The Cover

Miss Lynda Sue Bond of Augusta, leader of the 16-girl Pershingettes, hits a snappy salute during half-time activities at the Homecoming football game between Maine and New Hampshire. The university’s new “Marching One Hundred” Band forms a backdrop. About 9,000 alumni and students were on campus for Homecoming October 14 and viewed an impressive half-time presentation.

A Losing Season?

What is the definition of a "losing season"? By illustration, a losing season has been defined by the University of Maine football team this year. Eight games played, and eight times Maine was defeated. Many spectators felt sorry for the team.

Last season (1966) we won four games, but it was also a losing season, because nine games were played.

Those who will ask about either season with a sneering voice, have forgotten Grantland Rice whose famous quotation ends "...ask, how did you play the game?" Maine played by the rules, in every respect—its own rules about having no generous athletic scholarship; also played within the conference rules, of course, and all of the games, were, by agreement to the schedule, with the finest of competitive teams: The Citadel, Boston College, Northeastern and the usual full Yankee Conference. In fact, talents of the teams opposing us were higher than usual, in the 1967 season—evidenced by the good results they had in their other games. A season or two seasons ago, such great rivals as New Hampshire and Vermont were experiencing "team building years" in which they had good young talent, needing only experience.

There never truly is a losing season. For one thing—no honest effort, freely given, is wholly lost or wasted. The learning to lose is always hard learning, yet valuable. The gain which an individual makes in his own trials may exceed the team record. It was just so this year. At least five new Maine records were made: number of yards pass receiving in one game; and total yards gained pass receiving in one season. The greatest number of passes caught in one game was less than 10 before this year, and for the season less than 33. Gene Benner set the new marks. Also, Charles Yanush set the highest number of carries in one game at 35.

Maine's football team has had 9 losing seasons in 35 years; only 12 in 50 years; 27 since football was begun here as a sport in 1892, a total of 76 years. Since 1933 we have played good competition and in a variety of years the following schools included: Holy Cross (1935), Dartmouth (1934), Yale (1933, 1937), New York University (1938), Columbia (1940). We have scarcely held our own with Massachusetts and Connecticut over the years; but we defeated Vermont 10 in a row.

Now the question is being asked by Alumni, "how long before we have to readjust our position and offer at least SANITY CODE tuition and also jobs as incentives to bring some players to Maine, or more realistically to keep some Maine boys from being enticed away, when their educational needs could be met here.

In trying to judge a proper course—a fair one to the participants and fair also to the institution, it is not easy to be complacent. It is not right simply to say, "conditions will change, and you'll have plenty of team material—wait and you'll see!"

Will there be more losing seasons, and if so—how long will it be until competition in our proper league is set aright once more—how long?

Russ Woolley
"We're trying to build a band the State of Maine and university can be proud of."

A New Kind Of Band Cuts Into The Sale Of Hot Dogs

To quote one of the soft-drink vendors at Alumni Field a few weekends ago:

“They don’t leave their seats at half-time like they used to.”

One reason, of course, is the new corps of University Store Company food vendors. Football spectators can purchase their hot dogs and popcorn from the prone position without having to battle crowds at the concession stands underneath the bleachers.

The other is the University of Maine “Marching One-Hundred Band.”

It’s a vast improvement over anything that has performed during a half-time exercise here and, according to George Cavanagh, the man who directs it, is developing into one of the finest college marching bands in New England.

“We are trying to build,” said Cavanagh, “a band the state of Maine and university will be proud of.”

In 1965, when Cavanagh joined the university faculty as director of bands and assistant professor of music, administration officials were on the verge of dropping Maine’s marching band.

“Let’s just say it was at a low ebb,” remarked Cavanagh.

The new band director didn’t let things stay that way, though. In 1966 he doubled the band’s membership from 43 musicians to a little over 80. And last year Cavanagh started laying plans to purchase new uniforms, designed especially for the university, and put some real enthusiasm into the half-time performances.

This fall, a full four days before classes were scheduled to begin, almost 140 musicians, majorettes and baton twirlers reported for a special practice.

The band is called “The Marching One-Hundred” because it suits up roughly 100 (actually 105 to make things come out even) musicians. Counting the baton twirlers, majorettes and drum major, there are 114 persons on the field.
"It's a darn shame that most people on campus don't know how hard those kids really have been working," said Cavanagh.

For four solid days during the preschool practice the band ran over complicated marching formations. To keep the Maine "M," or any formation straight, each of the musicians, majorettes, two "Honey Bears" and one drum major keys on his or her own hash mark on the football field. For Cavanagh, who had to painstakingly chart all of the 114 positions, step for step, through several formations for each performance, it was a job that began last May.

One blast from the drum major's whistle and each of the 114 students begins moving to a new spot. What happens if the signal goes wrong, or somebody doesn't hear it?

"Instant chaos. We had quite a bit of that this fall when we started practice," reported Cavanagh.

During classes the group practices three afternoons a week, in addition to a Saturday morning tune-up prior to home games.

Maine's new "Marching One-Hundred" also features the world champion baton twirler, Miss Linda Moreau of Lewiston, who won both United States and International twirling honors as a high school senior earlier this year.

She teams with Pamela Budd of Portland to form the "Honey Bears." Both girls wear gold lame costumes. Miss Budd drives all the way up from the University of Maine at Portland campus, where she is attending nursing classes this semester, to take part in the halftime performances.

Marshall DeMott of Orono is the band's drum major.

Cavanagh said the marching band's only non-Orono performance this year was at Portland during the Citadel game, but next year, he indicated, the band hopes to obtain funds to perform before some away crowds.

After the football season the marching band will be split into two groups, a 75-member concert band and a 40-man varsity band. Cavanagh said the varsity band will act as a feeder unit to the concert group. It also will perform at basketball games.

The concert band is scheduled to give three performances on campus this spring and go on a four-day tour of Northern Maine in April.

The on-campus concerts will be held Wednesday, January 10, and Wednesday, May 15, in the Hauck Auditorium at 8 p.m. On Thursday, May 23, at 7 p.m., the concert band will give a pops concert in the Memorial Gymnasium.

Between April 24 and 27 the band will perform in East Millinocket; Madawaska-Fort Kent; Caribou; Presque Isle; Houlton; Calais; and Machias.
United States

In the span of 102 years 43,221 persons have passed through the University of Maine to obtain college degrees. Today the university's active alumni community numbers 37,679, one half of whom have graduated after 1950.

The growth of the Maine State College of Agriculture and Mechanic Arts from 12 students and two faculty members to its present size and enrollment has been spectacular. It has been a unique partnership between the State of Maine and the university's private supporters that has fostered this growth and the General Alumni Association, since its founding in 1872, has played a vital and dynamic role in it.

After voting to establish a state college in 1865, the Maine Legislature split badly over where to locate such a school and it was not until 1868 that the university actually opened its doors to freshmen. Students attended classes in converted farm houses and the school's first president, Dr. Merritt Caldwell Fernald, declared the college might have to get by solely upon donations and tuition for operational expenses.

The first permanent campus building, Fernald Hall, was not erected until 1870. State funds from the university were scarce over the first half-century of the college's history. Less than 4,000 students enrolled at the university during its first 50 years. In the second half-century, better than 40,000 more enrolled and stayed.

The General Alumni Association provided some of the energy that has spurred this second 50-year expansion.

37,000 Maine Grads
They Live All Over These United States

Alumni Hall, one of the earliest campus
buildings, was built in 1901 partly with
private subscriptions, but since the
1920's alumni donations were re-
sponsible for the construction of the
Pog-
ler Library, Memorial Gymnasium, Uni-
versity Field House and Armory, the
Memorial Union Building and Hauck
Auditorium.

The University Store was developed
out of an alumni-owned facility and
other private developers erected the
football grandstands and established
the University of Maine Foundation.

The Alumni Association helped
originate the university's Placement
Bureau, had a hand in the forming of
the Pulp and Paper Foundation, 4-H
Foundation, the Forestry Alumni As-
sociation and the new Marine Recourses
Foundation.

In 1959 the University Development
Office was formed to further create
and foster private support for the university.
It's goal... keep student tuition fees
to a minimum.

The University of Maine is not a
tax-supported college but a tax-assisted
institution. About 30-percent of the uni-
versity's operating costs have come
from the state. Tuition fees, federal ap-
propriations and gifts from alumni,
friends and parents make up the re-
mainder of the school's operating
budget. University of Maine alumni are
scattered all over the world. The school
has graduated engineers who have built
dams in India; missionaries serving in
the Pacific Islands; an astronaut, Maj.
Robert Rushworth; and many young
men who died on battlefields in Europe,
the Pacific, Korea and South Vietnam,
to mention few.

About 50-percent of them, though,
remained in Maine. Several became gov-
ernor, including the last two, John H.
Reed and Kenneth M. Curtis.

There are approximately 50 active
alumni associations located throughout
Maine and the rest of the United States
and each year the GAA sponsors an
Annual Alumni Fund drive to raise
money for the university. Started five
years ago as an alternative to associa-
tion due fees, the fund drive has gener-
ated $586,052. In the 1966-67 drive bet-
ter than 7,200 alumni and friends con-
tributed to the campaign.

Among the current and continuing
projects of the General Alumni Associa-
tion are:

— Publication of the Alumnius maga-
zine five times a year, which is mailed to
over 16,000 members of the university
alumni community.

General Alumni Association Officers
The 1967-68 General Alumni Association officers, left to right, are:
Carl Whitman, president; Edward Piper, treasurer; Mary-Hale (Sutton)
Furman, second vice president; James White, secretary; and Kenneth Wood-
bury, chairman of the Annual Alumni Fund Committee.
— The mailing of regular bulletins to around 36,000 alumni to keep them abreast of university affairs.
— Regular correspondence and contact with the alumni associations and clubs.
— Administration of the 63 class funds established in the time since 1904 by members of the university's graduating classes.
— Sponsorship of one professorship in music, entitled the Adelbert W. Sprague Chair.
— Sponsorship of the $1,500 Distinguished Faculty Award given each year to an instructor or professor chosen by the students.
— Promotion of extensive award programs in career recognition, for alumni service recognition and for activities in support of the university.
— Participation by two members on the Board of Trustees of the University of Maine.
— And a yearly GAA-sponsored vacation tour, the first of which was initiated this summer, a 21-day European trip.

It is partially because of the active and generous role played by alumni and friends that the University of Maine, despite a relatively small ratio of public to private operating funds, requires well under the average New England tuition fee from its students.

For the sixth straight year William E. Bodwell '50, of Bath has donated the use of a new automobile for the General Alumni Association. Dr. T. Russell Woolley '41, left, executive director, and Philip O. McCarthy '62, assistant executive director, pose in front of this year's alumni association vehicle, a 1967 Dodge. Bodwell, who operates Bodwell Motors in Bath and Brunswick, is Ford, Dodge and American Motors dealer.

He Predicts The Ebb And Flow Of The World's Oceans

Donald C. Simpson of Eastport, a graduate of the University of Maine in 1950, is one of them.

Simpson and his three co-workers predict the flow and ebb of the ocean tides. They don't read palms, or tea leaves. Electronic computers enable them to forecast the exact time of tides next year, one century or a million years from now. For good measure, the tide charts can regress three or four ice ages in the past and come up with accurate statistics.

On the Federal payroll they appear as physical oceanographers, and their job is to prepare the tide and tidal current prediction tables for the Atlantic, Gulf, and Pacific coasts. They and their predecessors have been doing it for 100 years, for this is the centenary of the publication of the first tide prediction tables by the Coast and Geodetic Survey.

And they and their successors will probably continue to do so for hundreds of years to come, as long as there are fishermen, boaters, and marine engineers; and as long as man goes to the sea for sport and recreation and sustenance.

Unlike almost all other oceanographic activities in the United States, tide predictions are the responsibility of only one organization — the Coast and Geodetic Survey, an agency of the Environmental Science Services Administration in the Department of Commerce.

The first volumes of tide predictions were issued in 1867. There were two volumes and they contained predictions for 143 places in the United States. For 1967, there were four volumes containing predictions for 8073 locations in the United States and abroad.
A Photographer's View

One Year In The Town of Orono

The Cop on Main Street...Frost-covered Elms along the Stillwater...a Farm in Autumn...The Fourth of July.

Free-lance Photographer Evelyn A. Miles, wife of Dr. E. Kenneth Miles, professor of German at the University, captured these glimpses of Orono in a photo exhibit entitled "One Year In A Maine Town."

The 60-frame exhibit is on display in the Fogler Library. In January it will be shown in the Bangor Public Library and, next April, is scheduled to be displayed at the Farnsworth Museum in Rockland.

"Each of the photographs is representative of some facet of life in almost any Maine or New England Town. I have tried to create a total effect that is the Orono I know...where I have lived since 1933, when I came to the university as a freshman," said Mrs. Miles.

While the university has undergone tremendous expansion in the past half-century, the sights and scenes of Orono, its home community, remain almost constant, unchanged by the years.

An April Shower, top. Brings May Flowers, bottom.

The Graceful Elm Is Silhouetted By A Rising Sun.
The Campus
In Autumn

Campus VIP's:

Nineteen University of Maine seniors will be represented in the 1967-68 edition of "Who's Who Among Students in American Universities and Colleges."
The students, chosen by a faculty-student committee, were selected on the basis of scholarship, leadership, and participation in service to the university. Miss Janet Edgecomb, Bucksport, was chairman of the committee appointed by the Student Senate.

Named to represent the U. of M. Orono campus were Harry Burrell, Hampton, Va.; Robert Cobb, Orono; Patrick Corr, Bucksport; John Cronkite, Gardiner; Charlotte Dupont, Biddeford; Bion Foster, Hampden Highlands, Stephen Guptill, Machias; William Horner, Newtonville, Mass.; Jane Huard, Waterville; Eleanor Kent, Clinton; Janet Martens, Boxford, Mass.; Daniel McCrum, Mars Hill; Joseph McDonald, Old Town; George Platter, Poughkeepsie, N.Y.; Howard Reynolds, Belmont, Mass.; Eveleen Severn, Farmouth Foreshore; William Synder, Newcastle; Laura Strong, Reading, Mass.; and Judith Taylor, Hampden Highlands.

Mobile Art:

Eighty-five University of Maine traveling art shows have begun their annual circuit of Maine elementary and secondary schools for the fifth year with entirely new exhibitions.

Thirty-five of the shows are by Maine artists, and the remainder includes photographs, children's art, collages, lithographs by American artists, and silk screens.

Frosh Increase:

The University of Maine's 1967 freshman class is approximately 11 per cent larger than the 1966 class, Director of Admissions James Harmon reported.

Harmon, is compiling figures on freshman enrollments at both the Orono and Portland campuses, noted that this fall 1815 first-year students have been admitted at Orono and 385 at Portland. This compares to last year's totals of 1656 at Orono and 339 at Portland.

