna Cohen) Jack Rapaport, Bangor were awarded a seven-day Caribbean cruise and an insider's liner tour by S.S. Independence, in August, to St. Thomas, Virgin Islands, San Juan and Puerto Rico. Jack represents the Lincoln-Mercury dealership in Bangor which nationally were winners in a "Caribbean Capers" sales contest.

Blair Wilson is head of the Metrose (Mass.) science department, where since 1936, she has been a teacher. Soon after arrival he discovered there was a golf coaching vacancy. Blair had never played but was interested, so he applied. Up until nine years ago it was an unremunerated job and he often used his own car to transport the players. In the past eight years Wilson-coached teams have compiled a 74-1-1 record with 70 consecutive victories, their last loss was in 1960 and the tie with Reading coming the same year. Blair was a subject of a recent feature article by the Boston Globe.

Part of my summer was spent at Ann Arbor, where my son, Eldwin, Jr., ('53) was completing 14 months of study towards his doctorate in Mathematics at the University of Michigan. I attended the Summer Education Conference held at the University for teachers in the state.

"Bobs" Parks of Concord, Mass., executive vice president of the Howard D. Jordan Co., Concord, has been made vice president of the National Restaurant Association.

"Whit" Wheeler is president of the Kennebec Valley Community Chest.

Larry C. Kelleher has been appointed Ford Professor of Physics and Chairman of the Department at University of Bridgeport, Bridgeport, Conn. Kelleher has been president of Omadaga Community College in New York State.

Caroline (Collins) Lowell is teaching freshman English at MSAD3, Mountain View High School. Younger son, David, is in Business Adm. at Maine Class of '69.

Roger C. Wilkins, Senior Vice President, Travelers Insurance Co., Hartford, Conn., has been named to the advisory panel to select an architect for the first phase of Hartford's proposed school building program.

The fall season rolls around and I wish that more of you had checked in during the summer with news. I hope you will now send in something of interest to the Gardeners.

Another Carper was the Trip to Europe of David and Helene (Johnson) Marshall is now in her first year at The Women's Medical College of Pennsylvania.

Beatrice Spiller Nadeau is now living in Eastport after retiring from teaching in Arlington, Mass. One of the trustees of the newly formed Unity Institute of Unity, Maine is Samuel Zarak. The Executive Council confirmed Clifford L. Stimpson's re-appointment to the Maine Liquor Commission. He is now chairman.

35th Reunion — June 2 & 3, 1967

Roscoe C. Masterman, employed since 1933 by the International Paper Co., has been promoted from division manager in Glen Falls, N.Y. to general manager of the Northern Div. of IP.

On Sept. 17, 1966, at Tamworth, N. H., Miss Susan B. Balch, daughter of Mr. and Mrs. Henry G. Balch, and William B. Moody, son of Dr. and Mrs. J. Rice Moody (Doris Baker), of Newport, R. I. The newlyweds are home in Dallas.

Charles L. Puffer, after 11 years as Superintendent of Schools in Kittery, has recently submitted his resignation, to be effective Dec. 1st. Charles has had nearly 40 years of experience in public education as a teacher and administrator. For the 10 years before coming to Kittery, he was superintendent at Paris. He is married, and has three grown children. Charlie will join the CED in Jan. 1967, at U of M.

Our sympathy is extended to Roland Tibbetts of Great Barrington, Mass. on the death of his wife, Marjorie, on March 26, 1966.

Frank Hagan has been appointed to the University of Maine Extension Service (see campus news). J. Harvey Spear ('36) and Edith are managers and part owners of the Patio Hotel at Gardena, Calif. Those of us who knew of your move to California, Edith, are happy to learn that the Spears are enjoying their new location.

When Dr. Jean Captain Sabine sent in her contribution to the Alumni fund, she wrote that

Girls at Brooksville. They have two children.

The Kennebec Journal recently published a profile of Louis Krivoshy, fifty years of service with the Central Maine Power Co. Louis worked for three years as a distribution inspector at 11 power stations. In 1959 he took his present job as manager of production operations. The Kriegers live at Manchester and have two sons. Louis is a director of the Union Water Power Co. and the Kennebec Water Power Co.