She Didn't Forsake "Teddy"

Coed Betsey Hector of Orono unpacks her belongings at the start of this year's fall semester. A return to dorm life did not bring about the end of an old friendship, though. Betsey gave her faithful boyfriend, one Mr. Theodore Bear, a comfortable resting place in her dormitory room.

Honor Key:

Assistant Dean Kenneth Forbes of the College of Education October 8 was honored by Kappa Delta Pi, honorary scholastic education society, for his service to the society.

Dean Forbes was presented the Kappa Delta Pi Honor Key for 15 years service.

Sign of the Times

University of Maine Faculty Council members at the Orono and Portland campuses were linked by closed circuit television at their last meeting, November 13, in an experiment designed to cut down travel time for members in Portland.

Dr. John Coupe, council chairman, said the experiment was suggested by Portland members who in the past have had to travel to Orono for the monthly meetings. The Portland representatives include five faculty members and the dean of UMP and one faculty member and the dean of the U. M. School of Law.
"Break Out The Mops, Girls" . . .

It was just a small fire, but it started in the middle of a girl’s dormitory.

The aftermath — scores of pajama-clad coeds, Orono firemen and volunteer male students working well into the night of October 17 to clean up the mess — made the north end of Balentine Hall look like a disaster area.

According to fire officials, the blaze broke out in room 209, occupied by coeds Jill Lomasney of Plainsville, Mass., Helen Fogler of Rochester, N. Y., and Carol Ann LaPierre of Portland. Miss LaPierre was in an adjacent room, 207, when she reportedly heard the sprinkler system kick into action.

With several other coeds, the university student tried to re-enter room 209, but were forced back by smoke and flames.

Orono Public Safety Director Thomas O. Mower Jr. indicated that the blaze apparently started near one of the room’s bunk beds.

He said he could neither confirm nor deny if the fire resulted from a smoldering cigarette butt.

Most of the students’ possessions in both rooms 207 and 209 sustained serious smoke and water damage.

State Honor:

Prof. Hartgen

Professor Vincent A. Hartgen was one of five persons chosen to receive the first annual Maine State Awards for the Arts for significant contributions to the development of a strong cultural environment in the State of Maine at a recent conference sponsored by the Maine State Commission on the Arts and the Humanities. Professor Hartgen’s citation read “Your love for art and the fervor with which you have communicated this dedication to others has been an inspiration to all of us who feel that the arts should hold a high and honored place in the life of Maine.”

The University on Camera

Broadcast students at the University of Maine have embarked on a special project which will result in a weekly television program, “Maine College Report,” to be seen on university ETV stations each Tuesday at 6:15 p.m., beginning October 3.

Among features on the first 15-minute edition will be an interview with former U. S. Senator Barry Goldwater, recent visitor to the U of M campus.

Under the leadership of their instructor, Mark O. Benner, of the department of speech, students in the television production course will be responsible for producing the 15-minute survey of news from Maine institutions of higher learning. The programs will include straight reporting of happenings on campuses around the state, as well as interviews with distinguished visitors and guest speakers. U of M Public Information Specialist George Willey will act as moderator.

50 Years Service

Curtis and Rankin are cited by the Yankee Conference plaques to commemorate their contributions to the conference.

Curtis was athletics faculty manager for 30 years prior to his retirement last year. He was prominent in Yankee Conference activities since the league’s beginning in 1947. Dr. Rankin had been active in YC programs since 1951. He retired as Maine athletic director in 1965.
University Farm is "Farmed Out"

Expansion finally caught up with the university farm complex.

Dean Winthrop C. Libby of the College of Life Sciences and Agriculture announced October 13 that it will be moved to university-owned land in Stillwater, an area well northeast of University Park.

No funds has been appropri-
ated for the move yet following acceptance of the plan by the University Board of Trustees, but Dean Libby said, "ideally we should move immediately."

The construction of new dormitories and classrooms adjacent to the farm complex, waste disposal problems and the general deterioration of buildings within the farm facility prompted the move, it was indicated.

Mount Dearborn:

A mountain in Antarctica now bears the name of University of Maine zoology department faculty member Dr. John Dearborn, who spent 25 months in the region between 1958 and 1961 as a member of two National Science Foundation-supported expeditions.

This is the second Antarctic landmark to be named for a university faculty member. Previously a glacier was named for Geology Professor Harold Borns who has also spent considerable time there on geological research.

Dr. Dearborn was notified that the U. S. Board on Geographical Names had named the mountain for him by T. O. Jones, divisional director of environmental science for the National Science Foundation. Jones was head of the Antarctica Program office for NSF when Dearborn was there.

Growing Profession:

More 1967 graduates of the University of Maine at Orono took teaching jobs than in previous years; the largest single employer of 1967 graduates was government; Maine is losing its women graduates as well as its men; and fewer graduates were still looking for jobs in mid-summer than in previous years.

These are some of the facts brought out in the annual report of University of Maine Placement Director Philip Brockway.

Brockway in his report noted that 876 students received bachelor degrees or certificates in 1967 and that 583 of them, or 67 per cent, registered with the Placement Bureau for jobs. Of this total, 180, or 31 per cent, took teaching jobs and 180, again 31 per cent, took other positions.

New Name — A Bigger Program

The University of Maine's Farm and Home Week, traditionally held during spring vacation week, will have a new name this year and an expanded program designed to provide programs of broader public interest.

University Open House, the new name of the three-day observance which this year will be held from April 1 to 3, will involve the entire university with programs developed by the five colleges—Arts and Sciences, Business Administration, Education, Life Sciences and Agriculture, and Technology. A major speaker will be invited to keynote the open house.

Dana Baggett, chairman of a faculty-administration committee appointed to plan the over-all program, said this year's theme would be, "In Quest of Excellence — Our Environment." College and department programs will be developed around the theme.

Programs customarily designed for Farm and Home Week will continue, but others will be planned to involve people engaged in other occupations and interests, including, business, education, engineering, local and state government, labor, alumni and youth groups, cultural and service organizations, and others.

Many of these groups may schedule meetings as part of the "new" event, Baggett said.

Farm and Home Week, which observed its 60th anniversary last year, was oriented toward agricultural programs. Emphasis has been gradually shifting in the past few years with the expanding role of agriculture into large units.

Voters Pass $6.3-million University Bond Issue

By about a two-to-one margin Maine voters approved the November 7th, $6.3-million university bond issue question in a state referendum.

Thus, 19 months after university officials submitted their capital improvement budget for the 1968-69 biennium to the legislature, funds were approved to begin construction on seven college building projects.

They are:

— A new law school building at Portland, $920,000.

— Land and classrooms for an Augusta campus, $1,100,000.

— Physical education building and swimming pool at Orono, $1,900,000.

— Chemical engineering building at Orono, $1,400,000.

— Land and building acquisition and improvements at the Portland campus, $400,000.

— Funds to acquire and renovate buildings at Dow Air Force Base, Bangor, for use as a new university campus, $450,000.

— And development of the Darling Research Center, at Walpole, $150,000.

Construction work is expected to get underway almost immediately on most of the projects.

Plans for the law school in Portland call for an enrollment of around 300 students. The school's present building at 68 High Street is inadequate.

For the past two years the university has operated a program for college students in Augusta at Cony High School. By 1972, university officials project that some 1,875 full- and part-time students will utilize the new campus in the state's capital.

The new physical education plant at the Orono campus will supplement facilities built by alumni in 1926, when the university had an enrollment of 2,000.
French painter Paul Gauguin fled halfway round the world to the Pacific paradise island of Tahiti, he said, to escape civilization and build his own castle of privacy. Obviously no Gauguin, Paul Marshall of Standish, a forestry graduate of the University of Maine in 1949, is trying to bring some of that same civilization to 75 young native of the Caroline and Marshall Islands. He has little time for the sort of poetry Gauguin sought. Marshall's Tahiti is Moen Island, one of over 2,000 scattered land units up on a lion-square-mile Pacific Ocean quadrant between Japan and Australia. Called Micronesia, the Mariana, Marshall and Caroline Island groups were bloody battlegrounds during the Second World War. Today they are administered by the U.S. under a trusteeship arrangement with the United Nations.

Mrs. and Mrs. Marshall became interested in lay mission work to note Paul while he was doing graduate work at the University of Vermont and teaching in a public school from 1958 to 1963.

A little over three years ago Paul and his wife, Marvel and three children left Vermont to build a new high school on Moen Island.

"Our life here in many ways is not much different from our busy schedule in the states. We have little time for much outside our work. It has been three years now and none of us has found time to take a vacation," said Marshall, now principal and director of Mispaah High School.

In January of 1965 he helped direct 160 Micronesian workers in the construction of three, two-story classroom and dormitory buildings. The new high school houses 75 board students from the Caroline and Marshall Islands, was built on the site of a mission school started in 1876 by the first American Board Missionary to begin work on Truk, the Rev. Robert Logan.

"The first two years were spent building the school which we now have operated for one year. Our home is enclosed within the institution...and it is not really a home but a place of sleep for six hours each day."

"There are often students and faculty running in and out and..."
Paul Marshall Finds No Peace and Quiet on His South Seas Island

... little of the privacy one needs.

"Our requirements are modest, though, and we have plenty of fresh bananas, limes, taro from our school garden... and often fresh tuna from outside the lagoon."

The university graduate's tasks are much like those of any rural high school principal.

"Each day we are called upon to do things for which we have had little preparation. For example, at present I am organizing a marching band. We have five snare drums, six trumpets, one trombone and one baritone. It may not sound like much, but it is a beginning. Of course, I was never a band director, but who knows what may result. Marvel is teaching organ and business subjects. I teach chemistry and two social studies courses, as well as trying to carry on as principal."

There are inconveniences.

The nearest shopping center, for instance, is in Honolulu, an eight-hour plane flight away.

Paul describes his school as "forward looking and forward acting... striking a high note in the changing educational and religious outreach in the Micronesia of today."

The classrooms are modern.

Students tinker around with test tubes in a well-equipped laboratory and Mopah High School offers a well-rounded physical education program, including a baseball team.

"We seldom meet Maine people out here," Paul reports, although he does mention bumping into Edward '50 and Julia Smith on Ebeye Island near Kwajalein.

"At the present time they are sponsoring two scholarship students to our school," Paul indicated.

The Marshall family's five-year United Church Board for World Ministries tour will end in 1969.

"After that it is hard to tell what the future holds," he stated.
Fifteen University of Maine journalism students grilled former Presidential Candidate Barry Goldwater October 1 in a closed interview prior to his address on "Conservatism in America" before 3,500 students in the Memorial Gymnasium.

"Provocative, interesting and stimulating," said the ex-U. S. Senator from Arizona, after the journalism students asked him to take a stand on everything from Vietnam to Love-Ins.

Goldwater's talk, the 35th in a series of campus lectures given by the conservative spokesman, was sponsored by the Political Lyceum Committee and the Class of 1969.

Questioned about the following topics, Goldwater remarked:

The Nation's Main Problem Today?

"Crime and anarchy. Young people do seem to have better respect for the law, though. Each has the right to petition and meet in a
peaceful assembly... and in this sense, I agree love-ins and other peaceful demonstrations.

Love-Ins?
I'm impressed with them. One of their attributes is the fact that their state of being proves the past generation has failed to deal with youth's frustrations, unhappiness etc.

The Middle East Situation?
"Israel should not give up one postage stamp size of land taken from the Arabs."

The Republican Platform For 1968?
"It's up to Senators Dirksen and Chase. The outcome of the New Hampshire primary election will determine who's on top in the GOP today, Romley, Reagan or Nixon. I believe Reagan is making fast progress, but doubt that he would accept the nomination.

"He told me just recently that he's content with being just governor of California."

GOP Darkhorses?
"Hatfield has no interest. Percey is a possibility, if he's interested, but it's too early to say."

The Republican Leadership?
"It doesn't know where it is. There are a lot of liberals... and popicoats shooting off their mouths all over the country."

Goldwater's Brand Of Conservatism?
"A conservative believes in progress dictated by proven values of the past. We do not want to try things which have been disastrous to earlier generations; human nature has not changed."

"A conservative looks to the past as a prologue."

"I think that it's all summed up on the face of the Archives Building, in Washington D. C."

"An inscription there states: 'True conservatives and liberalists are found throughout the country and world; however, they never engage in destructive freedom.'"

Vietnam?
"There is a certain level of corruption, a black market similar to that which our country experienced in the Civil War. I do feel that the war is costing us dearly. The U. S. has spent more money in Vietnam than in the entire Second World War."

Red China?
"We can't have two China policies. It's like recognizing two Mexico's and two Englands."

The Negro Revolution?
"Education is our greatest tool to combat the problem. Environment is only one factor."

The United Nations?
"Some study should be made to find out why the organization is such a failure. I believe in the so-called 'pay-your-bills' theory. If some nations don't chose to pay for their portion of U. N. operating costs, they should drop out."

Relations With France?
"I don't feel there is anything we can do to patch up things with DeGaulle."
By Dr. Edwin Young

Southeast Asia may seem remote from Maine, but I discovered frequent reminders of my home State while on this latest trip to Southeast Asia. I talked to Maine alumni in responsible positions in Thailand and the Philippines. In fact, one of the officials with whom I worked closely, General Carlos P. Romulo, Philippine Secretary of Education, is the recipient of an honorary degree from the University of Maine.

At the time of my first visit to Southeast Asia a year ago, General Romulo and the other Southeast Asian ministers of education agreed to establish a secretariat with the basic function of promoting regional cooperation in education. The organization is known simply, or perhaps not so simply, as the Southeast Asian Ministers of Education Secretariat (SEAMES). The U.S. Government has encouraged such regional cooperation in order to allow the countries to better help themselves and so that assistance to an individual project in a country can be extended to benefit a whole region. The secretariat itself, however, is financed without U.S. Government funds by the Ford Foundation and contributions from member countries.

During the past year considerable progress has been made in building the secretariat. In addition, progress has gone forward in developing specific projects. Some of these are transformation of the SEATO engineering institute into the Asian Institute for Technology, planning for a regional center for research and advanced training in agriculture in conjunction with the University of the Philippines at Los Banos, planning of an institute for training teachers of English at Singapore, and the development of programs in tropical medicine in several of the countries. Many of these individual projects will be assisted with American aid funds.

A major objective of these institutes is to train people without bringing them to Europe or the United States, to educate them in settings where they will be working professionally. In this way more people can be trained better for a given amount of resources. Both professors and students from the cooperating countries will travel to the regional center where the particular specialty they are interested in is located.

I have been going to Southeast Asia for a decade now and I have seen great changes. Bangkok, for example, has been sharply altered by the trend of modernization. The standard of living has gone up, wide streets have replaced many of the old canals, and modern buildings have sprung up in the place of simple wooden shops and dwellings. Bangkok has become a crossroads of the East; practically every major airline stops there. The city has become the center for many international organizations, such as the United Nations Economic Commission for Asia and the Far East, and the Southeast Asia Treaty Organization. The streets are full of tourists, including many American military personnel, particularly airmen stationed in Thailand.

It is interesting to observe that the relationship between the Thais and all Westerners is much more natural and easier than in the countries which had been subject to colonial rule. The Thais assume that they will not be dominated by any outsider, and therefore carry themselves with a great deal of assurance.

One of the most interesting things I did there was to visit a girls' secondary school whose principal is a graduate of the University of Maine, Mrs. Boon Chau Chaiyabhat. (Her son, Win by the way, is now enrolled as a freshman at the University of Maine.) The students at the school proudly showed me books that had been sent from Maine to augment their library.

At Singapore the thing that strikes the visitor most forcefully is the great number of new high-rise apartment buildings built for workers by the City. I was told that a new apartment opens every forty minutes around the clock. Singapore's harbor is full of shipping since its position at sea is comparable to Bangkok's for air travel. The happy ending of the confrontation with Indonesia has shifted trade from smuggling to legitimate channels. The separation of this largely Chinese city from Malaysia has required considerable adjustment of its economic patterns. However, the polyglot population, which includes many Malays and Indians, appears to be making the transition successfully.

At the Ministry of Education in Singapore I was very much impressed by the

Editor's Note: In October, 1966, President Edwin Young traveled to Southeast Asia on the invitation of the U.S. State Department to help establish an organization for regional cooperation in higher education. During the last two weeks of August, 1967, he made a second trip to
"I discovered frequent reminders of my home state"

plans for new schools at every level and by the high competence of the administrative staff. I was also able to visit with a former American student of mine who is doing research and teaching economics at the University of Singapore.

The major objective of my short stay in the Philippines was to visit the College of Agriculture of the University of the Philippines at Los Banos and to talk there about the expansion that might take place in order to accommodate students from the Southeast Asian region. While at Los Banos I visited with Dr. Robert Chandler, class of '29, who is the director of the International Rice Research Institute. The Rice Institute is perhaps the most exciting research venture in all of the Far East. The peasants refer to one of the brands of rice developed there as "miracle rice." Dr. Chandler said it really does multiply production, and he added that they have even better strains coming along. On my two previous visits to the Rice Institute they were greatly worried about their ability to persuade the peasants to use the new seed, but now they know that it is being adopted rapidly in the Philippines, Indonesia, India, and other rice-growing areas.

I was also able to visit with a center for training government officials in economics, which I had helped to establish a few years ago at the University of the Philippines. It was encouraging to see that the diffusion of economic concepts among office holders and public administrators is continuing and is beginning to have an impact on development there.

As I look back on it now, it is difficult to believe that all of my observations transpired in less than two weeks. The schedule was packed; but try as I could, I was unable to exhaust Dean Edward Godfrey of the University's School of Law. Having him along for part of the trip made it especially enjoyable; he accompanied me to Thailand and the Philippines and made a side trip to Saigon, but that is another story that I leave for him to tell.

I had last seen Djakarta in Jan., 1965, when relations with the United States were becoming increasingly strained. At that time the Hotel Indonesia had few guests and the streets seemed to be full of uniformed soldiers. Now, Americans and other Westerners, particularly businessmen, are fully welcome. It is almost impossible to get a room at the hotel. Contacts with government officials are much easier for Americans than they were in the difficult days under Sukarno. At first I thought it was my imagination, but in talking to others I discovered that the streets are much cleaner and the roads much smoother than before the coup against Sukarno.

One is very much struck by the number of partially finished large buildings in the central portion of the city. Sukarno had great building plans, but the new government's determination to beat inflation has led it to halt all building until funds are in hand to complete it. Some buildings have been standing for nearly two years in their unfinished state.

One of the very real problems facing the government is the unemployment resulting from its anti-inflation policies. On the other hand, it has stabilized prices and attracted outside economic help to the Country. I visited with the American ambassador and the United States AID staff. It is a very small, hardworking group. These officials explained that they hope to keep it small in order to avoid any suspicion that they are trying to influence government policy.

One day we travel to Bogor, about forty miles from Djakarta, to visit Dean Tojib of the Biological Institute. This Institute at Bogor is one of the most famous botanical gardens in the world; it was developed by the Dutch over one hundred years ago. The town is a center of agricultural and biological research as well as the site of a major presidential palace. Again I had a chance to visit with a former student, an Indonesian named Adinus Mooy, who is now involved in planning the economic policies of the Country on the staff of the Sultan of Djogjakarta.

During my talks with Professor Tojib and the minister of education they stressed how important it is that a new program in basic education be developed for Indonesia, one which would combine elementary education with skills that could provide the basis for the development of the Country.

"Bangkok has become a crossroads of the East"

review the progress that had been made by the countries concerned: Thailand, the Philippines, Indonesia, Laos, South Vietnam, Singapore, and Malaysia. In this article he reports on the project and gives his impressions of changes in the countries he visited.

Thurlow '50); Jane Durance of Cape Elizabeth (Philip M. Dearborn '15); Linda Bryden of Bristol, Vt. (Mortimer L. Bristol '92).
Governor Kenneth M. Curtis, an honorary Maine alumnus even though he happened to matriculate from Portland University Law School several years before that institution became part of the University of Maine at Portland, was one of several thousand old grads back on campus October 14th for annual Homecoming festivities.

Curtis addressed about 400 alumni and friends at the General Alumni Association's paper plate buffet in Memorial Gymnasium prior to the Maine-New Hampshire football contest.

Curtis joked about his "technical" Maine alumnus standing and came out in support of the proposed university bond issues in the November 7th state referendum.

Carl Whitman, president of the General Alumni Association, presided as master of ceremonies during the pre-game luncheon.

Black Bear Awards

Whitman made Black Bear Award presentations to two Maine graduates, Dr. John E. Stewart, dean of men at the university since 1951, and Dr. William L. Irvine, president of Vermont College in Montpelier, Vt.

The General Alumni Association president also read a third Black Bear citation, which will be presented to Dr. Arthur O. Willey, chairman of the board and chief executive of Lubrizol Corporation of Cleveland, Ohio, later this year at an Ohio Alumni Association meeting.

The Black Bear Awards are given annually in appreciation of outstanding service for promoting university spirit, for devotion to the aims of the university and for long service to the university or to the alumni association.

Dr. Irvine, a native of Framingham, Mass., and a graduate of the university in 1942, played right guard on the varsity football team and was a Senior Skull. He majored and received his degree in business administration. In 1947 he received his Master of Education degree from Maine and in 1952 earned his Ph.D. degree from Cornell University.
He started his teaching career as principal, teacher and coach at Islesboro High School. He next served as administrative assistant to the Superintendent of Schools in Ithaca, N. Y., and then as Rural Superintendent of Schools in Willimantic, Conn. In 1958 he became the first Dean of the University of Maine in Portland.

In 1928 he became the fourth president of Vermont College. He is married and the father of three daughters.

Dr. Willey is a native of Madison, received his Bachelor of Science degree in mechanical engineering in 1924 from the university, his master's degree in 1929 and received an honorary Doctor of Engineering degree from Maine in 1960. He earned part of his way through college as a motorcycle policeman for the Maine State Police.

He started a teaching career in 1924 as an instructor at the University of Maine and continued in professorships at Case Institute of Technology, Cleveland, Ohio, teaching mechanical engineering from 1929 to 1941. He became director of research with the Lubrizol Corporation of Cleveland in 1938 and progressed through several posts to president and chief executive officer in 1962. In 1966 he became chairman of the board and remained chief executive officer.

In partnership with his wife, Dorothy, he established a scholarship and the Arthur Willey Professorship in Mechanical Engineering at the U-M.

Dean Stewart, a native of Bar Harbor, graduated from the university in 1927, majoring in mathematics. In 1928 he received his Master of Arts degree and did further study at the University of Iowa and Columbia University.

He served as associate professor of mathematics at Maine from 1928 to 1951 and also served as assistant to the Dean of the College of Arts and Sciences. He was appointed in 1951 to the administrative position of Dean of Men.

In 1932 he married Mabel Lancaster, a member of the home economics staff at the university. The couple have a daughter and a son, both of whom graduated from the university.

Cite Westerman

A luncheon tribute also was paid to Harold Westerman, Maine's director of athletics, for his "sportsmanship, gentlemanly ways, shrewd tactics and strategy" which combined to lead university football teams to high plateaus during his 16 years as head coach.

Westerman, in turn, introduced Andrew Mouradian, his counterpart at the University of New Hampshire. According to Mouradian, it was the first occasion he had to address a Maine group prior to any football game.

He didn't predict a UNH victory, but "hoped Maine will lose."

The New Hampshire AD needn't have been so cautious.

His Wildcat eleven rolled over Maine 17 to 0 before about 9,000 disappointed alumni, friends and students at Memorial Field.

University President Edwin Young introduced Dr. Arthur A. Hauck and Dr. Clarence C. Little, former U-Maine presidents, to the alumni luncheon. Dr. and Mrs. Young greeted a fine turnout of alumni at the President's Residence for a coffee following the football game.

Career Award

Prior to the Saturday noon luncheon the General Alumni Council held its annual dinner meeting Friday night.

A Rockland, Maine, native who started as a bank worker and rose to the presidency of a world-wide manufacturing concern doing an annual sales volume business of $70 million, was named the recipient of the University of Maine's General Alumni Association Career Award for 1967 at the dinner.

Arthur B. Richardson, a member of the class of 1911 at the university and who received an honorary Doctor of Laws Degree from Maine in 1956, was presented a University of Maine cabinet clock as the Career Award winner by GAA president Carl Whitman.
Richardson retired in 1960 as chairman of the board of Chesebrough-Pond's, Inc. and retired as a director in 1964. The firm manufactures cosmetics, toiletry and medicinal products and distributes them in more than 100 countries in the world.

Born March 20, 1889, the son of Charles and Frances (Barlow) Richardson of Rockland, the new career award recipient was engaged in banking at the Security Trust Company, Rockland, from 1910-14. In 1914 he became associated with the Chesebrough Manufacturing Company, Consolidated, with headquarters in New York City and served as manager for the company in Russia, China and England until 1936.

He was made assistant vice president in 1930 and vice president in 1937. In 1944 he was elected president of the firm and in 1955 was named chairman of the board of directors. The company was founded in 1876 and incorporated in 1880 to manufacture products of petroleum jelly which had been discovered by the founder, Robert Chesebrough.

The Queen is Crowned

During half-time activities a pretty, five-foot-three-inch blonde coed from Union, Zoa Hawes, was crowned Homecoming Queen for 1967. She is the daughter of Mr. and Mrs. Schuyler Hawes.

Members of her court were Sharon Haverinen of South Paris; Doreen Adler of Auburn; Marjorie Wright of Orono; and Jane Ames of Fort Fairfield.

"M" Club Honors

Albert Smaha, president of the university "M" Club, presented honorary membership citations to six men as part of the half-time activities.

Honored for displaying a high degree of interest and loyalty to the university's athletic program over the years were:

Dr. Clarence Bennett of Orono, professor of physics at the university and former head of the physics department; Ralph Colburn of Bangor, an executive in the Bangor Furniture Company; Harry E. Angelides of Lewiston, an insurance company district manager; George Hale of Brewer, director of radio programming at WABI, Bangor; Irving Pierce of Old Town, a retired U-M accountant; and Prof. Frank Beyer of Orono, associate professor of forestry at the university.

Sour Note

One discontenting note did pop up following the Homecoming activities. "The Maine Campus," in an editorial entitled "It's Halftime," criticized a salute by the university's Marching One Hundred Band to 11 alumni killed in Vietnam as "nothing less than disgusting." The editorial writer asserted that Bandmaster George Cavanagh's selection of the "Ballad of the Green Berets" and a formation of ROTC Ranger Cadets was in poor taste, and that the whole memorial activity was "an attempt by the university to ram a political line down the throats of its students."

The public address announcer read the names of the following University of Maine alumni during the ceremony:

Also taking part in the ceremony were the Pershingettes, a 16-girl drill unit led by Miss Lynda Bond of Augusta, who appears on the cover on this month's Alumnus.

Saturday night a light turnout of alumni capped off the Homecoming weekend by attending the Alumni Association dance at the Penobscot Country Club.

Despite a losing football game, cloudy skies and some criticism from the student newspaper, GAA officials feel the turnout this year was one of the best in ten years.

Half-Time Tribute

A Score?

Mr. and Mrs. Arthur Richardson of Rockland. He Was The GAA Career Award Recipient.
Maine's Soccer Awakening

By John Day

"To be realistic about the whole thing, we thought it would take at least five years for us to turn out a team capable of competing for a conference championship. But now, I don’t know."

Coach Bill Livesey was talking about his 1967 Black Bear soccer team which decided that the bottom of the heap was no place to launch a winning University of Maine athletic tradition. After dropping the first two games of the season this fall to round out a 28-game losing streak, Livesey's hooters took it upon themselves to do something no Maine soccer team has ever done. They won as many games as they lost in the rest of the season.

As a matter of fact, the Black Bears apparently are developing into a solid title contender in both the state series and Yankee Conference. This year they finished 2-3-1, the tie being Colby, for third place in the State Series. Their Yankee Conference record was 2-3-0, or fourth best.

Soccer is only three years old at Maine and Livesey has been here two years. A few winning games are not all that’s been happening to the university’s soccer program. According to Livesey, Maine’s athletic department has launched a super recruiting program to bring talented soccer players to the Orono campus; the administration begun construction of one of the best soccer athletic fields in the East; and Livesey, with encouragement from local secondary education officials, has taken it upon himself to attempt a soccer “awakening” in Maine high schools.

The new soccer complex includes one game field, with score board, bleachers and a public address system; and two practice soccer fields, one each for the varsity and frosh teams. It will be ready in time for next season.

About the caliber of his Black Bear soccer players, Livesey said:

“When they first started soccer here over half the players who tried out for our team had never played the sport in high school. This year we have 30 boys on our squad. Twenty-nine of them have soccer experience.”

“We wrote every boy in New England who played soccer about our program. We told them about the new field. One of the bright spots is the number of kids from Maine who came out. There are ten of them who had played the sport in high school.”

“How we do from now on depends upon the quality of our Maine boys because we (the university) only accept 20 percent non-state students,” explained Livesey, who says he’s trying to interest schools in Maine’s northern counties, which don’t have football, to take up soccer.

The present squad is built around two fleet African exchange students, Ahmed Hamid of Somalia and Swatulani “Swats” Munthali of Zambia. Jeff Tigherinton of Falmouth and goalie-captain Ken Olson of Needham, Mass., are other stand-outs, reported Livesey.

Maine will lose Hamid via graduation next fall, but 19 of 25 lettermen are scheduled to return.

“We also have a darned good freshman team (which now stands at 2 and 2), said Livesey, who quoted an exchange student from Cuba and a home-grown Aroostook County lad on the team as two potential varsity stars.

“Maine always has had a winning athletic tradition. I am sure we soon will be a part of it,” the new Maine soccer coach declared.

Just how long will it be before a U-Maine squad brings home pennant honors?