In the 1966 Season, Maine's Massachusett's House Workshop Gallery, Lincolnville, exhibited the work of Phil Brockway from July 17 until August 2nd. This is a favorite spot for many out-of-state tourists every summer.

Geneva M. Smith was honored at the June Commencement exercises at Plymouth (N. H.) State College for completing 42 years of faithful service in the Mathematics Department. At this occasion it was announced by Dr. Harold Hyde, president, that a dormitory be built and named for Miss Smith. After receiving her B.A. in Mathematics at M. E. A. at Geneva, received her B. Ed. at Boston University and further advanced study at the Universities of Chicago, Maine and Boston. At Plymouth, beside her teaching she sponsored the Mathematics Club and had charge of Assembly programs and Commencement programs for many years. She plans to return to her East Corinth home in her retirement.

This is to correct a news item in the July Alumni. Bonnie Marshall, daughter of Don and Helene (Johnson) Marshall is now in her first year at The Women's Medical College of Pennsylvania.
she anticipates a visit to New Zealand in March. I do hope that you will share the highlights of your visit with all of us, Jean.

Among the thirteen young women to have been chosen All-Maine Women last spring were two "33 daughters: Barbara Lester (Marion Dickson) and Joan Yerxa (Eleanor West). Two weddings that have taken place since our last class notes are: Marjorie Libby (Dean Winthrop '32 and Elizabeth (Tryon) to Douglas Montefelt.

Jane Tompkins (Lawrence '34) to Robert Miller (Stacy '32 and Evelyn (Plummer). The newlyweds are all graduates of the University so other class secretaries will no doubt give the details of the weddings.

The engagement of Miss Peggy Ann Mattulke to Robert E. Pendleton Jr. was announced recently by her parents, Mr. and Mrs. William Mattulke of Hamburg, N.Y. (Note to Blanche Henry). Sorry our time for chats was so brief this summer—better luck next time. Phyl Black Raymond was at Summer School at the same time that I was but we did not discover each other quite soon enough to do much reminiscing. See you at Vinalhaven, some time, Phyl.

'34 It's about time I heard from a few class members who have not been reported on for a long time, so get busy with letters! Erwin A. Gallagher, a native of Limestone, has been given national recognition seldom accorded a school administrator in the Westwood, Mass. area. Superintendent of schools, he was invited to submit a short biographical sketch, to be published in Who's Who in the East. Erwin is now studying for his doctorate in a Boston University program, and has had a remarkable career in education.

Roger Heffler was recently made president of Wilkins Coffee Co. He served in the Navy, and in 1947 joined the Wilkins Co. in Washington D.C., where the showplace plant is located. Professor Ken Parsons recently received some publicity concerning his use of turpentine for Dutch elm disease. An electrical engineer, Ken apparently saved a tree at his home which was infected. We all wish it might be an answer to this terrible plague!

Lawrence Lynch of Orrington, was named town manager of Hampden in June. Lawrence has previously been with Eastern Corporation and St. Regis Paper Co. The Lynches have three children.

Bill Ingraham's address is 66 Rankin Street, Rockland. Carl J. Johnson, Washington, D.C., executive director, Interstate Commission Potomac River Basin, has been named to the degree of Fellow of the Soil Conservation Society of America. Fellow awards are the Society's most distinguished honors, and are made only to members of the Society who have made an outstanding contribution to natural resource conservation and have been active in the affairs of the organization. He had a leading role in the Society's 1962 annual meeting in Washington DC, and received a special citation from the President of the Society in 1962 for his service to the organization.

Our son, Jim, is enrolled in the School of Graduate Study at the University, and his wife, the former Miss Susan Poore of Goffstown, N.H., is teaching social studies at Brewer Junior High School. Jim and Susan were graduated from Springfield College in June, and were married on July 9. They are living at Madison Street, Bangor.

Our daughter, Marjorie, and her husband, Jim Robinson, live in Exeter, N.H. where Jim is music instructor and director of the high school band. Marjorie also teaches music in the schools of Pembroke, N.H.

'DR. WILBERT PRONOVOST, Director of BU's Speech & Hearing Center, was director of a three-week Stuttering Institute held at U. of M. July 11-29. Dr. Pronovost is considered one of the country's leading authorities on stuttering problems. The program was presented in cooperation with the Maine Dept. of Health & Welfare and the U.S. Dept of Health, Education & Welfare.