Looking back on this year’s performances and that good frosh team standing in the wings, Coach Livesey is almost tempted to stick his neck out and move up that five-year deadline a bit.
Black Bears Drop Eight Straight Gridiron Games

The 1967 Black Bear football team closed out its season without a single victory.

The Bears dropped eight games in a row this fall, four of them by shut-out scores. In 17 straight quarters of gridiron play opposition teams racked up a total of 115 points against Coach Walt Abbott's Bears, while holding Maine scoreless.

Maine teams have competed on the football field for 75 years and during that time only six clubs failed to finish with at least one victory. The football teams of 1945, 1943, 1916, 1894, 1893 and 1892, when the sport was introduced here, each were shut-out in the victory column.

Facing possibly the roughest schedule in the university's recent history, Maine was beaten by Massachusetts 30-9; the Citadel, 42-14; Vermont, 18-7; New Hampshire, 17-0; Connecticut, 18-0; Boston College, 36-0; Northeastern, 24-0; and Rhode Island, 34-12.

One bright spot, though, was sophomore end Gene Benner of Auburn, who broke most of the university's existing pass receiving records before the season was half over.

In the Rhody game Benner led a come-back charge that almost resulted in a stunning upset victory by Maine over a good Rhode Island team. The Bears' final game, even though it ended in defeat, probably was their best performance of the year.

Other than that, it was a very bleak year for new head coach Walt Abbott and his young Maine football team.

Sophomore end Gene Benner of Auburn, one of the season's few bright spots, heads for a first down.

Good News For McCall

Although they won't be available for varsity competition this season, no less than 11 players measuring 6' 4" or better, including 6' 8" All-State Center Mark Nash of Ellsworth, are working out for the freshman hoop team.

In addition to Nash, the big men include: Richard Prone of Scituate, Mass., 6-7; Dennis Stanley of Mexico, 6-6; William Haines of Norway, 6-6; Stephen Anderson of Rockport, Mass., 6-5; Robert Chandler of Marshfield, Mass., 6-5; Les Phillips of Bangor, 6-5; Ernest Dobbs of Croton-on-Hudson, N. Y., 6-5; Craig Randall of Lebanon, Conn., 6-4; Dominic Susi of Pittsfield, 6-4; Chris Murphy of Searsport, 6-4.

Hoop Play Starts December 1st

The 1967-68 Maine Basketball team begins season play December 1 at Orono against Assumption.

Coach Brian McCall will field a squad that will rely heavily on the shooting of Junior Jim Stephenson, the team's second high scorer last year.

Maine's opponents are:

**Dec.** 1 — Assumption
8 — at Northeastern
9 — at Rhode Island
12 — New Hampshire
16 — at Massachusetts
18-20 — Wayne State Classic

**Jan.** 5 — Brandeis
6 — Connecticut
9 — Colby
12 — at Vermont
13 — at Vermont

**Feb.** 3 — Boston University
6 — at Bates
7 — St. Anselm's
10 — at Connecticut
13 — at New Hampshire
17 — Rhode Island
21 — Bowdoin
24 — Massachusetts
28 — at Colby

**Mar.** 1 — Bates
2 — at Bowdoin
They Represented The University

At the request of President Edwin Young a number of Maine alumni represented the university at college dedication and inauguration ceremonies throughout the country this fall.

On October 7 Gordon Erikson '43 of West Bolyston, Mass., attended the inauguration of Frederick H. Jackson as the fourth president of Clark University at Worcester, Mass.

On October 8 Dr. George H. Ellis '41 of Wellesley, Mass., attended the inauguration of Arland F. Christ-Janer as the sixth president of Boston University, Boston, Mass.

On October 20 Donald E. Crossland '45 of Littleton, Colo., represented the university at the inauguration of Maurice B. Mitchell as chancellor of the University of Denver, Denver, Colo.

Rochester Alumni Postpone Fall Banquet; Hope To Meet Next February

The Rochester, N. Y., Alumni Association had to postpone their fall banquet September 21. President Edwin Young had been invited to address the group, but was unable to attend because of his Southeast Asia trip. The association hopes to hold a spring meeting, February 14 or 15, with Dr. Young as the principal speaker.

Boston Area Alumni Association Hosts Post-Game Supper

Ed Bellefontaine, president of the Boston Area Alumni Association, hosted a large delegation of Maine alumni October 28 at Vale's Restaurant in Newton, Mass., following the Maine-B.C. game. Maine fans held a tail-gate luncheon prior to the game at Boston College Field.

Kittery Alumni Will Meet December 2nd

The Kittery Area Alumni Association has scheduled a meeting Saturday, December 2, at 7 p.m. in the Flagstones Restaurant, Portsmouth, N. H.

Black Bear Award Recipient: Dr. Willey

Arrangements are being made to present Dr. Arthur O. Willey, chairman of the board and chief executive of Lubrizol Corporation, Cleveland, Ohio, the Black Bear Award sometime this spring. Dr. Willey was one of three recipients named to receive the honor at homecoming activities last month, but was unable to attend. The GAA hopes to schedule a presentation ceremony in Ohio, probably in mid-February.

Black Bear Club Meets After The Maine-Rhody Game

A meeting of the Black Bear Club of Rhode Island was held November 10 at Lindia's Restaurant in Cranston, R.I., following the Maine-Rhody Island football game. The club also met October 20 at the TK Club in Pawtucket, R.I., with Myron Zimmerman and Howie Barber serving as co-hosts.

Several Hundred Attend Post-Game Dance At Portland

Several hundred persons attended a dance sponsored by the Cumberland County Alumni Association September 30 following the Maine-Citadel football game in Portland. President Herbert P. Gray did a fine job of planning the activity.

Rep. Hathaway Slated To Address Capital Area Alumni Association

The Capital Area Alumni Association of Washington, D. C., held their annual fall dinner November 15 in the Crystal Room of the Washington Navy Yard Officers Club. U. S. Congressman William D. Hathaway was scheduled to address the gathering. Other prominent Maine figures were invited to attend.

Maine Club Plans A "Ladies' Night" December 14th

The Maine Club of Auburn-Lewiston plans a "Ladies' Night" Thursday, December 14. Russ Woolley and Phil McCarthy attended the group's October 19 meeting at Steckino's Restaurant in Lewiston. Linwood Dwelley recalled his trips to Northern Maine with the Saint Croix Voyageurs in a slide program.

Dr. Boardman Is Honored By The Northern Kennebec County Alumni Association

The Northern Kennebec Alumni Association honored Dr. Harold S. Boardman, former university president, at its fall meeting November 16. A buffet supper was served at the Holiday Inn in Waterville. Henry Briggs presented an illustrated talk on "The Country Beyond."

Southern Penobscot Alumni Plan History

The Southern Penobscot Alumni met October 25 at the home of Mrs. Waldron Sawyer, 420 French Street, Bangor. Mrs. Miriam King Watts, interior decorator, spoke to 67 members in attendance. The group decided to write a history of the organization. Their next meeting will be held November 29, when plans will be made for a Christmas auction.
The Stein Club of the Annual Alumni Fund was originated in 1966 (the 6th year of the AAF) to be a grouping of extra generous members contributing in excess of $500 yearly. Some persons had been making gifts up to multiples of that figure in each annual period.

The pioneers of that new club, numbering 45 members in the year 1966-67 through last June, are listed below by name.

Floyd N. Abbott—1925  
Mrs. Floyd N. Abbott  
Francis S. Andrews—1942  
Hazen H. Ayer—1924  
Harold H. Beverage—1915  
George D. Bixby—1929  
Foster Blake—1922  
William E. Bodwell—1950  
Janet Marston Bodwell—1955  
Thomas Buck—1901  
Henry T. Carey—1922  
Roger C. Castle—1921  
Virginia Averill Castle—1923  
W. Philip Churchill—1930  
Albert D. Conley—1911  
Madelyn Dyer Conley—1936  
Donald P. Corbett—1934  
Francelia Dean Corbett—1934  
Percival B. Crocker—1921  
Lawrence W. Davee—1922  
Muriel Goodrich Davee—1922  
Edmund J. Dempsey—1917  
Roy J. Gavin—1934  

Ralph T. Gould—1923  
Royal G. Higgins, Jr.—1917  
Louis O. Hilton—1954  
Maurice Jacobs—1917  
Milton F. Kent—1930  
Edward R. Ladd—1939  
Margaret Hauck Ladd—1940  
Leon B. Levitan—1938  
Clarence C. Little  
Beatrice Johnson Little—1924  
Thomas G. Mangan—1916  
William P. Palmer III—1958  
James E. Poulin, Jr.—1932  
Henry P. Pryor—1940  
Arthur B. Richardson—1911  
Dwight L. Somers—1934  
Raymond T. Wendell—1932  
Grace Watson Wendell—1938  
George F. Wilhelm  
Elizabeth McCracken Wilhelm—1929  
Arthur O. Willey—1924  
Anonymous—1

STEIN CLUB

1903 COL. MARTYN HALL SHUTE, U.S. ARMY (RET.), 84, of San Antonio, Tex., on June 17, 1967, in San Antonio, Texas. Native of Ellsworth. Graduate of West Point 1906. Entered the service in 1901; retired 1942 because of age. Distinguished graduate Command and General Staff School 1924; graduate Army War College 1928. After retirement recalled to active duty; retired 1944. Survivors: three daughters, sister, five grandchildren. Member Beta Theta Pi Fraternity.

1907 EMERSON PEAVY LAMBE, 80, of Thomaston, on Sept. 13, 1967, at Waldoboro. Native of Vanceboro. Joined faculty of Pratt Institute in 1920 and held rank of professor of physics for 32 years. Author of several textbooks. Retired 1952. On Oct. 8, 1966, Mr. and Mrs. Lambe observed 53 years of marriage. Mr. Lambe served as president of the Senior Alumni 1958 to 1959; also served as vice-president of the Knox County Alumni.

1968 DR. THOMAS WHITTEMORE FESSENDEN, 96, of Bangor, on Sept. 9, 1967, at Bangor, Maine. Educated at Harvard. He did postgraduate theological training at Garrett Theological Seminary '00; Ph.B. from Taylor University, '02, and B.A. '03. Midland University conferred the honorary degree of Doctor of Divinity on him in 1906. Retired clergyman. Held pastorates in churches at Bangor, and Castine, Salem, Massachusetts, Minneapolis, Minnesota, Pittsburg, Pennsylvania, Columbus, Newark and Toledo, Ohio. Served as first lieutenant in World War I, and served in France after the Armistice was declared. Survivors: daughter, grandaughter, three great-grandchildren. Member Phi Eta Kappa Fraternity.

1972 DR. FREDERICK LINCOLN CHENERY, JR., 78, of Monmouth, on Sept. 25, 1967, at Monmouth. Native of Wayne. Following a degree at Vassar College, attended Bowdoin Medical College, graduating in 1918. He was practicing physician in Monmouth in 1918. Survivors: wife, two grand-children, aunt. Member Phi Kappa Sigma Fraternity.

1973 SIDNEY GURNEE EVANS, 81, of Wiscasset, unexpectedly, on Aug. 16, 1967, at Waldo, Native of Waldo. Operated a variety store in Wiscasset; retired 1954. Previously manager of several large New England farms; later became county agricultural agent in Lincoln County. Survivors: son, daughter, Joanna (Evans '41) Bardo, Hamden, Conn., sister, seven grandchildren, nieces and nephews.

1975 PHILIP WARREN BROWN, 78, of Old Lyme, Conn., on Oct. 16, 1967, at Essex, Connecticut. B.S. from the University of Wisconsin. Attended the University and graduated from U.S. School of Military Aeronautics at Princeton, and from U.S. School of Astral Gunnery in Michigan. Drafted for the government and East Coast shipyards. Also employed by Pacific Gas and Electric Company in San Francisco. Mr. Brown was a direct descendant of Josiah Bartlett, a signer of the Declaration of Independence and first governor of the Province of West Massachusetts. Survivors: wife, two sisters. Member of Theta Epsilon, now Sigma Nu Fraternity.

1978 JOSEPH TITCOMB COLE, 77, of Kennebunk, on Sept. 6, 1967, in Biddeford. Native of Kennebunk, member of the Cole County Insurance Agency, starting in business with his father in 1915. Survivors: wife, Marion (Emery '17), children, two daughters, three nieces, member Sigma Alpha Epsilon Fraternity.

1979 DR. JOHN WHITTEMORE GOWEN, 74, of Fort Collins, Colorado, on Sept. 7, 1967, at Fort Collins, Colorado. Native of Litchfield, Florida. Earned M.S. at Maine, 1915; Ph.D., Columbia University, 1917. Employed at Maplewood Fire Insurance Co. in 1917 in 1926 followed by 11 years at Rockefeller Institute for medical research. In 1933 joined staff at Iowa State University and 10 years later appointed head of department of genetics. Retired at the age of 70 and was professor of radiation biology and genetics at Colorado State University. Author of more than 400 scientific publications and four books. World known as a pioneer in radiation genetics. On Sept. 10, 1967, Mr. and Mrs. Gowan observed 50 years of marriage. Survivors: wife, two daughters, four grandchildren, one great-grandchild.

1982 MARGARET HOLYoke ADAMS (MRS. HAROLD P.A.), 86, was a member of the family of Melrose, Mass., on Oct. 12, 1967, in Biddeford. Native of Brewer. Teacher at Bangor, Milo, and North Bridgton, Maine. Served as secretary of the Class of 1915. Survivors: husband, Harold P. '14, two sons, one Holycle P. '44, of Reno, Nev., sister, 14 grandchildren, niece and nephews. Member Alpha Omicron Pi Sorority.

1983 FLORENCE CLARK CHANDLER (MRS. C.VILLES), 73, of Newcastle, on Sept. 10, 1967, in Union. Native of Brunswick. Taught school in Maine and Connecticut and was a technician in the laboratory at Eastern Maine General Hospital, Bangor. Survivors: daughter, two brothers, one, John Winthrop Chandler '27, of Auburn, three, five great-grandchildren, nieces and nephews.

1984 DR. PERCY ALLEN LEDDY, 72, of Seal Harbor, on Aug. 9, 1967, at Bar Harbor. Native of Calais. After attending the University of Maine, he received his M.D. from the Massachusetts College of Pharmacy in 1917, and a medical degree from Harvard University in 1921. From 1928 to 1954, he was the chief of Yale Medical School. First full-time director of Student Health at the University of Maine, he served from 1960 to 1966. Maintained a summer practice on Mt. Desert Island. Survivors: wife, three sisters, nephews and nieces. Member Phi Eta Kappa Fraternity.

1990 WILFRED DONELL BAYLEY, 68, of Miami, Fla., formerly of Great Neck, Long Is-
1922 ANDREW EVERETT STROUT, 68, of Portland, unexpectedly, on Oct. 8, 1967, in Portland. Also earned M.Ed. at Harvard 1932. At time of death, a retired teacher from various Portland schools. Also served as a teacher in the Portland Schools. Formerly teacher in Bangor, Portland, Gorham State College, Farmington State College, and the Maine Business College. Survivors: wife, Gertrude (Farnham '22) Strout, two sons, one, Everett '50, Cumberland Center, four grandchildren, sister, Mrs. Fred T. ('Avis '23) Jordan, Portland. Member Phi Psi Kappa Fraternity.