Carl Honer, Group Secretary at Union Mutual Life Ins. Co., Portland, has earned a Fellowship with the company. Carl has been with Union Mutual for 31 years. He and Marjorie (Church) live in Portland.

Arline Merrill Hemmery is Director of Residence, Gage Hall, N.Y. State University College of Education, New Paltz, N.Y., a position similar to the one she held at Hart Hall at U. of M. last year. Her daughter Jane is attending drama school in New York City.

Merle Jones who has retired as principal of Kennebunkport Consolidated School and his wife Doris have moved to Windsor where they were both born. Merle received his MS from Maine in '42 and has taught for 39 years; Doris holds a BS in education and has had 34 years teaching experience.

Bobbie Lewis Kimball has resigned from her position as teacher-librarian at Waldoboro High and will be moving away from town. Where to, Bobbie?

Pauline Budle Estes teaches Home Ec at Garland Street Jr. High in Bangor. Polly and Elmer have two sons—George a senior in high school and Tom who is in junior high.

'A new teacher at Lincoln is Bernice Yeomans Gardner. George Frame, Vice President and Secretary of Maine Bonding & Casualty Co., was elected a director in May. Ralph W. Pinkham, Jr. was recently appointed

IN MATTERS OF TRUST...

Our Trust department offers all trust services. Executor and administrator of personal estates, trustee under wills or as trustee of living trusts and life insurance trusts. Investment management, custodian accounts... in fact, anything under the heading of estates and trusts.

In the present interesting assignment of Robley Morrison, Jr., where he is consulting engineer for Coverdale & Colpitts, studying transportation, many of my friends have two children, Jane at Rickey College, and Robley III teaching in Milburn, N.J., and who attended U. of M. this summer. A gall bladder operation kept John Stinchfield from Reunion. He is Assistant Research Director with S.D. Warren at Cumberland, Md. His son Alan has completed his 4th year of the 5-year pulp and paper course at U. of M. and son James has completed Freshman year at UMP.

A.L. Nickerson has completed 20 years of teaching at Corpus Christi Junior High and is still at it. Daughter Lois is Lieutenant Commandant, Navy Nurse Corp. in Seattle, Washington, so the Nickersons now travel northwest instead of northeast for vacations.

Carolyn Lohrup Sahin missed reunion because she was on vacation at Nags Head, North Carolina. Edith Gardner Strach made reunion clear from Indiana, but killed three birds with one stone as she has parents in Orono, and daughter, Martha, at U. of M. Teen emigrants as part of the "International undergraduate funk" at "Jeffboat Cafeteria"—if I am reading her writing correctly. She also has two sons, Kenneth and Gardner.

Bruce Hutchins, Pat's oldest son received his M.S. in education from Indiana University last summer. He is a teacher and coach in Speedway, Indiana near Indianapolis.

We send congratulations to Lucien Scammans' oldest daughter, Helen. '66, and Fred Role Jr. '66, were married in Orono last May. His son David, since completing his Air Force assignment, is now associated with the Midwest Union. and Mary, the youngest, is a freshman at Maine.

My oldest son 2nd Lt. Stephen, is teaching in the Social Science department at the U.S. Military Academy, Westpoint, N.Y. Warren is a second semester sophomore at Purdue, Peter a senior at Indiana University. Laurie is a senior in high school. Greg is a junior, 12, has just started junior high.

Mrs. Paul E. Syster, Shenandoah, Iowa, has two children, Douglas, a junior at George Washington College. Orono, and one set is graduating this year and one next. They both plan to do graduate study. She is the wife of a minister.

Lloyd D. Hatfield has resigned his position as superintend which of York and has accepted a similar position in the South Portland schools.

Please send me a note regarding your children or yourself as I'm in a '37 news dump here in the Midwest.

Received a very nice letter from Bob Harvey in June. In May, as first vice chairman of the Melrose Red Cross Chapter, he and his wife Amy, flew to San Diego for the '66 Annual Convention and took the long way home to Boston by going up the Pacific coast as far as Portland, Oregon.

Miriam Landon Skivry was recently honored by the Daily News, Springfield, Mass. for her outstanding volunteer work at the children's hospital and especially teen-agers. She has two teen-agers of her own, Rachel 15 and Burt 17, and devotes many hours in working with the youth at the Jewish Community Center as part of the professional staff. Congratulations to Don Adams, who has been elected Intercolonial President of the Interna-

In June I attended Alumni Day hoping to pick up some news of our class, and out of four that registered, Spike Leonard was the only one I saw; so I gathered all the news about him. Spike keeps pretty busy besides his regular job of Professor of Animal Science and managing the University Farms, he is also on the school board, athletic board, adviser to the Senior Skulls and Phi Kappa Sigma Corp. (Treas.) His daughter graduated from the U. of M. in '65 and is teaching first grade at the Robert Hall School in Portland. Her son, Colin is a Freshman at U. of M.

I did find out the whereabouts of Helen Philbrook and she is executive housekeeper at the Groton School, Groton, Mass.

The summer resident has a few get-togethers of "39ers." Lucille (Fogg) Baldwin spent a night with me. Her oldest son Robert graduated from Dartmouth in June and this fall he will attend the U. of Washington for further study. Her next son Richard will enter the U. of Denver as a freshman. Lucille and her family went on a wilderness pack trip in Colorado this summer.

Barb (Corbett) and Tom Barker, Kay (Cox) and Johnny Bennett also spent a day with me. The Barkers are just waiting to retire and return to Maine. Are we really getting into that age bracket? Kay and Johnny have been busy building a house in Damariscotta and their address is Box 395, Damariscotta.

The university received a release that Barbara Seavey received her degree of Masters of Arts at Wesleyan in June.

Venora Dow received a N.D.E.A. grant which enabled her to spend nine weeks in France studying art history.

Rev. Hugh Gillis assumed the pastorate of the United Methodist Church in Bolton, Conn. He has served churches throughout New England.

Erwin Cooper has just sent us a letter in regards to the fund raising efforts. I trust we will all do what we can to help our class '39 Fund grow.

Dorothy Day, Providence, R.I., has been asked by President Young and has accepted his request that she represent the University of Maine at the inauguration of Ray Lorenzo Heffner as President of Brown University, Saturday October 15th, 1966.

Mrs. Catherine (Laflin) Mahoney, will teach Grade Two at the elementary school in Readfield Depot it was announced recently. Cath-

tine has been teaching at St. Mary's School in Augusta for the past two years. She is married to George F. Mahoney '29, and is the mother of two children. They have been residents of Readfield since 1953.

William F. West has been appointed Principal of the Fairbank School, Sudbury, Massachusetts, next school year. Bill has been Head School, Rockville, where he had been Principal and his new assignment marks another milestone in his impressive teaching career.

A newspaper article from sunny California announces that Robert A. Akin of Mr. and Mrs. Norris Deke Adams, and a graduating Senior at Antioch High School, was named winner of the outstanding student award sponsored by the Beacon Savings and Loan Association. Bob received a $100.00 award and an engraved medal. He plans to attend Stanford, where he will major in education for a career in counseling or public relations.

Virginia Turk (Little) Mervell was one of four instructors appointed to the Upward Bound Staff, at Bowdoin College a six-week Summer program, which is part of a community program on Poverty. This program is a two-year venture designed to give some high school boys and girls from rural areas of Maine a taste of college life and is geared to create a more positive response toward higher educational aspirations than the student may now have. Virginia is presently a mathematics teacher at Madison High School.

25th Reunion — June 2 & 3, 1967

42

Some of your class officers and executive committee members met with Pres. Bill Irvine in August; and before you read this, Woody Woodward, chairman, will have met with entertainment chairman, Mary and Larry Leavitt, and others at Homecoming to plan the biggest and best 25th reunion ever! We need you in June!

Our class was well represented at the Maine State Bar Association convention in August. Gov. John Reed gave the welcoming address and William Talbot, Machias, was elected president.

Pres. Bill Irvine, Martha (Allen '44) and the girls are moved into the president's house at 29 College St., Montpelier, Vt.

Our sincere sympathy goes to Muriel (Pratt) and Edwin Fuller, son of our son Harold, 15, in a drowning accident.

Ralph Dale, owner of Dalen Corp, Buffalo, N.Y., recently announced purchase of the Arco-Wyren Div. of Automotive Rubber Co., Detroit, Mich. You will hear quite often this year from Ralph, your reunion contact chairman.