1922 EDITH BLANCHE INNES, 64, of Bangor, unexpectedly, in Bangor on Oct. 2, 1967, of Mason, New Hampshire. Attended the University for three years, and graduated from the Maine School of Commerce. Employed by State of Maine Health and Welfare Department in Bangor, as social worker for last 23 years. Survivors: sons, daughter, son-in-law, three grandchildren.

1926 SETH ASHLEY WHITCOMB, 63, of Readfield Depot, unexpectedly, in Readfield Depot. Native of Millinocket, Engineer for the State of Maine Highway Department. Survivors: four sons, two, Aaron '64, Readfield Depot, Nathan '68, Millinocket, three daughters, two, Nancy '59, Swansson, Waterville, Mrs. Harriett '60 Bulmer, Smithfield, five grandchildren, niece, nephew.

1927 DONALD HARRY RIDLEY, 61, of South Portland, unexpectedly, on Sept. 22, 1967, while attending a business conference in New Yor k. New York. Native of Sanford. Served as Oxford County Agricultural Extension Service Agent until 1933; then employed as manager with Farmers Production Credit Association and the Federal Land Bank Association. Survivors: wife, Elfie ('Bradley '26) Ridley, father, three sons, two, Allen P. '52, Scarborough, Roger H. '56, Rochester, N.Y., two daughters, one, Mrs. James V. '57 Ervin, Marlboro, Mass., two sisters, 16 grandchildren, two nieces. Member Alpha Gamma Rho Fraternity.

1930 HORACE STONE BROWN, 60, of Bangor, on Aug. 8, 1967, in Bangor. Native of Bangor. Employed by a number of banks. Survivors: two daughters, son, sister, brother, five grandchildren.

1930 MILTON LEROY VOSE, SR., 58, of Bangor, unexpectedly, on Aug. 18, 1967, in Bangor. Native of Eastport. For past 25 years served representative with Bird and Son, Waldoboro, Maine. Survivors: wife, two daughters, one son, two brothers, one grandchild, nieces, nephews. Member Lambda Chi Alpha Fraternity.

1930 EARLE RAYWORTH ("BILL") GO WELL, 60, of Cumberland, on Oct. 1, 1967, at Cumberland. Native of Somerville, Massachusetts. Owner and operator of Sparhawk Mills, Readfield, Me. Served with Army Engineers for four years in World War II. Discharged as a major. At the University held U. of M. State track meet record for outdoor and indoor established in 1929-1930. Second in county for a track and field meet in 1930. Survivors: wife, two sons, one, Earle R. Jr., '56, Cartersville, Ga., mother, two brothers, one, George, Pittsburgh, Pa., three grandchildren, nieces and nephews. Member Senior Skulls and Sigma Alpha Epsilon Fraternity.

1932 VANCE GERALD SPRINGER, 58, of Augusta, on Sept. 21, 1967, in Augusta. Native of Danforth. Also held M.A. from Maine College of Administration, Department of Health and Welfare. Had previously taught school, coached, and served as director of the Division of Vital Statistics. Survivors: wife, two sons, one daughter, two brothers, four sisters, one of whom is Mrs. Albert E. (Gladys '40) Jones, of San Diego, Calif., nieces and nephews. One brother, Jim J. 62, of Allagash. Member Sigma Chi Fraternity.

1932 JOHN EMANUEL FRANSON, 58, of Clinton, Miss., unexpectedly on July 23, 1967, in Clinton, Mississippi, Massachusetts. Attended the University of Maine and graduated from the University of Michigan Forest supervising the National Forests in Mississippi. Formerly worked in national forests in Michigan, New Hampshire and Ohio. Mr. Fran son was incorporated in the Congressional Record in August 1967. A captain at the time of his death, he was appointed to the United States Air Force in World War II. Survivors: wife, mother, sister.

1932 NORMAN LUFKIN FRENCH, 57, of West Hartford, Conn., on Sept. 14, 1967, in Hartford, Connecticut. Native of Rumford Center, Maine. Employed in the insurance company in its Farm Mortgage Division. At time of his death, he was assistant secretary in the mortgage division. Survived as a third officer in the Army Transportation Corps in World War II. Survivors: wife, father, Henry French '02, Rumford Center, two sons, daughter. Member Beta Theta Pi Fraternity.

1936 DR. DONALD FRANCIS MACDONALD, 52, of Bangor and Brewer, on Aug. 31, 1967, in Boston, Massachusetts. Native of Bangor. Earned a medical degree at Yale University, 1940 and as medical engineer for Aco Company, of Wilmington, Massachusetts. Previously taught engineering at Tufts University for 16 years. Survivors: parents, wife, Barbara (McLeary '38) Vannan, son, daughter. Member Theta Chi Fraternity.

1950 CHARLES ARTHUR LORANGER, 40, of Old Orchard Beach, on Sept. 12, 1967, unexpectedly, in Lewiston, while attending the opening of a new plant in that city. Native of Lowell, Massachusetts. Vice president of the Martinizing Cleaning and Laundry operations in Maine. Former teacher and football coach. Survivors: parents, wife, son, two daughters, brother, three sisters, nieces and nephews. Member of Sigma Nu Fraternity.

1960 JAMES COLBY CUTLER, 29, of Rumford, on Oct. 24, 1967, in Rumford, from a heart attack. Native of Lewiston. Former physical education director and line coach for football at Maine Maritime Academy, 1962 to 1965. For past three years head coach at Stephens High School, Rumford. Survivors: mother, wife, three children, sister, two-half-brothers, Member Kappa Sigma Fraternity.

1968 PAUL FREDERICK MCLEAN, 23, of Kittery, on Oct. 27, 1967, in Carmel, in an automobile accident. Native of Kittery. Attended the University for three years and was employed as a laboratory technician by David-son Rubber Company, Dover, New Hampshire. Survivors: parents, brother, sister, maternal grandmother. Member of Kappa Sigma Fraternity.

SCHOOL OF LAW

1914 CLYFTON HEWES, 75, of Saco, in Biddeford, on Aug. 5, 1967. Native of Saco. Graduate of the School of Law. Practicing lawyer in Saco for more than 50 years. During World War I, served as Judge Advocate. Survivors: wife, two sons, John L. '48, of Portland, Richard D. '50, Cape Elizabeth, sister, brother, 14 grandchildren, nieces and nephews.

MR. ALLEN KNOWLES
314 Winter Park Towers
1111 South Lakemont Avenue
Winter Park, Florida 32799

'04 Mr. and Mrs. William Gill observed 60 years of marriage on Oct. 23.

Roy Averill wrote from Chula Vista, Calif., that he expected to leave for Pittsburgh, and his former address after a month's visit with his son, Dr. R. S. Averill, M.D., in Chula Vista.

MR. JOSEPH W. CROWE
708 North 20th Street
Boise, Idaho 83702

'05 Editor's Note: Edee and Joseph Crowe wrote that they were as excited over watching the Red Sox in the World Series as we in Orono.

He said that he hasn't heard a word from any of his classmates. Can you help him out?

Friends report that just recently the Crowes' were on the way for a visit with his son and family in California.

Caleb W. Scribner '05 and Lore A. Rogers '06 have co-operated in the publication of an article entitled "The Log Haulers" which appeared in the August '67 issue of The Northern Logger and Timber Processor. It is a highly interesting and exhaustive history of steam driven log haulers and illustrated with photographs of different types and makes. A Lombard steam hauler is on display at the Lumbermen's Museum, Paton of which Mr. Rogers and Mr. Scribner are the Curators.

MR. KARL MacDONALD
Box 18
Belfast, Maine 04915

'07 Our sympathy goes out to Mrs. Emerson Lame in the loss of her husband. He was the youngest man in the class.

We held our "Little Reunion" on Saturday, Aug. 19, 1967, at Presby Soup, Searsport at 1 p.m. The following were present: Barrows, MacDonald, Swift, Talbot, Williams and Wyman. The General Alumni was represented by "Brownie" Schrumpe. We had a nice dinner and as it was a good day, adjourned to the shore for a "talk fest". We adjourned about four as Williams had to catch the Islesboro ferry.

Gladys (Beale) Ellingson, Fairfield, Mont., lives alone and says, that even with a cane, she needs someone's good right arm to keep her in balance. She has many friends that see that she gets out once in a while.

Arthur Lord, Palos Park, Ill., regrets that things did not work out so he could get to our 60th. He was sorry to hear of the passing of Emerson Lame, who was his roommate his senior year. Said his health continues good. He lives alone and said he had just got a new gas range so he had to learn all over how to "shirr" his breakfast egg.

Eva (Libby) Jordan is now back in St. Petersburg for the winter. She rode up to Maine with her eldest son and spent the summer there. She flew back to Tampa the first part of October.

Clyfton Twombly, Dana Point, Calif., was much interested in the Boston "Red Socks" race. Hope he is not disappointed in the World Series. Frank has one good eye, uses a one finger approach to the typewriter and uses a "walker" to get around, otherwise he says, "I am in damn good shape."

Jerome Clark, Los Angeles, Calif., writes: "I am feeling as well as might be expected for one drifting along hopefully from month to month towards 90." Jerome is now our oldest living classmate since the death of Carl Garland.

We are sorry to hear of the death of Porter Swift due to an automobile accident and we wish to express our sympathy to Mrs. Swift.
Annual Reunion — June 7 & 8, 1968

MR. JAMES A. GANNETT
166 Main Street
Oroona, Maine 04473

60th Reunion, June 7 & 8, 1968

"08 The death of Reverend Thomas W. Fesenden is reported in this ALUMNUS. A few months short of 91, he lived a life of service to his fellowmen. His pastorates included churches in Maine and the Midwest. He and the lives of many men and women, young and old. We shall miss him.

A recent visit to the Raymond H. Fogler Library inspired us with the life of Dr. James W. Scamman of our class. Will's teaching duties included a course in Technical English covering report writing and business English for engineering students and his book, catalogued "1908 Sca 55." covers this field.

Will and Bell Cobb joined the ranks of great grandparents with the arrival on August 31 of Robert C. Browne Jr., the son of Robert C. and Julie (Love ’53) Browne. The grandparents are Paul E. ’39 and Lucille (Cobb ’38) Browne.

Our 60th Anniversary falls on June 8, 1968. Please mark your calendars for the event. We wish you all would put this in your engagement book as a MUST.

MR. FRED D. KNIGHT
9 Westbrook Lane
West Hartford, Connecticut 06117

"09 Mrs. J. Randolph Bradstreet (Helene Steward) returned to California in late August. With her daughter, she had a wonderful visit in Maine in spite of much bad weather.

Mrs. Olof J. Anderson (Martha Knight) died August 15 in Orange, Massachusetts. She had been a student for a heart condition for several years prior to her death. She had a life-long interest in birds and shared experiences with her reporter by mail quite frequently.

Margaret Gertty spent a pleasant few weeks at Philbrook Farms in Shelburne, New Hampshire after a cruise to the Scandinavian countries earlier in the summer.

Bertrand Braun’s wife, Evelyn, died in Winthrop, Maine, August 18. We offer our sincere sympathy. Mrs. Braun was quietly helpful to many University students. The Braun’s home has now changed hands since Bert’s retirement from the Maine faculty several years ago.

The Henry Nashes spent a satisfactory summer at their home near Brattleboro, Vermont. They expect to go to Florida this winter as he has been in good health for many years.

The George Naunmeks have been at their home in Peterborough, New Hampshire, for the summer. They have purchased a home in Sun City (near Phoenix) Arizona, where they expect to spend their winters hereafter.

Through Bertry Mason Carlisle, I have the good news that her father, Jesse, has made remarkable progress since his serious illness. I am sure the devoted care of Molly had much to do with his recovery. Congratulations to both Jess and Molly!

Bill Higgens of Harry and Ruth Higgs, gave us a pleasant surprise call in early September. He lives in Manhatseet Long Island, New York; and his mother is in Port Washington (next town). Ruth is well and enjoying an active life. Harry died in 1950.

MR. GEORGE D. BEARCE
138 Franklin Street
Bucksport, Maine 04466

"11 A letter from Lowell F. Clark of 1914A Broadway in Waynesville, Ga. enclosed a check for $38.56 for the 1911 Fund. The 1966-67 donations were $61.44 so his check made it an even hundred. Thanks to you, Lowell, for the gift. He writes like he is not too busy and quotes G. B. Shaw and likens himself to Mr. Doolittle in the play Pygmalion, so that is life for him.

A note from Clarence F. Dooce of Dover-Foxcroft says that he is unable to get down to Oroona this fall because of other business. He might get lost dark in a forested Campus with all the new buildings going up.

We finally got the address of James L. "Dinny" Dinmore corrected. He lives at 85 Exeter St., Boston, Mass. Had trouble with his mail.

When in Ashville, N. C., N. E. "Nemo" Smith and wife Etha took me for a trip through the wonderful Smokey Mt. to their home in Franklin, N. C. On the way we visited Weston in Outlook and his good wife at Waynesville, N. C. where they spent the summer but will return to St. Pete this fall. It certainly does get hot in Florida in the summer. Sid raves about the Smokies and I surely think that the country reminds him of New England.

Al and Madelyn Conley are spending the summer in Maine and are due to attend Homecoming. They will start for Sarasota, Fla. later this fall.

MR. WILLIAM E. SCHRUMPF
84 College Ave.
Oroona, Maine 04473

"12 Austin Jones is one of our busiest class members. In addition to the responsibilities he has in connection with his Graysone Motel and farm, he finds time to write articles on current events periodically, but quite regularly, on Bangor’s WABI (Channel 5) TV station. As you might expect his comments are biting and dead on.

Frank (Peter) Lancaster was an honored guest at a meeting of the Phi Eta Kappa Business Association called to inspect the newly renovated Frank Lancaster Lecture Hall. He was an undergraduate member when the house was opened nearly 60 years ago in 1908.

We received notice that Warren Savary was married to Mrs. Marjorie Ayer of Framingham, Mass. on Sept. 30. Mrs. Ayer is a former schoolmate and a long standing friend of the Savary family.

MR. HARVEY P. SLEEPER
327 Luspen Way
Short Hills, New Jersey 07078

"15 A nice note was received recently from Charles W. Roberts (Rochan) who says, "My husband, my sister and I drove from Cleveland to Toronto. B. C. in his truck with our son, Hurnham W. Ragon, Jr. ’55, who is manager of Beloit’s International of Canada’s office in Vancouver. The trip thru the Canadian Rockies was outstanding. In May, the above three took in Expo 67. The Maine Pavilion was very interesting."

Your secretary and Mrs. Sleeper spent four delightful months in Searport this summer as usual. No ’15er’s called altho we had many guests. So I am still waiting for more news items from you. I will sign for insertion in future issues of our Class Notes. Also Bob Fogler is still waiting for further contributions to the Class Fund.