Earl Hodkins who has been Chief of the Engineering and Construction Division at Dow A.F.B. Bangor, for 15 years, moved Oct. 3 to Newburg, N.Y. where he is Chief of the Facilities Construction Branch for the First Air Force, Stewart A.F.B.

Was good to hear from Elizabeth Thomas Cameron, son of our Mr. and Mrs. John, Joel have lived for nearly five years. Betty, with a M.A. in speech and hearing programs in Calif., Guam and Honolulu. Her son is a student at the U. of Hawaii.

Roosevelt Susi, Pittsfield, has been appointed to the board of trustees of Unity Institute. Morris Wing, Farmington, was recently honored as a past president of the American Forest Products Industries. Thomas and Virginia (Wing '45) Moore are residents of Saco where Tom owns the Benton Insurance Agency. Their son is at U. of M. and two daughters are at Thornton Academy.

Eugene Gilbert has been named to a newly created position where he will be in charge of finishing warehouse and shipping at the Gould Paper Division of the Georgia-Pacific Corp., Lyons Falls, N.Y. The board of Directors of the National Union Insurance Companies has elected Lawance W. Davies, Pittsfield, Pa., assistant secretary of the firm's life insurance affil.

Bob McLeary with Jones, Hoxie, McLeary Inc., a bonding and surety company in Augusta. We enjoyed a visit this summer with Bill and Eugenia (Berry '43) Gilman, Old Orchard Beach. Their daughter graduated from high school in June and daughter, Libby, 12, keeps them busy attending horse shows.
A new communications network gives police the jump on fast-moving fugitives

It takes a suspect 85 hours to drive, and nearly six to fly, from New York to Los Angeles. California is ready and waiting for him just four minutes after he starts.

Reason? A fully automatic teletypewriter network just completed by the Bell System to provide better communications for law enforcement agencies from coast to coast.

The new national service, known as Law Enforcement Teletypewriter Service or LETS, cuts from days to minutes the time required to transmit criminal descriptions, license checks, bulletins and other vital police data.

The Bell System is also working on other service improvements to help combat crime and protect the public.

The reason is simple enough. We have an obligation to keep providing the best communications possible—for law enforcement or for you and your family at home.
'45 You will take note that I am writing the news this month by my- self for the first time. I am busy preparing for a wedding—hers!! We are most happy to announce that by the time you receive this I will be the proud father of twins. Mrs. Stephen D. Russell, Dr. Russell is a staff physician here at the hospital and is a widower. Carolyn and Donnie, our new family, will be joined by another on being married October 15 at the Universalist Church, Portland. The Russell family will then include four children: Richard and Constance, Jack and Russell, and Linda and Cindy Bradley. This will be a busy household when they all take residence at 408 Brighton Avenue. My best wishes go to them from all of us here at the hospital and all of you, I am sure.

We had a most nostalgic experience when we took our daughters to Orono to start their Freshman year. Linda Bradley and Martha McFarland are members of the class of 1970. Is it possible that all that time has passed? Carolyn saw Ruth (Searns) Shepardson during orientation period this summer, so she also has a will to teach high school general arithmetic. After graduating from U of M, Evelyn attended the Maine School of Commerce and has done graduate work at North Adams State College.

Mrs. Barbara A. Hinds of Walls, Maine, has been appointed teacher of English in the Norridgewock High School, Fairfield. It is understood that the position was filled by Miss Margaret L. Harvey, who has been teaching English in this school for several years.

Constance Cooper was in Maine this summer on leave from her position as home economist with the United Nations Food and Agricultural Organization in Nigeria. Constance has been in Nigeria since 1962, where she has been busily engaged in research in the field of African agriculture. Constance will be in Nigeria for another two years, and we will be thinking of her until then.

Harriet Steinmetz Fray (Mrs. Harold B.) of Newton, Mass., represented the University in the inauguration of Vincent Clau DeBaan as the fourth President of Lasell Junior College on October 2nd.

News from Judy Fielder Harris (Mrs. Edward G.) via Ginny Tufts Chaplin. The Harries were in Washington this summer for part of their vacation. They saw Elia (Page) and Ken Cobb while in Vacationland.