MR. EVERETT G. HAM
33 Shirley Road
Wellesley, Mass. 02181

"16 A good letter from Tim Bonney another nearly the only news item I have. Tell me of your doing so the ’16 section won’t be empty next issue. Tim took a plane trip to Europe and enjoyed London, Rome, Madrid, Ser- ville, and Paris. He said the weather didn’t equal that of the 1916 Reunion week. In fact, none of his recollections seem to be more pleasing than those of that gathering.

As our president, Hon. Shorty Peabody and Mrs. Peabody, took a feller to the White Mountains and called on Larry Philbrook at his beautiful Shelburne, N. H. home.

MRS. WILLIAM WEST
(Hein Danforth)
Broadway
Bangor, Maine 04401

"17 We have just moved back to our apartment from our summer home and I am hoping that you will all remember how much I welcome hearing from you. I wish that you spending the winter in Florida would let me know by late November so that it will be in the January Alumnus; my notes must be in the office on December 1st.

Claire Parker Shanes and her husband spent their summer in Alaska; Claire was sorry not to join us in June.

George Wedlin writes that he and his wife spent a pleasant summer in Maine, in spite of the fog. They leave for New Smyrna Beach, Florida, in mid-November on their way for a visit, including Thanksgiving, with their daughter and her family in Madison, New Jersey.

Donald Welch, at last, has given us a report on his activities since his graduation. Following war service in 1918, Don got his M.A. at Harvard in 1921 and his Ph.D. at Cornell in 1925. He a Fellow, American Association for Advancement of Science, a member of American Physiopathological Society, the Society of American Foresters, and the Mycological Society of America. He has taught at Harvard and Cornell, a Research Specialist in the College of Forestry at the University of Idaho, has served as Technical Advisor, Consultant, Collaborator in biological investigations in both State and National Forestry Services. He has held other memberships of interest, but too many to mention. He was married to Catherine Graham, who holds a B.S.A. and an M.A. from the University of Toronto. They have a daughter, Catherine, and a son, James. Thank you, Don, for bringing us up to date on your interesting career.

Since my last column, we have lost two members, Parkman Abbott; Collins and Harold Pierce Andrews, and very recently, Marion Emery Cote’s husband, Joseph, and Elwood Green’s wife, Hazel. So far, the class has not lost a reunion, so Hazel felt she was a real classmate. I know that we are all remembering their families with sympathy.

MR. FRANCIS HEAD
73 Westchester Avenue
Pittsfield, Massachusetts 01201

50th Reunion, June 7 & 8, 1968

"18 George S. Hutchins writes from Toronto. Married 1923, daughter, June, is married, son George Jr. George was a first lieutenant in WWI, is an accountant with various directorships, was now retired, and trainer of a drug chain. He writes feelingly of Russell Keenan as a true gentleman.

Fred M. Loring reports he had retired from practice of law.

Francis W. Bishop, of Gray, writes that he is a patriarch, being now aged 91.

Now for some more of my June travels.

Mrs. Roger B. (Stinchfield) Brooks has moved from Newton to Waltham.

Charles Elmer Jones was unpacking in Ogunquit after a last winter in Miami Beach, where he was a clerk in a hotel. There are too many Cubans now to be interesting. After fighting the war, he did lumbering in Aroostook County, where in the Depression they needed a game of mass murder, and he stayed at that until he retired at an over-age 66. He lives with his sister, Mrs. Jankins.
Francis D. Chapin answered the phone. After the war, he was an engineer for G. E. in Lynn for five years, then moved to Saco, where he farmed with his brother and sister. When his brother died he stopped farming.

In Portland, Raeburn L. Marsh told me he worked on a farm in Corinna, then went into Railway Mail Service, out of Portland to Boston, Bangor, Caribou and McArdan for 40 years. Where he has a garden and apples and records for blind students, and educates himself in his subjects, and bowls. He has a son in D.C. in the State Dept. and a daughter in Virginia with four children.

Mrs. William L. Luce (Edith DeBeck) remembered a dance I took her to. She taught math in Dexter and Belfast. Many of her students went to Maine. After marriage they spent two years in Florida, one in New Orleans, in insurance. Her husband died in 1956. William Jr. went to Maine. Three daughters, 10 grands, some of whom ski. (She used to skate and snowshoe.) Her eyes got bad, so she doesn’t drive, but they take her to Sugarloaf, and they help take care of her big house. She has been president of the Maine Club and Woman’s Club. Ex-Executive Club College Players and church guild. She teaches bridge.

Bob S. Johnson was at home in Topsham. When he came to the door I said, “Hello, Bob.” He said, “Who are you?” So we got on fine, and have muffins and coffee. He stands straight and rugged, pink complexion, and white hair in places. He was a sheave-tail in Engineers, then had a wife and children, homesteading in Wyoming. When he found it wouldn’t support one cow, he joined oil drillers for five years. Then to G.E. in New York, where he constructed un-til retirement. Now they travel and have a garden. He married the daughter of a U of M graduate and a sister of another. Robert, Jr. adopted a boy and a girl.

MRS. STORMONT JOSSELLYN
(Emilie Kriter)
229 Kenora Avenue
Haverhill, Massachusetts 01830

President George Ginsberg is delighted to announce that Peg Biehen has agreed to serve as co-agent for her class with him—Big Job.

You will recall that Peg was our elected class secretary in 1920 and served faithfully in that capacity for the schools’ Alumni Association and members of the Alumni Association. Since then she has served on many class committees, so your class officers welcome Peg’s continued services to 1921 and to Maine, services she will enjoy.

Harold Sawyer and his wife spent several weeks in their retirement. On their return trip they were in San Francisco several days, then spent a week in Berkeley visiting Harold’s sister, Estelle (Swinford) J. Carlson.

Ormond Lawry and his wife, in 1941, bought a small cottage in the Pemaquid area which they named The Owl. Since that time they have added four more cottages, each named Owl in different foreign languages. Now their project is known as “Lawry’s Cove Colony.” For many years Mr. Lawry was a full-time member of Lawry Brothers, the Fairfield undertaking and furniture business.

ATTENTION all you Southern bound travelers. From Rena Campbell Bowles: “From November to May my address will be 1175 Shoreview Drive, Englewood, Fla. 33333. Ruth (Small) and Howard Sewall will be living nearby. From the group we have ‘fun’ with, there are 11 who are retired or living from the University. Looks like a good attendance at Alumni meetings in the South.”

It is perhaps that we note the death of our faithful, loyal class officer, Carroll Candy Swift, first vice-president. For many years he served himself and loyally. Now it was too big for him to tackle. He was an outstanding class member. We who have shared in Maine, and who have enjoyed renewing old friendships at Reunions and Homecomings, will miss his warm-hearted and joyous delight. To his wife and daughters our deep sympathy. To the families of our other deceased members (see necrology) we extend our sincere sympathy.

LESLIE W. HUTCHINS
38 Alban Road
Waban, Mass. 02168

22 Perhaps some of you might be interested in how an old pro at forced retirement keeps enough “steam in the boiler,” to slowly roll along.

As a year marks a milestone in a person’s history, so do slides provide a record of the more important events and to nourish our minds when we reflect upon the past.

For instance, here is the year 1967 at a glance not including Oct. Nov, Dec.

The highest snow level on the front lawn in February; April at a Friend’s house at War-rior’s Rise, Tryon, N.C.; my son’s do-it-yourself twenty-four-foot foot sloop at its dock at Rock Hall Md.; my growing pine trees near Farmington, Maine; John’s going to the reflected moun-
tains on the peaceful waters of Kennebago Lake as seen from Grant’s Camps, near Rangeley.

The reconstructed old colonial home of a dear friend at Damariscotta, Maine.

Oldest of twelve living Wellesley College graduates and her dog by the Cape Nedick River at York, where I swam, fished and sailed years ago; the proprietor of Grant’s Camps that taught me to catch three ounce grass and a rod and a grasshopper fly,

for the first time.

Let about giving your secretary some help for the next issue of the Alumnus, the deadline is December 1, 1967?

MRS. CARL T. STEVENS
(Ronceile N. Cleaves)
125 Frances Street
Portland, Maine 04102

45th Reunion, June 7 & 8, 1968

Ivan Pease and Madeline are heading south soon. Since his retire-
ment, they cannot stand cold winds. For years they were in Mexico. They are going to try Florida for a change.

Mardil Wilroy Frost and “Jack” were in Bar Harbor for the month of August and I had the pleasure of visiting with them and their two grandsons.

I didn’t see George Renwick but heard that he is teaching at Acadly Academy this year.

Maurice and Lois M. True (“Maurie”) are enjoying his retirement and are fortunate in having a daughter and grandchildren living next to them in Brunswick.

Fernald Stickney spends one week in Maine and then one in New Jersey. We have tried to get together to make plans for our 45th reunion in June but UNCONNECTED yet. But—we will, and if any of you have suggestions for something different—be sure and let us know. Let’s hope we are the best one ever and keep your dues and class gifts rolling in. Remember—they are tax deductible.

Do, please, keep me posted on all news.

MRS. CLARENCE C. LITTLE
("Bea" Johnson)
RFD 1
Ellsworth, Maine 04605

24 Here we go blasting off into another academic year. Greetings and salutations.

Speaker at a recent dinner and wife Mavis en-
djoyed a delightful visit with Olin and Mac Callighan at their beautiful home in Kalamazoo, Mich. in July. This foursome plans to at-
tend our 45th reunion in ’69. How sweet it is to hear of such advanced enthusiasm. Let’s all plan the same.

Paul M. Croxford and wife Erma have stacked up a total of 11 years of study at the Univ. of Maine. Counting sibs and nieces and nephew the family totals 22 years of academic training at the University. This may set some sort of record of loyalty.

Elwood B. Bigelow passed away on July 14th. The class expressed its deepest sympathy to his family which includes his son, Elwood Jr. of M. ‘50.

Davenport and his wife have moved to Hendersonville, North Carolina where their ad-
dress is Route 3, Box 58, zip code 28739. They are enjoying the high altitudes and their gor-
geous view. Bruce retired from the N. Y. Tele-
phone Co. in 1963.

Earl Osgood, Pres of the Fryeburg Fair and of the Western Oxford County Agricultural Society was recently photographed in a newspaper with a story of an ancient snow roller, beside which he was standing. Fifty years ago Earl drove the gigantic device which required three pairs of horses to pull. Imagine manipu-
lating his paws! Thank Heaven for our newer motor machines.

Ruth and John Conti were in Ellsworth re-
cently where I encountered some shopping. They both looked radiant. John had a serious heart surgery and now has a pacemaker which I understand regulates the heartbeat—anyhow all pretty well. They are planning to move to their new house in Waterville in the sum-
er and at Clearwater Beach in the winter.

I was very interested to learn of this new fall and hope to see many of you there.

MRS. WILLIAM E. SCHRUMPF
(Sister G. Brown)
84 College Ave.
Oroono, Me. 04473

Not often does the principal and the school retire together, but after 40 years as principal of Bar-
53 Mass. High School, Leroy (Slim) Dawson has retired. Former Bar High School students will attend a new regional high school. Leroy began teaching math and science in 1926 and in 1927 was appointed principal. A veteran of World War I he took time out in World War II to serve as second mate in the Maritime Service in both the Atlantic and Pacific Oceans. His hobby when traveling? Various schools all over the country.

Another retiree is Don (Jiggs) Dressel, of Lakewood (Madison), who started with the Government Service Administration in O.P.A. He went on as area manager for General Serv-
ices Administration, covering Maine, New Hampshire, and Vermont. He has 39 govern-
ment owned buildings and the repair and improvement projects for 87 more buildings was the concept of the job.

Herbert Brag has gifted the University with a collection of 25 unusual and beautiful steins. Heribers is semi retired from 20th Century Fox Film Corporation.

Bob Fike, Kezar Falls dairyman, has re-
cived special recognition from the American Cattle Club of Columbia, S.C. for his breeding records completed in his registered herd of Jersey cows. The production level far exceeds the average of all U.S. breeding records.

Claude Tozier has retired after 42 years with the New England Telephone Co., and nine years as Maine traffic manager for the company. Claude has a freshman son at the University. Two daughters have graduated from Bowdoin College. Claude keeps his home and camp in Maine and a house in Florida.

Betty Cooper Coo was co-chairman of the New England Telephone Co. The Regiment's 46th anniversary celebration of its 50 years. The Don Hastings (Bessie Muzzy ’27) retired Jan. 1 from Bendix Aviation. Yale’s 266th rotunda in Tenants Harbor from mid-April to Nov. 1; are apartment dwellers in Mahwah, N.J. (they call it headquarters) for time, and spend February and March in Florida.
Bob Haskell received the Legion of Honor Award for distinguished service to the Bangor Kiwanis Club at a past president's testimonial in October. He has been a member of the club for 40 years and is a past president. Bob is a trustee of the club and president of the Bangor Hydro Electric Co.

Peg Mason teaches at the Augusta Business College in addition to her Red Cross work.

Ralph (Timmy) Brown is treasurer of Penobscot County.

Doris Dow Ladd is vice president of the Womens Legislative Council of Maine.

Doris has been elected a trustee for a three-year term of the Hubbard Free Library in Hallowell.

Arline Lynch is chairman of the hostess committee for Business and Professional Womens Club, secretary of the Southern Penobscot Alumnae As’n, and corresponding secretary for Alpha Psi Mainspring of Delta Kappa Gamma Society. She also teaches school.

Margi and Anne Thurston Henderson, on vacation from Vermont, joined Velma Oliver and your secretary for Coffee in October on campus. Velma gave us a tour of newly opened Someret Hall, a women’s residence, and we took them to the newly renovated Carnegie Art Gallery.

Earlier in the fall, 25’sers gathering for a reunion at a Sandy Point restaurant, included Hope Norwood Bannister, Alice Hill Hallock, Louise H勇气 Lord, Harriet Page Home, Velma Oliver, Elizabeth Lawler, Arline Lynch and your secretary. Wish you had all been there!

MRS. TRYGVE HEISADT (Shirley Roberts)
503 Riverside Drive
Augusta, Maine 04330

Franck P. Morrison — The Vice President of the Penobscot Co. of Old Town, has been named Chairman of the University of Maine Pulp and Paper Foundation public information committee.

E. Leigh Chase — "Zekes" is General Operations Manager of the Pacific Telephone. They have a daughter and one granddaughter. Son Bill is a student at San Jose College and is now employed with a New York firm. He lives in Hackensack, N. J., quite near "Bump" Burrows — also near St. Susan Lacy and Ann have made two trips to Europe and recently sailed through the Panama Canal from Nancagua. People who have been active in the Boy Scout program for 15 years and has served for several years on the Executive Board of San Francisco Boy Scout Council. He is also active in yachting circles and is a member of the Board of Directors of the Pacific Inter-Club Yachting Association. He is a member of the session of his church.

Carl H. Bischoff — "Bish" retired August 1st from Chief Right of Way Engineer with the Southern California Edison Company. He is a member of the Community Church in California City. He is busy with Scouting and other civic interests. He has two sons. "Bish" at present has a small job with Edison Company.

MRS. ELDWIN WIXON (Hope Craig)
Oaknol, R. 2
Winlalow, Maine 04091

40th Reunion, June 7 & 8, 1958

"28 Wendell P. ("Pat") Noble has been named secretary in the office of administration department at the Travelers Insurance Companies, Hartford, Conn., effective Sept. 1. "Pat" joined this company in 1928 in the agency secretary’s department. He was appointed chief supervisor in 1950 and in 1956 was promoted to the position of assistant director. He is married to the former Katherine Cush- ing of Bangor. They have two children and make their home in Case Street, North Can- ton, Conn.

Lester W. Watts tersely of his life: "Have been putting in sardines in little cans for 30 years." Les lives in Eastport.

Dorothy Stewart Sayward is "still librarian at Farmington High School," she says.

Emma Thompson Ledger notes that from March 6, 1966 to June 30, 1967 "I was supervisor of Home Economics at Penobscot." Now retired to enjoy living ("Have fun!)."

Mrs. Milton S. Thomas is now recently honored at a testimonial luncheon where he was re- cognized as having served the State of Maine for 38 years, with the Maine Employment Security Commission where he has been assistant- attorney general for MESC since 1954. The Bradfords live in Readfield.

MRS. GEORGE DOW
(Mystie Walker)
100 Bannoch Road
Oromo, Maine 04473

"29 Elmer A. Stevens, Dover-Fox- conk teacher, will have after 32 years of service in Soil Conservation. With his wife he will spend the coming winter touring the Southern states.

Arthur B. Conners retired two years ago from the Bell Telephone Laboratories. Now busy with community affairs, he is a self-appointed advertising agent for the State by convincing friends to retire in Maine.

Victor B. MacNaughton has been appointed Forest Supervisor of Mississippi National For- ests. For the past 15 years, Victor has been project manager of Forest Service in the Y-T FLOOD Project with headquarters at Oxford, Miss. Mrs. Victor MacNaughton (Kay Marvin) has a new position with the Dept. of Public Welfare in Jackson, Miss. She is di- rector of training.

Mrs. Helen Moore is one of the new teach- ers at Wells. Helen taught mathematics for 30 years at Hull High School, West Hartford, Conn. During 1963-1964 school year, she was a Fulbright Exchange Teacher to the Sel- hurst School for Girls in Crowdon, England. In 1965, Mrs. Moore retired from the West Hartford School System.

MRS. ERNEST J. PERO
(Jeanette Roney)
11 West End Avenue
Westboro, Massachusetts 01581

"30 Won’t someone please help your secretary and write a note about retirement, new grandchildren, or your travels.

We are sorry to report the death of Horace Brown, Milton Vose, of Bangor and Earle "Bill" Gowell of Cumberland, which occurred recently. We extend the sympathy of the class to their families.

Louise Bates Ames has written a book, "Is your child in the ‘Wrong Grade’ or is their classroom receiving wide acclaim. This work was also presented in a six-part series in the Portland Sunday Telegram and the Press Herald.

Anybody else done anything?

MRS. SAM SEZAK
(Edith Thomas)
4 Gilbert Street
Oro, Maine 04473

"31 Louise Durgin Hammond, our class treasurer for many years, is moving to California and will be living in the "Capitol" at 15763 Rosalita Drive, La Mirada, California, 90638. We shall all miss Lou very much and hope that her move to the West Coast is only temporary.

We secured the stands for 1931ers at the Homecoming Game. Only came up with a few. Bill Hamblett and his peppy wife were loyal roots of the Maine team. Their daughter, Patricia Hamblett Petry is living in the Philip- pines where her husband is with the U. S. Con- sider Service.

Lt. j.g. Jerry McGuire son of Mr. and Mrs. Francis (Mickie) McGuire, was married to Jane Jones of this sum- mer and all the McGuire family attended the wedding at the Charleston Naval Base. Bill Jones (Mike) Burlington, the head resident of Hart Hall, a women’s dormitory, Maine. Phil Brockway received honorable mention in the annual New England Art Festival held this summer at the Massachusetts House in Lincolnville. His painting was entitled "Sum- mer Pond." This honor was given as a result of voting by all persons viewing the exhibit for the four days.

MISS ANGELA MINUTTI
55 Ashmont Street
Portland, Maine 04103

"32 John T. Barry has done it again! Bangor’s veteran city councilor who will be completing his sixth term in November has just been re- elected for his seventh term.

Elizabeth (Rosie) Jackson, Portland, is serv- ing as President of the Board of the Camp Fire Girls and is a member of the Re- gional Committee.

Mr. and Mrs. Keith Percival (Gilberta Wat- ters) had a wonderful trip to Athens, Greece in May to attend the 2nd European Interna- tional Symposium on “Fresh Water from the Sea.” They had a four day steamer trip on the Mediterranean and attended the dedication of the largest solar distillation plant in the world at the island of Patmos.

Gen. Wheeler Merriam of Peterborough, N.H., Dean of Students at Franklin Pierce College, was a recent speaker at the Amos Fortune Forum at the Jaffrey Center Meeting- house. His talk on “Military Victory and Political Defeat” was based on his experi- ences with the armistice commission. The Mer- riams have 6 children. The youngest, John, 15, attends school in Seattle, Wash. Two daughters are studying for their PhD’s in language. Yves, in studying Chinese and Harvard and Jacqueline is finishing her degree in French literature. George lives in Frankfurt, Ger- many, where he is employed by the Army as a civilian. Susan Lacy lives in visiting hours when she works and attends Harvard and Enrica is in her second year at Antioch.

John Herbert Traver, teaching in Africa had a European trip of five weeks during the summer. Most of the time was spent in Italy, Switzerland, and England. A four-day trip by steamer down the Rhine gave them a good chance to rest and observe the German countryside.

MRS. ROBERT PENDLETON
(Retty Barrow)
Island Falls, Maine 04747

35th Reunion, June 7 & 8, 1968

"33 Dr. Hollis Leland, 7 Spring St., Cranford, N.J., has marked his 30th anniversary with the Esso Research and Engineering Company, where he is the laboratory supervisor in the Employee Relations Division. An art en-thusiast Hollis works in watercolors, oils, pen, ink, charcoal, acrylic and gouache. He is also interested in sculpturing and cabinet- making. He and his wife Rosamond, have five children.

John Bankus, 177 South Cove Road, Burling- ton, Vt., is now vice-president for financial and insurance at Champlain College. John and his wife, Charlotte, are enjoying skiing, boating, diving and fishing.
John Findlay Carnochan (John and Dorothy Findlay Carnochan) completed his studies at Wharton Graduate School of Finance, Univ. of Pa. in May, Aug. 26 he married Miss Lois Olson of Larchmont, N.Y. He has a position with Equitable Life Assurance Society of U.S. in New York City.

At a recent bean supper held at the Lumbermen's Museum in Paton in August, Dick and Emily Thompson Elliott, Paul and Donna (Weber) Zief, and Caroline (Averill) Rogers, Bob and Betty Pendleton had a small '33 reunion.

Bob Stubbitt of the State Department of Agriculture has mastered the art of barbecuing chicken to a superlative degree. He has served to many groups of people but I doubt that his barbecue skills are more than admired at the dedication of the Tole Toll Gate in Baxter State Park one day in August.

MRS. JOHN J. TURBYNE (Fern Allen)
70 Boston Avenue
Waterville, Maine 04901

'34 My apologies for having no column in the last issue. John and I, with our aunt and my sister Rena ('36) spent six months in July traveling across the country. We spent one night in Riverside, Cal., guests of Dorothy Romero and her husband, Adrian, where we were royally entertained. Then our route took us north through the state of California, and we returned via the trans-Canada highway, after a memorable tour of the U. S. and Canada.

On our return, we received news that Dorothy Gentry’s father had passed away in Bangor. Our sympathy is extended to you, Dot, and to your family.

Pete Karalakas has retired from the position of chief water engineer of the city of Springfield, Mass. Pete attended Boston schools and the Huntington School. He received a master’s degree in sanitary engineering from Harvard Graduate School of Engineering and is a member of many civic and professional organizations. He has been the water works “man of the year” for the New England region of American Water Works Association. Pete has accepted a position with Cast Iron Pipe Research Assoc. as regional engineer, covering the New England area. Will still be working in Springfield. Hopes to visit Orion area in work.

George Hubert Cooper Sr. is living in Princeton, Fla., and has a farm machinery and farming equipment business in Oregon, Maine, in association with a son and son-in-law.

Roscoe Cuozzo is chairman of the Foreign Contractors Association, Boston, Mass. He is the director of the Pullorum Laborato-

MRS. CHARLES PAINE (Louise Russel)
212 West Broadway
Bangor, Maine 04401

'35 George D. Carlisle has presented the records of the famous Katahdin Iron Works to the Raymond H. Shepard Library. The handling and care of original documents is a major aspect of their program.

Clayton Kavanagh, chairman of the board of trustees of the Waldoboro Sewer District, has been named acting superintendent. He is negotiating on a contract with a privately owned sewage disposal plant for Waldoboro.

Win Coburn Anderson was elected president of the University of Maine Alumni Teachers at a meeting held at the Memorial Union in October.

Ruth Todd Farnham of Bath visited with Polly Budge Estes during the October State Teachers Convention in Bangor. Ruth’s husband Ray is Executive Secretary of the Maine State Principal’s Assoc. and, in this capacity, was a delegate to the National Federation of High School Principals in Honolulu in July. Ruth went along, of course! This summer they have also attended a workshop on “Revision of the Evaluative Criteria” in Bloomington, Ill.

Ruth says that Bunny Webber Blagdon of Wiscasset has served as a secretary to the Bath Iron Works.

You have all had your annual letter from our Class President Paul Bean. This is to remind you to respond if you haven’t already, ear-making a fair share for our class of ’35 fund.

MRS. A. TEMPLE SMITH (Dorothy Jones)
25 Thompson Street
Brunswick, Maine 04011

'36 Honors this month go to Brigadier General Roland M. Gleszer, Director of Management, Comptroller of the Army, who has been nominated for promotion to the grade of Major General. The class extends its sympathy to the family of Dr. Donaldson of Bangor.

We had a nice visit this summer with Polly Harmon Butler when she stopped over-night on her vacation in Maine. Polly is a nurse in the Infirmary of the State University of New York at Albany, and took her previous vacation in Europe. I am guessing Polly leads the class in grandchildren with SEVEN.

Don Huff and wife, Ethelene Parkman ’39, were pictured in the Sept. 9th edition of the Kennebec Journal with Gov. and Mrs. Kenneth Curtis while attending the Autumn Invitational Ball at Waterville benefitting the Kennebec Mental Health Clinic. Don is on the board of the Clinic and is also a trustee of the Hubbard Free Library, Hallowell.

MRS. JAMES BYRNEs (Barbara Bertels)
15 Kenduskeag Avenue
Bangor, Maine 04401

'37 Harold E. Young, forestry professor at U. of M., combined a trip on the 14th International Union of Forest Research Organization Congress in Munich, Germany, Sept. 3 to 9, with a reunion with friends in Norway. Dr. Young was awarded a National Science Foundation travel grant to present a paper at the forestry congress.

Lucinda Rich Waterman sends news of her children, and a nice smart group they sound: Daughter Rebecca graduated in 1966 from U. of M., (Business Administration) and is employed at the Aetna Insurance Co., Hartford, Conn.; Son Robert is a 4th year student at the College of the University of Rhode Island, and daughter Sarah is in her junior year at the Camden-Rockport High School.

Sargent Russell, noted professor of agriculture and food economics at the University of Massachusetts, has been named Fulbright lecturer in agricultural economics in Turkey for the coming academic year. He’s at Ege University, Izmir, Turkey. He also served as Fulbright lecturer at Ankara University in 1956.

A party at the Upton Grange Hall honored Fred S. Judds and his wife on their 25th wedding anniversary. The affair was arranged by their children, Mr. ’68 and Mrs. Fred S. Judds II, of Orion, and Mr. and Mrs. Matt Brooks.

Norman Carlisle and his wife Pauly (a graduate of Wheaton) have two children in college now — a son who’s a sophomore at George Washington University and a daughter who’s a freshman at Ithaca College in Ithaca, N.Y. Two other daughters at Bangor High School, and one in 4th grade.

James (Goldsmith) Cooper is on the staff of the library at U.M.P.

Naida (Sanders) and Don (’36) MacNaughton pooled their savings for sailing the foggy waters of Penobscot Bay this past summer. Naida is now librarian at the George Weatherbee School in Hampden, and takes an evening course in cataloguing and classification at the U. of M. Library. Their older son Thomas is a freshman at U. of M. this year.

MRS. DUNCAN COTTING (Midge Lynds)
Eight Whittier Place
Charles River Park
Boston, Massachusetts 02114

'38 Charles Cain has been a corporate officer since 1962 with the Hooker Chemical Corporation of New York, and has been serving recently as the general manager of the Farm Chemicals Division. He now joins the company group as vice-president-sales. He will be responsible for establishing corporate sales policies and for assisting in the planning of the company’s various operations and in the planning of the company’s various operations and in the expansion of the company’s various operations.

Evelyn Adriance Miles has an exhibit in the Fogler Library Photo Salon during September and October of 60 photographs of Orono — “One Year In A Maine Town.” Evelyn is a free-lance photographer and says that although all the pictures are of Orono in 1966 they represent a selection that hopefully gives the viewer a rewarding glimpse of any Maine or New England town.

Ray Goode, Bangor News circulation Manager, celebrated last June a twenty year an- niversary as a member of the All-American Soap Box Derby. He has been actively inter-

Your correspondent must apologize for failure to keep up with this column these past months: the combination of returning to work as a Medical Technician (after 25 years), and keeping in touch with our oldest son Michael, with the Air Force in Vietnam and maintaining the household for second son Donald and husband, proved to be quite a workload. Routine has now been established, however, and we hope to keep current with all of your news and interesting items. Late recognition of newsworthy items about our class follow below.

Deans The Dean of Augustana College by recognizing the talents of Thomas G. Fielder by announcing his appointment as assistant vice president and director of marketing for the bank.

Richard Mayo of Bangor was one of four Maine Education Administrators selected to participate in the 1977 program at a summer institute for basic adult education held at the University of Colorado for three weeks of study. This group will be introduced to the field of adult education and will be given a comprehensive program of course work that will include synergism of the field of adult education and will be given a comprehensive program of course work that will include the latest research in the field.

James I. Finnigan was named a vice president of the Merchants National Bank of Bangor at the April meeting of the board of directors. Jim has been with the Merchants Bank since 1937, a commendable record of service to the bank and the community!