Jeanette Thompson Irey (Mrs. Wilson E.) is living in Rochester Mich.

20th Reunion — June 2 & 3, 1967

The Alumni Office has come through with the news that class of 1947ers would overcome your natural reticence and give out a few news items. We have been promised a trip... a treat? What’s next? Therapy. Alberta Haines, (Hartford, Conn.) spent the summer in Norway and enjoyed the people as much as the scenery. She said it was beautiful and the midnight sun was spectacular.

The Richard Lemays (Westfield, Mass.) were in Calif. last winter. Very pleasant in Balboa, he says. Oh boy! To winter in Calif. My ambition.

Well, we summered at Branch Pond. That’s in Eliot, Maine. Henry was 70 this year, but he still just “summed.” No car, no phone—just 5 kids and the cat. Had a visit from Bernie ’48 and Bernard Prescott ’49. No let it be understood that we never do finish talking… school, hometown. We always hate to see them go.

Here’s that news address for Elaine (Craig) Carrano—Barnarmville Rd., Manchester Ctr., VT. Another change is that of the Rob’s Coffin family to Cas- cias, Portugal where they will remain 5 years while, Bob supervises construction and future production of a new factory near Lisbon.

Joe Coombs and the process of changing their residence from Portland to Bangor—he has been named ass’t. supt. of the Maine Central RR. A new staff member of the Jacob Edwards Memorial Library in Southbridge, Mass. is Evelyn Ashby Petrelli, John Seekins, Sup’t of Kennebunk school’s, was one of 4 Maine educators invited to a 3-day Wash- ington conference on “Educating the Children of Poverty.” Rob’s Nye has been appointed special visiting principal of 4 elementary schools in Westwood, Mass.

I think we have a first for the class of ‘48—Francis Shaw has been honored by the board of trustees of the Northern High School in Bangor who named him Dean Emeritus. We hope for Mr. Shaw a very happy retirement. From N.Y., comes notice that Sheldon Smith has been named construction vice-pres. of Walter Kiddle, Inc.—he joined the firm in ’64 as European mgr.

While in Augusta this summer, I had a grand visit with Gracie (Tibbetts) Bean; we swapped news while our 6 offspring got acquainted. Carolyn Bean is a cheerleader at Hallowell, as is Kathy Kelly, daughter of Pauline (Maccus) Kelly, at Shrewsbury, Mass. Doesn’t that bring back memories! Gracie reported that Mary and Bus Sproul are moving from Conn. to Syracuse—will try to have an address next time.

Our children are in senior high, jr. high and elementary school this year so keeping up with them adds and PTA’s is a full time job, I am doing substitute teaching which I find very rewarding.

Heading this year’s Community Chest Campaign in Keene, N.H. is Philip C. Dyer, who is vice-president of the Ashuelot Nat’l Bank. Al Flagg, general manager of the Milford (Conn.) Republican, is president of that city’s Community Concerts Assoc. Two recent

You’ll net more income from your ‘Blue Chip’ insurance

Ever see money work? Well, maybe you can’t see it work, but in retirement you can enjoy the returns from its labor. Delightful experience.

Connecticut Mutual’s retirement plans give decided ‘Blue Chip’ advantages. It will pay you to check the big differences: in benefits, in larger dividends to policyholders (continuous dividends for 120 years), in the wide variety of income plans available and especially in the size of those monthly retirement checks some day. Our money works harder so you won’t have to.

tal. In Mass., is a consultant to the Westboro State Hosp. and an instructor at B.U. School of Medicine. Ken Allen Jr., is in charge of the Phoenix of Hartford Ins. Co.'s field operations for the entire State. Bob Lothrop has joined C.F. Hathaway Co. as a chief industrial engi-
nner. Clyde Hayward is now in Berlin, N.H., with the Brown Co. where he is the manager of printing paper products, research and develop-
ment dept.

When writing those Christmas cards this year, send an extra to me or the Alumni office giving us information of you and yours. A very Merry Christmas and Happy New Year to all.

I wish you all could have had the wonderful summer we had. Dick and I toured Denmark, Germany and Austria the month of July and then Cundy's Cove on the coast of Maine. My brother-in-law, Slim Broom-
hall, and sister Ruth '45 and their son met us in Copenhagen and were with us during the month in Europe. It took us 7½ hours to fly the distance it took them to sail in 8 days! After we flew home they went on to Brussels, Paris and London and got home just in time for school.