In June, at their annual meeting, the Maine Purchasing Agents Association elected G. Merrill Thomas of Thomaston, and James A. McPherson of Cape Elizabeth, as President and Executive Director, respectively. The Executive and Professional Hall of Fame has inducted Henry P. Pfyor, in recognition of his many distinguished career accomplishments and his nearly unparalleled participation in civic and community affairs. The University of Maine and the state government also appreciate Henry's efforts in the field of community affairs.

The National Life Insurance Company of Vermont has announced that Ken has been appointed to membership in the firm's eleventh President's Club for outstanding client service and sales. Ken is an associate of the Ronald E. Bishop agency in Bangor, eastern and northern Maine's general agency of the National Life Insurance Company. This membership entitles Ken to attend the Club's educational conference at the特に supplements omitted free meals and a number of other benefits.

Lt. Col. John C. Schoppie has recently assumed command of the 22nd Air Refueling Squadron for the next year. During his tenure in 1963, John began his career in 1942 when he entered the Naval Aviation Cadet Program. In 1943 he was commissioned in the U.S. Marine Corps and the following three years participated in campaigns to free the Philippines, Saipan, Iwo Jima, and Okinawa from Japanese occupation. In 1949 he transferred from the Marine Reserves to the Air Force. A year later he was recalled to active duty and was in the Korean conflict. From 1952-55 he was maintenance officer at Yokota Base in Japan. He was a pilot flight command and operations officer at Dob AFB in Maine. After completing aircrew upgrading training in California, he was assigned to the 22nd Air Refueling Squadron.

Once again the URGENT plea goes out for news!!!

I am delighted to report that a recent release from the Carnegie Tech News Services announced that Dr. Edward F. Casassa had been appointed as professor. Edward received his B.S. from Maine, 1945, and his Ph.D. from M.I.T., 1953. He was a chemist at the duPont de Nemours Co., 1945-48, and research assistant at M.I.T., 1949-52. He

phonograph records and engineering work on both sides. His brother John (Rubinoff) Becker lives in Chestnut Hill, Mass. Her husband Frank is a teacher and has four children, three sons and a daughter.

The Harding twins have close ties with the University of Maine. Novan Bill, who still deals with that delectable Maine delicacy, lobster, has a son on campus. Dave has three sons attending — William, a junior, and twins John and Street, freshmen. Don Taverner returned to the campus recently to speak at the opening session of a television orientation workshop for faculty members.

Living in Hampden, Maine, are a number of '44ers. Dick Stratton, an electrician with the Bangor Hydro-Electric Company, but he devotes much of his spare time to such civic services as the zoning board, the local and regional planning boards, as well as to church duties. His three children are James, 20, Peter, 17, and Diane, 15. Phil and Barbé (Sears) Johnston are also active members of the community. Phil is serving on the school board and Barbé teaches Literature in grade eight at Weatherbee Junior High School. Phil is sales engineer with the Acme Wholesale Division of Meccaw Industries in Bangor. Their sons are Scott, a senior at the University, David, 16, and Mike, 9. Those of you who have lived through the construction of the box cars which are to know that the two older boys are "graduates" of the finals at Akron, Ohio. I'm teaching eighth grade English at Garland Street Junior High School in Bangor.
served as post doctoral assistant at the University of Wisconsin from 1952-56. From 1956-59, Ed was associated with Mellon Institute as a fellow in 1956 and a senior fellow in 1959. During this period he found time to lecture in chemistry at the University of Pittsburgh. Ed has done a considerable amount of writing and has been a regular contributor to the *Journal of Polymer Science* since 1965. He is a member of the American Chemical Society as well as the American Physical Society. We 43'ers are very happy for you, as well as proud of you.

We wish you continued success, Ed. Willard Moulton, second vice president in the underwriting division of *The Union Mutual Life Insurance Company*, has earned a fellowship from The Life Office Management Association. Joseph C. Chaplin Jr. is a member of the class of 1971 at the U. of M. He is the son of Joe and Ginny (Tufts '46) Chaplin.

Another class member having a son in this year's class at the university is Helen Stacy McDevitt. Helen, husband and family have moved to 4655 Ridge Road, Cazenovia, N.Y.

Trenton, N.J. 08618

20th Reunion, June 7 & 8, 1968

News is quite sparse this month, but here goes with a most interesting release from the American Friends Service Comm., concerning the career of Ed Snyder who has been granted a 2-year leave of absence to open an office in Singapore. The program he will head arranges international conferences and seminars for diplomats, Asian leaders and students. Ed's family accompanied him out of Washington and found themselves in his wife, Dorothy and their 4 children, Edith, 14; William, 12; Marjorie, 10; and Russell, 7.

Next, a couple of "show biz" notes. Harriet (Watson) Litchfield of Florham Park was cho- rographer of the Par-Troy Community Theater production of "How to succeed in Business, Without Really Trying" being presented Oct. 27-29. Also, watch for Steve McQueen's new picture, "Thomas Crown, Esq." which was filmed in Boston one of the extras is none other than Lois (Doescher) Atkins! More to her liking, however, was the local theater production of "Never Too Late" in which she starred.

And speaking of Boston. Frank attended professional convention there late in September and even found time to see the Red Sox play.

June (Swanton) Johnson works that she is teaching biology at Whitman-Hanson Regional School about 7 mi. from Brockton.

From the Alumni Office comes word of the death of Harrison Phillip Crowell in Venetia, Pa. Our deepest sympathy is extended to his widow, Dorothy.

I hope you're all thinking about our 20th reunion and let's be there — henceforth, each column will end with a reminder, in case the date isn't already down on your calendar.

REMEMBER THE DATE — JUNE '68.

MRS. FREDERICK P. ANDREWS
(Verna M. Wallace)
41 Bellamy St.
Cape Elizabeth, Maine 04107

We had a chance to be on campus briefly one day this fall, and Fred and I were amazed at the tremendous growth in the three short years since we were there last!!

Ralph A. Stevens has been promoted by the University of Washington, D.C. He and Shirley Hughes '52 will reside in Chevy Chase, Md., with their children, Daniel and Deborah.

In our next column, we'll report on Bill Ballos, this time announcing his appointment to the Bangor City Council. Good luck! (Note: He was elected.)

Lady Bird Johnson this past June enjoyed a visit downtown in Cape Elizabeth prepared by none other than our own Bill Foster of York.

Carleton A. Rogers has been named as superintendent of the Bangor-Brewer operations by the Bridge Construction Corp.

Former Gardner-Webb High School varsity football coach and athletic director, John R. Schmidlin began his new duties as athletic director and intercollegiate coach at Washington State University in September.

MRS. GEORGE R. BROCKWAY
(Elinor Hansen)
R.F.D. 3
Auburn, Maine 04210

50

A very Merry Christmas and Happy New Year to YOU! When writing those Christmas notes, do send a copy to our column. Tim does not go on a lot of cards but does march on! Tom Menneally has a son Robert in the freshman class at Maine. Betty J. Ladd was selected by the U. S. Dept. of Education as one of 25 people from the U.S. to participate in a social studies trip to India for two months. The group has already been studying in New Delhi and traveling around the country, "B. J." will be home again in early December.

Dotty Butler Marsden is again a lecturer at the Eliot-Pearson Dept. of Child Study at Tufts U. Dotty will be teaching in the training program of Operation Head Start this year.

Philip Coef, Jr., has moved from Mil- linoic to Hampden. Ruthie Holland McIlwain has been appointed Director of the Nor- wich, Conn. Community Action Program, which is a multi-service, multi-compartment program serving children from birth to five years of age in the low income families of Norwich. Ruth has served as teacher-director of the Groton Head Start Project the past three years and has been a graduate student at the State U. and the U. of Conn. Dick Bleakney was selected as one of 160 business executives and government officials and is participating in a session of Advanced Management Program conducted by

the Harvard U. Graduate School of Bus. Ad- min. for a period of 13 weeks. Frank Potenza was appointed to George-town for a year after graduation, then worked for a couple of years before affiliating with Equitable Life and then special representa- tive now in Portland. Franklin and Edith now live in Cape Elizabeth. Bob Stoddard is now living at 1630 Carrollton, Ohio, for the Oxford Paper Co. Lovell Rawson is state forester manager for American Forest Products Indus- tries. The Kenneth Grays live outside of Bangor. Herb Glenn is president of the Me. Truck Owners' Assoc. and of the Me. Bridge Assoc. Carl Fenderson is now northeastern field director of the National Wildlife Federation. Don Ballard is director of guidance at Mat-tanawcook Academy in Lincoln. Don received his M.S. in education at Maine in '64. Keith Fowles who is operations director of WG&AM-TV in Presque Isle was named president of the Maine Assoc. of broadcasters. Alfred Jones was married this past summer to Carol E. Commons who graduated from the U. of R.I. and is a laboratory technologist. Alfred is principal of a school in Auburn, Mass., and resides in Charlton. Whitney Hodgkins is a newly elected president of the Maine Assoc. of Cooperative Extension Agents and also represents the Northeast on the directorate of the National Assoc. of County Agents. Among citizen awards, the 1967 Edition of Outstanding Civic Leaders of America is Arnold Brewer, Jr., and Raymond Greenleaf, both of Southport Harbor.

Our column has returned to Maine and is asst. vice president of the Canal National Bank. All for now until '68!

MRS. GEORGE H. BRADGON

51

I am taking over for Hilda (Livingston) Miller while she and husband, Stan '50 and children sojourn in the South Pacific for two years. Stan is Project Director for Lincoln Labs Missile Testing Site on Kwajalein. (I thought I was so smart to be on the nominating committee at the Class Reunion!)

I received a letter from Nancy Whiting, who is teaching in Wellesley, where she also lives.

Dr. Robert Hutchinson has been elected president of the Maine Alumni Alumni Association. He received his degree in psychology, and his doctorate from Tufts. His dental practice is in South Portland, but he still lives in Libby of Portland, and three children live in Portland.

Martin F. Needham has been named re- search analyst in the Pharmaceutical Marketing Research Department of Atlas Chemical Indus- tries, Inc., and has been transferred to Pasadena, California.

News of Helen (Friend) Langlais. Husband Bernard is one of the country's outstanding artists. He has had exhibits of oil paintings, wood reliefs and drawings at the University. They live in Cushing and their mailing address is: S. Route, Thomaston, Me. 04873.

Congratulations to Mr. and Mrs. Dwight Demerritt, Jr., on the adoption of a son, David Burgess.

William J. Leader, Jr. of Fairfield has suc- ceeded his father as President of the Pepsi- Cola Bottling Company of Fairfield Inc. Richard E. Jones has been appointed the District Sales Manager for the Portland area of Northeast Airlines Traffic Department.

William J. Leader, Jr. of Fairfield has suc- eeded his father as President of the Pepsi- Cola Bottling Company of Fairfield Inc. Richard E. Jones has been appointed the District Sales Manager for the Portland area of Northeast Airlines Traffic Department.

Lots of fascinating news about Kinley '50 and Mary (Linn) Roby. Mary is the author of three mystery novels, as well as many short
stories. She has done lecturing with slides about their trips to England, where she gathered material for her books. Ken was formerly the head of the English Department at Orono High School, and Mary taught history. Ken is now working on his Master's Degree and his doctorate at Penn State College of High School. What a success story!!

1967

Well, by now we are pretty well settled into our new activities after an all-too-brief summer. Since I last wrote, things of '67 have taken part in all sorts of happenings.

Chi O's and SAE's will be interested to know that I just completed a teepee (or will it become Mr. and Mrs. on October 21, Those who have already taken the big step are Mary E. Ross the bride of Dave Hunkett, Dave and Mary will be making their home in So. Bur- linton, Vt. while Dave attends UVM med. school. Adrienne Ford married John Richard of Hingham and will be living in West- mouth, Mass.

Nancy Cook is a staff nurse at Maine Medi- care and her husband, W. R. Dave Sawyer '66 is a University of Maine law student in Port- land.

Donald Rogerson made Sandra Frost of Bangor his bride and they will make Green- wood, Mass. their home. Margaret Snyder and new hubby Tom Boghosian are living in Montgomery, W. Va., where she is teaching English at the West Virginia Institute of Technology. Dale Douglas married Natalie Wescovich, a student at S. W. H. Jeanette Swartout became the bride of Elmer Whitter, Jr. The happy couple will reside in Boston while Mr. Whitter completes his senior year at B.U.

On Aug. 26, Deborah Korol and George White became Mr. and Mrs. They are living in Portland. Gaylynn was attending OCS at Lackland Air Force Base, San Antonio, Tex. The West- ridge Apartments, Newfield Ave., Waterbury, Conn. is the address of the new Mr. and Mrs. Mary H. Simpson is teaching at Orrington Junior High School while new hubby, John Cluff, Jr. '69 is attending U. of M.

John Fahlgren's summer of '66 was spent in Sept. and they are living in Orono.

Edward appeared in July. After graduating in January, he will be attending Fort Bliss, Tex. Charlie Newell married Catherine Scott-Craig of Hanover, N.H. and is on the faculty of Gould Academy. Stillwater is the home of Cindy Cashman and new hubby Brian Smith while they both work for their master's de- gree.

Blair Matthews wed William Blaine in July. After graduating in January, he will be attending Fort Bliss, Tex. Charlie Newell married Catherine Scott-Craig of Hanover, N.H. and is on the faculty of Gould Academy. Stillwater is the home of Cindy Cashman and new hubby Brian Smith while they both work for their master's de- gree. After graduating in January, he will be attending Fort Bliss, Tex. Passing of a Landmark

Once started on its way commercially, Portland grew apace. By 1830 there were manufacturers of tin plate in the town, 3 of brass and iron, 3 furnaces for casting iron, 6 taneries, 5 ropewalks. Besides these, there were clock and watch makers, carriage and coach builders, and many other industries, including numerous ship and boat builders.

All these activities meant prosperity for the people of Portland. Her younger citizens then wanted the outward marks of a prosperous city — modern buildings, paved streets, new hotels for travelers. Among the old buildings marked by them for replacement by a modern structure was the old First Parish Church.

Rumors were spread that decay had so weakened the spire that it was unsafe to ring the bell. For months thereafter, the beautifully-toned bell stood mute and after much discussion it was decided to raise the spire, move the old church back on the lot, and build the present stone edifice.

When men tried to saw through the immense oak beams it was learned that fears of decay had been unfounded. After sawing and chopping as much as they could, and attaching a rope to the spire, pulling the rope with a strong team of horses served only to break the rope — the spire stood unmoved. Fearless men had to climb into the spire and saw it almost completely away from the church roof before it could be downed.

One John Hall, a Portland boat-builder, was a keenly interested observer of the proceedings. About 1812 he had designed and made a breech-loading rifle. This was a revolutionary idea to most Portlanders and they scoffed at Hall's claims for its accuracy. To prove his success in designing, he had, on a wager, stood at the foot of Temple Street and aimed at the weather vane of the old church on Congress Street. Hall claimed that he put a bullet through the vane, but this was doubted by many. When the spire toppled, however, there, as proof of his claim, was the bullet hole. In the war of 1812 Hall's patent was purchased by the United States Government, and he was employed to superintend the manufacture of his rifle at Harpers Ferry.