Dave Newton and family from Seattle, Wash., have just been in Maine for a visit. Norma (Moore '52) and George Gray are in Yankee land living in Short Hills, N.J. George was transferred from Houston and is regional manager for the Delinean Corp. Our next

Muchas gracias, mercedes, beaucoup, and a big Maine thank you to Claire (Levasseur) Hodkins from all of your classmates for doing such a fine job as our class secretary for the last five years. We all greatly appreciate the work you did for us. Now ole Jinx (my nickname) here from all of you. Don't be shy—write a postal card will be fine.

Also a big thank you to Warren (Whitney) Miller who invited us at reunion to his camp on Holbrook Pond. While we Millers were on vacation, we visited Dick and Shirley (Lang) Noyes. Their new as-
sistant superintendent of the East Millinocket Mill, Great Northern Paper Works Co., gave us a tour of the mill. It fascinated us all, and I recommended it to everyone. From there we went to Baxter State Park where the Noyes youngsters, Beth 13, Peter 8, Andrew 4 proudly showed us some moose. Our crew, Scott 13, David 8, and William 5 were delighted. We also spent a week at Sunset Harbor Camps (owned by Shirley and Harry McInness) near—ex-
squisite country but no fish. The Noyes, gave us the following tidbits about classmates in their area: Dick (Schooner) Sur-

rette in June. Amongst them have four children—Karen 12 (who is at Farmington State), Robert 9 and Karen 7. Dick is an Electrical Engineer with Great Northern Paper Co.

"I've built a dynamic business of my own, but I've always had time for my family and community affairs... not many businessmen can say that."

— Donald F. Lau, C.L.U., Detroit

"I've been a Mass Mutual representative for 26 years and almost from the beginning I was able to build a satisfying business of my own. It wasn't easy. You've got to be on your toes. Competition is keen. How successful you become depends almost entirely on your initiative. You set your own goals and work hard to attain them. But the financial rewards and the personal satisfaction you can gain are well worth the effort. "Most of my clients are busy executives and professional people, in many respects very much like myself. I've found that many of them are constantly on the road or being transferred to different cities. They haven't been able to plant their roots as firmly in any one community as I have here.

"As a Mass Mutual representative I've had time to spend with my wife and children and play an important part in the affairs of my community. Of course, I'd be involved in community activities no matter what my business, because it always has been important to me. But working locally has given me a chance to become deeply involved in many long-range community activities."

Mr. Lau has qualified for the Million Dollar Round Table, top flight national insurance organization, since 1951 and has sold 2 million dollars or more of insurance each year for the past ten years. He has earned the National Quality Award every year since 1946. Mr. Lau is one of a highly skilled group of professionals representing Mass Mutual, a company over a century old, with over $3 billion in assets. If you're looking for the same kind of satisfaction in your career as Mr. Lau has found in his, write a personal letter to: Charles H. Schaaff, President, Mass Mutual, Springfield, Massachusetts. He's always interested in hearing from a good man.

This orderly concept has much to commend it, plus one fault: some of the people most worth finding don't like it. Some very fine employers have not yet discovered the fault. It is not up to us to point it out to them. Luckily for us, we needn't be so tightly bound to the slot system.

We can offer choice. A certain combination of the factors diversification, size, centralization, and corporate philosophy makes it feasible to offer so much choice.

Choice at the outset. Choice later on. Choice between quiet persistence and the bold risks of the insistent innovator. Choice between theory and practice. Choice between work in the North and South. Choice between work wanted by the government and work wanted directly by families, by business, by education, by medicine, by science. To the extent that the slot idea helps channel choice we use it, of course.

A corporation such as this is one means of coordinating the strength of large numbers of effective persons. You may feel that in the years ahead this type of organization must change. You may feel that it must not change. Either way, to get a chance to steer you have to come on board.

Advice to electrical engineers, mechanical engineers, chemical engineers, chemists, and physicists—still on campus or as much as ten years past the academic procession: while one starts by filling a slot, it soon proves more fun to make one. No detailed list of openings appended herewith. Next week it would be different. G. C. Durkin is Director of Business and Technical Personnel, Eastman Kodak Company, Rochester, N. Y. 14650.

Ev Sherrick was a "test pilot" at twelve.

Today he tests materials to make cars safer.

Seven years before the "Spirit of St. Louis" landed near Paris, young Ev Sherrick was launching his first plane—a home-made model, powered by an outsized rubber band. His goal: to design the plane to fly as long as the power would last and to ensure a safe landing.

Now, some forty years later, as Chief Analyst of the Power Development Stress Lab at GM's Technical Center, Everett Sherrick is still concerned with safe "landings"—safe arrivals on highways, instead of skyways.

Ev started his GM career in 1925 with Cadillac Division as a draftsman, with emphasis on camshaft and crankshaft design. During World War II, he specialized on structural analysis for aircraft engines with GM's Allison Division. Today, he heads up a group of engineering specialists who test for stress... study structural strength of durable materials day in and day out. Their tests are exhaustive, intensive and continuous... solely designed to put safer, stronger more reliable cars on the road.

We count on people like Ev Sherrick. They make General Motors tick.

General Motors is people making better things for you.

Here we are in our fifth reunion year but it hardly seems possible that time has gone so fast. Our activities "boiled down to a paragraph" include the portrait of former president Lloyd H. Elliott, which at this writing is almost ready for presentation to the University; our Valerie Beck Serritt Memorial Fund continues to grow rapidly, and according to reports, our support of the General Alumni Association has kept up the Robert standing for a young alumni class. I'm sure we all hope this will continue to be true. Tales of the reunion will be coming in the next issue, and I hope many of you were able to get back to campus for the occasion.

On the news... John '61 and Anne (Clark) McGlynn are back in Maine after a few years absence. John is a product engineer for Sylvania in South Windham, being discharged from the Navy in mid-July. Anne writes, "We've bought a nice old house in Buxton and are very busy trying to fix it up. We're not far from Portland but are in the country and enjoy it so much, the children, Cathie, now 3½, and Chris, 10 months, especially. We like to hear from any of our classmates in the area."

Our congratulations to Lynne (Josselyn) Morrison who is the first Drew University student and the first woman contestant to win the George R. Crooks scripture reading conducted by the American Bible Society, judged on the basis of interpretation, diction and presentation. Lynne received her bachelor of divinity degree in sacred and Christian education from Drew in May, and has assumed duties as assistant minister at New Providence, N.J., Methodist Church.

Barbara Roper toured Europe this summer with a girl friend, covering the major cities on the continent. Barb is teaching this fall in Seattle, Wash., after a couple of years at Cape Elizabeth. Danny and his wife, Sally (Heath) and their two daughters reside in Buckfield. Mr. and Mrs. Stanley Moody (Laur- retta Foster) are in Ann Arbor, Mich., where he is an electrical engineer with Ke'eye Ha:es Co., Detroit.

Dick Stevens of 117 Vernon St., Wakefield, Mass., is updating his address list of the fellows who were forestry and wildlife majors in our class. He would appreciate information from any of you who have scattered throughout the United States. The Stevens' oldest son, Kevin, has started first grade, and the youngest, Joyce, is staying in college to keep his mother busy. Dick is an USDA inspector on international flights coming into Logan Airport, Boston.

The Cumberland & Oxford Canal

The success of the Erie Canal in New York created great enthusiasm in Maine for this new mode of transport. As early as 1791, a committee was chosen to learn the feasibility of a canal from Sebago Pond to the Presumpscot River. As a result of the committee's glowing report of its possibilities in opening up the "back country" to commerce, Woodbury Storer and other interested Portlanders incorporated in 1795 as the "Cumberland Canal Corporation." Their objective was to open a canal connecting Sebago with the river at Saccarappa. Another corporation, Proprietors of the Falmouth Canal, was formed at the same time to unite the Presumpscot with Fore River in Portland.

Financing the project would be by popular subscription. But the general public must have been somewhat apathetic to a canal, for even a legislature-approved lottery did not yield enough money to start work. Undaunted, the promoters sought and received further aid from a sympathetic state legislature. In 1825, the Canal Bank, now The Canal National Bank of Portland, was chartered, with a capital of $300,000. One condition of the charter was that one-fourth of its capital stock should be invested in stock of the Canal Company.
